## Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair **permanently**, and it is not a new technique. Successful results have been reported in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrolo-

gist at **Clear Reflections** in the Barrington Commons who can remove those tell-tale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **1-847-381-9020** for your appointment.

**Clear Reflections** has provided 28 years of service at the same location.

## Editor's Ink

September, 2004

Dear Reader,

Wow! You are not going to believe what's happening in the Barrington area this fall season. Get out your social calendars and start marking in the events. We have tried to include as many as possible, but space is always limited.

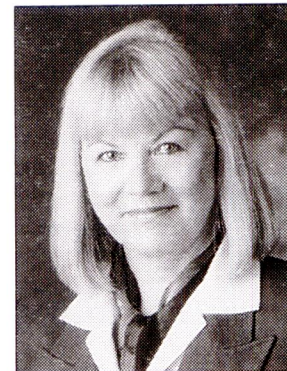

The much-awaited BAAC "Gallery Walk" will be held on Sept. 10 and 11. This year, 12 fine galleries around Barrington will participate. Evening receptions on Friday begin the event.

Mark your calendar for Oct. 2 when the Michael Joseph Foundation's 11th Annual Benefit Dinner and Auction takes place at the magnificent SanFilippo estate in Barrington Hills. Proceeds will help the homeless.

Nov. 13 is the date the gala committee has selected for Advocate Good Shepherd Hospital's *The Silver Ball*. Taking on a disco theme, the evening will be replete with '70s memorabilia and hanging silver disco balls. So get out those leisure suits, disco boots and short skirts and start struttin'! Proceeds will go toward care services at the hospital.

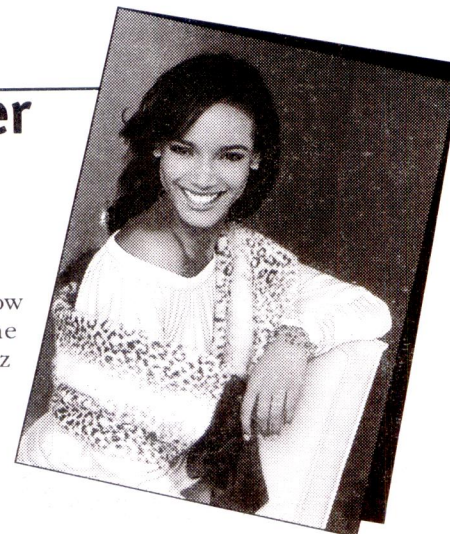

Until next time, enjoy the season. Peace and happiness!

With warm regards,  
Glenne McMonigal  
Editor, *Lifestyles Magazines*

## Sculpture Topic for Art Associates

Sculpture will be the topic of the first trip for the Barrington Community Associates of the Art Institute of Chicago on Thursday, Sept. 16.

At the Art Institute, Nenette Luarca will speak on "Art in the Civic Eye: Sculpture in Public Spaces", exploring the many faces of public sculpture in this country. Chicago has many memorials to once-celebrated men as well as modern masterpieces by internationally known artists. Following lunch at Russian Tea Time, the next stop will be the studio of Richard Hunt, an internationally known sculptor.

Nenette Luarca has been part of the Art Institute's Department of Museum Education since 2001 and is currently senior lecturer in the division of adult programs. She earned her bachelor's degree in art history at the University of Southern California and her master's degree in humanities at the University of Chicago, specializing in art history.

Mr. Hunt is a native Chicagoan who earned his BAE from the School of the Art Institute. Today, his work is exhibited at many major museums.

Because of the size of his studio, Mr. Hunt has limited the visit to 50 partici-

## Protecting Your Legal Rights— Preventing Workplace Harassment

by Joette S. Doran, J.D.

The federal antidiscrimination statutes, such as Title VII (race, gender, religion or national origin), the Age Discrimination in Employment Act (an employee over 40), and the Americans with Disabilities Act, are created to protect employees from illegal discrimination and harassment. Harassment is generally defined as unwelcome conduct, which adversely affects an individual's employment by unreasonably interfering with an individual's work performance or creates an intimidating, hostile or offensive work environment.

Today, most companies have a written policy against harassment, which is generally distributed to employees. The anti-harassment policy should direct the employee as to whom to complain regarding offensive conduct without fear of retaliation. After receipt of the complaint, the company is legally obligated to investigate the allegations and take prompt remedial action to stop the harassing behavior. Additionally, any adverse action by the company against the employee for reporting the harassing conduct can subject the company to legal action for retaliation.

A clear policy against harassment and employee training regarding the provisions of that policy help protect the employer from legal action in certain circumstances, such as when an employee fails to bring a claim of harassment to its attention. To the contrary, the failure to have an antiharassment policy and employee training can be detrimental to an employer's defense. Because under some circumstances, if the employee fails to report the conduct which the company could not have reasonably known about, than the company will have a valid defense if the

employee attempts to take legal action to hold the company responsible for the offensive conduct. As such, employers are recommended to have a well-drafted anti-harassment policy, which is distributed to employees and training as to the provisions of the policy.

Also, if you are an employee being subjected to harassing and offensive behavior in the workplace, you are well-advised to review the policy and facts and circumstances surrounding the harassing conduct with legal counsel to be certain that your legal rights are being addressed without fear of retaliation. For further information, please visit our Web site at [www.joettedoran.com](http://www.joettedoran.com).

## A.G. Edwards—Saving for the Future

As a parent, you know how difficult it can be to manage the day-to-day costs involved in raising children, from school supplies to sports equipment, not to mention providing them with the basics like food and clothing. But if you think you're spending a lot of money as they grow up, you should be aware of a much more daunting financial challenge that lies ahead—funding their college education.

Inflation, taxes and the vehicles you choose to save for their future are the three biggest factors that will affect how much you will be able to tuck away for college expenses. With the rising cost of a college education, the sooner you start saving, the better off you'll be.

While inflation (measured by the consumer price index) has generally averaged between two and three percent annually over the past 10 years, the cost of a college education has risen more than twice as much over the same time period. So if it costs \$27,677 a year to send your child to a private college today, as estimated by the College Board of Education, it is projected to cost \$259,702 (for four years) in 12 years using a 6.5 percent annual increase in the cost of an education. As you can see from this example, it is important to start saving early for your child's college education so that you will be in a better position to handle the higher tuition costs that will undoubtedly be in place when your child reaches college age.

While inflation continues to spur tuition hikes, taxes can eat away at the money you save for your child's education as well. There are several long-term savings plans available that can help you build your children's college nest egg and accumulate tax-deferred. Let's take a look at two of the most popular tax-deferred college saving options available.

**529 Plans**—These plans are becoming increasingly popular as more states offer the college savings plans, which allow money to accumulate federal income tax-deferred<sup>1</sup>. When a student begins to take distributions from a 529 plan, they do not have to pay federal income tax on the funds, and in some cases they are also exempt from state income tax<sup>2</sup>—as long as a student uses the money for qualified higher education expenses. Qualified expenses include items such as tuition, books,

fees, supplies, and room and board<sup>3</sup>. You can open separate 529 accounts for each of your children<sup>4</sup>, and you can also transfer assets from one child's account to another child's in the same family<sup>5</sup>.

**Coverdell Education Savings Account**—Formerly known as Education IRAs, these savings vehicles allow you to save money not only for college but also for elementary or secondary education costs. Qualified expenses in this type of account not only include tuition and room and board but also cover the price of computers, tutoring, uniforms and extended day care. Coverdell accounts do have an annual contribution limit of \$2,000 per year for each child under 18, and the funds must be used by the time the beneficiary turns 30. As with a 529 plan, funds in a Coverdell Education Savings Account accumulate federal income tax-deferred and are distributed federal income tax free, if used for qualified expenses.

If you haven't started saving yet, you may want to meet with a financial consultant to look into the best option for your needs. It is never too early to help secure your child's opportunity for higher education and your ability to fund it. Call today to request a free education cost analysis. Contact an **A.G. Edwards** financial consultant at **1-847-842-9664** for our Barrington office or **1-847-870-8750** for our Arlington Heights office.

<sup>1</sup>Withdrawals that are federal tax free are subject to the sunset provision, which expires in 2010 unless extended by Congress.

<sup>2</sup>State tax benefits only apply to residents of that state participating in that state's plan.

<sup>3</sup>Noncollege related withdrawals are subject to income taxes and an additional 10% penalty on earnings.

<sup>4</sup>In conjunction with stepped-up gifting, no additional gifts can be made for five years, and a portion of the gift may be subject to recapture if the donor dies within those five years.

<sup>5</sup>529 Plans are subject to investment risks and fees. An investment in a 529 plan will fluctuate such that an investor's shares when redeemed may be worth more or less than the original investment.

## HE'S NOT THINKING ABOUT A COLLEGE EDUCATION RIGHT NOW.

### But you should be.

Today the average price tag for a four-year private college education totals more than \$100,000.\* By the year 2018, these costs are expected to rise above \$230,000. These are staggering numbers, but with the right plan, a quality college education is within reach.

Call today to request a free Education Cost Analysis.

\*College expenses are based on actual costs, including tuition, fees, books, and room and board, as reported by the College Board for the academic year 2003-2004. Costs for all future years assume a 5% annual increase.

## **Looking Better and Natural, Not Surgical or Different, with Face and Neck Lifts**

**by Gregory M. Bazell, M.D., Diplomate  
of The American Board of Plastic Surgery**

If you are considering a face lift and/or neck lift, you must do two things—make sure that the surgeon is certified by The American Board of Plastic Surgery, Inc. (ABPS), and that he/she has privileges to perform a face lift and neck lift at a local hospital. When it comes to your face and neck, nothing could be more important than finding out these two facts.

**Did you know The American Board of Plastic Surgery, Inc. (ABPS), does not contain the words "facial" or "cosmetic", and any "boards" containing these words have no relationship to The American Board of Plastic Surgery, Inc.?** Scary but true, as The American Board of Plastic Surgery, Inc. (ABPS), is the only board that certifies individuals as plastic surgeons of the face and entire body. If an individual is not certified by The American Board of Plastic Surgery, Inc. (ABPS), and does not have privileges to perform a face or neck lift at a local hospital, do you really want them operating on your face and neck? I hope not.

It is true that, when we are young, looking good is a choice but, as we mature, looking good becomes a necessity. In your pursuit of looking good, it is my abilities that can make you look better while preserving your natural beauty. Each and every one of us can expect predictable anatomic changes to occur in our face and neck at some point in our adult life. These changes include relaxation of facial skin, descent of facial fat from the upper face into the lower face, jowl formation, accentuation of the nasolabial crease, marionette lines, and accumula-

tion of excess skin and fat along with muscle prominence in our neck region. If you look in the mirror and see any of these changes in your face or neck, you may benefit from my technical expertise in performing natural-looking face and/or neck lifts. **The most important factor in the success of your face and neck lift is to choose a qualified plastic surgeon who is both certified by The American Board of Plastic Surgery, Inc. (ABPS), and who has privileges to perform a face lift and/or neck lift at a local hospital.**

Improving your appearance is very important to me. My natural look face lift and neck lift techniques are designed to help arrest your aging process and to help you regain the look and confidence you used to have while avoiding the stigma and embarrassment of the surgical look predictably seen when women choose the wrong surgeon.

As a diplomate of The American Board of Plastic Surgery, Inc. (ABPS), with extensive experience and exclusive training in Hollywood, I offer the most advanced techniques in aesthetic plastic surgery with minimal discomfort and downtime, so that I can help you look younger, not different, and natural, not surgical,... right here at home.

If you would like to schedule a comprehensive consultation customized to your goals and desires, please **contact Kristen at 1-847-382-4160**. Do not forget to visit our Web site at:

### Fall Fashion at Satin Filly

My head is swimming! I've just finished reading three *WWDs*—it's fashion overload! There's so much going on in the realms of fashion, lingerie, jewelry, ready-to-wear, swimwear, footwear and, of course, we all know about the barrage of handbags. Whew! It's exhausting trying to keep up. It's going to be a great fashion year. Most of what I see is wonderful, and so much is right here at **Satin Filly**.

Great jackets, tweeds—very important—fringed, embellished, cashmere in luscious colors. Washable suede jackets that won't break the bank at \$175 in fabulous colors. Color is the most important story this season. It's vibrant, a virtual rainbow of hues for the season: orange, fuchsia, green, mauve, and lots and lots of pink. Francie and I just returned from Holiday-Resort Market, and coral is everywhere! It's quite pretty and fresh.

How about jeans? Get a pair and slice and fray them at the knee and hem and add some embroidery. Yes, if they brought back the poncho, those jeans have to be revived. I guess it's a natural thing—the segment of society in their 20s has never seen this stuff—so be prepared for embellished jeans.

We can't leave out skirts, another fabulous category. They have never been prettier, sexier, more feminine. Long, short, plaid, suede, plain but lots of movement. This is definitely the year to have a new one. Drama and La Fayette have great ones, and of course, they all work so well with boots, tall and short!

Outerwear, you must see at **Satin Filly**. We are "oohing" and "aahing" as we unpack these gorgeous silk, down and fur jackets.

Oh! One last thing! Dig into your jewelry box or drawer and bring out your grandmother's brooches. There are lots of sweaters, jackets, boleros that need a closure, hence a brooch.

I never tire of this business. We have great girls who shop here who are lots of fun, and the clothes are always new, and we try to keep them exciting. So that's what it's about. I hope to see you at **Satin Filly**. Come see the fall collections. Oh! And by the way, we are now open on Mondays again. (We closed on Mondays for summer only.)

Enjoy the fall,

She also does commission works and murals.

Theresa has enjoyed being part of the nationally recognized "Art Mom" program in Barrington Community School District

#220 for the past six years and also continues to donate her artwork and artistic services to various community organizations and fund-raisers, such as Barrington Youth Services, Habitat (North Barrington School), Fellowship Housing and Bright Hope International.

Theresa states, "It is difficult to put into words what drives an artist. I believe that it is not only the attempt to capture the visual sense of an object, but more importantly, it is the challenge of capturing the essence of your initial response to that object or person. That intangible essence is what I try to relate to my viewers."

Williams Street in downtown Crystal Lake, on Friday, **Sept. 17** at 7:30 p.m. Tickets are \$50, \$40 and \$30. Celebrate the anniversary of the Constitution with a stunning portrayal of one of the country's founding fathers. Last year's sold-out event was a fabulous interaction

between the audience and the third president of the United States. The actor presents excellent dialogue on the current state of political affairs in the United States and Thomas Jefferson's historical viewpoints of these matters.

The Jefferson portrayal just starts the weekend as Clay Jenkinson does double duty with a presentation of **Meriwether Lewis: The Lewis and Clark Expedition** explorer the very next night on Saturday, **Sept. 18**, at 7:30 p.m. Tickets for this show are \$40, \$30 and \$20. Jenkinson portrays Captain Meriwether Lewis and his accounts of William Clark and the 31 Corps of Discovery members through the uncharted landscapes and wilderness reaching the Pacific Ocean in

1805. Lewis and Clark were the first explorers to journalize not only their activities but also noted scientific discoveries of plants, animals and Native American encounters.

Dr. Clay S. Jenkinson is considered the finest exemplar of first-person historical interpretation in the nation. His award-winning historical interpretations have toured in nearly every state to thousands of gatherings, including school children, Supreme Court justices and the *Jefferson & Lewis* at Raue Center 250th gala anniversary at the White House. He has been honored by presidents Bush and Clinton, and he is one of the most sought-after humanities scholars in the United States. President Bush awarded Dr. Jenkinson the Charles Frankel Prize in 1989, the highest honor of the National Endowment for the Humanities. He was the principal on-air commentator for Ken Burns' PBS documentary on Thomas Jefferson and also the chief historian and on-air host for the Lewis and Clark documentary, *Traveling On the Lewis and Clark Trail*.

Dr. Jenkinson's nationally syndicated radio show *The Thomas Jefferson Hour* and his *Lewis and Clark Minutes* have

won the praise of public radio audiences nationwide. A Rhodes and Danforth scholar, Dr. Jenkinson has just completed his first of a series of Lewis and Clark books, *The Character of Meriwether Lewis "Completely Metamorphosed" in the American West*.

The event is the Second Annual Great American Series. All fund-raising proceeds benefit Crystal Lake Library Foundation and Raue Center For the Arts. To repeat, tickets for *Thomas Jefferson* are \$50, \$40 and \$30, and tickets for *Meriwether Lewis* are \$40, \$30 and \$20. A special discount is offered for people who buy both performances and for teachers wishing to bring student groups. Crystal Lake Bank & Trust is the sponsor for *Thomas Jefferson*.

## Barbara Eden Stars in Neil Simon's The Odd Couple Female Style

There's a new odd couple in town! Imagine seeing Neil Simon's popular play *The Odd Couple*, but when the main characters appear, they are women.

No, it's not Oscar and Felix in drag! It's Felix and Oscar hysterically transformed into Florence and Olive. Barbara Eden, best known as the charming genie on the hit television show *I Dream of Jeannie*, stars as the neurotically-neat Florence. Unkempt Olive is the sloppy roommate, played by Rita McKenzie. The play features an all-star television cast for two shows only on **Sept. 19** at 2:00 and 7:00 p.m. at **Raue Center For The Arts**, 26 N.

Williams Street in downtown Crystal Lake. Ticket prices are \$53 and \$48.

Barbara Eden, best known as the charming genie on *I Dream of Jeannie*, appears as Florence Unger, the neurotic neatnik originated by Art Carney, created for the screen by Jack Lemmon and later on television by Tony Randall. Co-star Rita McKenzie is terrific as Olive Madison, the sloppy roommate played on stage and in the film by Walter Matthau and on television by Jack Klugman.

## "Mama, I'll Be Fine" by Demdaco

The day our children go off into the world, only one thing is certain, things are forever changed. It's a time for letting go, a time to let them test their wings, for one day they will fly free. And with them go our hopes and prayers for the future, for God has a wonderful plan for their lives. One will find a cure, one will save a life, one will lead a congregation, and one will lead a nation, but none will go alone.

## Back-to-School Season at Deer Park Town Center Rewards Schools

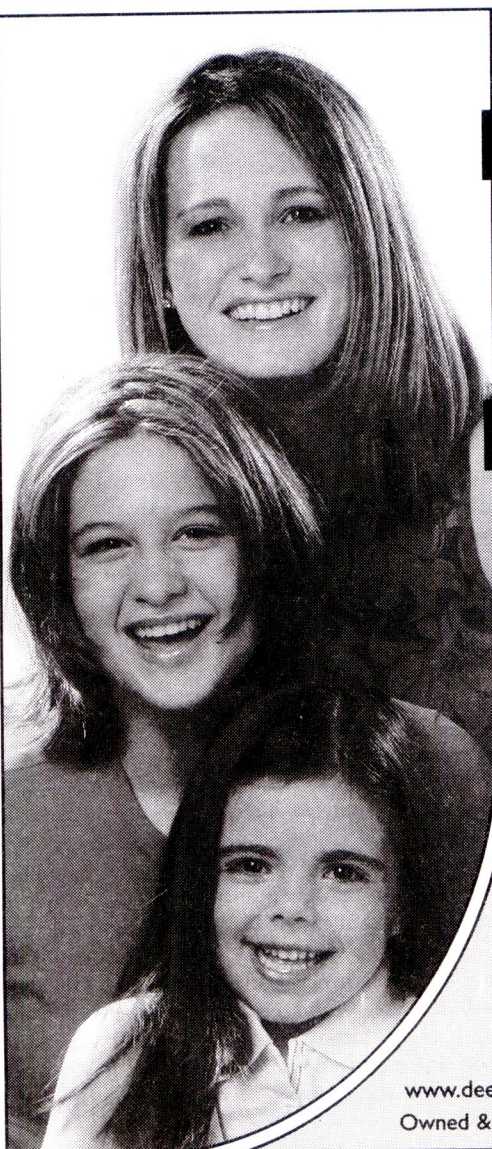

Clothes, shoes, trendy accessories, electronics, and classroom supplies are all on the list for the millions of Americans shopping for back-to-school. That's right, the back-to-school shopping season is once again in full swing. According to the National Retail Federation (NRF), families with school-aged children will spend an average of \$483.28 on back-to-school items, with teenagers and preteens collectively spending an additional average of \$125.06 of their own money in 2004. Parents spend the majority of their own back-to-school budget (average of \$309.18) on clothes, shoes, and accessories.

From preschool level on up, **Deer Park Town Center's** great back-to-school stores continue to have the hottest fashions for the 2004 school year. With so many dollars spent on clothing, shoes, and accessories, **Deer Park Town Center** came up with an exciting program to reward schools and ultimately the students. The program, **Smart Bucks**, invites parents, grandparents, friends, and community members to participate in helping schools win money for books, equipment, computers... or any other program that best benefits their student body. Shop, dine, and be entertained at **Deer Park Town Center's** many delicious restau-

rants, beautiful stores, and stunning theatre. Then, designate points for every dollar spent throughout the center to a participating school of choice. To designate points, present receipts at one of the seven redemption stores: Barnes & Noble, Franklin Covey, General Nutrition Center, Harry and David, Noodles & Company, Origins, and Pier 1 Imports.

The school with the most points receives a larger share of the \$16,000 cash bank donated by **Deer Park Town Center** and Comcast Cable TV. Every school benefits. To make the program more exciting, **Deer Park Town Center** management announces the cash prizes at the fun-filled **Anniversary and Holiday Fireworks Spectacular** on the evening of **Friday, November 12, 2004**.

**Deer Park Town Center** features more than 65 stores and restaurants including: California Pizza Kitchen, American Eagle, Gap, J. Crew, and Banana Republic. ## The Gala Committee of Advocate Good Shepherd Hospital Presents *The Silver Ball*

Dust off your leisure suits and get ready to do the Hustle! Good Shepherd Hospital is going back to disco time for its upcoming 2004 gala.

The **2004 Good Shepherd Hospital Gala *The Silver Ball*** will be held at The Stonegate Conference Center in Hoffman Estates on Saturday, Nov. 13, by JAM Productions.

Guests of the gala will feel they have entered an upscale 1979 disco, complete with dancers, live music and other '70s memorabilia, including hanging silver disco balls. The theme of the gala was created in celebration of Good Shepherd Hospital's "silver" 25th anniversary. (Good Shepherd originally opened its doors on Oct. 17, 1979.)

Mary DiGiulio and Bettye Traylor are co-chairs for the gala. They are joined by the following Barrington area community members: Susan Barsness, Norine Bertagni, Karen Bessonny, Christine Black, Suzanne E. Crandall, Karen Darch, Mary Giangrosso, Christine Griffin, Colleen Kipferl, Arden Kolb-DeBolt, Patti Lancaster, Chrissie Mena, Daisy Nixon, Betty Noparstak, Jane Pupa Margo Samp, Barbara Smith, Dr. Ann Warren MD, Gail Wickstrom and Michele Wuertz.

The proceeds from the 2004 gala will be directed toward supporting The Wayne and Patricia Kocourek Cardiac Care Center at Good Shepherd Hospital. Opening in March 2005, the center will offer patients an 18-bed universal intensive care unit, a catheterization lab with full diagnostic and interventional capabilities, an open heart surgery surgical suite, and a new patient unit with 25 new medical-surgical beds, each with cardiac monitoring capabilities. The Wayne and Patricia Kocourek Cardiac Care Center will provide the community the most advanced cardiac care technology, open heart and catheterization facilities available. Comprehensive

interventional techniques and therapies, including angioplasty, atherectomy and stenting will be performed on site by some of Illinois' most respected and experienced cardiac surgeons, interventionalists, cardiologists and clinicians. The center also includes the Good Shepherd Hospital Center for Heart Quality, which focuses on care management and patient and community education.

To commemorate the 25th Anniversary of Advocate Good Shepherd Hospital and raise much needed funds to support Good Shepherd Hospital Cardiac Services, the gala committee is creating a commemorative anniversary book and is seeking local support. The anniversary book, which will highlight the history of the hospital from its unique grassroots beginning to its continued growth and expansion based on the needs of the community, will debut at the gala on Nov. 13 and will also be available throughout the hospital and its service area, which covers four counties.

The Good Shepherd Hospital Gala Committee is offering businesses, community organizations and individuals the opportunity to become part of this special keepsake book through purchasing advertising space. All contributions are tax deductible and range from \$25 to \$5,000.

The 2003 gala raised over \$160,000—more than doubling proceeds from any of the past six years' previous galas—with funds directed towards advancing Good Shepherd's cardiac care services. In its first seven years, the gala has generated close to \$500,000 to benefit such projects as the Advocate Good Shepherd Hospital Breast and the Cancer Care Program.

Sponsorship opportunities for the 2004 Good Shepherd Hospital Gala are available. For more information, please call Advocate Good Shepherd Hospital's Development Office at **1-847-381-3433**.

## Honors Awarded to Local Crew in 2004 Chicago Yacht Club Race to Mackinac Island

**The crew of *Collaboration 2*, winners of the 2004 Chicago Yacht Club Race: (back row, from left) Dave Kidder, Lake Geneva; Ryan Reis, Chicago; Bob Ruhloff, Chicago; Scott Bolin, Chicago; Doug Schafer, Barrington; (front row, from left) Dan Toedte, Lake Geneva; Don McGuire, Park Ridge; Tom Gibbs, Cleveland, Ohio; Robert Vickery, Barrington; and Chris Jungmann, McHenry.**

Barrington local Robert Vickery skippered the yacht *Collaboration 2* to first place in their section of the Chicago Yacht Club's annual race to Mackinac Island.

The 333-mile race is the world's longest freshwater race and one of the most

prestigious. Over 300 boats started the race on Saturday, July 24, 1.5 miles east of Chicago's Navy Pier. By Tuesday night, however, one third of the fleet withdrew from the competition due to the difficult conditions—it was the lightest wind in the

## Music On Stage Presents *Annie*

Music On Stage will present *Annie* on weekends, Sept. 25 to Oct. 17, at Cutting Hall, 150 Wood Street, Palatine.

*Annie* tells the story of Little Orphan Annie. Abandoned on the doorstep of a New York City orphanage run by the embittered Miss Hannigan, Annie and her lovable mutt, Sandy, foil her, befriend Franklin Delano Roosevelt (and inspire his New Deal) and become part of a real family with billionaire Daddy Warbucks and his personal secretary, Grace.

*Annie* will showcase the talents of many area children, including Morgan Arshon-sky of Arlington Heights and Gabriela Carrillo of Palatine alternating in the role of Annie; orphans Anne Denniston of Mt. Prospect, Maria Jacobson and Emily Spokas of Elmhurst, Austen Murrow and Eleanore Van Marwijk Kooy of Barrington, Haley Nichol of Addison, Allie and Katie Oakes of Palatine, and Amy Yanow of Highland Park.

Adults starring in *Annie* will include Paul Crane of Arlington Heights as Daddy

Warbucks; Peggy Lyons of Streamwood as Grace; Heide Gotsch of Lake Zurich as Miss Hannigan; and Carol and Tony Calzaretta of Schaumburg as Lily St. Regis and Rooster. There will also be a large children and adult ensemble. Dick Sitt directs; Ann Stewart is music director; and Grace Aiello is choreographer.

*Annie* will delight the entire family with its upbeat story, bright tuneful score and scene-stealing character roles.

Friday and Saturday performances will be at 8 p.m. and Sunday performances will be at 3 p.m. Show dates are Sept. 25 and 26, Oct. 1, 2, 3, 8, 9, 10, 15 and 17. (There will be no show on Oct. 16.) Tickets are \$14 when paid in advance or \$18 at the door. Group and birthday party packages, including a backstage tour and photos with the cast, are available for \$11 per ticket for groups of 10 or more. Visit [www.musiconstage.org](http://www.musiconstage.org) to learn more or e-mail [tickets@musiconstage.org](mailto:tickets@musiconstage.org) or call 1-847-289-4419.

race's recorded history.

Despite the difficulties, the *Collaboration 2* finished on Tuesday, after two days, 14 hours, seven minutes and 47 seconds. It beat the next closest competitor in its section by better than four hours. A very notable accomplishment, since all of the boats sailing in their section were identical Beneteau 40.7s.

The 10-man crew worked on the boat

all winter optimizing systems and equipment and has been practicing since early May for this race. The crew's hard work and Mr. Vickery's experience, skill and ingenuity made the difference. The conditions were demanding, but Vickery credited the crew's determination and optimistic attitude saying, "You just couldn't find a better team."

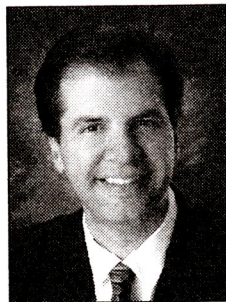

## Dental Technology: Part I

by James T. Gavrilos, DDS

New technology, new techniques and new materials constantly challenge the dental profession. Sorting these out and selecting the best is a consistent endeavor for any quality dentist. The question "Will this yield a better result for my patient?" is the best measuring stick to use when determining whether or not to include some new technology in a dental practice. Over the next few months, I will review some of these new technologies and give you my opinion of how they measure up.

Much of the newest technology is presented to the dental profession before it's truly ready. To compensate for its inadequacies, the manufacturers try to sell their product from a marketing standpoint instead of a practical one. An excellent example of this is the dental laser drill. What a dream come true for a patient! No drilling sound and the decay just gets "zapped" away. These laser dental drills are available today, but they fall way short in practicality. They can be used to "zap" decay, but the dentist still has to use a standard drill to shape the tooth to accept a filling. The laser cannot remove an old filling, cut off an old crown, shape teeth for porcelain veneers or even smooth a biting surface. Where is the advantage in that? I have been told by some of these manufacturers that if I buy one, I should really market it so that I attract new patients even though I wouldn't really use it. They told me, "People love lasers!" But I realized this wasn't going to give my patients a better result, so I passed.

Dr. James Gavrilos

A laser technology that does benefit the patient is used in an instrument called the Diagnodent. Every day, dentists perform exams and miss decay on their patient's teeth. This decay is usually in deep grooves where the dentist cannot reach with his dental pick. The decay can grow in size and go undetected, even from X-rays. A new instrument called the Diagnodent changes all of this. A laser is aimed into these deep grooves and, if tooth decay is present, the instrument will detect it. The dentist can then clean out the decay and place what is usually a substantially smaller filling than he would of if he waited for detection with the pick.

Lasers are certainly a benefit to all those in the dental field, including patients. They will probably be a part of all the new technologies in our future. Be certain that your dentist is using new technologies to benefit you and not as a marketing tool to benefit his bottom line.

Dr. James T. Gavrilos can be reached by calling 1-847-381-4040 in Barrington.

## Restylane, the Latest Advance in Facial Plastic Surgery

by Stacie D. McClane, MD

The never-ending quest for a more youthful appearance has led to the current popularity of soft tissue fillers. These are materials that, when injected into or just beneath the skin, fill out the lines and furrows that make us look older. Many different fillers have been used in the United States over the years, the most common of which has been bovine collagen. While this material has a well-established record for safety, there have been allergic reactions and its longevity is somewhat short considering the cost. In Europe and Canada, another soft tissue filler called **Restylane** has been used for years. In fact, today it is the most popular soft tissue filler used worldwide. We are excited to announce that, after years of waiting, Restylane has been approved by the FDA and is now available at **The Center for Facial Plastic Surgery**.

Restylane is made of hyaluronic acid, a substance found naturally in human tissue between the collagen and the skin cells. Restylane is a clear gel, synthesized from plant sources. The beauty of Restylane is that it attracts water molecules wherever it is injected, thus plumping the treated area. The fullness can be seen immediately and studies show that results last

Stacie McClane, MD

Gary Churchill, MD

two-to-three times longer than bovine collagen.

Since hyaluronic acid is a natural substance found in the human body, there is no need for a skin test prior to a Restylane treatment. Likewise, there is virtually no chance of allergic reaction to the product. Injections can be done as an office procedure and involve minimal downtime and discomfort. Restylane is ideal for treating deep to moderate facial wrinkles and lines and provides patients with a more youthful appearance. It is currently the most promising advance in noninvasive, nonpermanent wrinkle correction.

Please call us at **The Center for Facial Plastic Surgery** at 1-847-304-1000 if you have any questions or would like to schedule an appointment.

## How Does My Marriage Affect My Children?

by Theresa McCay, L.C.S.W., C.A.D.C.

When one individual in the family system has a problem, then everyone in that system has a problem. This is due to the need for the family system to maintain a homeostatic state of functioning or dysfunctioning. If one member changes their conscious or unconscious contract within the system, then problem arises in the family system.

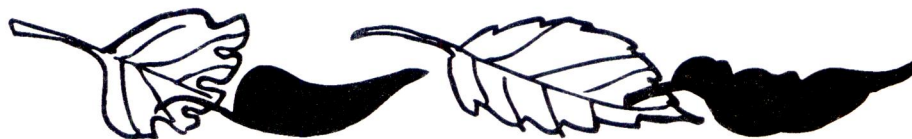

Marriage problems can be toxic to the functioning of all members involved and need to be addressed immediately. This is to assure limited deterioration of the marriage and secondary damage to the development of children in the home. Although children are resilient, there is no greater predictor of trouble in a child caught in the middle of a toxic marriage. That "trouble" may manifest itself as depression, aggression, withdrawal and/or excessive anxiety. If these children are not given the proper support to explore their feeling state throughout a divorce or volatile marriage, it can be predicted that this child will turn to a symptomatic behavior to numb the pain, which could range from school failure, promiscuous behavior, eating disorders and/or substance abuse.

As a certified marriage and family therapist,

it is my belief that marriages turn negative due to a few simple reasons: neglect of marriage and the family system; disrespect for ones' self or spouse; lack of appreciation for spouse; and addiction (work, substance, gambling, eating, sex). After years of treating numerous couples, I have often found the battle of "blame" to be the hardest to "let go of". Simple advice for readers—do you want to be right or do you want to be happy?

I am a graduate of Northwestern University where I received a bachelor's degree in psychology and a master's degree from The University of Chicago in clinical social work. I received extensive training in child and adolescent treatment at The University of Chicago Hospital's Department of Child and Adolescent Psychiatry. I have received postgraduate training at The Chicago Center for Family Health where I received a two-year certification as a marriage and family therapist. This with a certification as an alcohol and drug counselor provides a knowledge base to serve the entire family system.

You know the challenges your family faces every day; just know that there is someone who can help.

## Be Beautiful Day Spa

**A Gentle Respite from Your Daily Routine**

Newly arrived in Palatine, **Be Beautiful Day Spa** is the perfect spot for facials, body treatments, massages, or just to pamper yourself and get away from the hustle and bustle of your busy life.

They offer it all: from oxygen facials and microdermabrasion treatments, sea twists to waxings, massages to makeup treatments and airbrush tanning. And of course, they offer manicures, pedicures, and acrylic and UV gel nails too.

Using only the finest natural ingredients the sea and earth have to offer, **Be Beautiful Day Spa** features a variety of services to suit your every need. For example, a European Seaweed Facial is perfect for sensitive, dehydrated skin suffering from the effects of the sun, pollution and daily grime. A gentle cleansing with milk and honey mask is followed by a soothing massage with seaweed serum rich in vitamin C, minerals and proteins. The facial ends with a cooling and soothing fresh seaweed mask that leaves the skin refreshed, healthy and radiant.

Or how about a Renewal Facial, a re-texturizing treatment for dry or sun-damaged skin? French seaweed provides a gentle marine hydroxy acid that is combined with natural alpha hydroxy acids to exfoliate and renew. It eliminates fine lines, evens out skin tones, and leaves the skin supple and younger looking. (A course of six treatments is recommended, though you will see immediate results.)

Speaking of sun-damage, the summer season can be very unkind to your skin.

With fall approaching, a microdermabrasion treatment may be just what you need. A fine stream of tiny crystals is used as a gentle, gradual exfoliation of the skin's surface that reduces damage caused by age, the sun and other environmental factors. This rejuvenating treatment stimulates the production of fresh, young skin. You will emerge radiant and glowing.

Need to re-energize or relax? **Be Beautiful Day Spa's** massages will enhance relaxation and circulation and relieve tired, sore muscles. The Aromatherapy Massage is perfect for the person who needs to de-stress. The Swedish Massage can provide a gentle respite from your daily routine. Perhaps you are an athlete in training or you just prefer a more intense therapy? The Great Depths Massage is for you! And the Hot Stone Massage is ideal for encouraging free-flowing energy and a clear mind.

So if you're looking for the best facials, body treatments and massages, or if you just need a place to find some peace of mind, visit **Be Beautiful Day Spa**. They are in the Gateway Center, across from the Palatine train station, at 220 N. Smith Street, Suite 108. ## Loving The Skin You Are In

Healthy, beautiful skin is possible at any age. At Van Dam Dermatology, Ltd., and Versa Medi-Spa, we are here to help you love the skin you are in. During the month of September, we are focusing on back-to-school and the A-B-Cs of healthy, beautiful skin.

**A: Aging**—We all want to look as young as we feel. Clearly, the first signs of aging appear in our skin, and many can be corrected through safe, effective and nonsurgical treatments.

**Botox® Cosmetic** is the leading anti-aging treatment worldwide; it can prevent facial wrinkles and creases from forming and soften those that exist in the forehead and brow region and around the eyes. If you haven't tried Botox® but want to learn more, call our office. Our staff members who use Botox® themselves can address your questions. If you have tried it elsewhere and not been fully satisfied with the results, please come and consult with us. Dr. David Van Dam is a member of the Allergan Inc. National Education Faculty, noted for his innovative uses in Botox® treatment and for the safe and satisfying outcomes his patients experience.

Other injection therapies to combat aging include soft tissue augmentation to replace that fullness that is lost in our faces over time. The newest generation of soft-tissue fillers, **Restylane®** and **Hyaluronic®**, are safe and long-lasting. You can be confident of these allergy-free fillers to help restore natural fullness to your face and lips.

The next generation of laser therapies to treat the signs of aging, **Fraxel® SR** is coming to Van Dam Dermatology. Fraxel® SR can remarkably resurface and tighten skin, reduce wrinkles, age spots and sagging, all with no downtime. Call us if you wish to receive more information about this amazing new treatment.

**B: Beauty**—Beautiful skin is smooth

and clear. **Intense Pulsed Light (IPL)** combats skin irregularities by reducing facial redness and eliminating irregular vessels and veins, erasing sunspots and other forms of irregular pigmentation, and permanently reducing unwanted hair anywhere on the face or body.

Clinical skincare treatments at our **Versa Medi-Spa** can clear, soften and rejuvenate the skin as well as rejuvenate you. Advanced microdermabrasion, custom glycolic peels and combinations of treatments with specific enhancements will help you achieve your goals. In addition, Versa offers physician-only skincare; consult with any one of our medically trained, licensed estheticians for a simple-but-effective skincare regimen to achieve your goals. We also offer physician-only, mineral-based **Jane Iredale® cosmetics** to keep your skin well-protected and looking naturally beautiful.

**C: Clarity**—Clear skin is free of acne, inclusions and congested pores. Acne is something that can occur at any age and is the leading skincare concern of both adolescent and young adult men and women. Today, acne treatments do not need to leave your skin visibly dry, irritated or red. And many cases of acne can be controlled without oral medications using Intense Pulsed Light therapy and special skincare treatments such as advanced microdermabrasion. Bridgette B. Hallstrom, PA-C, is our resident acne expert; her goal is to help you achieve clearer, healthier skin.

If want to love skin you are in, contact Van Dam Dermatology, Ltd., at 1-847-382-5111 and Versa Medi-Spa at 1-847-382-6800. Both are located at The Foundry of Barrington in Barrington. During September only, we are helping you get back to basics in skincare with **20% savings on all our skincare and cosmetic products.**

## Art Associates to Visit New Racine Art Museum

On Friday, Oct. 1, members and guests of the Barrington Community Associates of the Art Institute of Chicago will travel to Wisconsin to visit the New Racine Art Museum (RAM), designed by award-winning Chicago architecture firm Brininstool and Lynch.

The RAM opened in May 2003. Its design, based on an exploration of transparency, translucency, opacity and light, creates a building with both a strong presence and a serene ambience.

In 1938, Jennie E. Wustum chose to honor her husband by donating their house and property on the edge of town to the city of Racine, along with a small trust fund to create an art museum for future generations. It began in 1941 with a small collection of art from the WPA's 1930s Federal Art Project. Today, it houses an impressive contemporary craft collection. By the 1990s, the collections of ceramics, fibers, glass, metals and wood, alongside paintings and sculpture, became so large that only 10 percent could be exhibited at one time.

Generous artwork donations from Karen Johnson Boyd formed the nucleus of the RAM's current collection. Architect Brad Lynch, who grew up on the same street as her Frank Lloyd Wright Home, noticed how art really lived in her home.

The new museum, part of the revitalization project in downtown Racine, began life as a banking complex, part of which dates back to the Civil War era. Because it was too expensive to remove the limestone panels above the first floor, architect Brad Lynch decided to cover it with translucent acrylic panels commonly used for greenhouse roofs. Natural light makes the panels appear iridescent.

In October, a special exhibition at the Racine Art Museum, "The Artist Responds: Albert Paley and Art Nouveau", focuses on how acquiring and living with art nouveau

**Fiber Niehues (Basket)**

has influenced his work. Albert Paley has single-handedly revived forged iron as an art form. Approximately 30 of Paley's sculptures and works on paper will be on view. His work ranges from body adornment to domestic furnishings and monumental public sculptures.

A special photography exhibit at the Charles A. Wustum Museum of Fine Arts features professional juried competitions. "Wisconsin Photography II" includes photographic and digital media as well as video work by artists from around the state. It also includes photographs from RAM's permanent collection.

Lunch will be at Sam and Gene's Grotto, where the décor was inspired by Sam and Gene Johnson's contrasting loves of the celestial and the ocean.

The cost of this interesting trip is \$65 for members or \$75 for guests. The bus will depart from Langendorf Park at 8:30 a.m. To register, please contact Bonnie Marturano, 1-847-359-7059, by Sept. 16, 2004.

## "Women and Heart Disease" Topic for BAPW

The next meeting of the Barrington Area Professional Women will be Thursday, Sept. 2, at 6:15 p.m. for cocktails, 7:00 p.m. for dinner at the Barrington Country Bistro. Our presentation for the evening will be "Women and Heart Disease".

Women have unique risks when it comes to their hearts. Dr. William Gries from Good Shepherd Hospital will present risk factors, prevention and the latest treatments for the feminine heart.

Dr. Gries is a board-certified noninterventional cardiologist. He received his medical degree from the Loyola University Stritch School of Medicine and completed his residency and fellowship at Loyola University Medical Center. He has been

practicing medicine for more than 10 years.

Please make your reservation as soon as possible by calling reservations chair Susan Legrady at 1-847-381-5501 or send an e-mail to MJLegrady@aol.com.

Please join us for cocktails at 6:15 p.m., dinner at 7:00 p.m. and the evening's presentation at 8:00 p.m. The meetings usually conclude by 9:15 p.m. The cost of our monthly dinner meetings are \$28 for members or \$33 for guests.

## **Northwest Dermatology Has All The Latest Technology**

Northwest Dermatology in Hoffman Estates is pleased to announce the addition of the **Radiancy Skin Station**, a revolutionary treatment combining light and heat energy to treat aging or sun-damaged skin as well as acne. Pulsed light and heat penetrate the skin to stimulate collagen remodeling and reduce redness, resulting in clearer, smoother-looking skin. Treatment is noninvasive and has been used to improve brown and red blemishes and even skin tone and texture.

A series of treatments for acne leads to dramatically clearer skin, avoiding the need for oral antibiotics. Northwest Dermatology continues to offer the **V-Beam** pulsed dye laser, a safe and effective treatment for facial spider veins, rosacea, port wine stains and warts.

In keeping with the latest technology, the recently FDA-approved cosmetic filler substance **Restylane** is now available in our office for the treatment of moderate

to severe facial lines, such as smile lines. Restylane is made of hyaluronic acid, a nonanimal-based, natural substance that already exists in the human body. Allergy testing is not required prior to injection of Restylane and average treatment results last twice as long as collagen.

In addition to general and surgical dermatology, we provide a variety of services to enhance your skin. The **GentleLase**, for fast and effective treatment of unwanted hair, has a dynamic cooling device and emits a gentle beam of light that passes through the skin to the hair follicle where it is absorbed. (It is not necessary to let the hair grow prior to treatment.) For skin rejuvenation, we have treatments available including **microdermabrasion**, **beta-hydroxy acid peels** and **Botox®** injections.

Please call our office at **1-847-884-8096** for more information or to schedule an appointment.

## Healing Through Meditation

More than 25 years ago, Herbert Benson, a cardiologist at Harvard Medical School, discovered the "relaxation response"—a natural reflex mechanism in our bodies that can be triggered by 20 minutes of daily meditation. Regular and consistent meditation practice triggers the body's natural ability to reduce stress and its harmful physical and psychological consequences, allowing our body and mind to heal. Results reported include reduction in blood pressure, relief of headaches, reduction in pain and discomfort, longer and more restful sleep, and improved immune system functioning. Meditation helps us emotionally by reducing anxiety, depression, frustration and worry. It improves our sense of self-esteem and confidence, helping us to focus on the present

moment so that we feel centered, grounded and balanced in our day-to-day lives.

If you would like to learn how to use meditation techniques to improve your life, please call Dr. Barbara Grace at **The Grace Center** and register for one of the several classes she offers. Dr. Grace has been teaching meditation and relaxation techniques for nearly 10 years. She will be covering breathing techniques, guided imagery, mindfulness, chanting, using light, sacred symbols and much more. Beginners and advanced students are welcome. Classes start Sept. 16 and will continue every Thursday evening from 7:00 to 8:30 p.m. at Heartland Gathering Place in Barrington. Call **1-847-382-3232** to register. For more information, visit [www.BarbaraGrace.com](http://www.BarbaraGrace.com).

## Managing Investment Risk Through Asset Allocation

by Joseph P. Boutross, UBS Financial Services

How does an investor create an appropriate, long-term investment plan? Spreading assets over a variety of different investments is perhaps the most important rule one can follow. Because no single asset class performs best in all economic environments, the performance of a diversified portfolio is expected to fluctuate less as losses from some investments are offset by gains in others.

Asset allocation is the act of balancing the three common investment classes: stocks, bonds and cash reserves. Knowing the differences among them is important:

- **Common stocks**, which represent ownership rights in a corporation, entail more risk than other types of financial assets in the short run. But over longer holding periods, they have usually provided the highest returns and the greatest margin over inflation. Common stocks also have the greatest potential for short-term downturns.

- **Bonds** are IOUs issued by corporations, governments and federal agencies. They typically offer higher yields than cash reserves, but their value can fluctuate dramatically in response to changes in interest rates. Bonds generally offer higher current income with less volatility than stocks but have limited potential for increased returns.

- **Cash reserves** include money market securities such as treasury bills and short-term certificates of deposit. Because money market securities have shorter maturities, they typically provide a stable investment value and current interest income. However, inflation can quickly erode the purchasing power of cash, leaving investors short of reaching their financial goals.

### Diversification

#### Within Asset Classes

As the stock or bond portions of your portfolio are refined, consider spreading investments among the various categories within a single asset class. For instance, you could diversify your stock portion among several strategies to target growth

stocks, value stocks, blue chip stocks and others.

A bond allocation may be diversified to include instruments characterized by specific maturities (short, intermediate or long-term) or different types of bonds, such as U.S. government, corporate or tax-free municipal bonds. Also consider a mixture of domestic and international stock and bond investments.

### What Should The Allocation Be?

How much emphasis should be placed on stocks for growth, bonds for income and cash reserves for safety and liquidity will depend in part on an investor's tolerance for risk and the time horizon for reaching financial goals. If the goal is the near-term purchase of a house or car, it may have a shorter time frame, calling for lower- or moderate-risk investment approaches.

A goal like a college education or retirement may have a longer time horizon that allows an investor to pursue more aggressive and potentially rewarding strategies because of the ability to wait out any short-term fluctuations in the market. Of course, the time won't matter if you misjudge your emotional response to a downturn. For this reason, an investor must always weigh the desire for higher returns against a willingness to tolerate market setbacks.

### Stay On Course

An effective asset allocation can help balance the risk assumed with the return earned. But it is still important to remember that the stock and bond markets are inherently volatile. All too often, investors become nervous at the first sign of a market downswing and may be tempted to alter their investment plan. By understanding what to expect, an investor will be able to stay on course and resist the urge to revise one's investment mix based on short-term market events.

To find out about asset allocation and how a customized asset allocation strategy may assist in reaching your financial goals, contact your financial advisor.

## You and us. Taking a new approach to retirement.

Up until now, retirement planning was mostly a "one-step" process. You determined your retirement needs, then invested accordingly. But with many retirees living longer, this approach may not go far enough.

### Attend our free seminar: Rethinking Retirement from Planning to Management

We'll show you a new way to think about retirement. It involves drawing up a plan—and then helping you manage the plan.

At the seminar, you'll see:

- How much money you may need to retire.
- How rising healthcare costs can add to your retirement expenses.
- The advantages and disadvantages of different types of retirement plans.

We have designed the seminar to make you think about your retirement needs and goals, and how you can plan—and manage—for changing circumstances. It's what you should expect from one of the world's leading wealth management firms with the heart and soul of a two-person operation.

## LOSE THE WEIGHT...AND KEEP IT OFF!

## New Weight Loss Program Shows Dramatic Results

Dr. Barry Berger, a Board Certified Internist practicing in Lake Zurich for the past 12 years, introduces a new weight loss program. This program is based on the 40/30/30 nutrition plan which consists of 40% carbohydrates, 30% protein and 30% fat. By increasing protein while decreasing

fat and carbohydrates, weight loss success increases. University studies using this diet method along with the latest advances in prescription medication have shown safe and effective weight loss results.

Unlike other programs for which you need to buy food or count calories, this method offers the most freedom and achieves the best long lasting results available today. Fat comes off and stays off! Dr. Berger custom designs a program for each patient and discusses proper exercise, nutrition and overall weight status while considering your current lifestyle, exercise and diet habits.

Dr. Berger has thousands of satisfied patients. Insurance usually pays for some or most charges, (sorry, no HMOs).

To begin a weight loss program that really works for you, call **1-847-438-2454** in Lake Zurich or **1-847-291-0772** in Northbrook to make an appointment for your consultation today.

## An Evening with Julie Andrews

On Monday, June 7, the Sarah Siddons Society of Chicago hosted its 52nd Gala at the Ritz-Carlton Hotel in Chicago.

This year, the award was presented to the brilliant actor of stage, screen and television, Julie Andrews. The delightful John Mahoney of *Fraiser* fame was her escort and presenter.

Upon arrival, guests glided down a red carpet past portraits of former Sarah Siddons winners: Helen Hays, Lauren Bacall, Julie Harris, Angela Lansbury and many others. Before entering the ballroom for dinner and dancing to the Stanley Paul Orchestra, cocktails were served while a unique silent auction was in progress.

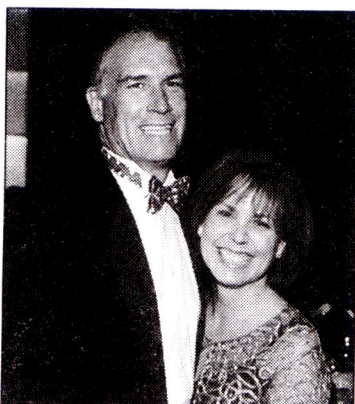

**Gus and Carol Horschke admire a portrait of Carol Channing, former Sarah Siddons winner.**

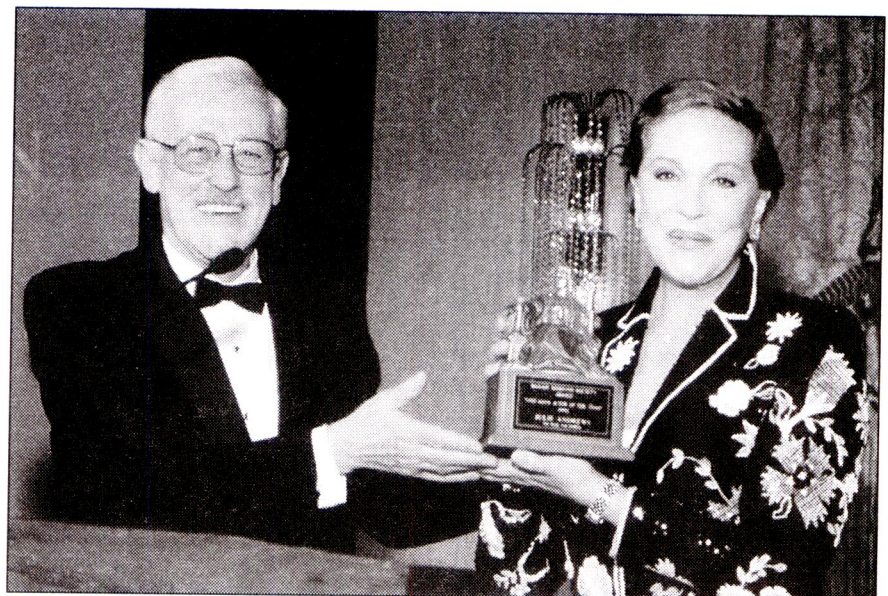

The fabulous Bill Zwecker of CBS and columnist for the *Chicago Sun-Times* was master of ceremonies. He introduced Kati Brazda, Chicago's leading lady. The society recognizes a Chicago actor each season for their performance in a local theater production by presenting this award.

Congratulations to our scholarship winners: Marissa A. McKown of Columbia College; Jessi Campbell and Seth Unger, The Theater School, DePaul University; and Michael Mahler, Alan Schmuckler and Jarrod Zimmerman, Northwestern University School of Communication.

## Hypnosis

by Martin A. Nathan, M.A., L.C.P.C.

Hypnosis is being used more than ever for treatment of a variety of issues. These include nicotine addiction, eating disorders, nail biting, anxiety and panic attacks, weight loss, depression, anger, pain, and sleep disorders. *It is particularly helpful with stopping smoking.*

I'm a licensed clinical professional counselor and have been in private practice for over 28 years. I see couples for marriage and relationship counseling, and individuals for a variety of issues. I am certified in the use of clinical hypnosis and have been using it in my practice for the past 27 years.

I use hypnosis most often with individuals in order to quickly change habit and behavior patterns that the client considers undesirable. Using hypnosis helps the changes to take place in a much shorter

period of time than traditional counseling alone. The combination of short-term counseling with hypnosis saves both time and money.

If you think that you have an issue that may be treated by hypnotherapy, call and discuss your issue or issues with me. You will learn the approximate number of sessions, the cost per session and whether or not it's for you.

I am also a certified meditation instructor and teach six-week "Introduction to Meditation" classes on a regular basis. Meditation helps you to respond better to stressful situations, lowers blood pressure and generally makes you feel better. If you are interested in learning how to meditate or wish to restart your meditation practice, please call **1-847-934-6555** for information.

## Dental Implants—Are You a Candidate?

Implants are revolutionizing dentistry! In most cases, patients no longer need to struggle with removable appliances to eat and smile comfortably. Dental implants have been successfully replacing missing teeth over the past 20+ years.

A tooth has two parts, a crown and a root. The crown is the part seen above the gumline. The root is in the jawbone. The crown and root are fused together in one unit. In order to replace a missing tooth, both the crown and root need to be replaced.

### What Exactly are Dental Implants?

The dental implant functions as the root of the tooth. It is placed in the jawbone where the original root was located. Essentially, a dental implant is an artificial root system made of pure titanium and is biologically compatible with the human body.

After the dental implant is placed in the jawbone, a crown can be fabricated to fit on top of the dental implant; therefore, replacing the missing tooth is two separate pieces.

### Who is a Candidate for Dental Implants?

- Patients missing only one tooth.
- Patients missing multiple teeth.
- Patients currently wearing a denture

Dr. Phillip Lee Patrone

or partial denture who would like to replace it with nonremovable bridgework.

• Patients who would like their current dentures or partial denture to be more secure and stable.

**Dr. Patrone** surgically places dental implants for all types of implant cases and specializes in the most challenging implant reconstructions. **Dr. Patrone** is able to restore lost bone for future implants when there wasn't enough bone support in the past. If you have been told that you are not an implant candidate, we may be able to help.

**Dr. Patrone** is partners with Dr. Stanley Treitler and Dr. Terry Sandroff with offices in Barrington, Arlington Heights, Bloomingtondale and Vernon Hills. Please give us a call at **1-847-277-0181** if you have any questions.

## Barrington Junior Women's Club Hosts "Meet the Juniors" on Sept. 21

Anyone interested in joining Barrington Junior Women's Club is invited to attend this casual, fun evening entitled "Meet The Juniors" on Tuesday, Sept. 21, at 7 p.m. (For the meeting location, call 1-847-382-6517).

Women from all over can come to mingle with current club members, ask questions about this 67-year-old organization, and learn about the impact it makes on the Barrington community and surrounding area.

If you haven't seen the Barrington Junior Women's Club lately, take another look. This group of dedicated women is making a difference in multiple ways and having fun doing it. Through hands-on work in the community and successful philanthropic events, they are establishing new programs and reaching out far beyond the center of Barrington.

Many people don't know that BJWC is the organization that established Safety Town in Barrington. Safety Town is the respected two-week summer program for kindergarten age children held each June and July. The program teaches children the dangers of electricity, fire and poison. It also introduces Officer Friendly and Fireman Jim and allows children to participate in bicycle safety instruction on a real, miniature site located on the health world grounds.

With the Northern Illinois Special Recreation Association, two years ago, Barrington Juniors decided to implement a new Special Needs Safety Town to address the safety concerns for children with special needs. This one-week program is held at the Barrington Park District and promoted through area park districts.

Another kid-friendly program supported by BJWC is Kids on the Block. This educational program is designed to enrich the study of and promote the acceptance of disabilities and other social concerns, including divorce, asthma and ADHD. Community volunteers along with volunteers from BJWC perform puppet shows to area classrooms as an effective tool in teaching children about such issues.

Three times a year, BJWC volunteers visit area seniors with gift cards and stamps. They also host three parties a year: in fall at Good Shepherd Manor, on Valentine's Day at Governor's Park and a Spring Fling with Barrington Area Council on Aging at the Barrington Park District. Juniors provide performers as well as serve food and play games with the older generation.

The women of Barrington Juniors also provide hands-on help to a variety of community programs and events. They assist in the washing of the blankets each week for the PADS homeless shelter, assist with the delivery of Meals On Wheels, participate in a giving tree to aid local families in need during the holidays, provide hands-on help for Barrington Giving Day, participate in village beautification/cleanup days, assemble a team for the Barrington

Relay for Life benefiting the American Cancer Society and host one day at the Village Brat Tent on the 4th of July. Furthermore, the ladies make a real effort to patronize local establishments in the Village of Barrington.

Perhaps the more visible side of BJWC is its fund-raising. Their successful fundraiser, "Meet Me In Monte Carlo", was held last April. A percentage of the proceeds went to benefit Wellness Place. This November, BJWC will host what is sure to be another outstanding Fall Fashion Show, which is an annual event that women all over the area look forward to attending. The success from this event proves over and over that a fund-raiser can be fun and profitable.

To ensure the hard-earned money raised from their fund-raisers goes to organizations in need, BJWC has a philanthropy committee designed to review financial grant requests and make recommendations to their board. They also review scholarship applications and make final selections that are awarded to recipients at the BJWC June dinner. Typically, five college scholarships a year are granted to Barrington High School graduating seniors. The scholarships are based on community service, merit and matching funds.

One reason these women work so well is that many become friends. The meetings, held once a month, are a time for business and social activity. After club business is discussed, there is often a presentation about subjects ranging from the latest breast cancer information and issues surrounding aging parents to interior design and the latest style tips. The food is great and is prepared by a hospitality committee that ensures the meeting environment is relaxed and friendly, yet productive.

Club president Stephanie Proebsting said, "We have a mentor program for new members, so anyone who is new to our organization doesn't feel alone their first year... No one likes to walk into a room full of people they have never met."

The mentor program includes phone calls from board members and someone to sit with at each meeting.

In an effort to get new members acquainted with current and associate members, "Meet The Juniors", will be held on Tuesday, Sept. 21, at 7 p.m. Again, interested individuals may call 1-847-382-6517 for location and directions.

Members of BJWC come from all over the Northwest Suburban area. Membership includes stay-at-home moms as well as full-time professionals. Meetings are scheduled to accommodate everyone on the first Tuesday of each month at 7 p.m., except for July and August when most people vacation. Membership is open to women of all ages.

Anyone interested in joining this group of talented and caring women is encouraged to call 1-847-622-3838.

Plus, those who attend have the rare opportunity to socialize with neighbors from nearby communities and to help the residents of Mount St. Joseph. A portion of the proceeds from the event will be donated to Mount St. Joseph, a residential home for developmentally disabled women ranging in age from 20 to 84. The home was founded in 1935 by the Daughters of Saint Mary of Providence.

### Oktoberfest Highlights

Highlights of this year's Oktoberfest include carnival rides and games, live entertainment, food, beer, an arts and crafts show, and a silent auction benefitting the LZACC Scholarship Program. All but the carnival will be held, rain or shine, inside heated tents.

This year's beer garden boasts foreign and domestic beers by the cup or pitcher; German and domestic wines by the glass or bottle; Jagermeister products; and non-alcoholic beverages. Food will be provided by Rusty's Ribs and the Lake Zurich Chamber of Commerce (serving delicious German fare).

### Ticket Prices

Entrance to the entertainment tent costs \$5 per person if the ticket is purchased by Thursday, Sept. 23 or \$8 per person on site. Children under 12 can enter free with a paid adult. ## REMODELING 2004

Experts predict that more people will be able to work from home as technology progresses. That was one impetus behind a recent remodeling project undertaken by Tom and Susan Carroll of Inverness. Tom, a consultant, needed a space to serve as a home-office. The Carrolls also wanted to incorporate space for large scale entertaining. Working with the local architecture firm of David Lindquist and Associates, the Carrolls envisioned a new room nestled into the mature trees that adorn their property. Architect Dave Lindquist designed an octagonal room, off the existing living room, to take advantage of the verdant scenery. The finished lower level would serve as a workspace for Susan and a guest suite for visitors.

Barrington's **Delta Renovations** was chosen by the Carrolls to be general contractor. Framing a soaring, 20-foot high, 12/12 pitch, octagonal roof is a job best tackled by experts. "This is the kind of challenging work that my crews live for," says company President Mark Zurek. "It's really satisfying to see all of the angles come crisply together. A mistake in the framing for a project like this will definitely show in the finished room." The addition also boasts a trayed ceiling with uplighting behind beautiful moldings and a custom-built fireplace by Rich Dworshak, one of **Delta's** master carpenters.

The Carrolls worked with Ross Gerami, a designer with **Delta Renovation's** sister company, **Barrington Kitchen & Bath Studio**, to design cabinetry worthy of this beautiful new space. The Carrolls chose Crystal cabinetry in a richly-stained cherrywood. Ross designed special angled cabinets to flank the bookcases. Fluted pilasters and an oversized crown molding were incorporated to add visual weight to the bookcases, keeping them in scale with the new room. The custom desk and credenza needed a practical work surface that wouldn't look too "kitcheny or bathroomy". Ross was able to find a laminated product that exactly matched the cherry stain. When combined with cherry-edge molding, it makes a surface that will stand up to daily work, yet be beautiful enough to complement the rest of the room. A wet-bar with beveled glass mullion doors was included to make the room amenable to entertaining.

If you are considering a project similar to this one or a new kitchen or master suite, you should call **Delta Renovations** at 847-277-1305 or **Barrington Kitchen & Bath Studio** at 847-381-3084. Our team is waiting to become part of your team.

**It takes expertise to do the intricate framing necessary to create a beautiful finished ceiling like the Caroll's. Note also the custom-built mantle.**

**Designer Ross Gerami (left) with Tom Carroll in his inviting new office space.**

June 12, 2001

It was such a delightful experience to work with Delta Renovation and Barrington Kitchen and Bath to realize a wonderful dream of ours—to add a Library/Office to our home. Our architect, David Lindquist, used his considerable imagination and design talents to envision the most marvelous space. We have used it constantly since its completion—as office space for Tom, to read in comfy chairs by a winter fire, to entertain friends from the wet bar or on extra tables set for dinner in the vacant spaces. Each beautiful detail of craftsmanship is something to be proud of. In the room of the same size directly under the library I have a sewing workshop and office space for myself—and we'll have a Murphy bed and built-in desk installed next week to give the room a finished look. With a new full bath in the adjoining finished room, it will serve as a great suite for visiting family and friends.

We've appreciated all the professional workmanship that it took to complete such an involved project. Through it all we have continued to feel the pride that everyone from Delta felt in the building and the flexibility they were willing to exhibit as our plans changed from time to time. I can honestly say that the whole process was fun!

We'd be glad to speak to others in our area who are considering a building project with either Delta or Barrington Kitchen and Bath and tell them what an enjoyable experience it was to work with Mark and his building team or with Ross as he designed beautiful cabinetry for our Library.

With many thanks,  
Susan and Tom Carroll, Inverness

## It's Fall... Still Need Landscaping?

Summer vacations are ending, school is starting and with the cooler weather approaching, the fall season provides an ideal time to finally complete that landscape project you were planning.

"Fall landscape construction creates many benefits to the homeowner," states John C. Cazzetta, Landscape Architect and owner of **BonnerCodd Associates** in Barrington. "Our fall installation schedules are manageable compared to the craze of our spring and summer projects. In addition, our growers will be digging fresh stock in the next several weeks, which will therefore allow the homeowner the best conditions to design and install even the most comprehensive landscape project prior to the arrival of cold weather."

"The best part," Cazzetta adds, "is that the homeowner can then appreciate a full bloom next spring while also using their new patio or walkway rather than starting a project in May when the majority of the bloom has dissipated. Finally, plantings that are installed in the fall 'heal in' over

the winter, which means added growth and beauty next spring."

If you still have thoughts about recreating your landscaping, please call John C. Cazzetta, Landscape Architect at **BonnerCodd Associates, Inc.** at **847-382-4838**. They are able to create award-winning designs as a full service design/build firm with the expertise of staff licensed Landscape Architects and experienced installation crews. Call to schedule a no-cost consultation now to allow the proper time to creatively design and install your fall project.

## Fall Membership Tea Hosted by Art Associates

The 2004-2005 season of the Barrington Community Associates of the Art Institute of Chicago will begin with the Fall Membership Tea, Thursday, Sept. 9, 1 p.m., at the Presbyterian Church of Barrington, 6 S. Brinker Rd.

Robin Schnur, Art Institute museum education lecturer, will present an illustrated program, "Vermeer and Velazquez".

Johannes Vermeer worked in the northern city of Delft and sold his quiet images of domestic life to a loyal group of middle-class collectors. Diego Velazquez made a name for himself at court and enjoyed lifelong support from Spanish King Philip IV. Although these two artists never met, their art reveals certain shared interests and influences. The lecture will show subtle connections between two great 17th century artists.

After receiving her master's in art history, theory and criticism from the School of the Art Institute of Chicago, Robin Schnur is now a member of the lecturing

staff at the Art Institute. She has taught art history at Columbia College Chicago and the School of the Art Institute.

The public is invited to this free program.

Anyone living in the Northwest Suburbs who wants to learn more about the visual arts is welcome to join the Barrington Community Associates. The \$85 annual dues include family membership benefits at the Art Institute. For more information about the Barrington Community Associates or its programs, please call membership chair Marianna Barr, 1-847-382-3952, or BCA chair Mari Harrer, 1-847-462-1963.

## We Listen to Your Dreams and Build on Them

This may be your final opportunity to purchase a Long Grove estate home in a very desirable community. For the discerning buyer, **Brookstone** is a dream realized—an intimate neighborhood of fabulous custom homes next to a magnificent forest preserve.

Located in highly desirable southeast Long Grove, **Brookstone** is described as a multimillion-dollar island of lavish estate homes surrounded by a rural ambiance. Yet it's close to everything important to the homeowner.

When completed, there will be 15 one-of-a-kind homes on 1-to-1 3/4-acre wooded sites. Situated on rolling terrain, all of the estate homes have walk-out or English basements.

Only five home sites remain, backing up to a majestic 400-acre forest preserve. Most of our homeowners spend their leisure time enjoying nature from their backyards, which is why we designed the back of our homes to look as beautiful as the front. Our customers want their exterior elevations to be not only functional but also dramatic.

Amenities such as elegant oversized

balconies extend off the master bedroom, brick paver heated patios, year-round fire pits, outdoor fireplaces, compact exterior kitchens, and screened and heated sun rooms combine to make the outdoors an extension of the home.

Homeowners can also leave the comfort of their backyard for a wealth of outdoor activities in the forest preserve. They can bird watch, photograph nature, ride their bikes along scenic bike paths, exercise on walking trails or fish in the two well-stocked lakes.

At **Brookstone**, you will be impressed with the architectural design of each residence. We take pride in creating impressive homes with European architecture; some resemble French chateaus with charming two-story octagonal turrets, while others look like English manor homes or luxurious country estates. Aesthetically pleasing, all our homes are adorned in brick, stone and stucco along with limestone accents.

We invite you to visit our exquisite community and learn how a **Brookstone** home may become your dream realized. Call **1-847-541-2100**.

## Green Thumbs Meeting

With the approach of autumn, many gardeners have the same thought—"What new touches can I add to my garden to make it even more beautiful next spring?"

Members of the Green Thumbs of Barrington Garden Club will discover a wonderful answer to that question when they join for the first meeting of the season on Monday, Sept. 20, at 12:30 p.m. at the Barrington Area Library.

Mr. John Heaton, owner of Knupper Nursery and Landscape in Palatine, will present to the group a panorama of colorful spring-flowering bulbs to consider.

These bulbs, both our favorite tulips and daffodils and the unusual specialty

bulbs, must, of course, be snuggled into the ground during September and October. He will describe in detail what will make them happy: when to plant, how deep to dig, sunshine requirements and care after the planting is done.

Following his suggestions should lead to some beautiful blossoms and designs for enjoyment next spring. The club appreciates this opportunity to share Mr. Heaton's expertise.

Guests and visitors are welcome to attend this enjoyable program at the library, which is located at 505 North Northwest Highway in Barrington. For more information, call Carol at 1-847-526-1118.

## Dietitian to Discuss Cancer-Related Fatigue Sept. 30 at Wellness Place

Cari Rivas, registered dietitian from the Cancer Institute at Alexian Brothers Hospital Network, will present "Nutrition and Fatigue" on Thursday, Sept. 30, from 7 to 9 p.m. at Wellness Place, a cancer resource center at 1619 W. Colonial Parkway, Palatine.

The free program will outline ways to deal with cancer-related fatigue by using proper food and lifestyle choices. Prereg-

istration is required by calling 1-847-221-2400.

Wellness Place, a nonprofit, community-based organization, offers resources, support and education for people with cancer, their family and friends. It serves 60 communities in the Northwest Suburbs of Cook County and parts of McHenry, Lake and Kane counties.

## Avoid the Fall Rush!

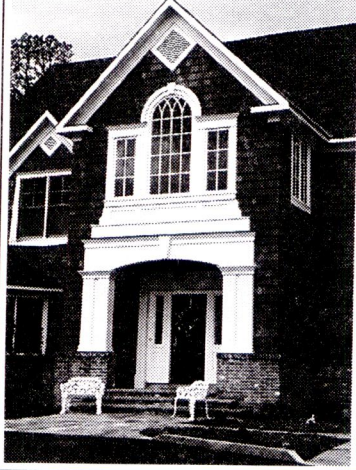

As the summer activities come to a close, many folks are considering remodeling their home or building a new one. "Now is the perfect time to call an architect to discuss your building plans," says John C. Cazzetta, president of **Kemper Cazzetta Architects** in Barrington. The design process can take several weeks and, when complete, the permit and bidding process can add an additional two weeks. This all means that construction probably will not start until at least two months after your initial consultation with your architect.

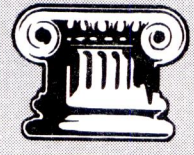

"We urge our clients who are considering construction this fall to begin discussing their design thoughts with us as soon as possible. The 'fall rush' occurs in late September through October, which means construction may be forced to start after the holidays! We try to get our foundations in before the frost sets in January." Once this occurs, then construction is not

a problem throughout the winter months. Cazzetta adds, "It is actually desirable to build in the winter. One reason is the increased availability of quality contractors and the decreased costs of building materials in the off-season. Another reason is that your project will be completed by late spring, so that you may enjoy the new structure during the warm season."

If you are thinking of creating or revising your home this year, then please call John C. Cazzetta at **Kemper Cazzetta Architects** at 382-8322 for a free consultation. They specialize in residential architecture and would enjoy showing you their portfolio.

## Buyer Brings Love of Gardening, Entertaining to New Home at TerraVilla in Crystal Lake

When moving from a large single-family home to a maintenance-free ranch home, buyer Pat Galus was willing to cut back in square footage, but not in quality living space.

She and husband Fred found just that at **TerraVilla**, a 33-acre community of 52 attached and detached ranch homes being developed by **Premier Property Group, Inc.** near north suburban Crystal Lake.

"We were living in a 5,000-square-foot restored Victorian in Dundee, and we had raised our family in a large single-family home in Barrington," Pat Galus said. "We were ready to 'downsize' in square footage, but we still wanted great space to entertain and live."

The Galus' chose the 2,032-square-foot Essex, including two bedrooms, two baths, a great room and full basement, base priced from \$362,900.

Galus, a grandmother of three and volunteer worker, has brought her love of gardening and entertaining to each home she has lived in.

"Each home has had its own challenges

with gardening," she said. "At **TerraVilla** the challenge is creating a potted garden, so as not to interfere with the existing landscaping."

After spending years researching her hobby, and through sheer trial and error, Galus' favorite

ite is the English country garden. Although still furnishing their new home, Galus has gotten right to work on her garden.

"It has a lot of spiky flowers and vibrant colors," she said.

At previous homes, Galus has participated in garden walks, and now shares her love of flora with her grandchildren.

"I've noticed that gardening is a hobby that is influenced by mothers and aunts," Galus said. "And in that tradition, I'm passing it along to my grandchildren. We have garden class, and they really enjoy learning all of the names of the flowers."

Gardening isn't Galus' only passion—she also loves to cook and entertain, and this is evident in her well-designed country kitchen.

"The kitchen is unique," Galus said. "We took a hutch from our last home and wanted to customize the cabinets to match. We also have an old-fashioned apron oven."

Other options the Galus' added to their home include hardwood floors in the main living areas, an extended sun room and a bay

window in the master suite that serves as a sitting area.

Semi-custom touches bring out the personality of each home, said Peter Bianchini, president of **Premier Property Group, Inc.**

"I'm always impressed when I see how each individual buyer takes our well-designed plans and turns them into their own unique home," Bianchini said.

Highlights of the Essex include a great room and dining room with a fireplace and tray ceiling, island kitchen with an eat-in breakfast area, study and full English basement or walk-out option.

Two other floor plans are offered at **TerraVilla**. The Lancaster features 2,348 square feet of living space with two bedrooms and 2 ½ baths, base priced from \$354,900. The Monticello is a two-bath, two-bedroom home with 1,832 square feet. It is base-priced from \$334,900.

Each **TerraVilla** home includes an extensive list of custom features such as two-piece crown molding in the foyer, study, hallways and master baths; volume or tray ceilings per plan; fireplaces with floor-to-ceiling brick face and stained or painted wood mantel; hardwood flooring in the foyer, hallways, kitchen and breakfast nook; 8' tall garage door with windows in upper panels; central air conditioning; full lookout basements with 9' ceilings; and brick and cedar exteriors.

Kitchens include furniture-quality 36" upper cabinets with crown molding, granite

countertops and stainless-steel KitchenAid appliances. Baths feature granite vanity tops, ceramic tile flooring, built-in seats in master bath showers, Moen decorator faucets and whirlpool tubs.

"Maintenance-free living is a big draw to the community, allowing buyers to enjoy their leisure time without worrying about mowing the lawn or shoveling snow", Bianchini said.

The **TerraVilla** community includes 27 acres of common area with woods, open space, a walking path with benches, landscaping and a winding streetscape.

Not far from I-90 and Metra train service in Crystal Lake, **TerraVilla** enjoys a convenient location within minutes of every possible restaurant, store and service. An excellent park district, top-ranked schools and proximity to Crystal Lake itself make a home at **TerraVilla** a smart investment.

To visit **TerraVilla**, take I-90 to Route 31 north to Crystal Lake Avenue east to Smith Road north to Terra Cotta Avenue and west to the community entrance. The sales center is open daily 9 a.m. to 5 p.m. except on Sundays when the sales center is closed. ## Book Signing for *The Far Fields*

Author Margot Stimely will read from and sign copies of her newly published novel, *The Far Fields*, on Saturday, Sept. 18, from 2:00 to 4:30 p.m. at the Barrington Area Library. She will also speak briefly about her research and answer questions. Light refreshments will be served.

Margot Stimely is a resident of Arlington Heights and longtime member of the Barrington Writers Workshop. *The Far Fields* is the result of Margot's research into the lives of her pioneering French Canadian ancestors and focuses on the experiences of Marie Noelle Landeau, her great grandmother. The story combines known facts about the Tetreau family, pioneers on the Saint Lawrence River, fur traders, and actual historical figures and events between 1636 and 1707.

In 1663, King Louis XIII declared French Canada a royal colony and began sending shiploads of young women from France to become wives for the men already there. These were the "Daughters of the King."

Marie Noelle Landeau, a tall, restless misfit in her own country, takes the advice of the village priest and sails to the new colony to take her chances at finding a husband. Failing to make a match in Que-

## From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford Lincoln Mercury

At this time of year, it seems as if most families are pressed for time. The college crowd is safely ensconced in their dorms, and the children at home are starting to complain about homework. I know that Richard's wife, Amy, is just beginning to feel the rush of scheduling dance class, preschool and diaper changes! The pressure of scheduling is the reason that we now call our oil-change service "Quick Lane."

An appointment is never needed at Quick Lane. We provide the oil change on a "come as you are" basis! Mom, no need to worry about unnecessarily long wait times; an oil change can be squeezed in between pickups and drop-offs for dance class and preschool. It's our goal to have your vehicle serviced in 25 minutes or less. And we do keep track!

Our Quick Lane technicians are trained to perform an oil change in the most efficient way possible. With every oil change, you'll also receive a "Report Card" status of your vehicle's visible engine components. We hope to provide you a higher level of safety checks than you'd expect, and we strive to give you a heads up on

any maintenance that might be in your future. Mom, make Quick Service part of your routine!

Quick Lane is located at our Ford location at 600 West Northwest Highway. Our convenient hours are from 7:30 a.m. to 7:00 p.m., Monday through Friday, and Saturdays from 7:30 a.m. to 3:30 p.m. Quick Lane is also a tire center for almost every brand of tire made—at competitive prices. Quick Lane can perform oil and tire changes on most every vehicle, including your GM, Chrysler, Honda or Toyota! Stop in when your schedule allows!
