### Lake Zurich Nine Defeated 18 to 4 By Palatine Team

Lake Zurich Pirates took a heavy drubbing from Palatine Sunday afternoon when they lost to the tune of 18 to 4. Confusion within the ranks was reported to be the cause of the defeat, new players having been substituted for several regulars. The usual players are scheduled to turn out for the next game, to be held at the home diamond, Lake Zurich, next Sunday afternoon. Arlington Heights' nine will be the opponents.

**Vitamin Family Serves Mankind in Many Ways**

Vitamin A is necessary for growth and reproduction; it maintains resistance to infections of different kinds, and promotes good health. Vitamin A is found in cod liver oil, butter, cream, milk, egg yolks, liver, kidney, salmon, and all green and yellow vegetables.

Vitamin B stimulates the appetite, helps lactation, prevents nerves becoming frayed, wards off diseases of the digestive tract, and helps ward off fatigue. The vitamin is destroyed by high temperature, and is found in whole grains, beans, peas, liver, wheat germ and yeast.

Vitamin C, first became famous because it was found to prevent scurvy. Since then it has been found necessary in building strong teeth and bones, promoting growth, good disposition, and general good health.

Probably the most famous member of the vitamin family is brother D, known to his friends as the Sunshine Vitamin. It is found in direct sunlight, and the best known substitutes are cod liver oil, salmon, egg yolk, and specially treated milk. Vitamin D is important in building strong bones and teeth, and preventing rickets.

Vitamin E, not so well known as some of the others, is necessary to reproduction. It is found in whole grain cereals, milk, meat, and green vegetables.

The last of the vitamin family about which much is known is Vitamin G. The baby brother of the family, he helps the others in promoting normal growth and functions of the body. He helps to prevent pellagra and other skin troubles with which we humans are affected. Vitamin G is found in milk, leafy vegetables, meat, and eggs, and is not easily destroyed by cooking.

**Origin of Knives and Forks**

The knives we use at our meals are the successors of the dagger and hunting-knife which the man of long centuries ago found so handy for cutting his food, and the blade of which was a duplicate of our straight-pointed carving-knife. In those days the fingers were used as forks; and it was only in Tudor times, when the enormous ruffles worn then made it difficult to reach the mouth with the fingers, that it became necessary to discover a substitute in the crude parent of the modern fork.

**Woman May Be President**

There was nothing in the Constitution which prohibited a woman from becoming President because of her sex, even before the adoption of the Nineteenth amendment.

## Merchants Softball Team Wins From Elgin 11-2

**Gieske Holds Visitors to Four Hits; Locals Get 12**

By pounding out twelve hits to score eleven runs, the Barrington Merchant's Softball team took a one sided game from the Proger team of Elgin last Friday night. The heavy hitting of Clinge, Emmy Altenburg, and Bill Grabenkort, coupled with the air tight pitching of Eddie Gieske accounted largely for the victory. Two home runs knocked out by Emmy Altenburg made the Elgin pitchers feel quite uncomfortable.

This game gave the local fans their first opportunity to view the Merchants in action at home, and it looks as though the team will have plenty to show before the season ends. The managers are hopping to book a fast stepping colored team from Waukegan who play under the name of "Maggie's Pals."

Box score:

| Barrington, 11— | AB | R | H |
|---|---|---|---|
| Taylor, c | 5 | 0 | 0 |

Mrs. Dorothy Timmerman of Elgin was a guest at the William Kahle home a few days last week.

Louis Klages and family returned Sunday from a week's outing at Lily lake.

Mrs. Lena Kuebler is visiting her daughter Mrs. Etta Jacoby, near Burton's bridge.

**Antarctic Ice Sheet**

The Antarctic ice sheet, spread over about 5,000,000 square miles, is a remnant of the most recent ice age.

**Ten Million People HELPED TO BUILD THE TIRE SENSATION of '34!**

**Beyond Comparison in Quality, Construction, Appearance and Price With Any First Quality Tire Made**

THE way to create a TIRE SENSATION is to give the people what they want, and Firestone has done this with the new Firestone Century Progress Tire.

As millions of people visited the Firestone Factory at the World's Fair last year, we asked this question—"What do you value most in a tire?" They answered—"Give us Blowout Protection, Non-Skid Safety, and Long Wear at a moderate price." This was a big order, but Firestone has a habit of giving car owners what they want when they want it.

We knew there was only one way to build Quality and Value into a tire at a *moderate price*, and that was by *volume production*. We built the greatest tire ever made to sell at these low prices. Car owners are profiting because we found out what they wanted and found the way to give it to them.

The new Firestone Century Progress Tire IS EQUAL OR SUPERIOR to any first quality tire built, regardless of name, brand, by whom manufactured, or at what price offered for sale.

CHECK THESE AMAZING VALUES

Come in and equip your car with this marvel of tire construction, at the lowest price we have ever been able to make on a tire of this high quality and construction, carrying a Triple Guarantee
