February, 1994

Dear Reader,

As I'm writing this monthly letter to you, we are enjoying(?) the wonderful temperature of -20 degrees below zero. But we have some exciting happenings this month, sure to warm you up!

How does a "Caribbean Splash" sound to you? Great, right? Well, you don't have to travel far to visit an island paradise. On February 26, you can enjoy calypso, reggae, steel drums, a plantation style buffet and more. Don't get left out in the cold . . . make your reservations early for the Barrington Area Arts Council's annual fund raiser by calling 382-5626. Cost is \$70 per person.

Or, how about getting away from it all and going Under The Big Top? The 7th Annual Gold Bell Gala to Benefit the Mental Health Association in Illinois is slated for Saturday, February 19. The gala will take place at Chicago's Navy Pier grand ball room. Evening attire. Ringside seats are \$175 per person. Call MHAI at (312) 368-9070 for tickets.

With winter events like these, who cares if the snow is blowing. (Baseball season *does* open in 10 weeks, right??).

Until next time, may all your thoughts be sunny.

With warm regards,

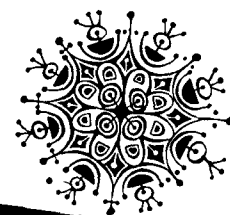

Glenn M. McMonigal

BAHS' Winterscapes 1993

Attending were Jeanine and Rick Galati. Jeanine was the artist for the '93 BAHS Christmas card.

Elise Detterbeck was chairman of Winterscapes '93. This Barrington Area Historical Society's annual holiday gala was held at Wynstone Golf Club in North Barrington early in December.

Bob and Sam Oliver were there. Sam is President of BAHS. Many great prizes were offered including a Barrington Shopping Spree in a horse drawn carriage.

Mr. and Mrs. John Bruce, along with other party goers, enjoyed dining on such scrumptious fare as Ramsgate roast beef, scones, Yorkshire pudding and trifle.

Bette-Jane and Dick Austin enjoyed the Dickensian "Fezziwig Feast" too. Bette-Jane was on the committee and is the 1994 Housewalk Chairperson.

Enjoying holiday tunes by carolers dressed in Dickensian garb were Michelle and Tony DiCerbo. Michelle was a gala committee member.

Auctions, silent and live, tempted attendees including Charles Freda and Lynn Zidek. Lynn is on the Board of Trustees of the BAHS.

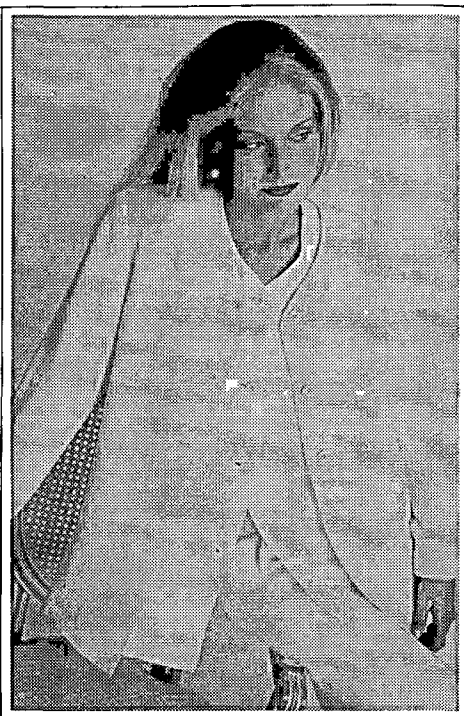

Jack and Helen Gleason celebrated, too. Jack is treasurer of BAHS. The proceeds from Winterscapes will go to support the many programs, projects and activities of BAHS.

Cheryle Cinefro and Nancy Hickman share in the gaiety. Nancy is on the BAHS Board of Trustees.

LWV Slate Champagne Brunch

Grace Mary Stern, State Senator will speak.

Grace Mary Stern, State Senator for the 29th District, will address the topic, "Reproductive Rights—Women's Choices in 1994" at an upcoming Champagne Brunch in February. In her speech she will touch on such topics as reproductive actions anticipated for the coming legislative session, proposed federal health care plans as they relate to reproductive choices, and other timely topics relating to the reproductive rights of women in our state.

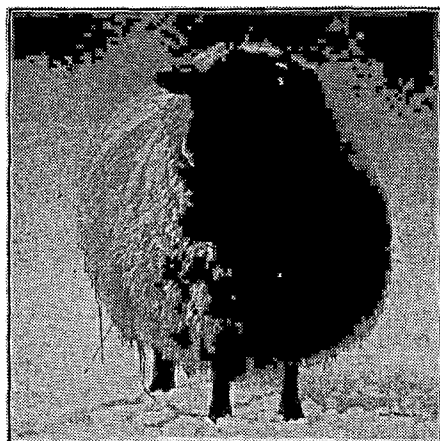

Ms. Stern is a very remarkable woman whose record of achievement is quite impressive. Currently as a state senator,

she is serving on the Local Government and Elections Committee, the Judiciary Committee, the Governor's Health and Physical Fitness Advisory Committee, Citizen's Council on Mental Health and Developmental Disabilities, the (D) State Senate Task Force on Health and is the chairperson of the (D) State Senate Task Force on Higher Education. Previous to her election to the state senate she served four terms as state representative from 1984-1992. In 1982 Adlai Stevenson chose her to run with him as Lieutenant Governor which gave her the distinction of being the first woman nominated by the Democratic Party for a major statewide office. This Stevenson/Stern ticket lost the General Election by only 1/14 of one percent.

The Champagne Brunch is being presented by three local community organizations. The League of Women Voters of the Barrington Area's Committee for Choice is spearheading the event. Co-sponsors of the event are the American Association of University Women-Barrington Branch, and Hadasseh. The Champagne Brunch will be held at the Barn of Barrington beginning at noon on Sunday, February 27th. The public is invited to attend the brunch and may do so by sending a check made out to LWVBA for \$25 per attendee to: LWVBA Committee for Choice, P.O. Box 1501, Barrington, Illinois 60011. Reservations must be mailed by February 10th. For more information call 381-5358.

Bateman Celebrates Pastoral Dignity

The art of Robert Bateman is always fresh and always a surprise. Now Bateman has masterfully rendered a kinder, gentler species found in an area near his home.

Salt Spring Sheep by Robert Bateman.

Salt Spring Sheep depicts the pastoral dignity of a domestic favorite. "Sheep are universally smiled upon as being unaggressive groupies . . . this lone female Salt Spring sheep has a certain dignity . . ." the artist observes.

This charming print is appealing for its abstract image, a circle in a square. The colors are like the subject, soft and muted. It's the newest release by the artist, now

available at **Woodland Art Gallery**, the largest Bateman dealer in Illinois.

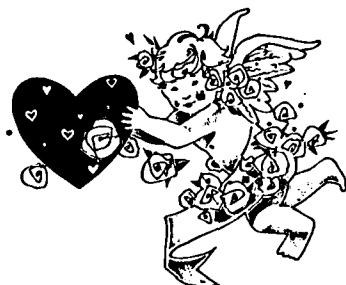

A moment in paradise with a buck and three does is beautifully captured in this month's release from Carl Brenders. *Power and Grace*, already sold out at the publisher's level, promises to be an important addition to Brenders' collection of outstanding limited edition wildlife prints. For information on acquiring this print for your collection, call or visit **Woodland Art Gallery**.

Woodland Art Gallery and Frame Shoppe is Northern Illinois' most respected source for collectable prints by the most popular artists today. Request full color brochures of available art or enjoy a gallery tour of the masterfully matted and framed prints. Shipping is also available anywhere, and Visa and Mastercard are accepted.

Woodland Art Gallery and Frame Shoppe is located at 71-B East Woodstock Street in downtown Crystal Lake. Phone (815) 459-0460.

Visit the gallery collection also at **Prairie Wings Art Gallery**, 344 Old McHenry Road, Long Grove. Phone (708) 913-0581.

The museum mounting, custom matting and fine framing of **Woodland Art Gallery** is available at both locations.

Hypnosis With Counseling For Changing Habits and Improved Health

The Northwest Institute for Rational Counseling is offering a unique combination of hypnosis and counseling techniques for a variety of problems.

For *weight control* the hypnosis is used to shift your attitudes and feelings about yourself, your eating habits and even specific foods. Suggestions are given to eliminate snacking between meals, limit the amount you *feel* like eating at mealtime, have no taste for foods with fat, sugar, and salt, if necessary.

For *sleep problems*, suggestions are given to provide a full night of undisturbed

sleep.

To *quit smoking*, the hypnosis is used to prepare you first to feel like quitting along with suggestions to not feel like smoking. Other suggestions are given to avoid eating as a replacement. After the hypnosis prepares you to accept not smoking the hypnosis deepends its effect for quitting.

For *stress problems*, the hypnosis changes your reactions to stress with specific suggestions given to deal with all of the physical stress reactions such as

Treating Chronic Pain And Life's Other Headaches

Are you one of the millions who suffers from an ache or pain that never goes away? Do you have a cabinet full of prescriptions for it? Worst yet, have you been told, "Learn to live with it?"

Contrary to popular opinion, a number of life's common ailments are not normal.

Take the "common" headache. A headache is the body's way of telling you that something's wrong.

Almost seventy-five percent of all prescription drugs are dispensed to relieve pain. Yet relieving the pain just masks the true problem.

So stop learning to live with chronic pain. Talk to a Doctor of Chiropractic. Today's Chiropractor uses natural methods that will ease your mind.

And more importantly, your pain.

Maybe you're the type who works out everyday or simply jumps into an occasional weekend scrimmage, it may be only a matter of time before you get injured.

And, it's only a matter of time before you'll see a Doctor of Chiropractic. You'll be in very good company.

Just ask the pros. Most football and basketball franchises have a chiropractor on the team. Golf and tennis professionals and every U.S. Olympic team use chiropractic care to boost peak performance.

So, if you have a tendency to push yourself beyond your limits take your aches, pains and strains to a chiropractor. Nobody knows the field better.

For The Hair You Hate Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those tell-tale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

Clear Reflections has provided 18 years of service at the same location.

Facial Plastic Surgery, Looking Your Best

Dr. Churchill specializes in plastic and reconstructive surgery of the face and neck. He has an office and private surgical suite in Barrington, and is one of a handful of physicians in the country to complete extensive subspecialty training through a fellowship with the prestigious American Academy of Facial Plastic and Reconstructive Surgery. Dr. Churchill is board certified and on staff at a number of local hospitals and surgery centers. The following is an excerpt from an upcoming newsletter.

What Are Alpha-Hydroxy Acids?

There is an abundance of products on the market containing glycolic and other alpha-hydroxy acids (AHAs). Although these products are new, these acids have been used for ages. Cleopatra supposedly took sour milk (lactic acid) baths to keep her skin smooth; and French women in the age of Louis XIV reportedly used aged wine (malic and tartaric acids) to improve their skin. AHAs are naturally occurring organic acids that are found in many fruits, sour milk, aged wine, and sugar cane. The most common AHA used today is glycolic acid derived from sugar cane.

What Do AHAs Do For the Skin?

AHAs reduce the adhesiveness of the layer of dead cells on the skin surface. The result is an exfoliation of the skin which may have a beneficial effect on the skin's appearance. As the dead keratin layer thins over the surface a fresher and smoother

appearance can emerge. Over time the skin can feel smoother and softer and certain growths on the skin surface such as keratosis and premalignant lesions can be cleared up as well.

Can Wrinkles Be Removed With Glycolic Peels?

Glycolic and other light peels are being marketed with alarming frequency. Miraculous claims are being made as to how weekly peeling of the skin along with the use of home products can make lines and wrinkles disappear. In reality the effects are very mild and most visible lines and wrinkles will not change significantly. I find that repeated glycolic acid peeling helps prepare the skin for deeper peeling in cases where this is desired. To get rid of visible wrinkles, a deeper peel is

Believe It Or Not, There Is Still Hair In The Scalp Inside The Follicles

Now you may have hair you never dreamed of. No, this new product doesn't claim to grow hair, it claims the hair is already there in the follicles. Dr. Burch Stewart of Applied Consumer Research Labs says in part, "After a couple of treatments, I was amazed to find that many hairs are indeed trapped under the scalp and can emerge after the cleaning process

is used.

"For three partially bald individuals—tested for 3 months—a considerable number of hairs appeared. The results were very pleasing for these, and three other individuals, who now have *normal mature hair* on formerly thinning areas.

Kumon Math Program Teaches Mastery in Sequential Steps

Kumon Math students, 10 year old Sasha Wang (left) and 12 year old Tania Wang have been named to the Kumon National Honor Roll for the past year. The sisters attend the South Barrington/Hoffman Estates Kumon Math Center.

The **Kumon Educational Institute** is the world's largest private educational institute, with two million students enrolled in 23 countries. Students of all ages and skill levels can enroll in the **Kumon** math program. Unlike other math programs that utilize calculators and the latest computer technology, the **Kumon** method is decidedly low-tech. Students complete packets of worksheets that focus on specific mathematical concepts exclusively until each concept is mastered. This back-to-basics approach has helped students develop their math proficiency, study skills, and confidence.

The **Kumon** method was founded by Toru Kumon, a Japanese educator who developed worksheets for his son to study every day for about 15 minutes to help him improve his math performance. Within four years, his son was in the sixth grade and solving college-level calculus quickly and easily.

The Kumon Philosophy

Kumon is not just a way of learning math; it's a way of learning how to learn. The **Kumon** method helps develop study habits and a positive attitude toward achieving academic goals. The method,

which involves daily practice on worksheets, focused concentration, and complete mastery of concepts, enables children to teach themselves.

Building Self-Confidence

All students begin **Kumon** at a skill level that is easier than their current study level in school, so that they achieve a perfect score immediately. This develops self-confidence, a desire for perfection, and an eagerness to learn more.

Speed and Accuracy

One of the most significant aspects of the **Kumon** method is the emphasis on getting the work done quickly and correctly. **Kumon** asks students to correct any mistakes so that a score of 100% is always achieved.

Concentration

When students complete their work accurately and within the standard time, they naturally find themselves concentrating better. Many parents have discovered that with **Kumon's** help their children are able to do other school work more quickly and accurately than before.

For details on enrollment and locations, call **Kumon's** Chicago regional office at **1-800-YES-MATH**.

colorful, exciting and as vibrant as the change of seasons; and best of all, nicely priced," says Nikki.

Join the "Encore Club", the 90's way to expand your wardrobe. In a separate division, **Nikki's Boutique** is now accepting mint condition women's clothing on a consignment basis. Call for details, (708) 307-7333.

Believe It Or Not (Continued from Page 10)

The full treatment normally requires six to twelve months.

"The inventor of this hair system is Ms. Jacqueline Sabal, who developed the process and the herbal product a few years ago. Based on our testing, I know the system does clean out the follicles and allows hair from the follicles to appear fuller and thicker.

"I believe that this system is much safer than any other methods such as Rogaine (Minoxidil), or hair transplanting."

The product is called "**Foli-Kleen 2000 Formulas**", consisting of herbs, formulas

and a shampoo.

The nice thing about this stuff is that you don't have to use it forever like Rogaine (Minoxidil). Once you get the hair you want, you quit . . . period. And you only have to use it once a day—at night—and rinse it off in the morning. Some people can, and do use it twice a day, but it's not mandatory. It depends on how fast the client wants their hair to return.

"**Foli-Kleen 2000 Formulas**" is available at **Numero Uno** in the Palatine Plaza Center on Northwest Highway.

Children's Choir To Sing "Joseph"

The Barrington Children's Choir has been selected as one of the choirs to sing in the hit production "Joseph and the Amazing Technicolor Dreamcoat." Director Peggy Crawford was personally contacted by the production company's liaison when the show's run was extended through July of 1994. The BCC was asked to audition for the parts on January 7 at the Chicago Theater.

The Choir prepared their own choreographed number, as well as performing a required medley from the musical. The children were judged on their musical ability and their stage presence and ability to learn some dance steps. The children spent extra hours in preparation for the audition and their energy and enthusiasm clearly set them apart from the competition.

The audition put many of the choir's favorite volunteers into action as well.

They looked great during the audition thanks to Mary Ann Warton, who designed and hand-painted their T-shirts. Many other parents rallied to help the children get prepared, facilitate our relationship with the production company, and act as chaperones during the audition and upcoming rehearsals and production dates. It has been a joint effort which has really paid off for the group.

The 23 choir members who will be involved in the show have made a very big commitment to the production and to keep up with their school work during their time with "Joseph." The chance to perform with star Donny Osmond and a professional cast outweighs the down side for the group. The children selected are from Barrington, Lake Zurich, Kildeer, Hawthorn Woods and Cary, and will be performing with our friends from the Elgin Children's Choir.

"A Day at the Races, A Night at the Opera . . ."

LeRoy Neiman "The Maulers".

"These two lines, I think, reflect the spirit of my work and my pleasures, my art and my life style. In a sense they capture the range of my environment. I have painted and sketched in casinos, hotels, bars, massage parlors, steam baths, in the salons of elegant restaurants (and sometimes their galleys), on battlefields and football fields, in law courts and tennis courts, in pool rooms and swimming pools, from the decks of luxury liners and yachts and the doorways of skid-row missions. To me it's all Niemanland." **LeRoy Neiman**

LeRoy Neiman is one of America's most popular and respected artists. His art is loved by millions of people throughout the world.

Neiman is renowned for his ability to capture the truth of the moment in his art. Perhaps this is a product of his belief in the story-telling importance of figures responding to real life situations. This unique talent combined with his explosive use of color can create an overwhelming emotional impact upon his art's viewers.

In addition to his candid perspective, LeRoy is also recognized for his distinctive ability to transmit motion and action onto paper. The attraction to the picture is heightened because one becomes a participant in the event, not just a spectator. Perhaps this is why Neiman is most admired as an artist specializing in sporting events. He has created his own unique sporting idiom. In the area of boxing, for example, it is not merely a matter of images of fighters chopping each other up. With Neiman, the fight enters the substance as well as the subject of the picture. No artist can capture the intensity of moment as Neiman can. His art is beyond parallel.

LeRoy Neiman's paintings have appeared in every major magazine and periodical over the last 30 years. His work is exhibited in galleries all over the world and he often receives more than \$300,000 for special commission paintings. His limited edition serigraphs completely sell out sometimes before they are printed. Below are excerpts from various interviews throughout the last twenty years.

Question: How did you become interested in painting?

Answer: It was a natural thing. You know when you do something well. I knew in grade school that I had a special talent, and in high school too. That's fun. When I was in college and painted better than my instructor, then I knew how good I really was.

Question: Do you mind being so completely identified with sports?

Answer: No. Sports are very important. I don't go watch the games, I go to watch the people, the players, the owners, the writers. Some of these people are great, like Arnold Palmer, Bobby Hull and Reggie Jackson—good guys.

Question: What has been your greatest achievement?

Answer: Being my own man. The most important thing and the hardest thing is to be your own man. The artist has the feeling of being a little like a saint. We sin when we try to do something good.

"It's kind of important to keep losing—to keep yourself exposed to shock and disappointment. You have to plunge into chaos occasionally, and get yourself completely beat up in the process. It's the way to stay alive. I mean, if life goes on beautifully all the time, you get not to really care about anything. But the emergency disasters, the bad stuff—you learn from it." The art of LeRoy Neiman is available at **Arlica Hilton Private Collection**, 1568 West Algonquin Road at Huntington Plaza, Hoffman Estates. Telephone: (708) 991-9413.

Arlica Hilton Private Collection's recent release is Le Roy Neiman's limited edition serigraph entitled "Celebrity Night at Spago".

Some artists do their best work in the studio. The tranquility and orderly environment seem to nourish their creative skills. Le Roy Neiman, however, also draws inspiration from the energy and action he finds in the external world. So, when an opportunity arose to join Hollywood's "movers and shakers" at Spago for the exclusive party following the Academy Award ceremonies, Neiman could hardly refuse.

As he expected, most of the nominees were there, lending a palpable excitement to the night air. Neiman's serigraph also depicts several other Academy Award winners who have attended the party over the years. "Celebrity Night at Spago" allows us to

share in the fun of an imagined evening with some of Hollywood's most talented entertainers. Bob Hope and Billy Crystal trade one-liners, while Sean Connery seems to offer counsel on avoiding career pitfalls to an attentive Jeremy Irons. In the right-hand corner, George Burns, ever young, commands the attention of a group of admirers including chef-owner Wolfgang Puck, nominee Morgan Freeman and Michael Jackson, as film critic Gene Siskel looks on.

At table, host "Swift" Lazar deftly refills Gregory Peck's champagne flute, allowing him to continue his conversation with Maggie Smith without interruption. Jack Nicholson bursts into animated conversation

with Paul Newman. At the other end of the table, Elizabeth Taylor pauses to contemplate a statuette of "Oscar," the evening's real star, as she enjoys a light moment with Whoopi Goldberg.

Collectors familiar with LeRoy Neiman's spectacularly successful "Polo Lounge" will recognize the artist's unique style and special flair for detail. "Celebrity Night at Spago" provides a remarkable opportunity to acquire a beautiful serigraph and share a part of Hollywood history.

Escape The Winter Chill. Attend BAAC's "Big Splash"

If the cold weather has left you feeling the need to escape to an island paradise, don't call your travel agent, call the Barrington Area Arts Council to book your reservation for their seventh annual winter fundraiser, "Caribbean Splash" on Saturday, February 26, 1994 at 6:30 p.m.!

The Barn of Barrington will be transformed into a tropical getaway where guests will be greeted by co-chairs Cynthia Erb, Barrington Hills, and Gail Stein, North Barrington, in the Paradise Beach Club where they will enjoy cool refreshments, fried plantain and tostones. While perusing the silent auction items including a 1994 BMW 325ic convertible, sports tickets and memorabilia, a Walter E. Smithe Furniture custom chair, exciting golf packages, retail gift certificates, luxury weekends, and much more, "Stainless Steel" will entertain beach combers with the timbre of their calypso, reggae and sounds of the islands on metal drums of Trinidad. The Terrace will be serving a plantation style buffet including island greens, tropical fruit medley, jerk pork, fricassee of chicken, Cuban black beans and rice, and monfongo con caldo (known as Puerto Rican mashed potatoes in the States)! After a snooze on a chaise, guests will enjoy an evening of dancing to the upbeat sounds of Chicago's "Impulse".

Trader Nick will be negotiating the market prices for the live auction items including a game during the 1994/95 Bulls season in a private Sky Box; Big Sky Montana Condominium; "A Day with the Chef" at Spasso's in Wauconda; a Michael J. Miller jewelry design; a jacket donated by York Furrier of Elmhurst; a powder room remodel by Insignia and Professional Plumbing; Paint Pellet Pistol Warfare for Twelve; and a private reception at the Barrington Area Arts Council Gallery including hors d'oeuvres and wait service, beverages, invitations and flowers for a party of fifty donated by 3 Chefs Catering, Anheuser Busch and Barrington Cellars, Linvitation Station and Barrington Flower Shop. Author Visits Chicago Area

Noted Texas author, Carolyn Farb, is surrounded on her recent visit to the Chicago area by (left to right): Susan Major, Barrington Hills; Kathleen Amatangelo, Barrington Hills; Ann Farmer, Chicago; and Ruth Kern, Barrington.

Carolyn Farb of Houston, Texas, was feted recently at the Union League Club in Chicago in celebration of the publication of her new book, *How To Raise Millions Helping Others Have A Ball*. It is a guide to fundraising in America and is backed up with all her secrets as a high profile fundraiser dedicated to this vital community service. The book is spiced with individual anecdotes and down-to-earth instructions on how to conduct fundraisers. Her basic theme is:

"The purpose of special events is to

RAISE money, not SPEND it."

Carolyn has raised over \$8 million for charity and, in 1983, was the first to raise one million dollars in a single evening for the Stehlin Foundation for Cancer Research in Houston, Texas. She has changed the way charities raise funds through her innovative and trailblazing abilities and readily shares over 24 years of successful techniques. She is the recipient of numerous national awards, including the Illustrious Modern Award from the Wedgewood Society of Chicago.

United Way Raises \$282,850 In 1993

The Barrington Area United Way has concluded its campaign with a 3.2% increase over last year, bringing in \$282,850 in 1993.

"We are beginning to see more residents of Barrington who work in the Northwest suburbs designating their pledges back to the Barrington Area United Way and that is really starting to pay off," said Bill Colilla, Quaker Oats employee and Board President. Substantial employee gifts were received from Motorola, Allstate, Sears, Ameritech, Illinois Bell, Household International and CF Industries. Corporate gifts from around the area were collected from the Allstate Foundation, the American Express Foundation, Illinois Bell, Northern Illinois Gas Company, Quaker Oats, Uarco, Jewel and Osco, among others.

BAUW also received strong support from Barrington area companies who ran employee campaigns or contributed corporate gifts, including Quaker Oats, Uarco, Seigle's, Jewel & Osco, Park Corporation and the Barrington School District No. 220. "I think the Barrington school district should be singled out and commended for the tremendous support they have shown to our community. Employees of the district raised \$12,500 this year. Their campaign has come a long way in two years and it shows how committed the entire district is in building a better community," stated Colilla.

The campaign also saw an increase in smaller, local companies contributing

through a direct mail appeal. Contributors included: Barrington Transportation Company; First Federal Savings; Idealease; Barnant Co.; Barrington Motor Lodge; and Adco Van and Storage.

One area of the campaign that has seen a decrease in pledges is the residential home drive, more than 370 givers contributed \$38,500, a 20% drop from the previous year.

"On behalf of all the agencies we fund and our Board, I would like to express my thanks to everyone who contributed to this year's campaign. We are very fortunate to live in such a great community where people care for one another and realize we have to help our neighbors in need, because you never know when you might need help from one of these agencies yourself. It is good to know they will be there for another year," concluded Colilla.

The money raised in 1993 will be distributed to 32 health and human service agencies serving Barrington Area residents. Volunteers from the Barrington Area will be reviewing these agencies and listening to budget requests in February and assisting the Board in determining final allocation amounts for 1994. Some of the agencies that will receive money include Barrington Youth Services, Barrington Area Council on Aging, Family Service of South Lake County, Salvation Army, the Boy and Girl Scouts and Hospice of North-eastern Illinois.

Know Your Diamond Before You Buy

Buying a diamond can be confusing with all the different grading systems out there. In fact it is probably one of the most blind items you will ever buy. When you buy a house, you can have an inspector report its condition. When you buy a car or some other product, you can check with consumer reports. But when it comes to buying a diamond, not many customers walk around with a gemologist in their back pocket.

So when buying a diamond, you need to know more than just the four C's: CARAT, COLOR, CLARITY, and CUT —you need to know what these words mean. I've always said that there is a fifth "C" and that is **CONFIDENCE!** If you don't have confidence in the jeweler, then the other four C's don't mean

a thing.

When you stop by **Mitchell's Jewelers** we take the time to show you under a microscope, what to look for in a quality diamond.

Save the Date for: "A Little Night Music"

Sue Tharp, president of the Friends of Clearbrook and Janet Grant, chairperson of this year's event, finalize details for the upcoming "A Little Night Music Dinner/Dance" on February 26.

Mark your calendars! It is getting close to that time of year again when the Friends of Clearbrook stage their fabulous Dinner/Dance.

The Dinner/Dance entitled, "A Little Night Music," is scheduled for Saturday, February 26 at the Westin O'Hare in Rosemont.

Once again guests will enjoy a gourmet dinner and dancing to the sounds of the Ron Bedel Orchestra. The event will also feature live and silent auctions and a grand prize.

Last year, the Friends decided to change

the format of their event from a brunch to a Dinner/Dance. According to Patti Jostes, co-chair for this year's event, the change proved to be so successful that the same Dinner/Dance format will be followed again this year.

"We received so much positive feedback from last year's event, that we have decided to keep the format the same - a Dinner/Dance with silent and live auctions and a grand prize," said Jostes.

Guests will have the opportunity to bid on such items as trips to Mission Hills Resort in California, Steamboat Springs, Colorado (all air transportation provided by American and United Airlines), fine jewelry, weekend get-a-ways and much more in the live and silent auctions.

Tickets to this outstanding event are \$50. The monies raised from the event will benefit over 650 children and adults with developmental disabilities which Clearbrook Center serves.

For tickets or more information, please call Clearbrook Center at (708) 870-7748.

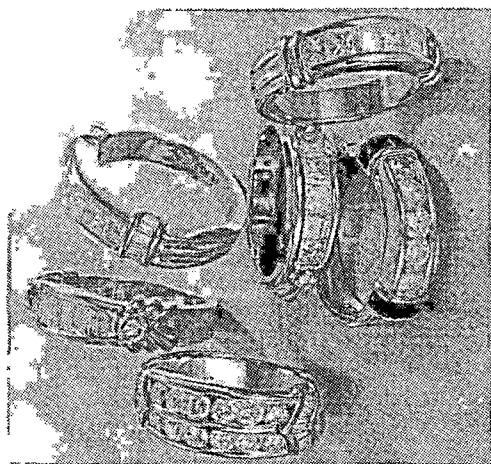

Clearbrook Center is a not-for-profit agency serving the needs of people with developmental disabilities including mental retardation, autism, cerebral palsy and other neurological disorders. Clearbrook operates 23 facilities throughout the north suburban Chicago area.

CARE's Dr. Johnston Emphasizes Need For Humanitarian Concerns

Dr. Philip Johnston, CARE President and C.E.O.; Chicago's own Norman Ross, host for the reception; Catherine and Romeo Mura from Lake Barrington.

On Thursday night, December 16, the Westin Hotel in Chicago sponsored the Chicago CARE holiday gathering featuring Dr. Philip Johnston, president and CEO of CARE. The reception was both a celebration of generosity and spirit on the part of the Chicago CARE community, and a reminder of the anguish and troubles of the people of the developing world.

Norman Ross, Thursday evening's host, welcomed over 60 guests, including long-time CARE supporters. Loren and Jane

Jahn of Palos Heights, Mrs. Bernard Lee of Lincolnwood, Dorothy and Richard Nopar of Wilmette, Noni and Phil Dodge of Winnetka, tireless volunteer Deborah Chiles of Lake Bluff, Catherine and Romeo Mura of Barrington, CARE Trustees Merrill Rose of Porter Novelli, and Sue Walker of Wildman, Harrod, Allen and Dixon. Additional members of the Chicago corporate community included Ward Farnsworth of First National Bank of Chicago, which assisted in underwriting

the event; James Baker of Amoco; Alicia Valentine-Goldfarb of LaSalle National Bank; Patricia Morgan of the Baxter Foundation; and Steve Gold and Michael Burns of KPMG Peat Marwick.

In his speech to the group, Dr. Johnston emphasized the need for humanitarian concerns to be on an equal plane with political action by the world community. The most obvious example of this need is in Haiti where Dr. Johnston mentioned his anguish over Haiti's ongoing fuel embargo because it hurts the country's poor the most. Following his address, Johnston fielded questions from the audience. In response to the question of how long CARE will remain committed to the over 600,000

Haitians that it is currently struggling to feed, despite the fuel embargo, Johnston replied with an emphatic, "however long it takes." In an interview with Voice of America, Johnston added, "CARE has been active in relief efforts [in Haiti] since the days of Francois "Papa Doc" Duvalier and intends to stay there as long as it is welcomed."

In parting, guests received a specialty coffee package donated by Starbucks Coffee Company, a CARE's leading corporate supporter.

For more information regarding CARE, you may contact Elizabeth Burns at (312) 641-1430.

"Your Downtown Jeweler in the Suburbs"

Whether you're looking for an engagement ring, wedding band or unusual necklace or bracelet, Long Grove's **Wabash & Madison Fine Jewelers** is the place to go. They are conveniently located across from the Village Tavern (on Old McHenry Road) in the historic district of Long Grove.

They have just tripled their store size and now offer quality jewelry repairs as well as hand engraving on premises **while you wait**. A large window overlooking the repair and manufacturing area also allows you to observe the work, while it is being done, on your family heirloom or precious jewelry.

When Jerry Sherman opened his Long Grove location, he was the first jeweler in the area to advertise "48 hour repairs on most items." Jerry has now taken that concept a step further by offering quality repairs, on premises, while you wait, for a small additional charge. In celebration of this new concept, the store is waiving the charge for this service on Sundays and Mondays during the months of February and March when you bring in the coupon featured in their accompanying ad.

Jerry feels that the success of **Wabash**

& **Madison** is due to the fact that they specialize in the unusual. He always tells his customers, "Why settle for a mass produced necklace or ring, when you can buy a unique piece of jewelry for around the same price." He says that his customers really get excited when we design their jewelry and then immediately carve the wax for their custom piece while they watch. Jerry also takes pride in showing them the casting equipment and explaining the process that will transform their wax into a gold, platinum or silver creation.

Jerry was weaned in the diamond and precious gemstone industry. He worked for his father, a wholesaler, prior to opening the Long Grove store. Regarding diamonds he says, "we carry all shapes, sizes, colors and clarities. We show you what you want to see. In fact, we encourage you to comparison shop for price and quality, but when you are ready to buy, call us. **Wabash and Madison** can usually beat anyone's price on comparable loose diamonds!"

Because of the stores popularity, Jerry suggests that appointments be made whenever possible to eliminate waiting.

A Modern Day Valentine Thought From Persin & Robbin Jewelers

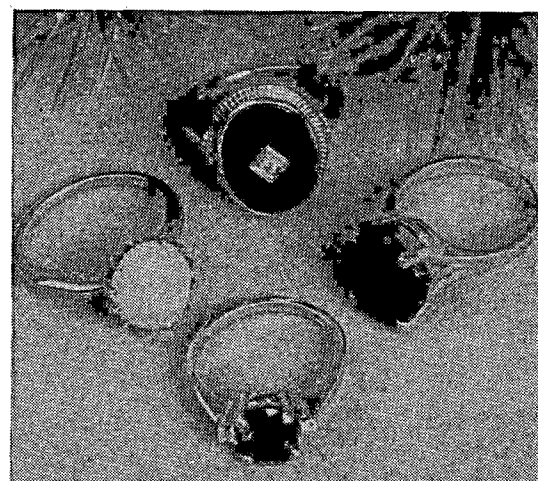

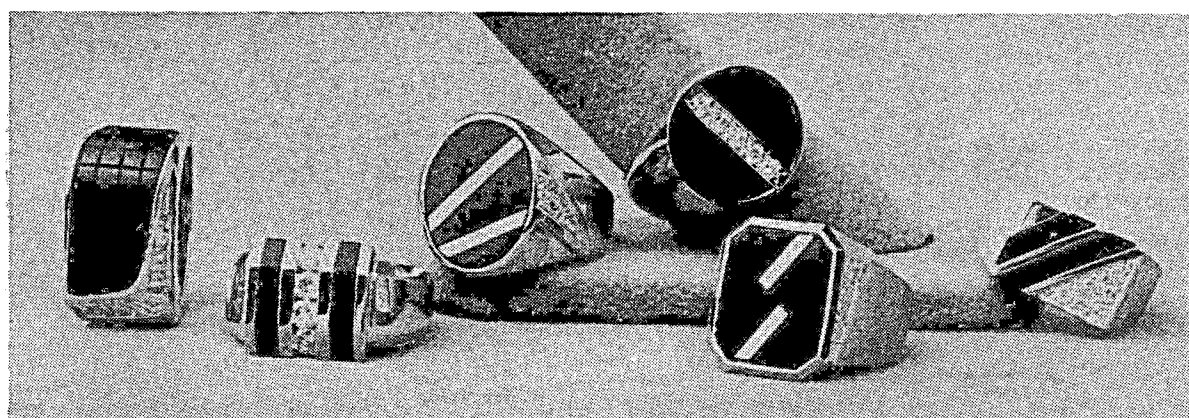

In the old days, pictures were abundant depicting a gentleman's valentine dream lounging on her chaise delicately nibbling from a box of chocolates he'd sent her.

Aah - how times have changed. Today's valentines are on a much different plane. Usually too busy for chaise-lounging; certainly too health-conscious for much chocolate imbibing and equally comfortable taking the initiative in the romancing department. Boy still asks girl to be his valentine but girl is just as likely to ask boy.

"Asking" doesn't necessarily mean immediate marriage plans however. Today's person is heavily involved with education-getting; career jump-starting and getting an individual set of feet firmly planted. Romance is still a driving force though, therefore committed companionship relationships are formed. What better way to express that relationship that means something a little more special than to exchange a "significant other" ring?

Stop in at **Persin & Robbin Jewelers** in downtown Arlington Heights to look at the marvelous display of rings . . . onyx and diamonds for the men, semi-precious gems for the women.

What a lovely, thoughtful Valentine gesture for today's couples.

Valentine Gift Ideas From The Barrington Historical Society

The Museum Gift Shop at the Barrington Area Historical Society certainly doesn't

look like the 1918 John C. Plagge General Merchandise Store featured in the picture;

but it has just as many selections from which to choose and they are all much more interesting than the toasted corn flakes on the shelves of the Plagge Store. As you drive by the BAHS at 212 West Main Street, be sure to notice the new sign in front of the Applebee House — each month, several new items which the Gift Shop Committee has recently acquired are featured as monthly specials. Instead of chocolates and flowers this Valentine's Day, browse through the Museum Gift Shop for a great gift that isn't fattening and doesn't wilt. The shop has a wonderful assortment of heart-shaped jewelry which was reproduced from vintage antique pieces. And the locket selections are sure to please the most romantic. Also featured this month is a new ceramic tile in muted colors with a scene of Barrington's Main Street, a green and white paperweight also with a scene of Barrington, and the notecards from the glass negative collection, one of which is the photograph of the

Plagge Store. For history buffs and collectors, the gift shop has presidential plates of Washington, Lincoln, Clinton and several other famous presidents. These plates, produced by Woodmere, are now available in a 4-set place setting. And to go along with the presidential plates, the gift shop has just received a "Lincoln Cookbook."

For the younger set, the Barrington Area Historical Society and the Barrington Area Library are, once again, jointly sponsoring a Valentine's Storytelling Party. The party will be held in the Museum Gift Shop at 212 West Main Street in Barrington, on Friday, February 11 from 11:00 a.m. to 11:30 a.m. Children ages 3 to 5 are invited to the party and are asked to bring an adult with them. Christy Silvester, one of the storytellers associated with the library, will be the featured performer. There is no charge for the party and it is not necessary to preregister. For more information, call the BAHS at 381-1730.

Artists And Their Gardens

The January 20th meeting of the Garden Club of Inverness was a special highlight of their monthly program. Claire Cross of Winnetka (one of the Garden Club members' favorite speakers) presented a program titled, "Artists and their Gardens." Ms. Cross has studied and travelled extensively in Europe and, combining this with her own strong interest in art, history, and gardening, she conveyed an enthusiastic and personal story of

various artists and their gardens to her audience.

The program was held at the Holy Family Church, 2515 West Palatine Road, Palatine. You may obtain further information regarding the Garden Club of Inverness by phoning the Membership Chairman at 991-4861.

Karen Vozas serves as President and June Zand as President-Elect and Program Chairman. Both are residents of Inverness.

Betsy Ward of Inverness, and a long-time member of the Garden Club of Inverness, will share her love and enjoyment of flowers and herbs with members and friends for the program scheduled for Thursday, February 17th, 9:30 a.m.

Meetings are held at Holy Family Church, 2515 West Palatine Road, Palatine, pending the completion of the Inverness Field House. Ms. Ward's program is entitled "For the Fragrance of the

Earth" and she will give instructions on making May Wine, as well as tips on herb vinegars and potpourri. Ms. Ward's expertise is valued by Garden Club members for her floral designs and imaginative table settings. All members and friends are welcomed to this especially delightful program.

Membership information may be obtained by phoning 991-4861.

Kaleidoscope '93 Gala Raised \$41,000 for Children's Home and Aid Society

The silent auction tables.

Kaleidoscope "93", the gala benefit for Children's Home and Aid Society of Illinois was a resounding success and raised approximately \$41,000 which will be used to help finance the state's largest organization which is geared to helping children and their families.

Organized by the Countryside Auxiliary and Chairman, Mrs. Joan Kistner of Rolling Meadows and Elaine Baty of Long Grove, the event took place on November 6, 1993, at the Wyndham Hotel in Itasca where 230 guests enjoyed a gourmet din-

ner, starting with Tartlet of Chantrelles (Wintergreens with Smoked Duck, Raspberry Vinigrette Dressing) and a choice of Filet Mignon with Madeira Sauce or Poached Grouper with Shrimp Sauce, and a delightful Trio of Chef Sarvin's Desserts and Wines. A fun filled evening of entertainment and dancing was provided by the sounds of New Odyssey.

The evening included both a live and silent auction. Some of the lucky winners of the live auction were Mr. and Mrs. Jeff Anderson of St. Charles, who won a 1994

Honda del Sol from the Motor Werks of Barrington; and Chris Newton of Wheaton, who won an autographed golf visor autographed by Bob Hope, Arnold Palmer, Fuzzy Zoeller, Peter Jacobsen, John Cook and Tom Kite. Winning the Barbados trip was Mr. Robert Schwermer of Arlington Heights, and a Gourmet Dinner for 8 was won by Mr. Stephen Mack of Palatine. The winner of the Cub Sky Box for 8, donated by Hinschaw and Culbertson, was William Hetze of Barrington Hills. A beautiful 14 Kt. gold diamond pendant jacket with interchangeable inserts and omega style 14 Kt. gold necklace donated by Erica's Jewelry of Park Ridge was won by Mr. and Mrs. J. Yerbic of Kildeer.

Yet, those were not the only important gifts at this affair. Guests brought toys and

stuffed animals for CHASI to distribute during the holidays.

Countryside Auxiliary would like to give a special thank you to all who participated in making this such a successful evening and in particular to Mrs. Dorice Beonder's Homeroom class of the NSSEO Miner Learning Disability Center High School Program, and to Mr. Michael Meyer's, Director of the High School, which is located in Mt. Prospect. The students sewed the Christmas stockings that were filled and distributed at Christmas by CHASI. This was truly a gift of children helping children.

"NOT".

In the celebration of the New Year we would like to introduce our "New Talent," Diane Willis.

Diane has worked at **Lasting Impression** for the past 3 years in different levels. She came to us on the work program in September of 1990, acting as a shampoo assistant and, in time, continued to add to her assorted duties. In 1992, Diane decided we were enjoying our careers in the hair industry so much she would go on to Beauty School for her certification required by the State.

While in Beauty School, Diane worked very hard between full-time school, working part-time in the salon and training with the staff to accomplish her goal. Her enthusiasm and motivation in her new career is obvious by the attitude she reflects throughout the salon and the atmosphere created by her presence.

Our team believes training within our environment is a must. We have so many talented staff members with so much to

Work With Experts When Planning A New Space For Your Home . . .

Why do so many homeowners find the process of remodeling or adding on to their homes so intimidating? "Too much information from conflicting sources," says Mark Zurek, president of Barrington's **Delta's Renovations**. "The whole process is by nature an emotional one because it involves entrusting others with not only money, but with the comfort and security of home and family."

Delta Renovations has built its business by analyzing the needs of its clients and finding the best way to meet those needs. Every project presents a unique situation and requires services tailored specifically to that situation.

For clients considering major renovations or an addition, they often recommend the "Design-Build" process. Projects of this type call for the involvement of an architect. This is not only because local building departments will require that submitted drawings include an architect's seal, but also because the architect has been trained to combine technology and aesthetics. We have all seen homes that have had their character totally destroyed by a less than sensitive addition. "A good architect is able to add the extra space so that the addition itself is undetectable, and the home is even more attractive," says

Zurek. "The down side of using an architect in the remodeling process is usually budget." Many times, the homeowner will hire an architect and fall in love with his plan only to find the bids coming in astronomically higher than their target budget. Because the architect isn't intimately involved in the bidding process, he is often unable to accurately predict the cost of building what he has drawn.

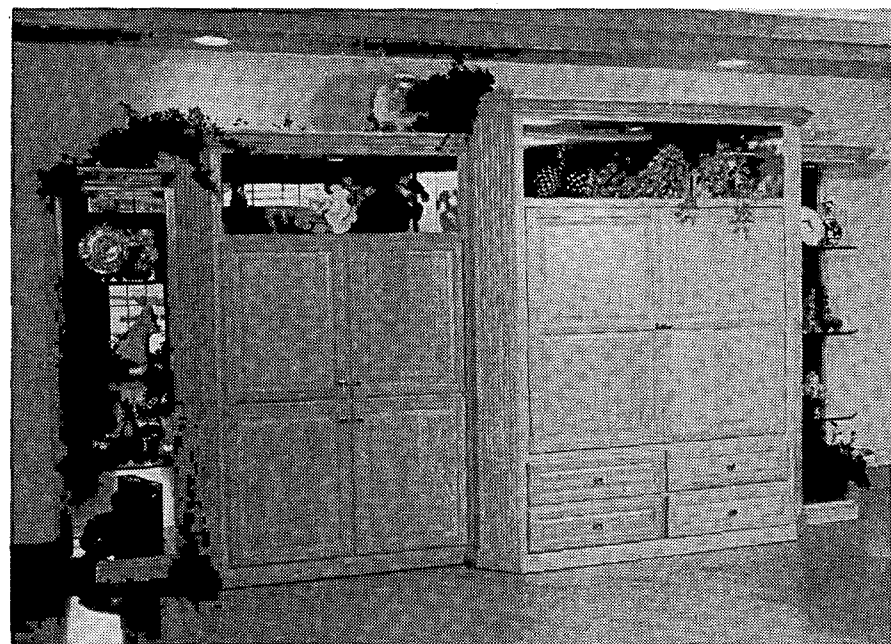

Delta Renovations has structured their design-build process to provide the client access to several fine local architects while using **Delta's** years of experience in actually bringing projects in on budget. "We have spent years developing our relationship with suppliers and sub-contractors who we know provide, at a fair price, the best products and the top-notch service I demand," continues Zurek.

If you would like to see how **Delta's** "Design-Build" process will fit into your plans, please call Mark Zurek at **776-0121**. There is no obligation for a consultation.

Delta Renovations can also help homeowners with less extensive remodeling plans, like redoing existing kitchens and baths, using the in-staff designers with **Delta's** sister company, Barrington Kitchen and Bath Studio.

Local Architects Specialize In Remodeling

Are you confused on how you get more space from your present home? Are you wondering how much this will cost?

"When a client calls us to look at remodeling their home, they generally have two questions. How can we get more space and how much will it cost?" says John C. Cazzetta, President of **Kemper Parker Cazzetta**, an architectural firm in Barrington that specializes in residential design. "We feel we can uniquely answer those questions because of our combined experience in design and construction."

Mr. Cazzetta also owns "bonnerCodd Associates", a construction management firm. "Not many architectural firms are clued into the cost drivers of remodeling. Therefore, we are able to estimate the cost of the project before we begin designing." The firm also prides itself in "context architecture". "We strive to complement the existing structure as we incorporate the

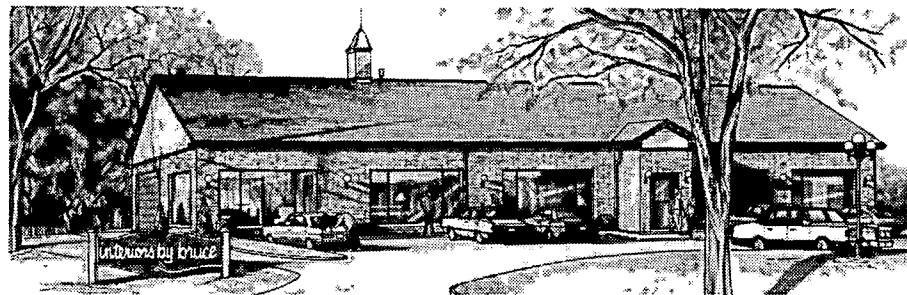

new space. The finished project should feel as if the new work was part of the original design."

If you are thinking of revising your home, please call **Kemper Parker Cazzetta** for a free consultation at (708) 382-8322. Mr. Cazzetta would be glad to talk to you about developing the full potential of your home.

How To Survive a Kitchen Remodeling Project

With snow on the ground and freezing temperatures in the air, many people are looking ahead to spring and to home remodeling projects. While remodeling can be exciting, people often procrastinate remodeling a kitchen because of the mess and inconvenience.

Star Norini, CKD, owner of **Distinctive Kitchen Designs** in Wauconda says, "We try to make the remodeling as painless as possible. As soon as we have finalized the design and cabinets have been ordered for our clients, we begin to work out a realistic plan and schedule for remodeling. We can usually keep the

"mess" confined to the area being remodeled, but what our clients find most inconvenient is being without the use of their kitchens.

Certainly going out to eat is an option. This option can be expensive and even the worst "Junk-food Junkie" will tire of eating fast food for three or four weeks. Instead, we will often suggest an area for a "temporary kitchen". We will move a refrigerator, microwave, and/or electric cooking appliance to an adjacent room. This enables the clients to prepare meals while the new kitchen is being installed. We also suggest that the client prepare meals weeks in advance and freeze individual servings in plastic bags that can be reheated in the microwave and served on disposable plates and cups. Clean up (which can be challenging without a sink) is, therefore kept to a minimum.

Your friends and family can be a great help during the remodeling. Most clients find that once they announce plans for a kitchen project, dinner invitations follow quickly.

Lastly, Norini adds, I try to describe the remodeling process as realistically as possible. I let them know that it will probably be a difficult time for a few weeks. In that way, they have time to plan, prepare and look forward to their new kitchen.

seats, but in the flush 1980's, carriers routinely staffed them at higher levels. Now they're cutting back, usually by just one person, but it means slower service and more complaints. The cutbacks do have a silver lining: along with other cuts and a slowly improving traffic outlook they result in profits. Delta and American were both in the black during the latest quarter—a rare occurrence.

Airports: No More Butts

More and more airports are banning smoking—even in bars and restaurants. A new law in Vermont will ban smoking in all the state's airports, Green Bay, Wisconsin, bans smoking entirely; San Francisco limits smoking to enclosed "smoking rooms;" and Orlando has eliminated smoking in the main terminal, except in certain restaurant areas.

Canadiana Village

Less than an hour from Montreal, in the rural village of Rawdon, Province of Quebec, you'll find a unique little settlement called Earle Moore's Canadiana

Village. It's a collection of 19th century homes, store, and institutional buildings collected and moved, often great distances, by Moore and his wife, Nora. It's not a "living history" museum in the strict sense since there are not "interpreters" dressed in period garb. But each building is lovingly restored and furnished, and is a lesson in 19th century history. The old schoolhouse is a favorite, with its pot-bellied stove and fixed wooden desks with inkwells—it may remind you of your own childhood. A sign spelling out the duties of the school mistress, who lived upstairs, includes rules governing her conduct with members of the opposite sex. All this charm has not gone unnoticed by the North American film industry. Camera crews from Disney and Hollywood studios are there almost weekly, which means that access can be limited at various times; it's best to call ahead. Otherwise, Canadiana Village is open from mid-May until early October. Call (514) 834-4135 for details.

How to Love Life

Do you love the house you live in? Do you wake up in a room that's spacious and full of beautiful morning light? Do you have space for each person to pursue his interests in peace and comfort? Space for family and friends to come together for summer parties poolside, and for winter holiday celebrations in a magnificent dining room? When you turn into your drive and glance at your home, do you feel an irrepressible glow of pride?

This is a home that can make every day happier. It has a wonderful floor plan, formal living and dining rooms, and a handsome study (with full bath) off the 2-story marble foyer.

The family room has a beamed ceiling 2 stories high, a soaring stone fireplace,

wet bar and patio doors opening to a large fenced deck. The room is also open to a stunning kitchen with an eating area that can welcome a crowd, and a sunroom that opens to a paver deck with a swimming pool and hot tub.

Upstairs are 4 generous bedrooms (including a huge master suite), a cozy loft area, and a big playroom with a back staircase leading to the 1st floor service hall.

Tips from the Top of The Rock™

Margaret R. Semrad

The Prudential
Preferred Properties

Win, Win Strategy: "The Price Is Right"

Not very surprisingly, one of the most effective ways of selling a home is by pricing it right. Correct pricing attracts customers and stimulates those customers to buy right then and there. Strategic pricing works for any home and especially in slow times when there are numerous homes (in a selected price range) on the market.

It's a fact in real estate that price weakens with time. The more time on the market, the higher the likelihood of a shrinking selling price. In a hot real estate market, a home, priced right, can often sell in the first week and often at full price. We at **The Prudential Preferred Properties** have a chart showing the curve of \$'s versus time on the market. The lesson is quite apparent. You will receive more \$'s if it sells in the first few weeks on the market, than you will receive after several months' time.

With time passing, buyers and Realtors often forget the "overpriced listing" or they ask questions of the Listing Broker about the quality of the home, or "What's wrong with it?" The next question is

usually "Is it the seller's price"?

What is an overpriced listing? It's not fair market value. Rather it's a listing price that is clearly above any of the comparable sale prices for similar homes in the same general area for the last six months. Both knowledgeable buyers and Realtors question the seriousness of the seller's motivation for selling when they are shown the overpriced listing.

With this new year, I want to build a fire under our real estate market in the Barrington area. It's time our homes sold in a reasonable length of time instead of the average of 150+ days that we have seen over the last several years. After a home has been on the market a certain length of time, Realtors lose interest and that attitude is transmitted to buyers.

If a home does not sell in as reasonable a time as other properties in the same price range, the Realtor and seller need to ask themselves a vital question: does the marketing strategy need to be looked at and the pricing revised?

(Please Continue on Page 38)

The delicate business of pricing a home.

Ask anyone. The most ticklish part of marketing a home is pricing it appropriately; taking into consideration its location, condition, amenities, age, size, land and landscaping. Not to mention its competition. And current market trends as well as selling prices of similar homes in the recent past. All the while, putting aside pride of ownership and personal bias.

It's hardly a frivolous decision. Which explains why buyers who insist on low offers often run into the proverbial brick wall.

For an experienced guide through the wilderness of pricing and marketing, call us in Barrington at The Prudential Preferred Properties.

We're the real estate professionals with the business expertise.

The Woods of Ivanhoe Club—A Unique Custom Home Community

Just beyond the gated entrance to the Ivanhoe Country Club lies one of the most unique custom home communities in Lake County, **The Woods of Ivanhoe Club**. Each of the anticipated ninety homes is being designed around the rolling, densely wooded topography that was once the historic Tollman Estate. Retained from the original 225 acre estate are the early turn of the century hunting cabins and windmills, as well as ponds, lakes and every variety of tree known to thrive in Illinois.

Home prices at **The Woods of Ivanhoe Club** start at \$399,000. Many lots lend themselves to walkout basements, as well as to covered verandahs and bi-level decks. Other home features include gourmet kitchens, 10 ft. ceilings, three car garages and luxury master suites.

Choice lots entwine with the neighboring Ivanhoe Country Club's 27 hole

course. Ivanhoe recently ranked among the top ten courses in Illinois. Amenities include a clubhouse boasting an Olympic size pool, 2 dining rooms, a grill, tennis courts and a ballroom.

David Mayes, general manager for **The Woods of Ivanhoe Club**, brings with him over 20 years of building experience. As a golf course community specialist who spent much of his career in Florida, he brings many of his Florida inspired designs with him to Illinois as well. Meridan Designs, based out of Clearwater drafted many of the community's floor plans.

The Woods of Ivanhoe Club is located west of Route 83 on Route 176 in Ivanhoe. The furnished model and spec homes are open daily 10 a.m. to 5 p.m. For more information contact MaeLynn Skaathun at (708) 949-6800.

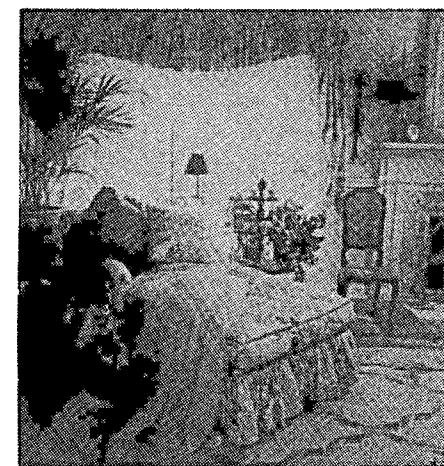

Your Total Home Decorating Resource

Decorating Connections, Inc., offers classic design, uncompromising quality and commitment to service visible today in the newly expanded store located at the Market Place Shopping Center in Lake Barrington.

Whether you are thinking of renovating or updating your favorite room or your entire home, **Decorating Connections** has the solutions. We'd like to invite you to make us your total home decorating resource. You'll find everything you need for your home including furniture to fit your budget, upholstery, wallpaper, innovative window treatments, blinds, shutters and draperies, special area rugs, carpeting and flooring, quality custom cabinetry for your kitchen, bath, media rooms and dens. Additionally, the store showcases unusual lighting, artwork, bedding, decorative accents and more.

Because your home is so important to you . . . a retreat from the world, a family center . . . and because you want it beautiful, comfortable and functional, reflecting your personal lifestyle, our design staff is qualified and dedicated to helping you achieve the look and the comfort for that very important part of the world you call home.

Our primary goal is to help you achieve a beautiful, functional room that "feels like home", from floor plans to color schemes. This is probably one of the most exciting times, the approach of the 21st century. Many influences are playing an important role on colors and decorating for the 90's. Did you know the color purple is the new

neutral color of the 90's? Colors are becoming brighter and darker than colors we have lived with and loved during the past 10 years.

We can help you feel more confident about expressing your personality with the colors you select for your home. We are forced to make color choices every day beginning with the clothing we select in the morning, but few are as long-lived or have as much impact on our psyches as the color selections we make for our homes. After the design process is completed, colors and fabrics have been chosen, we will coordinate with building trades to insure that the project is beautifully and professionally completed.

Your response to our recent additions has been overwhelming, and we'd like to thank you for allowing us to grow and expand to better meet your design needs.

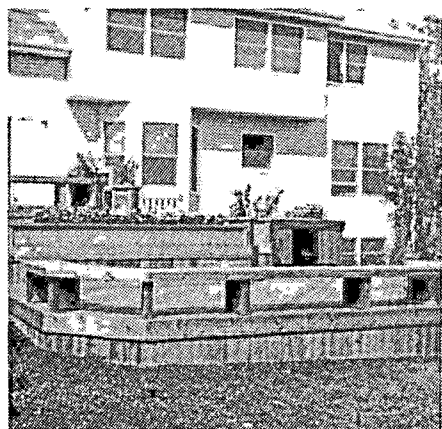

Welcome Wagon's "Heart'y Luncheon

The Barrington Welcome Wagon Luncheon will be Tuesday, February 8th at 12 o'clock noon. Come out of the cold and feel the warmth of friendship and good food by joining us for "Lunch at Judy's." We will learn how to improve our home before and after a move. The speaker, Nancy C. Erickson, teaches classes at the College of Lake County entitled "Selling Your House For The Most Money." When capital home improvements are nec-

essary, we will learn where our dollars are best spent.

Each member will be asked to bring something to share for 6 people. The menu will consist of "Heart'y Soup, "Heart'y" Finger Sandwiches, "Love'y" Homemade Desserts, Coffee and Tea. Also, there will be a cost of \$4.75. Please call Sharon at 836-6210 for reservations or child care.

Now Is The Time To Plan For That Deck

"It's not just a deck," says Larry Kirchner, chief designer and president of **Deck-A-Roo Decks**. "A deck is a pleasant addition to any home and a necessity."

Decks are great investments. If properly built, a deck will give the owner years and years of wonderful use as well as add more to the value of the home than the initial cost. However, an improperly built deck will soon become an eyesore as well as a financial burden on the owner.

At **Deck-A-Roo Decks** every aspect of the deck design is considered; what style will best fit the house, what are the size and design needs of the client, what materials best suit the location and design of the deck, how the design affects price both now and over the lifetime of the deck, and how maintenance will be affected by the design.

In addition to a proper design, the actual construction of the deck and the follow-through of the builder are very important. Questions you should ask: Who actually will perform the work? What quality of material will be used? What construction practices will be used? And, who will service the deck if needed? Larry's favorite phrase, "you get what you pay for, if you're lucky!"

Deck-A-Roo Decks is a full service builder, working with the home owner from the beginning of the design to the final completion of the deck. No sub-contractors are used. All employees have been trained to a high level of quality and given the amount of time needed to complete the job properly. Only high quality materials are used by **Deck-A-Roo** as well as new environmentally friendly products. Every deck is serviced promptly as well as courteously. We also offer deck cleaning and deck sealing to all our customers as well as those who have decks already.

A special note from Larry: "Now is the time to plan for having your deck built if you would like it for spring. It's important to give yourself as much lead time as possible if you are planning a party or event that the deck will be used for. Spring is approaching and we have a tendency to fill our April and May schedules early. So please call now."

Prudential (Continued from Page 35)

As I have often mentioned in this column, an optimum real estate relationship requires give and take; it's akin to a marriage based on trust, honesty and respect. When a seller hires a Realtor, both people must be confident that the contractual experience will be successful. There should be high expectations . . . a sale on or near asking price and a successful closing.

What happens to the relationship when the seller requires the Realtor to put the home on the market at an inflated price? IT BECOMES A PROBLEM! It's a painful experience for both seller and Realtor. The unrealistic seller is angry because the Realtor gets demotivated. The market loses interest. The push is gone.

Today's sellers must be educated about how pricing "right" is in their best interest. A home needs the competitive advantage of looking good, being in a great location and being priced right. The Realtor's focus is to sell the home. The

Realtor's role is to bring a buyer and seller together . . . that won't happen if the active buyers think the home is "too much money."

Let's repeat the phrase that "80% of the sale is pricing the home right." It's significant that the marketplace gets excited when the seller prices the home realistically. There are increased showings to buyers; the Realtor's efforts strengthen and the seller begins contributing more to insure a sale. Everyone is committed. The Market is awakened and excited.

I love success stories and want every seller to have "the best of the best" real estate experience. Why not call one of our **Prudential Preferred Properties** Realtors when you make a decision to sell your home. Our Prudential Realtors understand a seller's urgency and have the skills and methods to produce results. Choosing the right Realtor makes all the difference. That's a WIN/WIN strategy.

Jordan Temple (Continued from Page 7)

"I found four or five books on the topic, read them all, and really felt better about myself and the transition into middle age. Otherwise I might have run away from home," she laughs.

In the last 10 years many psychological traits have been researched and labeled. We all grew up ignoring or hiding the psychological dynamics of our personalities and our families. Now depression, anxiety and dysfunctional behaviors are better understood and easier to change. With the new discoveries in areas of brain chemistry and psychoactive drugs, seriously impaired people have a chance to lead more productive and happier lives.

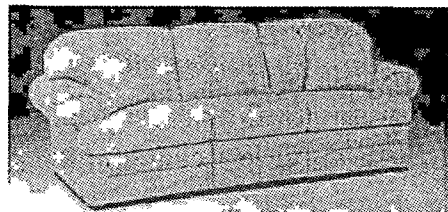

"If you don't know what I'm talking about," states Elizabeth Jordan Temple, "you haven't browsed through our Recovery and Psychology sections. Never have so many qualified authors written about emotions. These books are written clearly so everyone can relate to their messages. Reading a few books about a

problem can point you in the right direction and help you understand and solve personal problems." People tend to be so impulsive about psychological issues. Last month a woman showed me a book. She said she never would have gotten a divorce if she had read it first. That's a very weighty confession," mused Elizabeth.

If you're psychologist, clergy, social worker or psychiatrist suggests a book, have him write the name of the book on the back of his business card. Bring the card to **Jordan Temple Book Center** and receive 10% off. Many professionals refer clients to **Jordan Temple** because of their unusually large and insightful selection of psychological books. Professionals are welcome to open charge accounts and order books for seminars and workshops.

So, whether love, personal conflicts or the kids are driving you crazy, check out the wealth of information at **Jordan Temple Book Center**.

From A Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

Our general sales manager, John Grubbs and I were having a conversation the other day about how to entice more women into the automobile sales area. I'm often asked why there are not more women selling cars. Well the answer is that they don't even apply for the jobs when we advertise.

We've tried to think of ways to word our advertisements to get women's attention, but haven't had very satisfactory results.

I think there is an intimidation factor because women have traditionally felt that they don't know enough about automobiles or trucks to feel comfortable selling them. Well, I have news for you. The average man doesn't know very much about them either.

Product knowledge can be taught in almost any area, the most important attribute needed is the ability to be people-oriented. The hardest part of the job is snow removal, when we have to move

around and clean up over 400 vehicles to be able to plow the aisles. It is usually an all day project that the entire sales force and management are engaged in.

It is really a very interesting and challenging job. If any of you are interested, give John Grubbs a call.
