## Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

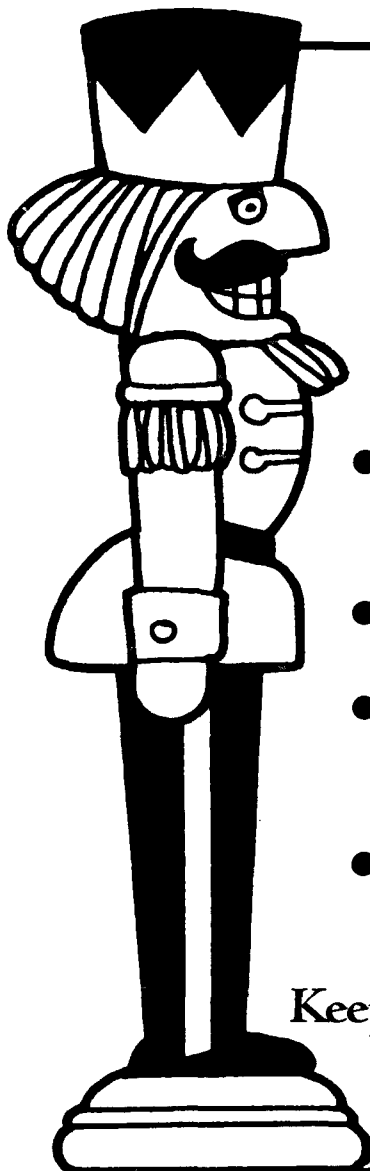

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 18 years of service at the same location.

## Infant Welfare's "A Night Of Stars"

"Twinkle, twinkle all the stars. Tuxedo Junction's where they are!" The Palatine-Inverness Chapter of the Infant Welfare Society members are hosting a star studded event on November 12, 1994 under the stars in the atrium of the Wyndham Hamilton Hotel in Itasca. The eleventh annual Tuxedo Junction, "A Night of Stars", will again be a celebration of "people helping people."

Guests arriving at 6:30 p.m. will be dazzled and entertained by the enduring star quality of look-a-likes of W.C. Fields, Mae West, Humphrey Bogart, and Marilyn Monroe. A stroll down the Christmas tree walk will enhance the feeling of being surrounded by starlight. This year's imaginative and unique silent auction will be aglow with the brilliance of the special stars of tomorrow...the young patients of the Infant Welfare clinic. Each item will have a patient's name and star attached to the bid sheet.

All evening the mystic of the stars will be interpreted by four psychics, Judith Harris, Marian Belushi Mills, K.C. Mark, and Marianna. Whether it is astrology, cards, or palms, each of the psychics will be able to share her vision of your future.

A delicious dinner will be highlighted with a special "star" dessert sprinkled with stardust. With the atrium awash in the glimmer of candlelight and twinkling lights, Dave Dougherty and the Gold Coast Orchestra will invite guests to dance to the sparkling repertoire of music that captures the spirit and celestial energy of the evening.

All proceeds will benefit the Infant Welfare Society of Chicago, where for over

three quarters of a century, Infant Welfare has responded to the challenge of providing essential health care to women and children, "never turning away the poor, the immigrants, the ill and malnourished." The Auxiliary, with its thirty chapters, is the single largest contributor to the clinic of the Society.

## Winterscapes Will Recall Romance Of The Old South

The Barrington Area Historical Society's annual fund-raiser, Winterscapes, will recall the romance of the Old South on Friday, December 2, at Wynstone Country Club in North Barrington. Winterscapes: The Gone With The Wind Gala, will feature a sumptuous southern repast, live and silent auctions, and dancing to the lively music of the Ad Hoc String Band, beginning with the Virginia Reel.

Guests, attired in period costumes or black tie, will enjoy a champagne reception and silent auction at 6:30 p.m. A plantation-style dinner, with Southern favorites such as crabcakes, Creole grilled chicken and honey-baked ham, will follow. After dinner, the live auction, which includes American Airlines round-trip tickets for two to Great Britain, offers opportunities for holiday shopping. The cost of the evening is \$125 person, and reservations must be made by November 25.

Mr. & Mrs. Richard Honquest are serving as honorary chairmen for this event, and will host a Winterscapes Gala Preview, Thursday, November 17, from 7-9 p.m. at Richard Honquest Fine Furnishings. This complimentary evening will evoke the Civil War era with a Victorian tea party, punch, and light refreshments. Guests will be greeted by Historical Society volunteers in period costumes, enjoy seasonal entertainment, and listen to the story of life on the James River Plantations. Several Gala auction items, including furniture by Hickory Chair, and a silver and crystal epergne, will be on display as well.

## "Polo For The Prairie" Benefit Raises Over \$55,000

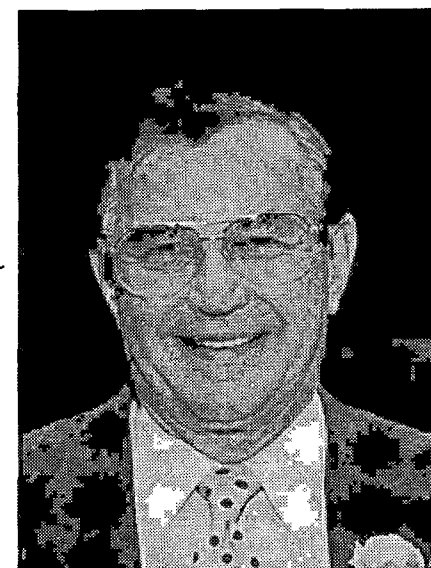

Event Coordinators Susan Gohl (left) and Lucia Adams are all smiles at the Sept. 10 "Polo for the Prairie 5" benefit at the Oak Brook Polo Club. More than \$55,000 was raised for the Illinois Chapter of The Nature Conservancy, a non-profit organization that has protected more than 8 million acres of ecologically significant land in the U.S. and in Canada. The event featured a six-chukker polo match, pitting Pincroft Farm, co-owned by James J. Drury III of Barrington Hills and chairman of the benefit,

against the Sears Team of Naperville (Pincroft won by 6 goals to 5 in sudden death). Polo for the Prairie, an annual benefit to raise funds for the Conservancy chapter, began five years ago out of Drury's interest in polo and wildlife. With the idea of melding "polo" with the "prairie," "Polo for the Prairie" was devised as a means of showcasing an exciting sport while benefiting a worthwhile cause—the preservation of the prairie and wildlife in Illinois.

### Holiday Excitement

The excitement of the holiday season has arrived at the **European Gift Express** in Barrington. The annual Kris Kringle Christmas Market has opened. Fine old world glass ornaments from many European countries decorate the trees reflecting the joy of the season. Several lines of Santas, German nutcrackers and smoking men adorn the Kris Kringle Marketplace. A new addition this year is the "Heavenly Angel" collection of figurines, candle holders, throws, music boxes and much more. Be sure to see "The Gift 94", a limited edition sculpted angel by artist, Dianna Newburn, with a portion of the proceeds donated to the Starlight Foundation, which helps grant wishes to critically and terminally ill children.

Of special interest from Italy is the G.

Armani figurine collection with several of the "My Fair Lady" series still available. Also new by artist P. Buckley Moss, is a collection of art plates.

To add to the excitement the **European Gift Express** has brought to Barrington the limited edition canvas lithographs of Thomas Kinkade, the "Painter of Light." ## 'Tis The Season Of Holiday Entertaining

The month of November begins the season of holiday entertaining. Traditionally we gather together with friends and family to share the harvest. At **Gourmet Faire**, we want to make entertaining easy. We cater to those who don't have time to cook, but want to look like they do!

For those on the go who need a fast and easy dinner, try our Elena's Rainbow Angel Hair pasta with a delicious Mushroom and Green Pepper Sauce. Mix up a Glorious Garlic salad dressing from Bark and Bradley. Add a bottle of beer to our Classic Beer Bread Mix from Dassant and see how easy it is to make homemade bread!

For parties, we have lots of quick mixes. Add sour cream or yogurt and enjoy Wild Scallion, Spring Vegetable, or Cheese Provencal Dips. You might also choose East Shore Seasoned Pretzels and dip them in a Sweet and Tangy Mustard. Aspen Mulling Spices may be added to apple cider for a warm party beverage.

For the ultimate dessert or perfect hostess gift, nothing beats Joseph Schmidt truffles. Pumpkin truffles are orange colored white chocolate on the outside with dark pumpkin spice truffle filling and a green stem. Turkey truffles are dark chocolate (Grand Marnier), milk chocolate (Amaretto), and white chocolate (White

Kirsch). These candies are fancy enough to set at each place setting for Thanksgiving! They come beautifully packaged for gift-giving, too! Looking ahead to Christmas, stop by to pick up our chocolate "pop-pers"—delightful chocolate pieces rolled into shiny gold foil tubes that would make an eye-catching "edible" centerpiece!

**Gourmet Faire** features gourmet coffees and specialty foods perfect for entertaining and gift giving. Holiday baskets are available in our "Gifts to Go" section for hurried shoppers. We can also customize a basket just for you. Gift wrap is always complimentary. Stop in today to see our vast selection of taste sensations!

## Gift Giving Made Easy With Bath Luxuries

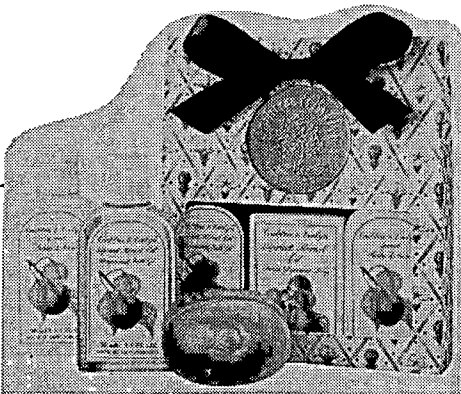

**Barrington Bath Shoppe** makes gift-giving easy this holiday season! Come visit our store full of ideas for everyone on your gift list! For those who like to shop well in advance of the holidays, stop in now for the best selection. For Santas who need to ship to friends and family out of town, make your choices now to guarantee arrival in time for the "big day."

**Barrington Bath Shoppe** specializes in bath luxuries from Crabtree & Evelyn, Scarborough, The Thymes Ltd., Terranova (Rain), and Caswell-Massey. We have over fifty different fragrances to choose from to delight your senses! Bath gels, soaps, lotions, powders, and colognes are sure to please everyone's needs.

For pure luxury, nothing compares with Goldleaf and Hydrangea from The Thymes Ltd. The bubble bath even has gold flecks floating in the gel! These toiletries are dramatically packaged in gold foil and make an elegant gift for any occasion.

From Pact, we offer a sparkling collection of bath oils in imported glass containers. Each decanter is decorated with dried floral and ribbon, so even if you choose not to use the bath oil, the glassware makes a beautiful accessory in your bath or bedroom. From \$7.95 and up, these bath oils also look spectacular grouped on a perfume tray.

To dress up your powder room for the holidays, we have embroidered fingertip towels in a wide variety of colors and patterns. Some have seasonal themes like candy canes, holly wreaths, and poinsettias. For everyday use, try our thick and thirsty

cotton bath towels in nine colors. These towels are oversized and luxurious, but affordably priced.

Home fragrances are also important during this time of entertaining. We can help fill your home with the "scents of the season" from Claire Burke, Scarborough, Seasons, and Yankee Candle. Potpourris and room sprays include Noel, Oh Christmas Tree, Red Hot, and Cranberry Spice. Balsam Fir, Hollyberry, and White Christmas are popular candle fragrances from Yankee Candle.

And don't forget hostess gifts and remembrances for teachers, neighbors, and office personnel! Just tell us your price range and we can make suggestions for you. Festive wrapping is always complimentary. We ship UPS to those on your out-of-town gift list, too.

Our staff is ready to assist you in every way to make this season of gift-giving and entertaining as easy and enjoyable as possible! Visit us soon.

## Piano Dedication A Lovely Affair

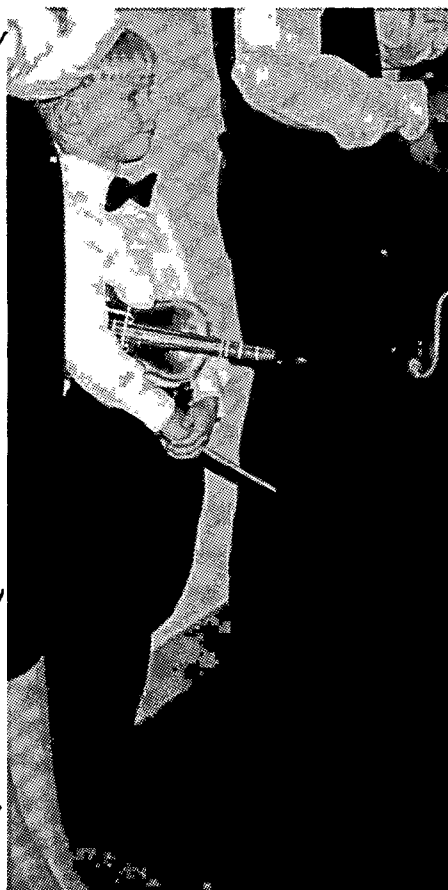

Above, James and Wanda Hollensteiner are shown with one of the guest soloists Ani Aznavoorian, gifted cellist from Barrington. The occasion was the dedication of the Kawai Grand Piano at the Barrington Area Library generously donated by the Hollensteiners.

The Hollensteiners are active in the Barrington Chapter of the Lyric Opera of Chicago of which Wanda is a past President. She has given private piano instruction for 30 years and established the local chapter of the National Guild of Piano Teachers and is past President of the Northwest Music Teachers Association. Jim's career is in business and law.

The Hollensteiners presented the piano to the public library to perpetuate a love of music in the community in which they have lived for 25 years.

Waiting patiently to perform his solo at the piano dedication was Peter Johnson, violinist (right). Peter is a member of the Barrington Suzuki Strings. He played to a huge turnout with a lovely rendition of *Happy Farmer* by Schumann.

Other artists performing at the dedication were Barbara Enders, piano; Diane Horban, flute; Bob Plagemann, trombone; Laurel Gibson, soprano and the Barrington Children's Choir.

## Pope John Paul II Blesses The Work Of Lamb

### Executive Named Patron of the Arts; is Active in World-Wide Church Affairs

Chicago Funeral Homes Executive Matt Lamb was showered with blessings that all occurred at his 62nd birthday recently. With his wife of more than four decades, Rose Graham Lamb, the couple were guests at a private Mass in the Papal Apartment in Rome. Chatting with His Holiness, Lamb shared a catalog from a recent exhibition of his own contemporary paintings in Minneapolis/St. Paul, which he inscribed for the Holy Father.

During the past decade, Lamb's restless, jewel-toned paintings have stirred increasing international interest. In 1992 he was

juried as the Bronze Medalist of the National Federation of French Culture in Deauville, France, a rare honor for a non-European.

The highly textural early work in the Vatican Collections is a depiction of "The Crucifixion" and represents a thematic body of work inspired by the Judeo-Christian tradition of religious thought. Life, death and rebirth imagery are a constant in Lamb's mixed media paintings, which are also characterized by a vivid palette and layering of surfaces achieved through burning, scraping and peeling the underlying pigmentation.

## Celebrate Holidays, Have Fun Come To Thai Avenue

The Thai Avenue Restaurant has been offering fine Thai cuisine for over three years at its location in the Lakeview Plaza, Lake Zurich. During that time its dining excellence has been recognized by the *Chicago Tribune* and *The Daily Herald*.

Our menu, which offers over 50 items, has been carefully selected from the most popular dishes of Thailand. For example, Pad Thai: Stir-fried medium-sized rice noodles with special house sauces, vegetables like cabbage and bean sprouts, and your choice of meat are used to add flavor. Ground, roasted peanuts are sprinkled on top before serving for the final touch. Another noodle dish to recommend is Thai Avenue Spicy Noodles: Stir-fried wide rice

noodles with special chili sauce. Varieties of vegetables like carrots and broccoli, and holy basil will set this dish apart from all the others. We really recommend this for the first time diner. However, all dishes are individually prepared to suit your taste—whether you like it mild, volcanic hot or somewhere in between.

We have new specials weekly and offer special meals during the week of holidays. Come and have fun with us. Enjoy the unique flavors from Thailand.

Thai Avenue has a full service bar including fine wines and imported beers. Carry out is also available.

Let us make your holidays special.

## Bonjour Mes Amis . . .

It is obvious by now that we have turned the page on one more summer . . . that summer has bettered Jacqueline's and my grandparenthood by two. In other words, Lorraine finally (it took 9 months) had her baby, Christopher James, and Estelle, our oldest daughter, had a little girl, Gabrielle, shortly after . . . total: 4 grandchildren . . .

Back to business: the exciting day in November is traditionally the 3rd Thursday of the month: Beaujolais Nouveau. D & J Bistro will be holding their 8th celebration of the year's harvest, with a very special Four Course Dinner, helped down by an ample supply of the first wine of this harvest. An accordionist/singer will be strolling among the tables—the dining room is festive and so are we.

The menu presents choices, though our specialty that day is "cassoulet", a great dish from the south region around Carcassonne. It consists of white northern beans, blanched, then baked with three different meats precooked "confit" style—lamb,

*Dominique and Jacqueline*

duck, pork, plus ham, merguez sausage, garlic and more . . .

It's always a great success, lots of fun, good food, music, friendship and more. Join us at D & J Bistro but please call ahead!

## Panhellenic To Host Get-Together

Barrington Area Panhellenic is hosting a get-together on Tuesday, November 8th from 9:30 a.m. to 11:30 a.m. at the Barrington Library. So after you have gone to vote we would love to have you join us for a cup of coffee and conversation. Perhaps you will meet a long lost sorority sister and make some new acquaintances.

We meet informally four times a year. Our main focus is to help high school seniors learn more about sorority life. We sponsor a Rush Workshop in the Spring and make available a list of alumnae who will write recommendations. One of the highlights of the tea is the presentation of our scholarship.

We also like to have fun, so we have a

Christmas get-together and a Spring luncheon. We have a full working Board in place so there is no obligation to work just getting together to meet new friends and have fun. Our Board for 1994-1995 is: President—Margy Vauk; Secretary-Treasurer—Linda Long; Social—Sue Hendrick and Margi Rockwood; Publicity—Gloria Johnson; Scholarship—Debbie Villers; Advisor and Rush Workshop Coordinator—Nancy Ahern and Recommendation Chairman—Susannah Van Dam.

We hope you will bring a sorority friend or neighbor and come and join the fun. Our membership is open to all sorority alumnae. For further information call 381-5662.

## Hypnoanalyst Has Program For Overweight

"Overeating is a symptom, not the main problem," says **Sandra J. Buzan, a Hypnoanalyst**, who has had success with her program.

Overeating is how some people deal with problems. It is a clear sign that something is not going right in their life and they turn to food pushing down their feelings.

Diets don't work because they address the symptoms, not the cause of excess weight. "I have found that most people know what they should be eating, but cannot consistently maintain a program," says Sandra.

It's not about willpower. It is about un-

resolved issues.

With hypnoanalysis, the underlying issues can surface and be resolved. With hypnosis you can learn to relax. With analysis you can resolve the issues which trigger your overeating. Only then will a healthy eating and exercise program work.

**Sandra J. Buzan, M.A.**, combines 15 years of healing the mind and body using hypnoanalysis and psychotherapy. She is in private practice at 421 North Hough Street, Barrington, Illinois. She works with individuals, families and groups. For details, call (708) 382-0930.

## Dreading The School Days

"No! I don't wanna go!" your daughter sobs, looking up at you with her wide eyes and tear-streaked face, begging for mercy. Or, clutching his stomach in feigned agony, your son cries, "I feel sick—I can't go to school today!"

The first day of the school year should be an exciting time of new clothes, new teachers and new friends to look forward to. Why is it that some children dread starting school in the fall?

According to Dr. Raymond Huntington, founder and president of the **Huntington Learning Center**, there are many reasons why children may be reluctant, or even frightened, about returning to the classroom. A new environment can be a tremendous adjustment for a youngster, whether they are moving from one school to another or simply going into a new classroom with unfamiliar students and a different teacher. However, children may also have a particular attitude towards school which creates their intense fear:

1. **Lack of self confidence**—"I can't do it!" If a child does not believe in himself, he may not think he is capable of succeeding in school. To build your child's confidence, set reasonable expectations and attainable goals, and praise your child's achievements. When a child finds that they can complete small tasks, they will not be afraid to move on to bigger and better challenges.

2. **Fear of failure or fear of criticism from others**—"You can't do it - you're stupid!" Children who are having trouble keeping up in school may feel afraid or embarrassed to ask questions in class, for fear that their classmates will tease them. When they do not ask for help, this fear of failure often causes students to fall further and further behind in school.

3. **Lack of motivation**—"I won't do it!" When a child is unmotivated, he would rather avoid a difficult task than face it head-on. Sometimes, children become bored or disinterested when "textbook knowledge" seems meaningless. The key to motivating a child to learn is to make learning interesting. Find examples in ev-

eryday life and children will learn without even trying! Reading food boxes and cans, counting cars on the highway, and writing letters to friends are things that we do every day, but activities such as these can spark a child's interest in learning. Other times, a child may just give up without trying if they think they cannot do the work. Again, show the child all of the little things he can accomplish and he will be more likely to take on larger tasks.

4. **Negative attitude about learning**—Children who have a negative attitude about learning may see school as a chore, like a criminal who has been sentenced to 13 years of hard labor! As a parent, you can change this bad attitude by making learning enjoyable. Set an example by taking an interest in learning yourself. Reading with your child and helping them with their homework are only two things you can do. Your child will be enthusiastic about going to school when they see that learning can be fun!

5. **Lack of basic skills**—"I don't know how to do it!" Your child will certainly be frustrated if they cannot keep up with their classmates or school assignments due to a lack of basic skills. If your child was having problems at the end of the school year, they may have even more difficulty with the introduction of new material. By working on a child's weak areas through tutoring, knowledge will fall into place, then self confidence and motivation are sure to follow!

Only an academic check-up can show your child's strength and weaknesses, and determine if they have the basic skills to succeed. **The Huntington Learning Center** offers comprehensive academic skill check-ups and provides tutoring in reading, writing, spelling, phonics, and math at all levels, plus SAT and ACT prep for college-bound high school students.

If you have questions, or would like to schedule an academic check-up for your child, please contact the **Huntington Learning Center** in Barrington at (708) 382-3655 or **Huntington Learning Center** in Buffalo Grove at (708) 459-5939.

## Herbal Shampoo Helps Baldness

Finally! A cure for baldness that really works! A revolutionary new herbal shampoo, called Foli-Kleen 2000, has just exploded onto the scene, giving fresh hope to millions of Americans who, until now have helplessly watched their hair fall out. In fact, the product's intrepid inventor, Jacqueline Sabal, suffered through the same agony of hair loss.

"There it was in the mirror," the 50-something cosmetologist tells us from her laboratory in Pompano Beach, Fla. "I was going bald. There was nothing out there that seemed to work, so I invented my own solution."

"Now I have an incredible head of hair." The magical ingredients in Jacqueline's

painless potion are top secret, but she will reveal that they're a special combination of natural herbs.

And a clinical study of Foli-Kleen 2000 showed conclusively that users of the shampoo experienced progressive growth of hair—an amazing 33.9 percent increase over just three months!

"Cleanliness is the key to hair growth," she says. "We simply deep cleanse the scalp of all the debris that's accumulated over the years and allow the hair to push through the scalp."

Foli-Kleen 2000 is available at **In Hair Numero Uno P.C.** on Northwest Hwy. in Palatine.

## WHEN DRUGS DON'T HELP.

### ATTENTION Problems

Attention is affected by many conditions. Medication may have little effect, if ADD is not the origin of your child's poor attention. The real cause may lie in subtle, early gaps in development—Neuro-Developmental Delay (NDD). These slight, but critical, delays surface in the academic setting as poor reading or writing, disturbed attention or comprehension, or simply as chronic underachievement. **FOR INFORMATION CONTACT:**

## Tradition Is Popular In Naming The Baby At Good Shepherd

While the number of babies born annually at EHS Good Shepherd Hospital continues to climb, the popularity of baby names remains traditional, with a few unusual exceptions.

A listing of all of the names of the babies born at EHS Good Shepherd since the first of the year, reveals that parents in the EHS Good Shepherd service area encompassing northwestern Cook County, southern Lake county and northeastern DuPage County follow in the steps of dear 'ole Dad with many juniors, III's, IV's and even a VI recorded.

The most popular boy's name is John or Jonathan, closely followed by Daniel, David and Thomas. Also showing family tradition is William, Andrew, Robert and Nicholas. The girls are no exception, with the most popular girl's name being Catherine, with several variations of spellings including Kathryn, Kate, Katie and Katrina. Anne, Anna, Annie and Annliese are also popular with both first and middle names. Elizabeth, Alexandra, Emily, Nicole, Amanda and Jessica also made the

list.

K and C seems to score the highest favor with parents as starting letters for their newborns with girls being named Karah (Cara), Kira, Kayla, Kristen, Kendall, Karli, Kelsey, Kaitlyn and Kogan. There were several Claire's, Courtney's and Colleens, too. Boys with K's and C's were named Kyle, Kent, Cody, Caleb, Christopher, Casey, Corbin and Christian.

Parents that sought a more unique name for their sons choose Arlo, Landon, Dakota Rex, Hayden and Mark Anthony. Parents of girls looking for the unusual opted for Faith, Skylar, Makenna Savannah, Lilia, and Taryn.

The popularity of television shows showed up in names like 90210's Tori and Dylan. Brenda did not make the list, however, although Shannon did!

While there seems to be a trend toward the more traditional names, one trend that has changed, however, is that there were no Jasons or Jennifers born at EHS Good Shepherd during the first part of 1994!

## When Drugs Don't Help

A mother relates, "The test results were inconclusive for ADD, but we agreed to try the drugs anyway. None of them had any effect except to reduce his already poor appetite. Now everyone is at a loss to give us answers."

Disturbed attention arises from many sources. Today ADD is the most widely known cause of attention problems. Too often this diagnosis is eagerly made because it is especially responsive to simple treatment with stimulant medications. A significant part of the ADD-suspected population, however, does not respond to appropriate medications.

The mother continues, "The whole situation is a confusion of mixed messages. Teachers say he has a poor attitude and is unmotivated, but he struggles for hours doing homework that should take an hour, at

the most. They report how his attention constantly wanders, but he can spend a whole weekend engrossed in one of his model-making projects and hardly eat. They tell us he has poor reading and language skills, but he is very comfortable carrying on conversations with our adult friends."

The bright underachiever may actually be impaired by Neuro-Developmental Delay (NDD). Subtle gaps in the developmental sequences necessary for the brain to optimally receive, process and output information create impaired academic performance, even though the child is inherently bright or gifted.

To determine whether NDD may be affecting your child's underachievement or attention, call 708-303-1800 for an information brochure.

## Warning: Speed May Be Hazardous To Your Reading Health

A conversation similar to the one that follows happens on almost a daily basis at **Reading Enriches All Dimensions, Inc.** in Rolling Meadows.

**Caller:** "I would like to enroll my teenage son in a speed reading course. I know he'd make better grades if he could just read faster. Take tests, for example; he can never finish on time."

**Jean Comeaux:** "Your son may not be a candidate for speed reading. Contrary to what is commonly believed, speed reading is for the good reader only. If your son has basic skill deficits in reading, intervention in the form of a speed reading course would not help but might actually exacerbate the situation."

**Caller:** "How can I know what he really needs?"

**Jean Comeaux:** "The only sure way is by testing, but a pretty good indicator is his over all performance in school. Good

grades since first grade usually indicate good reading skills. Good grades in the content areas like sciences and math but poor grades in heavy reading subjects like history and language arts may indicate a problem with the basic skills."

**Caller:** "My son is very bright, makes A's in math-related subjects but does poorly on most standardized tests especially those in history and English. He hates to read."

**Jean Comeaux:** "That is the best indicator of all. Bright minds like to learn and consequently they should see reading as the most important doorway to learning. Our speed-reading/study skills course includes a basic skills test, free of charge, to insure that each student is a proper candidate for speed reading."

For information on **R.E.A.D.'s** Speed Reading/Study Skills course, please call 392-4747. Free testing to determine eligibility.

## The English Speaking-Union 1994 Beefeater's Ball

Plans for the Beefeater's Ball were announced by the Junior Board of the English Speaking-Union at a party held at the Surf & Turf Restaurant, located at 400 N. State St.

The Beefeater's Ball, the Junior Board's largest annual fundraiser, will be held at The Casino Club on Saturday November 12, 1994. This year's ball will be co-chaired by Alan Smith, Moira Toner and Kay Whitfield. The evening's theme will be based on the 1950's M.G.M. musical High Society. Guests will enjoy a light buffet, cocktails and music by Bradley Young Entertainment. Tickets are \$75 in advance, \$85 at the door.

This year's Beefeater's Ball will benefit The English Speaking Union's Shakespeare Competition, an acting and recitation contest which provides high schools with a curriculum-based program to encourage students to develop their language skills and dramatic talents. The winner of the Chicago Competition and the student's teacher

will receive \$1,000 and \$500 respectively. The student will also be awarded a trip to New York City to compete in the national arena and experience all the theatrical vitality of Broadway. The second place winner receives \$500, the third place winner, \$300, and every participant receives a prize in recognition of their effort.

The Junior Board of the English Speaking-Union is an assembly of thirty-six young professionals, ages twenty-five to thirty-five, who live and work in the Chicagoland area. Established in the mid '70s, this Board has raised funds for numerous non-for-profit organizations that had a mission of purpose related to education and literacy, as well as programs that promoted good will and cultural exchange among English speaking peoples. In most recent years, the Junior Board of the English Speaking-Union has benefited Reading is Fundamental, The Inner City Teaching Corps, and St. Chrysostom's Church Tutoring Program.

## Florentine Opera Company Presents *Elektra* on November 11, 12, 13 1994 At The Performing Arts Center

Richard Strauss' consuming *Elektra* will be presented in Uihlein Hall of the Performing Arts Center in Milwaukee on Friday, November 11; Saturday, November 12; and Sunday, November 13, 1994. Friday and Saturday performances begin at 8:00 p.m. and the Sunday matinee begins at 2:30 p.m. Ticket prices range from \$17 - \$75. To order tickets, contact the PAC Box Office at (414) 273-7206 or toll-free at 1-800-32-OPERA.

*Elektra* will be sung in German with English Supertitles projected above the stage for a quick, unobtrusive understanding of the action.

The one-act opera, based on Sophocles' ancient play by the same name, premiered in Dresden in 1909. Classic Greek mythol-

ogy sets a magnificent stage for this captivating tale of treachery and retribution. The ancient Greek tale of King Agamemnon's murder by Klytemnestra, his evil wife, and her lover Aegisthus, forms the basis for the story of *Elektra* Agamemnon and Klytemnestra's daughter, *Elektra*, who has been condemned to live like an animal without the favors of her birthright, lives for the day she will see her father's murderers avenged by herself and her exiled brother, Orestes. As the shocking story unfolds and the powerful music grips you with its breathless fury, *Elektra's* savage madness and thirst for vengeance erupts into a frenzied vortex consuming everyone in her path.

## "American Santas Through The Decades" Offered By Pear Tree Gift Shop

The Pear Tree Gift Shop, staffed by the volunteers from the Auxiliary of EHS Good Shepherd Hospital, is offering the "American Santas Through the Decades" collection designed by the Galleria Lucchese, a division of Roman, Inc. The Pear Tree Gift Shop is one of only 1,000 dealerships in the United States to offer this limited edition collection.

Jane White, manager of the Pear Tree Gift Shop, said that she is very excited about this first time offering. "Most collectibles of this quality are usually very expensive," said White. "These Santas are very affordable and are beautiful, too." The Santas range in price from \$16 to \$50.

The Santas are offered in three different sizes - 3-inch, 6-inch and 8-inch. There are three carefully crafted collectibles representing different Santas from each decade starting with 1800 through 1890. The Santas capture the nostalgic feeling of the 19th century as well as their historic forms.

The Santas are hand crafted in resin using fine detail and a rich palette used by expert painters. Each of the Santas is unique, from a roly-poly ornament size to a traditional Santa-figure and a pencil-figure stand alone. The designs for the Santas come from historical texts of the 1800's in-

cluding Clement Moore's "A Visit from St. Nick," and political illustrator Thomas Nast, among others.

White said that the Pear Tree is making available a special offering for buyers who are interested in purchasing ten Santas in the collection. "When you buy ten of the Santas from the 1800's collection, you get a bonus 1900's Santa free," said White.

The "American Santas Through the Decades" are now on a special display at the Pear Tree Gift Shop. The Pear Tree will also be offering a special Christmas display of many other Christmas gifts, ornaments and other items beginning November 7.

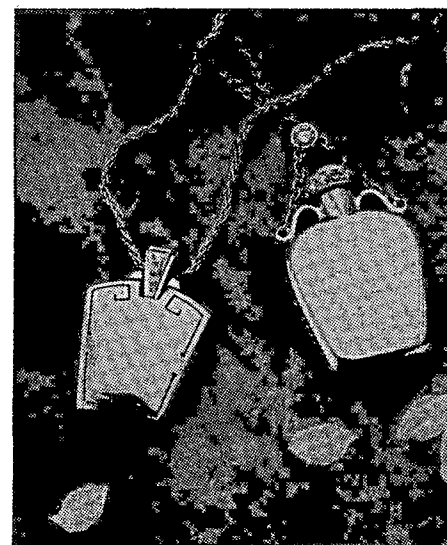

All profits from the sale of the "American Santa's Through the Decades" will go to the Auxiliary of EHS Good Shepherd Hospital, who, in turn, donate the funds to many designated medical projects at the hospital. In 1993, over \$76,000 was donated to the Auxiliary through sales at the Pear Tree Gift Shop.

The Pear Tree Gift Shop is located in the main lobby of EHS Good Shepherd Hospital in Barrington and is open Monday through Friday from 9 a.m. to 8 p.m., and Saturdays from 10 a.m. to 4 p.m. and Sundays from 1 p.m. - 4 p.m.

## A Diamond Plot— An Excellent Reference

Isn't it time you got to know your diamond? Have you ever felt uncomfortable leaving your diamond jewelry for repair? I.K. Design has always been interested in continuing education. Ellen Kornhauser, Graduate Gemologist, would like to help you to better understand your diamond's unique qualities. "A diamond plot is an excellent reference to help you identify your diamond at a later date." The Gemological Institute of America includes a diamond plot with each diamond grading certificate. Your insurance company might even request a plot with your next appraisal. Ellen is available for full appraisal services by appointment.

I. K. Design also offers a wide selection of 18K gold and Platinum Designer Jewelry. A very special occasion can be remembered with a handmade locket, or a special ring custom designed by Isaac Kornhauser.

## Employees Create Commemorative Quilt Celebrating Hospital's 15th Birthday

*Diana Strasburg (of Algonquin), left, Senior Passport Coordinator, and Shirley Paulk (of Barrington), an EHS Good Shepherd Hospital Volunteer, look over some of the quilt squares that have been created for the hospital's 15th Birthday Commemorative Quilt. The completed quilt was unveiled during the hospital's 15th birthday festivities on Monday, Oct. 17.*

EHS Good Shepherd departments are busy creating a part of the hospital's history.

In honor of the hospital's 15th birthday, a commemorative quilt was created for permanent display in EHS Good Shepherd.

The "Stitch in Time" project includes a collection of 14-by-14-inch quilt squares that illustrate how various departments and employees at the hospital contribute to EHS Good Shepherd.

To date, more than 32 blocks have been completed, each with an unique approach to the project.

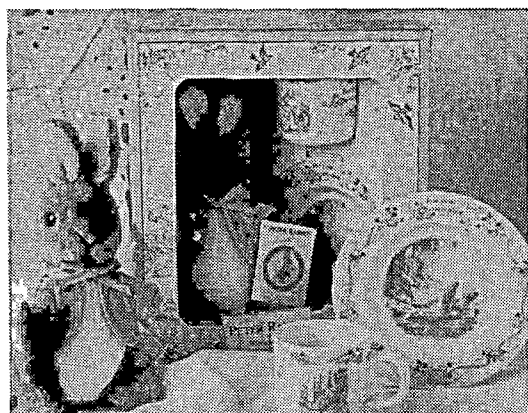

The Birth Center's creation includes the footprints of newborns with the notation that more than 22,000 babies have been

born at the hospital since it opened in 1979. The Volunteer Services quilt block features miniature versions of volunteer uniforms while Administration sports the steering influence of a ship's helm.

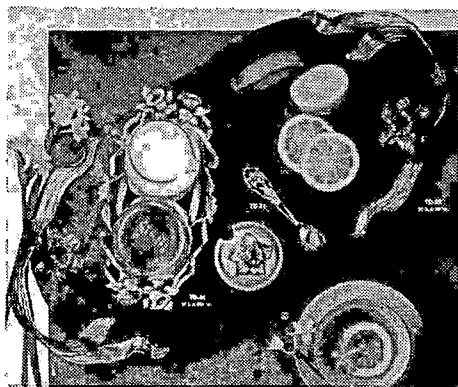

An ambulance holds a prominent place on the Emergency Medicine Department's entry, a bug with a red slash mark through it is pictured on the Infection Control square and an illustration of a phonograph record depicts Medical Records' duties. The center of the quilt will feature the hospital's 15th birthday logo.

The quilt squares have been sewn, drawn, painted and glued, and are decorated with everything from glitter and silk flowers to buttons and bows.

## November Is 1995 Calendar Month

November is the month when many families and businesses purchase calendars. **Jordan Temple Book Center** in Crystal Lake has over 4000 calendars in stock. Their 350 different styles feature art, humor, landscapes, nature, inspirational quotes, gardening, cars and swim suits, just to name a few. Prices range from \$5-\$16

"I run my life on three different calendars," confesses Elizabeth Jordan Temple. "I look at them everyday, all year long. It's important to me that each calendar expresses my personality, enhances my room and is utilitarian. That's why I take care to select for my customers many different formats: wall, desk, weekly, daily, 12 and 16 month."

Children and young adults often buy calendars for Christmas and birthday gifts. Calendars are personal yet inexpensive.

"Each of my 3 sons has a calendar hanging in his room. It's an annual Christmas gift they look forward to receiving," reflects Elizabeth. Advent calendars are a favorite with teachers and parents.

Businesses or individuals wishing to order large quantities of a calendar should stop in or call this month. "We can usually get them within a week. We will then wrap and mail them out to everyone on your list. By December 1st publishers are out of most popular calendars, so shop early," says Elizabeth Jordan Temple. "Don't forget to ask about our discount on quantity orders!"

## Country Collections At Harper College

The dawn is just breaking over the horizon. The campus security officer who will direct the waiting caravan of trailers and trucks, mulls over the list of those who are expected and takes a last sip of warming coffee. It will be a long morning and afternoon, and there is a lot to get done.

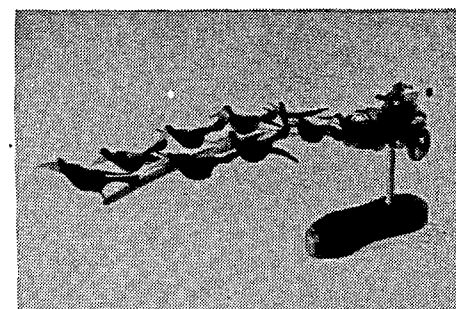

The first in line are those who have come the farthest, often having forsaken sleep for that early slot in line. Having driven through the night, they doze in their trucks, waiting for permission to move closer to the building.

Within hours the now-empty gym at Harper College will be turned into a modern-day gypsy camp, alive with music, sweet scents and laughter. Now the shining floor bears only chalk marks and hastily scrawled names to indicate booth spots. "Will we have enough time to set up?" "Is the weather too bad (or too good) to get a crowd?"

At 6 am the loading doors are raised and the first of the new residents of the gypsy town enter. A quick hello, and the work must begin. There are goods to be unloaded, booths to be set-up, merchandise to be put on display, old acquaintances to renew.

These travelling communities are built every week-end throughout the country. Some exhibitors are "neighbors" at shows frequently, others only see each other once or twice a year. "Let's get busy, you can visit later!"

By noon, there will be a barn-raising, as "Country Sisters" hoist the roof of their booth into place, "Do you need a hand with that?" A log cabin has taken its place next door earlier, and the garden gazebo of "Cat-

nip Meadows" is taking shape nearby. Father down the road, a gazebo of another kind is assembled from the bent twigs of "Heartfelt Farm", and wallpapered rooms spring up throughout the gym.

Bins of merchandise are opened. "We forgot to put hangers on all of this!" and an obliging "neighbor", done with her set-up, kneels in the booth and asks for a hammer.

A quick break for a lunchtime snack, means a moment to chat in line, then on with the work. Trailers back up to the doors in a steady stream. Friends joke, "Not you again", to a longtime show neighbor, or ask "Will that nice guy from Green Bay be here again?" An anxious exhibitor arrives late, and helpful hands see to it that they too are ready.

By two o'clock, with an hour to go, a line begins to form outside. First in line are four ladies from Madison, they are offered folding chairs, which they position at the head of the line. Inside things move at a fever pitch. Empty boxes are stacked, "Do you have a hammer?" "Can I borrow a few price tags/nails/quarters?" "Do you know where I can buy a light bulb?" Some now

## Quarter Century And Still Growing!

It's hard to believe it's been a quarter of a century since **Mitchell's Jewelers** opened its first store in downtown Arlington Heights. But first let's look back at the story of a man with a dream. My father had the dream to come to America and someday have his own jewelry store. In 1947 Alfred G. Mitchell left Egypt and came to New York, then straight to Arlington Heights, a small town of not more the 6000. He spent his first year working in the area; then he decided to join the army. After four years

My brother and I, Jim & Doug Mitchell, seventh generation jewelers, are continuing in our father's footsteps with some of our own dreams.

In a time when we're seeing many jewelry stores closing, it feels very good to be blessed with a jewelry store that is still growing. In our location just south of the train station, on the corner of Dunton & Davis, we do much of our own manufacturing. Jim and I always wanted to do our own casting, but our other stores' shop facilities were too small. With our last move, we became one of the largest jewelers in the area. Also, our shop size almost tripled, allowing us to add more benches and equipment, for wax carving, casting and mold making. We now can make rubber molds for duplication of our custom made items or your heirlooms. We also still do jewelry repairs, stone setting and custom hand wrought jewelry.

So I would like to invite you to visit **Mitchell's Jewelers**, where old world craftsmanship and honesty are our only policy. A great time to visit would be during our **Pre-Holiday Sale**. From November 7th through November 26th, we are having a store wide pre-holiday sell off. We have great savings throughout the store with special factory close out prices on watches with savings of 50% to 70% off! We also have a special selection of Waterford crystal at 30% off!

We are looking forward to twenty-five more years of satisfying our customers. So take advantage of savings of **20% to 70%** during our store-wide **Pre-Holiday Sale**.

**Douglas A. Mitchell, Co-Owner**  
**Recipient: GIA Diamond Grading Certificate**

and an honorable discharge, he was trained in watch repair and started working for C.D. Peacock for five years as a jewelry designer, servicing customer's repairs and training other employees. After that he worked for Simon Brothers as manager in the same field. From there he became the number one jewelry salesman in the country at Sears Roebuck jewelry department in Golf Mill. In 1969, he recommended to Nicholas Lattot that "if you build a shopping center in downtown Arlington Heights, I will be the first one to rent a store."

So my father and mother, Alfred & Esther Mitchell, opened the first store in Evergreen Shopping Center in 1969. Through hard work, fair prices, good quality and great service, we grew. We more than doubled in size with a move next door and continued to grow. Our last move, in 1984, was to our landmark location at 10 N. Dunton in downtown Arlington Heights. My dad had the dream first to have his own store, then to own a building for a store. We took a then run-down 135 year old building and completely re-built it. And it was the first re-development in downtown Arlington Heights, which was the start of great things to come for downtown Arlington Heights. Now, with its brick walkways, new lighting, repaved roads and new parking garages, it's become a really great place to shop.

## The Fine Art Of Gift Giving

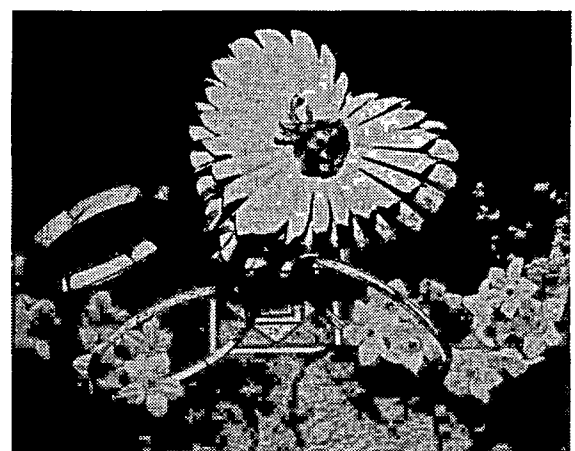

The exchange of gifts during the holidays began long before religion as we know it today gave a new meaning to the custom.

Pagan festivals celebrating the sun's annual rebirth brought with them a message of peace and goodwill when the rich generously gave to their poorer neighbors and received garlands, candles or frankincense in return. Men gave each other 'honeyed' things so the recipient might be sure of sweetness in the coming year. Gifts also had to be given to evil spirits at the time to drive them away. Because gift giving was an essential part of pagan celebrations, the early Christian church tried to abolish it from its Christmas celebration, but luckily, giving generously to kinsfolk, friends, and neighbors was a natural expression of rejoicing and was soon accepted by the church as a religious symbol.

Gift giving during the holidays is a tradition that dates back thousands of years. **Persin & Robbin Jewelers** in downtown Arlington Heights has its own rich history of helping people in the Northwest suburbs find beautiful gifts for everyone on their special list. For 35 years, **Persin & Robbin** has offered an extensive selection of fine jewelry to its customers. ## Skin Care For Winter

This is an article that I always dislike to write, but is a fact. WINTER IS UPON US! NOW IS THE TIME TO CHANGE OUR SKIN CARE!

We have many elements to overcome, SUN DAMAGE, clogged pores from oils and sun blocks, and dead cells from improper cleansing. More attention is needed now for your skin, and as you know, the most important thing you do to your face is how you cleanse it. All of my estheticians are licensed and have a lot of knowledge in the treatment of skin. We are always happy to educate each client about the care of their own skin. Now is a good time to make an appointment for your facial to cleanse, exfoliate dead cells, and to moisturize. We have many methods to treat the skin. But most and best of all, we have knowledge.

I would like to touch briefly on stress and how it affects the body and the skin. Now is a very stressful time, the holidays are coming. In our busy lifestyles, body massage and facials are not only fantastic for the face and body, but a way to relieve stress in our lives. Just think what a GREAT DAY, having a body Massage, Facial, Manicure and Pedicure in a private room with relaxing music would be.

We sell a lot of Gift Certificates in our studio. What a wonderful present to give to someone. They would be very grateful.

I would also like to touch briefly on Glycolic Acid, the new revolution in skin care

(as far as the market goes). Glycolic Acid has been used in the medical field for many, many years. We have been honored, as licensed estheticians, to work with Dr. Murad, selling his wonderful product. Dr. Murad has five different formulas designed for each type of skin. After being on the product for two weeks, you are eligible for the rapid exfoliant peel. This works on aging skin, refining fine lines, wrinkles, acne skin, and pigmentation problems. Dr. Murad does not sell his product to anyone except licensed estheticians because of the percentage of Glycolic Acid. The treatments are valuable for all skin types.

Sincerely,  
Cathy Ramstadt, Owner

## An Exciting New Way To Dress Up Your Home For The Holiday Season...

Add a beautiful designer touch to your holiday decor this season with gorgeous handcrafted lampshades in festive prints and luxurious taffetas.

Lampshades are fast becoming the darling of the home decorating industry, as experienced by the plethora of articles devoted to the subject in recent months. And it's easy to see why. Few decorating options give you the same impact for a rather modest investment—usually under \$100.00.

All the while a new shade can change not just a lamp, but an entire corner from drab to fabulous. Depending on the shade you select, it can add drama, color, and a unique focal point to a room.

And it can help bathe your home in the

warm glow of the holiday season. Try them in your living room...dining room...the foyer...throughout the house. You will find them to be a cherished addition to your holiday decor year after year.

And while you're shopping for holiday shades, don't forget this season's lovely holiday finials: whimsical Santas, toy soldiers, Christmas trees, and more...all painstakingly handpainted in loving detail. Use them together with your new holiday shades—or just by themselves. Either way, they are sure to delight young and old alike!

Holiday lampshades and finials are available at **L & W Lamps, Barrington.** (708) 382-3195.

## Elgin Symphony Turns To Nature

Nature will be the focus of the Elgin Symphony Orchestra classic concerts on November 19 and 20 when Music Director Robert Hanson takes the podium to present works with environmental themes.

The first, "Thinking Like a Mountain," is composed by Roanoke Symphony Conductor Victoria Bond. This piece is from an essay by environmentalist Aldo Leopold and features guest narrator Nancy Stevenson, a former Libertyville resident. The work is a joint commission with several orchestras, and the Elgin Symphony will perform the midwest premiere. A mountain with all the facets of nature which share its space, including insects and trees, is portrayed musically, giving voice these natural inhabitants.

"Concerto for Percussion and Small Orchestra" by Darius Milhaud stars 6-year veteran percussion principal Brian Oriente. Mr. Oriente has performed with the Chicago Symphony, the Grant Park and Northwest Indiana symphonies, and the Chicago Opera Theater. He is a DePaul University graduate and has made numerous ESO solo

appearances on the xylophone. He has his own jazz quartet which makes frequent appearances at the Tuxedo Junction Restaurant.

The most famous of Antonin Dvorak's symphonies, No. 9 in e minor, called "From the New World" will recall Dvorak's trip to Iowa in 1893. The Czech composer also visited Chicago, where he was convinced that African/American music gave a unique personality to our music, and he wrote popular spirituals into this work.

A special feature of these symphonies will be "Concert Feedback" with Music Director Robert Hanson after each performance. The November 19 concert begins at 8:00 p.m., and the November 20 performance begins at 3:30 p.m., both at Hemmens Auditorium, Elgin. Pre-concert Chats by Daniel Maki 45 minutes before each concert will be held in the South Lobby. Tickets are \$8-22 and can be purchased at 708/622-0300. Classic Series Sponsor is the City of Elgin, and Prime Sponsor is Elgin Community College.

and incorporates a love for horses and dogs. The beamed, vaulted ceiling of the family room accents the stone floor to ceiling fireplace. Particular seasonal charm stems from the inclusion of two antique sleighs in the family room decor. For relaxation, the indoor pool set amidst a wooded background provides a tranquil respite.

The Norwegian-Scott-Welch heritages of Carolyn and Peter Davis are lovingly intertwined at "Per Skogen", Norwegian for Peter's Woods. This ranch home has been remodeled with care to enhance the original with elegant grace and charm. Antiques from the turn of the century and family keepsakes add to the friendly character of the house.

Ticket price for the Housewalk is \$15 and may be purchased in advance by mail from Gay Remich, 450 Fremont, Woodstock, IL

60098; or on day of the walk at the Medical Center Gift Shop. As per last year, a holiday ornament will be given to each housewalk visitor. A luncheon buffet will be served at the Memorial Medical Center at three seatings: 11:30 am, 12:30 and 1:30 pm. Ticket price for the luncheon is \$8. Advanced reservations are strongly suggested as there is limited seating availability.

Proceeds from the previous housewalks have been channeled into health-care scholarships, equipment and furniture for the mammography department, and assistance in the funding of the newly opened Medical Center.

Additional ticket information is available by calling the Medical Center Gift Shop, (815) 338-2500, extension 5261.

## Capturing Elusive Leisure Time A Holiday Gift From R. K. Tech

With the holidays about to begin, **R. K. Tech** has a gift for its clients: Time to relax.

"Studies show that by the time a successful person gets through working, sleeping, and taking care of life's essentials, there may be 20 hours per week—or less—left over for leisure," says Lisa McCauley, whose firm, **R. K. Tech**, bills itself as Barrington's Most Honored Kitchen Designers. "As much as some of our clients might like to take the lead on their home projects, they just don't have the time. They'd rather paint, read, travel, go to the theatre or the opera."

"We set them free; and, at the same time, we make a few of their dreams come true."

How does Lisa use her twenty hours—or less—of leisure time?

"Twenty hours?" laughs Lisa, "I wish!"

### Entertainment Centers Make Great Christmas Gifts

"We do some of the most sophisticated work anywhere in paneling and library appointments," Lisa explains. Many homes in Barrington have vast odd rooms that would be perfect for libraries, studies, audio or computer centers, home theaters, or other special spaces; but the rooms are often large, with high ceilings, curved walls, and other custom features. Only a creative designer and a custom workshop can do justice to the space." Luckily, Lisa is a dealer with one of the best custom cabinet companies around.

"They are the best in the business," says Lisa. "And the best value in the business," she adds.

"We can create an entertainment center, armoire, or personal office that precisely fits both the room and the person using it. For example, one of our clients is an audiophile who has wired his entire house to sound like a concert hall—speakers in every room, all connected to a central bank of amplifiers. We designed an entertainment center with an invisible system of rollers so that the entire unit glides out to allow easy access to multiple speaker jacks, cords and power supply."

"We do similar design and cabinet work for people who use computers. Matt Foster is a professional architect who joined us this year. Matt comes with a tremendous background in computers and a lot of ideas about how to improve the design of computer-centered offices. Computers are still in the jalopy stage in one sense—you need to get under the hood with some frequency. We design a furniture 'system' to complement the computer system, both as it exists

now and as it is likely to change over time. Access to the system is crucial, and, of course, it has to look fabulous!"

### R. K. Tech: Barrington's Most Honored Kitchen Designers

From her loft above Yvette's Espresso Bar in Barrington Village, Lisa McCauley and her firm, **R. K. Tech**, have roped in some of the Chicago area's plum commissions as architect, designer and kitchen specialist. With B.A.'s in both Design and Architecture, Lisa is uniquely qualified to take on even the most demanding projects.

When the magnificent former Henry Crown estate in Evanston was chosen as the Showcase House during the Silver Anniversary of the Chicago Chapter of the American Society of Interior Design, Lisa was chosen to design and furnish the washed pine cabinets and to help with the redesign of the kitchen space. Her efforts wound up on the cover of *Kitchen and Bath Design News*, and since then it's been one triumph after another.

Late last year, the Sub-Zero Refrigerator Company, maker of sophisticated high-end refrigerators and freezers for the home, solicited entries for its first-ever kitchen design contest. Sub Zero's name has so long been synonymous with fine kitchens that the cream of the design field threw their hats into the ring. Literally hundreds of architects and kitchen designers from around the country submitted their work in hopes of snaring a prize.

When prizes were awarded in March, only a few received honors as Territory Winner; and **R. K. Tech** was among the honored. Lisa grabbed Territory honors with a classical cherry and granite kitchen that now graces a stately home in Oak Brook.

Lisa, whose work has appeared in national publications as well as in some of Chicago's most magnificent homes, cut her teeth as a north shore architect and interior designer, moving her practice to Barrington as her family grew and in hopes of indulging her love of horses—a love that her busy practice has thus far thwarted. "I have managed to get back in the saddle for a few lessons. So far, that's it," Lisa laments.

**R. K. Tech** is located at 220 S. Cook Street in Barrington, one block east of Hough Street (Route 59) and two blocks south of Main Street (Lake Cook Road). Call 381-2742.

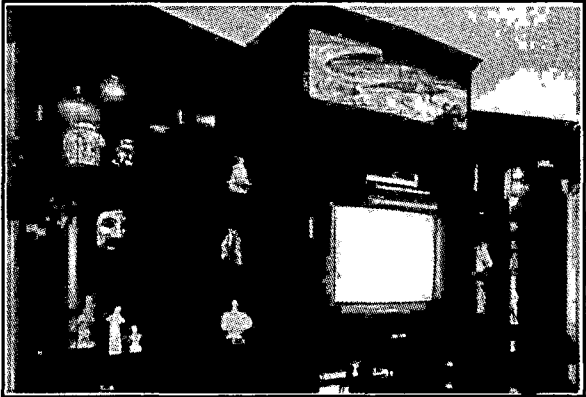

"It's become such an arty neighborhood, I just love it," Lisa says. "I hope people will come and visit us."

### The Swag and Jabot Treatment Is Popular Choice Of Today's Discriminating Buyer

"Willis and I have been designing custom window treatments for over thirty years now, and I can't remember ever recommending the same exact treatment to two different families," says Patti Elias, co-owner of **Draperies & Blinds Etc., Inc.** "We use the same simple formula, regardless of the home's price range, but it always results in a one-of-a-kind selection to satisfy even the most discriminating buyers. Here's how we do it," adds Willis Elias. "First, Patti comes out to your home with a variety of fabric samples, and pictures of the various treatments we offer. Our objective is to determine two things: First, what are you looking for and second, what 'look' best suits your lifestyle."

"The perfect window treatment isn't determined by whether it is the most elegant fabric in the most popular application, but by how well the fabric and treatment complement the furnishings and lifestyle of that particular room," Patti continues. "For instance, the swag and jabot treatment is extremely popular today. So we work to

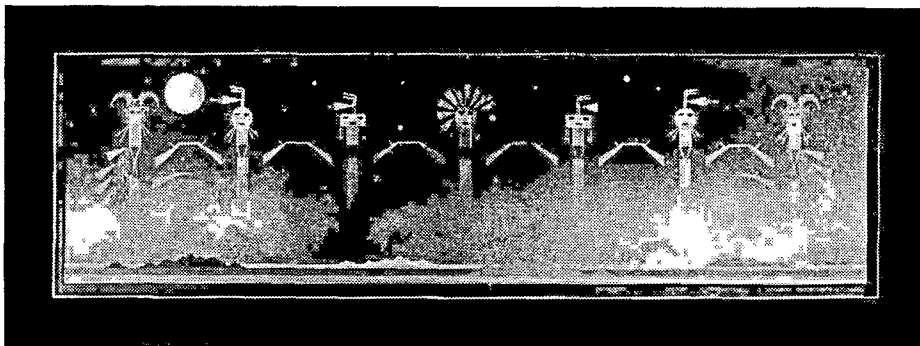

complement the room with an application of that treatment that can range anywhere from a traditional board mount to a grand pole look, to a super contemporary trap-ezoid swag which looks like it's just been thrown over a pole—not as easy as it sounds, but still accomplishes a relaxed, less formal picture."

"We've been sewing our own drapes for over thirty years now," says Willis "but sewing our own drapes isn't what makes them custom drapes. Designing the treatment to complement your unique taste and lifestyle is what makes every single window treatment we do 'customized'."

"I guess that means the only thing that's consistent about our window treatments," Patti laughs, "is that all of the draperies and blinds are quality-made at the best price possible."

If that sound like what you're looking for, give **Draperies & Blinds Etc.** a call today at 708-872-7373. They'd love to come and see you!

### Granular Grandeur

*"Nigh Chant", a 9 1/2" x 35" sand painting by Joe Ben, Jr. Here Yei'iis from the Nightway ceremony rise over the four Sacred Mountains into a night sky filled with clouds of diamond-dust stars.*

Using granular sandstone and other natural pigments, Navajo Indians have created legendary figures in ceremonial scenes for centuries. The most widely known form of Navajo ceremonial art, sand painting, is described by the Navajo as 'iikááh, meaning the "place where the gods come and go." When used for ceremonial purposes, a sand painting serves as a membrane through which good and evil may pass in both directions.

An exhibition and sale of sand paintings by Joe Ben, Jr. is planned for the weekend of November 18th at **Tribal Expressions**, in Arlington Heights. Joe Ben Jr., embellishes traditional sand paintings with the use of exotic materials such as gold, lapis, azurite and diamond dust. With these elements he is able to achieve a brilliance and sparkle that make his work unlike any other. In addition to the enjoyment a viewer may real-

sult, his efforts as an advocate created competition within a highly concentrated group of wheelchair manufacturers. Hotchkiss graduated from Oberlin College with a degree in physics. In 1989, he was named a MacArthur Fellow by the MacArthur Foundation and in 1991, Oberlin College awarded Hotchkiss a Doctor of Science degree. Hotchkiss lives in Oakland, California with his wife, attorney and disability rights advocate Deborah Kaplan, and their 9-year old son, Desmond.

"The Betts Award will change my life," said Hotchkiss, "It will give me time to concentrate on the design problems that my

brothers and sisters around the world are sweating over. Now I can link more of the designers who have pieces of the solution together, so we can share our knowledge. For example, how can I get up a long rutted road or an overgrown trail in a sturdy wheelchair, but still use that chair in an out-house, then get around inside a little hut or whatever construction is home to me? As we, people with disabilities, begin to solve these problems and move into full participation in society worldwide, the catalytic effect on people at all levels is astonishing and transforming."

## Henry B. Betts Award Honors Inventor And Designer; Hotchkiss A Global Pioneer

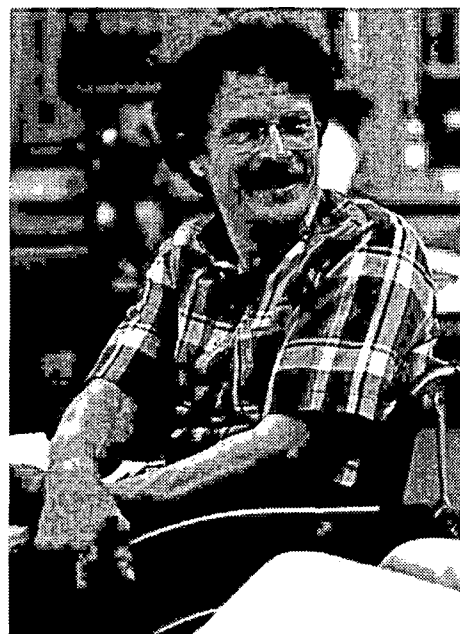

Ralf Hotchkiss, a pioneer in the field of rehabilitation engineering, has won the \$50,000 Henry B. Betts Award for 1994. A national jury of fifteen distinguished leaders in business, government and philanthropy named Hotchkiss as the 1994 Betts Laureate for his visionary invention and design of wheeled mobility devices during the past thirty years. Hotchkiss was also recognized for his humanitarian work in establishing a worldwide network of wheelchair builders in 20 developing countries. He co-founded the Rehabilitation Engineering Program at San Francisco State University and currently serves as Senior Research Scientist and Technical Director of the Wheeled Mobility Center there. The Betts Award is named for Dr. Henry B. Betts, medical director and CEO of the Rehabilitation Institute of Chicago and Magnuson professor and chairman of the department of physical medicine and rehabilitation, Northwestern University School of Medicine.

John D. Kemp, chairman of the 1994 Betts Award jury, announced Hotchkiss as the Betts Laureate, "The jury has chosen a remarkable thinker and doer who exemplifies the kind of dedication that inspired Dr. Betts' life work. Ralf Hotchkiss generates creativity and accomplishment in a global arena in an age of cynicism. The jury salutes his worldwide activity and points out that his impact is felt everywhere, in rich and poor countries, on the lives of millions of users of wheel chairs and other mobility devices."

Hotchkiss' interest in the design of wheeled mobility devices developed in the late 1950's. To date he has invented eight mobility devices for people with physical disabilities. Instead of securing a patent on his inventions, Hotchkiss chooses to leave the designs in the public domain so people with disabilities can have access to necessary equipment at affordable prices. Hotchkiss is an expert witness and continues to provide testimony for congressional hearings on product safety, disability rights and adaptive device design priorities.

### More Than a Decade of Global Ingenuity

The combination of disability rights advocacy and technical knowledge formed the

**Ralf Hotchkiss**

catalyst for Hotchkiss' international program. In years following his original wheelchair workshop in Nicaragua in 1980, Hotchkiss traveled to 20 countries. He spearheaded an international network to provide wheelchair riders and builders with the technical skills and training needed to support mobility and independence among the poorest of the poor. During his travels to countries with all types of terrain, Hotchkiss discovered that most wheelchair designs did not meet the needs of the people who depended on them. In response, Hotchkiss researched and wrote *Independence Through Mobility* a manual for the design and manufacture of state-of-the-art lightweight wheelchairs.

Hotchkiss became interested in mobility devices early in life, and a motorcycle injury during college years became the prime motivation for his subsequent work. Living with T-2 paraplegia as a result of the injury, Hotchkiss found himself "chopping up" the wheelchair given to him and redesigning it for use in "pre-ADA" buildings, doorways, transportation, and public restrooms. Hotchkiss went on to have a marked effect on the wheelchair industry, working to raise awareness of deficiencies in the current wheelchair designs. As a re-

## Family Owned For Over 45 Years

Are you interested in having a home that is beautiful as well as comfortable with all of the finishing touches your lifestyle demands? If so, you must visit **Interiors by Bruce**.

As you walk through the doors you will feel right at home in their new design showroom. You will be greeted by one of their friendly, professional interior designers. They will listen to your wants and needs and assist you in those important buying decisions.

**Interiors by Bruce** offers a complete in-home design service. With the first hand knowledge they command, they can put together an environment that reflects your personal tastes. There is something for everyone. They offer furniture from the finest manufacturers, a broad selection of fabrics, wallpaper and carpeting, as well as important details such as custom silk floral arrangements.

Although they're somewhat new to this area, they're certainly not newcomers to the home furnishing and design industry. Previously located in Park Ridge for 38 years, they have established an excellent reputation. No job is too big or too small. They can start at ground level by working from your blueprints and designing the entire home, or work with your existing pieces and coordinate a new look.

Like most people, I have always assumed that if you're working with an interior designer, you would expect to pay premium prices for goods and services. Not so at **Interiors by Bruce**. Instead, they represent quality goods at substantial savings. Furthermore, they offer their clients the luxury of assistance from knowledgeable designers, not just salespeople.

Also, **Interiors by Bruce** is the only store I know of in the Chicagoland area that operates their own drapery workroom. Reupholstering and refinishing shops are on the premises. They employ their own installers and delivery men who have the expertise to insure quality and care in the finished product without hidden delivery or set-up charges. What this means to you is saving money by eliminating the middleman or subcontractor, which inflates the price. This gives them the winning combination and a competitive edge. Being a service-oriented team of professionals, they can assure all their clients complete satisfaction—their personal guarantee.

## Esthetic Composite Bonding

by Drs. Harvey Wolf and F. Jafri  
DentalWorks of Barrington

Dentistry is undergoing tremendous changes in its services. After 25 years of fluoridation and preventative home care, many young people have few or no cavities and little need of the traditional silver filling.

However, most people—young, middle-aged and older—can benefit from the new era of Esthetic Adhesive Dentistry in which a wide variety of vastly improved tooth-colored materials and newly developed resin adhesives can provide wonderful, natural looking teeth.

Broken front teeth appear with increasing frequency in the sports-oriented young population. Misshapen, discolored and poorly positioned teeth are often seen at any age. All these may be treated beautifully with the newly introduced tooth-colored restorative systems. Often these restorations bond so magnificently that the tooth structure itself will fracture under laboratory testing before adhesive bond failure occurs.

Porcelain laminates are tooth covers that bond to the front teeth to create a beautiful smile for men and women. The teeth are strengthened as well as reshaped into a vibrant, white and healthy appearance.

Tooth-colored fillings are used with adhesive bonding to actually increase the strength of the decayed or broken tooth. In the past only a crown could do that, but with the new technology, less drilling and more bonding provides durability and a natural appearance.

Dentistry is proud of the enhanced quality services it offers people. And people

love looking the best they can look.

Dr. Wolf received his doctor of Dental Surgery degree from the University of Illinois and his Masters in Public Health from the University of Michigan. With over 25 years experience in family dentistry, Dr. Wolf's practice involves general, cosmetic and implant dentistry. His experience, education and commitment to the total health and well being of his patients, has earned Dr. Wolf a reputation as one of the area's leading providers of quality dental care—and beautiful smiles.

Dr. Jafri extended her dentistry education with extensive training in implantology at the Midwest Implant Institute, UNDNJ, Brookdale Hospital in Brooklyn, the Misch Implant Institute, and the Georgia Medical College. Dr. Jafri is at the forefront of modern implant technology, and is licensed to provide conscious sedation. She is committed to achieving the maximum comfort, appearance, and dental health for each of her patients.

## Barrington Lyric Mixes Caviar And Paranoia

To find out what Elizabeth, daughter of Peter the Great, had to do to "jump start" opera in Russia, be sure to attend the Barrington Chapter of Lyric Opera's November program, *Caviar and Paranoia*, at a lovely Barrington Hills residence beginning at 1:00 p.m. on Friday, November 11. Following the program, a dessert buffet will be presented by Raynette Seger and Linda Ruder, Barrington Hills. Members only. Very limited reservations. \$5.00 per person. Please phone Raynette Seger (708) 381-1589.

Opera in Russia got off to a slow start, mostly because music in Russia got off to a slow start. Ordinary Russians had been singing folk songs for hundreds of years, but nobody had bothered to record them. Peter the Great, who had begun his reign in the late 17th century, didn't care much for opera, which was just getting started. Peter's daughter, Elizabeth, liked opera enough to have a theatre built, but she had a hard time convincing the nobles to attend performances.

Barrington Lyric members Anne Gross, Inverness; Carol Stephens, Hoffman Estates; Pat and Jim Steed, Schaumburg; and Greg Vogel, Elgin, will fill you in on Elizabeth's method to attract an audience for the opera performances, the history of Russian opera and how it is intertwined

**Barrington Lyric members performing in the November program, *Caviar and Paranoia*, Anne Gross, Inverness; and Jim Steed, Schaumburg. Anne is Librarian for the chapter, and Jim is Second Vice-President in charge of programs.**

with the history of Russia itself and the Russian psyche. The program will include musical selections and humorous anecdotes about Russian music and its composers.

Inquiries on the Barrington Chapter of Lyric Opera of Chicago, its programs and downtown privileges, please phone Lynne Grimshaw at (708) 381-5273.

## Christmas—And All Through The House

Isn't that an enticing thought! Just imagine your home at Christmas with every room all dressed up for the holiday season. The wonderful aroma of fresh fir boughs fill the air from fresh wreaths, swags, and centerpieces. If you want to learn more about creating artistic decor for your home for the holidays, plan on attending the next meeting of the Garden Club of Inverness. On Thursday, November 17, at 9:30 a.m. at North Park Field House in Inverness, members and guests will welcome James Peabody, a professional floral designer for 40 years, who owns his own floral business in Geneva, Illinois. We will learn how to have Christmas Present—and all through the house. This designer is also very knowledgeable about Williamsburg arrangements and using fruits and vegetables in designs. Come and pick up some new ideas on holiday decorating, or learn how to enhance some of your existing decorations with a

fresh new look. Guests and prospective members are always welcome to attend.

It is never too late to join the Garden Club of Inverness. You can be a member of the largest volunteer organization of its kind in the world. You can learn more about the environment and what you can do in your own home to improve the quality of life for everyone. You can also be a part of an organization that offers activities for involvement, including flower arranging, horticulture, and preservation of natural resources. The Garden Club of Inverness is a member of the Garden Clubs of Illinois, Inc., and as such, we support an organization that annually awards 40 scholarships of \$4,000 each to students in related horticulture fields.

## Associates To View Sculpture Of John Henry

The "Barrington Community Associates of the Art Institute of Chicago (the "Associates") will join other Community Associates groups in a bus trip planned to the Art Institute of Chicago on Thursday, November 17, 1994. "Evolution in Scale; the Sculpture of John Henry" is the topic. "John Henry is one of the most provocative sculptors working today" said Philip Yenawine, former Director of Education for the Museum of Modern Art in New York. Much about John Henry looms larger than life, and the myth about him as a steel-driving man is evident in his monumental sculptures spilling like gigantic pick-up sticks across the urban American landscape. Outstanding examples of his work can be seen here in Illinois at Governors State University in South Park Forest, Illinois, and the rotunda of the State of Illinois Center in downtown Chicago, Illinois.

Yenawine went on to say that, "Henry's attenuated sculptures exhibit a graphic intensity - a kind of drawing in space with steel and aluminum. Henry's great, open, calligraphic structures often make reference to the muscular brushwork of the Abstract Expressionist Franz Kline, an artist Henry

was most drawn to as a student." Henry's works are in steel, aluminum, and coral stone quarried in the Florida Keys. He has recently completed major commissions in Korea, and is currently working on two major commissions in Florida. His physical vitality and strength, his enormous energy and involvement have been an inspiration to a younger generation of American artists. You won't want to miss this opportunity to see the myth in person.

The bus will leave the Langford Park parking lot, Lions Dr. in Barrington at 9:15 a.m. and will depart from Chicago at 2:30 p.m. This program is open to members only. For more information or to make reservations, please contact Jeanne Bolger (708) 397-1895.

Membership in the Barrington Community Associates of the Art Institute of Chicago is open to men and women in the Northwest Chicago area. The annual dues are \$50.00 which includes a family membership to the Art Institute of Chicago. For more information, please contact either Mary Lou Iverson at (708) 359-0941, or Norma Carey at (708) 381-2041.

## Antiques In Home Decor

"Using Antiques in Home Decorations" is the program presented by Betsy Ward at the Monday, Nov. 21, 1994 meeting of The Green Thumbs Garden Club of Barrington. The meeting will be held at the Barrington

Library Meeting Room at 12:30 pm. Ms. Ward will address us on the joy and careful use of our aging possessions, adding herbs and flowers for fragrance. New members are always welcome.

fisherman of all ages. The Spring Fishing Classic, held at Bangs Lake, kicked off an entire year of angling services to be provided by NISRA.

One of the most challenging tasks that the NISRA staff are undertaking is the construction of wheelchair accessible fishing piers within the Association's service districts. The first accessible fishing area is planned for Bangs Lake at the Wauconda Park District's Cook Memorial Park. The Park District has enthusiastically welcomed NISRA's plans and has pledged future dollars towards the pier's construction. Future sites tentative include Crystal Lake, McCullom Lake, Fox River, and local public fishing ponds.

NISRA has received the support of the Midwest Outdoors Cable TV fishing show, who will be producing a video on the project to be used to promote needed future support of local businesses, corporations, and service clubs. A pontoon boat has already been contributed for the use of disabled fishermen.

Sponsorships are now needed to complete this unique pier and the continuation

of services to disabled fisherman. Volunteers are also needed for future events. For more information, call NISRA Executive Director Brian Shahinian at 815-459-0737.

A special thanks to the following businesses and service clubs who have contributed to the First Annual Spring Fishing Classic and the project. Additional thanks goes out to the Boy Scouts Troop #164 and the many local anglers volunteering their time on the lake.

## The Alexanders Of Barrington Celebrate Thanksgiving In Their New Wood-Mode Kitchen

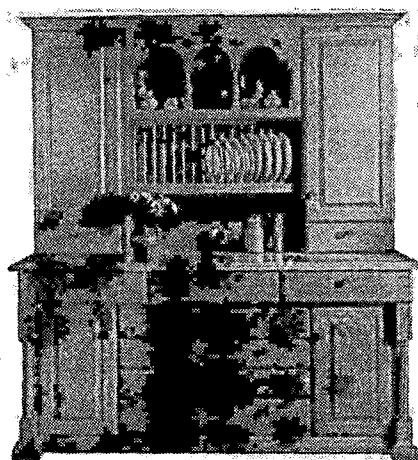

by Jennifer Ptaszek

This Thanksgiving Doug and Donna Alexander of Barrington are giving thanks for the expertise and high-quality service and products that they received working with **Distinctive Kitchen Designs**.

When Mrs. Alexander, a school teacher in Barrington, decided to remodel her kitchen, she had a lot of homework to do. After researching the service available through home centers and other kitchen dealers, she was unable to find design consultants who took the time to discuss her needs and requirements, and coordinate style with the furnishings in adjacent rooms.

Fortunately, her search for such professional services ended at **Distinctive Kitchen Designs** in Wauconda. The quality craftsmanship of Wood-Mode cabinetry and the professional design services that she found at **Distinctive Kitchen Designs** fulfilled all of Mrs. Alexander's remodeling and design requirements. She was delighted to find that Susan Ruškan, a design consultant at **Distinctive Kitchen Designs**, had a degree in Interior Design as well as several years of experience and additional training in kitchen design.

After a free consultation with the Alexanders, during which their needs and requirements were determined, Susan suggested using Wood-Mode cabinetry with a natural finish on cherry wood to coordinate with the living and dining room furniture. Utilizing extra space in an adjacent bedroom, Susan designed a full-working kitchen, complete with an island and a sepa-

rate breakfast area with a built-in hutch. Susan additionally included several English country accents such as a plate rack, a wood hood cover and mullion glass doors to complement the decor.

"My new kitchen is not only very functional, but a very pleasant room," says Mrs. Alexander, "I'm actually looking forward to preparing meals for the upcoming holidays!"

**Distinctive Kitchen Designs** is conveniently located in Wauconda at 203 South Main Street. Professional design consultants are waiting to make your holiday dreams come true, with a custom-designed kitchen featuring high-quality cabinetry and excellent design services.

## Add Safety And Save Energy

Safety, security, convenience and energy savings are four reasons why electronic timers are increasingly popular in American homes.

The timers automatically turn lights on

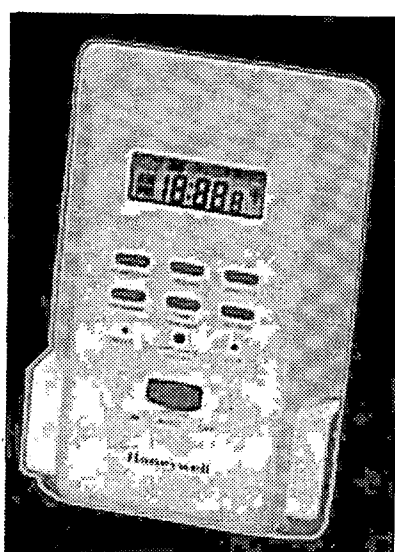

and off at pre-programmed times. It's an efficient way to give your home that "lived in" look when you're at work or on vacation, and it's reassuring for children or adults who don't want to come home to a dark house.

The latest versions of electronic timers are inexpensive and simple to use. Table-top models, and those that plug into wall outlets, need no installation. A third kind easily replaces an ordinary light switch indoors or outside.

While some timers simply turn a light on or off at the same time every day, the most flexible ones have up to four separate on/off cycles with user-friendly pushbutton programming. They'll also have a built-in backup battery so you don't have to reprogram the timer after a power outage.

For the ultimate in realism and energy savings, look for one like Honeywell's TimeTracker. It automatically adjusts to seasonal changes in the length of the day. That way, with no reprogramming necessary on your part, the light you set to turn on at 6 p.m. in December will "know" in June that it's still light outside - and won't turn on until it starts to get dark.

For free information on electronic timers, write to: Honeywell Inquiries Dept., MN12-4164, Honeywell Plaza.

*This electronic timer, Honeywell's TimeTracker, not only adds safety by turning lights on and off up to four times a day, it also saves energy by automatically adjusting to changing sunset times.*

Each Thanksgiving, as we sit around our abundant tables, many of us reflect upon all we have to be thankful for, just as our forefathers did at that very first Thanksgiving. After overcoming very difficult challenges, they celebrated the joys of their bounty that came through hard, laborious work from the land that they tilled. They had a dream.

Each Fall season, I am reminded of the American Dream. The dream of owning a piece of this indestructible land and of the many Americans who have become wealthy by its acquisition. They had vision.

### Your Tomorrows Are Being Shaped Today.

My inquisitive friend Napoleon called recently to ask if the Fall or Winter was a good time to put a home on the market to sell. His friend had just retired and wanted to be relocated to Arizona by Spring. I told Napoleon that November and December could be dynamic months, as the market was still active. In fact, in 1993, November and December were more active than the first two months of 1994. Many homesellers erroneously jump to the conclusion that there aren't any buyers out at this time of year. Wrong!! If you ask when they bought their homes, many would say, "Well, at the end of the year."

Your home can look its best during the holidays. Most homes do...we dress them up. Inviting holiday touches create an atmosphere that shows your home as being a delightful place to live—not only for you, but for a prospective buyer.

We usually have the highest percentage of listings sold, to listings taken, during this time. It's the numbers game. You may even receive more money for your home now because you have less competition from other homes coming on the market at year-end. Don't be afraid to set your timing ahead of the crowd.

Buyers do take time to look at homes during the holidays, especially during their holiday vacations. Help in the presentation of your house by staging it properly with warmth and merriment, as a place where real people enjoy living. Some tips are:

If your family is gone during the day, turn on soft lighting throughout your home so that prospective buyers will receive an immediate impression of warmth and comfort when they open the front door.

Use seasonal decorations which add color and charm, and which demonstrate that you give careful attention to your home. A well-decorated home can take your breath away.

Appeal to prospective buyers' other senses. Baking smells especially conjure up visions of friendly family gatherings in happy surroundings. To give your home a delightful scent, place spice cake spices such as cinnamon and nutmeg in a pan of water and boil for a few minutes. This simple procedure will fill your home with a welcoming aroma and winter warmth.

Perhaps no sound better communicates the joys of home and hearth than a crackling fire in the fireplace. Whenever possible, highlight this amenity of your home.

Exterior maintenance remains important even in winter. Be sure leaves are raked, roses are covered, wind-blown litter is removed and the grounds give evidence of your tender loving care.

Napoleon had the right answer for his retired friend. By selling now, you can have a closing after the first of the year and be on your way to Arizona by Spring. That's a goal set and reached.

I hope this analysis sparks the "right now" decision for you to call one of our Realtors at **The Prudential Preferred Properties** today to get in on this dynamic market time. Just don't sit and think about it...make things happen. Call one of our **Prudential Realtors** today.

By the way, the **Prudential Preferred Properties** is on the move. Yes, we are moving our Dream House Headquarters to 300 E. Main Street (the fashionable new building on Main Street and North Avenue.) We look forward to having you stop by for coffee with us. As any new homeowner, we'd like to show our own new home to you.

And a Happy Thanksgiving from our families to yours.

have the time to shop in advance of the crowd. "Hold that for me!" "Better grab it, if Deanie sees it, it'll be gone!" "These are wonderful!"

A quick cup of coffee and it has all fallen magically into place. Early arrivals now return from their motels in fresh clothing. "Regulars" have slipped into the locker room for a quick shower. The musicians take their places, and the methodic click of

Keith Hoskins' loom begins. It is 3 pm.

All of this; just for your enjoyment at **Country Collections' Show and Sale**: November 11, 12, 13, Harper College, Algonquin and Roselle Roads, Palatine, IL. Times: Friday 3-9, Saturday 10-5, Sunday 11-4. Admission: \$4.00 Adults, Children Under 12 Free. For more information call 708-268-8067.

## How Good Is Your Kitchen?

In today's kitchen, well-made cabinetry is important, but careful attention to design and equipment is essential. How is work flow, traffic patterns and accessibility to other parts of the home and how does it fit your lifestyle?

James R. Walker, certified kitchen designer at **Barrington Homeworks** suggests you take an interesting test and rate your kitchen. Mark a number down on a sheet of paper indicating your degree of satisfaction regarding various elements of your kitchen. No. 1 is very poor to No. 6 very good or any degree in between. Then, we'll total (A) Storage Space: Enough? Is it accessible? Are you using corners? (B) Work Space: Enough counterspace? Is it near the refrigerator and sink and is there safety area near the stove? (C) Lighting: Is it adequate? Your chores are less tiresome with good task lighting and good lighting is also cheerful! (D) Up to Date Appliances: Saves time, energy and eliminates many unpleasant chores. Microwaves, self-cleaning ovens, conduction cook tops, energy efficient refrigerators, compactors, waste disposers and dishwashers, (E) Ventilation: Keep your

kitchen crisp and fresh by preventing grease deposits on cabinets, walls and windows, while removing odor, heat and moisture.

If your total is (4-10) you are working under a severe handicap, (11-15) many serious shortcomings, (16-20) not serious, but you'd benefit greatly by improved design and equipment, (21-25) you have specific problems, (26-30) you have sound design. Consult **Barrington Homeworks**, the kitchen specialists. The solution may be less difficult than you think. If it does not fit your family's lifestyle, **Barrington Homeworks** can suggest design revisions or adaptations.

Unless your kitchen scores 26 or higher you are missing advantages. You may be working under conditions that require tireless bending and reaching, miles of needless walking and an unnecessary waste of your time.

Why put up with an inadequate kitchen any longer? Let the specialists at **Barrington Homeworks** show you how you can have a beautiful, functional, affordable new kitchen, designed to fit your lifestyle.

## Granular Grandeur

(Continued from page 35)

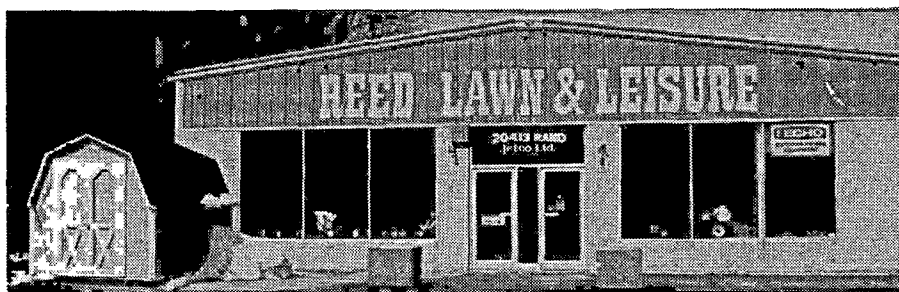

ize from the examination of Joe's sand paintings, there is a constant element of surprise found in the meanings of these conceptual expressions.

During the three day exhibition, Joe Ben will interpret and describe the significance and meaning of his work. Joe's paintings draw upon his Navajo upbringing, yet are steeped with influences of the European masters. All paintings for the Arlington Heights exhibition have been completed since Joe's return from the School of Fine Arts in Paris. Joe spent the summer in France, where he taught the art of sand

painting.

The general public is invited to meet Joe Ben, Jr. and to attend the exhibition and sale at **Tribal Expressions**. The sophistication and thoughtfulness displayed in Joe's work unites the artistic elements of balance, symmetry, and contrast, with the abstract idea of Navajo culture. His innovations have already altered the course of Navajo Sand Painting, and they are sure to inspire viewers with the grandeur of the art. ### Free Tips for Adventurers

Just published: a very useful free book-

let from Overseas Adventure Travel, specialists in exotic trips to far-off places. Among the suggestions:

Bring along small toys to help break the ice with local kids and adults. Finger puppets and those small wind-up toys are especially popular. Don't hand out money or trinkets, however, as this encourages a "begging mentality" among children.

Think carefully before buying antiques. Counterfeits are common and hard for the average buyer to spot. Even with a genuine article, think about whether it's right removing a piece of the country's cultural heritage.

On long flights, walk up and down the aisles. Jumbo jets are ideal for this purpose. Strolling the twin aisles of a Boeing 747, tip to tail 13 times, is equivalent to walking a mile.

For your free copy of "101 Tips for Adventure Travelers", call 1-800-TREK-OAT.

### Baby, You Can Drive My Car

Hard to find your way around a strange city? You could hire a limo, but here's a cheaper solution. For \$18.50 an hour, Private Chauffeurs International will loan you a driver to pilot your rental car through unfamiliar territory while you sit back and work or relax. On the way, your escort will tell you about local hot spots. The service is available in New York, Los Angeles, San Francisco, and Australia. ### Delta Bans Smoking

Delta Airlines has banned smoking on all its transatlantic, intra-Europe, and New York-Mexico flights, effective January 1, 1995. With the change, only its Asian and trans-Pacific flights will accommodate smokers.

*Circa 1900 - Terry cloth towel.* Drying became a softer experience with America's first terry cloth towels by Cannon.

*Circa 1911 - Legless bathtub.* The claw-foot bathtub was replaced by the popular legless bathtub, which was installed flat on the floor.

*Circa 1920 - Blowdryer.* An offspring of the vacuum and blender, the blowdryer was first introduced under the names of "Race" and "Cyclone."

*Circa 1938 - Toothbrush.* Spawned by DuPont chemists' discovery of nylon in 1930, the company marketed the first nylon-bristle toothbrush in 1938.

*Circa 1968 - Whirlpool bath.* Jacuzzi Whirlpool Bath brought bubbles to the bathroom with the introduction of the first hydrotherapeutic whirlpool bath.

*Circa 1970 - Beauty products.* Beauty products for the bath rose in popularity with items such as soap-on-a-rope and Estée Lauder's milk bath.

*Circa 1988 - Waterproof radio and phone.* Pleasure and convenience in the bathroom emerged with Sony's waterproof shower radio and cordless phone.

*Circa 1991 - Whirlpool shower.* The legendary marriage of whirlpool bathing and showering was made with Jacuzzi's J-Dream™ whirlpool shower.

With personal schedules as busy as they are today, Jacuzzi knows maintaining that healthy lifestyle cannot steal too much time.

Consumers have always turned to the bath to unwind from a hectic day. But when time is of the essence, Jacuzzi has developed the alternative to a good soak...the J-Dream whirlpool shower. Offering the practicality of showering, the J-Dream includes luxury features to make the most out of Americans' wake-up call.

The J-Dream features 16 vertical hydrotherapy jets, three adjustable shower heads, cascading waterfall and steam bath with integral seat. Each function is easily programmed with the electronic control panel located within the unit.

- Sixteen vertical hydrotherapy jets provide all the benefits of hydromassage. The jets can be programmed from vigorous to gentle.
- Steam bath provides therapy for relaxation and rejuvenation as steam fills the unit from beneath the integral seat.
- Three adjustable shower heads surround the bather. The center nozzle can be adjusted to any height or hand-held and features three power levels.
- Cascading waterfall creates a pleasant, natural sensation as water runs over the neck and shoulders while the user relaxes on the integral seat with backrest. Measuring 60" long by 36" wide by 84" high, the J-Dream can easily be installed in place of a traditional five-foot bathtub, making it an ideal replacement unit in remodeling projects.

## From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

As I've told you in previous articles, my husband Tim is an avid advocate of recycling and protecting the environment. Over the last few months we have finished the final phase of our project to eliminate almost all hazardous waste from our dealership.

We have installed another waste incinerator that will heat our entire shop area and create hot water in our clean-up area. We have also installed a parts cleaner that is similar to a fancy dishwasher that does the job with hot soapy water instead of environmental unfriendly solvents. It is also a benefit to the service technicians in wear and tear to their hands.

We also purchased an antifreeze recycler which considerably saves in hazardous waste.

We would also like to invite any do-it-yourself oil changers to bring in your used

motor oil and we will recycle it here.

## Maintain The Ascetics Of Your Home And Neighborhood

Expanding garages may be a distraction from an elegant home. Also, if a collection of cars in your driveway takes on the look of a car dealership, it is time to look for an alternative method.

Circle Affiliated Systems Inc., an agency for major machine tool builders supplying systems to the U.S. automotive industry, has expanded its market to meet

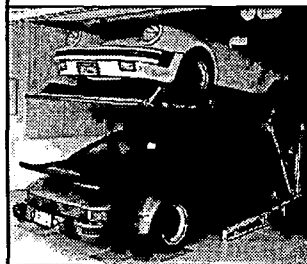

the needs of car collectors in parking or storing cars. The Car-Lift design is a high quality product and is very popular in Europe due to its extreme flexibility in utilizing limited spaces. This design is also used in commercial parking applications. CAS Inc. has installed a large number of Car-Lift's for car collectors. The units are now built in Spring Grove, Illinois.
