Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those tell-tale hairs quickly and conveniently in the privacy of a professional office.

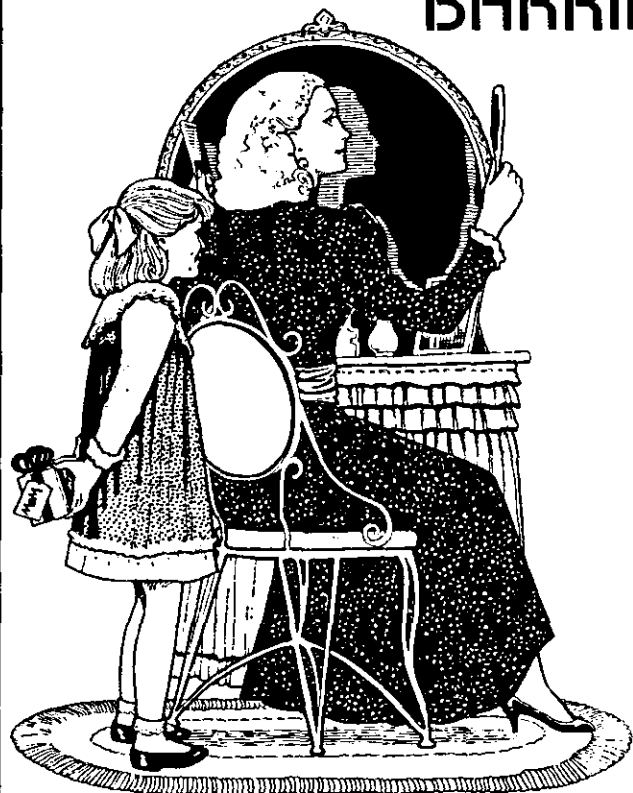

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

Clear Reflections has provided 18 years of service at the same location.

May, 1994

Dear Reader,

The cover on this month's issue of *Lifestyles* I personally find very delightful. Yes, it is a beautiful dress from Paris, but the attitude of the model seems to exemplify Spring—a little more carefree, a bit more colorful. I hope you enjoy it too.

Some wonderful events are in store for May. "Doorways Through the Decades" promises to be very exciting. How many times have you driven past stately Bellarmine Hall and become intrigued? Seems like a wonderful mix of architecture in store, so mark your calendars for May 26!

Barrington's "Phantom of the Opera"? Our very own? Yes! May 14 is the date. Fantastic music, gourmet food in breathtaking surroundings. The Barrington Chapter of the Lyric Opera is once again planning a night to remember.

Do see the Mediterranean Ancient Art exhibit at the Art Institute. It is hard to believe that some of the art work dates back to 3200 BC. Many pieces are truly exquisite. Coin collectors will enjoy the coin collection from Egypt, Greece and Rome—presented in a geographic arrangement with a map illustrating minting locations. Most of them are beautiful, all are interesting.

Happy Mother's Day to all mothers!

Until next time, may all your thoughts be sunny,

With warm regards,

Glenn M. McMonigal

BAHS's 1994 Town and Country Home Tour "Doorways Through The Decades"

"Doorways through the Decades" is certainly an appropriate title for the Barrington Area Historical Society's 1994 Town and Country Home Tour on Thursday, May 26. Each of the four homes that are open for viewing depicts a different decade and its style of architecture in the Barrington area.

The first and oldest home on the tour was built at the turn of the century during the estate period in Barrington Hills. Originally constructed as a dormitory for farm workers on the Hammond Estate, this lovely home has gone through several structural changes resulting in a home so picture perfect that it is being featured in the magazine, "Victorian Sampler."

The second home built twenty years later also reflects the grandeur of the estate period but is a Georgian style home. It dominates a lovely woodland lot overlooking a lake in Barrington Hills.

The third home is in the village and represents the era when large corporations were moving their headquarters into the Barrington area. This home is a charming Dutch Colonial that was one of the earliest homes built in Jewel Park.

The last house on the tour is another Barrington Hills home that was built after the Second World War. Although it initially was a ranch style home commonly built at the time, successive owners have transformed the modest brick ranch into a splendid French Country Style.

Beside the four homes, the BAHS is also providing guests with a rare opportunity to tour the stately Bellarmine Hall in Barrington Hills. This magnificent structure

which was once the estate home of the Hammond family is now the Jesuit Retreat House. There have been some major alterations to the original structure but the expansion has been very sensitive to the preservation of the original architectural details of the original home. Tea will be served throughout the day in the dining room.

This year, the Town and Country Tour has been expanded to include transportation to the homes, a private boutique, an optional luncheon, and a candlelight preview party. Since parking at the homes is limited, mini-buses will carry guests to and from the homes on the tour. One of the stops on the tour will be a private boutique which will feature quality home accessories made by local artisans which participants may purchase. For those wishing to have lunch, two seatings at the Barrington Hills Country Club will be provided but reservations are mandatory. And for those wishing to start early, there will be a preview party on Wednesday evening, May 25, at one of the featured homes where wine and hors d'oeuvres will be served. Later in the evening, guests will be transported to the private boutique where coffee and dessert will be served. The cost of the tour on May 26th is \$20, the optional luncheon is \$20, and the preview party on May 25th is \$35. For registration and ticket sale information contact the BAHS at 381-1730.

Of course, the Town and Country Tour is not the only event the Barrington Area Historical Society has planned in May. On the morning of Saturday, May 7th, the Fox

The stately Bellarmine Hall in Barrington Hills, once the estate home of the Hammond family and now the Jesuit Retreat House, will be among the "Doorways through the Decades."

Valley Herb Society will hold its annual herb sale on the front lawn of the Historical Society's Applebee House. Visitors are encouraged to view the herb garden located behind the Applebee House which the Herb Society created for the BAHS. And for those gardeners who want to learn how to create an herb garden, the Historical Society's Gift Shop features books on herb gardens which can be purchased along with a variety of other gifts and necessities for the home gardeners.

Saturday, May 20th is a really special day for the Barrington Area Historical Society — its ribbon cutting ceremony for the BAHS Heritage Research Center. The

Center was created by the Historical Society as a repository for documents and collections pertaining to local history. It is located in the Kincaid House on the Society's grounds and is open to the public. In honor of its most prestigious acquisitions, the archives of the Jewel Tea Company, the ceremony will be held at 3:00 p.m. on the steps of the old Jewel Tea building on Lake Zurich Road, just off Route 14.

On Friday, June 3, the Barrington Area Historical Society invites the community to join them on a bus tour of Historic Oak Park/River Forest and the home and studio

"Barrington's Phantom of the Opera" Is About To Begin!

At 6 p.m., on Saturday, May 14, the leaded glass doors in a magnificent Barrington Hills residence will open and "Barrington's Phantom of the Opera" will begin! Prompt arrival will assure guests of a tour of the amazing Music Machine collection and viewing of the silent auction items which include "Love's Pursuit," a signed and numbered limited edition lithograph published from an original pastel by Bradley J. Parrish, donated by Scott Teasdale, Woodland Art Gallery in Crystal Lake; an Executive Box at Arlington International with lunch, valet parking and clubhouse admission, donated by Arlington International Racecourse, Inc.; Barrington Historical Society basket of presidential plates donated by Jeanette Muench, Lake Barrington; and a hand-carved wooded Island of Soder play set donated by Learning Curve Toys. Proceeds to benefit the Barrington Chapter of Lyric Opera of Chicago.

Following, guests will be invited to dinner tables replete with red, black and white theme centerpieces. Catered by Ports of Call, a fresh seafood cocktail and caesar salad will begin the gourmet feasting on filet of Beef Wellington, mushroom Duxelle in puff pastry with sauce Cabernet Sauvignon, bouquetiere of fresh vegetables and Chateau potato. Hot beverages and brandied mousse in a chocolate shell will

be the dessert. Some of the wonderful prizes are: Lyric's Cabernet Sauvignon and Chardonnay wines; Marriott Lincolnshire's "Phantom of the Country Palace;" Candlelight Dinner Theatre and "Opera in Focus" puppet theatre tickets; dinners at Jovan's Grill and The Barn of Barrington; breakfasts at Egg Harbor Cafe; Beauchamp silver flower/candle holder; legal services; portrait photography; homemade desserts for party of 12; certificates for professional massage therapy; services from Studio 4 beauty salon; 30 cassette tapes of "Oldies but Goodies" from the 40's, 50's and 60's and many more appreciated items donated to benefit Barrington Lyric.

Guests will gather in the music room theatre for a thrilling concert by guest artist Lyn Larsen from Arizona. Mr. Larsen, recently named "Organist of the Year" by his peers in the American Theatre Organ Society, will musically and dramatically amaze and delight the audience as he performs on a unique pipe organ that rises and turns on a center stage platform. It is the largest theatre pipe organ in the world and has approximately 6,000 pipes, 337 keys, eighty ranks of pipes each representing a different instrument, such as piano, cymbals, flutes, violins, trumpets, gongs, drums, etc. Musical excerpts will vary from Lon Chaney's silent movie version

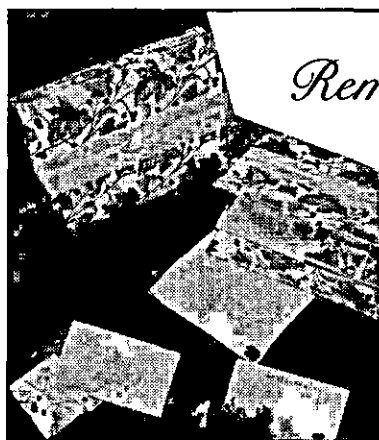

Pictured with "Barrington's Phantom of the Opera" co-chairwomen Raynette Seger and Judith Meils, Barrington Hills, is Scott Teasdale, owner of Woodland Art Gallery in Crystal Lake. Scott generously donated the framed lithograph entitled, "Love's Pursuit," a signed and numbered limited edition published from an original pastel by Bradley J. Parrish. Mother Will Want to Return to Chessie's
Again and Again

Once a 1915 train station, it now lives on as the dining room and bar of Chessie's Restaurant. Adjoining the old station is a 1927 vintage Illinois Central railroad car and a skylit atrium that overlooks the lovely shops of the Barrington Ice House.

Looking for a really special place to take Mother to dine this Mother's Day? Why not try Chessie's in Barrington? She will love everything about Chessie's . . . the uniqueness of having a choice of atmosphere; a charming old Chesapeake and Ohio dining car with its rich carved-wood ceiling and wonderful cluster chandeliers, or the old 1915 railroad station, now a trendy pub-like lounge and dining room or the airy atrium room which overlooks some of the lovely shops of the Barrington Ice House.

Mother will also enjoy the menu selections. On Mother's Day lunch and brunch will be served from 10:30-3:00. The entire menu will be offered from 3:00-10:00.

The weekend brunches feature Eggs Benedict, Seafood Crepes, Quiches and Strawberry Waffles.

The luncheon menu includes large crispy salads, many tasty appetizers (large enough for two, really) and a great variety of heaping sandwiches.

Chef Bob Janz will delight you with his choices for dinner. There are always daily specials. Everything from beef to pasta, the selection is extensive. And the average priced dinner is \$12. (Dad will enjoy that!) By the way, the children are special guests at Chessie's with special menu items just for them!

So try Chessie's this Mother's Day, and we think you'll return again and again.

Facial Plastic Surgery, Looking Your Best

Dr. Churchill specializes in plastic and reconstructive surgery of the face and neck. He has an office and private surgical suite in Barrington, and is one of a handful of physicians in the country to complete extensive subspecialty training through a fellowship with the prestigious American Academy of Facial Plastic and Reconstructive Surgery. Dr. Churchill is board certified and on staff at a number of local hospitals and surgery centers. The following is an excerpt from an upcoming newsletter.

What Can Be Done About Prominent Ears?

Ears can be made less prominent through an operation known as Otoplasty. This consists of creating deeper folds in the cartilage of the ear to reposition it closer to the head. It is accomplished through an incision in the crease behind the ear so no scars are visible. The operation can be done on one ear or both depending on the need. It is done as an outpatient with minimal discomfort. A soft bandage is worn over the ears for one to two days. An elastic headband is also worn around the ears for the first week and at night only for another week following surgery. Most people are comfortable going back to work or school within a week.

At What Age

Can This Surgery Be Performed?

This surgery can be performed on children or adults, but the ideal time is about 5 to 6 years of age. By this time, the ear has grown to 90 percent of its adult size and is almost completely formed. This is the time most children are entering school and correcting the ears will prevent teasing and nicknames from their schoolmates.

A big advantage in correcting the ears at an early age is that the cartilage is still very soft and pliable. This allows the cartilage to be molded more easily.

What Type of Anesthesia is Used?

For adults, a twilight anesthesia is usually used. With this, the patient is asleep at first, allowing the ears to be injected with anesthetic solution. As the operation progresses, the patient gradually wakes up. There is usually very little memory of the operation but the patient is able to go home rather quickly. For children, a general anesthesia is usually used. With this, the child will be completely asleep during the entire operation and unaware of anything until the surgery is done.

What if One Ear Lobe Sticks Out More Than the Other?

The ear has three main areas that are corrected. The upper portion is generally corrected by making a new fold in the ear's contour. The central region is corrected by flattening the ear closer to the bone behind the ear. The ear lobe is corrected by reducing the amount of skin behind it, causing it to flatten. Each of these three areas must be addressed during the surgery and corrected as needed so that a balanced and pleasing result is obtained. If the lobe is protruding alone, it can be made smaller with a simple tuck of skin behind it.

Believe It Or Not, There Is Still Hair In The Scalp Inside The Follicles

Now you may have hair you never dreamed of. No, this new product doesn't claim to grow hair, it claims the hair is already there in the follicles. Dr. Burch Stewart of Applied Consumer Research Labs says in part, "After a couple of treatments, I was amazed to find that many hairs are indeed trapped under the scalp and can emerge after the cleaning process is used."

"For three partially bald individuals—tested for 3 months—a considerable number of hairs appeared. The results were very pleasing for these, and three other individuals, who now have *normal mature hair* on formerly thinning areas. The full treatment normally requires six to twelve months."

"The inventor of this hair system is Ms. Jacqueline Sabal, who developed the process and the herbal product a few years ago. Based on our testing, I know the

system does clean out the follicles and allows hair from the follicles to appear fuller and thicker."

"I believe that this system is much safer than any other methods such as Rogaine (Minoxidil), or hair transplanting."

The product is called "**Foli-Kleen 2000 Formulas**", consisting of herbs, formulas and a shampoo.

The nice thing about this stuff is that you don't have to use it forever like Rogaine (Minoxidil). Once you get the hair you want, you quit . . . period. And you only have to use it once a day—at night—and rinse it off in the morning. Some people can, and do use it twice a day, but it's not mandatory. It depends on how fast the client wants their hair to return.

"Foli-Kleen 2000 Formulas" is available at **Numero Uno** in the Palatine Plaza Center on Northwest Highway.

Your Downtown Jeweler in the Suburbs

When we recently stopped by **Long Grove's Wabash & Madison Fine Jewelers**, we again heard Jerry Sherman saying, "Why settle for mass produced jewelry when you can buy unique necklaces or bracelets for the same price." Jerry was showing his customer his brand new line of custom, hand made necklaces and bracelets.

store size and Jerry is showing his appreciation to his customers by offering his beautiful selection of Citizen watches, at a 30% savings off his regular pricing. Whiplash Injuries—The Real Cause and the Right Treatment

Dr. Reffell is a graduate of the National College of Chiropractic. As a chiropractor and full primary care physician, he is uniquely qualified to diagnose and treat the aches and pains that arise from daily living. He has an office in Barrington and welcomes the opportunity to meet with you concerning your health.

Whiplash is the most commonly occurring neck injury in the U.S. today. Its occurrence is on the rise in metropolitan areas and, surprisingly, among women (the incidence of whiplash is five times higher in women than men). The term 'whiplash' (or more properly: 'hyperextension/hyperflexion injury') is used to describe the painful and debilitating condition that results when the head is thrown violently backward (hyperextension) and forward (hyperflexion) during a traumatic insult to the neck, often leading to loss of consciousness. While whiplash is usually associated with car accidents, it also occurs in sports injuries, falls, and even from being pushed from behind. The resulting injury affects both the hard tissue (bones) and the soft tissue (muscles, ligaments, tendons, nerves, etc.) of the cervical spine and surrounding region, causing damage that lasts anywhere between six months (in 75% of cases) and more than two years (25% of cases). As you will see, damage to the soft tissue is the main cause of prolonged pain in the Whiplash patient.

Symptoms Begin Hours or Even Years After Initial Injury

The most frequent symptoms of whiplash include: stiffness/achiness; headaches; shoulder/neck/arm pain; nausea; chest pain and more. Many times the injury is not felt immediately by the injured person. Authorities estimate injuries may not be felt for several hours or even years following the initial trauma, which makes early treatment extremely important in preventing future problems. Dr. Reffell explains, "I've had patients come to my office who woke up one day with headaches and neck pain for which there seemed to be no apparent cause, only to discover that a year or two earlier, the patient was in a motor vehicle accident but was never treated for their soft tissue injury."

Soft Tissue Injuries—The Real Culprit

"While a patient may have healed from their bone fracture, it is the injury to the soft tissues that takes time to heal." Dr. Reffell continues, "The soft tissues of the cervical spine contain many structures capable of causing pain. Until these areas are treated with the appropriate therapy, these structures will continue causing pain and may lead to early degenerative changes and further discomfort." Each whiplash case is unique. Therefore, the most impor-

Chicago Hosts "PeaceOpera" World Premiere

The Harold Washington Library, Chicago, will sponsor the world premiere of a new music/theater work, "PeaceOpera," written by local composer James Hegarty, on May 14 at 2:00 p.m. Presented by the Orpheus Classical Music Series at the Washington Library, the work is a musical essay on world peace and non-violence through the media of music, libretto, movement and lighting.

The libretto is based on the words of Gandhi, Tolstoy, King and Mandela, and is inspired by the need for a lasting peace throughout the world. It uses many social and political references from these four internationally-famous peace workers to make a broad-based statement on the subject of world peace, with the application of non-violence to accomplish peace objectives.

Scenes referring to the Calcutta Riot of 1947, the murder of civil rights workers in Philadelphia, Mississippi, and Mandel's imprisonment on Robben Island all depict the struggle for peace and freedom from oppression.

The work is in one act comprised of a prologue, six scenes, and three solo interludes. It features computer-realized sound structures which provide the underlying structure and atmosphere of the work. The score was written through manipulation of digital sound files of vocal and violin sound sources.

Soprano Heather Maxwell heads the cast of musicians who will present "PeaceOpera," and musicians from the Elgin Symphony Orchestra include Rebecca Scott, violin, with Brian Oriente and George Blanchet, percussion. Isadore

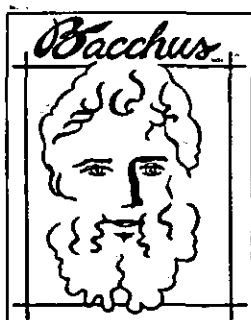

James Hegarty, Composer of "PeaceOpera". The World Premiere will be held May 14 at the Harold Washington Library in Chicago.

Geller will narrate, and composer James Hegarty will conduct the ensemble. A chamber chorus from Elgin Community College, directed by Dr. John Slawson, will sing the parts of the crowds, and Butch Wilhelmi will design the lighting.

Composer James Hegarty has given numerous recitals of his computer-realized music works in the Chicago and Midwest areas. His composition and arrangements have been performed by the Chicago Symphony Orchestra and the Chicago Pops Orchestra.

"PeaceOpera" is offered free to the public and will be held at the Harold Washington Library, 400 South State Street, Chicago, beginning at 2:00 p.m. on May 14. The music/theater work will last approximately one hour. For further information, please contact the library, (312) 747-4850.

5th Annual Catholic Charities "Hearts for the Homeless" Nets \$24,500

Pictured at the 5th Annual Catholic Charities "Hearts for the Homeless" benefit are: Joseph Cardinal Bernardin, Archbishop, Archdiocese of Chicago with members of the Boho family, five year supporters of the "Hearts for the Homeless" benefit. From left, Pat and John, Barrington Hills with daughters Sherry and Stacey, Crystal Lake.

The popularity of Joseph Cardinal Bernardin was once again evidenced as he was warmly greeted by many of the 339 guests attending the 5th Annual Catholic Charities "Hearts for the Homeless" last February at the Cotillion in Palatine. This benefit raised \$24,500 to help the homeless throughout the northwest suburbs.

"Hearts for the Homeless" proceeds go toward supporting the cost of apartments to assist homeless families in life's transi-

tions and, in general, to provide their needs regardless of religious, racial, nationality, and economic backgrounds in the northwest suburbs," reports Stephen O'Brien-Combs, Regional Services Representative, Northwest Suburban Services based in Rolling Meadows.

For information on Catholic Charities and how they may help you or someone who needs help, please phone (708) 870-0560.

Are You Ready For Spring?

Two months ago, when we returned from Germany, we found piles of snow in our driveway and 20°F below 0! It was quite a shock and a lot of work! In Germany, "bitterly cold" meant 35°F with flowers coming out of the ground!

During our visit at the World's Largest Trade Show in Frankfurt, we found some very interesting and lovely items for our store. Handpainted beer mugs (Bier Seidl), pewter pitchers, plates and vases, wooden caricatures and original cattle bells from Tinol will be coming in the next few weeks and month.

Late this summer, we expect to receive rustic wrought iron frying pans. These pans are handmade and forged from one piece of iron. Housewives, hobby cooks, restaurants and private households in Europe have been using them for years!

We are excited about all these new arrivals. Stop in and check with us for arrival dates!

Don't let your summer become boring! Spruce up your home and your life with a truly unique item from The Old World Crafts and Galerie!

Local Artists Welcome At Palatine Art Center

inspire the novice and encourage experimentation with materials and supplies.

Palatine Art Center was not able to sponsor its annual local artists show in '93 and wanted to provide a new opportunity for the local artist. We have had a good response to the program and are looking forward to a successful year of displays.

As an art gallery, Palatine Art Center carries posters and limited editions. By opening the window to the local artist, we are now able to offer original art works to the local art collector, as at least a part of the exhibit will be for sale.

The program is in its beginning stages. We have more information available and we are also providing incentives to the artist to aid in his or her presentation. Please contact June or Dorothy at 358-8440. The store hours are as follows: Monday and Thursday, 9 a.m. to 9 p.m.; Tuesday, Wednesday and Friday, 9 a.m. to 6 p.m.; Saturday, 9 a.m. to 5 p.m.; and Sunday, 11 a.m. to 4 p.m.

With the arrival of Spring, bright colors and new attitudes, Palatine Art Center catches the spirit. We are reserving our gallery window for the local artist to develop and set up his or her own show. The exhibits will be changed every two weeks, bringing a new artist and a fresh look every time. All art medias are welcome. We are hoping to expose our customers and local public to all types of art work — the various paints, inks, charcoal, pastel, pencil, ceramics, pottery, woodworking and home decoration. We want to promote our local artists and also

Trendy Bacchus In Kildeer

Bacchus, the god of earthly pleasures surely had an appreciation for the finer things in life. Consistent with that philosophy, **Bacchus**, the trendy Kildeer restaurant located at Rand Road and Quentin, is offering a host of sensational foods accompanied by exceptional wines from around the world.

In addition to **Bacchus**, Christian Zeiger also owns Alouette and Amourette restaurants, but fills a different niche with this charming restaurant. **Bacchus'** fare is simpler, lighter cuisine. The menu is strictly French but incorporates elements from other regional styles of cooking.

Bacchus is the perfect rendezvous spot for busy professionals — it is open long hours, serving from 11:30 a.m. to 1:30 a.m. Whether your choice is a modest Salade de la Maree (seafood salad) at noon;

an appetizer of Norwegian Smoked Salmon and toasted brioche at 4:00 p.m.; Confit of Duck or Jambalays for dinner; or a Linzer Raspberry Tarte after the show, **Bacchus** can prepare it tout de suite to be accompanied with a very special wine by the glass.

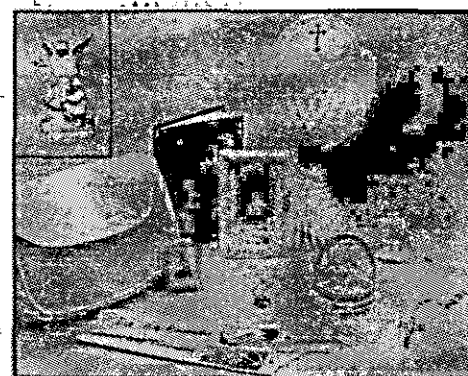

Bacchus is a haven for wine aficionados. The knowledgeable staff is always ready to recommend a favorite vintage. A wide variety of California and European wines are displayed for purchase by the bottle or case.

How would you enjoy being a full or part time host or hostess at this interesting and fun establishment? Call Peter or David or Christian at 438-3212 and be part of this convivial environment. It's a great meeting place, where everyday is a new day!

Edna Hibel—Mother's Day Plate

Collectors of Edna Hibel's artistic creations are in for another treat with the release of her third plate in the Annual Mother's Day Series. Hand numbered and rimmed in 23k gold, the new plate is entitled "Jacqueline and Renee." It is a poignant painting of the gentle "Hibel mother" holding her small child, done in rich colors with Hibel's distinctive technique. You can find it at **The Christian Shop** in Palatine.

When you are thinking of ways to express your love to your mother on Mother's Day, visit **The Christian Shop**. Be it a new Christian novel or an inspirational book; a newly-popular Gregorian chant on tape or C.D. or the soundtrack from the movie "Shadowlands," you will find it at this well-stocked shop with a

friendly staff located in the Foxfire Shopping Centre at the intersection of Rand and Hicks Road.

Morning Show Host Honored For Efforts

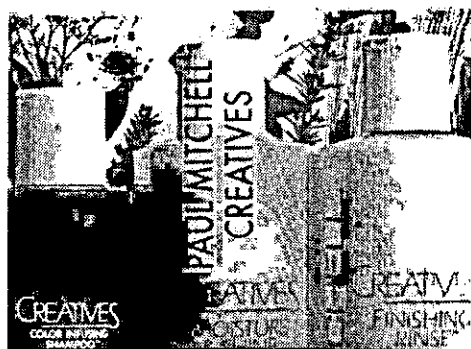

Left to right: Sylvia Kinney, Co-chair; Steve Cochran, morning host on WPNT-FM 100; Dino Lubbat, owner Trattoria Dionotto (located at 163 West North Avenue), and Susan Mortenson, Co-chair. After a wonderful luncheon prepared by Dino Lubbat, Sylvia Kinney and Susan Mortenson, benefit co-chairs presented

Steve Cochran with a Tiffany crystal star in thank you for emceeing Infant Welfare Society's "Reach Out" benefit on March 12.

The event raised more than \$240,000 to help support health care services for Chicago's working poor.

Moms Are Special

We may offer special discounts on services to new clients, but the quality of our work is never discounted.

Treat your special lady to a gift certificate from **Hairs To You**. They are not

only available for Mother's Day, but for any occasion at all times.

Question of the Month

Many of you have asked: *Why should I buy salon products instead of the drug store varieties?*

The main reason is that salon products have a higher concentration and are top quality. You need to use such a small amount, that all of our products are cost effective. Many ingredients in drug store products are harmful to your hair.

This is a good time to try the new Paul Mitchell botanical products. The new line is available at a 20% savings through the month of May.

Intrigue, Romance and Adventure Await Mom

Mother's Day — one of the few days that we allow ourselves to be pampered. What is your wildest dream? To sail the high seas — to jet to an exotic country — to experience intrigue, romance and adventure? For under \$25, your children can make your dreams come true. Ask them for a fiction book from **Jordan Temple Book Center** in Crystal Lake. Escape to another life without leaving your home or disrupting your chauffeuring schedule!

A few of the exciting new fiction books are: *K is for Killing* — for those of you hooked on the Sue Grafton series of mysteries; Belva Plain's *Daybreak* for a romantic interlude you won't forget; or *River God* by Wilbur Smith, an epic novel about ancient Egypt.

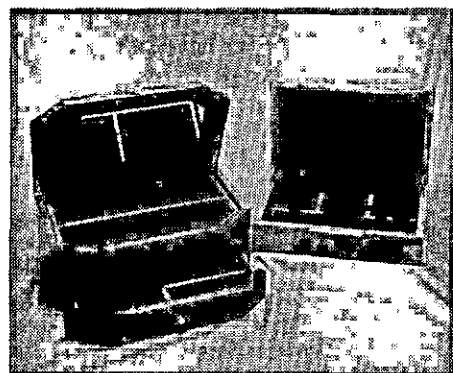

Ask for the hardback — on Mother's Day you don't have to wait 1 to 1-1/2 years

for the paperback! Or perhaps you've had your eye on an art book that seemed too impractical for this year's budget. Let them splurge a little for you. You'll enjoy it and they'll be proud to have given it to you.

"Many customers have a favorite book that they leaf through each time they visit our store," says Elizabeth Jordan Temple. "That's the one they should ask for on Mother's Day." Busy moms usually won't spend money to buy the book they really want. They always have their arms full of books for the rest of the family. Their dreams are lost on the long list of everyone else's needs.

Take a few minutes to tell your family about your secret wish. We even have free gift wrapping. Dreams can come true at **Jordan Temple Book Center**.

Doesn't Mom Deserve A Wonderful Day At Tranquility?

This Mother's Day, show your love by giving Mom a gift certificate from Tranquility. You can spend anywhere from \$10 to \$185 for a relaxing full day at Tranquility.

If you should decide to give Mom a full day, her experience will be as follows: She will be greeted by Lori, our certified and trained massage therapist and gently introduced into a hydrotherapy bath with oils and herbs to pamper her skin. She may choose to have a cup of coffee or tea and read a magazine or simply relax while the hydrotherapy jets sooth away the tension. Following this, Lori will gently and therapeutically massage all of Mom's tension away.

She will then be escorted into our facial room where her skin will be examined, cleansed, steamed, exfoliated, masked, massaged, and if necessary, any blemishes will be extracted. Nancy, our skin care specialist, will then moisturize the skin finishing the facial.

Nancy will then introduce Mom to our nail care technician. Mom's feet will be immersed in a foot spa to begin her

manicure and pedicure. During the pedicure, callouses will be removed, nails will be clipped, and the polish of Mom's choice will be applied.

Mom will then be eased into a private corner, given her choice of reading materials, coffee, tea, wine or soda. Her lunch will then be served.

At this time, she will be escorted to our shampoo room where her hair will be luxuriously shampooed and massaged. A salon conditioner will be applied. Once shampooed, she may go to a stylist of her choosing to have her hair styled.

Her final experience will be with Nancy for a make-up application. She will then be able to choose between day or evening make-up and your Mom will have experienced a fantasy that most women dream of.

Tranquility feels that their staff is special. All stylists have had at least five years experience.

So, for as little as \$10 or up to \$185, you can treat Mom to a total experience at Tranquility, The Total Salon, located at 123 West Main Street in Barrington. **382-6001.**

BYS's "The Last Thrill and Testament"

"The Last Thrill and Testament" is the title given to this year's Barrington Youth Services annual fundraising gala, and there promises to be some comical surprises in store for the guests in attendance at the Barrington Hills Country Club on Friday, May 13, 1994. Members of the BYS auxiliary have added a bit of "theatrics" to the evenings festivities which include both silent and live auctions, a sumptuous dinner, and musical entertainment by Just Friends jazz band.

A large portion of the expense for this year's event is being generously underwritten by many local businesses and individuals. Barrington Youth Services Auxiliary expresses their sincerest gratitude to Stan and Chris Pepper, Tom and Dede Wamberg, George and Ann Fisher, Bob Heaton, Suburban Bank of Barrington, the Duchossois Foundation, Wickstrom Ford, the Ice House Mall management, Amli Real Estate and First Federal Savings and Loan.

Many area retailers as well as creative individuals have contributed to the auctions and prizes which include several fantastic and unique items this year along with gift certificates and much sought after sports tickets and paraphernalia. Some very lucky guests might take home American Airlines tickets, condo vacations to Puerto Vallarta and Colorado, box seats to sporting events, or a custom order chair from the Walter E. Smith Furniture Company, and the list goes on and on . . .

Barrington Youth Services, a not-for-profit agency, provides an array of professional counseling to youths and their families who reside in the District 220 area.

Fees are drawn up on a sliding scale with regards to family income. No one is turned away due to income status.

More than one third of the agency's total budget is devoted to community prevention programs, many are currently in progress in each of the Barrington elementary and middle schools and the high school. "Rainbows" is a program designed to aid young people who have experienced a loss within their families through death or divorce. "Images" teaches leadership skills to pre-teen and teenage students. There are also support groups for parents of children with Attention Deficit Hyperactivity Disorder as well as S.T.E.P. groups for parents of early childhood and elementary school children.

The call for prevention and intervention throughout the Barrington area is a fact. BYS relies heavily on corporate and individual financial support to continue its commitment to the Barrington communities.

Monies raised at this year's event will benefit the above programs and others as well as contribute to the costs of professional counseling services. A donation of \$85.00 per person is requested for the dinner party. Reservations can be made by calling: Robin Hamlin at 382-0706.

Barrington Is New Home to Huntington

Barrington, Illinois has been chosen as the site of the country's newest **Huntington Learning Center**. The center is under the direction of Orville H. McElfresh.

The **Huntington Learning Center** in Barrington is part of a growing national organization that is highly acclaimed for its successful tutoring programs for students and adults. Each center specializes in maximizing a student's academic potential. This is done by first conducting a thorough diagnostic evaluation that pinpoints a student's weak academic skills. The weak skills are then remediated through tutoring programs that are individually designed for each student.

According to Dr. Raymond Huntington, founder and President, "The individualized testing and tutoring that we offer can enable every student to reach his or her highest potential. **Huntington** fosters an environment of care and concern that motivates students to take an interest in learning."

The **Huntington Learning Method**, pioneered by Dr. Huntington, offers a multi-faceted approach that focuses on enhancing a student's confidence and motivation in addition to bolstering skills.

In many cases a student's poor performance is caused by difficulties developed over the course of years, causing the child to experience continual failure. "We call it the *failure chain*," explains Mr.

McElfresh. "This on-going experience of failure, shakes a student's confidence, even a bright student. When confidence falters, many students are no longer motivated to try. They just give up."

Dr. Huntington adds, "I'm confident Mr. McElfresh's efforts will have a significant, positive effect on the students in the area. His professional understanding of academic needs and solutions, coupled with sensitivity and a true concern for the students, will contribute greatly to their success."

The **Huntington Learning Center**, staffed with highly qualified professionals and certified teachers, provides individualized testing and tutoring in reading, math, study skills, and SAT/ACT prep.

For more information, or to discuss a specific problem, parents and educators are encouraged to call the **Huntington Learning Center** in Barrington at (708) 382-3655.

Newcomers Plan Art Auction

The Newcomers Club of Long Grove and Kildeer will be sponsoring an art auction Saturday May 14, 1994 at the Ramada Woodfield, 920 East Northwest Highway in Palatine (corner of Rt. 53 and Northwest Highway). The auction will be conducted by State of the Art of Deer Park, New York. There will be a vast selection of lithographs, etchings, engravings, watercolors, sculptures, enamels and original oils by well-known living artists but also pieces by, for example, Picasso, Miro, Dali and Chagall.

People looking for collectable invest-

ment art and better quality decorative pieces will find numerous items from which to choose. Each couple or single attending the auction will receive a free lithograph.

Items will be available for a preview at 7 p.m., and refreshments will be offered also during the auction which starts at 8:00 p.m. Tickets are available at the door for \$10 per person. The proceeds will benefit the Elia and Vernon areas food pantries as well as the Long Grove Park District. For more information please call 634-8485.

Gardeners—Bring Your Blooms Inside

Often gardeners experience disappointment when they cut a lovely flower in their garden and discover that its beauty has wilted away by the next day. Or they cannot find a satisfying way to display the bloom they've brought into their home.

A series of mini-presentations, sponsored by the Council of Barrington Garden Clubs, will be presented at the Barrington Area Library on May 20, Friday, 12 noon to 3 p.m. and May 21, Saturday, 9 a.m. to 12 noon. The sessions have been planned by the Educational Focus Committee of the Council to provide tips for easy, quick handling of cut flowers and foliage enabling gardeners to enjoy their flowers inside too.

Eight different topics will be offered each day; several will be offered twice to provide additional options for attendees. A question period will be a part of each session. The half hour presentations will be fun, free, casual and informative. Schedules for each day will be posted in the library, adjacent to the new Activities

Room. Those attending may come when they wish and stay as long as they like.

Topics include: What Do You Do With One Flower?; Conditioning—the Secret of Longer Life for Cut Plant Material; Containers that Make Things Easy For You; Mechanics to Keep Your Plant Material Where You Want It; Foliage—The Essential Accompaniment; Arrangements That Will Last For Weeks; and What About Bouquets?

The Council of Barrington Garden Clubs, comprised of seven garden clubs in the Barrington area, is credited with much community involvement—Arbor Day tree distribution in local elementary schools, the annual planting of planter boxes on Barrington sidewalks, providing holiday decorations in various public buildings, and administering the Barrington Beautification Award for local businesses each year. This event is the first undertaking of the newly formed Educational Focus Committee of the Council. For further information, call 381-1484.

Make Mother's Day Really Special

Thai Avenue Restaurant is a secret no more. It has been offering fine Thai cuisine for 2-1/2 years at its location in the Lakeview Plaza in Lake Zurich. During that time its dining excellence has been recognized by the *Chicago Tribune* and *The Daily Herald*—receiving rave reviews from both papers.

The quiet gallery-like atmosphere of the restaurant provides an appropriate ambience for a pleasant and exciting dining experience. The deep plum colored walls are a proper background for the many authentic Thai art pieces adorning them. The gilded temple window frame (converted to a mirror) and the ornately carved temple entrance pediment (gold leaf on teak), are two examples. On a third wall is a flock of mythical Hoongsa swans—ask about their function.

But, the food is the focus at Thai Avenue. All dishes are individually prepared to suit your taste—whether you like it mild, spicy or somewhere in between. Choose Sweet Almond beef, Sweet and Sour chicken with vegetables, pork with ginger or stir-fried shrimp, to name only a few. Many entrees can be served as vegetarian dishes. Most Thai dishes are prepared in a wok with just a little vegetable oil and are considered a healthy alternative to other methods of cooking. Finish your meal with a typical Thai dessert—fresh mangoes and sticky rice.

Thai Avenue has a full service bar including fine wines and imported beers.

Why not take mom to Thai Avenue this Mother's Day, May 8th? She will enjoy this distinctively different dining experience.

Viva! Cinco de Mayo Let's Party at Julio's Latin Cafe

A lively celebration will take place on Thursday, May 5 at Julio's Latin Cafe, "Cinco de Mayo" signifying the Mexican revolution with France (la Batalla de Puebla). A special 4 course prix-fixe dinner with live music will light up the evening so don't forget to reserve early.

Always adventurous and exciting, Julio brings from his homeland, Ecuador, the culinary delights of South American dishes and a sunny blend of Caribbean and Mexican food. Together chef Joseph Gustafson and Julio have been creating some exciting specialty items. The menu features tapas (appetizers), steak, seafood and chicken entrees. The hearty black bean soup is a standard at Julio's. One of the

most popular dishes is called Pollo Caribe, a sauteed breast of chicken garnished with shrimp and served with a mango sauce. The wine list is very special also, with the distinctive wines of Chile and Argentina as well as a few from Spain and California.

The atmosphere is definitely cozy Latin and to serenade the diners, there's jazz on Friday with Dan McIntyre and Brazilian guitarist Paulo Garcia on Saturdays.

Julio's Latin Cafe is open for lunch Tuesday through Friday and dinner 7 nights a week. Reservations are recommended, especially for weekends, Cinco de Mayo and don't forget Mother's Day when we will be open for dinner and music.

Dominique, Jacqueline and Masato chef/co-owner.

At last, we hope for good weather . . . many of our customers ask us if the tough winter has at all affected business . . . well, here is the answer: yes, when we have snow storms and ice storms, few people care to venture out. Nevertheless, those

few isolated storms, notwithstanding, our winter was good, thank you!

Now comes May—with May comes our busiest day of the year: Mother's Day. I personally love that day . . . families together . . . young and not-so-young sharing time . . . all (almost) dressed well . . . all honoring the most privileged status: motherhood.

So, of course, we want to do our share of the celebration. We will feature a three course dinner (six choices in each course) for \$20 and we will offer each Mother a

The National Oil Painters of America Gather at The Studio of Long Grove May 6th - 20th

The Studio is proud to be able to host the third annual Oil Painters of America Show with honorary hosts Governor James Edgar and his wife Brenda. The O.P.A. was founded in 1990 to promote the acceptance of the traditional/representational form of oil painting. This national organization includes over 2,000 of the finest painters in the United States. This year's show will be judged by renowned oil painter, Cyrus Afsary. The genius of the O.P.A. is that they formed a nucleus of 24 honorary signature members, a virtual "Who's Who" of the art world. These master painters lend their reputations, talent and art to the regional and national shows throughout the country. They have given significant prestige and respectability to this very successful organization.

Governor Jim Edgar and "Best of Show" winner Romel de la Torre — O.P.A. '93.

Over 160 artists from all over the country including Alaska and Hawaii will be represented in this national show at the Studio of Long Grove. The Studio's entire main gallery and first floor galleries will be used for this event.

There are many of today's most significant artists among this group appearing in the 1994 OPA Show. And, there will be many to be discovered by serious collectors looking for the stars of the future.

Make It A MUSICAL Summer

If someone informed you that you could give your child just one relatively inexpensive gift that would improve the course of their life and better their chances for success, you would want to jump at the opportunity. And, if you further learned that this one gift would help your child develop mental and physical co-ordination, character and self-confidence, and you would be assured that they would be associating with wholesome companions during their formative years, you would ask, "What is this treasure?" The answer is found in that most universal of languages . . . music. All of this is yours to give to your child through this treasured gift of self-expression. Music is a gift that will be enjoyed and appreciated throughout your child's life.

1994 Winners of the Brain Research Foundation's Creativity Awards Announced

On April 13 a scientific laboratory was the site of special announcements, a festive "launch," and a nautical lunch. The Laboratory, located within the Center for Molecular Neurobiology in the new Jules F. Knapp Medical Research Building at the University of Chicago, is scheduled to open in mid-summer. Research emphasis in the Center will be on understanding the basic processes of nerve cells, but with an eye toward preventing or curing crippling diseases of the brain such as Alzheimer's disease, Parkinson's disease, multiple sclerosis, brain tumors, stroke, ALS (Lou Gehrig's disease) and other disorders of the central nervous system. Guests in the laboratory will have the pre-dedication opportunity to tour the Center.

The Spring occasion was hosted by the Board of Trustees and the Women's Council of the Brain Research Foundation, an affiliate of the University of Chicago. The press party was the "launch" of the June 15 benefit fund-raiser aboard the S.S. Odyssey II. It was also the first opportunity to formally announce the 1994 winners of the Brain Research Foundation's Creativity Awards. So much of the work done by neuroscientists addresses the pathology of the human brain. The Creativity Award recognizes and acknowledges the creative potential of the human brain.

Creative Couples Announced.

During a summer evening cruise on Lake Michigan, the June-15 Benefit of the Brain Research Foundation will recognize the creative contributions of three of Chicago's most gifted couples. Patricia and Martin (Mike) Koldyke will be honored for contributing their creative talents, time and resources to significant and far-reaching community service. Desiree Glapion Rogers and John Rogers will be honored for using their personal resources and public service to inspire a new generation of community leaders. Carole and Gordon Segal will be honored for their entrepreneurial creativity in making style and beauty available for so many.

S.S. Odyssey II Helps Scientists Race Toward the Future

Plans for the Wednesday, June 15 benefit cruise aboard the S.S. Odyssey II were previewed at the event as well. The elegant all-weather vessel will be departing Navy Pier at 6:15 p.m. Those who sail that evening will be able to congratulate the Koldykes, the Rogers and the Segals, to dine and dance until 10:00 p.m. Prizes, passports to adventure, and pride in the mission of the Brain Research Foundation will enliven the evening. Proceeds from the evening will go toward the Brain Research Foundation's \$3,000,000 pledge to fund the Center for Molecular Neurobiology.

Bumping Up Slightly

More people are being involuntarily bumped by airlines: 51,000 fliers in 1993, or 113 bumps per million passengers. Considering how many people fly each day, that's not a lot, but it compares to 103 per million in 1992. If you are bumped, you're entitled to compensation that varies depending on how late you'll arrive at your original destination: from nothing if you arrive within an hour of the scheduled time, to \$400 if you're over two hours late. (There's no compensation though, under certain circumstances, such as when mechanical troubles require switching to a smaller plane.) If you want to be bumped, let the gate agent know when you check in for the flight. If they need extra seats, you'll be the first person they will approach, and you'll get payment in the form of a credit for a future flight.

Rail/Fly Plan Popular

Amtrak's train/plane liaison with United Airlines is proving popular with travelers. The program lets you fly one way and take the train back, or vice versa, at prices typically cheaper than flying both ways. The Air-Rail Travel Plan has experienced double-digit growth in each of the last two years. Meanwhile, Amtrak has extended its 55 percent off sale until June 16. The discount applies to one-way coach tickets costing \$75 or more, but not on Metroliner, AutoTrain, or Boston-Washington corridor trains.

Lost Luggage Land

The next time you're in Scottsboro, Alabama, be sure to visit the Land of the Lost Luggage. Known officially as the Unclaimed Baggage Center, this is where lost bags from around the country finally end up when no one claims them. The suitcases and contents are then sold at bargain-basement prices to the public. Although the airlines move about two million pieces of baggage per day, only 10,000 to 20,000 of those get mislaid temporarily, and fewer than 200 end up in Scottsboro. Still, that's 10,000 bags a year. So if

you've lost luggage, this is the place to look for it. Of course, you'll have to pay to get it back—but the price will be right.

Palm Springs Beyond the Links

When people think of Palm Springs, California, they think great weather, golf and retirement. In fact, there's a lot to do besides chasing the little white ball in a cart. Just a short drive from the city, there's the Joshua Tree National Monument with its eerie rock formations, mountains, and the distinctive, twisted Joshua Trees (actually they are a type of Yucca, named by the Mormons who thought they resembled the profit Joshua stretching his arms heavenward). The telephone number is (619) 367-7511, and its hours are 8:00 a.m. to 4:30 p.m., with a \$5 admission. The Living Desert Museum (phone: (619) 346-5694) contains flora and fauna found in the Colorado Desert and in other arid climates. For an extra charge you can take a guided tram tour; it's well worth it. And Village Fest is an evening street fair that takes place every Thursday from 6:00 to 10:00 p.m., providing some of the best shopping in the area with over 100 high quality craftsmen and other vendors. The cost is \$17 or \$19.95 with dinner. Included will be prize-winning named

Schaumburg Presents 7th Annual Fine Arts Festival

The Village of Schaumburg presents its 7th annual Prairie Arts Festival Saturday and Sunday, May 28 and 29, on the grounds of Schaumburg Municipal Center, Schaumburg Road and Summit Drive.

The juried exhibition and sale will feature 135 fine artists, including painters, sculptors, photographers and jewelers from coast to coast, including California, New York and Florida.

Each year, the outdoor festival continues to draw patrons from Chicago, the Northwest and outlying suburbs, many of whom come to enjoy the placid surroundings of the Municipal grounds as well as to purchase art.

And while the event is free and easily accessible to patrons, exhibiting artists find acceptance into the festival increasingly difficult. Over the years, the popularity of the festival has grown so rapidly among artists that the number of applicants well exceeds the availability of spaces. Despite

this rise in applicants, festival officials have resisted the temptation of allowing more artists to exhibit, a reflection of the festival's commitment to maintaining the highest artistic standards possible.

While many patrons attend to purchase or view the displayed works, fine arts are not the festival's only attraction. Live entertainment can be heard at the outdoor stage where youth orchestras, high school jazz bands and local musical artists are featured hourly. Younger artists will enjoy a children's activity tent, sponsored by the Schaumburg Park District. Restaurant vendors will also be on the Village's plaza serving a variety of food and refreshments.

The two-day festival will operate from 10 a.m. to 5 p.m., both Saturday and Sunday over Memorial Day weekend. Admission is free. For more information, call (708) 894-3600 weekdays from 9 a.m. to 5 p.m.

Galleries of Ancient Art: Egyptian, Greek Etruscan and Roman Opens at Art Institute

The Art Institute of Chicago has announced the opening of a new installation of its splendid collections of the art of ancient Mediterranean cultures: The Galleries of Ancient Art: Egyptian, Greek, Roman and Etruscan, will offer visitors the only comprehensive view of the art of these civilizations available in the Chicago area.

Approximately 350 examples of ancient Mediterranean art will be housed in a 2,500 square-foot space of the McKinlock Court Galleries bordering the museum's central open court. Works of art have been chosen to emphasize the strengths of the collection: superb Egyptian reliefs and Roman sculpture, especially of the Old Kingdom and Hadrianic periods, respectively; Greek vases, particularly red-figure technique; Egyptian and Roman bronzes; a renowned collection of ancient glass; and an outstanding, but almost unknown, coin collection. Additionally, the Field Museum of Natural History and the University of Chicago's Oriental Institute have generously lent some of their finest pieces of Greek, Roman, and Etruscan art to the Art Institute to supplement and strengthen the exhibition. Including superb examples of fresco painting, goldsmithing, and bronze work, this partnership will yield a more representative view of the art of the classical world.

Museum hours: 10:30 a.m. to 4:30 p.m. Monday, Wednesday, Thursday, Friday;

At the end of the Greek gallery, visitors find a display of 25 coins from Egyptian, Greek, and Roman communities throughout the ancient Mediterranean world. Relating both to objects before and the Roman galleries to come, the coins are presented in a geographic arrangement, with a map illustrating minting locations, and the exhibition case with chairs and desk drawers enables viewers to scan both sides of each piece. Every six months the display will rotate, bringing a new selection from the 3,000-piece coin collection to public view. Shown is a Roman coin showing the Emperor Nero, A.D. 68. Gold. diam. 1.7 cm, part of the Art Institute exhibit.

10:30 a.m. to 8:00 p.m. Tuesday; 10:00 a.m. to 5 p.m. Saturday; noon to 5:00 p.m. Sunday and holidays. Suggested admission is \$6.50 for adults and \$3.25 for students, seniors and children. TUESDAYS ARE FREE. For public information, call (312) 443-3600.

How Can We Help You Save Money?

by Eleanor Nelson & Sally Hayward, Travel House

The most common misconception of the services provided by a travel agency is that of cost. People often believe that by booking their own travel accommodations they can save money, either because they would save the travel agency fee or the travel agency will charge them a higher rate in order to make a commission. This of course is not correct. Travel agencies are paid a commission directly from the Airlines, a commission on the same rate they would charge to you, the consumer.

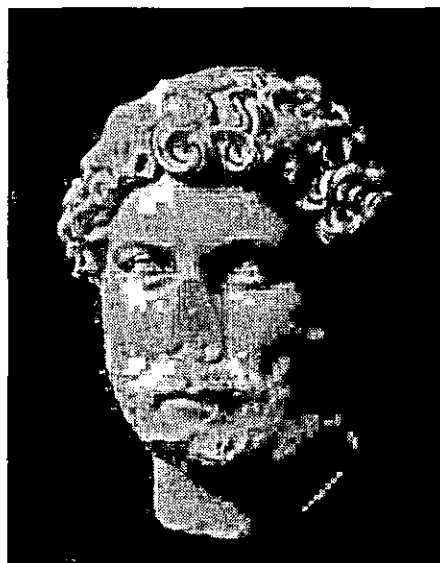

Why then should a traveler choose to use a travel agency? In the marketplace today there are an array of confusing airfares, fares which through our computer systems we learn to view and interpret. We have the ability to input various data into our computer in order to offer the client a variety of options, options they will not be able to obtain from calling only one airline. We can actually help you save money.

We also work with many Tour Operators to obtain discount prices on tours and cruises, discounts which are not available to the public. We have the ability to book volume travel thereby receiving great discounts which we can pass on to the consumer. We go to school, trade

shows, and travel extensively to be able to deliver a professional product to you the consumer.

Travel is a most expensive purchase and travel agents are schooled to help you make a wise investment. Stop in at Travel House or phone us at 381-0600. No trip is too large or too small and we know if you give us a chance to plan your next trip, you will be most satisfied.

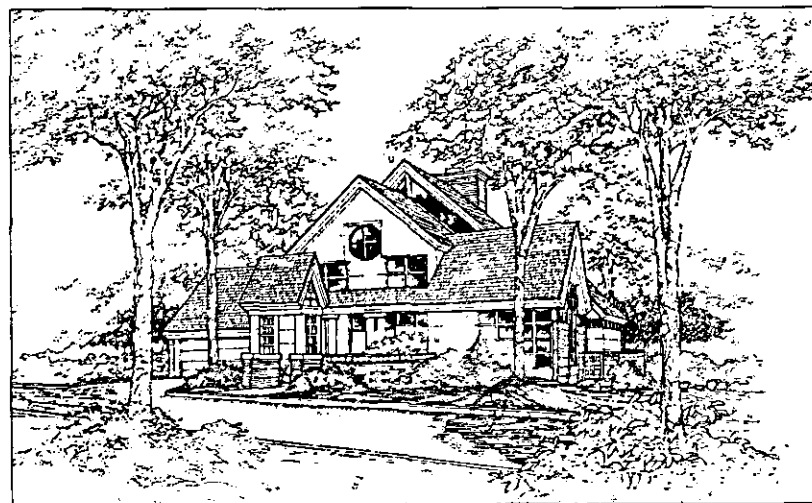

A marble bust of Hadrian himself, one of the finest known, is a focal point; a lover of Greek culture, the emperor initiated one of the periodic Roman classical revivals. His portrait illustrates the Roman merging of classical idealism with life-like naturalism seen in less-than-ideal facial features and the drilling of the pupils of the eyes, a contemporary stylistic innovation.

One of the most spectacular pieces in the entire ancient art collection is the Egyptian mummy case for Paankhenamun, a civil servant of the 22nd Dynasty. The coffin's intricately painted surface of gold leaf and pigment depicts funerary rituals as well as many of the mortuary gods seen in bronze versions. A startlingly naturalistic mummy portrait from the Fayum region exemplifies the aesthetic change Roman rule effected in Egypt. Probably painted from life, it vividly portrays an individual personality, suiting Roman taste, while serving a thoroughly Egyptian function as a face mask for a mummy.

Protection From Tornadoes, Windstorms, Floods

Northern Illinois is entering the season when it is subject to the ravages resulting from tornadoes, windstorms and floods. Homeowners can not prevent such events but they can minimize the damage.

The Professional Remodelers Association (PRA) suggests the following procedures. First, get a camera and go through the home, room by room, taking pictures. Stand against one wall and take a picture of the opposite wall. Do it again, taking a picture of each wall in each room, until the home has been completely photographed.

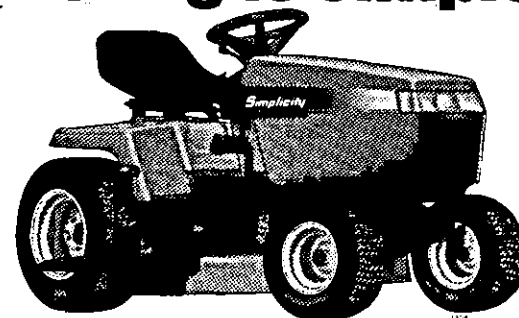

"Next," said Alan Foss, President of PRA, "collect all personal items such as antique furniture, books, dishes, silver, TV's, VCR's and any other object of value and take photos of all of them."

Go to a utility store, added Foss, "and

buy an inventory record book. Use it to list all the items photographed." Where possible, include in the book the purchase receipts. Indicated the value of each item and the date of the record. If the homeowner has a fireproof safe - these records should be kept there. If not, PRA recommends the homeowner rent a safe deposit box and keep all the records there.

If the unexpected, such as a tornado or fire should occur, the homeowner has a full, complete record of family belongings, so that the full insurance claim will be supported by good, solid evidence. "Finally," concluded Foss, "if the homeowner should require a contractor, they may phone PRA and ask for its member book to be sent to them." The PRA phone number is (708) 627-7577.

Alliance of Barrington Communities for Drug Education Summer Workshop

For the tenth year, ABCDE will sponsor the Summer Workshop. The three-day Newly Designed ABCDE Summer Workshop: Our Kids at Risk is scheduled for Thursday to Saturday, July 28-30, 1994. The workshop covers factors that put our kids at risk, why kids use chemicals and make bad choices. We have talked about what is most important in the workshop, what needs to be updated, and what people want to gain from participating. The workshop has been shortened and updated with this in mind. The small group portion of the workshop is completely different and will bring people together to focus on learning and planning what they can do in their work or lives with children to make a difference.

The workshop, conducted by Community Intervention, Inc., of Minneapolis (with our community's input), is offered FREE to people who have or work with children in District 220. Scholarships are provided through funds raised by ABCDE,

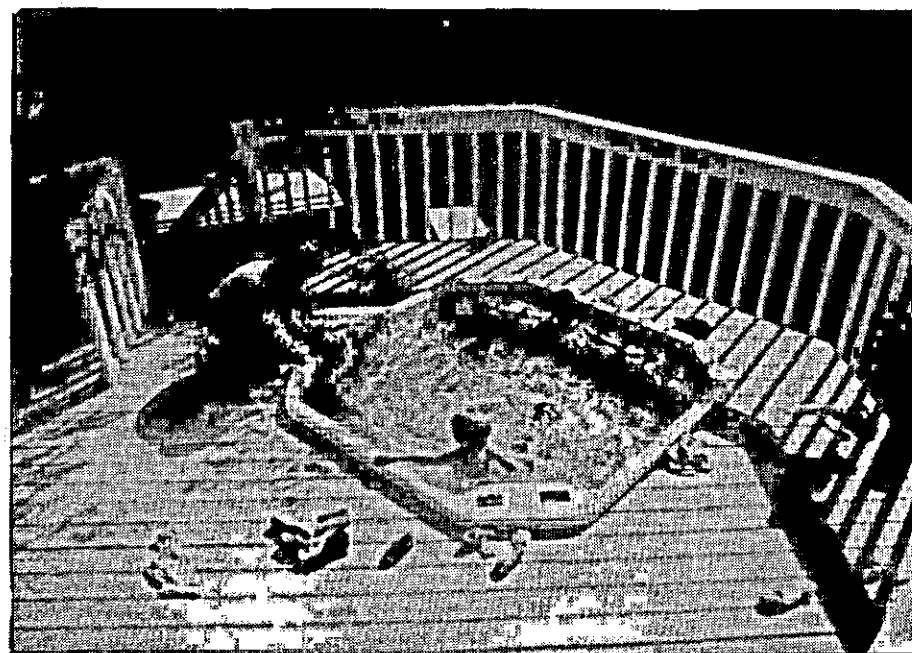

through donations generously given by area communities, the school district, and our schools. There is a fee for those who reside outside of District 220.

The children are the beneficiaries of our time and effort. This workshop can have a great impact on personally involving people toward the goals of helping our children become the best they can be.

Talk to the 600 principals, teachers, coaches, police officers, parents, and other community people who have been to it and ask them to give you their insights into why they feel they have benefitted personally, professionally, and as parents from this experience.

For more information, people may contact Barbara Rosenberg, Workshop Coordinator, 382-1748; Suzy Palmer, past chair of ABCDE, 382-3055; or Sharon Heimehl, School District 220, 381-6300. Applications are available at local schools and churches.

Would Your Family Enjoy This?

Summer will soon be here. With it comes carefree days for family fun. Wouldn't a spa on your deck be great? Spas don't have to be hot in Summer. You can have them cool and refreshing. And, on a cool Summer night, turn it steamy

again.

Michael Angelo Interiors "Knows Quality"

"The bitterness of low quality remains long after the sweetness of the low price is forgotten," states Angelo Villa, owner of Michael Angelo Interiors. He advises consumers to keep this in mind when they are tempted to buy furniture with those attractive low price tags. Angelo Villa warns "Only the wealthy can afford to buy inexpensive merchandise, for when it wears out quickly, they have the money to replace it quickly."

For the past 30 years Michael Angelo Interiors has been assisting several generations of buyers from the same family in choosing quality furniture for their homes. It seems the decision to purchase quality furnishings becomes a tradition for

many families, once they recognize the value of quality.

"Frequently, when we have spoken with a previous Michael Angelo Interiors customer, they told us they wouldn't think of replacing the bedroom or dining room suite we sold them 15 years ago because it's still so fashionable and it's quality sustaining as well," states Mr. Villa.

The professional interior design staff at Michael Angelo Interiors asks that you invest one-half hour of your time so they may demonstrate the full value of quality design and furnishings.

Designing a House For You!

busy is the architect? What are the architect's fees? What is the architect's experience with custom homes, local contractors and local building officials? In addition, be certain the architect will be available when you or your builder needs help. Also, find an architect that is someone you can talk to. Make sure he/she is designing for you and not for himself. And find someone that keeps up on current technology.

Hiring a good architect can save you at least part of the fee. A good set of plans can save you money by getting you competitive bids (apples to apples), and by reducing delays and extras. With lumber prices skyrocketing, it is even more important than ever to plan out efficient use of materials.

The American Institute of Architects has *A Beginners Guide to Architectural Services*. This guide helps you with the selection of an architect. If you would like a copy, contact the Chicago AIA, or contact Mark Elmore Associates at (815) 455-7260, or toll free in Northeast Illinois at 800-801-7766.

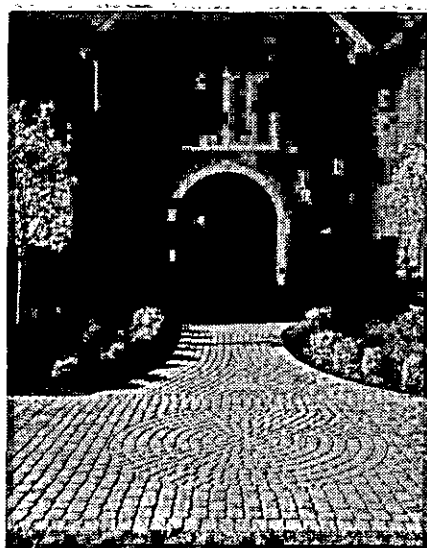

Someone recently asked at a home building class how many different 4 bedroom floor plans could there be? The answer was how many finger prints are there? Building a home is the biggest investment many of us will ever make. It is an investment that we will live with every day, so why not make it an investment designed for your family. Working with an architect can only enhance that investment.

There are many important things to consider when selecting an architect. How

DAR Presents Awards

Regent Debi Jung (shown) of Signal Hill Chapter, National Society Daughters of the American Revolution, welcomed Commander Ken Hauser (shown) of the VFW Post 7706 who spoke at the chapter American History Awards Night meeting. Commander Hauser posted the colors with veterans from the Post at the chapter's opening exercises.

Following the presentation of awards to children in 5th, 6th, 7th, and 8th grades from Grove and Barrington Middle School, Station Campus and Prairie Campus, he gave an interesting overview of some of the many activities Post 7706 has been involved in. These efforts included assistance to veteran patients suffering from the Gulf War syndrome, summer flood victims, and plans for a presentation

of an avenue of flags scheduled for Memorial Day at Evergreen Park. He also stressed the importance of patriotism in our lives.

Frank R. Wolff, CPA and former vice-president of a major mortgage bank and savings and loan has founded Hawthorn Mortgage Capital, Inc., a corporation focused on providing professional mortgage services. Frank holds an A.B. degree from Vassar College, and M.B.A. from Southern Illinois University, and has extensive experience in all facets of mortgage lending:

Last month in this publication, I discussed an overview of the difference between mortgage lenders, brokers, banks, and savings banks. Due to the dominance of the secondary market, mortgages have increasingly become generic products, and each year underwriting standards and documentation requirements become more uniform. The benefit to the consumer is more competition between mortgage providers, more selection of products, and lower pricing. The cost has been seemingly inflexible standards that lenders are required to impose in order to deliver the loan to the secondary market and pass-through the lower pricing. The proof of the cost benefit is to look at pricing levels of 'yield' or 'B and C' lenders, who typically charge 1% to 3% higher rate in addition to more points.

tion to more points.

Now about the subject, advertised mortgage rates. First, the pricing of MBS securities varies minute-by-minute, and generally reflects the trend of the U. S. Treasury securities. As a rule, then, you would expect that advertised rates are either higher or lower than the market when you call. Also, most pricing surveys neglect to mention lender costs such as underwriting, processing, tax service, etc., when advertising rates. Don't fall for the lowest rate without finding out the costs, and on the other hand don't focus on costs without comparing rates. I had one customer tell me that he would go with another lender who was \$100.00 less in closing costs, even though the rate was .125% higher! On a \$150,000 loan, this amounts to spending over \$900.00 to save \$100.00. That doesn't make sense in my book.

If you want to discuss mortgage pricing with a professional, please call me at (708) 549-9672. Have you heard of mortgage derivatives? Ask me to explain. For professional mortgage service, please call Hawthorn Mortgage Capital, Inc. at (708) 549-9671.

Florentine Opera Presents Otello

Verdi's musical masterpiece *Otello* will be presented in Uihlein Hall of the Performing Arts Center on Friday, Saturday, Sunday, May 13, 14, 15, 1994. Friday and Saturday performances begin at 8:00 p.m., and the Sunday matinee at 2:30 p.m. Ticket prices range from \$16-\$75. To order tickets contact the Performing Arts Center Box Office at (414) 273-7206 or toll-free in Wisconsin 1-800-472-4458; toll free in Northern Illinois at 1-800-85-OPERA. Some sections for the Friday, Saturday and Sunday performances are sold out, so early ordering is recommended.

Otello will be sung in Italian with English Supertitles projected above the stage for a quick, unobtrusive understand-

ing of the action. Free 30-minute pre-opera lectures will be held one hour prior to each performance in Magin Lounge of the Performing Arts Center. The lecture is hosted by Corliss Phillabaum, Professor of Theater History in the Professional Theater Training Program of the University of Wisconsin-Milwaukee.

The opera takes place during the late 15th century on the island of Cyprus. Otello, the island's governor, returns to Cyprus after a triumphant campaign against the Turks only to find Iago, his ensign, plotting his revenge. Iago loathes the Moor because Otello has promoted Cassio instead of Iago to the rank of Captain. Iago proceeds to arouse Otello's jealousy by making him suspicious of his wife

Don't Be Fooled By Price When Hiring A Painter

Bill Schafer - President

Joe Schafer - Vice President

It's that time of year again: time to plan for exterior home painting. If your home is in need of painting this season, **Schafer Builders, Inc.** would like to help in giving you some important facts to look for when selecting a painter.

Remember that preparation is 90% of the job. Make sure your painter provides expert power washing and detailed scraping and wire brushing of needed areas.

Caulking is critical. Find out what type of caulk will be used. Siliconized acrylic latex caulk is a waterbase, flexible material that resists hardening, shrinking, or cracking.

Make sure the right primer is used. The wrong primer could prevent adhesion of the paint to your wood and create "Base Paint Release," a serious problem YOU WILL pay for long after your painter has completed the project.

And, the most critical question of all, find out if your painter carries workers

compensation insurance. Are you aware that you could be sued if a painter or his "sub" are injured while painting your home? Ask for and secure copies of workers compensation insurance before beginning any job.

Remember, a reputable contractor will have a minimum of 5 years experience in their own business. They should belong to a national professional organization and carry full insurance coverage.

Schafer Builders, Inc. not only is a member of the Painting and Decorating Contractors of America, but is actively involved in the National Association of Remodeling Institute, and the McHenry County Home Builders Association, to just mention a few.

Contact **Schafer Builders, Inc.** today at 459-1333 for a complete professional consultation of your painting and decorating needs.

and Cassio, who he says has dreamed about Desdemona. In addition, Iago claims to have seen Desdemona's wedding handkerchief in Cassio's hands. Mad with jealousy, Otello swears he will kill Desdemona. As Iago sets in motion the final part of his devilish plan, Otello is ultimately convinced of his wife's guilt. Otello insults Desdemona in front of a visiting ambassador from Venice; and shortly afterwards, in Desdemona's bedchamber, Otello strangles her in her bed, only to learn from the horrified Emilia, Iago's wife, that his own wife is innocent. Otello, in great distress and aware at last of the deception to which he has fallen victim, kisses his wife for the last time and then stabs himself.

The Florentine Opera is supported by the National Endowment for the Arts, Wisconsin Arts Board with funds from the State of Wisconsin, Milwaukee County, the United Performing Arts Fund, and the Milwaukee Florentine Opera Club.

Magnificent Boulder Ridge Country Club

Boulder Ridge Country Club is a prestigious, private-access community located just south of Crystal Lake in the quiet village of Lake In The Hills. It consists of 510 acres of slightly rolling former farmland transformed into a magnificent golf course and three distinct housing areas. Two of these areas, the Estate Homes/Estate Lots, and the Fairway Homes, are available now for your consideration. The Greens of Boulder Ridge, two-story single family homes ranging from 2260-2800 square feet will be opening later this summer.

The semi-custom Estate Homes are offered on 1/3 to 3/4 acre lots and range in price from the upper \$300's to the low \$500's.

The maintenance-free detached single family Fairway Homes are available in seven floorplans, according to John Curtis, sales manager. New models have been built for the Fairway Homes. The floorplans have been improved by redesigning the master baths, and incorporating new features that have recently come out in the home building industry. Two entirely new floorplans have been introduced this spring, one 2387 square foot ranch, and a 2819 square foot two-story with a first floor master bedroom. These floorplans really round out the Fairway Homes floorplans by offering family rooms and living rooms on the first floor while the other floorplans offer great rooms. Some models can incorporate English basements and with our 9 foot ceilings, they are excellent for converting into finished living space. Excellent lot selection is still available. The Fairway Homes range in price from \$248,900 to \$328,900. The NEW models are open for your viewing daily.

The Estate Lots, ranging from 1/3 to 3/4 acres are available for building your custom home. These lots are priced from \$70,000 to \$175,000.

The homes of **Boulder Ridge** are situated on high ground, the ridge, which extends along the western edge and across the southern part of the property. Both Estate and Fairway Homes, which border the golf course, enjoy panoramic views of the magnificent 7000 yard course designed by PGA golfer Fuzzy Zoeller in conjunction with Lohmann Golf Designs, Inc.

This challenging par 72 layout with almost 21 acres of ponds and streams is truly one of the areas most beautiful golf courses. The view from the flagpole at the end of the club parking lot will almost take your breath away.

A stunning new multi-million dollar clubhouse overlooks the majority of the course. Inside the exclusive facility is a formal dining room, mixed grill, banquet room, lobby, card room, men's and women's locker rooms and bar. It also has an outdoor deck and patio. A practice green and croquet court are nearby. **Boulder Ridge's** swim and tennis club features a 25 yard outdoor pool, wading pool, tennis courts and grill for member's enjoyment. Golf, social, dining and corporate memberships are currently available for residents and non-residents alike.

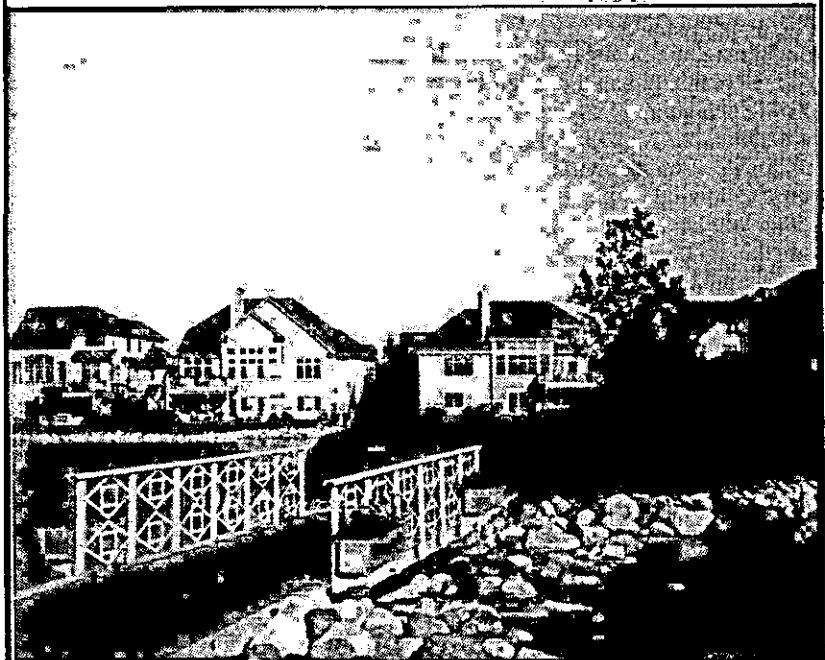

The Chicago and Northwestern train station in Crystal Lake or I-90 are only a 10 minute drive from **Boulder Ridge** providing convenient access to Chicago or the northwest suburbs.

To reach **Boulder Ridge**, take I-90 to Randall Road and exit north to Algonquin Road, turn west on Algonquin Road, 1 mile to the landmark community of **Boulder Ridge**.

Custom Millwork by Arkraft

A true, quality architectural millwork company not only produces fine woodwork and cabinetry, but is also capable of bridging existing millwork with the new.

This requires matching profile, wood species, graining, color and finish. Often it will be necessary to make knives for mouldings and edges.

When it comes to matching color and finish, not only is exceptional technical skill required about finishes and colors, but artistry as well. Graining must often be achieved by "dubbing", which is actually brushing in grain patterns. Properly done, it is visually impossible to distinguish between the real and enhanced grain.

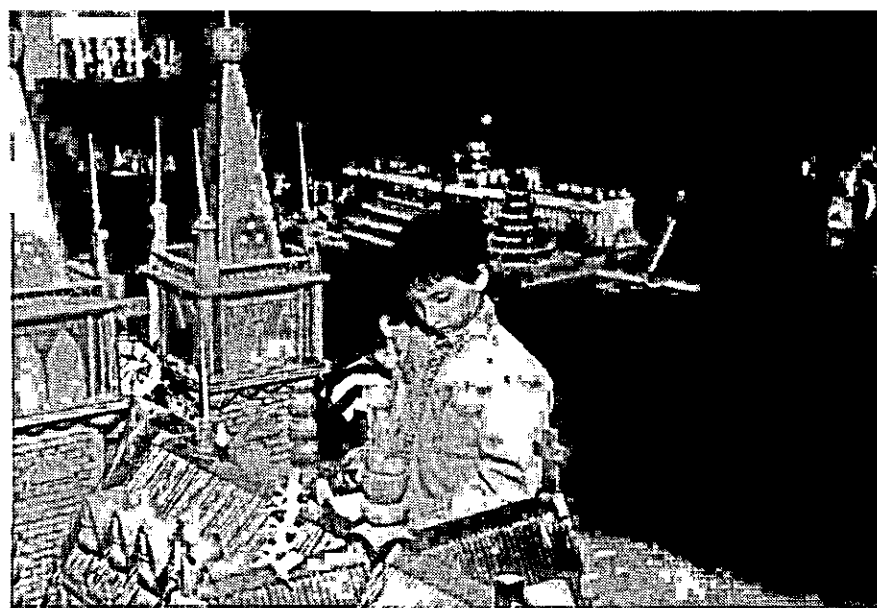

Another popular application is "faux" finishes to represent stone such as marble and granite. This is especially useful when a designer wishes to have an appearance of stone on a surface that cannot be fabricated in stone. The ultimate compliment for a finisher is when someone says "I thought it was marble."

Arkraft Architectural Millwork is a full service woodworking and cabinet firm. With its computerized design and drafting, it can prepare accurate drawings for the home or business owner as well as shop drawings for architects and designers.

In working directly with a client, Arkraft field measures and visually inspects actual conditions of a space, being aware of electrical, plumbing, heating and other concerns that will have a bearing on construction and placement of the millwork. And, often overlooked, how well the new work will relate to the existing architectural scheme. Simply put, the work should fit the space.

To discuss your future project, or obtain more information, call Victor or Walter at (708) 541-8757.

Works By Three Chicago Self-Taught Artists Scheduled At Terra Museum Through July 31

"Reclamation and Transformation: Three Self-Taught Chicago Artists" is the title of a major art exhibition believed to be the first in the Midwest featuring works created entirely from reclaimed materials. Featuring the works of three self-taught Chicago artists, the exhibition is scheduled through Sunday, July 31, at the Terra Museum of American Art, 666 North

Michigan Avenue, Chicago. The artists, David Philpot, Mr. Imagination and Kevin Orth, use materials they salvage from the urban environment (city streets, alleyways and vacant lots) to create their unique art.

An important part of the exhibition will include involvement by three other local not-for-profit organizations. Besides the Terra Museum, the partnership involves

Sculptures by Chicago self-taught artist Mr. Imagination are (from left to right): Female head with Shell-and-Bead Earrings, created in 1990, made from foundry stone, a broom, shells and wooden beads; and Sandstone Head with Shells, created in 1991, made from foundry stone, a broom and sea shells.

The Friday Senior Citizens Club Celebrates 30th Anniversary

The Friday Senior Citizens of Barrington will be celebrating their 30th anniversary on Friday, June 3, 1994 at which time the installation of new officers will take place and a luncheon served.

Due to the driving force of Helen Zoern, now residing in Florida, the club was formed for seniors in June of 1964. Langendorf Park's Barrington Room was chosen as the place for seniors to gather and be entertained, to hold informational programs and find companionship with

other seniors.

In the beginning there were only 40 members but by the year of 1975 the membership grew to 114. As of this writing the membership stands at 120.

The seniors meet regularly every Friday at 10:30 a.m. at Langendorf Park, Barrington Room. Men and women fifty-five years of age and older are eligible to be members. Those who have a Barrington Post Office address are asked to pay dues of \$7. All others pay \$9.

Artist Ed Paschke

World-renowned Chicago artist Ed Paschke has created *Trabajo* (shown), a special limited-edition lithograph to benefit the Chicago Community Programs for Clinical Research on AIDS, Chicago CPCRA. A total of 50 lithographs will be sold as part of the first annual Working Together for a Cure benefit sponsored by Chicago CPCRA and the 1994 Chicago International Art Exposition.

As a key figure in the Chicago Imagist movement, Ed Paschke has earned a reputation as one of the country's most important artists. "Paschke is certainly one of the greatest artists to come out of Chicago and has invented some of the most compelling images of our time," said Charles Stuckey, curator of twentieth century painting and sculpture at the Art Institute of Chicago. "Paschke has achieved a body of work that confronts social and cultural values and challenges the viewer to question the effects of the media on American life."

Trabajo, is one of several lithographs donated to AIDS organizations by Paschke. "Over the last dozen years, I have lost a number of close friends and colleagues to

AIDS," said Paschke. "I can't imagine anyone in our society who hasn't felt the loss and when I'm called upon to help, I do." *Trabajo* depicts a cultural cross section of four faces connected through the image of a dove, a traditional symbol of unification and peace. "Trabajo illustrates many personal concepts and beliefs," said Paschke, "including a belief that by uniting and working together we can cure HIV disease."

Trabajo will be on sale for \$1,200 at several locations throughout Chicago including the Chicago CPCRA offices. For more information please call Chicago CPCRA at (312) 266-0227.

On Building a Dream-101

Building a new home can be exhilarating or troubling. The latter condition usually stems from pangs of insecurity. Are you building in the right area? The right neighborhood? On the right street? On the right kind of land? Do you have the right architect? Builder? Are you close enough to transportation? Good schools, parks, playgrounds, churches, clubs, shopping? Will you love the look of your home? Will the materials hold up? Will the floor plan work? And on and on and on.

How do you avoid nagging doubts? You cover all the bases. You plan ahead and you don't skip steps. But what are those steps? How do you know the right questions let alone the right answers?

You choose an experienced Realtor to guide you through the process. A Realtor who can give you all the pertinent information as you go along, to help you make

Whether your home will be over \$3,000,000 or closer to \$300,000—don't go it alone. (As with re-sale homes, Realtors receive commissions from sellers, so there are no fees for you to worry about.)

Call **Arlene Cullen** of The Prudential Preferred Properties Barrington Office on her private line, (708) 465-2261 or at her home office (708) 991-3345. Arlene is a national award winning Realtor, a member of the multi-million dollar club, and a Certified Homefinding Specialist.

If your heart is set on "new", but you don't have building time, ask Arlene about new homes ready and waiting!

You want new construction. But whose? And where?

The truth is home-builders have different areas of expertise. How can you tell (before it's too late) you're choosing the right builder for you? And building in the right location at an appropriate price? With features that will keep your home saleable in the future? You go to a Realtor who knows the right questions to ask at the right times. Who'll give you the facts you need to make smart choices. Building may not be a bowl of cherries, but the result should be delicious. (Please read at left.)

The Prudential
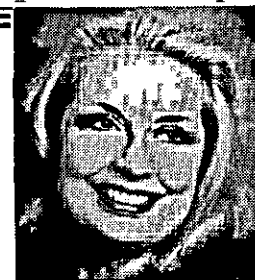

Preferred Properties

Do-it-yourself house hunters, listen up!

If you're at all serious about finding a house, roaming aimlessly through an area is not the way to do it.

If you do see an appealing home with a for sale sign, it could already be under contract. Or be out of your price range (most common!). Or be wrong for you for any number of other reasons. Meanwhile, your dream dwelling could be snapped up before you even know it's on the market.

The shortest distance between you and that dream house depends on working with a good Realtor, one who's smart, hard-working, and will watch for the property that best combines your needs and wishes. As we do. Call. Or just come in. Put us to work for you. And drive around free as a bird.

We're the real estate professionals with the business expertise.

Where in the world are you headed when you are looking for a home?

Talking with several of my Realtors about our real estate market, I asked what were some problems they've encountered recently. Our May column will speak to a few of these issues.

One area talked about was the home buyer call-in where the only information wanted was "the price" and "location" so the caller could just ride by. In fact some people shopping for a home ride around until they see something they like and then call for "the price." These people believe they don't need help, whereas it's really the dreaded fear of being obligated to the Realtor. "The Realtor will be constantly calling. I'll just ride around."

Is this scenario valid? I believe it is. However, home buyers should find working with the professional Realtor makes a big difference in information. And information converts into saving the buyer's time and energy with much less frustration. An informed decision is generally a better decision.

Also, buyers need to know what they can afford and what location they should be looking at for homes fitting their lifestyle. It's not too likely that a buyer will match his \$'s and lifestyle with a home by "just riding around". Buyers waste tanks of gas viewing the outside of houses in areas that don't match their needs and become tired and frustrated with the home-finding process. THEN THEY CALL THE REALTOR.

Why not work smarter and call a Realtor at the start? Realtors provide service and information. Realtors are involved in the community and know what's happening.

Realtors are experienced and knowledgeable about the market. They inform the buyer about available properties in areas that match needs and lifestyles. Realtors provide the time needed for the home buying process. They commit to doing the work necessary for a successful conclusion.

Buyers Agency - the buzzword of the '90s.

Traditionally Realtors have represented the seller, however that's changing with the new agency laws. NOW the buyer can have a Realtor of his own representing his best interests. When a home buyer is represented by a Realtor, the fiduciary duties such as the duty of loyalty, accounting and disclosure are owed to the buyer and not the seller. The buyer has more freedom to discuss the value of properties, negotiating strategies and personal finances with the Realtor. The buyer can obtain the opinion and advice of his agent concerning the property, the effect of improvements, the seller's motivation for selling, and a variety of other information which a seller's Realtor cannot provide. These are just a few of the benefits of working with your agent . . . a buyer's agent.

Let's get acquainted. Head for The Prudential Preferred Properties Barrington office and talk with one of our professional agents and find out how much house you can really afford and which neighborhood is right for you. We may even have just the home you're looking for. However, armed with a map and lots of information—you can still ride around since now you'll know what you're looking at.

The Prudential Preferred Properties is your dream house headquarters.

Local Architects Specialize In Remodeling

Are you confused on how you get more space from your present home? Are you wondering how much this will cost?

"When a client calls us to look at remodeling their home, they generally have two questions. How can we get more space and how much will it cost?" says John C. Cazzetta, President of **Kemper Parker Cazzetta**, an architectural firm in Barrington that specializes in residential design. "We feel we can uniquely answer those questions because of our combined experience in design and construction."

Mr. Cazzetta also owns "bonnerCodd Associates", a construction management firm. "Not many architectural firms are clued into the cost drivers of remodeling. Therefore, we are able to estimate the cost of the project before we begin designing."

The firm also prides itself in "context architecture". "We strive to complement the existing structure as we incorporate the new space. The finished project should feel as if the new work was part of the original design."

of Frank Lloyd Wright. The group will be leaving Barrington by bus at 8:30 a.m. on Friday morning. The first stop will be at the Wright home and studio complex which is an excellent example of the Prairie Style of Architecture which Wright made so famous. As a special treat, the Historical Society has arranged for Lyman Shepard to be the tour guide. Mr. Shepard is a retired art historian who is noted for his original dramatizations of the famous architect. Mr. Shepard will continue with the tour to point out the many architectural building styles used in Oak Park and River

Forest and to give the history of each of the styles. Participants on the outing will receive a tour booklet and map. The tour will stop for lunch at Nielsen's, a landmark restaurant in Elmwood Park before returning to Barrington around 3:00. The cost of the tour is \$20 for BAHS members and \$30 for non-members. Lunch is additional. Seating is limited and reservations must be made by Friday, May 20th.

For more information on any of these events sponsored by the Barrington Area Historical Society, contact the BAHS office at 381-1730.

Whiplash Injuries (Continued from Page 9)

tant first step in any whiplash injury is proper diagnosis and assessment of the tissues actually involved. "Some offices treat all cases the same way, and since not all injuries are the same, this amounts to a disservice to the patient. Each patient must be properly assessed and given individualized therapy protocol which takes into account the extent of their injuries. The first goal is always pain relief. With the pain out of the way, stretching and strengthening of the neck flexors and extensors must follow to ensure stability and durability in the cervical spine."

Studies reveal that more than eighty-five percent of Americans will suffer some sort of incapacitating pain at some point in their lifetime. Many of these individuals will

look toward chiropractic for relief. And they're in good company. Many well-known celebrities and sports stars benefit from chiropractic care: David Letterman, Elizabeth Taylor, Mel Gibson, and Joe Montana, to name a few.

Most football and basketball franchises have a chiropractor on the team. Golf and tennis professionals and every U.S. Olympic Team use chiropractic care to boost peak performance. (In fact, Dr. Reffell has personally treated Olympic Champion athletes).

So if you're hurting and would like to experience relief in a warm and friendly environment, consider visiting Dr. Reffell at **Northwestern Chiropractic Center**.

From A Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

I was watching one of the morning news programs this morning and one of the subjects was working moms. A recent survey done by a national magazine showed that many working mothers feel that their situations have improved over the last few years. Many husbands help out much more than they used to and some companies are more sympathetic and flexible.

That may be true, but the stamina and determination it takes to be a working mom still amazes me. Our office manager, Sharon Picard started working with us over eight years ago when her children, Bill and Blake, were only five and one years old. Our assistant office manager, Karen Chuchman, started working here almost eight years ago when her children, Derek and Alex, were five and two.

We've tried very hard to flex hours around because of schools, vacations and illnesses, but it still amazes me that they both keep going at full speed. If we fall behind in the office, they come in on weekends or stay late (and we never have to ask, they both feel responsible to keep up with their work).

John Grubbs, our general sales manager, even talks them into cooking breakfast a couple times a year for the sales force. As

if they don't already have enough to do with scuba lessons, hockey, soccer, baseball and every other sport known to man. They are also both active in their churches and communities.

Both Sharon and Karen are a very integral part of our organization and we really appreciate the extra effort they both seem to always have available time after time.

High Quality Show In a Quiet Countryside

On the evening of May 14 approximately 75 midwest dealers will unload and set up for the first show of the season for the **Racine Antiques Fair**. The show itself is Sunday, May 15, from 8 a.m. to 4 p.m. at the Racine County Fairgrounds in Union Grove, Wisconsin.

As in the past three years, there will be quality collections of china, furniture, jewelry, American Country and primitives, Victoriana, toys, books, rugs, quilts and more. Prior shows, for example, have featured some spectacular finds: an oval rosewood and marble top table by Herter Brothers (c. 1865); a pair of Haviland pottery vases with bronze mountings c. 1870; a pair of upholstered Queen Anne-style chairs from the early 1990s; Fiesta Ware (one season a dealer came in with a com-

plete set of never-used Fiesta Ware found in an unopened box at a house sale); a turn-of-the-century wicker rocker; a Victorian era vanity of quarter sawn oak; a Miriam Haskell faux burnished gold and pearl necklace; Kayser Zinn pewster; a Marti clock and matching candlesticks (French. 1863); a grease lamp dating back to the 1700s.

Yes, the **Racine Show** has something for everyone and all the merchandise is guaranteed.

In addition to May 15, the Antiques Fair will be held on June 19 (Father's Day), July 17 and August 28. Admission is \$3 per person; free parking; refreshments available.
