The story concerns a girl who puts her trust in two men and receives some rude surprises which give her a spicy reputation. Instead of moaning about man's injustice, she capitalizes on her reputation in a sensational way. In making the world pay, however, she runs into dangers which threaten to wreck not only her own chances for happiness but something far more important.

Nearly a hundred of Hollywood's prettiest girls lend eye appeal. There are a number of picturesque settings, as well as two new musical numbers that are knockouts.
