## Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those tell-tale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 18 years of service at the same location.

June, 1994

Dear Reader,

Mark June 15 down to attend the exciting benefit, "Odyssey of the Mind, Racing Toward Discovery" to be held aboard the S.S. Odyssey II. You will be helping scientists work on the frontiers of brain research with proceeds going toward a \$3,000,000 pledge to fund the Center for Molecular Neurobiology. Three of Chicago's most creative couples will be honored that night. Take the time to read about them in this issue of *Lifestyles*. I promise you, you will be impressed with their achievements and their caring attitude.

Were you one of the lucky ones to attend the 1994 Clearbrook Shining Star Ball? This "grand dame" of special events has provided over \$1.8 million for Clearbrook Center in its five year existence. Co-chairs Linda Moscow and Pidgey Zitin of Chicago really made the evening one to remember.

And finally, a little story that was just too adorable to pass by. I'm referring to "A Colonial Tea Party With Felicity". The Barrington Area Historical Society invited local girls, their mothers and grandmothers to a Colonial tea party with Felicity this spring. A Colonial fashion show was enjoyed and an authentic tea lesson was given. Pots of apple tea and gourmet cookies were also enjoyed. The sell-out event raised funds for the BAHS in such a charming, educational manner, that the organization is really to be commended. They (BAHS) have come up with very fine ideas consistently.

Happy Father's Day to all the Dads! May all your thoughts be sunny!

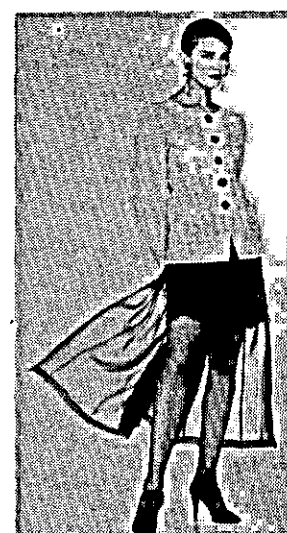

With warm regards,

*Glenn McMonigal*

## An Odyssey Of The Mind Racing Toward Discovery

Brain Research Foundation Names Creativity Award  
Winners for 1994

*Pictured, seated left to right, are: Raymond P. Roos, M.D., Department of Neurology at the University of Chicago; and Gwill Newman, Lake Forest, Vice Chairman of the Brain Research Foundation. Standing, left to right, are: Ann Rohlen, Chicago, Benefit committee member of the Women's Council; and Mary Smart, Wadsworth, Benefit Chairman, in the laboratory where the 1994 Creativity Award winners were announced. The benefit, "Odyssey of the Mind, Racing Toward Discovery," will be held aboard the S.S. Odyssey II on June 15.*

Guests and board members of the Brain Research Foundation were welcomed by Mary Smart, Chairman of the Brain Research Foundation's 1994 Creativity Awards Benefit, in the Laboratory located within the Center for Molecular Neurobiology in the new Jules F. Knapp Medical Research building. Gwill Newman, Vice Chairman of the Brain Research Foundation formally announced the winners of the 1994 Creativity Awards.

The Creativity Award, established six years ago by the Brain Research Foundation, recognizes and acknowledges the creative potential of the human brain. The Foundation supports the work of the Brain Research Institute of the University of Chicago, which helps fund discoveries about how the human brain works and finds cures for its worst failings.

### Three of Chicago's Most Creative Couples Honored

The June 15 benefit fund-raiser will be a summer evening cruise on Lake Michigan, aboard the S.S. Odyssey II. The Brain Research Foundation will recognize the contributions of three of Chicago's most gifted couples who are using their creativity on behalf of the human community. This year, the honorees are: Patricia and Martin (Mike) Koldyke; Desiree Glapion Rogers and John Rogers; and Carole and Gordon Segal. Each couple will receive the Creativity Award for their varied and generous demonstrations of the creative power of the human brain.

**THE KOLDYKES:** Martin (Mike) Koldyke is Chairman of Frontenac Company, Chicago, a venture capital firm he founded in 1971. He is on the boards of Rand McNally & Co.; American Healthcorp, Inc.; and Gen Derm Corporation. Mike is also Chairman of the Chicago School Finance Authority, jointly appointed by the Mayor and the Governor. He is the founder and chairman emeritus

of the Golden Apple Foundation for Excellence in Teaching. In addition, he is an active member of the Commercial Club of Chicago and last year was *Crain's Chicago Business*, "Executive of the Year," as well as the City Club of Chicago's "Citizen of the Year."

In 1973, Patricia Koldyke co-founded the Illinois Council Against Handgun Violence. More than 20 years later, she remains active on its board of directors. She is a director of the Chicago Council on Foreign Relations and a trustee of the Brain Research Foundation as well as a member of the board of Northwestern Memorial Corporation. She became director of the Golden Apple Foundation Scholars Program in 1988, working with award-winning teachers to recruit and support outstanding Illinois high school seniors for college training preparatory and careers in K-12 teaching.

**THE ROGERS:** They have been called a multi-billion dollar couple, because so much money is entrusted to their separate administration. John W. Rogers handles \$2 billion in pension and mutual funds. He founded Ariel Capital Management, Inc., more than a decade ago as an institutional money management firm specializing in equities. In addition, Ariel Capital serves as the investment advisor for two publicly traded mutual funds: The Calvert-Ariel Growth fund and the Calvert-Ariel Appreciation Funds. His acuity about investment and financial management strategies has resulted in guest expert appearances on "Wall Street Week with Louis Rukeyser," as well as "The Oprah Winfrey Show." John serves on the corporate boards of American National Bank and Trust Company of Chicago; Aon Corporation; Burrell Communications Group, Inc.; G. Heileman Brewing Company, Inc.; and the Morrison Knudsen Corporation. He is president of the Board of Commissioners

## Clearbrook's Sixth Annual Gala A Shining Success

Hundreds of celebrated Chicagoans gathered together on April 22 to show their support at Clearbrook Center's Sixth Annual Shining Star Ball held at the Ritz-Carlton Hotel in Chicago.

This "grand dame" of special events has provided over \$1.8 million for Clearbrook Center in its five-year existence. This year's Ball featured a gourmet dinner, outstanding prizes and dancing to the sounds of the Mike Carney Orchestra from New York.

Co-Chairs Linda Moscow and Pidgey Zitin, both of Chicago, said this year was a sell-out crowd as in the past. "The Shining Star Ball and Clearbrook Center have such a large following of supporters, that over two-thirds of the tables are sold before the invitations even go out," commented Zitin. Guests included many business and community leaders, all willing to show their support for the developmentally challenged clients of Clearbrook Center.

Some lucky winners walked away with outstanding prizes such as an all-expenses paid trip to the 1995 Superbowl; trips around the world to exciting locations such as Milan, Montreal, Berlin and Hawaii; fine jewelry and much more.

The proceeds from the Shining Star Ball will benefit Clearbrook's Clinic. The Clinic is an innovative program which provides evaluation and therapy services; behavior intervention and psychological

counseling to Clearbrook's clients as well as members of the general community in need of assistance. Through these therapies, Clearbrook provides more services than many other organizations in the area.

Clearbrook Center is a private, not-for-profit agency serving over 650 children and adults with developmental disabilities and their families. Clearbrook operates 23 facilities throughout the northwest suburban area of Chicago.

of the Chicago Park District; trustee of Princeton University; a director of the Chicago Urban League and of the National Association of Securities Dealers and of Rush-Presbyterian-St. Luke's Medical Center. Three years ago, John created the Ariel Foundation, which adopted 39 sixth-graders who are being prepared for free college education.

Desiree Glapion Rogers is a one-time New Orleans Mardi-Gras queen with a Harvard MBA. She is now the Director of the Illinois Lottery, and passes out prizes of more than \$827 million annually. Under her leadership, the lottery saw its best two years with \$1.6 and \$1.5 billion in sales. She serves on the boards of WTTW, Channel 11; the Marwen Foundation; Old St. Patrick's School; the Chicago Children's Museum; Children's Memorial Hospital; and the Museum of Contemporary Art. The Rogers shining creativity in putting back into the community has drawn national media attention.

**THE SEGALS:** More than 30 years ago, Gordon and Carole Segal co-founded the first Crate & Barrel store in Chicago's Old Town. They named the store after the containers that held the merchandise. Today, there are 46 Crate & Barrel stores in Chicago, Boston, Dallas, Houston, San Francisco, Los Angeles, Washington, D.C., Baltimore, Atlanta, Minneapolis, Detroit, Palm Beach Gardens and Boca Raton. The development of thousands of young professionals in retail and merchandising careers is one of their company's proudest achievements. While Gordon Segal is the co-founder and president of the company, he is also a member of the World Business Council; the Chief Executives Organization; the Chicago Presidents organization; and the Young

Presidents Organization. He has been honored for sales and marketing excellence; international achievement; design; brotherhood; leadership; and health and education concerns.

Carole Segal is the co-founder and corporate vice president of Crate & Barrel. She is also the mother of their three children. In addition, she co-chaired the 1990 Shining Star Ball for the Clearbrook Center, adding luster to a new fundraiser to benefit developmentally disabled children, and continues as vice chairman of the highly successful annual event. She is a trustee of Rush-Presbyterian-St. Luke's Medical Center and on its board of Overseers and co-chair of the Rush Institute on Aging. She serves on the Women's Board of the Field Museum and Lyric Opera of Chicago. Her creativity extends to the Chânes des Rottisseurs and Les Dames d'Escoffier.

### Benefit Proceeds Go Toward \$3,000,000 Pledge

Robert J. Winter, Vice President of the Foundation, and chairman of the fundraising campaign, asked the guests to make the benefit the most successful yet. "In a very real way, gifts to the Brain Research Foundation allow donors to participate with scientists who work on the very frontiers of brain research," said Winter. The laboratory where these announcements were made is part of a 40-year-old dream now being realized. The proceeds from the benefit will go toward the \$3,000,000 pledge to fund the Center for Molecular Neurobiology.

For information concerning the Brain Research Foundation or benefit tickets, call Nancy Hohfeler, Executive Director at (312) 782-4311.

## Look Good, Feel Great! Permanent Hair Removal by a Registered Nurse, Certified Professional Electrologist

Electrolysis is the only safe, sensible, and effective treatment for the removal of unwanted hair. It can free you from the limitations and frustrations of temporary remedies (tweezing, waxing, bleach, depilatories), which only result in the regrowth of coarser and more deeply rooted hair.

Electrolysis in this office is provided by expertly delivering a small amount of electrical current through a probe into the hair follicle and the hair root. By using heat (shortwave), chemical action (Galvanic), or a combination of the two (the blend method), the blood supply which nourishes the hair is destroyed. The blend is extremely effective for treating coarse and deeply rooted hair. These are the only medically approved methods of permanent hair removal. The blend and shortwave modalities are utilized in this office with great success.

Debbie Fritzshall, R.N., C.P.E., has successfully completed the National Cer-

tification Exam given by the International Board of Electrologist Certification, and the American Electrology Association (A.E.A.). This voluntary exam signifies that the requirements for knowledge and skills based on the national standards of excellence have been achieved. The completion of this exam permits the use of the designated title of C.P.E., Certified Professional Electrologist.

Electrolysis will enhance your appearance and lift your spirits. Now is the time to look good and feel good! The results you desire are only a phone call away. Call now to receive the special **\$5.00 off your first treatment**. Convenient day, evening and Saturday hours are available.

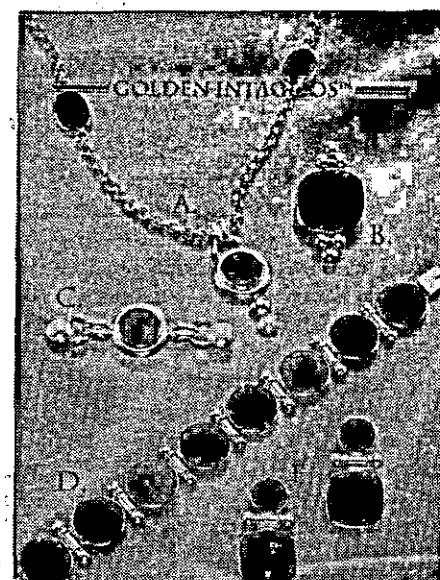

**Absolutely! Electrolysis Salon & Boutique** is located at 759 West Main Street in Lake Zurich (S.W. corner of Routes 12 and 22 in the courtyard next to Just Oak). Call Debbie Fritzshall, R.N. at (708) 550-0100.

## Chicago Chamber Musicians Adds Four New Brass Ensemble Members

The Chicago Chamber Musicians (CCM) has added four new brass members to their ensemble. They are (back row, from left): Gene Pokorny, tuba; Charles Geyer and Barbara Butler, trumpets; and Michael Mulcahy, trombone. The four new artists along with CCM founding member Gail Williams (front row, center), horn, will comprise what is to be called the "CCM Brass." With the addition of the new brass members, CCM is believed to be the first and only chamber ensemble that has a resident brass group. In addition to participating in the ensemble's subscription concerts and outreach performances, the

CCM Brass will tour as a quintet playing separate venues.

CCM has gained national attention for its innovative community outreach programs including its free "First Monday" series held the first Monday of each month at the Chicago Cultural Center; its model arts education program now in its sixth year at Chicago's Sullivan High School; and its "Music Allegro" series which brings live music to nontraditional venues such as the Lawson YMCA "Emergency Housing Program" and The Lamb's Farm, serving people with mental disabilities.

## Homes Needed For Exchange Students

This summer, families in Barrington and surrounding northwest suburban communities will have the opportunity to build a warm, rewarding international friendship by sharing three weeks of their lives with a foreign student from France or Indonesia.

EF Educational Homestay Programs, a division of EF Intercultural Foundation and a non-profit organization, is sponsoring two groups of foreign students coming to the area in June and July. With the goal of encouraging cross-cultural awareness and international understanding, EF brings students (ages 14 to 19) to the U.S. every summer to help young foreigners learn about the American way of life first-hand, flex their English language skills, and share a bit of their own culture with American host families. Students coming to the Chicagoland area this summer are especially interested in exploring what family life in the Midwest is all about.

The first program, June 15 to July 5, is a fairly structured approach to immersing the students in both the English language and American culture. The Indonesian students participating in this program are quite proficient in spoken English and will attend English classes 3 to 4 mornings a week to polish up their language skills. Classes will be held at a central location in the village of Barrington. The students will also join in planned educational and recreational afternoon field trips on weekdays, and have free time to spend with host families in the evenings and on weekends.

Busy, dual career families often find the structure of this program best matches their family lifestyle.

In contrast, the Immersion Course scheduled for July 10 through July 30 is a relatively unhurried, uncomplicated program which allows the host family and student time to get acquainted and pursue common interests. The French students who will take part in this program have studied English for 3 to 4 years and seek to really explore American English and culture by interacting with host families and adapting to their daily lives in the U.S.A.

Both programs will include three full-day excursions to the museums and sights of downtown Chicago, as well as more recreational destinations such as Gurnee Mills and the Illinois State Beach. Other optional activities will be offered to the students, including a trip to Great America, a mud volleyball tournament for the French students, and a day at the Bristol Renaissance Faire for the Indonesian group. Host families are more than welcome to join in on any of these activities.

All students come with their own spending money and will carry full medical and travel insurance. Each student will require a bed, but not his or her own room. If an extra bed is needed, one can be rented for the family. There is no program fee to become involved, but families will be asked to provide meals for the students, as well as some transportation. Carpools will be arranged to keep driving to a minimum. In addition, each participating host family will have a chance to choose which student they would like to welcome into their home.

## Hypnosis With Counseling For Changing Habits and Improved Health

The Northwest Institute for Rational Counseling is offering a unique combination of hypnosis and counseling techniques for a variety of problems.

For *weight control*, the hypnosis is used to shift your attitudes and feelings about yourself, your eating habits and even specific foods. Suggestions are given to eliminate snacking between meals; limit the amount you *feel* like eating at mealtime; and limit the taste you have for foods with fat, sugar and salt, if necessary.

For *sleep problems*, suggestions are given to provide a full night of undisturbed sleep.

To *quit smoking*, the hypnosis is used to prepare you first to feel like quitting along with suggestions to not feel like smoking. Other suggestions are given to avoid eating as a replacement. After the hypnosis prepares you to accept not smoking the hypnosis deepens its effect for quitting.

For *stress problems*, the hypnosis changes your reactions to stress with specific suggestions given to deal with all of the physical stress reactions such as

headaches, neck, shoulder, and back pain, sleep, overeating, crying, and any other symptoms. Suggestions are also given for the emotions caused by stress, such as depressions, anxiety, lack of motivation, and anger. Other ways of responding to your stressful situations are offered as well.

For *anxiety attacks* and *panic attacks*, the hypnosis will focus on the symptoms while the counseling will focus on resolving the underlying issues causing the attacks.

If you'd like to change one or more behaviors, or your attitude, consider hypnosis. You can have as many or few sessions as you need or desire.

A full range of counseling services are also offered. Martin A. Nathan has been in practice for over nineteen years providing marriage, family, individual and business counseling.

Call for information and appointments, **934-6555**. 1622 Colonial Parkway, Inverness.

## Believe It Or Not, There Is Still Hair In The Scalp Inside The Follicles

Now you may have hair you never dreamed of. No, this new product doesn't claim to grow hair, it claims the hair is already there in the follicles. Dr. Burch Stewart of Applied Consumer Research Labs says in part, "After a couple of treatments, I was amazed to find that many hairs are indeed trapped under the scalp and can emerge after the cleaning process is used."

"For three partially bald individuals—tested for 3 months—a considerable number of hairs appeared. The results were very pleasing for these, and three other individuals, who now have *normal mature hair* on formerly thinning areas. The full treatment normally requires six to twelve months."

"The inventor of this hair system is Ms. Jacqueline Sabal, who developed the process and the herbal product a few years ago. Based on our testing, I know the

system does clean out the follicles and allows hair from the follicles to appear fuller and thicker.

"I believe that this system is much safer than any other methods such as Rogaine (Minoxidil), or hair transplanting."

The product is called "**Foli-Kleen 2000 Formulas**", consisting of herbs, formulas and a shampoo.

The nice thing about this stuff is that you don't have to use it forever like Rogaine (Minoxidil). Once you get the hair you want, you quit . . . period. And you only have to use it once a day—at night—and rinse it off in the morning. Some people can, and do use it twice a day, but it's not mandatory. It depends on how fast the client wants their hair to return.

"**Foli-Kleen 2000 Formulas**" is available at **Numero Uno** in the Palatine Plaza Center on Northwest Highway.

## Natural Health Care For Life's Aches and Pains

*Dr. Reffell is a graduate of the National College of Chiropractic. As a chiropractor and full primary care physician, he is uniquely qualified to diagnose and treat the aches and pains that arise from daily living. He has an office in Barrington and welcomes the opportunity to meet with you concerning your health.*

Pain is never normal. Nor is it something people like to talk about. But ignoring the problem is the worst thing you can do.

Take the common headache for instance. It may be telling you something important but you choose to ignore it, live with it, or merely cover it up by taking medication which only serves to mask the problem further.

Dr. Reffell suggests a healthy alternative, "while other forms of treatment exist, modern chiropractic is a very effective form of therapy that emphasizes the importance of determining the CAUSE of your problem instead of treating the symptoms alone. Naturally, as we begin work-

ing on the problem, symptoms such as aches, numbness, tingling, and pain begin to fade."

Studies reveal that more than eight-five percent of Americans will suffer some sort of incapacitating pain at some point in their lifetime. Many of these individuals will look toward chiropractic for relief. And they're in good company. Many well-known celebrities and sports stars benefit from chiropractic care: David Letterman, Elizabeth Taylor, Mel Gibson, and Joe Montana, to name a few.

Most football and basketball franchises have a chiropractor on the team. Golf and tennis professionals and every U.S. Olympic Team use chiropractic care to boost peak performance. (In fact, Dr. Reffell has personally treated Olympic Champion athletes.)

So, if you're hurting and would like to experience relief in a warm and friendly environment, consider visiting Dr. Reffell at Northwestern Chiropractic Center.

## Shelter's 6th Annual Golf Outing and Dinner

The Signature Group will sponsor Shelter, Inc.'s 6th Annual Golf Outing and Dinner, at the Marriott's Lincolnshire Resort. Sponsorship is so important because it allows all of the proceeds to go directly into our programs for children. Get in the swing and enjoy a day of fun to benefit Shelter's programs of emergency and temporary care and housing for children and adolescents in the northwest suburbs.

There will be a shotgun start at 1 p.m. The entry fee of \$125 per golfer includes green fees, cart, banquet dinner and tee gifts. Rounding out the day will be a putting contest.

Area businesses are invited to become hole sponsors. For \$100, your products or services can be highlighted on the golf course and in the program. Approximate-

ly 150 people are expected to attend the event. This year's chairman of the outing is John Frindell.

Shelter is a child welfare agency that provides emergency and temporary housing for children, birth through age 17, who are the innocent victims of abuse or neglect. The children are cared for in licensed foster homes and two professionally staffed group homes. Any time of the day or night, every day of the year, Shelter's professional staff acts quickly to place a hurting child in a warm, safe environment in order to prevent further harm from occurring.

Reservations are still being accepted for the fun-filled Outing on Thursday, June 16. Call Shelter soon at (708) 255-8060 to reserve your space or to obtain more information.

Artist and breast cancer activist Matuscheka received the hospital's

"Humanitarian of the Year" Award for her efforts to raise awareness about the disease. Steinberg is a member of Mount Sinai Service Club. ## BAHS To Sponsor Tailgate Antique Show

Barrington Area Historical Society is holding their first Annual Tailgate Show on the grounds of the Victorian Donlea-Kincaid and Applebee houses at 212 West Main Street (Lake-Cook Road), Barrington, Illinois, Saturday, June 25, 1994. Beginning with their first year, the Barrington Area Historical Society is looking forward to establishing a yearly tradition. Carefully selecting the Antique dealers are the committee chairman Lynne Rushing, along with publicity chairpersons Ginny Ellefson and Pat Fein. The committee feels that they have assembled a wide range of professional exhibitors that have been collecting special items to offer for the first time at this show.

All dealers welcome the opportunity to share their knowledge with new and experienced collectors. In recent years, antique shows have become more popular with young budget-minded families who recognize that excellent values as well as the uniqueness of the many one-of-a-kind items. This show will have a variety of

quality antiques to attract the attention of the most discriminating shoppers such as clocks, linens, silver, fine porcelain, folk art, furniture, primitives, beautiful antique jewelry and much more.

Several special features will be of interest. A clock repair service and the well-known Dunning Auction House from Elgin and Chicago will be available for a verbal appraisal by two of their professional staff between the hours of 1-3 p.m. for a \$5.00 fee per item.

Please make it a point to visit the Barrington Area Historical Society booth and store at the Tailgate show. All proceeds go to the BAHS for the preservation of documents and the exhibit of the history of this area and to provide specialized educational programs. The Society receives no village, county, state or federal tax dollars and is entirely supported through dues, gifts and fundraisers.

The Historical Society would appreciate any donation of antique items to be sold in their booth. Please contact the Society office at 381-1730. Pick-up can be arranged if necessary.

## Hypnoanalyst Has Program For Conflict Resolution

"Conflict resolution which produces win-win results is something we can learn," says **Sandra J. Buzan**, a Hypnoanalyst, who has had success with helping people learn new ways to connect with others.

Your relationship may not be the problem, it may be the lack of an alternative process to resolve the disputes.

"If people have to either fight or flee without getting the outcome they want, their habitual pattern is not working," says Sandra. These techniques allow a new response to any situation without guilt or fear.

With hypnoanalysis, the underlying issues can surface and be resolved. Through hypnosis, people can learn to

change their response to get what they need. Through analysis, people can resolve major blocks in communication and learn to express feelings without attacking or withdrawing.

"These communication skills are a collection of simple, effective techniques that facilitate cooperation with others. These are useful for resolving difficulties with family, friends and coworkers," says Sandra.

**Sandra J. Buzan, M.A.**, combines 15 years of healing the mind and body using hypnoanalysis and psychotherapy. She is in private practice at 421 North Hough Street, Barrington, Illinois. She works with individuals, families, and groups. For details, call (708) 382-0930.

## Framing At Its Best!

Although we have always framed art work other than our own clients' portraits, because of our studio affiliation many people may not have recognized us as a primary local source for framing other items. Our own Savannah Walters has fifteen years of custom framing experience... with five of those years spent at a specialty limited edition print and framing gallery.

Each of our more than fourteen hundred moulding samples is selected by Savannah and lines are updated at least twice a year. Our hand carved, gold or metal leafed, hand painted or color washed frames will satisfy the most discriminating tastes. However, our extensive lines offer something for everyone's budget while serving up more than the typical fare you might see

elsewhere. We also carry a wide variety of fabric and paper mat colors, frame liners and wooden filets. We can creatively and beautifully design your art pieces for display including many kinds of three dimensional objects, photographs, ink and pencil prints, needle point and embroidery pieces, oil and watercolor paintings, serigraphs and all manner of limited edition prints requiring preservation materials. Our mouldings also make sensational mirror frames to complement any style of decor.

For a special treat, be sure to also visit our in-house massage therapy facility operated by certified massage therapist Savannah Walters.

## NW Suburban Guild Helps Small Patients

Service is the purpose of the Northwest Suburban Guild for Children's Memorial Medical Center. The membership of approximately 35 ladies have obligated themselves to serve coffee and tea to the parents of the small patients being treated at the hospital. Not only does this give Guild members an opportunity to offer some comfort to the parents but also provides a chance to render smiles to children who appreciate the smile of a friendly and caring stranger.

As a bonus the ladies provide additional support to those patients who need more individualized attention. An adult will take a patient into the Child Life Room at the hospital and using specific instructions

from the hospital staff provide the stimulation needed by her charge.

The Guild was formed in 1976 with the expressed purpose of service to those in need and fund raising for specific hospital needs. They are presently planning the 1994 Housewalk to be held in September. This year's Housewalk will complete the \$100,000 pledge made to the Children's Memorial Medical Center. In preparation for this year's event members and their guest attended a fund raising luncheon where plans were finalized. Subsequent to business, a fascinating presentation by Maron Matz Hindman, director of marketing for Leslie Hindman Auctioneers, Chicago, provided an enlightening and

entertaining over-view of the history of auctioneers in Chicago. Ms. Hindman described the interesting estates represented by Leslie Hindman Auctioneers, and explained consignments, cataloguing and auction procedures. Proceeds from the luncheon will help defray expenses for the

September Housewalk. The Inverness Housewalk is held every three years and the proceeds benefit the Medical Center's Child Life program. The 1994 Housewalk Co-Chairs are Denise Curry and Tricia Lynch.

## Coach Davis Teaches Lessons of Life, Sports in Newly Formed Venture

✓ Dan Davis, coach of multiple sports at Hoffman Estates High School has begun a new pursuit—personalized instruction in the techniques and training methods of football, basketball, baseball, soccer, and weight training for young athletes (both boys and girls) aged 9 and older. But, don't be surprised if his students come away from their lessons with more than enhanced skills in their sport of choice. Davis has become a bit of a local legend in reaching out to kids with basic messages of self-sufficiency, respect for others and positive thinking. He has successfully communicated these messages as a teacher and coach for the past 13 years. In the process, he has come a long way from his rural roots in Texarkana, Texas, where he excelled in football, baseball, basketball and track.

A graduate of Texas A&M, Davis was Captain of a Southwest Conference Champion football team and a pro prospect before he went into coaching. Today, he sees a need for more individual attention for young athletes. "Fundamentals are extremely important as a young athlete begins preparation for competition in his/her sport of choice. Unfortunately, instruction often

comes from people who are well intentioned, but who don't have the knowledge or experience to get the young athletes started right. We all know how hard it is to break bad habits."

Davis' program is designed to bring the athlete and his parent or coach together in close coordination. "After an initial assessment, we teach basic principles at a level that will help athletes reach their potential more readily. But, we don't leave out mom and dad. We give the athlete and their parents a plan which enables them to work together toward reachable goals. Too often, sports takes the youngster out of contact with the family. We bring them back together."

Davis contends that group lessons are fine, but are not for everyone. "Instruction in groups is probably best suited for the athletes of average ability, because that's the way group instruction is developed. However, the best athletes are generally not challenged by it, and those who need help in specific areas are not well served in groups." Parents can get more information about Davis' individual instruction programs by calling: (708) 726-1435 or (708) 726-9246.

## Children Helping Children-BCC to Benefit Foundation

Music for the deaf? It may be a bit unusual, but that is exactly what the Barrington Children's Choir and the Chicago Choirmen are planning. "Summer Serenade - An Evening with Mozart" will be held June 3 at 8:00 p.m. at the Woodstock Opera House. The concert will benefit the McHenry County based Foundation for Deaf Children.

Children helping children is what this concert is all about. The children's choir of 105 auditioned voices is excited about the prospect of being able to help others who don't have the capability of listening to the beautiful music the choirs perform. Choir members will have several opportunities to meet their hearing impaired friends at rehearsals and at the gala reception following the concert.

✓ Vern Wolff, President of the Foundation for Deaf Children, became involved with the Barrington Children's Choir when his daughter Sara auditioned and became a member of the BCC. The two groups seemed to fit together as the idea for "Summer Serenade" developed. The

Choir is pleased to have some of the Foundation's children as their honored guests at the concert. "Although the profoundly deaf can't hear the music, they respond to the vibrations and react to it like any hearing child would," said Vern, who enjoys the hands-on with the kids.

✓ Peggy Crawford, the founder and director of the BCC, and Thomas Rasler, director of the Chicago Choirmen, are also thrilled about the performance. The Children and the Choirmen will perform a major work, Mozart's Litany in B<sup>b</sup>, and other choral selections, accompanied by a 14 piece orchestra and several vocal soloists. The two groups have performed together several times, once being with the world renowned American Boy Choir of Princeton, New Jersey at Hemmens Auditorium in Elgin.

Both choirs are pleased to be able to benefit the Foundation for Deaf Children, a not-for-profit organization, founded in 1993 by current President Vern Wolff. The Foundation is dedicated to establishing

## Wish Ball 1994 Makes Children's Wishes Come True

Women's Board member Kristine Prass and Board member Phillip Prass of Barrington chatted with the Foundation's Executive Director Linda Giovacchini and her husband, Jim Parck of Chicago.

"We're pleased to announce that this year's gala raised nearly \$200,000 for Make-A-Wish," said Suzanne Polito-

Frishman, Wish Ball Co-Chair with Gramas. "This level of success could not have been realized without the generosity of our sponsors, the efforts of our fellow Women's Board members and the dedication of the volunteers who helped present the Wish Ball," she continued.

The Make-A-Wish Foundation, dedicated to the happiness of children who must bear the burden of illness just as they begin to dream, is the largest wish granting organization in the world.

## Students Can Learn to Pay Attention

The ability to focus attention may seem simple to you. But paying attention is a skill that must be learned. Many students cannot control their attention because they have never learned how to direct their thoughts and energies.

Dr. Raymond Huntington, founder and President of the Huntington Learning Center, says that parents can help children improve their ability to concentrate. The following are three methods Dr. Huntington recommends in helping your children improve their attention:

**1. Using positive self-talk and positive images.** At sporting events you often see one player standing alone, muttering to himself, "OK, you can do it! Keep your eye on the ball." This is "self-talk," an important tool for controlling attention. Children can be taught to use it.

People also improve their attention span by controlling the images they see in their mind's eye. When a runner is half-way through the race, she may picture herself crossing the finish line; or a dieter may imagine his new appearance when tempted by an ice cream cone. These images help keep attention focused, and increase motivation to complete the task.

**2. Asking questions about the work.** Another way to direct attention is to ask

questions while studying. Some general instructions are: "What is this paragraph about? What is the evidence that supports the central idea? Is this argument true or false? Why?" Asking themselves questions helps students bring their attention back to the task at hand.

**3. Setting specific study goals.** One way to improve is for children to work toward specific goals as they study. You might want them to study until they can tell you the main point of the paragraph, or until they can solve a specific math problem. Together set reasonable goals, and discuss each goal with your children. Remember that many small goals are better than a single large one.

At the Huntington Learning Center, study skills are integrated into specially designed tutoring and enrichment programs. With centers nationwide, Huntington is a recognized leader in the field of diagnostic testing and evaluation to pinpoint a student's weak study areas. Programs are offered in reading, writing and math, as well as college SAT/ACT prep courses.

Parents who have questions or who wish to discuss specific problems should contact the Huntington Learning Center in Barrington at (708) 382-3655.

## Brian Piccolo 5K Run and Fitness Walk

Research Fund with the first Piccolo Golf Day.

The current cure rate for Brian's type of cancer is 95%; in 1970 the cure rate was only 5%.

After raising over \$2,000,000, from 1971 through 1991, a permanent Research Endowment has been established at the Sloan-Kettering Cancer Research Center in New York.

In 1992, the Brian Piccolo Cancer Research Fund established a Research Endowment at the Rush Cancer Center of Rush-Presbyterian-St. Luke's Medical Center in Chicago dedicated to breast cancer research. The Fund also supports two local families: Cancer Research at Children's Memorial Hospital and Clearbrook Home for the Handicapped in Rolling Meadows.

The NFL has helped start this local program with a \$20,000 donation, and added \$405,000 in 1993. The proceeds from the '92 and '93 Brian's Run and the Piccolo Golf Days brings this new research fund total to over \$850,000.

The 1993 Brian's Run effort was able to add \$60,000 to the fund. With runner entry fees and the generosity of our monetary and product/service support sponsors the 1994 Run hopes to surpass the '93 effort.

Please join with Brian's daughters and friends for Brian's Run VI on Sunday, June 19, 1994, at the Chancellory, Itasca, Illinois.

The 24th Brian Piccolo 5K Run and Fitness Walk will be held Sunday, June 19 at 8 a.m. at the Chancellory (formerly Hamilton Lakes), Itasca. The Run and Fitness Walk begins and ends near the intersection of Park Boulevard and Pierce Road, at the Chancellory.

Parking is available. Call Raceline at (708) 773-6800 for details. Packet pickup and registration will be June 16, 17 and 18 at The Chancellory Fitness Center Wyndham Hotel, or write Brian Piccolo Cancer Research Fund, Brian's Run, P.O. Box 11477, Chicago, Illinois 60611.

Brian Piccolo, Chicago Bears running back, died of cancer on June 16, 1970, at the age of 26. An All-American half-back from Wake Forest, Brian joined the Bears in 1965. ## The School House Cookbook

Seven Barrington High School teachers and staff members (Phyllis Kohnke, Tranetta McComb, Richard Nicholas, Patricia Stepanek, Jim Stevens, Susan Tomsha, and Terrie Van Leirsburg) have been compiling the "School House Cookbook." This cookbook will be available for the first time at registration in August. It will cost \$7.00 and includes 235 favorite recipes from Barrington High School employees and former employees.

It is the committee's hope that because we've shared so many wonderful recipes with each other over the years, that this cookbook would not only bring fond memories of favorite friends and teachers in years to come, but also would act as a fundraiser for the Barrington Food Pantry. All profits will be donated to the food pantry.

The Food Pantry serves people in the

Barrington School District. Clients are referred by social and government agencies, and friends. Fund requests for emergency needs are also considered. All services are handled by volunteers.

In addition to providing non-perishable food and gift certificates for fresh food, volunteers bring holiday gifts of food and other essentials to senior citizens with low incomes several times each year. The Barrington Food Pantry is active in the annual "Barrington Giving Day," sponsored each December with the Salvation Army, serving over 200 families with food, used clothing and gift. Supplies and money from the Food Pantry are a major part of this holiday service.

So, remember to look for "The School House Cookbook" at registration and other activities throughout the next school year.

## Local Residents Receive 1994 Philanthropic Medallion Awards from Alexian Brothers

Dr. Carol Heidmann of Long Grove accepts the Silver Medallion award from Mike Singletary.

Mrs. Gloria Kane (left) and Dr. James Kane, Sr. of South Barrington accept the Bronze Medallion award from Mike Singletary.

Mr. Richard and Mrs. Roxy Pepper of Barrington accept the Gold Medallion award from Mike Singletary.

Rosa and Dr. Carlos Shibata of Barrington accept the Bronze Medallion award from Mike Singletary.

As part of the festivities leading up to the Alexian Brothers Medical Center (ABMC) Eighth Annual Garden Ball, a special VIP Reception and Awards Ceremony was held to honor the Medical Center's many loyal and generous donors. The formal reception and ceremony was held in the ABMC Conference Center on Thursday, April 14, 1994.

Twenty-four families and corporations from the Chicago area received their 1994 Philanthropic Medallion Award and most were on hand at the Thursday evening ceremony where Veteran Chicago Bear Mike Singletary and his wife, Kim, presented the Gold, Silver and Bronze Medallions. Mike and Kim Singletary have a special tie to ABMC as they not only utilize health care services at the Medical Center (their fourth child was born at ABMC in January of 1993), but they also served as Honorary Chairpersons for the 1993 Garden Ball.

The VIP Reception and Philanthropic Awards Ceremony features presentations of the Gold Medallion Award (contributions of \$25,000 or more), Silver Medallion Award (contributions of \$10,000 - \$25,000) and the Bronze Medallion Award (contributions of \$5,000 - \$10,000). The Gold Medallion recipients for 1994 are Eisenberg Foundation for Charities of Chicago and Mr. Richard and Mrs. Roxy Pepper of Barrington. The Silver Medallion recipients include Dr. and Mrs. Z. John Bilos of Elk Grove Village, Dr. and Mrs. Gerald Boyle of Oak Park, Mr. and Mrs. Richard Brennan of Oak Park, The Fred J. Brunner Foundation of Franklin Park, Dr. Carol and Mr. John Heidmann of Long Grove, Dr. and Mrs. In. W. Kim of South Barrington, Dr. Panduranga Kini of Palatine, Dr. and Mrs. Choong Koh of Northbrook, Mrs. Beatrice LaVezzi of Itasca, Dr. and Mrs. Steven Leibach of Buffalo Grove,

and Dr. and Mrs. Jerrold Schwartz of Northbrook. The Bronze Medallion recipients include Dr. Joseph Blair of Elgin, Ms. Mary Doherty of Oak Park, Dr. and Mrs. John Gorney of Wheaton, Holliser, Inc. of Libertyville, Dr. and Mrs. James Kane, Sr. of South Barrington, Mrs. Marie LaVezzi of Itasca, Dr. and Mrs. Carlos Shibata of Barrington, Dr. and Mrs. Michael Vender of Glencoe, Ms. Jo Willard of Elk Grove Village, and the Wyndham Hamilton Hotel of Itasca.

"As we get ready for our most important annual fundraiser—the Garden Ball—it is only fitting that we use this exciting prelude time to honor and most gratefully acknowledge an outstanding group of Alexian Brother Medical Center donors who have and continue to give the gift of themselves so that others may experience the benefit of quality health care and holistic care," comments Larry Herforth of Kildeer, Chair of the Board of Trustees, Alexian Brothers Medical Center. "We at Alexian Brothers Medical Center are most honored and grateful to have these Medallion Award recipients as part of our family."

Following the presentation of Medallion Awards, Mike and Kim Singletary shared their devotion to Alexian Brothers Medical Center. "It is always an honor to be part of something as wonderful as this Awards Ceremony and the Garden Ball," adds Mike Singletary, 1993 Honorary Chairperson for the Garden Ball. "We are thrilled to be here and to come together for an important reason like this."

Kim Singletary added her lighthearted comments of how she will have the opportunity to "try out" the ABMC new Mother and Child Center, a state-of-the-art obstetrics and gynecology department at the main campus of ABMC which opened in October of 1993, when she expects the arrival of their fifth child in May.

## Barrington Women Attend Wedding in Japan

Sashimi, seafood jelly and an assortment of marinated rare beef and oriental style vegetables were enjoyed at the wedding reception of Mitsuru and Junko Murata at Mairu Parku in Kumamoto City, Japan, last summer. Pictured behind a lovely centerpiece of Higo Camelias, Kumamoto Prefecture's native flowers are (from left): Lee Ann Southorn, Trinette and Theresa Mura, Barrington.

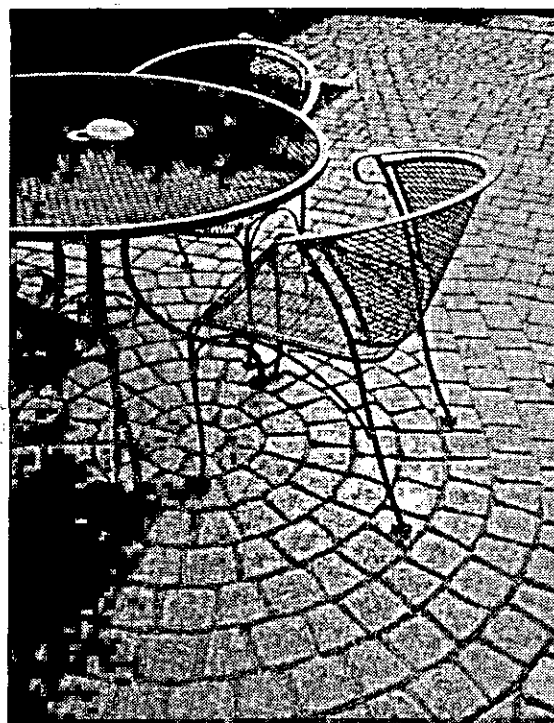

Lee Ann has now returned from three years of teaching English in Japan and is program coordinator for E.F. Educational Homestay Programs which is hosting French and Indonesian youths this summer. This autumn, Lee Ann will attend the school for International Training in Brat-

Trinette travelled throughout Kumamoto Prefecture for most of last summer and returned to finish her senior year at Barrington High School.

Theresa, residing in Kumamoto, has begun her third year as a teacher of English and American culture at I.E.C. University and is studying the Japanese language and Nihon Ga (the art of Japanese painting). public awareness and support, which benefits hearing impaired children. The Foundation is currently active in Northern Illinois and works through families involved in special education in McHenry County. The group expects to expand to the six county area in the near future.

The Foundation supports services, education, and funding for the hearing impaired and have been involved in projects which directly impact the children. Signing Santa, a signed production of the play "The Miracle Worker" and educational books for the children are just a few ways the Foundation is able to help.

# BEAUTIFUL HOMES & GARDENS Special Seasonal Section

## When To Renovate and When to Vacate

As the summer draws near, many homeowners are struggling with this dilemma. "In every case the issues are the same, but the solutions are different," says John C. Cazzetta, of the Barrington residential architectural firm, **Kemper Parker Cazzetta**.

The folks who decide to renovate are typically attached to their neighborhood, or their schools or their home . . . except that their home does not fit their lifestyle. For these people the key questions is resale. "We have found that in most cases, those people who stay in their home for at

least 5 years easily recover their renovation dollars. For those people who could be relocated within 2 years, then we recommend only fixing what is necessary, or what may be detrimental to a sale."

Homeowners who decide to move, do so for other reasons. "Frankly, the underlying desire is freedom . . . the freedom to live in a home which is tailored precisely to the lifestyle of their family. When their existing home dictates or constrains their lifestyle, with or without renovating, then it is time to move," adds Cazzetta. "This is a family who should design an affordable custom home. Keep in mind that even new model home plans can confine with time!"

If you are trying to decide on which direction to go, please feel free to call John Cazzetta for a free consultation. "Chances are, we have dealt with situations which are similar to yours. In either case, we enjoy the challenges of incorporating new space into your present home as well as the freedoms associated with designing custom space for new home buyers."

## How Good Is Your Kitchen?

In today's kitchen, well-made cabinetry is important, but careful attention to design and equipment is essential. How is work flow, traffic patterns and accessibility to other parts of the home and how does it fit your lifestyle?

James R. Walker, certified kitchen designer at **Barrington Homeworks** suggests you take an interesting test and rate your kitchen. Mark a number down on a sheet of paper indicating your degree of satisfaction regarding various elements of your kitchen. No. 1 is very poor to No. 6, very good or any degree in between. Then, we'll total (A) Storage Space: Enough? Is it accessible? are you using corners? (B) Work Space: Enough counterspace? Is it near the refrigerator and sink and is there safety area near the stove? (C) Lighting: Is it adequate? Your chores are less tiresome with good task lighting and good lighting is also cheerful! (D) Up-to-Date Appliances: Saves time, energy and eliminates many unpleasant chores. Microwaves, self-cleaning ovens, conduction cook tops, energy efficient refrigerators, compactors, waste disposers and dishwashers. (E) Ventilation: Keep

your kitchen crisp and fresh by preventing grease deposits on cabinets, walls and windows, while removing, odor, heat and moisture.

## A Colonial Tea party With Felicity

Many local girls, their mothers, and grandmothers were treated to a Colonial Tea party with Felicity, an American Girl, on Saturday, April 16 at Chessie's in the historic Ice House Mall, to benefit the Barrington Area Historical Society. Guests enjoyed party favors, a Colonial fashion show and an authentic tea lesson, then practiced their new skills with pots of apple tea and gourmet cookies. Many door prizes

were awarded, including round-eared caps exactly matching the American Girl character. Sarah Coy, 12, of Palatine, and seven-year-old Courtney Wilson of Inverness, were the lucky winners of the Felicity Dolls awarded at each of the tea seatings. The sold-out event raised over \$700 for the Historical Society.

"This was by far our most popular program," said Michael Harkins, Executive

Jacqueline Hale and Lisa Erickson were both winners of Colonial caps given as door prizes at the Barrington Area Historical Society's American Girl Tea Party.

Elise Detterbeck models the latest fashion in 1774 as hostess Lynn Zidek describes her gown during the Barrington Area Historical Society's American Girl Tea Party.

Director. "It's the kind of wholesome, educational program the Society likes to sponsor." Additional American Girl events are planned for later in the year.

Models of the eighteenth-century fashions included Barrington residents Sandra Barker, Elise Detterbeck, Helen Gleason, Nancy Hickman, Priscilla Rose, Sheila Vega, Lynn Zidek, Fran Colburn, Carol Nelson, Ruth Cox, Sam Oliver,

Paulette Hanson and Barbara Steinkraus volunteered at the registration and Museum Store tables during the event.

The Museum Store of the Barrington Area Historical Society carries all the books and related print products in The American Girls Collection, a series of historical fiction about five lively nine-year-olds living at different times in America's past.

## BCC Hosts School Choral Workshops

The Barrington Children's Choir recently presented eight school workshop/performance that hopefully got the audience excited about choral music. The choir visited most of District 220's elementary schools as well as Thomas Jefferson School in the Palatine School District.

The "mini" school tours are designed to provide area youth the opportunity to participate in the fine arts. The Choir's children, ages 9-17, hope to inspire others to get more involved in music and the other arts. They also hope to encourage teaching staff to spend time on music appreciation with their students.

The Choir hopes to touch the children who would not ordinarily get to hear choral

music. They sang a wide variety of music: classical, folk tunes in native languages and even a medley of popular show tunes from the musical "Joseph and the Amazing Technicolor Dreamcoat", in which the Choir is currently participating.

The audience in these mini workshops actually got to participate, and learned a new song that they sang with the Choir. The tours were fun for the audience as well as for the choir, as they all enjoyed the performance.

The Barrington Children's Choir is dedicated to promoting musically literate young adults who perform adult music with childlike simplicity. The group is a not-for-profit organization that encourages

ethnic diversity. Scholarship opportunities are available for eligible children. The audition process takes place in June. An appointment can be made by calling (708) 381-6607.

Peggy Crawford, the BCC's founder and director, hopes this program will be able to expand its horizons in the future to in-

clude areas outside Barrington and possibly to more disadvantaged schools.

This program is partially funded by the Barrington Area Arts Council/Arts Boost in partnership with the Illinois Arts Council, a state agency, and by the National Endowment for the Arts.

## Barrington Area United Way Distribute \$240,215 To Local Agencies

The Barrington Area United Way will distribute \$240,215 to local health and human service agencies serving the Barrington area in 1994.

Over the last few months, volunteers from throughout the community reviewed funding requests from thirty-two agencies. Agency requests were more than \$303,000. These United Way volunteers reviewed agency budgets, made site visits and evaluated numbers of people served, costs, demand and quality of service when determining allocation amounts.

Jim Krupka, Barrington Hills resident

and 1994 Board President knew the volunteers made some difficult decisions.

"When you have to cut \$60,000 from the agency requests, you really have to make some tough choices. It shows us we have a long way to go in terms of raising money and meeting the health and human service needs of the Barrington Area."

Some agencies receiving money in 1994 include Barrington Youth Services, Hospice of Northeastern Illinois, Family Service of South Lake County, Barrington Area Council on Aging, Boy Scouts, Girl Scouts, and the Salvation Army.

## Custom Millwork by Arkraft

Architectural Millwork is a term applied to describe all interior elements which are a product of melding materials and skills of the woodcraft. While traditionally, these materials had been wood, today they may include plastics, metals, glass, stone or anything else which a designer may wish to incorporate in a piece of furniture or cabinet.

Arkraft Corporation is a firm which applies its capabilities to producing custom designed millwork, from crafting one of a kind cabinetry to match a 19th century burled oak and ebony original, to complete

corporate interiors finished in exotic woods and veneers. In addition to its fine woodwork, it produces contemporary cabinets, and furniture using the ever expanding array of plastic materials used in kitchens, bedrooms, living rooms and baths.

While homeowners have many choices for woodwork and cabinets available through home centers, lumber yards and kitchen and bath distributors, only a custom millwork firm such as Arkraft, can offer complete flexibility and freedom to truly fulfill their architectural millwork creativity.

King Street, Alexandria, Virginia 22314. "Facts and Advice for Airline Passengers" costs \$5.00 from the Aviation Consumer Action Project, P.O. Box 19029, Washington, DC 20036.

### Is This The Future?

Will airlines no longer require a ticket to board its planes? Several upstart airlines are experimenting with ticketless flights, requiring just a confirmation number and a picture I.D. Larger competitors are intrigued by the potential, but probably won't rush to replace the old system just yet. We will see, however, a proliferation of ATM-like remote ticket dispensers in airports, offices and shopping malls; just slip in your credit card and out comes the ticket you ordered from **Carlson Travel Network**.

### Or Is This?

Automation is coming to a hotel near you, too. In what may be an industry first, guests checking into the Hyatt Regency O'Hare in Chicago and the Hyatt Regency Atlanta can bypass the front desk, using

an ATM-like machine that gets them a key in about 90 seconds. Guests insert a credit card, confirm what kind of room they'd like, and the machine dispenses the key. **Prepaid Cash Cards Simplify Currency**

Speaking of the future, Visa International, the credit card company, will be issuing prepaid cash cards sometime next year. You simply plug a card into any of the 160,000 Visa ATMs in 65 countries, and you get cash — up to the prepaid limit on your card. For someone who's visiting several countries in a single trip, it sounds like a great solution for managing foreign currency.

### Cardphones In NYC

Coinless, card-operated phones, long a staple in Europe and Asia, will be making an appearance in New York this summer as Nynex, the local phone company, begins to install the first of 5,000 of the phones in Manhattan. Vending machines will see the cards in \$5, \$10, and \$20 denominations.

## Tips from the Top of The Rock™

Margaret R. Semrad  
Broker/Manager

**The Prudential**   
Preferred Properties

Yes, we have a new service for the "just thinking about it" crowd!

**The Prudential Preferred Properties** has recently implemented a new Pre-Home Buyer Service for the person who is not really satisfied with his present home, but has not yet decided to move. And for the person who needs more information but doesn't want a Realtor spending so much time and energy that he feels obligated. This service will be of assistance by making it relatively easy to acquire updated information on the Barrington Area housing market.

As I have mentioned in other articles, the mission of the Barrington office of **The Prudential Preferred Properties** is to provide the best possible service for homebuyers and homesellers through personal, long time bonding. Being committed to customized and personalized relationships, our team enters each alliance with a buyer or seller as the "we machine." I receive many letters from customers and clients praising the extraordinary service they've received from our Realtors. I thank them for taking the time to write and am grateful to receive these wonderful letters.

In a departure from the norm, we have expanded our real estate service to include an informational system for those "not yet" ready to commit to a move. This Pre-Home Buyer Service is specifically designed for their needs. They may simply visit our office in Barrington to receive a special packet of materials geared to their interest, including community information, maps, and listings of homes in the desired

price range. If there is a need to see the inside of one of the houses, at their request, we will arrange a showing. We will also advise when there is a **Prudential Preferred Properties** Open House in the target price range to provide access to the interior of the homes.

And we will provide a continuing flow of information about housing at the desired price should these pre-buyers wish to receive on-going material on a regular basis. Even though **Prudential's** primary focus is personalized customer bonding—with eye contact if you will—we recognize the need for this kind of program.

If you are in the "thinking" stage, don't just put this article away without trying the new service I've described above. It was developed to help you gain the insight you need to make home-buying decisions that are right for you, for your family, and for your financial situation. What's the price? Nothing but a "stop by" for guidance and direction. Efficient and simple.

We, **The Prudential Preferred Properties**, are the Barrington Area's Dream House Headquarters.

And now, it's with pleasure that we congratulate Dianne Huggins of **The Prudential Preferred Properties** who was named **REALTOR OF THE YEAR** by the Barrington Association of Realtors. Dianne will be in Springfield on June 8, 1994 receiving the recognition she has genuinely earned at a banquet given by the Illinois Association of Realtors. Dianne, we are proud of you.

## 1994 Parade of Homes to be Held in Gurnee

The Home Builders Association of Greater Chicago (HBAGC) is pleased to announce the location for the suburban 1994 Parade of Homes. Located at Aberdare Estates in Gurnee, the Parade will feature eight custom homes from Chicago area builders that are fully landscaped and decorated. The Parade will be open to the public July 16 through August 7.

The homes will range in price from \$450,000 to \$600,000 and will be decorated by members of the American Society of Interior Designers (ASID). The parade will also feature a "Taste of Lake County" with food available from numerous restaurants in the Lake County area.

Participating in the 1994 Parade of Homes are seven of the top custom builders in Chicago including Arnold Buschman Enterprises, Inc.; New Tradi-

tion Homes (who will have two homes in the Parade); and Rynes Development, Inc. Each home will showcase not only beautifully decorated interiors but also the latest in architectural design and energy-saving technology.

"The Village of Gurnee is very excited about the Parade of Homes being located in our community," stated Gurnee Mayor Richard Welton. "The Village of Gurnee is very proud of the Grand/Hunt area that houses Aberdare Estates. We believe this 1600 acre quadrant, which includes a 210 acre golf courses, will be the showcase of quality development occurring in Lake County."

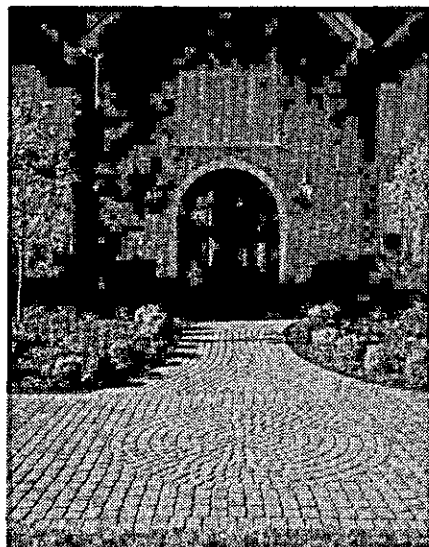

Further information about the Parade of Homes may be obtained by calling the Home Builders Association of Greater Chicago at (708) 627-7575.

## Perfect Settings Promote Feelings of Well-Being

We all enjoy that perfect setting—that beautiful landscape—surrounding a home and office complex we visit. Such a setting didn't happen spontaneously. Special settings that generate feelings of wonderment, tranquility, and contentment depend on both the perfect design created by a professional landscape architect and the perfect installation completed by well trained installers backed by years of experience. As that perfect design becomes established and matures, meticulous care and year-round maintenance are absolute musts.

Such beautiful landscapes aren't limited to shrubs, trees, and other selected plants. They can include a variety of elegant patio, sidewalk, and driveway designs utilizing **Paveloc Paving Stones** that exquisitely enhance the entire setting. Combined with natural landscape borders and timbers or lush ground covers, the **Paveloc Paving Stones**, used in contemporary, traditional, or country designs, promote the desired effect.

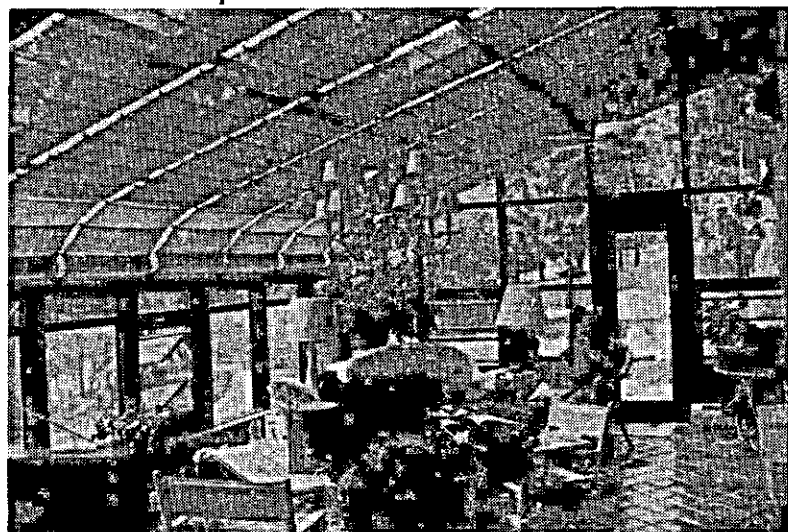

Don't simply wish that your own home or office setting generated feelings of wonderment and contentment. Create your own perfect setting—call the professionals at **Tom's Lawn and Landscaping**. They

provide *complete* landscaping service—perfect designs, beautiful installation, meticulous care, and year-round maintenance. **Tom's Lawn and Landscaping** is family-owned and operated, providing the personal touch and *genuine care* for its clients that only owner participation and involvement can assure.

## An Exciting Home Addition

In addition to providing custom room additions, with bathrooms, kitchens and fireplaces **Armcor Design & Build** is your local store for **Four Seasons**, the nation's largest manufacturer of greenhouse/solarium-type room additions for residential and commercial applications.

Each **Four Seasons** product is meticulously designed and crafted to be a practical, beautiful, and exciting home addition that will bring a new dimension of space, light and warmth to what might otherwise be an ordinary room, whatever the season or location of your home.

**Armcor Design & Build** craftsmanship and quality products are also an excellent investment and can add real value to your home. Often, much of your investment in a **Four Seasons** greenhouse can be recovered when you sell your home.

Glass room additions create views of the sun and sky and add extra living space with possibly little or no alterations. Heat-

Mirror® glass, specially designed to keep summer heat out and winter heat in, is one key to **Four Seasons'** success—especially in our Chicagoland climate.

Many patented features are available exclusively from **Four Seasons**, and all products are designed to meet or exceed building-code structural requirements and have successfully withstood more than 100,000 installations.

**Armcor Design & Build** will provide you with a complete "turn key" room addition project or you can build it yourself. Every **Four Seasons** greenhouse/solarium product is maintenance-free, weathertight and comes with a five year warranty on parts and a one year warranty on labor. # What First-Time Home Buyers Want

By Jim Berg, President  
Home Builders Association of Greater Chicago

The most common reason for renters to buy a home is that they want to own their own property. According to "What First Time Home Buyers Want," a survey produced by the National Association of Home Builders, 95 percent of respondents cited ownership as a key motivating factor. Other key reasons for buying a home were: more space (55 percent), location (35 percent) and a better neighborhood (28 percent). In choosing a home to buy, most people are looking for: energy efficient (96 percent), a bigger lot (74 percent), less crime (71 percent), a better neighborhood (69 percent), and less noise (67 percent).

Potential first-time buyers want significantly more space in their next home. Renters who intend to buy want a median size of 1,900 square feet, a definite increase over the average 1,300 square feet in single-family rental homes and the average 875 square feet in apartments. However, when asked to choose, first-time buyers strongly preferred keeping bedroom space over group activity space or larger bathrooms. More than half of the potential first-time buyers preferred a larger family room instead of a living room and a larger living room over a dining room.

The most desired household amenity was a washer/dryer followed by a linen closet, an additional bathroom, central air conditioning, walk-in closets, a microwave oven, dishwasher, pantry, security system and a fireplace. They also expressed a preference for high ceilings. One in four prefer to have an 8-foot ceiling, but most (75 percent) prefer ceilings that are 9 feet high or higher. Of those, 27 percent prefer 9-foot ceilings, 35 percent prefer 10-foot ceilings and 10 percent prefer 11-foot ceilings.

Kitchen and bathrooms are key selling points for any home. The strongest preference in kitchen features was a large countertop (78 percent), followed by a walk-in pantry (75 percent), special use

storage (53 percent) and a bay window (50 percent). Nearly three-quarters of the respondents would rather have more wall cabinets than windows. In bathrooms, renters who plan to buy prefer two bathrooms (46 percent), but nearly as many (40 percent) prefer more. For the master bath, a vanity with one bowl was the renters' top choice. Two-bowl vanities followed at 46 percent. This group want the toilet separated from the bath tub, do not prefer bidets and will not accept a sink without a base.

Renters who plan to buy a home prefer wall-to-wall carpeting in the living room, family room/den/recreation room, bedrooms and hallways. Other floor materials and covers vary with the room and usage.
