Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only* method which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

Clear Reflections has provided 19 years of service at the same location.

Mystery Summer At The Museum Of Science And Industry

by Lura McMonigal

Help solve the crime in the "whodunit" exhibit running now through September 4th at the Museum of Science and Industry.

The Museum of Science and Industry provides family fun this Summer with two new exhibits, as well as, special presentations in the Omnimax Theater. Special Summer activities are also scheduled on weekends throughout the Summer. The Summer theme for 1995 is "Mystery Summer"!

Detectives of all ages are invited to explore the Mystery Maze, a clue-filled, walk-through maze, and attempt to solve the murder in the "Whodunit" exhibit. The Mystery Maze allows sleuths of all ages to use clues to navigate their way through an intricate key-shaped maze. The "Whodunit" exhibition puts visitors at the crime scene urging the amateur sleuths to use deduction and logical reasoning skills to determine the murderer. These exhibits began May 26 and will run through September 4.

If those exhibits do not curb one's need for mystery the Omnimax Theater has two

intriguing movie experiences available this Summer. The Omnimax Theater brings the images to life with a five-story screen, 72 speakers, and 20,000 watts of sound.

During the evening movie-goers can explore the 1912 nautical mishap entitled "Titanica". The Titanic was a technological marvel when it set sail on April 10, 1912, which is why its sinking is one of today's greatest mysteries. This movie is shown on special Thursday, Friday and Saturday night screenings at both 6:30 and 8:30 pm, and Sunday nights at 6:30 pm. "Titanica" will be playing through October 1. Reservations are strongly recommended for the evening presentations.

Daytime visitors can observe the mysteries behind the Earth's fragile ecosystem in "The Living Sea", which can be seen every 50 minutes from 10 am to 4:40 pm. This movie adventure is narrated by Academy

After questioning the cook at the diner investigate the body in the alley outside to help determine the murderer.

Award-winning actress, Meryl Streep, and features a soundtrack with music by Grammy Award-winning, Sting, making "The Living Sea" the first Omnimax movie to have music contributed by a Grammy-winning pop star. "The Living Sea" will run through October 5.

To supplement these programs special features will be offered throughout the museum every weekend, which began May 26 and will last through September 4. Many interesting mysteries are awaiting you at the Museum of Science and Industry! Please see the Schedule of Events for specific weekend programs.

General admission ticket prices begin at \$6 for adults, \$2.50 for children ages 5-12, \$5 for seniors (65 or over) and FREE for children under 5. For a combination general admission and Omnimax—"The Living Sea" ticket prices are \$10 for adults,

\$5.50 for children ages 5-12 and \$8 for seniors. For combination general admission and Omnimax—"Titanica" ticket prices are \$14 for adults, \$7.50 for children ages 5-12 and \$12 for seniors. Parking is FREE. General admission is FREE on Thursdays. For further information contact the museum at 1-800-GO TO MSI (1-800- 468-6674).

"Where Makeup is an Art . . . and Skin Care is a Science"

Get In Shape For Summer

It has been a long Winter and a cold Spring, but now it is over. We must think about the damage that has occurred to our faces and our bodies. Let's take our face first, then we will work down.

What we are seeing in our treatment room now is a lot of dehydration from the furnace heat, cold wind, and the extreme damage caused from tanning beds. There has been a lot of sickness this Winter and Spring, so medication plays a big part in skin damage.

The best way to repair the damage to the skin is to start with our Facial, which I will touch on briefly: first, a complete analysis of the skin, then a gentle peeling of the epidermis layer; mist is applied, removal of comedones, vacuuming, a gentle brushing, a relaxing massage of the shoulders, neck, and face, then the selection of one of our Spa masks. While all of this is taking place, special treatment to hands is given and our wonderful booties for the feet.

One of our many treatments we are using a lot this summer is our Collagen Fiber Mask. This is used to put moisture back into the epidermis layer.

We do a lot of hair removal by waxing, Brows, legs, underarms, face, and bikini area. It is great not to have to shave, because waxing lasts for 4 weeks.

Next, on to the manicure and pedicure.

It is a must to get the feet pretty for those great sandals. The hands require constant care now that gardening time is here.

Tammy, our massage therapist, works on cellulite during her massage. Also, to moisturize the body (our body is so dry now), we must use our murad, body scrub and body lotion.

All of the estheticians with Syd Simons are trained to meet each need of the client, to answer questions, and to help you with any skin problems that you could have.

I would like to touch briefly on Summer make-up! This year kicked off visibly made-up faces, but makeup takes on a lighter look for Summer. Warmer weather will reflect a healthy, moist, slightly "dewy" summery "glow" to let the skin show through, but devoid of yesterday's pale, nude, no-makeup look. This year, makeup adds mood to the nudes with soft strokes of color and delicate hints of shimmer. The colors complement sheer fabrics, satins, high gloss vinyls, metallics and soft lingerie looks.

I hope to see all of you in the studio soon. Call us for an appointment for one of our special and very necessary treatments.

Have a very happy and healthy Summer.

Sincerely,
Cathy Ramstadt

Summertime: A Time To Show Off Our Nails

Summertime: Sandals, beaches, swimming, golf, tennis, barbecue parties, weddings, vacations, they all show off our nails! What better way to enjoy the freedom of Summer than with a professional manicure and pedicure with our nail tech Julie. Julie will set the mood with a luxurious whirlpool footbath for your feet while in the tranquil privacy of our nail room. Your toenails will be clipped and filed to the desired shape. Next your feet will be massaged, and your skin smoothed from rough edges, to a healthy glow. Relax while the color of your choice is applied. Now that your feet are gorgeous let Julie give you a great manicure. Julie will soak your nails in a moisturizing solution, she will then prepare the nails, with important attention to cuticles and to the shape of your nails. The benefits of a great manicure are healthy nails that will successfully grow longer with a weekly

manicure and the enjoyment of a hand massage in a relaxed atmosphere.

Julie has introduced a great new service for her clients. Hand facials. A facial for the hands and nails is an experience much like a facial for the face. It has the benefits of deep cleaning, exfoliating the skin, massage, and moisturizing. You need to take care of your hands like you would your face. Your hands are exposed to elements of weather, aging, dryness, and chemicals. Your hands and feet are an important part of today's appearance to good grooming and healthy skin. For the month of July we are offering a free manicure when you book a pedicure. What's the catch? You must have both services done at the same appointment.

Tranquility is located at 123 West Main St. Please phone 382-6001 for an appointment.

Types Of Dental Fillings And Materials

by Dr. Raymond Kotz

Did you ever wonder why dentists use different kinds and colors of filling materials to restore teeth?

There are four basic categories of dental materials used in fillings. There are tooth colored plastic composites, tooth colored ceramic materials, gold alloys and silver amalgam, (a mixture of silver and mercury).

Silver amalgam is the most commonly used dental material. It is relatively less expensive and faster to place. Amalgam is used in smaller cavities where there is enough tooth structure remaining to support both the filling and the patient's bite.

For fillings on the sides of the teeth where biting pressure is negligible, tooth colored plastic composites may be used.

Larger cavities require a stronger material to both restore tooth contours and support the bite. For these gold inlays are the dentist's material of choice. Their longevity is excellent, in some cases over twenty five years!

Newer tooth colored ceramic or glass re-

storative materials are being developed for those cases where the aesthetics of gold is unacceptable.

These are "high tech", very aesthetic materials which show much promise although they have not yet withstood the test of time.

For a careful evaluation of your dental needs contact **Dr. Raymond Kotz, (708) 381-4040** in Barrington.

The Land "Down Under"

by Eleanor Nelson & Sally Hayward

Have you always wanted to visit Australia, and didn't know how to put the trip together or thought it would be too expensive? Well... **Travel House Group Department** is planning a Grand Tour to Australia next fall (the fall of 1996) and we would like to tell you all about it.

We will begin our tour with a visit to Sydney and see the historic Rock area, Macquarie Street including Mrs. Macquarie's Chair, and Bondi Beach. We will take the "Bounty", a replica of Captain Bligh's infamous sailing ship, for a cruise around Sydney Harbor, and of course we will visit the famous Sydney Opera House.

We will visit Cairns and Ayers Rock, Alice Springs where we will stop for an optional Camel Ride and experience a "Bush Style" BBQ under the stars. We will get to see the Aboriginal way of life and the city of Adelaide, tour the Barossa Valley wine region, then take off for a few days in Melbourne.

There will be an optional 5 day add-on to New Zealand which is a must for those of us who have enough time to extend their time abroad. Robyn Gulstrom, **Travel Houses'** authentic "Aussie" specialist, will be escorting this tour. Robyn is a native

Australian, and what better way to see Australia than with someone who comes from "Down Under".

Let us know if you are interested in receiving more information about our upcoming trip and we will put you on our Aussie mailing list to send you periodical updates. Call and ask for Eleanor or Robyn (708) 381-0600 and we will be most happy to go into more detail.

Clearbrook Guardians Host 8th Annual Charity Golf Outing

(L to R) Flip Richardson; Terry Johnson, president of the Clearbrook Guardians; former Chicago Bear, Tom Waddle; Nick Orlando and Randy Johnson played in the recently held Clearbrook Guardians' 8th Annual Charity Golf Outing. Tom Waddle challenged golfers on a par three hole, closest to the pin.

The Clearbrook Guardians, a volunteer fundraising group for Clearbrook Center, presented their 8th Annual Charity Golf Outing on Tuesday, June 13 at Poplar Creek Country Club in Hoffman Estates.

Afternoon golfers challenged former Chicago Bear, Tom Waddle on a par three hole, closest to the pin.

One of the largest golf outings in the northwest suburbs, the event featured two shotgun starts at 7 a.m. and 1 p.m., a trip to Arlington Trackside for morning golfers,

an unlimited driving range, continental breakfast and lunch, cocktail hour and dinner, live and silent auctions, prostyle golf shirt for each player and much more.

"We had our biggest and best golf outing yet with 288 golfers," said Don Maday, chairperson of this year's golf outing and member of the Guardians. "This is literally the largest golf outing of this type in the northwest suburbs; we have maxed out the golf course."

Chunnel Vision

Another method of transportation (other than flying or taking the ferry) from London to Paris, is the Eurostar train. The Eurostar train which runs beneath the English Channel is now in full operation. The non-stop trip costs as little as \$75 one-way (about as much as a cab from Central London to Heathrow) or \$134 roundtrip, and takes just three hours, city center to city center. What's the trip like? At first the train travels relatively slowly—slow enough to read the signs on the opposite platform when you pass stations. But then Eurostar picks up speed—just under 100 miles an hour. Outside, the neon-green pastures of Kent pass by. The track is smooth and the train runs whisper-quiet. Suddenly the train manager announces that in five minutes we'll be entering the tunnel and Eurostar is cruising under the ocean at 100 miles per hour. Twenty minutes later: voila, France! Once on the other side, the train really picks up speed, hurtling through the fields of the Pas de Calais region at 190 miles an hour. At this speed, it's like someone left the VCR on fast-forward. You can't really focus on the scenery. In precisely three hours, you've arrived in Paris. Remembering that it takes 45 minutes to an hour to taxi or train to and from the two airports, plus an hour for the flight, plus an hour (supposedly) for check in, you can see that, even without delays for air traffic or weather, the Eurostar is faster. Plus, it's more productive if you're traveling for work—a solid chunk of three hours in which you can use your laptop or meet with colleagues. Your Eurailpass (from Rail Europe) is good on Eurostar trains with the payment of a supplemental charge; ask Carlson Wagonlit Travel agent for details.

Exercising on the Road

More hotels are discovering that guests

prefer to work out in their room rather than a central facility. And, it seems they are responding with in-room NordicTrack cross-country machines. USA Today reported that several hotels around the U.S. are offering this exercise alternative at little or no charge to their guests. It also said that NordicTrack sales for in-room hotel use, which started late last year, is growing twice as fast as sales to hotel fitness centers. A NordicTrack survey found that 60 percent of the three million owners of its equipment would be likely to select a hotel that offered one.

Less Friendly Skies?

Some U.S. airlines are flying with fewer flight attendants per plane, thanks to a combination of increased passenger loads and recent staff cutbacks. Plan to be extra patient at meal and drink service times.

Cellular Phones Abroad

Now you can rent a cellular phone that will keep you in touch in Europe, Australia, Hong Kong, South Africa, or the United Arab Emirates. People call the cell phone's number from North America and it rings wherever you are. The basic rental rate in most areas is \$9.50 a day, \$56 a week. You can pick the phone up in London or have it shipped to your U.S. address for an additional charge. Call 800-280-2811 for full details.

Stay in the Suburbs and Save

Staying in the suburbs can prove to be a significant cost-saver for corporate travelers. An article in Travel Agent magazine reported cost savings potential of more than 50 percent in some cities, like New York and our Chicago. A stay in the Connecticut suburbs can run about \$148 vs. \$338 in Manhattan. Other highly-traveled-to-cities noted were: Boston \$128 in the suburbs vs. \$216 downtown; Detroit, \$118 vs. \$164; Philadelphia, \$117 rather than \$190, and Washington DC, \$156 vs. \$260.

St. Anne's Ministries Of H.O.P.E. Saddle Up for 7th Annual "Day At The Races"

Noon on Sunday, August 6, will be a great time to saddle up for the excitement of thoroughbred racing while lunching in the Governor's Suite on the third level of the magnificent Arlington International Racecourse. This elegant room has private access to canopied or sunny outdoor balconies (with seating) overlooking the home-stretch. Inspired by the innovative centerpieces created with pure chocolate, commemorative horse mugs and colorful candy-colored balloons, "How Sweet It Is" is the theme for the 7th annual "Day at the Races" to benefit St. Anne's Ministries of Hope.

Cocktails will be followed by a beautifully presented gourmet buffet. Benefit tickets are \$115 per guest (\$70 is tax deductible.) Gates open at 11:00 a.m. Valet parking is available. Limited reservations (only 150 tickets.) Last year the event was quickly sold out. Please respond by July 25. Make checks payable to Project H.O.P.E. and mail to Sr. Margaret Eisele, St. Anne, 120 Franklin St., Barrington IL 60010. For more information, phone Chairman Sr. Margaret 381-5799 or Co-chair Lorraine Drews, Inverness, 359-4289.

Profits emanating from this thrilling afternoon at the track will benefit the Ministries of H.O.P.E. The achievements of St. Anne's Ministries of H.O.P.E. last year have been nothing short of spectacular in their outreach to those who need help, healing or reconciliation. St. Anne is a caring parish sharing God's love through works of mercy and practical efforts.

Last year St. Anne's 360 trained ministers and volunteers in the Ministries of H.O.P.E. made over 18,570 contacts with members of our parish and people of the Barrington communities. These contacts ranged from giving simple phone assistance, administering the Eucharist to shut-ins, providing transportation, preparing and delivering meals, helping the homeless,

helping the dying, to helping the temporarily financially-troubled regain their independence. The Ministries of H.O.P.E. is St. Anne's community effort in sharing and giving their love to individuals needing help by spending time and energy gathering money and gifts of food, clothing and shelter.

The ministers have spent time and energy gathering money and gifts of food, clothing and shelter. Last year parishioners of St. Anne gave an estimated \$510,000 in dollars and gifts to those in need. For information on H.O.P.E., please phone Sr. Margaret 381-5799.

Attention All Golfers: Take Your Best Shot And Help Kids With Cancer

Preparing all the festive details for the 2nd Annual "Golf for Bear's Friends" Golf Outing, at Cary Country Club, on July 10th, are (L to R) Callie Zintz, Chairperson (Barrington); Pat Stroschein (Cary); Sharon Advani (Barrington Hills); Penny Odice (Cary); Kathleen Casey, Executive Director of Bear Necessities Pediatric Cancer Foundation; and Kim Langner (Cary). The group will offer a Chrysler LeBaron Convertible for Hole-in-One, as well as a fully stocked \$20,000 wine cellar, 18 holes, locker facilities, cart, prizes and dinner. Call Bear Necessities for details (708) 516-4081.

Bear Necessities Pediatric Cancer Foundation, Inc., is holding their 2nd Annual "Golf for 'Bear's' Friends" on Monday, July 10, 1995 at the picturesque and newly refurbished Cary Country Club, Cary, Illinois. Kathleen Casey, Executive Director, stated "We're really excited about this year's turnout. Following last year's success, the event is about 50% sold out with invitations yet to be mailed." Event Chairperson Callie Zintz adds "Because Bear Necessities is the first major organization to concentrate on Pediatric Cancer (the number one pediatric disease), the response rate for the event has been wonderful. We guarantee an exciting day, for golfers of all levels, to have fun and help our kids at the same time." The entry fee of \$125.00 includes: 11:30 check-in, 12:30 P.M. Shotgun Start, Golf, Locker/Facilities, Greens Fee, Golf Cart, Prizes and Dinner.

A spectacular 1995 Chrysler LeBaron Convertible, courtesy of River Front Chrysler-Eagle in Aurora, Illinois is the prize for the "Hole-In-One" contest. We are seeking additional corporate sponsorships. Individual hole sponsorships are available for \$100.00. donations to help top off the days events.

All proceeds from the day will go towards fulfilling Bear Necessities' mission of funding research in the fight against pediatric cancer, as well as to help fund the immediate needs of families with children stricken with the dreaded disease. The course can accommodate about 200 golfers. Everyone is invited. A community response will be greatly appreciated and will help us give some of our kids "another tomorrow". Please call Bear Necessities to register or for further information. (708) 516-4081.

As our Barrington Area attracts more and more people and much of the surrounding farmland is turned into housing developments, our architectural history is being deprived of one of its agrarian landmarks—the barn. Barns by their nature cannot be a part of the urban landscape. But most of us that travel the Barrington roads will sorely miss those rustic wooden structures that bring back memories of a more idyllic time. Fortunately for the Barrington countryside though, Nancy Kahlich is saving barns—saving barns on paper that is.

Ms. Kahlich, who is a noted local artist and owner of NK, Inc. a graphic arts enterprise, knows the barns in the area. Over the years she has spent a great deal of time painting watercolors of some of the more unique barns that still exist in the Bar-

ington Area. So famous are her barn scenes, she has done ten privately commissioned watercolors in her series, "Barns of Barrington." Her original watercolor painting entitled, "Barns of Barrington" was donated by the artist to the Barrington Area Historical Society to be auctioned at its annual fund raiser.

The Barrington Area Historical Society is pleased to announce that Ms. Kahlich will be displaying nine different prints of the "Barrington Barns" series for sale at the Society's Museum Gift Shop located at 212 West Main Street, Barrington. The Museum Gift Shop is open from 10 am until 4 pm Tuesday through Saturday. For more information about the Kahlich "Barns of Barrington" series, contact the BAHS at 381-1730.

The Great Khan Voted Best New Restaurant—North Shore Magazine

Those curious about the dining habits of 13th century Mongolian tyrants need only take a jaunt to **The Great Khan** in Lake Zurich to sample a restaurant that even its namesake, Genghis Khan, would have appreciated.

The focal point of the restaurant is the cooker. Imagine a large, stainless steel drum with gas burners inside. When the surface becomes hot, the cook adds a dash of oil and it's ready to go. Guests are offered beer, wine or soft drinks upon their arrival. The wine list is short but appropriately selected for the food to come. Two soups are planned, and samplings of egg drop and hot and sour both tasted excellent. Appetizers boasted a huge egg roll, among other dishes. First-time diners are briefed on the entree choices, then turned loose to choose a meal from the buffet. Containers are filled with sliced beef, chicken and pork. Next are vegetables—fourteen in all—including bean sprouts, mushrooms and carrots (this spot is ideal for vegetarians, literally yards of veggies). Armed with a bowl, the diner

can partake in the cornucopia, selecting anything which may please the palate.

Then comes the ultimate challenge—the sauces. There are thirteen of them. Pick one or combine any number, including Mongolian Mild, Singapore Spicy and Osaka Sweet and Sour. Next, the diner's bowl is placed in the very capable hands of one of the Mongolian chefs. It's returned in a matter of seconds along with rice and chopsticks (yes, forks are available). The idea is to select small portions, try different combinations and return to the chef frequently. It's quite an easy routine to follow.

Even easier is the price of this repast—\$5.95 for lunch and \$10.95 for dinner. For kids who may balk at an exotic buffet, a children's menu carries favorites like hot dogs or grilled cheese. There's nothing negative to say about **The Great Khan**. From the food to the concept, it earns an excellent rating in all areas.

Grades In The Basement? Don't Go Through The Roof!

It's the end of the school year—your child brings home a final report card with grades that are aimed at sending you through the roof. The teacher's comments leave little room for doubt that a problem exists: "Not prepared," "Not working up to potential," "The class clown," or quite simply, "Lazy." What's a parent to do?

According to Dr. Raymond Huntington, founder and president of **Huntington Learning Centers**, "It is far easier to blame the school, the child or yourself than it is to come up with concrete solutions. With summer just ahead, it's tempting to just let the problem slide until next year. However, if solutions are not found, the child's grades will suffer in the Fall, when new and more difficult material is introduced."

Take your child to a doctor for a thorough check-up. Make sure that school problems are not actually hearing, eyesight or nutritional problems. If health problems can be ruled out as the cause of school difficulties, visit your child's school. Meet the teacher, get familiar with work assignments and instructional techniques. Discuss your son or daughter's strengths and weaknesses.

Dr. Huntington believes that school dif-

ficulties are often caused by poor reading, or study skills. "If a child lacks basic skills in reading or math, even at a young age, the child will fall further and further behind in school," he says.

"In order to succeed, four basic ingredients are necessary: intelligence, skills, confidence and motivation. Almost every child we work with at the **Huntington Learning Center** has the intelligence to do the job expected, but lacks skills, confidence or motivation."

Summertime is the perfect time to review, practice and build academic skills, while school has stopped moving ahead. Just a few hours a week can prepare a child to face the challenges of the upcoming year.

The individually-designed educational programs used at the **Huntington Learning Center** build basic skills, which in turn improve a child's confidence and motivation to do better in school.

Parents who would like further information, or who wish to discuss a specific problem, are encouraged to call the **Huntington Learning Center** in Barrington at 382-3655 or in Buffalo Grove at 459-5939.

At Silk 'n Things on Main Street in Barrington we are having a garage sale to celebrate our anniversary. It's going to be a great one. Come and enjoy savings as we move some hidden treasures to the driveway and the garage behind our store. We'll probably find some items we didn't know we had. The dates are Thursday, Friday and Saturday, July 6, 7, 8.

cookies, and muffins. To go along with the breads try some of Silk 'n Things fresh fruited jams.

It's physically impossible to move everything outdoors so come inside and enjoy in-store savings as well. We will be offering 30% off on all plants and flower arrangements during the month of July. Look for our selected antiques specially priced. Be sure to visit the second floor and see some of the unusual accent pieces that would add interest to any room.

Embroidery For Fun And Profit!

Linda Z's Sewing Center in Arlington Heights is introducing the New Bernina Embroidery machine. Linda Z and Susan will show a few of the home dec projects that have been created on this fabulous new machine. Even a non-sewer could start to have fun with this innovative new product, without ever taking a lesson. It's so simple that even young children are making their Brownie, Indian Princess or Cub Scout badges.

Golfers of all ages are now personalizing their T-shirts, sleeves, and towels. We even saw a golf sock with a club logo created on the spot.

Serious sewers are abundant, too. Home-businesses can now generate numerous revenues from their clients. Schools, churches, hospitals, uniform companies, sports facilities, are just a few of the sources that are using the talents of the people operating their home-based embroidery businesses.

Not all of these owners are women. A County Sheriff purchased one of the em-

broidery machines for his boating hobby, and now all of his cushions are monogrammed with his boat logo. Amazing how creativity can abound!

If you would like to be a part of this fun hobby, call 708-394-4590 to see a free demonstration and get a personalized monogram for yourself.

Have A Safe And Crime-free Holiday

by Sharon L. Keller, Attorney at Law

The celebration of our nation's independence is approaching. For many of us, the celebration of the Fourth of July is not complete without fireworks, whether a public display or in our own backyards. However, by using fireworks you run the risk of violating the law and injuring friends and loved ones. An estimated 400 Americans will lose vision in one or both eyes this year due to injuries caused by fireworks. The American Academy of Ophthalmology prepared the following report of misconceptions concerning the safety of fireworks:

- Very few people are injured seriously by fireworks. **FALSE**—in 1990 over 12,000 emergency room visits were the result of fireworks-related injuries, two-thirds of the injuries occurred during the 4-week period surrounding Independence Day.
- The average burning time for a fuse is 15 seconds. **FALSE**—retail fireworks are required to have a fuse that burns for only three to five seconds.
- Hand-held sparklers are safe for children. **FALSE**—sparklers burn at 1,800 degrees F, almost hot enough to melt gold. Flying pieces have caused blindness.
- Spectators are rarely injured. **FALSE**—in one study, 40% of those suffering eye

injuries were bystanders.

Not only are fireworks inherently dangerous, but they are also illegal in Illinois under the Illinois Fireworks Act. This Act states that it is unlawful for anyone to "possess, offer for sale, sell at retail, or use or explode any fireworks." Fireworks are defined as including: firecrackers, torpedoes,

Garden Ball Is A High-Spirited Success

Patti and James Lancaster of Barrington Hills enjoyed tripping the light fantastic. Mr. Lancaster is President of NBD, Illinois.

Genny and Dr. Dominic Catrambone of Inverness. The Catrambone's served as Garden Ball Silent Auction chairpersons this year.

Garden Ball Steering Committee members Drs. Susan and Donald Arenson of Barrington Hills with the most sought after silent auction item of the evening—a cocker spaniel puppy—which received the highest bid and was awarded to Mike and Kim Singletary of South Barrington.

Nearly 900 guests attended the Ninth Annual Garden Ball on June 3 sponsored by the St. Alexius League of Alexian Brothers Medical Center (ABMC). With the theme, "Senior Spirit: Listening, Teaching, Caring and Healing," this premier social charitable event benefited the Senior Care Initiative

programs at ABMC.

"With the combined friend and fund raising events this year (the Nordstrom Woodfield opening Gala and the Garden Ball), we will reach our successful goal of raising more than \$200,000 in 1995 for Senior Care Initiative programs of Alexian Brothers Medical Center," said Brother

The black-tie gala featured headline entertainer Louise Mandrell in a high-energy stage show that covered the spectrum of music from 1950s favorites to rock 'n roll and bluegrass traditions to gospel music.

The Garden Ball began with a 5:30 pm cocktail reception followed by an elegant four-course gourmet dinner.

Robert Middlemas, Vice President and General Manager of Nordstrom Midwest Division, served as honorary chairman and was there with his wife, Jerri of Burr Ridge. Middlemas thanked all the guests for their commitment to the health care needs of the community.

"With older adults now making up a large percentage of today's population, it is important that we respond to this growing population by recognizing the need for such programs as the Senior Care Initiative programs," said Middlemas. One of the highlights of the evening was a spectacular Silent Auction put together with style and grace in the Grand Ballroom foyer. Steering Committee members and former honorary chairpersons Mike and Kim Singletary captured the highest bid for the most sought after Silent Auction prize—a precious brown and white cocker spaniel puppy.

Other unique auction items included a life-guard float autographed by David Hasselhoff and his crew of the TV show "Baywatch", a "Home Improvement" script, color photograph and Binford Tool baseball cap autographed by Tim Allen and cast, a Notre Dame football autographed by Coach Lou Holtz, a basketball autographed by the entire Chicago Bulls team, including Michael Jordan, an original watercolor painting of the Ninth Annual Garden Ball invitation, Walter Payton and Mike Singletary autographed jerseys, a David Letterman framed autograph photograph, and a Clint Eastwood framed autograph photograph.

skyrockets, Roman candles, bombs or other fireworks containing any explosive substance. Snake or glow worm pellets, smoke devices, snappers or sparklers are not considered fireworks.

In addition to committing a Class B misdemeanor for use of illegal fireworks, you may be liable for negligence if someone is injured on your property from the exploding fireworks. The Illinois Premises Liability Act states that the owner of property owes his guests a duty to use reasonable care regarding acts done on his premises. Also, the landowner is liable for physical harm to his guests caused by conditions on his land that involve an unreasonable risk

of harm. In addition, you as a landowner have a duty to warn your guests of the existence of a known dangerous condition; such as the exploding of fireworks.

Be aware of both the health and legal hazards of fireworks. The U. S. Department of Health and Human Services points out that the safest place to enjoy fireworks is at a community-sponsored fireworks display. So I suggest that you leave the handling of the explosives to the professionals and have a safe and crime-free Fourth of July.

I am delighted to share with you legal issues on a monthly basis. If you would like a particular topic discussed, please call me at 381-7522.

What Is "Custom" Residential Architecture?

We see this word "custom" on everything lately. Some builders build the same five house plans every year and yet they call themselves "custom" builders! What does "semi-custom" mean? Why do some people think that anything made custom is only for the wealthy? "As residential architects, we are constantly asked to define and dispel the myths associated with this word," says John C. Cazzetta, of Kemper Cazzetta, in Barrington.

The definition of the word "custom" as it relates to residential architecture is actually quite simple. A true custom design is something that is solely created by the architect from the specifications and desires of the client. In some cases, a very traditional colonial is actually a custom plan. A custom plan is never repeated or sold to other clients, and the architect and homeowner maintain the only originals.

Anything short of this definition is NOT a custom design. Plans that already exist which are revised by the architect per the owners or builder's program is a "customized plan." "Semi-custom" is when a

builder offers set model plans and the homeowner "a la cartes" upgrades to the plan.

The biggest myth of custom residential architecture is the expense. "We have many clients who want a simple plan and have a limited budget, but do not want to live in 'Plans A through F'." They want their housing dollars to be utilized to the fullest potential.

If you would like to discuss a custom design with us or customize an existing plan that you have, please contact John C. Cazzetta at Kemper Cazzetta, Ltd., in Barrington. "We feel that you will enjoy the home that 'we' design."

A Patriotic Message From R. K. Tech: America Makes The Best Cabinets

Here's an Independence Day message from Lisa McCauley, president of R. K. Tech: Nobody does it better than the Americans.

"Design trends are rushing faster and faster, but great design is timeless," says Lisa, whose background in architecture and design makes her one of the most highly credentialed kitchen designers in the country.

From a loft in downtown Barrington, Lisa and R. K. Tech have reached out to join the front ranks of American kitchen design. R. K. Tech's success has been built upon solid expertise and a constant search for excellence in design and cabinet building. Here is what R. K. Tech has found after years of constantly studying the cabinet industry.

"Americans take a back seat to no one in design or in cabinet building," Lisa explains. "This country has become a tremendous center of design innovation. I'll grant you that there are wonderful things happening in Italy and Germany, but nowhere can you find so many people working in such a variety of styles as you can right here.

"And it's been an awfully long time since anyone could surpass the Americans in the quality of our cabinet making. Even if the roots of our furniture building often reach into Germany and Switzerland, we've made the most of our inheritance, adding this country's best qualities to the cabinets we build.

"In this country we have the advantage of excellent native hardwoods in much more plentiful supply than in other parts of the world. We're leaders in computer aided manufacturing, which means that we can build our cabinets more efficiently and with better quality. It's paradoxical but true that computers have revived the art of hand finishing by creating tremendous economies in other areas of cabinet construction. The best companies now have the time to make their finishes truly special.

Fulfilling Individual Needs

"I studied architecture at I.I.T., which was the home of the steel and glass International style. The emphasis was on standardization and cleanliness in architectural materials and forms. Today the realities that inspired the International school are changing fast. Mies and his cronies used to believe that architecture could improve people's lives by giving everyone an identical clean well lighted space.

"The first wave of reaction during the

early eighties broke free from the boxy forms of modernism but continued to use the same mass produced materials. That's what's changing now. Today we have learned that technology does not necessarily mean standardization and regimentation, but rather an increasingly wide field of individual expression.

"Computers are making it possible to recreate and reintroduce forms that were once available only on the most magnificent and expensive homes—forms that many believed would never be used again. I can show you wonderful moldings generated by computer drafting that feature the kind of detail that could once be made only by hand.

"Kitchens are being tailored to the physical characteristics of their owners, with multiple worksurface heights, special storage options, cabinets with angles and radiuses that were once believed impractical.

"The paneled library once seemed to be going the way of the steam engine, but no more. Now we can reproduce the room on computer and pre-assemble the parts before having the room made. This makes it possible to fabricate the library in the shop, which means a more precise fit and a far better finish.

Putting Clients First

"People are so sophisticated these days," Lisa says, "They understand the latest fashion and furniture trends; and they think deeply about how they want to live. We need to stay ahead so that we can offer some guidance and good ideas based on sound design principals.

"We know that our clients have given their projects a great deal of thought before they come to see us, and we listen to what our clients have to say. We're not in an ivory tower; we're out there every day turning someone's dream into reality—building it better than the dream, really, because our experience and hard work give us the power to translate the dream into a reality that works.

"That's where the world is headed: fitting the design to the client, not trying to shoehorn the client into something machine-made."

R. K. Tech is located at 220 S. Cook Street, Suite 210, in Barrington, one block east of Hough Street (Route 59) and two blocks south of Main Street (Lake Cook Road). Call 381-2742.

Lyric Opera Of Chicago Members Gather For Annual Meeting & Luncheon

Discussing the Fall schedule were Ardis Krainik, Lyric Opera of Chicago's General Director/CEO with Wanda Hollensteiner, member of the Barrington Lyric Board of Directors.

Over 300 Lyric Opera of Chicago Chapter members gathered for their annual meeting and luncheon at the Ritz-Carlton Hotel in Chicago last May.

After the social hour and silent auction, members enjoyed a gourmet luncheon in the Grand Ballroom. Beautiful spring floral centerpieces and deluxe table favors, donated by Saks Fifth Avenue, adorned each table.

In the absence of Chapters' Executive Board (CEB) President Nicoline Shields, Riverside, Flo Kind, Deerfield, introduced Ardis Krainik, Lyric Opera of Chicago's General Director. Farrell Frentress, Director of Development, congratulated the Chapter members on their fine fundraising performances throughout the year and, especially, during Operathon, which raised \$872,089.

Miss Krainik presented Chapter Charters to the newly formed Junior and Lake

Geneva Chapters. The twenty chapters have 2,000 members over a three state area.

Jim Fealey, Southwest Chapter, received the Volunteer-of-the-Year award. Innovative and humorous recognition was given to Flo Kind and to Operathon Chairwoman Beatriz Iorgulescu from Hinsdale.

American Airlines was once again saluted for their continued support as the official sponsor of Operathon. Representing American Airlines, Sandra Andel presented Lyric Opera with a giant check in the amount of \$25,000.

The Lyric Opera Center for American Artists brilliantly performed *Trouble in Tahiti*, an opera in seven scenes with words and music by Leonard Bernstein.

Should We Put On An Addition . . . Or Should We Move?

As our families grow and our needs change, we often find that we require more space in our home environment. With so many things to consider, it is difficult to decide whether we should add on to our existing home, or sell our house and purchase a new one. For many people, our home is the sanctuary away from the busy world around us. We have spent a lot of time and money in landscaping, decorating, and creating a comfortable environment in which to relax and raise our families. We have also established ourselves in our neighborhoods, schools, churches and community groups. In many cases, when we move, we are starting over. This in itself can produce a lot of stress on the family members.

Whether you need a larger kitchen, another bed room, a great room, or more garage space, if you consider the cost of sales commissions, mortgage fees, moving expenses, decorating, and landscaping the new house, many times the cost of an addition can be far less than the cost of moving. Larry Kirchner Sr., of **Kirchner Builders, Inc.** states, "Most room additions can be completed with a minimal amount of disruption to the family and home."

To insure that your room addition is completed with order, punctuality, and not a lot of broken promises, it is important that you find a contractor with the knowledge and

ability to complete the job, as well as one you feel comfortable with and trust. **Kirchner Builders** prides itself on being such a company. From conception to completion, they will be there every step of the way.

Larry Kirchner Sr. is proud to be celebrating his 25th year in the construction business. With an eye for detail and experience in all aspects of construction, **Kirchner Builders** can provide you with a room addition that will meet your needs, and one you will be satisfied with for years to come. For more information or to schedule an appointment, contact **Kirchner Builders, Inc.** at (708) 991-1800. The best time of the year for building, is... right now!

What Is A Certified Kitchen Designer?

While there are many designers who "do" kitchens, only a limited number hold credentials as Certified Kitchen Designers (CKD). Jim Walker, a partner at **Barrington Homeworks Kitchen Center**, and himself a Certified Kitchen Designer, says, "CKDs work very hard to help you determine what you really want. The plans they show you, the options they describe, the products they recommend, reflect your individual needs. They remember always—this is *your* kitchen."

From the beginning, the back-and-forth exchange of information with a CKD will reassure you. In your initial meetings, the CKD interviews you at great length to discover how you cook and live in a kitchen space. This is the time to share all your ideas—notes and pictures, too.

In a short time, you will review preliminary designs. Together, you and your CKD will perfect the plan and make product decisions.

The CKD will have final plans prepared for your review—including interpretive drawings so you will see what your new kitchen will look like.

Some CKDs offer a design service only. But Walker is affiliated with **Barrington Homeworks Kitchen Center** and can offer a complete showroom. Both types of specialists submit a clear and complete proposal encompassing all of the work planned. The specifications describe in de-

tail all construction work, cabinetry, countertops, fixtures, wiring, plumbing, lighting. There should be no surprises when you work with a CKD.

CKDs make sure you understand all of your choices during the planning process. They keep up-to-date on new equipment and new construction materials, as well as building codes, safety rules and environmental regulations. They will make sure that your new kitchen meets all standards for safe use by you and your helpers.

CKDs understand budgets and can explain the pros and cons of products as they relate to the required investment. The CKD's sound advice will help you make the right decisions for your new kitchen.

It takes years of training and expertise to earn those coveted CKD initials. It requires the ability to write specifications and draw plans that plumbers, electricians and cabinet installers can interpret. Walker notes that before CKDs can sit for their final exam, they must file affidavits from fellow professionals, letters of reference from past clients, and submit samples of their design work for review by the Societies, the accreditation agency of the National Kitchen & Bath Association.

"The kitchen and bath industry is dynamic," said Walker, "with new products and new technologies constantly being introduced. Keeping up with all this is a responsibility CKDs take seriously."

How To Survive A Kitchen Remodeling Project

Are you planning a home remodeling project? While remodeling can be exciting, people often procrastinate remodeling a kitchen because of the mess and inconvenience.

Star Norini, CKD, owner of **Distinctive Kitchen Designs** in Wauconda says, "We try to make the remodeling as painless as possible. As soon as we have finalized the design and cabinets have been ordered for our clients, we begin to work out a realistic plan and schedule for remodeling. We can usually keep the "mess" confined

to the area being remodeled, but what our clients find most inconvenient is being without the use of their kitchens.

Certainly going out to eat is an option. This option can be expensive and even the worst "Junk-food Junkie" will tire of eating fast food for three or four weeks. Instead, we will often suggest an area for a "temporary kitchen". We will move a refrigerator, microwave, and/or electric cooking appliance to an adjacent room. This enables the clients to prepare meals while the new kitchen is being installed. We also suggest that the client prepare meals weeks in advance and freeze individual servings in plastic bags that can be reheated in the microwave and served on disposable plates and cups. Clean up (which can be challenging without a sink) is, therefore, kept to a minimum.

Your friends and family can be a great help during the remodeling. Most clients find that once they announce plans for a kitchen project, dinner invitations follow quickly.

Lastly, Norini adds, I try to describe the remodeling process as realistically as possible. I let them know that it will probably be a difficult time for a few weeks. In that way, they have time to plan, prepare and look forward to their new kitchen.

Distinctive Kitchen Design is located at 203 South Main Street in Wauconda, (708) 526-7822.

Now Is The Time To Plan For That Deck

"It's not just a deck," says Larry Kirchner, chief designer and president of **Deck-A-Roo Decks**. "A deck is a pleasant addition to any home and a necessity."

Decks are great investments. If properly built, a deck will give the owner years and years of wonderful use as well as add more to the value of the home than the initial cost. However, an improperly built deck will soon become an eyesore as well as a financial burden on the owner.

At **Deck-A-Roo Decks** every aspect of the deck design is considered: what style will best fit the house; what are the size and design needs of the client; what materials best suit the location and design of the deck; how the design affects price both now and

over the lifetime of the deck; and how maintenance will be affected by the design.

In addition to a proper design, the actual construction of the deck and the follow through of the builder are very important. Questions you should ask: Who actually will perform the work? What quality of material will be used? What construction practices will be used? And, who will service the deck if needed? Larry's favorite phrase, "You get what you pay for, if you're lucky!"

Deck-A-Roo Decks is a full service builder, working with the home owner from the beginning of the design to the final completion of the deck. No subcontractors are used. All employees have been trained to a high level of quality and given the amount of time needed to complete the job properly. Only high quality materials are used by **Deck-A-Roo** as well as new environmentally friendly products. Every deck is serviced promptly as well as courteously.

A special note from Larry: "Now is the time to plan having your deck built if you would like it for Summer. It's important to give yourself as much lead time as possible if you are planning a party or event that the deck will be used for."

Abraham Lincoln's quote "Things may come to those who wait, but only the things left by those who hustle," probably expresses the philosophy of people we admire most who seize life in spite of fear or apprehension and go after their dream.

Michelangelo said it beautifully. He said, "I saw the angel in the marble, and I chiseled until I set it free." Right now, I want to chisel away some of the obstacles that you perceive are holding you back from having the home and lifestyle that you dream of.

If you are dreaming of a home, what are you waiting for? The woulda-coulda-shoulda-days are here. Today is the "Some-day I'll...". Interest rates are again at an all time low. What does this mean to you?

If you borrowed \$100,000 at 10%, today you could borrow \$133,000 for the same payment. This includes repayment of the entire mortgage including the additional \$33,000 of principal as well as interest. If you remain where you are, you are signifi-

cantly overpaying for what you are getting.

To take this further, years ago when prevailing interest rates were approximately 10%, your monthly payment to amortize a \$300,000 mortgage at that time would pay off a \$400,000 mortgage today. There is a big lifestyle change with a 33% upgrade. When the mortgage is paid off, the \$33,000 drops into your pocket. If your current interest rate is greater than 10%, then your opportunities are correspondingly greater.

If you delay and interest rates go up, for every 1% increase in interest, you lose \$11,000 using a base of \$100,000 and \$33,000 using a base of \$300,000. This loss is out of your pocket—and your lifestyle.

You couldn't ask for better home buying conditions and opportunities than those which are present right now... but it's up to you to take advantage of them. Don't be afraid to step out and follow the dream that's in your vision. Don't become a member of the "if only I'da club".

BHS's Dance Program Will Offer A Summer Dance Workshop, August 14-18

Chicago Choreographers Sue Cronin and Ellen Werksman will conduct jazz dance technique classes at Barrington High School, August 14-18, 1995. Classes are offered daily from 9 AM to 12:30 PM which includes a half hour break between each class. The registration fee for the en-

tire week of ten classes is \$30.00.

For more information and a registration form, contact Julie Salk at Barrington High School, 842-3253 or 842-0922.

A minimum of thirty students is required for the workshop.

More than 250 guests filled the halls and gymnasium at Woodlands Academy of the Sacred Heart, a private college-preparatory day and boarding school for young women, in Lake Forest, for the Mothers' Club annual benefit, Congé. The theme of this year's benefit, "Celestial Nights," provided the setting for a heavenly evening on April 22. Months of planning and preparation by the Mothers' Club for this black-tie event certainly paid off. The event grossed more than \$195,000. "It was really through the efforts and commitment of many parents, alumnae and friends, that this evening was a huge success," said Lauree Personette of Barrington, who chaired the event with Kay Hutmacher of Green Oaks.

Festivities began with a liturgy, followed by the silent auction with a "Galaxy of Gifts" during which cocktails and hors d'oeuvres were served. The celestial sounds of harp and flute played by Robert Hutmacher, O.F.M. and by Denise LaGiglia respectively, set the tone for the evening. Guests then feasted on an elegant dinner prepared by Froggy's of Highwood in the transformed gym. The setting, thanks to the creative talents of Debbie Reed of Lake Forest and her decorating committee,

helped to put guests in just the right mood. Dinner was followed by the much-awaited Oral Auction with over 30 unique items. The ever-popular Woodlands quilt, designed and stitched by students, mothers and alumnae, was auctioned for \$2,100.

Other popular auction items included a Citgo mini-car, a tour of the Barrington horse farms and admission to the Barrington Horse Show, a Notre Dame football package, put together by Woodlands' graduate Mary Therese Kraft of Libertyville, a student and trainer at Notre Dame. An authentic Cajun dinner for eight prepared by Woodlands Headmistress, Sister Claude Demoustier and Woodlands Trustee, Sister Sharon Karam, drew two bids of \$2,100.

"The evening was a success because of teamwork," remarked Congé Co-Chair Kay Hutmacher. "Our daughters will truly benefit from the success of Congé." The original Congés were surprise play days organized by the Religious of the Sacred Heart for the students. However, today, Congé is the major, annual fundraiser for the school organized by the Mothers' Club for the school. The proceeds from Congé are used for capital improvements and to enhance educational programs.

BARNO Scholarships Awarded

L to R: 1995 BARNO scholarship recipients are Candice Brunn, Elizabeth Goorsky and Robert Ruley.

The Barrington Area Registered Nurses Organization (B.A.R.N.O.) held its annual Scholarship Dinner May 8 at Floyds Restaurant in Carpentersville. Following the dinner three Nursing Scholarships, two \$700 and one \$500, were presented by Nancy D'Angelo, R.N. Scholarship Committee member. The recipients were: Candice Brunn of Barrington who is a student in the ADN program at Harper College; Elizabeth Goorsky of Crystal Lake a senior in the ADN program at College of Lake County, and Robert Ruley of Wauconda who is also a senior in the ADN program at College of Lake County.

Following the Scholarship presentation,

officers for 1995-1996 were installed. They are: Cheryl Jellovitz, president; Kay Werner, Vice President; Celeste Schleffler, recording secretary; Mary Ann Palumbo, corresponding secretary and Carolyn Armentrout, treasurer.

The program for the evening was a humorous pun written by program chairman Charlotte Campbell. Various members described how it would be if fairytale characters were treated at the hospital after suffering injuries for which they are best remembered.

B.A.R.N.O. has several scholarship fundraisers during the year in order to finance the scholarships.

White House Commission On Presidential Scholars Selects NFAA Artist For Presidential Award

MIAMI, FLORIDA—Ani Aznavoorian from Barrington, Illinois has been selected as a U.S. Presidential Scholar in the Arts. Ms. Aznavoorian joined 19 other Presidential Scholars in the Arts and 121 other Presidential Scholars in Academics for National Recognition Week, June 21-25 in Washington, D.C.

The "Salute to the 1995 Presidential Scholars," a major highlight of the weeks' activities, took place Wednesday, June 21, at the John F. Kennedy Center for the Performing Arts. The evening featured perfor-

mances by the Presidential Scholars in dance, music and theater; a presentation of works by the Scholars in photography, visual arts and writing, and an introduction of the Presidential Scholars in Academics.

National Recognition Week activities culminated at the White House where President Clinton addressed the Scholars and each received the coveted Presidential Medallion.

"Our literature, painting, dance, and music are part of what defines us as Americans," said U.S. Education Secretary Rich-

ard W. Riley. "The arts expand modes of learning and create greater opportunities for students and teachers to connect in productive ways." The Presidential Scholars Program is directed by the U.S. Department of Education.

Ms. Aznavoorian was selected as a scholar through participation in the National Foundation for Advancement in the Arts' (NFAA) 1994-95 Arts Recognition and Talent Search (ARTS) program. It is only through the ARTS program that a young artist is eligible for the Presidential Scholar in the Arts designation, one of the highest honors bestowed on graduating high school seniors in this country. Ms. Aznavoorian's ARTS award is sponsored by Winston & Strawn in Chicago, Illinois.

Ani Aznavoorian, a senior at Barrington High School, has also studied at the Music Center of the North Shore for eight years. Ms. Aznavoorian won the first and grand prizes in the 1994 American String Teachers Association Competition, first prize in the Fischhoff National Chamber Music Competition, and was the top award winner in the Julius Stulberg Competition. In 1993, she earned first prizes in the Union League Civic & Arts Foundation Music Scholarship and the Chicago Cello Society National Competition. During the past four years, Ms. Aznavoorian appeared as a soloist with many orchestras, including the Chicago Symphony, Concertante di Chicago and the Peninsula Symphony. She will attend The Juilliard School this Fall.

From A Woman's Point Of View

by Gail Wickstrom, Wickstrom Ford

Most businesses frown on nepotism, but here at Wickstrom Ford it seems to work quite well for us. We have three husband and wife teams, two father and son teams (not including any of the Wickstrom's), an uncle and a nephew and have had many employee's children work part time over summer or after school.

Many of our long term employees have brought their friends here to work with us and Tim and I consider that the greatest compliment they could pay to us. Sharon Picard, our office manager brought her friend Karen Chuchman into our office nine years ago and they are both still here and good friends. Sharon's husband, Gary is a technician for us. Jill Peeters is our warranty administrator and her husband, Rick is a technician also. Dawn Penzak is in our office and her husband John is also a technician.

Paul Braun, one of our top technicians, started here seven years ago and his son, John started here one year later. Gene Hammond is a sales person with us and his son Jesse is a technician and was also an asset student for us. John Grubbs is our general sales manager and his nephew, Seth Tavine is a salesperson. We also have an uncle and niece combination, Jack Sherrier, one of our sales managers, and niece,

Michelle Cimino is also on our sales force.

Over the years our sons, Colin and Richard have brought many of their friends to work here, and I am no exception to that trend. My best friend for the last 25 years, Debi Holmes came to work with us last year.

We pride ourselves on the longevity of many of our employees, and we work hard at a congenial, caring atmosphere. We feel that you're not going to treat your customers well if you don't treat your fellow worker well.

We have been in business for over four years now, servicing the grocery needs of people just like you. We service 45 north and northwest suburban communities, with a customer base nearing 2,000 clients. Best of all, you pay grocery store prices, with only a nominal delivery fee to have them brought to your front door! Our average delivery fee is only around \$3.00!

All of our customers receive a price book with the nearly 5,000 items that we carry. It includes all of your favorite name brand suppliers, and an assortment of specialty items that you won't find at the grocery store, such as fresh butcher meat and seafood, whole grain breads from the Bread Barn, fresh baked goods from a local bakery, and the finest of fresh produce we receive in daily.

Ordering is very simple. You can either call in or fax in your order, just indicating the item numbers you would like to have delivered. We will give you a total due for your delivery, and you can pay us by check

or credit card. The great thing is that you don't even have to be home to accept delivery (around 50% of our customers are not). We can do this because we deliver all of our refrigerated and frozen items in Igloo coolers with ice packs, so even ice cream stays frozen while your groceries await you. The dry products are delivered in waterproof boxes with lids on them. We will work out a convenient place with you to leave your groceries if you are not going to be home, and they will be waiting there fresh when you arrive. If you are going to be home we will unload them on your counter for you. It's that simple!
