Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

Clear Reflections has provided 21 years of service at the same location.

June, 1997

Dear Reader,

Get your pencil out because you'll want to mark your calendars for lots of wonderful happenings in the Barrington area in June.

On June 15, Father's Day, the Barrington Arts Council will be hosting their annual Summer Art Fair. The downtown streets of Cook and Station become an outdoor gallery with over 94 carefully chosen artists from throughout the United States displaying their talents. In addition to art work being available for every taste, there will also be special fun planned for the children and music to encompass jazz, classical guitar and more. So come and relax and enjoy this wonderful family outing.

On Sunday, June 22, BYDE saddles up for *The Nutcracker* at the Arlington International Racecourse. The day includes watching your favorite horse win, paddock tours, a grilled picnic buffet, pony rides, petting zoo and much, much more. This is great fun for the entire family and proceeds benefit the fourth annual *Nutcracker* performances in December, a beautiful event the community looks forward to.

Also on June 22, the Barrington Historical Society hosts the annual "Doorway through the Decades Home Tour." This event is not to be missed. Last year's tour was wonderful!

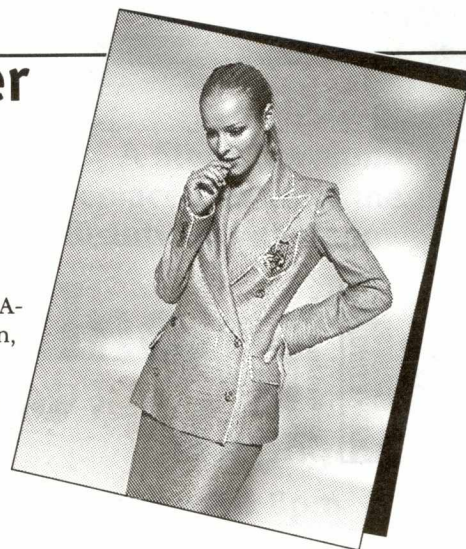

Until next time, may all your thoughts be sunny.

With warm regards,
Glenne McMonigal

"Run For The Arts"

Enjoy the Fourth of July this year in the small town charm of the village of Barrington by starting off the day participating in the second annual "Run For The Arts." The 5 and 10K run will step off at 8 a.m. from Dean Witter's office at 330 East Main Street in the village, and will conclude just prior to Barrington's popular July 4th parade down Main Street. The 2K walk, designed for families and others who enjoy a more leisurely pace, begins at 8:15 a.m.

"Run For The Arts" is sponsored by Dean Witter, Columbia Hoffman Estates Medical Center, Motor Werks of Barrington, Northwest Suburban Family Health Center, P.C.; The Prudential Pre-

ferred Properties, Pepper Construction Company, Psych One, Travel House, The Daily Herald, Carlith Printing and Gatorade. A portion of the proceeds benefits Barrington Area Arts Council, a not-for-profit arts organization supporting the visual, performing and literary arts in the greater Barrington area. It is also the race committee's desire to establish seed money toward development of a community cultural center in Barrington.

Committee members include Chairman David Nelson, Cyndi Alexander, Sarah Bowers, Noreen Burgeson, Dan DeWitt, Sandy Kraus, Carol McGregor, and Margaret Semrad.

Help! I Have Nothing to Wear!

Is that something you find yourself frequently saying as you're looking in your closet for something to wear? If so, **Professional Wardrobe Design** can help. Before the shopping begins you and I can meet to discuss your current wardrobe, your likes and dislikes, the needs you have, and even get a peek at your closet. This allows us both to put together a 'Wish List' of clothes, shoes and accessories that you'd like to add to your existing wardrobe. We can look at all aspects of your wardrobe be it work clothes, playwear, special occasion, or workout togs. Armed

with the Wish List our next meeting is the mall where I'll find the clothes and accessories you want while you simply try them on to see if they're right.

At **Professional Wardrobe Design** my goal is to help you look your best and have other people tell you just that! Whether you're thinking about a wardrobe change or just making some accessory additions, give me a call. I promise you'll look differently at your closet after a trip to the mall with me.

Barrington Strikes Gold with L'Auberge Salon

Saturday, April 26, was a Golden day in Barrington as friends, family, and current and soon-to-be clients joined owner Annie Golden in celebrating the grand opening of **L'Auberge**, her Day Spa and Salon. Located in The Foundry, **L'Auberge** has been designed by Annie's brother, architect Mark T. Golden, to provide private, restful welcoming, restorative spaces.

Champagne flowed and luscious bites catered by the Barrington Bistro were enjoyed by all who toured the new facility. "Each of our stylist stations is completely private," explained Annie. "We want our clients to be relaxed and undisturbed while they're here."

L'Auberge is French for "the inn," and such inns—often bed and breakfasts where owners invite guests to stay in their homes—dot the countryside of France. "I want people to feel as though they are guests in our home," said Annie, "and know that our goal is to provide exceptional service, make them look and feel better, and ensure their comfort."

Judging by the reaction of the opening day crowd, most anyone would feel comfortable at **L'Auberge**. In addition to Annie, the **L'Auberge** staff includes receptionist Rachael Conner, nail technician Ella Dobrovitsky, esthetician Maxine Fowler and masseuse Maura Sujdak, all ready to serve.

Soft, cappuccino-colored walls, wood floors, country French furnishings and rugs, and Rachael Conner's smile warm **L'Auberge**. From the reception desk, Rachael emanates enthusiasm for taking

care of you and getting to know you.

Beyond the private stylist stations is the juice bar—centrally located so that clients can enjoy a cool drink, coffee, fruit, or, if part of a full-day package, a catered lunch. Shampoo sinks are behind the juice bar wall. Ella's private, quiet nail room along the back of the salon is embellished by her infectious laugh and friendliness. Ella talked about her manicure and pedicure techniques and the benefits of sea salt treatments.

The facial room and the massage area promise instant indulgence. When Maxine explained a Repechage 4-layer facial and its advantages to all skin types, she had a rapt audience. And Maura's talk of a deep muscle drew enthusiastic comments and questions.

The **L'Auberge** team is small at the moment, but extremely focused. "We're growing slowly and thoughtfully," said Annie. "It takes a special dedication to customer service to work here. We won't ever compromise on that."

L'Auberge—A. Golden Day Spa and Salon—764 West Northwest Highway, Barrington, Illinois, in The Foundry, is open Tuesdays and Thursdays 9:00 am to 8:00 pm; Wednesday 8:30 am to 5:00 pm; and Fridays and Saturdays 8:30 am to 5:00 pm. Call **(847) 277-7000** for appointments and additional information. Or, as Annie says, "Just drop in, we'd love to show you our home. Once you meet us, you won't be able to resist making an appointment to experience our friendliness, service, comfort, and talent."

village. Amateur and professional runners are encouraged to compete in either the 5 or 10K events, while families and others of all ages enjoy the 2K walk through village streets. The 10K will follow a course that includes the countryside of Barrington Hills. Prizes and awards will be given at 9:45 a.m., prior to the village's parade and opening of various food booths under the tent adjacent to Main Street.

Early Signup Pays

Registration prior to June 20 is \$20 per runner for the 5 and 10K, increasing to \$25 thereafter. A \$40 per family walk rate is available for the 2K. Registration forms are available at Dean Witter, Barrington Area Arts Council, 207 Park Ave.; and in various retail stores throughout Barrington. Call (847) 842-1500 for additional information.

Race day parking is available across the

street from the Dean Witter office in the train station parking lot. Dogs, bicycles and inline skates are not permitted in "Run For The Arts" events.

Running Workshop

All registered runners are invited to participate in a free sports psychology workshop, sponsored by Dr. Dan DeWitt of Psych One in Barrington. It will be held from 7:15 to 8:30 p.m. Monday, June 23, and is designed for beginning and intermediate runners, those who want to increase their running distances or runners who want to advance their skills.

The workshop will be led by DeWitt, a psychologist and avid runner who has worked with college and professional athletes to improve their sports performance. He has published in the Journal of Sports Psychology and is a frequent speaker on

LINDA Z's Aids Children: Join Free Class & Help Out, Too!

Have fun and help a child! This is the motto for the wonderful people who have come to **LINDA Z's** in Arlington Heights to help out the ChildServ organization. Come join these generous people who are making T-shirts on sergers provided by **LINDA Z's Sewing Center**. The machines, instructors, and fabric are all provided for the students at no charge. This is a great way to try out a serger, have your own personal instructor, and help someone else. The T-shirts are all completed in class and then given to the agency to distribute to children in the homes who appreciate their own "new" shirt.

Linda Zachman, owner of **LINDA Z's**, wanted to do more than tell her friends and customers about ChildServ, an agency she knew through her friendship with its president Jim Jones, from their years at Northwestern's Kellogg School of Business. Talking about ChildServ was just not enough, so she thought of a project that would make a substantial contribution to

A More Beautiful Face and Body for Summer

We hope summer is here, it has been a long cold winter. Now is the time to adjust our skin care program and make-up.

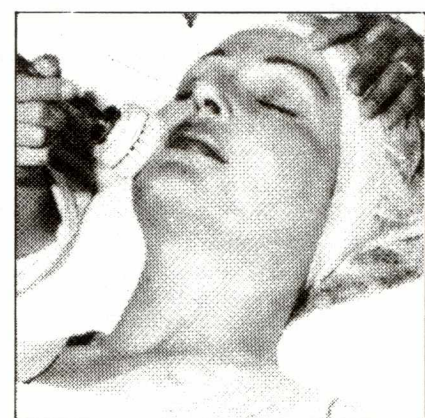

The first thing to start with is always skin care. All the make-up in the world will not cover bad skin. Let us start with cleansing. Our first step would be to see your Esthetician at **Syd Simons**. Spend an hour and a half having your skin thoroughly cleansed and exfoliated. I could write 10 pages on the damage of dead cells to the epidermis layer of the skin, and because of this, it is very important to exfoliate your skin.

All of our Estheticians with **Syd Simons** are licensed skin care specialists. They have years of knowledge to recognize skin textures and their problems. We are having great results with Cellex-C and, of course, Dr. Murad's AHA'S. With the use of these two products we never have to age or have problem skin.

Next, body massages remove toxins from the body, they help break up fatty tissue, and they have a wonderful relaxing effect on the muscles and the mind.

Now on to the nail room for a wonderful pedicure to remove dead skin and calluses, and to have pretty polish put on the nails for your new sandals.

Let me touch briefly on summer make-up. Make-up for summer is much lighter than the old winter look. It is important to always wear sunblock before applying foundation to protect your skin. The eyes

and cheeks are different and very pretty this year. Ask your make-up artist at **Syd Simons** to teach you how to be a master of your own face, with our private make-up lessons. We also do make-up for all occasions. Wedding parties are very popular in our studio.

I will be leaving the 8th of June for the international skin care convention in Las Vegas. I will be learning about the latest products and techniques available. We will be sharing that knowledge with our clients.

Now we have the face, body, and feet in excellent shape. So go out and have a happy, healthy summer. Don't forget about Dad. He would love a facial, manicure, and body massage for Father's Day.

Sincerely,
Cathy Ramstadt, Owner
Syd Simons Cosmetics

hair. Electrolysis will lift your spirits and your self confidence as the look you desire is achieved and the troublesome hair is gone forever!

Electrolysis in this office provided by a Registered Nurse, assures the client of a safe and effective treatment. Strict sterilization standards are adhered to as the requirements for sanitation and aseptic technique are strictly followed. **Absolutely! Electrolysis Salon** is located at 1241 S. Rand Rd. (N.W. corner of Rts. 12 & Cuba) in Lake Zurich (in the Day Spa of Hair Biz Salon). Traveling... with Carlson Wagonlit Travel

European Air Travel May Cost Less

Europe's airlines were recently "deregulated" and you'll be seeing new low fares not just from start-up-no-frills airlines but also from the major carriers, which can now fly virtually anywhere they want (for example, theoretically Lufthansa can now take passengers from Rome to London if it wishes, without going through Frankfurt or Munich). So if in the past you avoided air travel within Europe and took the train instead, think again. **Carlson Wagonlit** can help find you the best deals.

Travel Agents 3, Web Sites 0

Are on-line booking services and so called "cyberfares" booked on airline Web sites a good deal? According to Minneapolis-based airfare guru Terry Trippler, publisher of the Airlines Rules Guide, NO. Trippler tested airline Web pages vs. pricing the same itinerary with travel agents and found that the travel agents beat what consumers could find on the Internet every time for identical itineraries. "On average, the travel agents found fares 74% less than what was offered on the Web sites," Trippler says. This is the third consecutive month that Trippler has conducted his test, and each time travel agents won, he notes.

More Food, Please

United Airlines, bucking an industry trend, is increasing the amount of food it's serving economy class passengers on coast to coast flights. The size of items like bagels and salads will increase, and they'll serve snacks like carrot sticks, finger sandwiches, with dip and frozen Italian ices. First class passengers will also note some improvements during this trial program.

Scammed? Call This Number

What should you do if you're the victim

of a travel scam? A good first step is to call the National Fraud Information Center (800-876-7060), which will help you file a complaint with the appropriate government agency. Travel scams are on the rise, and the best way to escape being had is to deal with someone you know and trust when buying travel services and products.

Kids Stay Free at Club Meds

Club Meds know how to cater to children, with several kids' programs at many locations geared to specific age ranges. In fact, they allow kids to stay free, for a savings up to \$700 per child during select months. At the Sandpiper Village in Florida, kids stay free from May 3 to December 19; at the Punta Cana Village in the Dominican Republic they're free from June 13-27, and August 30-December 19. These discounts can be combined with Family Reunion and Forever Young discounts as well.

Faster European Trains

If you're planning a visit to Switzerland and Italy this summer, RailEurope has good news for you: the Swiss rail system has expanded the use of superfast "Pendolino" trains between Milan and Geneva, Basel, Bern and Zurich. These ultramodern trains tilt slightly when going around curves, which means that the train need not slow down (it also means that your coffee won't spill). With speeds up to 150 miles per hour the new trains shave up to an hour off previous schedules, making the train an even better way to view spectacular Alpine scenery. Your Eurailpass is good on these special trains, although you may have to pay a small supplement to reserve a seat. To buy a Eurailpass call **381-6400** or stop by **Carlson Wagonlit Travel** in Barrington.

Brunch Hosted for Government Officials

On April 26 the League of Women Voters, The Barrington Area Historical Society and the Barrington Area Development Council jointly hosted a brunch for elected and appointed officials of the seven village Barrington Area Council of Governments. Invited to the meeting were all the local elected and appointed village officials: village presidents and their boards, plan commission members, zoning board members, village managers and clerks. The program for the event was titled, "Viewing Our Community: Past, Present and Future." Michael Harkins, Executive Director of the BAHS

and Robert Woodsome, co-president of the BAHS presented a history of BACOG and the role BACOG has played in shaping our seven village community through its planning strategies and decisions. The second part of the program was presented by James Peterson, the outgoing President of the Village of Deer Park and BACOG member. Mr. Peterson asked some challenging questions about BACOG's role in the future and identified some issues that not only BACOG but each of the villages will need to face in the future. There were 56 attendees to the Saturday morning breakfast which

Post-Employment Health Coverage

by Sharon L. Keller, J.D., LLM

June is finally here, but will spring ever arrive. This month takes my family to California to attend our son's graduation from Stanford. It seems like he was just graduating from kindergarten at Grove School. I am looking forward to hearing Supreme Court Justice Breyer speak at his commencement. I also will be obtaining another degree in June—a Masters of Law in Taxation. Next year should be a great relief from tuitions.

I have received a number of calls recently from individuals leaving their employment with questions concerning post-employment health coverage. I will briefly review some of the key issues that affect whether, and under what conditions an executive may be able to obtain health insurance coverage upon ceasing employment.

For an executive who is voluntarily or involuntarily leaving employment, few issues raise as much anxiety as how he will obtain health coverage. Until he becomes eligible for Medicare at age 65, he faces concerns affecting his ability to obtain health coverage. Executives should seek protection in termination agreements that extend post-employment health coverage through the executive's former plan.

COBRA, the Federal mandate initially contained in the Consolidated Omnibus Budget Reconciliation Act of 1985 amended ERISA, the Internal Revenue Code, and the Public Health Service Act. COBRA requires group health plans maintained by certain employers to offer continued coverage under the plan upon the occurrence of certain enumerated "qualifying events"—including termination of employment or reduction of hours. For

an executive who would otherwise lose health coverage as a result of termination or employment or reduction of hours, the maximum COBRA period is 18 months from the date of the qualifying event. The 18-month period can be extended to 29 months if the executive is determined to be disabled for Social Security disability purposes during the first 60 days of the initial 18 month period.

COBRA applies only to employers who employed 20 employees or more on 50% of the working days of the calendar year preceding the date of the qualifying event. An employer's obligation to offer COBRA coverage ends as of the first of the following to occur:

The date the required premium payment is not timely paid by the COBRA continuee.

The Magnetism of London

by Eleanor Nelson & Sally Hayward, Travel House

The sun is shining brighter in London these days. It had been quite a few years since I had visited the city of London and I was more than pleasantly surprised by the changes I encountered.

Today's London is much more open and dynamic than in the past. For one, they have done a remarkable job with cleaning up this wonderful city. The underground "tube" stations have all undergone a facelift, the streets are clean and flowers abound everywhere. Once staid, stuffy Victorian edifices now boast flower boxes overflowing with bright colors, hanging baskets adorn the corners.

This is now a vibrant city which, while guarding its dusty traditions, is also setting the trends for the 1990s.

What makes London so strong is its diversity of tastes and cultures. The shopping is excellent—walk down old and new Bond Streets—you'll still find the old fashioned antique jewelry boutiques, but now they have been joined by the likes of Tiffany, Cartier and Giorgio Armani.

The old saying that the English do not know food is now passe. So many wonderful restaurants have opened, challenging France and Italy for innovative food. Try The Restaurant, owned and run by Marco Pierre White—the hottest

new chef in town, La Tante Claire, voted recently, the best restaurant in the city, the River Cafe, still constantly winning accolades since its opening in 1989.

Accommodations are also getting a boost—there are still the old favorites, Claridges, the Dorchester, the Ritz; each epitomizing the pomp and tradition of fine English establishments. These are now joined by the Four Seasons, the Lanesborough, the smaller Halcyon in Holland Park. Each in its own distinctive

Historical Society Plans Annual Home Tour

L to R: Eileen Wilbert, Sandy Deniston, Connie Blomquist and Cheri Pagonis, all committee members for BAHS's "Doorway through the Decades Home Tour," look over possible menu selections with the owner of The Greenery Restaurant, Andrew Coates.

The Barrington Area Historical Society will host its annual "Doorway through the Decades Home Tour" on Sunday, June 22, 1997 from 10:30 am until 5:00 pm. This year the Society is featuring four private homes on the tour from the Barrington countryside. Each of the lovely homes is representative of a building style prevalent in the development of the Barrington Area.

To add to the day's fun, the Society will also offer a Sunday brunch at The Greenery Restaurant. Located at 117 North Avenue in Barrington, the restaurant is also housed in an historic building which was originally a wing of the old high school before it was dismantled. There are two seatings for brunch: 11:00 and 2:00. Seating is, however, limited and brunch reservations should be made as soon as possible.

The oldest home on the tour was built in 1877 in the Greek Revival Style. Originally it was the farmhouse for the famous Waterman Diary on land that is now a part of South Barrington. This charming house still has the rippled glass windows and hardwood floors that were installed in the late 1800's. Only one of the out buildings still exists, the smokehouse where meat was preserved before refrigeration.

Built during the period of the "great families" the second oldest home on the tour is a gorgeous Victorian home in Barrington Hills. Although it has been

remodeled under succeeding owners, the home still maintains its early Victorian character. The large spacious porch looks out over a rolling lawn and rock walls onto a spectacular vista of the surrounding creek valley.

The third, a single story home built in the 1920's, has been remodeled into a gracious, light and airy country home in the middle of Barrington Hills. The expansive entrance hallway paved in blue stone opens onto the spacious living areas which in turn open onto a variety of lovely gardens at the back of the house.

The last and newest home on the tour was built only four years ago by a family from the east. This three story Georgian brick home is reminiscent of the many gracious homes that dot the eastern seaboard. To capture the pastoral views of the rural Midwest setting the house was aligned on the property to give every room of the house a unique vista.

The tickets for the Home Tour and the brunch may be purchased at the Barrington Area Historical Society's office which is located on the second floor of the Applebee House at 212 West Main Street in Barrington or Ambrosia Patisserie at 710 West Northwest Highway. Ticket costs are \$20 to view the four homes and \$20 to attend the brunch. To receive a brochure or for more information about the Home Tour contact the Barrington Area Historical Society at (847) 381-1730.

Welcome Wagon Coffee

The program for the final coffee of the Barrington Welcome Wagon Club year will be The Wonderful World of Books, presented by Kathy Ahern and Stacey Cisneros, of the Barrington Area Library. Stacey plans to discuss books for children and young adults that adults would also enjoy. Kathy will briefly review several recently published books popular with adults. Along with the usual good-

ies, this promises to be a very interesting morning. Coffee will be served at 9:30 a.m. on Tuesday, June 10, at the home of a Welcome Wagon member. All residents of the Barrington area are welcome to join in the camaraderie. You do not need to be a new resident. Please call Carolyn at 381-5447 or Joy at 438-8928 for further information and directions.

BAAC's Summer Art Fair Slated for June 15

L to R: Art Fair Co-chair Barbara Hafner, logo designer Jody de la Chapella and Art Fair Co-chair Robin Costa Booth.

What can you say about the Barrington Area Arts Council's Summer Art Fair? It's become a tradition in the community. Artists and fairgoers alike look forward to its arrival. The quality and variety of artistic style appeal to a wide audience. All this and much more.

Now in its 11th year the Art Fair will once again be held on Father's Day, June 15. The downtown streets of Cook and Station will be transformed into an outdoor gallery with 94 handpicked artists from across the country, each with their own individual style.

From 10 a.m. until 5 p.m. every type of visual art will be prominently displayed by each artist. Those whose work was selected were juried by staff members at Northern Illinois University: Charlotte Rollman, professor of painting and Debra Grall, associate professor of drawing. With 148 applicants the jurors were pleased with the quality and variety of the submissions.

Co-chairmen this year are Robin Booth and Barbara Hafner. Both women are artists who bring a lot of enthusiasm to this task. Working with them are committee members Shelly Arvai, Holly Collins, Jody de la Chapelle, Debra Delaney, Barbette

duPree, Beth Galfer, Sherry Hunter Lee, Anna Keld, Sue Mason, Carol McGregor, Joan Quinn, Diane Rotter, Annette Stormont, Sarah Bowers, Betsy Smentek and Jayne Koril.

In addition to the artwork there will be children's activities coordinated by Kaleidoscope Gallery and School of Art. Included will be tie painting and photo opportunities. Don't miss the ever-popular organ grinder with his monkey and a special appearance by Benny the Bull.

Throughout the day there will be entertainment and a food court set up in the Lipofsky lot. You can take a break and sit on the benches under the shade trees listening to jazz, blues, classical guitar or mellow saxophones. What better way to spend a Sunday afternoon.

There is no charge to attend this family affair, but without the support of our sponsoring organizations this would not be possible. BAAC wishes to thank Northern Trust Bank, the Barrington Courier-Review and the Illinois Arts Council, a state agency. In addition, the underwriting of the program booklet was done by Kemper Insurance.

Won't you join us on Sunday, June 15 and experience a part of the arts.

Children's Dental Emergencies

by Drs. Raymond Kotz & Stephanie Skopek

For most children, spring and summer means playing outdoors after a long indoor school year. Unfortunately, their pent up energy occasionally results in accidents involving their mouth and teeth.

There are a few simple procedures parents should follow to avert more serious complications or even tooth loss.

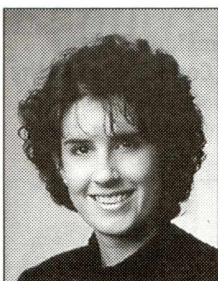

If an orthodontic appliance breaks or becomes loose, do not ignore it. Please wax or even moistened cotton over the irritated area and see your orthodontist as soon as is convenient.

Should a piece of orthodontic wire, a stick or any other foreign body become stuck in your child's cheek or gum, take them to your dentist or a hospital emergency room. Do not try to dislodge it yourself.

Bleeding from a cut in the cheek, lip or tongue, caused by the teeth is usually stopped by pressure with a moist, clean cloth. If bleeding persists or if the injury seems large enough to warrant stitches, see your oral surgeon or hospital emer-

gency room immediately.

Knocked out teeth need to be seen by a dentist within thirty minutes. For first aid, gently rinse under running water and replace the tooth in the socket. A cup of milk or a cup of cool water is a second choice to carry the tooth to your dentist. Broken or displaced teeth should be evaluated by your dentist. Hospitals rarely have the equipment or a dentist available for such emergencies.

Dr. Raymond P. Kotz and **Dr. Stephanie Skopek** can be reached by calling (847) 381-4040 in Barrington.

Physical Design Critical to Alzheimer's Care

The early stages of Alzheimer's disease can be characterized by memory loss, nervousness, and depression, but the impact of the disease is truly felt when a loved one fails to recognize friends and relatives or cannot perform ordinary tasks.

Many individuals and families turn to long-term institutional care at this stage. However, experts have questioned the suitability of a nursing home's design for those persons with dementia. With nursing homes, several factors are known to aggravate the disease and induce disorientation, including noise levels and the lack of visual cues among others. A building layout can increase the confusion people with Alzheimer's disease already experience.

A new trend in dementia care focuses on residential living, thus shifting the care away from the nursing home model. Lo-

cated in Wheeling, **New Perspective, Inc.**, is one such innovator. Established in 1994, **New Perspective** is the first dementia-specific sheltered care facility in Illinois. Their mission is to offer persons with Alzheimer's and their families a homelike setting and an alternative to traditional long-term care. **New Perspective's** uniqueness is in its physical design—three small, freestanding cottages.

Each cottage has only 16 residents, which encourages social interaction and makes it easier for residents to orient themselves. The short hallways have no dead ends, accommodate just 12 rooms, and are filled with pictures, quilts, and artwork done by the residents.

New Perspective designed the yard to encourage residents to safely enjoy the outdoors. A secured walking path joins the

BAAC's Wearable Art Fashion Show a Sellout

Gretchen Grant models Kathleen Richert's creation which consisted of a "coffee bag bustier" and red tulle skirt.

Carol McGregor, President of the Barrington Area Arts Council and Kathy Tipple, chairwoman of the wearable art fashion show and luncheon greet the sellout audience.

President-elect of BAAC Francine Fossler chose the design of Debra Stromsdorfer of Rockford, whose trademark is a large and beautiful Calla Lily and the back of the garment.

"A Touch of the Arts" wearable art fashion show sponsored by the Barrington Area Arts Council was a huge success. Held at the beautiful Barrington Hills Country Club this past April, the event was chaired by Kathy Tipper.

Fashions focused on were original one-of-a-kind works of wearable art, including jewelry, purses, belts, hats, coats, vests and two-piece ensembles of woven or hand-painted fabric. Clothes shown came from the wearable art exhibit in the BAAC Gallery for the month of April, featuring the work of artists from Illinois and surrounding states. Also shown were one-of-a-kind ensembles from Sundance Apparel, Ltd., and Trinkets. Dyllis Braithwaite of Finn's Fabrics by Dyllis also entered several of her works of art.

The day was a sellout with over 260 attendees enjoying the ambience of the club, the silent auction tables so creatively put together by Libby Johnson, Claire Williams and Connie Payton, and the colorful, exquisitely made fashions presented during and after lunch. Ivy topiary centerpieces created by Dede Wamberg and Sara Burgett were highly sought-after items at the conclusion of the event. Special guests included Flo Bash, BAAC's President Emeritus, who served as honorary chairman of "A Touch of the Arts."

Dede Wamberg, in charge of decorations and favors for this stylish event, shows off a stunning creation by Cindy Carrol of Park Ridge entitled "Sedona Sunset."

Board member Teddi Martin models a beautiful jacket designed by Anna Carlson of Minneapolis. Teddi's chapeau was the creation of Veronica Chin of Lake Bluff.

The day was a wonderful success for BAAC, netting the Arts Council a profit of something over \$18,000 and a determination to go for a third annual wearable arts fashion show next Spring!

Those who served on the committee included: Dena Bellows, Sarah Bowers, Sara Burgett, Nancy Creswell, Meg Crowther, Debbie Fehsenfeld, Francine Fossler, Gretchen Grant, Donna Hannay, Laura Kunsy, Cathy LeCompte, Libby Johnson, Karen O'Malley, Becky Malone, Teddi Martin, Karen Mazulla, Carol McGregor, Babs Paulson, Connie Payton, Mary Beth Reich, Elizabeth Root, Linda Salcedo, Kathy Savvides, Mary Schmechtig, Debra Seifert, Carol Sesso, Betsy Smentek, Karen Walsh, Dede Wamberg, Kathy Weston and Claire Williams.

at The Studio of Long Grove GALLERIES OF FINE ART

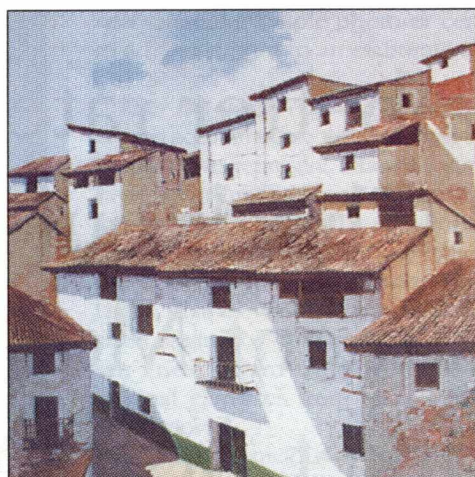

The Studio will begin a trunk show of western European fine art. Meet Robert Harris, former top executive for a major international company, now an art collector/dealer representing some of the finest artists in Western Europe. You will be impressed as we are by the quality of the artists' works—artists from Spain, France and the Netherlands, will present styles influenced by such masters as Rembrandt and Monet, as well as their own contemporary styles.

Cornelis LeMair

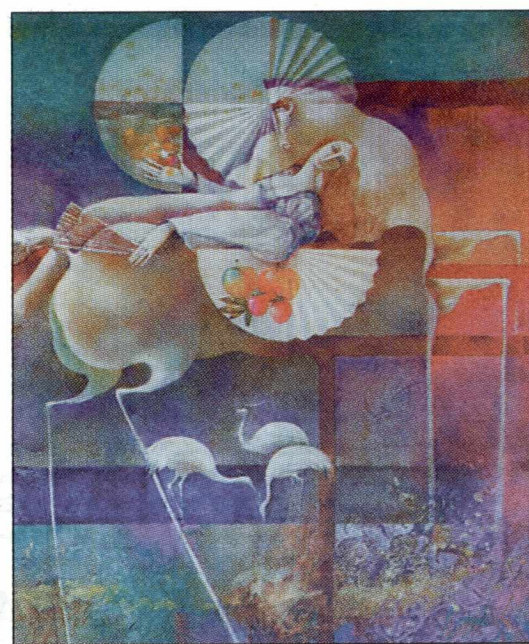

A classically trained artist in the tradition of Rembrandt and Hals, LeMair has developed a unique contemporary style resulting in a romantic realism in his landscapes, still lifes and portraits. Also a passionate musician and poet, LeMair has been described as "A natural talent delighting in the adventure of being an artist."

Though his most acclaimed painting, the "Vanity Triptych," will not be in this show, it is valued at \$2.5 million.

Jose Barbera

A representational painter of landscapes, florals and houses, Barbera is another Spanish artist with fine credentials and a major following around the world.

Josep Baques

A metaphysical painter whose work cannot go unnoticed is a more modern stylist with a beautiful skill of presenting his challenging subject matter.

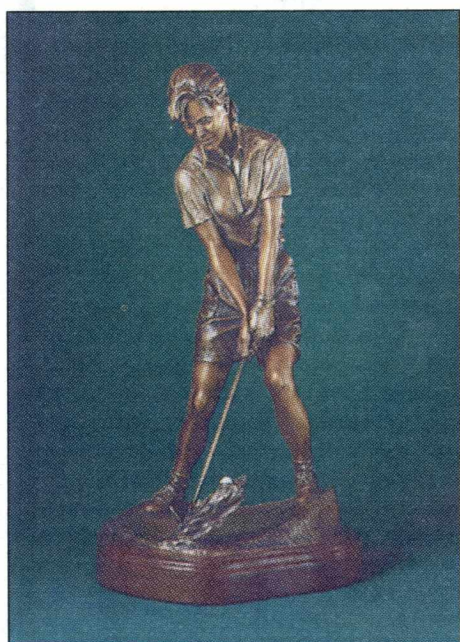

Salvados Caballero

The noted Spanish art critic, Jesus Mira, says of Caballero, "His paintings breathe with the breath that only nature can bring to the eye; seeing him bring nature and atmosphere to life on his canvas qualifies him for comparison with Spanish master landscape painters from days long gone by."

A Special Western European Fine Art Trunk Show

Beginning June 14th and continuing into early July, The Studio of Long Grove will present the works of these master artists from Spain, France and the Netherlands to collectors who enjoy quality works from quality artists. As a trunk show, these paintings will only be available for a limited time. The Studio will continue to represent a few of these fine artists.

Ramon Pujol, Spain

The meticulous style of his paintings renders a level of distinction that has set his work apart from other painters. As such he received gold medals at the Autumn Salon in Marseille, France, and the International Salon in Evian, France, plus countless awards and medals in his native Spain.

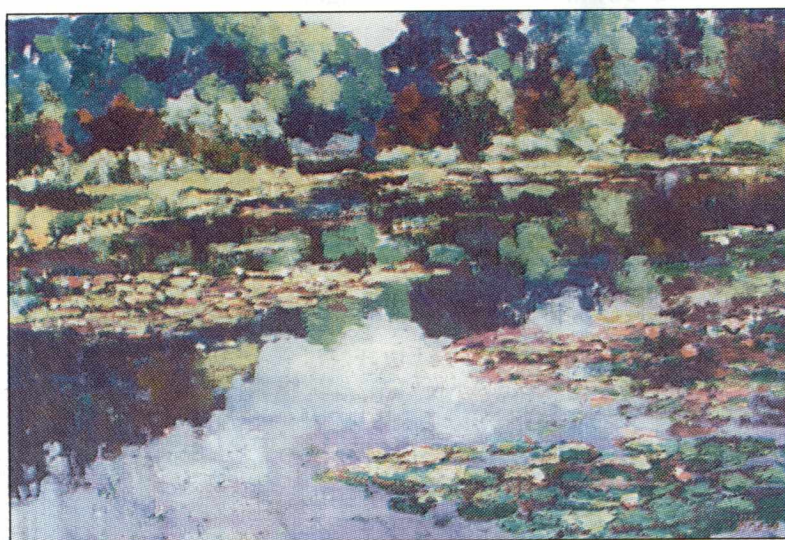

Pineda Bueno, Spain

Regarded as one of Spain's leading impressionist artists, Bueno's uncomplicated style brings joy and movement to his subjects. Using a vibrant palette, he applies color freely to his landscapes and seascapes. His work is exhibited in leading galleries in France and Spain and has been shown in a number of prestigious Paris auctions.

Peter van Berkel, Netherlands

Influenced by both the Dutch Masters and the French Impressionists, van Berkel's works are often lighter in color and feeling than the traditional Dutch landscape. Painting outdoors in the Netherlands in winter and Portugal in the summer, his works capture the atmosphere and light of their settings, and are very often sold before they are dry.

Henri Hess, France

Although representational, the works of Hess show an unmistakable leaning toward abstraction. A profusion of bright, cheerful colors and an emphasis on capturing light is reminiscent of the French Impressionists, while his simple, uncomplicated forms evoke a feeling of solidity and power. His work has been exhibited throughout Europe and in New York.

The Brian Piccolo Cancer Research Fund was established 27 years ago to remember the Chicago Bears running back and to raise money to help find a cure for the cancer that took his life. Brian, an All-American halfback from Wake Forest, died on June 16, 1970, from testicular cancer, which at the time had only a 5% cure rate. Today, due to a large extent to research at Memorial Sloan-Kettering Cancer Center in New York, supported by the Brian Piccolo Postdoctoral Fellowship, tes-

ticular cancer has a cure rate of over 90%.

In 1992, the Piccolo Committee decided to focus on breast cancer research. Rush-Presbyterian-St. Luke's Medical Center in Chicago was chosen as the recipient of the Fund's annual proceeds. In 1994, the Brian Piccolo Endowed Chair for Cancer Research was established as a permanent endowment, and the Committee plans to increase it well into the future. Income from the endowment is directed to the Rush Cancer Institute's breast cancer research program.

In 1995, in order to emphasize the Fund's commitment, the Committee requested that Sloan-Kettering redirect the income from the permanently endowed fellowship to breast cancer research. Dedication to breast cancer research is now Piccolo's primary focus at both institutions. The fund also supports another local facility: Clearbrook Center for the developmentally disabled in Rolling Meadows.

Please join with Brian's daughters and friends for Brian's Run IX on Sunday, June 15, 1997 at The Chancellory (Wyndham Hotel), Itasca, IL.

Cartilage Implantation— for Damaged Knees

Dr. Martin L. Saltzman Announces a New Innovative Technique for People with Knee Cartilage Damage

Three Step Process:

Arthroscopic surgery to obtain sample of healthy cartilage.

Healthy cartilage cells multiplied approximately 15 times.

Implant new cartilage in to injured area to produce a durable joint surface.

More than 500,000 people in the United States suffer injuries to the cartilage in their knees every year, resulting in disability and pain. Since cartilage does not heal by itself, the debilitating effects can last a lifetime. Cartilage is a tissue in the joints that cushions the bones. When cartilage is damaged, the bones begin to grate against each other. Previously, patients suffering from knee cartilage injuries would be candidate's for a total knee replacement procedure.

"Being able to 'grow' a patient's own cartilage cells and then successfully implant them into an injured knee is a real medical breakthrough," states Dr. Saltzman. "Many of the patients who have shown long-term benefits because of this procedure were injured while participating in sports or at work. Pain and loss of mobility is difficult for anyone, but especially for those who are accustomed to a very active lifestyle. My goal is to help patients with specific knee injuries regain mobility and return to optimal function."

In a three step process, Dr. Saltzman performs Arthroscopic surgery to obtain a tiny sample of healthy cartilage from a patient's injured knee. This sample is then

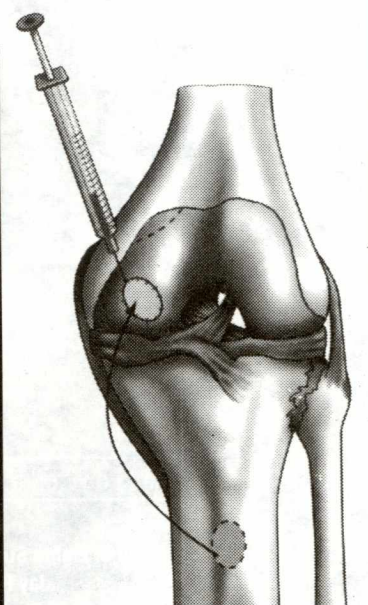

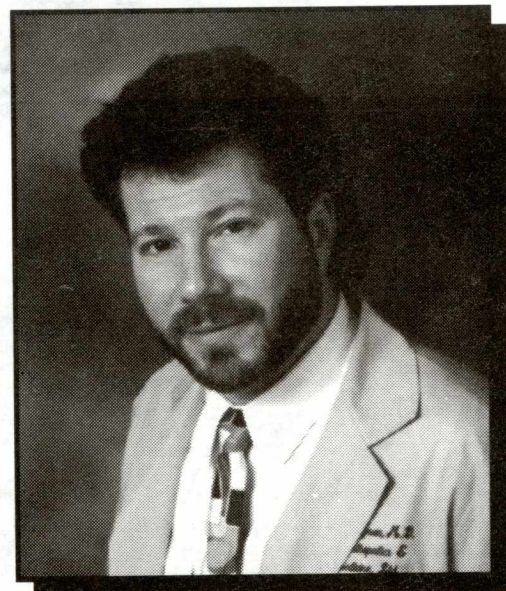

sent to the laboratory where the cartilage is grown, increasing the number of cells approximately 15 times. The patient then undergoes a second surgical procedure several weeks later that involves implantation of the cultured cells into the injured area, where they multiply and produce a durable joint surface.

Developed and tested at the university of Gotenborg in Sweden, the new technique and its promising outcomes were first described in the New England Journal of Medicine (10-6-94). The procedure was first performed in the United States in 1995 and Genzyme Corporation began providing the cartilage cell laboratory service to orthopedic surgeons here. Orthopedic surgeons complete special training in order to perform the procedure.

The Medical breakthrough has been performed by Dr. Saltzman more than any of the handful of surgeons in the Chicago-land area that are trained in this procedure.

Dr. Saltzman completed his residency in orthopedic surgery at Loyola University Medical Center and is board certified by the American Board of Orthopedic Surgeons and the Arthroscopy Board of North America. He has been in practice since 1984. He currently is at the Woodfield Orthopedic Center in Schaumburg, and is on the medical staffs of Columbia Hoffman Estates Medical Center and Alexian Brothers Medical Center.

For Improving or Enhancing Your Appearance

If you are one of the millions of consumers evaluating your options for improving or enhancing your appearance, the **Valley Plastic Surgery Center** should be at the top of your list. Much more than a doctor's office, services are provided along with an experience that is unparalleled within the field of aesthetic plastic surgery. Truly a state of the art facility, the seven thousand square foot surgery center provides elegant and professional surroundings while meeting the highest standards of safety. It is one of the few free standing surgical centers approved by the joint Commission for the Accreditation of Hospital Organizations, the same safety organization responsible for overseeing hospitals.

Discreetly located in West Dundee just twenty minutes from O'Hare Airport, the center caters to out-of-state as well as local patrons with equal convenience. Many of those considered as Chicago's north shore elite find the short commute from the city well worth the trip, and are welcomed by the Fox Valley's scenic ambiance. The center offers the full range of plastic surgery procedures; from facelift, eyelid, nose, and lip surgery to breast enhancement or refinement, liposuction, and tummy tuck procedures. Four separate lasers, fiberoptic cameras, and cutting edge techniques serve to minimize scars, discomfort, and time off of work, making aesthetic procedures an affordable reality that fits into the lifestyle of today's working women and men. Full esthetician services are also offered for image consultation, skin care treatments and peels, spa style facials, as well as make up application and assistance.

An entire satellite center, the **Valley Body Contouring Salon** is devoted entirely to the non-operative treatment of cellulite, and features the highly publicized "Endermologie" technique from Europe. Here, highly trained technicians provide private consultation, and demonstrations of the suction assisted deep massage procedure that appears to reshape the body

contours while minimizing the appearance of skin dimpling and waviness. Patients also receive complete body fat determinations along with dietary and nutritional counseling. The **Valley Body Contouring Salon** is located at 1425 North McLean Boulevard, Suite 400, Elgin, (847) 608-7506.

In addition to the separate amenities offered at **Valley Plastic Surgery Center**, surgical expertise is the center's most compelling attraction. Doctors Rosenberg, Lambruschi, and Manus are the three plastic surgeons that make up the team of prestigiously trained sub specialists. With more than sixty years of combined experience, they offer expertise in every area of cosmetic and aesthetic surgery. Collectively, they have been heard on numerous radio programs, and have been featured in scores of periodicals, including the popular *People Magazine*. They have been seen on CNN news, and are published in the United States and Europe on various topics in plastic surgery. They all continue to regularly lecture before audiences of lay persons, as well as health care professionals. Patients seeking consultation are sure to get knowledgeable and professional recommendations in a friendly, unimposing atmosphere that caters to each individual's special needs.

Of interest to most, since **Valley Plastic Surgery Center** is a true outpatient surgical facility, most aesthetic procedures can be performed on site, often saving patients thousands of dollars in hospital charges. Indeed, the final expense associated with major procedures is often less than half of that incurred through other local and downtown surgeons. This, combined with surgical expertise and a uniquely complete plastic surgery complex makes it Chicago's best choice to help you meet your personal goals. So if diet and exercise can't get you to where you'd like to be, **Valley Plastic Surgery Center** probably can! To arrange a convenient consultation, call (847) 836-3200 and consider yourself... for a change.

LET'S TALK ABOUT THERAPY

What is Therapy, Anyway? by Judy Kaplan, MS

Today, there is a great deal of "psychology talk" on television, in the book stands, on the news and in conversations with friends. The lingo about "his issues" and "her issues" and "boundary issues" is everywhere. Some people discuss therapy as casually as having their morning cup of coffee. Yet, there is a segment of the population that doesn't yet know what exactly therapy might be all about. Even worse is the archaic image some people may have of a stone faced "analyst" sitting opposite the "patient" on the couch listening intently and responding now and then by saying "Hmm, and what do you think about that?"

How troubling that must be for an individual who is considering seeking help. Part of encouraging people to seek help for problems in their lives, relationships and situations is to remove some of the fear and anxiety about taking that step.

In my practice, I try to emphasize the "collaborative" approach with my clients. It is my intention to help the client "clarify" the problem and work together to "strategize" ways to address the situation. My job as a therapist is to stimulate "conversations" in a way that helps shed light on the issue for the client. By providing feedback, brainstorming with the client

and establishing goals, I take an active role with the client to move them toward resolution and an end to the therapeutic process. In establishing a good "working relationship" with the client, the therapy provides support, encouragement and a sounding board for new options and different perspectives to be explored. Often times, I look at my job as that of a mental fitness trainer or coach. Developing new skills in communication, modifying behavioral patterns, improving problem solving techniques and developing more adaptive coping skills are some of the "training" tasks I provide for individuals, couples and families.

The field of therapy has grown and matured over the past 25 years to a very sophisticated level. As in other aspects of the health industry, tremendous resources have been devoted to research, literature, training, videos, programs, seminars and workshops to help mental health professionals serve the public in more effective and useful ways. With increasing numbers of mental health professionals entering the market place each year, the styles and types of therapy available are very diverse.

People seeking help need to take great care in selecting a mental health

professional. Important considerations should be based on your initial phone contact with the therapist, a "gut feeling" about your first face to face meeting with

the therapist and the therapist's personal style, communication skills, connection with you in your particular situation and if the fee structure will work for you.

Sculpture Show June 21 and 22

Karl Lansing, a superb wildlife sculptor, will be at **Dunton Gallery**, Saturday, June 21, 11 a.m. to 5 p.m. and Sunday, June 22, 12 noon to 4 p.m. All are welcome to meet Karl and observe him at work. A focused show of his work will then continue in the gallery until July 21.

Karl, his wife Louise, and their five children reside in the Elk Valley of the East Kootenays of British Columbia, Canada, where he continues to expand his reputation as a wildlife artist.

Even at 13 years of age, when Karl took up taxidermy as a hobby he began to win awards for his uncanny ability to recreate both the anatomy and the habitat of his subjects.

Prior to devoting himself fully to his sculpting, virtually all of Karl's career choices allowed him to further observe,

"Trail Boss" by Karl Lansing

know and understand the extensive range of wildlife he depicts so masterfully. Furthermore, as a member of several organizations dedicated to the betterment of his beloved animals and birds, Karl is involved, through his art, in fund-raising for education and conservation.

It is obvious to even the casual observer that Karl's sensitivity and passion for his work are masterfully translated to his bronzes; so, won't you join us in seeing this for yourself Saturday, June 21 and Sunday, June 22.

Portrait Artist Joins Gallery

Dunton Gallery is proud to announce **Connie Szerszen**, an accomplished portrait artist, is now represented by the gallery. Connie does pastel, watercolor and oil portraits which capture the "ethereal face" of her subjects with an uncanny appreciation of the dearest fleeting expression. Poor Report Cards: What to Do

This is the time of year when many children are concerned about finishing up the school year and are excited about the long awaited summer vacation. But before floating about the pool with ease, there is one last hurdle to jump. Shortly, schools will be distributing fourth marking period report cards. The skills developed during the year will be your child's foundation for the more difficult work ahead. What should you do if you are unhappy with your child's report card?

According to Dr. Raymond Huntington, founder and president of **Huntington Learning Center**, "Parents know their own children. If you believe your child could be doing better than his or her grades show, you owe it to yourself and your child to remedy the situation."

"More than current grades are at stake," Huntington continues, "If grades are mediocre or poor, it means your child is not gaining valuable skills. This can come back to haunt children later. The skills children learn in school are like building blocks. If a skill is not learned adequately, future skills will suffer. When a child tries to build advanced skills on a shaky foundation of knowledge, there is likely to be trouble ahead."

Mediocre or poor grades can result from a variety of problems. Dr. Huntington offers the following suggestions for what to do when a child brings home a poor report card:

1. Examine the situation realistically. It is important to remember that every drop in grades indicates that valuable skills are being missed. An effort should be made to learn and reinforce those missing skills. While this is being done, it is also important to identify and remedy the basic problem, so it does not continue to hurt

your child's education.

2. What is really the problem? Is there a behavior problem? Sometimes, bright students get bad grades for behavior related activities. Does your child hand in homework? Is it correct and on time? Is your child bored with schoolwork, and therefore is not paying enough attention? These are not excuses; they are symptoms of different problems. You must identify the problem before you can remedy it.

3. Talk with your child. Why does your child think he or she got poor grades? Does he or she take the situation seriously? How does he or she plan to do better? It is important that your child knows you take the situation seriously. Work with your child to develop a plan that will help achieve better grades. Let your child know that you are supportive and that you believe in his or her abilities.

4. Talk with your child's teacher or counselor. Your child's teacher or counselor is a professional educator. What are his or her observations? What does he or she recommend?

It is important to remember that the difficulty that caused these poor grades may be a serious problem. Your child may have missed one or more important basic skills. It is vital that you get help for your child as soon as possible, before the problem gets worse. The summertime provides the perfect opportunity for children to strengthen weak skills and prepare for the more advanced skills they will need in the upcoming school year.

Parents who want additional information, or who wish to discuss a specific problem, are encouraged to call the **Huntington Learning Center** in Barrington at (847) 382-3655 or in Buffalo Grove at (847) 459-5939.

The Klehm Improved Bechtel is a clonal selection of a native crabapple. This tree was originally found by Roy Klehm's great uncle, George Klehm. While picnicking with his girl friend in the Spring of 1906 near Palos Heights, Illinois, George noticed a beautiful double salmon-pink flowering native crabapple. This beautiful tree was,

however, in the midst of a wooded area and in order to propagate it with an apple tree later in July he had to mark it for his return. George's girl friend suggested she could tear a small part off of her petticoat which could serve as a ribbon. The ribbon worked and by preserving the tree's location, George was able to promote the beauty of our local natural plants.

Here's part of the 15 member crew of volunteers from the Barrington Rotary Clubs that participated in the Spring Clean-up of Northwest Highway in Barrington south of Ela Road.

secured donations from food and wine purveyors in order that all the money collected from \$100 per person benefit went directly to the Sisters.

During the evening, Monsignor Velo, close friend of the late Archbishop, shared stories of his visits with the Cardinal's mother Marie, a resident at the Chicago Little Sisters of the Poor Home for the Eld-

erly.

The Little Sisters' two homes in the Chicago area offer independent living, residential, intermediate and skilled nursing care and a senior center day program to low income elderly of every ethnic origin and religion. Opened in Palatine in 1966, St. Joseph's is currently home to 90 elderly residents.

Gala committee members include (left to right): Kristin Jung of Palatine, committee chairperson Kay Hartleib of Bloomingdale, Mary Ellen Moriarty and Karen Gerovac of Palatine, host and Mia Cucina executive chef Andrew Webber of Barrington, and Patricia Keane of Barrington.

Security and Beauty with Outdoor Lighting

A home's landscaping is, if done well, its crowning glory. Tastefully executed landscaping can make even the plainest house look appealing, just as poor landscaping can ruin the appearance of a mansion. Consequently, every year Americans spend millions of dollars installing, enhancing and maintaining both residential and commercial landscapes. The shame of it, though, is that every night when the sun dips below the horizon all of that expensive landscaping is virtually invisible for 10 or 12 hours.

Rudy Kruse, president of **CFC Nite Lites**, has set out to change that by installing landscape lighting which accents elements to which your eye is naturally drawn during the day—flowering trees,

artwork, building features and so forth, using a wide variety of techniques including uplighting, crosslighting, moonlighting and pathlighting.

"There are three main purposes for outdoor and landscape lighting," Kruse explains. "The lights offer added home security. They also offer safety around steps and other potential hazards. And, of course, there are the aesthetic considerations. In fact lighting actually makes a yard appear larger than it is and there is also the opportunity to light up special characteristics of the house itself like special brickwork, cornices and fireplaces."

Call **CFC Nite Lites** at **847/658-5469** for your free estimate.

"Preventative Maintenance"

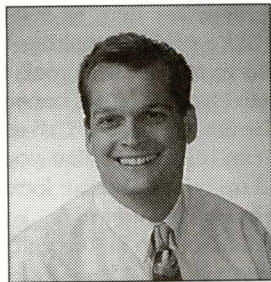

Cedar shingle roofs can last 50 years and lend a natural, woodsy look to your home. But as with many things, their beauty and longevity require preventive maintenance.

According to Barbara Murry of ISK-Biotech, unless protected from the intense sun and moisture that foster mildew and other fungi, cedar roofs may last less than one-fourth their potential life span. If your roof is two years old and is starting to curl or warp, don't wait, call **RGs Cedar Roof Treatment**.

According to Better Homes and Gardens, cedar must be maintained to last. Sta-Brite R, a water-base preservative, seals cedar shingle wood fibers to repel moisture and prevent splitting and mold. The preservative also shields cedar roofs from the damaging ultraviolet rays of direct sunlight.

To find out how we at **RGs Cedar Roof Treatment** can protect and beautify your roof, call **847-658-5562**. Call now for your early spring discount!

Siding Options for Your Home!

Bill Schafer—President

When visitors drive down your street and pull into your driveway, the first impression of your home is its exterior. Realtors call it "curb appeal." The windows, doors, house color, and landscaping all contribute to its overall look. But it's the siding that covers the major portion of the exterior.

Siding options vary. If all you want is an exterior facelift, you need to check that the siding you have is paintable. Not all siding can be painted successfully. If you plan to re-side, your main choices are vinyl, steel, aluminum, fiber cement, and traditional wood. Each has its own pluses and minuses. Wood siding is very traditional, but it requires a lot of upkeep. You'll need to re-paint or re-stain every few years. If you prefer a maintenance-free solution, check out the different warranties between the other types of siding.

Most of the non-wood siding comes in a variety of textures. Smooth siding gives a clean look to the walls. A roughsawn texture imitates the look of wood siding. Also, the profile of the siding affects the way the

Joe Schafer—Vice President

home looks. Some siding has grooves in it to imitate the look of boards. Laps and beading on the siding causes shadow lines, which is a more traditional look. Siding can even imitate cedar shakes without the maintenance associated with them. Some manufacturers can provide replica panels, e.g. panels that imitate hand-cut stone, hand-laid brick and stucco.

Along with the siding, manufacturers offer decorative accents. Various sizes of matching blocks are available which provide places for light fixtures, doorbells, house numbers and water faucets. Specially-made vents for kitchen and bath exhaust fans and dryers will coordinate with your siding. Other decorative accents include crown molding, rosette corner blocks, and even lattice panels.

With all the different choices for the exterior of your home, it makes sense to call in the professionals! At **Schafer Builders, Inc.** we can advise you of the best options for your particular home. And all our work is 100% guaranteed! Call us now at **815-459-1333**.

Tips from the Top of The Rock™

The Prudential
Preferred Properties

At a seminar I recently attended, the speaker asked the audience to name the location of the richest place in all the world. It was quiet as we thought about the location and a few courageous people gave their answers as to possible sites. Of course, their answers were incorrect.

He then told us that the richest place in all the world was the cemetery. This is the place where all the books that were never written, the ideas that never were acted on, the poetry that was never read, the dreams that were never realized were buried. How sad and depressing was that visualization. Wow!

These questions made an impact on me. This article is about life and what you are getting from it. Has your life been "status quo"? Today, with our fast paced society, that means falling behind. Have you been wanting to start your own business, or go on a month long cruise, or find another career, or (perhaps) live in a different home? What keeps you immobilized? Fear, procrastination or what?

It takes a tremendous amount of courage to change what we have been comfortable doing (career-wise), or living in (house-wise) and we are the only ones who can stand up and say "I don't like it, I need it changed!"

Let's talk about procrastination and how it gets in the way. I have talked about my friend Napoleon often. Well, Napoleon and his family—spouse and two children under five years old—moved into their

home ten years ago. The home was perfect for them. Three bedrooms with one full bath and one half bath. Ten years later, things were different. One full bath was not enough. Every morning there were "bathroom" fights in Napoleon's household. No one left home with a smile on his face.

All was not well when Napoleon and I had lunch. He proceeded to tell me about the morning ritual regarding the main hall bathroom. To say his face was stormy was an understatement. After listening to the saga, I told him that his perfect home of twenty years ago just does not work for him now. Napoleon's procrastination was stealing the quality of life that he envisioned with his family.

Napoleon asked the question I was waiting for. "Yes, I want to make a change, but how do I go about it?" I told him to "just follow me." Off we went to our offices at **The Prudential Preferred Properties** to begin the process. Napoleon was apprehensive as he was going into uncharted waters.

We Realtors are here to serve our clients. We take pride in making it easy for our clients to realize their goals efficiently and effectively. That is our commitment all during the entire process. Call us today so that we can make sure that your dreams don't end up buried. We are located at The Dream House Headquarters.

Barrington Bank & Trust Company Breaks Ground for Permanent Facility

Barrington Bank & Trust Company recently held a ground breaking ceremony to begin construction of its permanent facility. The event was held at the bank's new site on the corner of Hough and Station Street. According to Jim Bishop, President of Barrington Bank & Trust, completion of the building is expected to occur in early 1998.

"The hope is that the building will make a statement for the bank and for the com-

munity," said Bishop during the ceremony, "Barrington Bank & Trust plans to be here for a long, long time. We are proud to be a part of Barrington and hope the community is proud of us."

The building project is just the latest of several steps the bank has taken since its opening this past December to make customers feel comfortable and experience real hometown banking—just like it used to be.

Red Oaks Annual Garage Sale— June 21 and 22

Red Oaks home furnishings in Long Grove, Illinois, will be holding its largest sale event of the year on June 21 and 22. Each year during Long Grove's *Strawberry Festival*, Red Oaks puts up tents and fills them with furniture and accessories at 50-80% below the original selling prices. Most of the pieces selected are discontinued items or former showroom samples—some brand new from the box and others with minor dents and dings. It's a fun time to look for a special treasure and later stroll the town enjoying other festival events.

Red Oaks has held their annual *Garage Sale* for over 20 years. Long-time value hunters often come early to watch as merchandise is brought from the warehouse. The sale officially opens at 10:00 a.m. and shoppers are quick to make their way to a favored item to lay claim. Each year the sale has a unique mix of products, depending on the inventory on hand. Some years have featured lots of upholstery and other years have been dominated by tables and cabinets. In addition to furniture, Red Oaks also includes lamps, prints, accessories, gift items and silk flowers in the sale.

Welsh Dresser

Worth noting, this a cash and carry event. Credit cards are not accepted on sale merchandise, and you should be prepared to haul away your purchase. Delivery of large furniture items can be arranged at additional cost. Parking during the festival is often limited, so plan to come early.

Sarah Personette Receives an Excellent Rating

Kaleidoscope, Woodlands Academy's award-winning select choral ensemble, under the direction of Elizabeth Kurowski, earned a Superior rating in the Women's Choir Division at the New York Music Festival in Elizabeth, New Jersey recently.

Among the members of Kaleidoscope was first soprano, Sarah Personette of Barrington.

Kaleidoscope was one of 20 high school choral groups, and the only Chicago area school to perform in this national competition. Adjudication, conducted by three college music professors, was based on a 15-20 minute performance comprised of three songs. Kaleidoscope earned a Superior rating for their winning performances of Handel's *Ob Had I Jubal's Lyre*, Dorren Rao's traditional Mexican folk song, *Las Amarilas*, and Andrea Klouse's *How Will I Go Without Ye!*

The judges best summed up Kaleidoscope's overall performance in their final critique: "Very fine vocal production," "...lovely rich quality in all three parts," and "...very mature sound. Excellent work!" This is the third consecutive year that Kaleidoscope has earned high ranking in national competition.

Kaleidoscope also participated in a

First soprano Sarah Personette

workshop with Ruth Golden, lead soprano at New York's Lincoln Center and head of the vocal department at Long Island University, sang at St. Patrick's Cathedral in New York, and gave several performances at the Sacred Heart sister school at 91st Street in New York City.

In addition, three soloists earned high marks in the vocal solo competition.

Among them was Sarah Personette who earned an Excellent Rating for her performance of Mozart's *Laudate Dominum*. This was Personette's second year to earn a high rating at national competition. The judges remarked on her exquisite "lyric quality" and "excellent sense of phrasing."

Bargain Barn to Open!

At **Silk 'n Things** on Main Street in Barrington we're opening the "Bargain Barn" to celebrate our seventh anniversary. Come and enjoy savings as we move some hidden treasures, some forgotten finds, to the "Bargain Barn" behind our store.

You'll find antiques, shabby chic, potpourri, candles, baskets, containers, floral, Christmas decorations and more. We'll probably find some things we didn't know we had.

Come and meet Catherine Mueller on

Saturday, June 7, who has been a featured artist in the shop for the past two years. Catherine's specialties range from her passion for children's furniture to the very popular "shabby chic." Her ability to interpret and adapt has allowed her to offer one-of-a-kind designs.

It's physically impossible to move everything outdoors, so come inside and see our recent arrivals.

Due to popular demand we have scheduled another topiary class on June 23 at 7 p.m. Advanced registration is required.

WC of Inverness Spring Fashion Show Delightful

During National Volunteer's Week, April 13-19, how appropriate that the theme of the spring fashion show of the Women's Club of Inverness was entitled, "Applause, Applause... A Tribute to Volunteers." Eileen Newton, chairman, and Denise Long, co-chairman, with the many volunteers from the over 160-member club, worked for months to provide a fabulous, fun-filled afternoon for more than 530 women from the Northwest suburban area.

This annual fund-raising event was held at the Woodfield Hyatt, where the newly redecorated ballroom was decorated with pink floral centerpieces generously do-

nated by American Landscaping of Palatine. Before the luncheon, guests spent time perusing items at the gift boutique. Prizes included two round-trip tickets on American Airlines anywhere in the continental U.S.; jewelry designed by M.J. Miller and Co. of Barrington, a \$200 savings bond from American Chartered Bank; his and her luxury watches from S.A. Peck Jewelers of Chicago, and many more.

The highlight of the afternoon was the runway fashion show presented by Saks Fifth Avenue of Oakbrook. The 18 professional models opened the show with fashions in lime green, wearing pots of greenery as hats. This year's show included some choreography, with many changes of music and lighting to set the mood. To the delight of the guests, during a showing of black and white fashions, two models were each accompanied by a leashed dalmatian dog. Each guest was given a list of the Saks

fashions and the audience responded with much applause at the high-energy show.

This spring afternoon has become a traditional event, having a history with the Women's Club of Inverness of 20 years. The mission of this annual fund-raiser is to assist many philanthropies in the area such as: Children's Advocacy Center of Hoffman Estates; Community Crisis Center of Elgin; Northwest Action Against Rape of Arlington Heights; Resource Center for the Elderly of Arlington Heights;

and Peace of Mind of Roselle. Included in the list of recipients are area high school seniors who may apply for college scholarships provided by the club. Nearly \$15,000.00 was raised from this popular social event. From the many volunteers whose dedication and hard work beginning months before, to the hundreds of guests who attend this fun, delightful April afternoon, the knowledge that they are working to aid the community is immensely satisfying.

During a showing of black and white fashions, models were accompanied by dalmatian dogs.

Kemper Cazzetta, Architects Announce: "Dreamhouse 97"

Kemper Cazzetta, Ltd. Architects in association with Bonner Codd Associates is pleased to announce the presentation and sale of the second annual "Dreamhouse." This luxury home, situated in the Wynstone community of North Barrington, is now available for tour and purchase. "All proceeds from the sale of this home will go to The Children of the Andes Foundation," says John C. Cazzetta, Executive Director of the Foundation for the U.S.

The Foundation was founded by Jaime Jaramillo who is world renown for his work with children and who has built special centers to house, educate and care for children who are rescued from the streets and sewers of Bogota Colombia. "The 'Dreamhouse' concept is just one of our U.S. fund-raising efforts to help raise funds and awareness of this terrible condition, which presently affects over 2000 abandoned street children," says Cazzetta.

"We plan on designing and building additional "Dreamhouses" each year as an

ongoing fund-raising effort; in fact, the next two are on the drawing boards," added Cazzetta. In addition to the sale proceeds, most vendors and subcontractors involved in this project are donating a percent of their services to the Foundation. "For this donation, we are producing a brochure which will highlight this house, the story of these children and all the parties involved. This brochure will be used to market the home and help those involved to get some benevolent exposure," concludes Cazzetta.

To tour this magnificent home, please call our office at 382-8322 to arrange a personal tour. Details on the house and its sale price will be given to all interested parties at that time.

Chairpeople of the ninth annual Shining Star Ball. "We became involved with the Shining Star Ball because we were very impressed by the capabilities of the clients of Clearbrook. "Children and adults with developmental challenges can accomplish a great deal; however, all too often people with disabilities are seen as 'incapable'. We all have ability and can succeed when given the opportunity to do so. Through the help of the Shining Star Ball and Clearbrook's high quality programs, we are creating many exciting opportunities."

Prizes included an all expense paid trip to the 1998 Super Bowl & NFL Party in San Diego; trips around the world to exciting locations such as Tokyo, Berlin, London, Hawaii and the Virgin Islands; fine jewelry, sporting event packages and much more.

Proceeds from the 1997 Shining Star Ball help fund Clearbrook's Clinic. The Clinic provides evaluation and therapy services, behavior intervention and psychological counseling. Through these therapies, Clearbrook provides more service to people with developmental disabilities than many other organizations in the area.

Clearbrook Center is a not-for-profit agency serving more than 500 children and adults with developmental disabilities including mental retardation, autism, cerebral palsy, epilepsy and other neurological disorders. Clearbrook provides therapies, vocational training, residential services, children's services and operates 25 facilities throughout the north-west suburban area of Chicago.

Latest Trends in Kitchen Design

"Everything Old is New Again!"

With the hustle and bustle of our society, people are yearning for simpler times. The appeal for an old comfortable look, like Grandma's kitchen, for example, continues to be the new trend.

While a nostalgic feeling is popular, consumers desire quality cabinetry along with convenient and energy-efficient appliances that Grandma never could have imagined. The kitchen and bath industry recognized the changing trends of today's society. The Kitchen and Bath Industry Show, held last month in Chicago, unveiled new products to assist in creating nostalgic kitchens with all the modern amenities.

Cabinet suppliers are introducing traditional and cottage style doors with finishes that display worn edges and simulated cracks—suggesting that the cabinets have been enduring family use for generations. Increased furniture detail is also being used to obtain a more nostalgic look and feel: fluted columns, crown and rope moldings and cabinets with furniture legs are extremely popular, as well as pleasing to the eye!

Star Norini, a Certified Kitchen Designer and owner of **Distinctive Kitchen Designs, Inc.** in Wauconda, supports the return to the arts and crafts movement and the nostalgic trend toward kitchen design. "While white painted cabinet finishes are still popular," comments Norini, "the bright white and glossy white finishes have given way to softer ivory and antique whites. We are also creating kitchens using two finishes. Along the same lines, blue and green stained or painted finishes are being used with softer white or medium wood stains."

Also supporting the move toward simpler times are plumbing manufacturers. Due to the growing popularity of cottage and farmhouse style kitchens and cabinets, the apron-style sinks with exposed fronts

are making a comeback! Faucets are complementing the trend with lovely brushed nickel finishes, which has a timeless appeal.

"Although the nostalgic theme is growing, there is still interest in the 90's look as well," says Norini. "Built-in refrigerators and dishwashers that blend in with the cabinets when decorator panels are applied to them are very appealing. Stainless steel, commercial-style appliances are also gaining popularity, along with the great hood, featured in stainless steel or stucco with carved molding accent finishes."

Distinctive Kitchen Designs has already incorporated many of these new design features in its showroom! The professional kitchen designers at **Distinctive Kitchen Designs** have the product knowledge and the design expertise to create a convenient kitchen with a comfortable, timeless appeal that will continue to be the trend for the next several years.

Let's face it, Grandma never had it so good!

From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

We have come to a rather significant occasion at our dealership, one of our first long term employee's is retiring. This is the first employee we have ever had retire and it definitely feels like a milestone. Del Davie is an excellent full journeyman service technician. He has been here at **Wickstrom Ford** for over nine years. Del has been a service technician for over forty years, most of that time with Ford. Del even worked for the previous owners of Barrington Ford in the seventies.

Del had his own transmission shop in Green Bay, Wisconsin for about five years and then came back to the Ford family. Needless to say, Del does a lot of our transmission work and will be sorely missed in that area. Del takes great pride in doing the job right the first time and has always readily offered his great experience to our younger technicians. We enjoy the fact that we have so little turn over here at **Wickstrom Ford** and take great pride in the courteous and considerate way that

our employees treat each other.

We will all miss Del, but wish him well in his retirement back to Green Bay and his hobbies of fishing and snowmobiling. It is a fitting finish to Del's career here at **Wickstrom Ford** that he was elected employee of the month of April.

Scotty's—Groceries On Wheels

Just don't have time to get to the grocery store? Hate those long, frustrating lines? Difficult taking the kids? **Scotty's Home Delivery** can help. We have been in business for over four years now, servicing the grocery needs of people just like you. We service 45 north and northwest suburban communities, with a customer base nearing 2,000 clients. Best of all, you pay grocery store prices, with only a nominal delivery fee to have them brought to your front door! Our average delivery fee is only around \$3.00!

All of our customers receive a price book with the nearly 5,000 items that we carry. It includes all of your favorite name brand suppliers, and an assortment of specialty items that you won't find at the grocery store, such as fresh butcher meat and seafood, whole grain breads from the Barnaby Smythe's Stone Ground Bread Company, fresh baked goods from a local bakery, and the finest of fresh produce we receive in daily.

Ordering is very simple. You can either call in or fax in your order, just indicating the item numbers you would like to have delivered. We will give you a total due for your delivery, and you can pay us by

check or credit card. The great thing is that you don't even have to be home to accept delivery (around 50% of our customers are not). We can do this because we deliver all of our refrigerated and frozen items in Igloo coolers with ice packs, so even ice cream stays frozen while your groceries await you. The dry products are delivered in waterproof boxes with lids on them. We will work out a convenient place with you to leave your groceries if you are not going to be home, and they will be waiting there fresh when you arrive. If you are going to be home we will unload them on your counter for you. It's that simple!

This is not a club of any kind, we are simply a grocery store that only delivers. You order when you want (Monday through Friday) and however much you want. We guarantee 100% the quality of all our products. To receive an information pack describing the service, including a complete price book, just give us a call at (847) 726-8897, and we would be happy to send one out to you. Isn't it about time you enjoy your free time and spend your discretionary time the way you want to spend it? Let us help! We look forward to hearing from you.

Held In Wisconsin's Rolling Countryside

June 29 will mark the start of the 1997 season for the **Racine Antiques Fair** in Union Grove, Wisconsin, from 8 a.m. to 4 p.m. That day, lovers of antiques and collectibles will be able to shop from the collections of approximately 60 of the Midwest's finest dealers.

Now in its seventh year, the **Racine Antiques Fair** has established itself as a small but quality event, a classic in the country.

"The 1996 September show was fantastic," said fair manager Dennis Carroll. "Record sales were made in big ticket items as well as in all other areas. We look forward to a terrific 1997 season."

Situated at the Racine County Fairground, the Antiques Fair is in the heart of Wisconsin's rolling countryside, about

an hour's drive north of Chicago, or 30 minutes south of Milwaukee.

In this rural setting, shoppers will find objects of art, beauty and utility, some, perhaps dating as far back as the 1700's; others of more recent vintage, evoking childhood memories or images of times past. Because of the fair's more intimate, friendly atmosphere, shoppers can take their time browsing among the many and varied collections and talk to the dealers who are more than willing to assist and share their considerable knowledge about particular items.

Previous shows have featured everything from turn-of-the-century and early 1900's English pond sailing boats, English Torquay pottery and eighteenth century

Health Coverage

(Continued from page 18)

The date the COBRA continuee becomes entitled to benefits under Medicare.

The date the COBRA continuee becomes covered under another employer's plan.

The date the employer ceases to provide any group health plan coverage for any of its employees.

In addition, when it takes effect, the Health Insurance Portability and Accountability Act of 1996 (the Health Insurance Act) will likely resolve many of the material concerns an executive may have about replacing health coverage due to the loss of group health coverage on termination of employment or retirement. This should be the case regardless of whether the executive commences coverage under a new employer's group health plan or whether he purchases an individual health insurance policy covering him and his family.

Effective for plan and policy years beginning after June 30, 1997, the Health Insurance Act limits the ability of plan sponsors and insurers to design plan and policy provisions that deny coverage based on preexisting medical conditions. Under the Health Insurance Act, the maximum period for imposing a preexisting medical condition exclusion is 12 months. This maximum period may be increased to up to 18 months for an employee or dependent who fails to enroll in the group health plan during the initial enrollment period or during the 30 days following termination of coverage under another health insurance arrangement.

Due to this provision, no preexisting medical condition exclusion can apply to deny coverage to an executive or family member who has been covered by a health insurance arrangement for 12 or 18 months, as long as there has been no break in coverage exceeding 63 days. To verify prior coverage under a group health plan, the Health Insurance Act requires an insurer or plan sponsor to issue to a participant a certification of coverage upon termination of coverage, and upon request anytime within two years of termination of employment or coverage—whichever is later.

Because the Health Insurance Act prohibits a plan from discriminating in terms for either eligibility to participate or premiums based on an individual's medical history or status, evidence of insurability is no longer a concern for an executive or family member seeking coverage under a new employer's group health plan.

The fear of losing health insurance coverage has traditionally been an emotionally charged issue for executives. State and federal mandates have lessened the danger that an executive will lose coverage. With the enactment of the Health Insurance Act, the risk has been reduced further. However, care must still be taken to ensure that an executive is not faced with a gap in coverage.

Congratulations to all the graduates. Have a safe and prosperous June.

Reiki... System of Healing

(Continued from page 30)

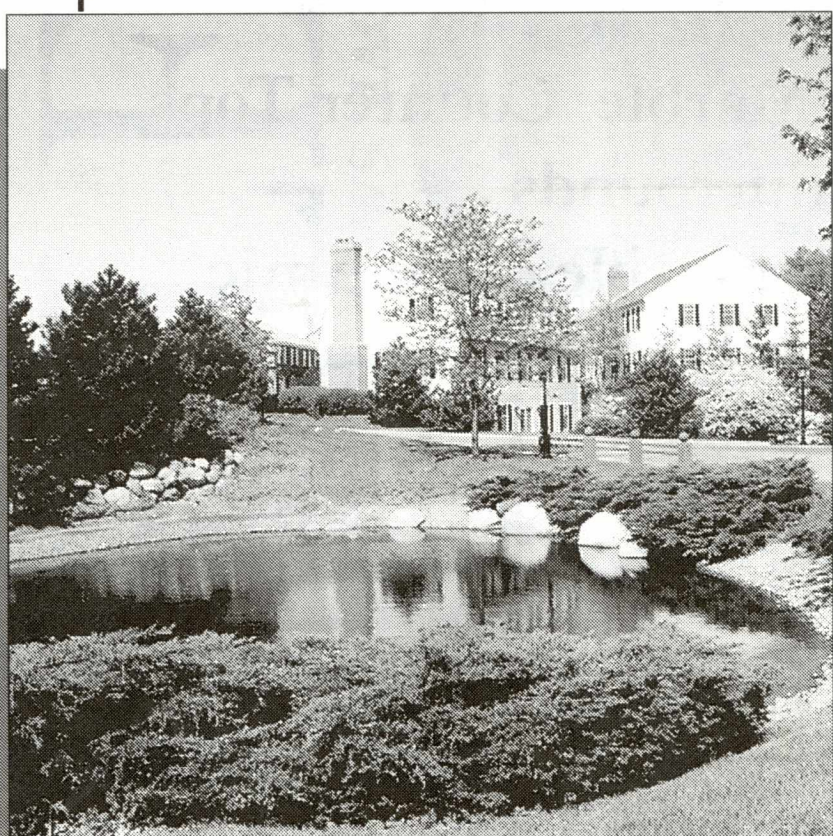

rediscovered this ancient healing method in the middle of the nineteenth century. Whether your goal is self-healing, providing assistance to loved ones, or becoming a professional **Reiki** Master Teacher or Practitioner Level—all that is required is the desire to learn **Reiki** and use it ethically. It was intense desire which led Dr. Usui to his discovery. **Reiki** is a holistic method which reaches all levels of one's existence and works to bring them into balance, thereby addressing the cause rather than the symptoms of disease or disharmony. You may experience **Reiki** as love, the original home of the soul. However it is not linked to any specific faith, religion or belief.

"I believe **Reiki** is a great gift which engenders great responsibility," states Ms. Arwine. **Reiki** is taught in four levels, each requiring a full day seminar at a cost of \$150 per day each for Levels I and Levels II and \$200 each for levels III and IV. "Simple to learn, it is in no way simplistic," she continues. "We learn most deeply that which we experience directly both from being the giver and the receiver. Our **Reiki** work will be refined as we use it and questions will arise. Therefore, I of-

fer supplemental classes two evenings a month for sharing, practice and further development. These very beneficial classes are offered to all my **Reiki** students free of charge. It is a unique bonus and my way of giving back for all that I have received through learning, practicing and teaching **Reiki**.

Pamela is a teacher and practitioner of the art of Rubenfeld Synergy (body/ mind/ spirit integration) and **Reiki** Master Teacher. She has also recently completed her certification program in metaphysical hypnotherapy with an emphasis towards past life regression for therapeutic purpose. She offers both classes and private sessions. The next **Reiki Level I Class** is on June 14. Private sessions are available by appointment. She brings a rich blend of experience to this work dedicated to health and balance with the focus on unity of mind, body, spirit and emotion. Each step along her path has brought her closer to her goal of teaching and assisting others in alleviating pain, disease, dysfunction and discomfort. Along the way, she has discovered that the true goal and the true joy is to take wing and soar; alleviating pain is just the necessary first step in the process.

SANFILIPPO
LANDSCAPE 847-381-1611

Spring Planning with SanFilippo Landscape

"Every plant has fitness and must be placed in its proper surroundings so as to bring out its full beauty. Therein lies the Art of Landscaping."

—Jens Jensen, landscape architect

No matter what you do in life, planning is important. It gives you direction and helps you get where you want to go. Sometimes the planning can be done on your own, but more often than not a professional is needed.

At **SanFilippo Landscape** we practice the "Art of Landscape Planning." We create outdoor spaces and furnish them with plants, pavings and structures related to outdoor activities that complement your style of living. And everything must be considered! Do you enjoy entertaining, is gardening a hobby, been thinking about a pool, do you require a low maintenance yard? Remember, no one can give you what you want until they know what's important to you.

So, why should you consider **SanFilippo Landscape**? Finding a contractor isn't like buying an appliance where you get a model number, compare prices and find your best price. With landscaping there are a lot of elements to be considered starting with the design which incorporates the plant materials and hardscapes to be used.

The Plan

A good landscape plan is the basis for a quality job. Either an architect or designer

can be used. An architect has completed 4-5 years of study involving horticulture, soil, surveying, site-plans and construction while a designer is not an accredited position. Once you've established your needs, a drawing will be rendered showing a "birds-eye-view" of your property. This drawing should indicate all existing structures, hardscapes and plant materials and is usually done in either an 1/8" or 1/4" scale. Plant materials are indicated with circles which, represents the tree or shrub's spread. Always keep in mind, "The right plant for the right location." A plant's mature size must always be considered, otherwise you may end up with too large or too small a plant for a given area.

Plant Materials

All plants are not created equal. We only buy from Northern Illinois/Wisconsin nurseries to ensure a plant that is adapted to our climate. Many lawn and garden centers sell bulk plant materials with undersized root systems to accommodate volume shipping. These same plants often come from the South, allowing them to be more prone to disease and unable to handle our winters. Another thing to consider is plant size. Professional nursery stock is larger and helps create a more pleasing look during the first season before the plants are established.

And no matter what your style or budget, pay attention to variety in the plant materials that the design calls for. There are so many wonderful plants that offer

different textures and colors and sizes. A good mix of heights within a planting area can give the landscape dimension while large groupings of the same plant can help create variety in texture and color throughout the seasons.

Hardscapes

Another important part of the landscape plan will be the design and treatment of decks, terraces, walkways, gazebos, retaining walls, etc. As a full service company we feel that having us handle all exterior development results in a better quality job for three reasons: 1. The job is completed

faster because we have better control over all elements, 2. The design is completed correctly without any shortcuts being taken and 3. We hire subcontractors more often and get both better service and prices.

So, no matter what your reason for calling a landscape contractor, start out with a plan. Everything doesn't have to be done in one season but if you know where you're headed, you're more likely to get there.
