The Barrington Review,
Barrington, Ill.
Dear Sirs:

I have noticed that you carry a department on good recipes for the housewife. Well, here are a couple recipes from a temporary housman to the housewives who read your newspaper. While my wife was confined to bed for several days, I prepared the dinners for the family and in this work used a couple recipes which may be considered original:

DELICIOUS CARROTS

Wash 10 or 12 long, fresh carrots, then measure with stiff brush, then polish with cloth, then slice in discs. Place 5 or 6 slices of bacon in pan, add about a teaspoon of salt, add about two teaspoons of sugar, add carrots and then nearly cover with water. Boil slowly for about an hour. Then remove bacon and fry brown in separate pan. Serve carrots with potatoes cooked whole and then peeled. This makes a delicious vegetable dish.

MILK AND BANANA DESSERT

Slice full-ripe bananas in discs. Add rich milk to cover. Add several teaspoons of sugar to flavor. Place for about an hour in refrigerator to cool. Then serve as dessert.

My wife was pleased with the above recipes and you may want to pass them on to your readers to try out.

Cordially yours,
John H. D. Blanke

Lake County Holds Tubercular Clinic for School Children

Semi-weekly tubercular clinics, financed by sale of Christmas seals, have examined 256 children since January 1, according to the Lake county tuberculosis association. The clinics are held each Wednesday and Friday from 1 to 5 and from 9 to 11 a. m. at St. Therese hospital at Waukegan under the supervision of Dr. Charles K. Petter.

Tuberculin testing and X-rays are used to determine whether infection (positive reaction) is present. Of the 256 children tested this year, 24 positive reactions were recorded. These cases will continue to have periodical examinations and treatment until they have passed the age of 25.

A children's survey of that of 800 persons dying of tuberculosis every day in the United States, 33 are between the ages of 15 and 25, young girls being particularly susceptible. Those persons wishing examinations at the clinics must make appointments.

FROM THE ENGINEERING *TRAIL-BLAZER* COMES THE WORLD'S SMOOTHEST RIDE!

This exclusive new Pontiac feature, combined with Knee-Action, gives you the smoothest ride. Duflex springs in back, parallel upper springs in front, positive for heavy loads, parallel lower springs automatically assure easy riding whether mother with one or 10 passengers.

It won't surprise 252 Pontiac owners to learn that Pontiac has found the best and simplest answer to the jolt-free ride. They expect as much from an engineering staff responsible for no less than 90 great advancements in automobile design.

Even so, they'll be surprised as people less familiar with Pontiac's engineering achievements at Pontiac's 1939 ride. *Because there has never been anything like it before!*

Knee-Action in front . . . Duflex springing in back—that's all there is to the *mechanics* of this ride. But the *results*—well, it smooths roads like a steam-roller . . . provides a jarless ride front and rear . . . makes the car stay so level with *one* rider as with six . . . and stops sidesway.

That's a sample of what we mean when we say *no car on earth is better engineered.* Because Pontiac is unique, you can bank on this too: *No car will give you a better run for your money.*
