VOL. 26. NO. 2 Entered as second-class matter at the postoffice at Barrington, Ill. BARRINGTON, ILLINOIS, THURSDAY, APRIL 14, 1910 $1.50 A YEAR IN ADVANCE.

WET OR DRY?

This Important Question Will Soon Be Settled for Another Two Years.

Next Tuesday, April 19, the question of greatest interest at the present time to the people of this community, "Shall this village continue to be anti-saloon territory?" will be settled.

On another page of this issue is published a fac-simile of the ballot which will be used in this, the village election. Read the question carefully. A cross after the word no means licensed saloons and a cross after the word yes means no saloons. Remember this business not question, as it is stated on the ballot, is easily confused, and, as the election will probably be close, a mistake may defeat just the side you wish to win.

After a two-year trial of a dry town, and the endless discussion, both public and private, that we have had, every man should have his mind settled upon which he thinks is best and the result, whatever it may be, must be accepted as the will of the majority.

When you go to the polls next Tuesday vote for what your judgement tells you will be best for the people in a whole. That is your duty.

Supervisors Will Meet

The Lake county board of supervisors will meet at Waukegan next Monday for purpose of organizing.

NEW ELECTRIC PLANT

How North Shore Company Will Get "Juice" to Western Lake County.

Active work was begun today on the North Shore Electric company's subway to be built here from north of the E. J. & E. tracks on the Wauconda road. The plant is to be of brick, 26x40, and about two miles south. Woodman & Moore of 184 LaSalle street, Chicago, have the contract and the work will be completed about this time next month.

By the purchase of the Illinois Lake Light and Power company, which operates in the suburban territory adjacent to this country around the city of Chicago, the North Shore Electric company has secured the electric light plants of Fremont, Diamond, Crystal Lake, McHenry and Antioch in Kane, McHenry and Lake counties. The territory thus served covers the lake region of northern Illinois which is a favorite place of resort in the summer time for people living in Chicago. It contains many summer hotels and resorts, as well as a large number of summer cottages.

By this extension the North Shore Electric company adds to its territory approximately 700 square miles. The total area served by this company is now about 1,200 square miles. This is about the area of the state of Rhode Island.

The nearest North Shore generating station to the new territory is located at Libertyville, about 12 miles. The generating station at Evanston, and these two stations are the transmission lines running north and south.

About eight miles south of Waukegan, the North Shore Electric Hub, and as the new territory acquired lies west of Waukegan, a new transmission line is to be built from the hub to the existing transmission line at Lake Bluff and the new territory will be in loop or ring enclosing the territory served and coming back to Waukegan. Lake Bluff and Waukegan will thus be virtually a duplicate line, for it may be fed into either from the Waukegan or Lake Bluff end. This new transmission line will run southwest from Lake Bluff to this place through Crystal Lake and then to Ringwood, Henry and back to Waukegan.

Construction will be located at Crystal Lake as well as here and there will be others, the locations of which have not been definitely fixed.

Expect Pardon for Kruger.

Friends of George Kruger expect an early decision of the board of pardons on his application for pardon. The board has had this application under advisement for the past six months and it is generally expected among those who have followed the case that its decision will be favorable to Kruger. He has served ten years of a life term for the murder of his wife. Owing to the fact that the conviction was secured upon circumstantial evidence and because of his previous exceptional good behavior while the task of a motive for the crime there has been a doubt among many residents of Lake county as to his guilt. The people generally favor his release.

To The Voters of Lake County.

I am a candidate for the republican nomination for County Judge at the coming direct primaries, to be held September 13, 1910. If successful and elected to this office, I shall give all the people the consideration, fair treatment and justice I believe its dignity, importance and increasing business in this growing county deserve. I will appreciate your assistance and support.

Respectfully,

PERRY L. PERSONS.

Burglar in Hard Luck.

A frisked (Eng.) burglar got more than he expected in his last exploition. It was stated in court that a Miss Sarah Williams saw the prisoner entering her bedroom one night, and, jumping out of bed, she rang for a policeman (Eng.) Meanwhile, the three women tackled the burglar, giving him a second beating, during which he howled for mercy. He was sent to prison for seven years.

PLEASES THURSDAY CLUB.

Mrs. Welles of Park Ridge Gives Interesting Talk on Gems at Club Meeting.

Mrs. Clara Burch Welles of Park Ridge who addressed the Thursday club last year at Mrs. H. K. Brockway's, speaking on our national rugs, again delighted the club and guests last Thursday at Mrs. G. W. Spunner's, where she did of "Gems." Mrs. Welles is a designer of jewelry with a shop in the Congress hotel, Michigan avenue, Chicago. She is a beautiful, cultured and traveled woman whose lectures are worth sought and highly paid, but she graciously visited the Thursday club as a friend of Mrs. J. I. Sears. Many interesting and new thoughts relative to precious stones, their source, connection with history, science and romance were brought out in an entertaining manner and specimens of stones and displays exhibited.

Misses Jennie Fletcher, Violet Uhlisch and Florence Collen gave vocal and piano numbers and Mesdames H. T. E. White, J. I. Sears and A. L. McHenry served tea during the buffet luncheon served.

The Spunner home is a charming place for such a meeting and entertainment was made more pleasing by decorations of carnations, pansies and street peas.

The guests were Mesdames E. S. Barth, Ray Lamoreaux, W. Meyer, R. T. Lamey, Dunsmore, Nellie Robertson, Jones, H. P. Castle, Ida Hawley, Page, W. Crenna, A. Uhlisch, J. Schwemin, G. Carmichael, A. Collins and Ben Castle of Arlington Heights.

TEMPERANCE LECTURE HERE.

About Fifty Attend Anti-Saloon Meeting at Village Hall.

About fifty people attended the temperance lecture at the village hall last Friday evening. Mr. Harry Shoblom, who was to make the speech was unable to be present and his place was filled by Mr. Hynagus, superintendent of the Anti-Saloon league for the northern Illinois district. He was a very good talker, although he impressed one at first as being very poor.

Attorney Castle and Mattison gave short talks, also.

The fact that the affair did not attract more people may be given as the reason that more people did not attend.

Sunday School Convention.

The fifty-first annual convention of the Cook County Sunday School association will be held in Chicago next week, April 18 to 21 inclusive, at the Second Presbyterian church, corner of Dearborn street and Washington avenue. Great preparations have been made for a good program and a successful and inspiring meeting.

A large and enthusiastic gathering is expected.

Village Election.

Notice is hereby given, that on Tuesday the nineteenth day of April, next, being the 19th day of April, 1910, in Barrington in the County of Cook and State of Illinois, an election will be held for the following village officers: Three village trustees.

One village clerk.

The following proposition will also be voted upon: "Shall this village continue to be Anti-Saloon territory?"

The election will be opened at seven o'clock in the morning, and will continue without a break, until six o'clock in the afternoon of the same day.

Given under my hand at Barrington this sixth day of April, A. D. 1910.

E. F. KIRBY, Village Clerk.

Water for Sprinkling Purposes.

Anyone wishing to use city water for sprinkling purposes in Barrington during the present month may have that privilege without extra cost by paying their water rent for the season of 1910 in advance, and the rate charged for the use of water earlier than May first and the village board has decided to accommodate the people.

The W. R. C. met for the first time in Groff's hall, yesterday. It seemed quite strange to the ladies at first, but no doubt will seem more like home after a few meetings. There was an attendance of about forty members. All did justice to the birthday lunch served by Mesdames Powers, Page, Comstock and Witt.

ADVANCE POPULATION SCHEDULE

The Census Bureau Intends Introducing an Innovation in Census Taking Methods Here.

Each head of a family in this village will receive an "advance population schedule" with the questions which appear in the official population schedule to be carried by the census takers.

These advance schedules are to be filled in by the heads of families, or, in their absence, by other members of their families, and the schedules will be taken up by the enumerators during the progress of the actual enumeration.

This action on the part of the census bureau is a complete innovation and an important advance in American census methods of obtaining a count of the population, and the bureau authorities expect it to prove of great practical and scientific value.

It insures greater accuracy and completeness in the returns, as the heads of the families, who are generally the most reliable sources of information, are themselves given authority and opportunity in advance of the enumeration to examine deliberately and to answer correctly the census questions. In past censuses it was usually the case that the head of the family was absent at work when the enumerator called and reliance had to be placed on other members of the family, boarders, servants or children, or on neighbors, none of whom can be classed as dependable informants.

The advance schedule will also undoubtedly prove of great assistance to all persons, when they enable them to perform their work more expeditiously and accurately, and will lessen the number of cases involving repeated calls by them.

The schedule provides for the "Head of the family," printed on the back of each schedule. Census Director Durand states:

"In accordance with the act of Congress approved July 2, 1909, the enumeration of the population of the United States will begin on April 15. As the enumerator will be a stranger to your household. It is necessary that you furnish certain of the information in advance of the enumerator's visit. Please, therefore, answer all the questions contained in the schedule provided for each member of your household and preserve it so that it can readily be found when enumerator calls. By doing this you will not only add greatly in the work of securing an accurate enumeration of the population but will probably save yourself much trouble, since if you do not do so, a great deal of your time will be unnecessarily taken by the enumerator in order to obtain information he must obtain, and he may have to call on you several times."

Tobacco in the Orient.

Use of tobacco is universal in the orient, and the word cheroot and its use come from Malabar. The first cigars seen by Columbus were wrapped with corn husks. Some Indian tribes take the leaf of the palmas and, with a cunning twist of the fingers, roll a cigar, and long, narrow stem of a pipe in the most perfect way.

A Bed of Bayonets.

A certain devotee in India shows his religious zeal by lying on a row of bayonets, upon which he has to be kept right he is not hurt, but when he happens to move and one of his legs the point of a bayonet immediately pierces his skin As the man was trained to performing this feat from childhood, no doubt his skin is somewhat thicker than that of an ordinary man.—Strand.
