INCIDENT IS CLOSED

BREAK WITH POPE SO CONSIDERED BY VATICAN AND EX-PRESIDENT.

MERRY DEL VAL CRITICIZED

Anti-Clerical Paper, the Messagero, Places Responsibility of What It Terms a "Blunder" on Prelate's Entourage.

Rome—Determination on the part of Theodore Roosevelt to foregoe an audience with Pope Pius X. Tuesday rather than subscribe to the conditions imposed by the Vatican somewhere every other feature of the ex-president's visit to the Papal City.

It would appear that as far as the Vatican and Mr. Roosevelt are concerned, the incident is closed.

The Messagero, an anti-clerical organ, commenting editorially on the matter, says:

"When the news was spread it was received with incredulity, many regarding it as a malicious fabrication of the enemies of the Catholic church but when confirmed it produced unanimal disappointment to the Vatican. Men of every religion dully visit the pope from their religious the hierarcy of the churches they intend to visit. Why should the Vatican require Mr. Roosevelt to agree to the churches of his own religion during his short stay in Rome? The Jesuits not only all the diplomatic favor of the pope's adherents, but Mr. Roosevelt, as the head the Great American republic, followed the principle enunciated by Prosper Lambertini, from Benedictine and ex-ecclesiastic."

The Messagero places the responsibility for what it terms a "blunder" on the exchange of telegrams between Pope Pius X. and Mr. Roosevelt. It contends, it was a blunder to ask a certificate of acceptability from a man Illustrious everywhere for his intelligence and the nobleness of his life. The liberty which Mr. Roosevelt is demanding for all he could not renounce for himself."

After pointing out that a non pos-sumus could have been given without the exchange of notes, the paper declares that the whole incident furnishes new proof of the intransigentism of Cardinal Merry del Val, which, it says, "Could let loose a free citizen in his own country, remembers his liberty for Italy, for the sake of an audience with the pope." It is time that the advisers of the pope should understand that a certain composition cannot be exacted.

Although the Vatican's negotiations relative to the audience ended before Mr. Roosevelt left Paris, the requirement was withheld until after Mr. Roosevelt reached Rome, at the solicitation of his friends, who, the friends here, who believed that in the meantime the Vatican might change its attitude.

MANY GIRLS HURT IN PANIC

Leap from Laundry Windows When Steam Pipe Bursts—Nearly 200 in Frantic Stampede.

Chicago—Fifteen girls were injured more or less serious by leaping to the ground from windows and iron short fire escapes, and others were considerably bruised in a spectacular panic Monday, which followed an explosion of steam in the basement of the Central Steam Laundry Company.

The affair resulted in some particulars the holocaust in the store of the L. Fish Furniture Company, ten days ago. Nearly 200 employes in the establishment which shook the city story building from roof to foundations, the metal lodges on the outside of the building were laden with frantic young women employes, screaming like mad.

A few of those on the second floor jumped unbroken duty and were picked up from the cement sidewalk, groaning with pain of injuries. Although there was no actual fire, an alarm was sent in, and the firemen did much in rescuing terrorstricken employes from dangerous positions on fire escapes.

The explosion is said to have been caused by a weak elbow in a stitch pipe. A long line of girls, in the scream of a steep whistle followed the blast and added to the panic of the nearly two hundred girls at work on the upper floors.

Explosion in Graft Cases.

Pittsburg, Thursday—Dynamite an explosion in the graft cases. Monday Attorney William J. Brennan, in behalf of the indicted councilmen, raised the point that Foreman Hartman Nesbit of the special grand jury is not an established resident of Allegheny county and that the jury is all on the grand jury. This point if sustained, will invalidate all findings made thus far by the grand jury. Judge R. S. Fraser has taken the papers in the case and will give a decision in a day or two.

Mrs. Vice and Religion.

Macon, Ga.—Having the attention called to a residence at Fourth and Oak streets, Chief of Police Walter R. Chapman Monday made the discovery that the interior, the grass her name as Mrs. Allen, during the day sells religious tracts of her own composition and at the same time presides over at alleged disorderly resort, to wh a young woman, 18 years of age, has been lured to a life of shame. After breaking into some of the tracts found in the house Chief Chapman gave orders for immediate removal.

WHAT DID HE MEAN!

Landlady—I had to pay 25 cents a pound for this steak.

Star Boarder—That's tough.

BABY'S SKIN TORTURE

"When our baby was seven weeks old he broke out with what we thought was heat, but which gradually grew worse. We called in a doctor. He said it was eczema and from that time we doctored six months with three of the best doctors in Anderson but he only got worse. His face, head and hands were a solid sore. There was no end to the suffering for him. We had to tie his little hands to keep him from scratching. He hardly knew what it was to sleep well from the time he took the disease until he was cured. He kept us awake all hours of the night and his health wasn't what you would call good. We tried everything but the right thing. "Finally I got a set of the Cuticura Remedies and I am pleased to say we did not use all of them until he was cured. We have waited a year and a half to see if it would return but it never has and to-day his skin is clear and fair as it possibly could be. I hope mothers may save some one else's little ones suffering and have their precious babies. Signed, 1403 Atchison St., Atchison, Kan., Oct. 19, 1903."

National Tuberculosis Sunday.

Present indications point to a good observance of National Tuberculosis Sunday in more than 200,000 churches of the country on April 24. Reports from heads of local anti-tuberculosis associations, health officers, pastors, medical societies, and interdenominational bodies show much enthusiasm over the movement. The National Association for the Study and Prevention of Tuberculosis has prepared an outline for a tuberculosis sermon for use on April 24, which will be sent free of charge to any clergyman applying to 105 East Twenty-second street, New York. Thousands of these outlines are being sent out every day to all of the country.

Prominent churchmen, including bishops and heads of all the leading denominations, have expressed their approval of the movement.

A Terrible Risk.

Typhoid had broken out in the neighborhood and the family resolved to travel as the best means of prevention until the trouble should subside.

They arrived at Quebec by the morning train and decided to take it to Montreal in the evening, but the sight seers got tired and returned early in the afternoon to find the top of the smokestack on a level with the dock. She had barely escaped it herself.

"Mamma," cried the little girl, "did God drink up all that water?"

"Yes, my child."

"Then hadn't we better tell him it wasn't bottled?"

Alas.

A little five-year-old who had been watching her mother dress for an evening entertainment surprised her mother with the following question: "Mother, didn't you say you were almost 40 years old?"

"Yes," replied the mother.

"Well," answered the little girl, "you don't look it tonight, but you will tomorrow morning."—Judge.

ROSY COLOR

Produced by Psoriatine.

"When a person rises from each meal with a ringing in the ears and a general sense of nervousness, it is a common habit to charge it to a deranged stomach."

"I found it was caused from drinking coffee, which I never suspected for a long time, and after leaving off coffee that the disagreeable feelings soon passed away.

"I was brought to think of the subject by getting some Postum and thinking there was a change.

"It is a most appetizing and invigorating beverage and has been of such great benefit to me that I naturally speak of it from time to time as opportunity offers.

"A lady friend complained to me that she had been troubled with a bad taste good. In reply to my question and she said she had noticed it for about ten minutes. I advised her to follow directions and know that she boiled it fifteen or twenty minutes, and she would have something worth talking about. I advised her to have one of her children say that they were having Postum, whereupon the judge she succeeded in making it good, which she did and found it quite valid.

"The son of one of my friends was formerly a pale lad, but since he has been drinking Postum, has a fine color. There is plenty of evidence that Postum actually does 'make red blood.' I am a Postum enthusiast in a sense.

"Read "The Road to Wellville," found in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

MOST PEOPLE DO NOT KNOW CAUSE OF THEIR SICKNESS

Does human health depend on one organ alone? This question is becoming widely discussed since L. T. Cooper first advanced his theory that the stomach is the cause of all the ills all health dependent upon it.

Mr. Cooper, who has met with remarkable success in the sale of his new medicine, believes that the stomach is responsible for most sickness, and that this organ is weak in the present generation. While discussing this theory recently, he said: "I am asked time and again to tell why my medicine has made such a record wherever I have introduced it. The answer always is, 'because it restores the stomach to a normal condition.' No one will deny that today there are more half-sick men and women than ever before. Nothing critical seems to be the matter with them. They are just half-sick most of the time. They don't know really what is the matter with them. I have talked with thousands during the past two years, and few have indeed what their trouble was. One said nervousness, another said kidney trouble, another liver complaint, from constipation, or heart trouble, or lung trouble. Many had what, as they called it, for most of these diseases at different times. A very common complaint is 'all run down,' or 'tired all the time,' or 'no appetite.'

I know positively that every bit of this chronic ill health is caused by stomach troubles, and that my new Dyspepsia Cure puts the stomach in condition to do its work as it should. Mighty few people can be sick with a sound digestion. That is why my medicine is set such a tremendous pace. I have convinced many thousands of people that these things are so, and the number is growing by leaps and bounds.

Among more recent converts to Mr. Cooper's beliefs is Mrs. Lottie L. Henniker, of Rural Route No. 1, Henniker, N. H., who says: "I was in poor health for years, suffering from sick trouble and indigestion. Quite frequently my stomach was so weak that it would not retain solid food. I had vomiting spells every morning, and nothing I ate agreed with me, and I was constipated. I tried everything I could hear of, but found no relief until I tried Cooper's Dyspepsia Cure.

"For some time I had been reading of the Cooper remedies, and finally decided to give the New Discovery preparation a trial. After taking the first bottle, I noticed a marked improvement. Five bottles made me entirely well. I can eat anything I wish, and have not been troubled with my stomach since. The dizzy spells disappeared long ago.

My mother, Mrs. Susan Parkins, is a nurse of long experience. Both she and my father have used the Cooper remedies with splendid results. I will be glad to answer any personal correspondence in regard to my case.

Cooper's New Discovery is sold by all druggists. If your druggist cannot supply you, we will forward you the name of a druggist in your city who will. Don't accept "something just as good." The Cooper Medicine Co., Dayton, Ohio.

In Demand.

"An infant in a Pullman car set up a howl, and said would not be pacified," carries a high refined official, "and I came forward and told the young mother that I had helped to take five out of mine. I thought I could secure a quietus. I put the little tots from across my knees and with gentle jogging achieved beautiful results.

"Instead of giving me the credit I deserved some drummers in the car showed very disagreeable jealousy of my fame."

"At 2 a. m the baby woke up and stayed awake, and kept every one else up, too, and awake. Finally a gruff voice asked:

"Where's that fool that put it to sleep this afternoon?"—Judge.

Money and expense are not essential to artistic homes and attractive surroundings. Good taste and good sense, with a little time and ingenuity, will transform rooms into a graceful, dainty apartment.

Really it is good taste and skill that make the home attractive. The Ladies Home Journal's worth twice as much as money.

"Why I Prefer Cuticura" is the heading of a letter from Mrs. Ida Gray, of the Alabaslined Mattress Co., Chicago, Ill., cost of the material—any one can brush it on—and it will last years. Cuticura Soap is used when a fresh coat is required.

It is very easy to set very simple to apply, but the results are simply beautiful. The Cuticura Soap is a delicate, a little more than the ordinary toilet soap when ordinary materials are used. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove very attractive and invites cleanliness. Made with 1, 2 and 3 burners; the 2 and 3-burners have a large oven. Ask your dealer for the Acme Cookstove.

CAUTIONARY NOTE: Be sure you get this stove—not that the same-plate reads "NEW PERFECTION."

Every dealer everywhere; if not at yours, write for Descriptive Circular and Illustrated Catalogue.

Color more goods brighter and fadeless than any other dye. One 10c package colors all fibers. They do not crock. They do not rot cotton or weaken silk. They can be had in all shades. Sold by druggists. Write for free booklet—How to Dye, Stain and Mix Colors. PUTNAM DYE CO., Quincy, Illinois.

A Free Book About Beautiful Walls

We have just issued a book about house decoration. May we send you a copy—free?

It tells how to produce those beautiful walls, now seen in all the finest of homes and hotels.

It suggests color schemes—offers a wealth of ideas. And it tells what has brought alabastine into universal vogue.

Alabastine

The Sanitary Wall Coating

Alabastine is the only wall coating that doesn't breed germs. It has been so for 30 years.

In the past few years it has become the fashion among Fashion now demands a "Fresh" wall paper—never of taste—both rich and poor—now have use kalsomine—after you know the facts.

Know how easily you can apply a new on papered walls.

You can never use wall paper—never use kalsomine—after you know the facts.

Alabastine Co., Grand Rapids, Mich.

The Overland The King of Cars

No other car has so large a sale—none has made such amazing records. Price, $1,000 up.

It requires four factories, employing 4,000 men—turning out 14,000 Overlands daily—to meet the factory demand for these cars. Yet two years ago a hundred rivals had a larger sale.

The reason lies largely in the car's utter simplicity. Its able designer made it almost trouble-proof.

He created an engine which, for endurance, rivals the best in engineering.

He designed the jedal control. One goes forward or backward, slow or fast, by merely pushing a button. The hands have nothing to do but steer.

A child can master the car in ten minutes. A novice can drive it a thousand miles without any thought of trouble.

The Overland always keeps going, and always comes home. Its best unusual complexities have been simplified.

That is why such car sells others, and our orders for this year's Overlands amount to $24,000,000.
