Arranges Meeting to Introduce Mosquito Abatement Proposal

J. P. Welch, supervisor of the town of Cuba, has arranged a meeting of Lake county representatives and officers of the tri-county mosquito abatement committee to be held in Waukegan Friday. Mr. Welch was recently appointed to represent Lake county on the committee.

Among those to be present Friday will be: Dr. S. S. Fuller, chairman of the committee; Lyell Clarke, engineer of the Des Plaines Valley abatement district; Leo Foulon, chairman of the Lake county board of supervisors; Ralph Lobdell, county commissioner of highways.

Other county supervisors have been invited to attend the meeting and hear the proposal advanced for the elimination of mosquitoes by a drainage proposition.

St. Paul Players to Give Show Sunday at Lindenwood Church

A cast of players from the St. Paul Evangelical and Reformed church who have already given two performances of the religious drama, "Release," will go to Lindenwood, Ill., this Sunday evening to present the drama at the Union church there.

Rev. William Richards, newly ordained pastor of the Lindenwood church, was a member of the Evangelical church of Peace at Harvey, when Rev. George P. Eilerbrake of St. Paul's church was pastor of the Harvey church. Rev. Richards was at that time an instructor at the Thorton township junior college, and later became associated with Elmhurst college at Elmhurst.

The earlier association of the two pastors is what has led to the engagement of the St. Paul church players for the performance at the Lindenwood church.

Current Affects Weather

The United States weather bureau says that the Japan current has the effect of slightly increasing both the mean temperature and the annual amount of precipitation on the northwest portion of the Pacific ocean over what it would otherwise be. It should be realized, however, that the mild climate of the northwest portion of the West coast of North America is the result of a combination of factors; it is located so as to be influenced by the effect of the two mutually dependent factors of oceanic and atmospheric circulation, and by the sheltering effect of the mountains from the cold continental air which would otherwise more frequently come from directions between north and east.

An Epidiascope

An epidiascope is a projection lantern designed for both episcopic and diascopic projections.
