The new Barrington park district swimming pool and bath house, now under course of construction, will be completed and ready for use in July. The pool has been installed, and the outer shell of the building almost finished. The land surrounding will be graded and parked.

LEARN OF DEATH OF FORMER RESIDENT

A. D. Wade of Barrington has received word of the death of his brother, George Wade of Bennington, Vt. Tuesday of last week at the Bennington hospital where he has been a patient since December.

George Wade will be remembered by many who knew the family. They came here in 1912 and Mr. Wade worked for Mr. VanHagen one year.

Besides his widow he leaves three children, Edith at home, Mrs. Bessie Ellett and Alfred, five grandchildren, one sister, and four brothers in the east, and A. D. Wade of Barrington.

The classes of 1930 and 1931 are larger than any previously graduated from the local high school.

The graduation program will start Sunday, June 7, with the annual baccalaureate services in the auditorium of the school at which Dr. J. Preston Bradley of the People's church of Chicago, will deliver the sermon.

These services which will start at 8 o'clock will take the place of other Sunday night church services in the village as being part of the school graduation program.

Dr. Sherman, June 10.

Dr. Frederick F. Sherman, pastor of the Central church of Chicago, will deliver the address at commencement to be held in the school auditorium June 10. This will mark the end of the program.

All regular class work will be completed Thursday, June 4, and will be followed by several days of examinations starting Friday.

Baccalaureate services June 7 will be followed by Senior class day, June 9 and commencement June 10. Following are the seniors who will be awarded diplomas.

The present temporary injunction will be expired early in June, and unless the new order is granted by the court, rights to the lake will be controlled by those holding title to the lake bottom.

WORKS TWO WAYS

This action is not entirely favorable to the plaintiffs in the case which ended last week favorably to Mrs. Pearce and Mr. Froelich. If successful it will throw the gates of Lake Zurich wide open to the invading parties. Its success of the other hand will definitely establish the rights of the cottagers themselves to the lake.

Col. Slinth's action will be based on the contention that the continental constitution of the thirteen original states maintained that all navigable bodies of water within the boundaries of the several states belonged to the people of the states. This same principle applies to every state admitted to the association of the states since that time. This was also reported as the opinion of the judge who ruled that the property owners were not the proper parties to bring suit.

"Wasn't Swamp"

The action will be further based on the contention that the state was negligent in 1861 when it called the lake swamp land and not included in the group of "navigable waters." The state received remuneration from the federal government which sold Lake Zurich acre by acre to owners of adjoining property.

Col. Slinth's action has aroused interest in the northwest district where it is said, other parties have obtained property rights with the intention of using Judge Shurter's decision for their benefit.

RICHARD PECK, AIR CRASH VICTIM WELL KNOWN IN BARRINGTON

The death Tuesday of Richard K. Peck of Elgin, co-pilot on the Blue Streak, Daily News plane, will be regretted by many Barrington young men and women who have been passengers in airplanes piloted by him.

Mr. Peck, along with Shirley J. Short, pilot, and Robert J. Gormley and Lewis S. Rice, mechanic and radio operator respectively, was flying in the "Blue Streak" one mile north of Wheaton when the wing of the plane buckled and the plane crashed to the ground. All four were killed instantly.

A coroner's jury, composed of air pilots, found that the four had come to their death through accident due to structural failure of an experimental airplane.

The hour of the hearing has not been determined.

J. PRESTON BRADLEY to Deliver Sermon for Baccalaureate

The Barrington Bird club will hold its regular monthly meeting Tuesday evening, June 2, at the home of Dr. and Mrs. William J. Pretzel of Lake Zurich.

Mrs. Charles B. Cory, Sr., of Chicago will speak on the subject, "My Friends." Mrs. Cory is president of the Illinois chapter of the Wild Flower Preservation society.

Clifford Stolt of Barrington will speak briefly on the rose-breasted grosbeak.

Members who are desirous of transportation may confer with James C. Plarce.

The graduation program will start Sunday, June 7, with the annual baccalaureate services in the auditorium of the school at which Dr. J. Preston Bradley of the People's church of Chicago, will deliver the sermon.

These services which will start at 8 o'clock will take the place of other Sunday night church services in the village as being part of the school graduation program.

Contracts will be let June 16 for widening Highway 19 between Barrington and Palatine and Rand road between Des Plaines and Park Ridge.

A plan which will provide a foot pavement which will provide a fire between E. Main street, Barrington and Chicago according to information received by The Review from the state highway office in Elgin.

All regular class work will be completed Thursday, June 4, and will be followed by several days of examinations starting Friday.

Baccalaureate services June 7 will be followed by Senior class day, June 9 and commencement June 10. Following are the seniors who will be awarded diplomas.

DR. SHERMAN, June 10.

How One Woman Lost 47 lbs.

In 3 Months and Feels Years Younger

Mrs. S. A. Solomon of New Bern, N. C. lost 47 lbs. in 3 months with Kruschen Salts. She reduced from 217 to 170 lbs. She feels much stronger, years younger and pains in sides, back and abdomen that bothered her for years are all gone. She says she not only feels better but looks better as all her friends tell her.

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at Fredlund Drug Co. and druggists the world over. Take one half teaspoon in a glass of hot water every morning before breakfast.

Attention to diet will help—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—the Kruschen way is the safe way to lose fat. Try one bottle and if not joyfully satisfied—money back.

Four Records Broken; Libertyville Wins Meet

Barrington Ties For Second Place in Northwest Conference Meet at Palatine Saturday

Libertyville won the seventh annual Northwest Conference track and field meet last Saturday and Barrington brought home the second place cup after an exciting struggle with Bensenville and Arlington Heights. Four records were broken in the meet. Burnett set new marks in both the discuss and shot, Jamieson of Libertyville and Meyer of Palatine raised the high jump record while Williams of Barrington broke the record in the running broad jump.

Libertyville's stars were too much for the rest of the schools but the thrilling struggle for second place marked the contest. The broad jump was the last regular event and Williams gave points in that put Barrington ahead of Arlington and in a tie with Ben-

enville. The relay was supposed to decide and Barrington placed ahead of Bensenville in that event but the Conference may decide to award an extra cup to Bensenville. Captain of the southern school won the individual award with three firsts. Barrington had but one first but her balanced team scored in all except four events.

Couch Clark deserves a lot of credit for building up the most successful track team Barrington high school has had in years.

The final standings were:

Libertyville	53 1/2
Barrington	24 1/2
Bensenville	24 1/2
Arlington Heights	24 1/2
Palatine	11
Wauconda	10

undertaken by residents of suburban and rural home communities. The work is carried on in the Barrington community by a committee of which Mrs. Louise B. Martin is local chairman, working in cooperation with the Barrington Garden club.

The contributions are taken each Wednesday morning at the Standard Motor Co. display rooms in a space donated by P. R. Droyer. A deadline of 9 o'clock has been established, so that the flowers and vegetables freshly gathered, may be assembled promptly and shipped into Chicago. All donations from communities served by the Chicago & Northwestern railway are collected at a special flower booth in the Madison street station and quickly distributed while still fresh among sick and needy people.

The opportunity to cooperate in this worth-while charity work is open to everyone who has a flower or vegetable garden or who preserves food raised in gardens. Mrs. Martin explained to a representative of The Review. All persons who wish to donate should get in touch with Mrs. Martin or bring flowers, fruits or vegetables to the Standard Motor Co. garage on Wednesday mornings before 9 o'clock. A larger committee of Barrington women is being organized to increase the activity of the local unit.

The work of the National Fruit and Flower guild will continue through the summer into late fall, as long as people have fresh vegetables, fruits, flowers, or home canned fruit and vegetables to donate.

MEMORIAL DAY

The beautiful custom of setting aside one day in the year for the decoration of soldiers' graves is said to have originated in Petersburg, Va., where Memorial Day was observed for the first time on June 9, 1865, in honor of Confederates who were killed in battle there just one year before.

In 1868 the wife of General John A. Logan, then commander of the G. A. R., happened to be in Petersburg on its Memorial Day, and was so impressed with the tributes of flowers and flags with which the graves were decorated that she suggested to the general that this be made national custom. General Logan accordingly issued an order to the G. A. R. "that every post of the Grand Army should hold suitable exercises and decorate the graves of their dead comrades with flowers," on May 30 of each year.

The idea spread throughout the South, also, and Confederate Memorial Day is observed in various states on the following dates: April 24 in Alabama, Georgia, Mississippi and Florida; May 10 in North and South Carolina; the second Friday in May in Tennessee, and June 3 in Louisiana. In the South the national Memorial Day of May 30 is more generally observed since the World War, the exercises being conducted by the American Legion.

At the national cemetery of Arlington, near Washington, the grave of America's Unknown Soldier is decorated with special ceremony, usually participated in by the President and other high officials, on Memorial Day.

It is highly fitting that all citizens should join in the observance of this most beautiful and sacred of our national holidays.

THE PEACETIME COST OF WAR

The whole subject of war and its cost has been brought into the arena of public discussion in the United States as a result of the recent meeting of the International Chamber of Commerce in Washington. As is always the case when the subject is discussed, everybody agreed that all nations are spending too much money on their military and naval establishments, but nobody was willing to commit his own country to a reduction in this terrific charge upon the taxpayers.

President Hoover, however, took the first step by summoning the Secretary of War and the Chief of Staff of the Army into conference and asking them to figure out ways whereby the cost of maintaining the military establishment of the United States can be reduced without impairing its efficiency. This is a move in a direction which most Americans will commend. There is no doubt in the world, in our own minds, that we are a peace-loving nation. The peoples and governments of other countries do not always believe us when we say that, but every American knows that it is true. Mr. Hoover, by reason of his Quaker birth and upbringing, is naturally opposed to war as the means of settling international disputes. And it is reported that he found the heads of the Army in accord with his desire for economy.

The money spent by the War Department in time of peace, is, of course, very largely for internal improvements. The development and dredging of harbors, the building of bridges, everything that has to do with keeping navigable rivers in their channels, and many other government engineering projects, are carried out by army engineers. There is no ideal of cutting down on any of these activities, which are now providing employment for tens of thousands of men who would otherwise, perhaps, be out of jobs. Nor is it planned, according to the information from Washington, to reduce the army personnel. But there are expenditures in connection with the upkeep of the military establishment which, it is believed, can be reduced or suspended to result in a saving of between \$300,000,000 and \$400,000,000 a year.

Such a saving would go a long way toward making up the nation's billion-dollar deficit and it would also be a gesture toward the rest of the world in the way of proof that we have no immediate war-like aims.

BETTER TIMES AHEAD

With commodity prices at bargain levels and great new reserves of savings piled up by bank depositors throughout the country, it will not be long before they will begin to withdraw at least a part of these funds for purchases they can no longer postpone.

This situation was cited this week by Silas H. Alteroff, maker of ABCO washers and other electrical home utilities, as a reason for his conviction that general business recuperation is getting under way. He also said:

"The program this country went through in 1921 will be re-enacted. We can expect unemployment to wane as purchasing power waxes. Production and distribution also will gain."

An unusual and striking indication of the way the wind is blowing is the formation in New York of four short-term fixed investment trusts in which shareholders plan to benefit from gains in stock values, rather than from stock yields. Evidently these financiers are convinced that the downward trend has ended and that their securities now are ready for a steady climb.

LIGHT AND HEALTH

Electric lamps of the future will be health-giving as well as light-giving, declare an engineering publication. It is well known that quartz mercury lamps which radiate the beneficial ultra-violet rays have been used by physicians for some time. But these have required expert and careful handling.

Now, it appears, lamps giving off these healthful rays have been developed for use in general lighting, thus performing a double duty. In fact, such lamps are already available, but so far their use has been restricted principally to home treatment of diseases in which sunlight or its equivalent is necessary.

When the new lamps are adopted for general use, as it is believed they eventually will be, it is expected that they will be of immense benefit, especially to indoor workers who have little contact with the health-giving rays of natural sunlight.

Rest is not a physical matter alone. Of course there must be periods of relaxation from toil. But in the greater sense rest is a mental, social and spiritual matter. Jesus appealed to tired people to find rest in him. Wholesome is the best cure for tired nerves and fatigued minds ever given the world. The wise man includes it in his plans for balanced, purposeful living.

"ROUGHAGE"

We hear it, read it, sense it in the very air: "roughage." It's the slogan of the swivel-chair patriot, whose colon has been on a strike for the last twenty rubberized years. Treat 'em rough; these tired, lousy-stuffed colons; just got to have roughage!

Well, the prodigal son ate the husks which the swine didn't take and repented of his sins right away—the first victory for roughage, so to speak. Then he lost not time getting back to the fatted calf—the smooth diet.

Let's talk about bran—aborts, "tailings," husks of wheat, or what have you? The sort recommended by oleomac physicians, among diabetics and arterial manipulators; and let's talk sense.

I have not found one in twenty-five routine investigations upon whom bran had the least effect in obstinate constipation. I have tested carefully in my own case, I might as well have taken that much Portland cement, so far as laxative effect was noticeable.

Sometimes I wonder how many pecks of bran one would have to eat, to acquire a single grain of iron? And what form of iron? Possibly a trace of ferrous oxide rust! There is as much iron in a single Blaud pill as there is in a bushel of wheat bran, so there.

One of the latest and best books I have found, contains "roughage" as a routine procedure in large colons—practice that may actually do serious harm, and I agree most emphatically. The "smooth diet" is far more rational to coax the weary organ back to normal function; I do not believe in whipping the tired horse to restore his vigor.

If commercialism were taken out of this country, and our people used real food and exercise instead of substitutes, we'd live longer.

The fire loss in the United States during 1930 totaled \$465,000,000 which amount is 10 per cent greater than in 1929.

Experiences in Early Barrington

STATE NEWS

In line with the custom of various groups of downtown children to visit Chicago, school children from that city will visit Springfield at different times for a tour of Lincoln shrines. Though the tours have no connection with the department of registration and education, arrangements are being made by Clyde Bacchus, assistant director.

The house license and miscellany committee has recommended for passage the bill of Representative Ed. Ryan, of Lawrenceville, providing that the department of registration and education shall examine and approve or disapprove all motion picture films or views to be shown in Illinois. Use of films that are rejected as immoral would be punishable as a misdemeanor.

In response to inquiry from the state's attorney of Sangamon county, H. E. Fullenwider, an opinion has been given by Attorney General Oscar E. Carlson as to the relation between the highway maintenance policemen and sheriffs in the enforcement of the law. He quotes the law as stating it is the special duty of the highway police "to enforce the provisions of the Motor Vehicle Law" and "the roads and bridges law"; and also "they are conservators of the peace and as such have all the powers possessed by policemen in cities

and sheriffs, except that the maintenance policemen . . . may exercise such powers anywhere in this state." He construes the provision that "the state highway maintenance policemen shall cooperate with the police" to mean the sheriff and says the sheriff retains his authority in the person of the said state highway policeman operating only with the sheriff.

"The Connecticut Yankee" with Will Rogers, finishes its run at the Catlow theatre Friday night to make way for William Haines in "A Tailor made Man," the Saturday night feature.

In the new Haines picture modern life and present day business conditions form the background of a gripping story of success.

Dorothy Jordan plays the heroine of the new talkie, in which a notable cast appears, including Joseph Cotten, Marjorie Rambeau, Ian Keith, Bette Hopper, Joan Marsh and Marlene Dietrich.

Sunday and Monday, "The Finger Points" comes to the Catlow theatre for early showing. This picture, starring Richard Barthelmess, is based on a notorious case of gang rule which recently started in the country.

Barthelmess plays the part of a young Southerner who comes to the big town with high ideals, an idea of duty of the press to the public. He gets a job in police reporter, and at first crime-crushing paper and at first refuses the hush money offered by the gang to withhold incriminating stories. His resistance to temptation is finally broken down by the fact that he had fallen in love with a pretty "sob sister" on the paper, whom he is unable to marry because of his small pay. He sells his honor and with the help of Blanca, a go-between crook in wealth and power.

He refuses to withhold the story of the racket of the ear of a gangster, a masked desperado known as Number One, unless a huge sum is paid to him.

The capable support includes Fay Wray, Regis Toomey, Clark Gable and Mickey Bennett.

Norma Shearer returns to the screen after an absence of more than six months in "Strangers May Kiss," which will play at the Catlow theatre next Tuesday and Wednesday nights.

During her vacation from the camera and microphone, Miss Shearer was honored by the award of the Academy of Motion Picture Arts and Sciences for having contributed the outstanding performance of last year in "The Divorce."

Robert Montgomery and Neil Hamilton, share leading man honors, and the cast includes Marjorie Rambeau, Irene Rich, and Albert Conti.

The story concerns the vivid career of a woman who follows the man she loves to all corners of the earth and wins out despite a series of bitter disillusionments.

On March 31, 1931, the Public Service Company of Northern Illinois filed with the Illinois Commerce Commission, a revised schedule of rates for gas, to be effective on and after June 1, 1931, whereby:

CUSTOMERS using gas service furnished by the Public Service Company of Northern Illinois, will be billed on the basis of the heating value of the gas, instead of on the number of cubic feet used, beginning June 1.

The unit for this changed billing is the "therm." A "therm" is 100,000 B.t.u. (British thermal units). One B.t.u. is the amount of heat required to raise the temperature of one pound of water one degree Fahrenheit.

Pity the Bride
whose wedding gifts all
belong on the top-shelf

Pity the Bride who is overwhelmed with cute (but useless) gifts that simply don't belong anywhere but on the top shelf. And while you're pitying her, decide to give her something pleasantly practical yourself! We suggest you stop in at your Public Service Store and see how easy it is to select electrical gifts that are both distinctive and usable.

Toasters, waffle irons and percolators are priced very low and come in a number of attractive styles. Electric egg cookers, mixers and table stoves are new and bound to be appreciated. If you want something with frills, there are all kinds of lamps.

All this month we are featuring special displays of gift appliances for spring brides at your Public Service Store. Your local appliance dealer can also make suggestions.

"61"
QUICK DRYING
VARNISH

No longer need the housewife dread a disordered household because of redecoration. That living room floor, chair or table, which has been an eyesore for so many months can now be finished with "61" Quick Drying Varnish in the morning and will be ready for use this evening! Two coats can be applied in one day.

USE IT EVERYWHERE

"61" Quick Drying Varnish, Clear Gloss, will prolong the life of your linoleum many years. It will not only make it easier to clean, but will also bring out the colors. It should be obvious that a varnish as durable as "61" Quick Drying Varnish on floors and linoleum lasts even longer on furniture and woodwork. Right in your own home there are many pieces of furniture that can be refinished like new, with a coat or two of "61" Quick Drying Varnish.

WOODSTAIN COLORS

In addition to the Clear Gloss, "61" Quick Drying Varnish is available in four transparent woodstain colors, Ground Color and Dull Finish. These have all the durable, waterproof properties of "61" Quick Drying Varnish Clear Gloss. The colors are permanent, brilliant, have a beautiful depth of luster and dry in 4 hours.

RELIEF

From Headaches

Colds and Sore Throat

Neuritis, Neuralgia

Don't be a chronic sufferer from

headaches, or any other pain. There

is hardly an ache or pain Bayer

Aspirin tablets can't relieve; they are

a great comfort to women who suffer

periodically. They are always to be

relied on for breaking up colds.

It may be only a simple headache,

or it may be neuralgia or neuritis

rheumatism. Bayer Aspirin will

be the sensible thing to take. Just be

certain it's Bayer you're taking!

It does not hurt the heart. Get the

genuine tablets, in this familiar

package for the pocket.

When

PAIN

Comes

WHAT many people call indi-

cation, is often merely nervousness

and tension. The stomach nerves

have been over-stimulated

and food sour. The corrective is an

alkali, which neutralizes the acids

instantly. And the best alkali known

to medical science is Phillips' Milk

of Magnesia.

One spoonful of this harmless

tasteless alkali in water neutralizes

instantly many times that much

acid and the symptoms disappear

at once. You will never use crude

methods when once you learn the

efficiency of this. Go get a small

bottle to try.

Be sure to get the genuine Phillips'

Milk of Magnesia prescribed by

physicians for 50 years in correcting

excess acids. 25c and 50c a bottle—

Bears Win From Roselle for 4th Straight Victory

Pounding out twelve hits including two triples and a home run the Barrington Bears won their fourth game in four starts of the season, Sunday defeating Roselle 10 to 3. A. Altenburg pitched excellent ball. Although allowing Roselle nine hits, he kept them scattered.

Herb Garisch hit his first home run of the season in the sixth inning scoring McGowan, who had singled ahead of him. A running one-handed catch of a foul fly in front of the bleachers by Charlie Berg was the fielding feature of the game.

Memorial Day Barrington will play Long Grove, the team which defeated the Bears last year to win the American Legion trophy. Sunday Barrington will play Gilberts. Both of these games will be played at the local park.

PLAN NEW DANCE HALL TO REPLACE "THE FOX"

A new dance pavilion to replace "The Fox," burned to the ground early Tuesday morning, will be built the fore part of this summer and open for patrons in July, according to Clarence Niesen, owner. He expected to let a contract for the work this week or early next week.

The pavilion, which was regularly attended by many Barrington people, was burned by hoodlums (believed to have been hired by some enemy of the pavilion organization or of the owner) after they had bound up the 65-year-old caretaker, Thomas Aylward, and carted him to Irving Park boulevard and River road.

Mr. Aylward despatched to police investigators that he would be able to recognize several of the men who hauled him away if given the opportunity. The police, Sheriff Lester Edinger, and insurance association detectives believe they have uncovered evidence that will lead them to produce several suspects for the watchman to identify. Several empty five gallon gasoline cans were found in the ruins, suggesting that fire-bugs had drenched the building with gasoline before igniting it.

ELA COMMERCIAL PUPILS MAKE TOUR THROUGH CHICAGO

The commercial pupils of Ela township high school, accompanied by Miss Browne, instructor, made a trip to Chicago Wednesday, May 20, to get a practical phase of the work in the department this year. Many interesting and valuable things were seen and done among which were the following: a boat trip on the Illinois river, a visit to the Board of Trade and a visit to the Tribune Tower to view Chicago, its suburbs and shore of Lake Michigan from the highest point.

The most interesting and valuable part of the trip was the visit through the Continental Illinois Bank and Trust Company, one of the largest individual banks in the world.

One and one-half hours were spent in observing the various departments of this large institution.

About 3,500 people are employed there. One of the marvelous things about the institution was the systematic manner in conducting everything. The class found especially interesting the bookkeeping and stenographic department, where machines and typewriters are used respectively.

In the Multigraph department where

WANT POOL OPENING IN CONNECTION WITH FOURTH CELEBRATION

Hoping to hold the annual three day Independence celebration in Barrington community park July 3, 4 and 5, and incorporate in it the opening of the new community house and swimming pool, members of the American Legion have been concentrating with the park district board. The present plans are not to complete the swimming pool by July 3, but if fair weather prevails throughout June, completion and opening by that date is possible.
