## Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair **permanently**, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

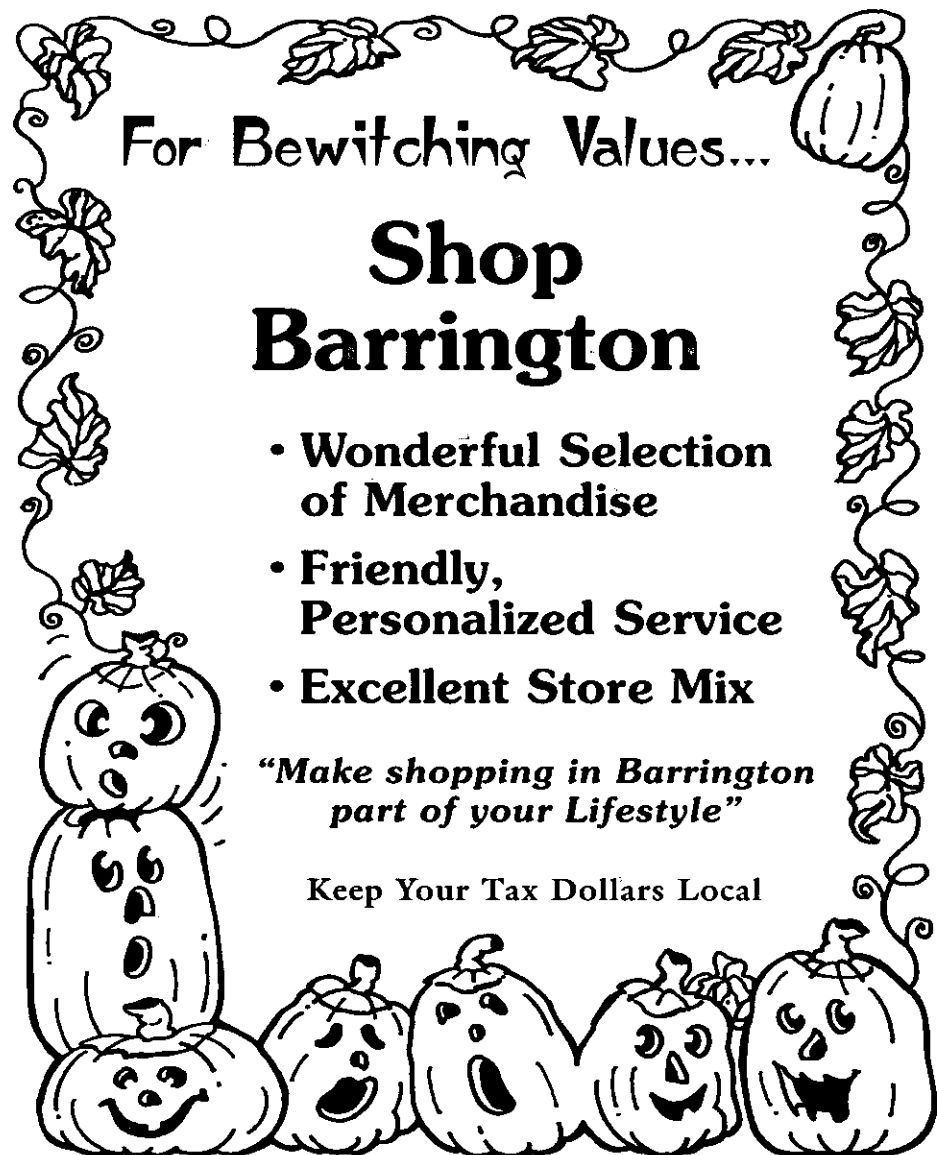

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 24 years of service at the same location.

## Editor's Ink

October, 2000

Dear Reader,

The fall social season is in full swing, as you'll soon discover turning the pages of *Lifestyles*.

October 20 and 21, St. Anne's Women's Club will be presenting Sugar Plum Fair, their annual Arts and Crafts Show. A wide variety of gift and holiday items created by juried crafters and artisans as well as a bake sale will be offered. Proceeds go to nonprofit organizations.

The 18th Annual Barrington Area Crop Walk is slated for Sunday, October 22. Walkers may choose walking 10 kilometers or the "Golden Mile—A Walk For All Ages." Afterward, refreshments and a chili supper await them. What a wonderful community project, helping fight hunger and making new friends in the process. Call your church representative for details.

Mark your calendar for November 16 or 17 for Catholic Charities' "Holiday Housewalk at Wynstone." Four lovely homes will be featured, decorated for the holidays by different florists. After the daytime tours, enjoy High Tea at the Wynstone Golf Club. If the evening tour is your preference, then dinner follows at Wynstone. Proceeds support the work of Catholic Charities of Lake County.

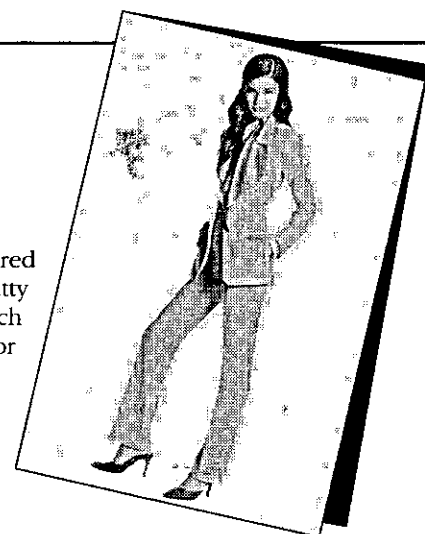

Until next time, may all your thoughts be sunny.

With warm regards,  
Glenn McMonigal  
Editor, *Lifestyles Magazines*

## The 18th Annual Barrington Area Crop Walk to Help Fight Hunger

**Jerry Piper of Barrington Methodist Church and Chris Robinson, this year's coordinator from St. Michael's Episcopal Church, invite the community to "walk with the world" as they participate in the 18th Annual Barrington Area Crop Walk.**

The Barrington Area will celebrate its 18th Annual Crop Walk on Sunday, October 22, 2000. Chris Robinson of St. Michael's Episcopal Church is the Barrington coordinator of the walk this year. Registration will be at St. Michael's, 647 S. Dundee Avenue (corner of Hillside and Dundee) at 12:30 PM; the walk will step-off at 1:00 PM. Walkers can take the choice of walking the 10 kilometer or the "Golden Mile—a Walk for all Ages" and return for refreshments and a chili supper. Music will be provided by the Legumes.

Our Grand Marshal will be "Neighbor" who comes as a clown to remind us all to love our neighbors. "Neighbor" is being honored for her outstanding service to all the Crop Walks and her too-many-to-mention community service projects that she leads as she devotes much of her life to helping others. Dressed in other clothes, one finds her taking care of the food pantry, in charge of Giving Day, as one of the directors of PIN, and, among other things, a leader of the PADS program. Some call her Mary Anderson of Lutheran Church of the Atonement. But to Crop Walkers, she is "Neighbor", filled with smiles as she expresses the joy she finds in helping not only in Barrington but tutoring in Chicago and refurbishing Cabrini Green apartments. Come and enjoy walking with this remarkable "Neighbor."

Proceeds of the Crop Walk are used to fight hunger and aid in disaster relief around the world and across our country with 25% of the proceeds being returned to the Barrington area to help fund our local agencies. Meals with Wheels that provided 6,040 meals last year; the CWU Barrington Food Pantry where more than 304 individuals were served and \$4,550 in food vouchers were distributed; the Fish Carpentersville Food Pantry serving approximately 300 families a month; the Salvation Army that helps when no one else can; and the Northern Illinois Food

Bank that sends out up to one million pounds of food a month to 220 food pantries across 14 counties in Northern Illinois—all receive funds from our Crop Walk. This year, PIN (People In Need), that issues vouchers to people who come to churches for help, will be added to the list of local organizations benefiting from Crop Walk funds. Approximately \$2,000 was distributed by PIN last year.

The 1999 Barrington walk raised \$50,755 to restore hope and provide a helping hand in disasters. Funds also educate people on better farming techniques, provide pumps for fresh water, call for the riddance of landmines, lobby for the forgiveness of third world debts and generally work to raise the living standards of impoverished people. We are called to help children, provide food and help the poor many times and in many ways. But this ecumenical event calls people of all denominations, people who care about our earth and the distribution of abundance, to walk together to bring awareness to the world that death due to starvation and malnutrition is still commonplace in many parts of the world. The inspiration to walk is the knowledge that starvation is preventable. Margaret Mead once said, "Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has." We're trying to reduce the number of children who go to bed hungry, maybe eradicate it all together, trying to educate people out of poverty, and lend a helping hand when disaster strikes. We Barringtonians can show the world we care by joining the Crop Walk.

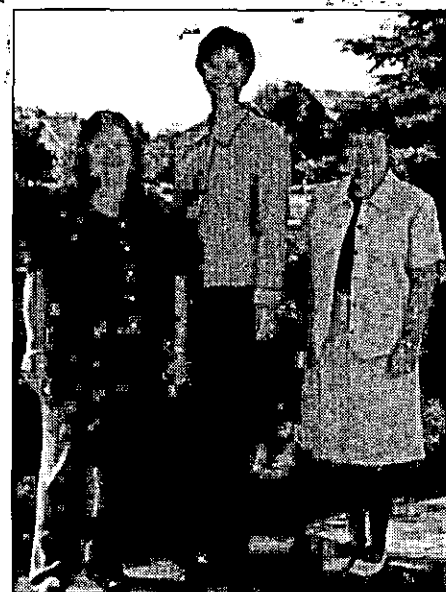

Come and be part of the fun. Walk, but if you can't walk, sponsor a walker. There will be walking, face-painting, rest stops on the way and the Sanfilippo calliope will once again be heard throughout the Village. For additional information, call your church representative or contact Chris Robinson at 381-2527.

## Catholic Charities' "Holiday Housewalk at Wynstone"

The Women's Board of Catholic Charities of Lake County-West will be presenting the 5th annual "Holiday Housewalk at Wynstone" on Thursday, November 16, and Friday, November 17. There will be two tours daily. The first from 9:00 to 11:30 AM and the second from 1:30 to 4:00 PM. Featured will be four homes decorated for the holidays by different florists. Following each tour you are invited to High Tea at the Wynstone Golf Club and to browse the boutiques presented by the featured florists. The cost of the tour, including High Tea, is \$55, payable to Catholic Charities of Lake County. Friday evening, the homes will be open for viewing beginning at 6:00 PM, followed by dinner at the Clubhouse at 8:00 PM. The price for the evening event is \$200 per couple.

For an invitation or to purchase tickets, please contact Mary Huggins at 847-610-1095. Since reservations are limited, please respond early for the tour of your choice.

## Every Weave Tells a Story

We live in a world of first impressions. Right or wrong, people frequently sum us up in a glance. And that's more than enough time when you're wearing Austin Reed Modern British.

Indeed, from the very beginning, we've believed that memorable first impressions start with extraordinary fabrics. Weaves of elegance. Restrained bravura. Cutting-edge comfort. Fabrics that say all the right things. Instantly.

When it comes to our sportcoats, the power of self expression is clearly in evidence. A survey of Fall 2000 reveals a worldly array of fabrics with unique textural interest. Woven interpretations of the season, you might say. And so, you'll find windowpane tattersalls on basketweaves. Heartier herringbones. Innovative weaves that drape with the ease of knits. They make fall especially pleasant to warm up to with their luxurious range of fibers: the softest lambswool, wool and alpaca, worsted and silk and camelhair and 100% cashmere.

Austin Reed Modern British is available at **Chuck Hines** on Main Street in downtown Barrington.

## Go for the Gold with Barrington Junior Women's Club

The 2000-2001 Membership Committee members are (from left): Terri Votaneck, Chairperson; Sally Douglas; Jeanne Michaels; and Jenny Dalzell.

Get to know the women of BJWC on Tuesday, October 3, 7 PM, at the Barrington Park District. Founded in 1936, BJWC offers women a chance to become involved in the community through service and philanthropic endeavors. Through three major fundraisers last year, the group's efforts provided over \$52,000 to local senior and community services, educational scholarships and charitable organizations. Meeting new friends and

having a great time is also on the agenda for this group. Last year, members enjoyed Oktoberfest at Fritzl's, a Holiday party, cooking classes and a progressive dinner. BJWC offers many social and personal growth opportunities in addition to services. Don't miss out on all of the fun. Everyone is welcome, so bring a friend. If you can't make the meeting but are still interested or if you have any questions, contact Terri Votaneck at 842-9235.

## Art Warms the Heart and Home

Views of cozy cottages. Moments shared by mother and daughter...

It's art of scenes like these that add a special warmth to a favorite room and always to the heart. It's the kind of art that has made **Woodland Art Gallery** the area's most respected resource for collectible works by today's most collectible artists.

A tour through the gallery this month reveals the latest release by Pino, the artist whose name has become synonymous with the giclée process of art created with tiny sprayed color droplets, producing a soft yet subtly complex feeling of warmth and harmony. Pino's new work, *Sharing Moments*, celebrates the special relationship between mother and daughter. The limited edition giclée is available museum mounted, custom matted and framed.

Artist Marilyn Simandle is also in the spotlight this month at the gallery with *Como Cottage*, a limited edition, signed and numbered giclée that explores the complex interplay of light and its effects. It's a very comforting addition to any room.

**Woodland Art Gallery** is also the area's exclusive source for quality repligraphs on canvas of works by Claude

*Como Cottage* by Marilyn Simandle, 25" x 33".

Monet, Vincent Van Gogh, Paul Cezanne, Leonardo DaVinci, Frederick Remington and others. Meticulously reproduced images, hand-finished to create the texture of the original brush strokes, make these repligraphs almost indistinguishable from the originals yet highly affordable.

## "Public Schools— Are They Making the Grade?"

The Barrington Area Branch of the American Association of University Women will host a discussion titled "Public Schools—Are They Making the Grade?" on Tuesday, October 10, 2000, 1 PM, at the Barrington Area Library, 505 N. - Give parents a choice of schools
- Raise standards and stress the basics
- Make education a community effort
- Provide adequate funds to all schools

AAUW is a national organization committed to educational equity for women and girls, life-long education and positive societal change. The Barrington Area Branch sponsors monthly programs, hosts social activities and is active in the community. Membership is open to anyone with a baccalaureate or higher degree from an accredited college or university. ## CALENDAR OF EVENTS

**M.J. Miller & Company** is pleased to announce three designer trunk shows in the month of October at our new location, 123 W. Main Street in downtown Barrington. **Cornelis Hollander**, **Frank Mastoloni Sons, Inc.** and **Mark Patterson** will bring to you their very best. Exotic gems, extraordinary craftsmanship and unique design elements are only a few of the exciting details.

**Cornelis Hollander** is known to be a master of innovation and style, using precious metals and quality gemstones to create finely crafted pieces of jewelry.

His designs combine old world precision and charm with today's continually changing fashion, inspiring Hollander to create new and unique trends for his stunning collection. Hollander has been the recipient of many prestigious awards to include: eight-time winner of AGTA's "Spectrum Award," three time consecutive winner of the "International Pearl Design Contest" in Japan and three-time winner of the DeBeers "Diamond of Distinction" Award.

Cornelis Hollander has captured the imagination of the national and international jewelry community with his superior craftsmanship and trend-setting styles. Look for his award winning designs on display on *Friday and Saturday, October 13 and 14.*

For over 80 years, the **Frank Mastoloni** family has worked to become a leading American importer of fine quality cultured pearls. Artists in the selection of only the highest quality cultured pearls, the Mastolonis alone completely fashion and style their cultured pearls. Their name, now recognized as one of America's finest exclusive producers of pearl creations, has become synonymous with the sheer elegance of exquisite pearls.

Mastoloni selects their pearls primarily for their quality. Just as brilliance shows off diamonds, so lustre shows off pearls. Lustre is more than a surface gloss. It is the light and life of the pearl that permeates the gem through and through. It is the concentric layers of pearl nacre which produce an iridescence that reveals true beauty to the beholder's eye. On *Thursday, Friday and Saturday, October 19, 20 and 21, M.J. Miller & Company* will bring to you the artistry of Frank Mastoloni Sons, Inc.

**Mark Patterson** has been creating an exquisite collection of unique jewelry designs since 1983. Originally working with 18K gold and platinum, Mark used diamonds and precious stones in nearly all his pieces. Increasingly, one of his identifying elements is his use of 24K gold. Usually, it is found as an ornament of the main 18K body requiring a different texture and color.

Currently, **Mark Patterson's** jewelry is sold and appreciated in Japan, Saudi Arabia and, of course, **M.J. Miller & Company** in the United States. Exclusive, luxurious designs and the highest standard of manufacturing are yours to view and purchase on *Thursday, Friday and Saturday, October 26, 27 and 28.*

**M.J. Miller & Company** is located at 123 W. Main Street in Barrington. Hours are: Monday through Friday, 9:30 AM to 6:00 PM; Saturday, 9:00 AM to 5:00 PM; and Thursday until 8:00 PM. Call **847-381-7900**.

## What's Happening at Starr Couture

Fall is in full swing by now and there are many exciting events happening from fashion shows to trunk shows. But the best news of all is the celebration of our "First Anniversary". I would like to thank the entire Barrington community and all of our wonderful customers for the support we have experienced since our opening.

I have recently returned from another buying trip to Milan, Paris and New York. The latest trends for Spring 2001 will feature polka dots, bright colors, soft silk chiffon fabrics with beading and embroidery for day and evening. Capris are very strong but most pants are dropped waist and bell bottoms. (Don't worry. I didn't buy them.)

I look forward to seeing you soon and sharing all the latest news.

## "On the Nature of Abstraction"

Waterfall at Azalea Garden, Getty Center, Los Angeles. Design by Robert Irwin.

Robert Irwin will speak at the Combined Community Associates' Program 2000 at the Art Institute on Wednesday, October 25; his topic will be "On The Nature of Abstraction".

Robert Irwin is a conceptual artist and creator of the magnificent central garden at the New Getty Museum in Los Angeles. While other artists may confine themselves to the creation of somewhat static works in paint, stone, wood or the like, Irwin works in light and space. His interior in-

stallations are infused with a combination of natural light and finely calibrated colorations of artificial light. These light conditions are constantly changing with times of day and season.

Irwin constantly strives to make the viewer conscious of the perceptual process and of the ways in which place, space and time condition that act. As viewers, we don't just observe Irwin's work-of-art. We enter into it; our mere presence changes it. We become partici-

pants in the work-of-art itself.

When Robert Irwin began his artistic career in California in the 1950's, he worked as an abstract expressionist painter. By 1969, he gave up his studio and stopped painting entirely. In the 1970's his work included acrylic columns and interior installations involving lighting and scrim. The best known of these works was the room he created at the Museum of Modern Art in 1970 and "Black Line, Volume" at the Museum of Contemporary Art in 1975 in Chicago. It was a natural progression for him to move to large outdoor installations at the Dia Foundation in New York and The Getty Center in Los Angeles.

Because his lecture begins at 1 PM, participants will have independent time to view exhibits at the Art Institute. A new

exhibit, "Sky Scrapers: The New Millennium", examines more than 50 high-rise buildings completed in the past five or six years or currently under construction. Examples, represented by architectural drawings and models, include the tallest building in China and The New Sony Center in Berlin designed by Chicago's Helmut Jahn. The exhibit demonstrates that the skyscraper as a vital architectural form is alive and well around the world.

The cost of this members-only event on October 25 is \$30 to members of the Barrington Community Associates of the Art Institute of Chicago. The bus leaves Langendorf Park at 9:00 AM and departs from Chicago at 2:30 PM. To register for this interesting program, contact Genny Ellefson, 847-381-5228.

## One-Man Show for Crystal Lake Artist

Duntong Gallery is pleased to announce that it will be hosting a **One-Man Show for William (Bill) Schneider** a highly sought-after Crystal Lake artist. This show will open **Friday, October 27**, with an **Artist's Reception from 6 to 9 PM** and on **Saturday, October 28, 10 AM to 4 PM** to which the public is cordially invited and all R.S.V.P.s will be appreciated. The show will continue through November 24.

While maintaining a full-time career in financial planning, Bill still manages to find time to paint prolifically. In his passion to learn and grow, he also finds time to attend workshops with some of the finest artists painting today. Another of Bill's strengths is that he does not allow himself to get into a rut of painting merely within his comfort zone, but rather he is continually challenging himself with subject and technique.

Bill's works range from still-life to people studies to *plein air* landscapes all of which are rendered with skill, energy and meticulous craftsmanship. In his last one-man show at **Duntong Gallery**, Bill

had over 50 paintings on display and this show bodes well for yet another wide-ranging and highly-collectible opportunity for established and new collectors of genuine fine art.

## Get a Jump on Custom Gift Giving at CLIX

By Gal Friday

Ah, autumn. This means Halloween, then there's Thanksgiving, then it's Christmas already! Yikes! We've got two ideas to get

you through your panic.

First, you see from our photos we're into the swing of things for Halloween. Gosh, I wish my kids were still little like these guys. What a hoot it would be to have photos of all their Halloween costumes through the years! (Ed and I dress up for the neighbor kids every year, but keeping a record of that just isn't the same, if you know what I mean.) So to help parents keep up with these special trick or treat moments, we do a **CLIX Halloween Blitz** every year for \$21.50, which includes one 5 x 7 and four wallet-sized. It's one of our favorite specials. Call for your appointment today!

But there's more. Start this second project today and by the holidays you'll be way ahead of the game... not to mention the fact that your gift will be waaaaay cooler than everyone else's.

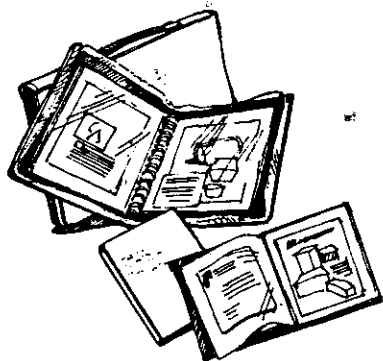

It's simple, really. All you need is a theme, a few hundred photos and a will of iron. (Ha, ha! Just kidding.) But it is easy to pull together 20 or so pictures for a custom album for your growing-up-too-soon child or the moving neighbors,

(sniff, sniff). How about an album with a lifetime of Christmases or Grandchildren 2000? Would you like it customized? Engraved with a special date or title? We have the goods, folks.

Just stop in at **CLIX** and we'll get you started.

**CLIX** has choices... over 150 styles and colors. Pick from a variety of binding types, cover fabrics, leathers and papers and plain or divided and matted pages. And of course everything is archival. If you want to see the largest selection of albums in the Midwest, stop in.

Do I need to mention our exciting selection of finest quality frames, pens, handmade papers, lamps and candles? Don't get me started. You've gotta see this place!

Come see our line of professional portfolios, for the person who needs to make an impression.

# Celine Fine Jewelry has EXPANDED

**C**eline Fine Jewelry is delighted to announce that we have expanded the size of our store as of September 1, 2000. We have moved just up the street from where we were to the center of the Historic Long Grove shopping district. Our new location is at the northeast corner of Old McHenry Road and Robert Parker Coffin Road. We have increased the size of our showroom which will enable us to double our showcases. This allows us to bring you many more unique one-of-a-kind designs, a larger selection of bridal jewelry, and, of course, our continued consummate customer service, custom design work and on-site repair services.

As part of our commitment to insure that you are thoroughly delighted, we believe the more you know about jewelry, the more you will enjoy selecting and wearing your jewelry. That is why we are producing a quarterly newsletter. Please stop in the store to receive your free copy and sign our guestbook to receive every issue. This newsletter has been created to further expand your knowledge of jewelry, helping you select what is best for you. It is designed to inform you of the latest trends in the jewelry industry, helpful maintenance hints, as well as the myths and mysteries about gemstones.

At Celine Fine Jewelry, you will not see our designs at other stores or on other people—they are special and one-of-a-kind like each individual who

enters our store. Our designs reflect the uniqueness of the individual—after all, who wants to see their jewelry on someone else. Our passion is to provide you with state-of-the-art design, high quality and fair prices.

Our dedication to detail and workmanship is the driving force in our growth and the need for our new location. We don't want to be just any jeweler, we want to know you to personalize your jewelry. At Celine's, we know why our customers come back time and time again, we ask them. They tell us they know that we spend the time to listen and understand what they want and then provide them with a variety of ideas and recommendations for their consideration. They know that when they send a friend or family member to our store we will treat them like family.

We enjoy going out of our way to make wishes, surprises, and ideas come true. We purchase our stones directly from the source, which means you are purchasing exceptional quality stones at a price that is much lower than another store that purchases their stones from a "middleman."

Our head designer will be returning in October from one of her many trips where she individually selects stones. This is the perfect time to choose a stone and design that distinctive piece just for you. If you have any personal requests, now is the time to stop in and place your order.

*We look forward to seeing you in our new, expanded location!*

## Gearing Up for the Christmas Season

Last summer was one of those seasons that came and went like Santa Claus on Christmas morning. Funny thing, this one's shaping up much the same way. That's why I wanted to get a reminder out early that between now and November, we will experience our heaviest volume of photographic requests. Not only are late summer and autumn fabulous times to plan for outdoor portraits, they also coincide with Christmas gift-giving opportunities. Production times generally increase during this fourth quarter. So we seek your assistance by requesting that you schedule your appointments now to help alleviate the processing bottleneck.

### Need Some Great Gift Ideas?

**Ladies**—The last thing your guy is likely to need for Christmas is another power tool! If he's like me, your basement, shed and garage noticeably resemble a hardware store. Believe me, guys don't always need to receive macho gifts. Why not surprise him with a portrait of yourself? It would be a gift he would treasure. A **Buschauer** portrait of you is among the limited items he cannot purchase on his own.

**Moms and Dads**—Portraits of your children are always a welcome gift to each other or for grandparents. Why not give your spouse a gift you can both enjoy? Ladies, I know you won't derive much pleasure from your hubby's new swivel arm radial miter saw. And guys, the perfume or bath soap you end up giving your wife might get you off the hook initially, but soon it's "down the drain!"

Now till November 14,

### Children's Special Sessions—\$50

Traditionally, our annual children's special in March covers a six-week span. It's an event eagerly awaited for by numerous clients. Several of you have requested that we offer a children's special more than once a year. To both accommodate and test-market this idea, I have chosen to repeat the same deal we extended in early spring. If perchance you missed us last time around, you can now redeem a second chance.

- Individual portraits of children from ages 3 to 15, just \$50 each.

- Individual and group children's portrait sessions can be coupled at no additional charge.

## A Hug from Hospice

Robin Geis, (center), the grand winner of the \$1,000 Very Important Duck (VID) at the popular Hospice of Northeastern Illinois (HNI) Duck Race, receives a "hug of appreciation" from "The Duck" for waiving her rights to receive the \$1,000 check and making sure that Hospice kept the money for further hospice care in the area. Hospice Foundation Director of Development, John Small is shown at right.

Mrs. Geis said that she is a longtime Hospice supporter and added that while she was initially thrilled with winning the VID Race, she felt that the money would

be better used by hospice in their compassionate care for the dying. "I truly believe in the difference that hospice makes for patients and families," said Mrs. Geis. "I have had family members use hospice, and we know how wonderful they have been treated by hospice professionals at a critical time."

The 2000 Duck Race raised over \$61,500 for hospice patients and families, the largest amount raised in the six years that the popular Duck Race has been held according to Duck Race Chairman Isobel Broome of Barrington.

## Indivisible: Stories of American Community

A national museum tour, *Indivisible: Stories of American Community*, which explores community life and grassroots action in America as viewed by some of the country's most accomplished photographers, radio producers and folklorists, will premiere at Terra Museum of American Art, 664 N. Michigan Avenue in Chicago. The tour opens Friday, October 6, and will continue through Sunday, November 26.

Dramatic black-and-white images, vibrant color prints and photo montages comprise the 200 photographs featured in the exhibition. Twelve distinguished photographers were asked to capture the character of community initiatives at work as they saw it in housing, immigration, youth empowerment, race relations, and economic and cultural development,

among others. The photographers are: Dawoud Bey, Bill Burke, Debbie Fleming Caffery, Lucy Capehart, Lynn Davis, Terry Evans, Lauren Greenfield, Joan Liftin, Reagan Louie, Danny Lyon, Sylvia Plachy and Eli Reed.

An "audio montage" of American voices, with an introduction narrated by journalist Ray Suarez, is a companion to the major traveling exhibition. The audio montage will be accessible through audio guides provided to museum visitors. The project also includes postcard exhibits, an interactive website and a book, *Local Heroes Changing America*.

Admission for *Indivisible: Stories of American Community* is \$7 for adults or \$3.50 for seniors. For more information, call Terra Museum at 312-664-3939.

## Claude Thomas' Exclusive Services—

**The Smart Peel, The Non-Surgical Facelift, Glycolic Peel, Permanent Make-Up, Hair Extensions and Add-On Hair & Wigs**

Along with hair, nail and spa services, **Claude Thomas** is introducing exclusive and exciting new services. One is **The Smart Peel**. Compared to a chemical peel, this exfoliation treatment offers higher precision. Other benefits of this treatment are many:

- Works on all skin types
- Elimination of fine lines and wrinkles
- Lightens and can even eliminate age spots and hyperpigmentation from sun damage
- Reduction of open pores
- Reduction and/or elimination of broken capillaries, scars, stretch marks, whiteheads and blackheads
- Restores sun damaged skin

Along with **The Smart Peel**, **Claude Thomas** has the **Stimulating Lift Treatment**. This program will help take years off the appearance of aging skin without surgery. The most important function of the **Stimulating Lift** is to tone up and contract the underlying muscles of the face and neck, helping to restore and recondition the tone and elasticity of both the skin and muscles of the face and neck.

Another one of our exclusive services is **Hair Extensions**. Not all hair extensions are alike. We only carry the most innovative methods in our industry. Our system is the same one that celebrities and models use. Our system does not damage your own hair like so many systems in other salons. We only use the best hair in our industry. The **Polymer Attachment**

**Taking care of you is serious business... but we make it fun too.**

**System** attachments are polymers equal to the human hair structure, not glue, wax or twisting and braiding that damages your own hair. We use 100% human hair, with the cuticles all going the same direction. We do not use synthetic hair. This hair is easy to perm or color. After a consultation, we would determine what would be right for you.

**Permanent Make-up** is now at **Claude Thomas**. This service will be done by Claudia. Who benefits from Intradermal cosmetics?—Busy people with little time to apply make-up; people with allergies to make-up; people who seek corrections of asymmetrical facial features; people who wish to look their best all the time; athletic people; entertainers; actresses and models; and those who are physically incapable of applying make-up. Call and find out more about this service.

**Claude Thomas specializes in wedding and special occasions! Gift certificates available.**

Not sure what style you want for autumn? Come in for the **computerized virtual make-over** for \$30.

## Steffan's Has Commitment to Quality Jewelry

One of the things that we are very proud of here at **Steffan's** is our commitment to the quality of jewelry that we sell and the realistic prices that we sell it for. Sure you can probably find this and that on the Internet for "below wholesale" or "too good to be true" pricing. But in reality it is just that, too good to be true! We have helped a great number of Internet shoppers recover "misrepresented" jewelry purchases from the net. There are some real scary things going on out there. Last month, a good friend and customer came in to show us his new Rolex watch that he ordered on the Internet. It really made us feel terrible that we had to be the one's to tell him it was a fake. He spent \$3,800 with his Visa card after viewing a photo of the watch. The imitation he received is valued at less than \$10.

This happens all the time.

You see, it's not that we didn't get to sell

him his Rolex that is frustrating. It's the fact that he was taken advantage of. Now his attitude towards the jewelry industry is negative and it happens to be an industry that we love and have a passion for.

We are firm believers that anything as personal as a gift of jewelry should be seen, touched and sold with an education. After all of the grief we've seen on customers' faces who have no store to "take it back to," it really is important to have a good jeweler!

**Steffan's** is here for all of your after-the-sale needs. We are working hard everyday to make sure that you are satisfied. We want you to be proud to shop with us in the future and also recommend us to your children and grandchildren. Being honest with people is just good business and success will follow naturally.

Come see us. Let us be your jeweler and we promise you'll be glad you did.

LOSE THE WEIGHT...AND KEEP IT OFF!

## Studio One Eleven Salon & Day Spa Combines Wellness and Beauty Concepts in Woodland Setting

Tucked away in a residential area of Lake County, IL, is the salon/day spa created by beauty industry consultant and educator Lyn Longo. This "urban oasis" seems unlikely in a residential area bounded by wetlands and green, rolling hills. It is exactly for this reason that **Studio One Eleven Salon & Day Spa** has been a popular choice. The quiet, convenient location is part of the experience. By introducing clients to the concept of beauty and wellness, **Studio One Eleven** offers something special.

As clients enter, they are given the feeling of spaciousness and light. A vaulted ceiling and strategically placed glass block walls are among the unique architectural elements of the salon. Instead of equipment, most of the work areas utilize furniture to enhance the appearance and set the mood. A cherry wood entertainment center houses a stereo, TV/video unit and refreshment center. Fresh flowers adorn every station year-round. The careful attention to design and arrange-

ment insures that clients feel comfortable but not cut off from the friendly activity.

Unique in the design is the consideration of ergonomics to improve both the client's and the stylist's environments. The Pedicure "Patio" is an elevated platform with massaging deck chairs. At first glance, it may seem similar to many found in salons across the country. Longo changed the height and depth dimensions to provide a more comfortable level. The varied shapes and colors of the quarry tile add texture and interest.

In an atmosphere usually only found at fine metropolitan salons, **Studio One Eleven** features the most desired hair, nail, body and skin care treatments. Their goal is to demystify the benefits of skin and body care, making it easy to make these treatments part of a client's regular salon visit. Try a paraffin dip or express facial and begin your journey on the path to beauty and wellness. Consultations are encouraged and always complimentary.

## New Weight Loss Program Shows Dramatic Results

Dr. Barry Berger, a Board Certified Internist practicing in Lake Zurich for the past 12 years, introduces a new weight loss program. This program is based on the 40/30/30 nutrition plan which consists of 40% carbohydrates, 30% protein and 30% fat. By increasing protein while decreasing fat and carbohydrates, weight loss success increases. University studies using this diet method along with the latest advances in prescription medication have shown safe and effective weight loss results.

Unlike other programs for which you need to buy food or count calories, this method offers the most freedom and achieves the best long lasting results available today. Fat comes off and stays off! Dr. Berger custom designs a program for each patient and discusses proper exercise, nutrition and overall weight status while considering your current lifestyle, exercise and diet habits.

Dr. Berger has had hundreds of satis-

fied patients and has incorporated the use of a new fat blocker, Xenical®, and an appetite suppressant into this diet. Insurance usually pays for some or most charges, (sorry, no HMOs).

To begin a weight loss program that really works for you, call 847-438-2454 in Lake Zurich or 630-789-9495 in Hinsdale to make an appointment for your consultation today.

Programs this year will begin with "An encounter with Frank Lloyd Wright" at our October 12th meeting at the Inverness Golf Club. ## Dermessentials: The Best Products for Beautiful Skin

At **Dermatology Physicians & Surgeons**, we constantly strive to keep abreast of current dermatological research as well as the latest developments in medical and surgical technology. Our patients can be confident that the treatments they receive represent state of the art skin care. In addition to information and technology, there are a myriad of skin care products that we evaluate on an ongoing basis. Our efforts resulted in the creation of **Dermessentials**, a walk-in retail center located on the second floor of our Crystal Lake office.

**Dermessentials** is a contemporary source for products for your skin. Among the most popular products called at **Dermessentials** are the Alpha Hydroxy Acid (AHA) creams, lotions and cleansers from MD Forte. Manufactured by highly-respected Allergan Pharmaceuticals, MD Forte is an elegant line of skin rejuvenating products that may be obtained only through physicians' offices due to the higher potency of their AHA ingredients. The ability of AHA to effectively enhance the appearance of the skin is solidly documented by a large body of published medical research, and we feel that MD Forte by Allergan represents the best of the AHA products currently available. For Christmas this year, consider giving an elegant MD Forte holiday gift set that will be offered at a special holiday price.

**Dermessentials** also offers the prestigious, hypo-allergenic make-up line Bodyography. The Bodyography line consists of foundation, eye shadow, blush, mascara, lip liner and lipsticks in the latest colors for the new season. In addition

to our make-up products, we have available a selection of fine brushes and applicators. And if you like a little color in your skin, indulge yourself with St. Tropez tinted self-tanning lotion that provides the richest looking tan, in the most luxurious way, without the sun. St. Tropez tans immediately for a streakless application that lasts for days.

**Dermessentials** carries many other fine dermatologist-recommended products that are hard to find elsewhere. We have Vanicream, the hypo-allergenic moisturizer originally formulated and recommended by dermatologists at the Mayo Clinic. **Dermessentials** also carries SolBar Avo our favorite sunscreen. If you are looking for shampoos and conditioners that dermatologists recommend with confidence, consider Free and Clear or DHS Clear, both available at **Dermessentials**.

We also carry Skinceuticals, the only line that contains the Vitamin C formulation patented by researchers at Duke University, the originators of topical Vitamin C technology. You can also find Kinerase cream and lotion as well as other research-proven products for revitalizing your skin at **Dermessentials**.

Space doesn't permit a complete listing of everything available at **Dermessentials**, but all of the products are non-prescription and no appointment is needed to shop without pressure six days a week. By special arrangement, you can also have our make-up artist/cosmetologist Jennifer Fant demonstrate her skills on you. Stop by soon and discover **Dermessentials**—*For your skin... for your life.*

## Roger Ebert Highlights New Elgin Enrichment Series

"What's New and Exciting at the Movies and What Isn't" with Roger Ebert... "Veracruz and the Coastal Cuisine of Mexico" with Chef Rick Bayless... "Unusual, Exotic and Dream Vacations" with Arthur Frommer... "How to Prevent 'Hardening of the Attitude'" with Loretta LaRoche...

These are the timely topics and dynamic presenters for the upcoming **Elgin Enrichment Series (EES)**, which now offers both evening and morning series ticket options, starting October 19, 2000, at 7:30 PM at the Elgin Community College/Visual Performing Arts Center.

Roger Ebert presents "What's New and Exciting at the Movies and What Isn't" on Thursday, October 19, at 7:30 PM. Ebert will inform and entertain the audience with his views on the latest in movies and Hollywood trends. His "Roger Ebert & The Movies" TV show appears on more than 200 stations and continues to rank as the top-rated weekly syndicated half-hour on television. For over 23 years, he co-hosted "Siskel & Ebert" with the late Gene Siskel and now with *Chicago Sun-Times* columnist Richard Roeper. Ebert is a Pulitzer Prize winning film critic of the *Chicago Sun-Times* since 1967 and is syndicated in more than 240 papers in the U.S., Canada, England, Japan and Greece.

Rick Bayless, Chicago's star chef, restaurateur, cookbook author and TV host, presents "Veracruz and the Coastal Cuisine of Mexico" on Wednesday, November 8, at 10:00 AM. Chef Bayless will demonstrate a typical Veracruz dish and talk about the food specialties from Mexico's Gulf coast, one of the exciting "undiscovered cuisines" of our southern neighbor. He has traveled the Mexican seashore—almost all 3,000 miles of it—and will share what those fertile waters offer. Like the rest of the developing world, Mexico has taken full advantage of its nutritive resources, especially those of the water.

Arthur Frommer, America's Travel Czar, presents "Unusual, Exotic & Dream Vacations" on Wednesday, April 11, 2001, at 10:00 AM. Frommer is famous for his novel vacation ideas, which bring high romance and adventure to the most standard destinations. In a colorful and fast-paced presentation, he'll roam the world, from the Florida Keys to the island of Bali, describing resorts that are both full of value and fun as well as attractions that are full of learning and growth for the viewer.

Loretta LaRoche presents "How to Prevent Hardening of the Attitude" on Tuesday, May 1, 2001 at 7:30 PM and Wednesday, May 2, 2001, at 10:00 AM. LaRoche is a bundle of dynamite who's got audiences of usually sane people rolling in the aisles with uncontrollable laughter. Chances are, she's unlike anything you've ever seen! We are fast becoming a nation of crazed and humorless individuals. The message we constantly receive is to do as much as we can in one day, do it perfectly and then feel guilty for not doing more. LaRoche says it is possible to create excellence, play along the way and enjoy life! She was featured on PBS providing her wacky sense of humor to promote a happier, healthier society.

The **Elgin Enrichment Series** offers four different series packages with a combination of: morning only; evening only; two evening/two morning presentations; or one evening/three morning presentations, at the Visual Performing Arts Center, Elgin Community College. Luncheon tickets may be purchased individually or for the Complete Series, at \$18 for each luncheon, by Series Ticket holders only. All luncheons are held at the Elgin Country Club in Elgin immediately following the presentation. Call 847-622-0300 for information.

## New Beginnings

Autumn seems a time for new beginnings—school begins, new supplies are purchased, fall schedules kick into high gear for children and parents alike, the weather is cool and crisp and the leaves begin to turn. Do you remember starting a new year in school and thinking... a fresh slate, starting over, another chance to make things better? Because school is something that everyone can relate to on one level or another, how can that old feeling of starting over come to life again? How can you utilize that feeling to catapult yourself into a new stage of personal development and growth?

We live in an era that is epitomized by individual self-improvement. There are personal physical fitness trainers everywhere, self-help books abound, spas galore, cosmetic surgeons, therapists, motivational experts and the media available for anyone and everyone to utilize. So, what holds some of us back from the opportunities surrounding us?

I suggest that a large part of the problem is a lack of clarity about what our priorities are and the lack of a specific game plan as to how to work toward accomplishing those priorities. How would one get to where they were going if they

didn't know how to get there? Some people learn early in life the benefit of establishing goals and devising "do-able" plans to achieve those goals. Other people struggle with knowing what they want and thus don't have a way to feel that they are moving along a positive path toward anything in particular. The other single largest issue in preventing yourself from attaining your highest potential is limiting yourself with a limiting attitude. Believing you can is as important as setting in motion a game plan.

Self-esteem grows by doing those things that define a path and keep one on that path—moving ahead. Self-actualizing is the biggest building block in the foundation of self-esteem. Nothing in life is easy—so this is not an easy task. Developing the skill to know yourself, what you want and the way to get it is essential for healthy emotional living. Often people get sidetracked by following the cues of others rather than their own plan.

## Take Care of Your Back

One of the most common medical problems today is low back pain. It is estimated that at one time or another, eight out of ten people will suffer from this condition.

Much of this discomfort can be eliminated with physical therapy. Proper exercise, correct body mechanics and posture are important components in preventing and treating low back pain.

The most important exercises in treating low back pain are strengthening the abdominal muscles and maintaining spinal flexibility. Sit-ups are a great way to strengthen your abdominals. When doing a proper sit-up, don't raise your body any more than it takes to clear your shoulder blades off the surface you are lying on. Hold it for a few seconds and slowly lower your body. A good exercise for spinal flexibility is standing, placing your hands behind your back and arching backwards. We often sit in a flexed position—i.e. driving the car, working at a computer, etc.—so extending the spine feels good.

Posture and body mechanics are equally important when taking care of your back. Proper posture must be maintained while sitting, standing and lying down.

A physical therapist can evaluate your posture and instruct you in ways to improve it. In order to accomplish this, specific muscles must be stretched while others are strengthened. Lifting, carrying, pushing and pulling with good form also helps your back.

Workout at a health club? Our physical therapist can assist you in designing a safe and effective program for you at your club. We also work one-on-one with you (no double booking) to address all your specific needs.

## Barrington Welcome Wagon Club to Tour Mettawa Manor

A garden tour of the 75-acre home of award-winning television producers Donna La Pietra and Bill Kurtis will be held Tuesday, October 10. This very special event will feature a walking tour and a professional video presentation by Ms. LaPietra of the private gardens on the estate. Ms. La Pietra and Mr. Kurtis, partners in life, have spent the past several years restoring the beautiful grounds with the express intent of returning plants indigenous to Illinois prairies. They are also trying new varieties of plants in more formal gardens. (Both ventures are in conjunction with the work of the Chicago

Botanic Gardens.) The estate is now home to the Kurtis Conservancy Foundation.

Donna La Pietra serves as Executive Producer for Kurtis Productions, Ltd., a Chicago-based television documentary production company currently producing the Peabody Award-winning science adventure series "The New Explorers with Bill Kurtis" as well as the Emmy Award-winning, news-based series "Investigative Reports" for cable television's A&E Network.

## Barrington Continues its Support with "I Am A Promise" 7th Annual Benefit for Holy Family School

Barrington residents continue their fine tradition of support for Holy Family Lutheran School in the inner-city with "I Am A Promise", the school's 7th annual fall benefit party. The event, 6:30 PM, Friday, October 13, at the Schaumburg Marriott Hotel, helps support the school's tuition assistance fund.

For years, Barrington residents have supported this special school with generous monetary donations and volunteer support. This year, the celebration of the promise and potential of these inner-city students includes an auction of a 2001 Chrysler PT Cruiser as well as getaways at several luxury hotels and inns and two round-trip tickets within the U.S. on United Airlines.

Holy Family Lutheran School was founded in 1985 by Holy Family Lutheran Church in Cabrini-Green. Committed to providing a quality education with small classes and a caring staff, it is located in

Barrington resident Rosemary Brown with Asley Pitts, a Holy Family Lutheran School Student, at an outing at Barrington's JFK Health World.

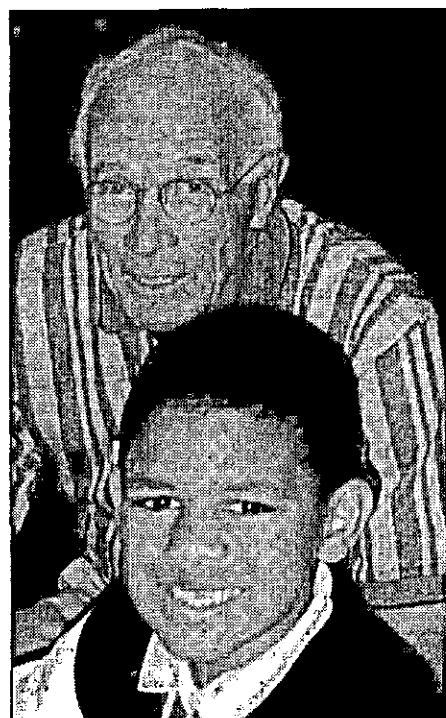

Chicago's near West Side.

Though the school has tripled its original enrollment and relocated twice for more space, the mission of Holy Family Lutheran School remains the same—to provide low-income families a high quality, yet affordable option in education.

For the families served, Holy Family has become more than a good school, it is a symbol of hope in an area with too few symbols of pride and success. It is a place where not only children, but parents too, are empowered and inspired to grow and learn.

The evening includes a sit-down dinner, entertainment and a live and silent auction. Tickets for the event are \$45 per person.

Call co-chairs Mary Anderson, 847-381-9213, or Cindi Williams, 847-382-3350, for more information.

## Step into Fall with Micro-Dermabrasion

Now that the kids are off at school, it's time to take care of ourselves. Why not start with a luxurious body treatment, like our spa salt glow. Essential oils and only the finest of sea salts are used to exfoliate dead cells and stimulate circulation, leaving the skin feeling baby smooth and rejuvenated. Follow with a Moor Mud body mask, great for detoxification, cellulite, broken blood vessels and varicose veins. Eczema, psoriasis and arthritis can also be helped by the Moor Mud.

After your body mask, why not start a three-lesson make-up course to learn all of the new fall colors that would be best for you. Our course consists of three lessons, an hour and a half each, once a week for three weeks. If you are a little pressed for time, we also offer a make-up refresher course, designed to help you brush up on your skills and keep up with the seasons' popular colors. Or why not bring in your teen or pre-teen for a teen lesson, and let them go to school looking their best.

Change with the seasons and try Micro-Dermabrasion. This particular treatment uses a crystal flow that causes an abrasive action, removing surface layers of the skin, reducing fine lines and wrinkles, and giving the skin a more youthful and healthy appearance. The vacuum action stimulates microcirculation, which increases the blood supply, providing the

nutrients that are essential for skin regeneration. The formation of new elastin and collagen are also stimulated to improve skin texture as well as its elasticity.

Because this micro-peel gradually abrades the epidermal cells, the process can treat many different skin problems. Those included are:

- Sun-damaged skin
- Uneven and granular skin
- Fine lines and wrinkles
- Enlarged pores
- Blackheads and whiteheads
- Superficial scars
- Some stretch marks

There is no risk involved with the Micro-Dermabrasion. It has, in fact, been used throughout Europe for 20 years. In spite of the complicated name, the process is really quite simple and is the ultimate advancement in non-invasive, non-surgical skin conditioning. There is no trauma to your skin, nor is there any bleeding. Also, there is no "recovery" period after this treatment. Normal activities can be resumed immediately. As a matter of fact, some clients have had it done on their lunch hour!

We are celebrating our 29th year in Barrington on the first of October. Thanks to everyone for making this happen.

Sincerely,  
Cathy Ramstadt, Owner  
Syd Simons Cosmetics

## Improving Your Skin

It is inevitable. We will all age. And as we do, we will all experience certain signs of aging such as fine lines and uneven discoloration of the skin. Almost everyone has some degree of damage on their skin, whether it is from the sun or some skin condition such as acne. The good news is that usually even problem skin that hasn't responded to the common treatments can be improved through the modern products and techniques employed by our esthetician.

The first step in improving your skin is to design a custom treatment program that addresses your particular needs and desires. This is done in consultation with our licensed esthetician. You may want to start with a simple home skincare regimen for which there are many new and effective products available. If you would like to go further, our esthetician can offer a number of different techniques that would enhance the results of your home care. We would like to highlight one of these new treatments—The Micropeel.

### The Micropeel

The Micropeel Treatment is a 30-minute, non-abrasive treatment that will leave your skin free of dead, flaky skin and bring it back to a smoother texture.

**Step One—**The Micropeel Treatment begins by cleansing the face with a mild medical cleanser and a toner. The first process is called dermaplaning and consists of exfoliating the outer epidermis. The esthetician accomplishes this by using manual exfoliation, or sloughing off, dead skin on the surface of the face.

**Step Two—**During this step, the esthetician will decide what chemical solution would be best for your particular concerns. Everyone's skin type and concerns

are different. The most common skin types treated are hypersensitive, environmentally damaged, hyperpigmented, acne prone or active acne. The solution will be applied and left on the face anywhere from 30 seconds to two minutes followed by a cold water rinse. Most patients claim they feel a light tingle or a light burning sensation which subsides once the cold water rinse is applied.

**Step Three—**The final step consists of extracting any blackheads or whiteheads. At this point in the treatment, the extractions are easier because the pores are free of any skin that blocks their way out. Once the extractions are completed, a smoothing moisturizer along with a sunblock is applied.

Following Micropeel Treatment, the skin feels refreshed and appears to have a healthy, pink glow.

### What is an Esthetician?

A licensed esthetician is someone that has gone through specialized schooling and passed a state licenser exam to allow them to take care of the skin from an esthetic or beauty standpoint. A licensed esthetician has applied their specialized training in a medical setting under the oversight of a physician. A myriad of different

## Wholistic Health Fair at MCC

The 2nd Annual Wholistic Health Fair will be held at McHenry County College on Sunday, October 15, 11:00 AM to 4:30 PM.

The Wholistic Health Fair is a unique opportunity to meet professionals in the field of natural, holistic, health care. There will be demonstrations, exhibits, workshops and lectures on reflexology, environmental health, acupuncture, nutrition, yoga, magnetic wellness, Reiki and live cell analysis. Environmentally safe products, books and crystals will be available as well as drawings and discounts.

Health is not just a "lack of disease", it is the balance that contributes to our sense of "Wholeness" both internal and external. Life in the fast lane is a disturbance of balance. How to restore equilibrium and vitality is the quest for health. The

old paradigm of being a passive participant in your health care is giving way to a new cooperative patient/professional relationship which has enormous healing potential.

The complimentary or alternative health market is expanding rapidly on its own as well as being integrated into western medical practices. This free event will broaden your capacity to make informed decisions regarding health care options.

It's a great opportunity to shop, try something new, ask questions and have fun! Sponsored by Health Quests, Mind, Body, Healing, Arts; McHenry Health Food Store; and The Infinity Foundation Practitioner's Network Association. Please call Ann at 815-356-1760 for further information.

## Plastic Surgery—A Team Approach

Many of us have pondered having plastic surgery. Either you know someone who has had a particular procedure done or you have researched the subject for yourself. But for many of us, the thought of finding the right surgeon, asking the right questions and overcoming fears and anxieties associated with surgery can be overwhelming. So reluctantly, we put it off until "next year."

At **Valley Plastic Surgery Center**, we focus on simplifying those obstacles and bringing the achievement of your personal goals within your reach. From deciding to pursue plastic surgery to being proud of your results, we will guide you one step at a time with tips and advice along the way.

Your first step involves finding the right plastic surgeon for your individual needs. A board certified plastic surgeon—one with experience and compassion—is certainly your first priority. At **Valley Plastic Surgery Center**, our three surgeons are board certified in both general surgery and plastic and reconstructive surgery with experience and training in most aspects of cosmetic surgery.

Which leads us to... making the phone call to schedule an appointment. Before you step into our office, you can tell a lot about us by speaking with the office personnel. At **Valley Plastic Surgery Center**, you will hear a pleasant voice and have the opportunity to ask questions before scheduling your consultation. Our receptionists can answer general questions such as board certification, education and experience of the surgeons, as well as financing options. Clinical questions such as length of surgery, approximate fees and length of recovery time can be answered by our Surgical Coordinator. She has extensive experience in assisting with various procedures and knowing what is involved during the recovery process. She is also able to place you with the appropriate doctor for your

individual needs. An office staff that is friendly and informative speaks volumes about the "atmosphere" and the experience you can expect, even before meeting your surgeon.

Consultation with the surgeon is imperative. When you schedule your consultation, you will be meeting with the surgeon who will be performing your surgery, should you decide to proceed. Getting to know your surgeon will be a comfortable experience, and the consultation allows you the firsthand opportunity to discuss your aesthetic goals with him. We feel a surgeon who spends time with you on your consultation will also be a surgeon who will take time on your follow up visits after surgery.

Your consultation visit will also include meeting our Surgical Coordinator who may show you representative slides of your surgeon's work and answering any further questions. She also will be the one to assist you with scheduling your surgery during your "window of opportunity" which enables you to take the necessary time off from work for your recovery. Should you have further questions, a second consultation with your surgeon will be arranged.

Pursuing your options in plastic surgery should be enjoyable. You need to feel comfortable with the office, the surgical setting and your surgeon. Keep in mind, they work together to fulfill your surgical expectations. **Valley Plastic Surgery Center** has a professional, informative staff as well as three board certified plastic and reconstructive surgeons who, after you take the step to pursue your surgical goals, believe in meeting your expectations with personalized care and attention before, during and after your surgery.

Try us! We have 46 years of combined experience in plastic surgery in the Fox Valley area. Give us a call today at 847-836-3200.

## Pi Beta Phi October Meeting

## Renew Your Skin for the New Season

It is already October. Where has the time gone? It doesn't seem like we ever had a summer and winter is certain to be right around the corner.

It is time to take a good look in the mirror and really look at your skin. It's amazing how much damage can happen in just a few short months. It's time to let **The Right Dimension Salon and Spa** renew your skin for the new season.

There are several treatments that can be done to achieve a younger, healthier look. Rapid Exfoliation is the answer. By either using **Glycolic Acid** or **Cellabrasion's™**, we can help you achieve that revitalized look.

Both methods of exfoliation work on all skin types. By using Glycolic Acid, we can reduce fine lines, hyper-pigmentation from sun damage and exfoliate all the dead cells you have accumulated over the summer.

Now Cellabrasion's™ does a little more. It also reduces fine lines and hyper-pigmentation from the sun, but it also helps to restore and recondition the tone and elasticity of both the skin and muscles of the face and neck. Let us not forget even a basic facial is important for a deep

cleansing of all the pores.

Due to an overwhelming response, we are extending our introductory offer—a series of six Cellabrasion's™ is only \$675. In addition, all skin care products are discounted 20%. **The Right Dimension** can supply you with the best-in skin care products from M.D. Formulations® and BioElements®. In addition, we carry tanning lotions, specialty soaps, gift items, hair and nail care products.

If you have any questions, Michelle Arnold will be happy to assist you.

Call today at 847-934-1112 and schedule an appointment to "pamper yourself".

## Holiday Bazaar to Benefit Little Sisters of the Poor

Features of our bazaar will be handmade craft items, home baked goods, cer-

amics, floral creations, jewelry, Granny's attic, books and parade of prizes. Profit and relax by having a luncheon at our "bistro".

## Snoring, Strokes and Dentistry

by Raymond P. Kotz, DDS, and James T. Gavrilos, DDS

In patients over sixty, 60% of males snore and 40% of females snore. Some simple solutions to decrease snoring involve avoiding alcohol and heavy meals before bedtime, losing excessive weight and regularly exercising. Regular sleeping habits may also help as will decongestants. You might try sleeping on your side rather than on your back. (To remind you to sleep on your side, place a tennis ball in the back of your pajamas with a rubber band to awaken you if you roll onto your back.) Besides nagging from your mate or minor damage from an elbow in your side at night to urge you to roll over, there may be serious health risks because snoring is often associated with a condition known as obstructive sleep apnea.

In sleep apnea, breathing is interrupted for ten seconds or longer repeatedly during sleep. This can mean that an individual might have below normal oxygen levels for as much as half of their sleep time. During this time, the heart must pump harder to circulate the blood faster and an irregular heart rate may be the result. Irregular heart rates are often the cause of increased blood pressure, heart enlargements and possibly strokes.

If these simple solutions do not work and if your mate continues to notice these symptoms, or you are excessively tired during the day, do not procrastinate on

Dr. Raymond Kotz, DDS

medical consultation. Your physician may recommend sleep studies to determine the exact nature of the problem and then, if severe enough, he might recommend a device called a CPAP (Continuous Positive Air Pressure) machine. This is a device which pumps air into your nose and throat to maintain an open airway while you sleep.

The CPAP is difficult for many people to become accustomed to. Another option is surgical alteration of your mouth or jaw, but these procedures have either unpredictable results or are very extensive. Another newer solution is the use of a dental device called a Herbst Appliance. This is non-invasive and worn only at night. Your dentist can explain the device and discuss it with your physician.

**Dr. Raymond P. Kotz** and **Dr. Jim T. Gavrilos** can be reached by calling 847-381-4040 in Barrington.

## Members-Only Garden Walk

Members of the South Barrington Garden Club

Members of the South Barrington Garden Club recently showed off their hard work and gardening skills at a members-only garden walk. Four gardens were toured. Each offered a variety of designs and plenty of color from perennials and annuals.

Membership is 30 and growing. The group, an affiliate of the South Barrington Park District, keeps a busy agenda by visiting and touring horticulturally noteworthy and interesting private and public gardens in the Chicago area; attending

lectures; and raising funds for the beautification of Village areas and for scholarships for students seeking a career in the horticultural field. This year's recipient is Dylan Saam of Barrington. He will be studying Landscape design at Kishwaukee College and wishes to start his own landscaping business someday.

The group hosted the town meeting for the west region of The Garden Club of Illinois, Inc. in September at the Community room of the Park District.

## Feel Good and Look Great

The doctors at **Total Health Concepts, Ltd. Aesthetic & Laser Surgery Center** are proud to introduce Photo Facial, Wrinkle Light & Laser Laxity Vector Treatment and Skin Rejuvenation—the outstanding new procedure for an aging skin treatment.

W. Mark Iwanicki, MD, the founder of the corporation, is one of the only few physicians in Illinois who are fully-trained and licensed to perform this procedure.

**Photorejuvenation** is a new and very unique procedure that visibly improves the appearance of the skin and reduces signs of aging, rosacea, enlarged pores, irregular pigmentation, spider veins, fine wrinkles and flashing of the face. We are very excited about this procedure which has gained tremendous acceptance because it appears to be a non-invasive alternative to laser facial skin resurfacing and has an excellent safety record and no down time. A patient can return to work right after treatment. There is practically no pain. More sensitive patients can use local anesthetic cream. Treatment of the face is most common but other parts of the body, such as the neck, chest and arms, can also be successfully treated. This procedure is suitable for both women and men.

The treatment usually consists of few sessions lasting about 30 minutes.

**Advanced Vein Treatment Center** at **Total Health Concepts, Ltd.**, provides the patient with the most advanced and contemporary varicose vein diagnosis and treatment: laser treatment of spider veins, sclerotherapy, advanced ultrasound guided sclerotherapy, non-invasive evaluation

At **Total Health Concepts, Ltd.** their doctors combine years of medical experience with the latest techniques in 21st century technology. For more information, call 847-228-3151.

of venous flow and insufficiency, etc.

The clinic also provides several procedures to improve your appearance.

**Botox Injections**—This relatively simple medical procedure helps eliminate wrinkles, especially those frown lines and crow's feet around the eyes, and takes not more than 15 to 20 minutes of your time.

**Hair Removal**—Permanent hair reduction from all parts of the body with a "flash of gentle light".

We also offer treatments for age spots, stretch marks, warts, scars, portwine stains and many others.

Dr. Iwanicki and associates have been practicing medicine in the Schaumburg area for over 20 years. "We get older together with our patients and we understand their needs." Their friendly staff is waiting to help you.

The office is located at Wimmer Plaza—Professional Building; 810 Biesterfield Road, Suite 104, adjacent to Alexian Brothers Medical Center in Elk Grove Village.

For additional information or directions, call 847-228-3151.

## Mouthguards are a Must for Sports

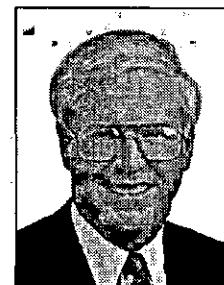

As fall approaches, children are once again involved in many sports. Football, hockey, volleyball, basketball and soccer are just a few of the sports where a mouthguard is strongly recommended. The popular belief that a mouthguard is only needed in contact sports like wrestling and football is not true. Sports today have become much more competitive and physical, creating more opportunities for contact and blows to the mouth.

It has been recommended by the Illinois Department of Public Health Dental Division that all children playing sports should wear a protective mouthguard. Wearing a mouthguard is beneficial for several reasons. Most importantly it will help to absorb the blow to the front teeth and minimize damage to them. Secondly, if the child is wearing any type of orthodontic appliance or braces, a mouthguard will not only help to protect the teeth, but it will also prevent the lip from being pushed into the braces, thus mini-

mizing soft tissue damage.

In our practice, we strongly advise mouthguards for all sports that our patients are involved in. To make it easier for our patients to wear a mouthguard, we will custom-fit a mouthguard over their appliance or braces. We just ask that the patient bring a moldable mouthguard in with them to one of their appointments and we will do the rest.

Our office enjoys taking part in helping our children protect their teeth while on the playing field. If you have any questions regarding orthodontics or mouthguards, please contact us at either our Barrington, 847-382-5588, or Palatine, 847-359-7980, offices or you can log onto our website at—

## Ginkgo—Brain Food

by Carole Childers, C.N., L.N.C., All Ways Healthy

A powerful herb for the brain, ginkgo extract has been shown to help improve memory, as well as other brain functions, by enhancing blood flow to the brain.

The leaves of the Ginkgo Biloba Tree, which is the oldest living tree species, have also been used to treat hearing problems, ringing in the ears, impotence, dementia, circulatory problems and oxygen deprivation.

Studies show that the ginkgo is good for the brain because it fights the oxidation that can damage brain cell membranes. Oxidation is believed to be the primary cause of progressive aging of the brain and ginkgo appears to help rebuild the membrane integrity.

The first double blind study in the U.S. on the effects of ginkgo proved that an extract of ginkgo has a small but measurable effect on dementia. The key seems to be a substance extracted from the leaves of young ginkgo trees or EGB.761 as scientists have dubbed the substance. In Germany, the extract has been the subject of hundreds of scientific studies. Studies

show that EGB.761 helps to keep platelets in the blood from clumping together which is why ginkgo extract is prescribed in low doses in Europe for patients with circulatory problems. Much higher doses are used to treat dementia.

No claims have been made to suggest that ginkgo can cure dementia or prevent Alzheimer's. However, there are encouraging reports showing that if Alzheimer's is treated early enough, dementia may be postponed.

Memory lapses may also be caused by depression, malnutrition or some other conditions that don't respond to ginkgo. Not all ginkgo products are created equal. Many do not contain all the active ingredients necessary to help with brain function. To be sure if ginkgo is right for you, it's best to consult a physician or a natural health care provider.

Born in England, and raised in South Africa, Alan Wolton settled in the American Southwest in 1982. A self-described man of the outdoors, Wolton spends hours "stalking his landscapes" in the mountains around his home, on the U.S. coast, and on return trips to Europe.

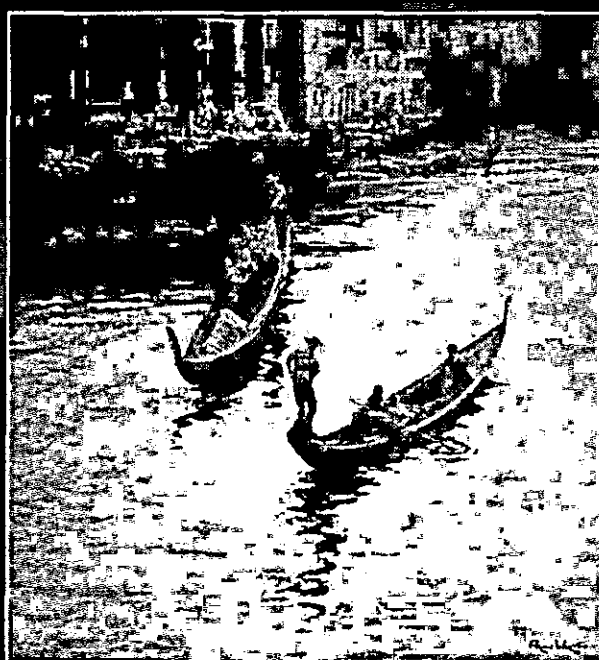

The study of light on his subjects led Wolton to develop highly individualistic techniques for capturing the emotional vibrance of nature—whether expressed in an intimate understanding of a floral subject or the majesty and romance of Venetian canals by moonlight. His works, which range in size from 20" x 28" to monumental pieces 72" x 60", have been described as "nature's beauty painted honestly and powerfully."

## Country Home and Garden Club of Barrington Celebrates 50th Anniversary

Past Presidents of the Country Home and Garden Club of Barrington include, (seated left to right): Kathy Coffman, 1999-2000; Kay McGibbon, 1950-1952; and Alice Anthony, 1995-1997; (standing left to right) Bonnie Murray, 1985-1989 and 1991-1992; Barbara Bond, 1987-1989; Jinny Noyes, 1970-1972; Patrice Bender, President Elect; Sam Oliver, 1974-1976; Avalee Mowry, 1997-1999; and Dorothy Johnson, 1978-1980.

The Country Home and Garden Club of Barrington celebrated its 50th Anniversary at the beautiful Wynstone home of Beverly Fisher on August 28. The champagne brunch was a gala affair with Ursula McBrearty as Chairman and Co-Hostesses Dottie Connolly, Becky Grimm, Kathy Ferguson and Suzanne Knell. Fifty-five members including eleven past presidents had a wonderful time looking at memorabilia from years past and listening to a delightful talk by Jinny Noyes about earlier presidents.

The most exciting part of the day was having Kay McGibbon at the brunch. She

founded the Country Home and Garden Club in 1950 and was its first president.

A beautiful Anniversary cake, decorated with a miniature sprinkling can, was served. Each member, upon leaving, received a lovely blue and white replica of the sprinkling can in imported cloisonné to commemorate the day.

This club celebrates its 50th year with a continued commitment to stimulate the knowledge and love of gardening; to aid in the protection of native trees, plants and birds; and to beautify roadsides, fields and gardens.

Seated left to right are: Cindy Martin, Faith Rotau, Ellen Anderson and Patrice Bender.

## Pam Duthie to Speak at Garden Club Program

Pam Duthie, author and owner of The Gifted Gardener, will be the speaker for the Field and Flower Garden Club meeting on Wednesday, October 4, at 7:30 PM at the South Barrington Park District, 3 Tennis Club Lane, South Barrington.

Pam Duthie is the author of the popular new book *Continuous Bloom*. She also owns The Gifted Gardener, a landscaping design and consulting firm specializing in perennial gardens. She has been featured in major newspapers and interviewed on radio and TV. Currently, she is an instructor at the Chicago Botanic Garden and volunteers in CBG Herbaceous Test Gardens. Professionally, she is a founding member, past president and current newsletter editor of the Landscape Design Association. As an active member of the Perennial Plant Association for the past 12 years, she has stayed current with new, improved perennials other active gardeners are growing throughout the United States, Canada, England, Wales, Scotland, Spain, France and Italy. For the last four years, she has planned and led tours of the countryside and gardens of England

and castle gardens of Scotland.

First and foremost, she is an avid gardener who loves working in her own garden and finding plants that grow in our sometimes difficult soils and climate. Practical and organic methods are used in her gardens and in the ones she has designed. She teaches others to learn from what they have seen and then to adapt it to their own gardens. Come listen and learn from a fabulous professional, Pam Duthie. She will also be willing to sign any of her books that are "hot off the press!"

The lecture/slide program is called "Designing for Continuous Bloom". Continuous bloom is achieved by starting with a core group of perennials central to your design, adding other complementary plants and then utilizing Pam's insider tips on how to care for and prolong the bloomtime of all the perennials in your garden. Gardeners will be able to extend their season of interest from early spring, well into fall and even winter. It's a month-by-month guide to nonstop color in the garden.

This program is open to the public.

### Jointly Held Property

by Sharon L. Keller, J.D., LL.M.

October is here. Halloween is around the corner. I guess summer is officially over. I hope you all had a cool and safe summer. This month, I am going to discuss joint tenancy as an ownership technique. Joint ownership is a convenient form of ownership; however, there are significant problems with this form of property ownership.

Joint ownership implies a partnership, a marriage of title. Initially, it appears as the right way to take title to property between people who care for each other. If two people own property jointly and one of them dies, the other continues to own the entire property. Jointly held property requires no will or trust. It does not go through probate court on the death of the first joint tenant. It seems too good to be true—no will or trust and no probate!

However, there are serious problems with joint ownership. Jointly held property may pass to the wrong people. On death, a joint owner cannot control the way the property passes nor the time of its passage. Which joint tenant will die first is unknown. Consider the following example:

A widow with two adult children marries a widower with one adult child. They combine their assets and title them jointly. The widow dies first. The widower receives everything and the widow's children nothing.

What happens if joint owners die simultaneously? Most states have adopted the Uniform Simultaneous Death Act. Under this law, joint property is distributed in proportion to the number of joint tenants. However, if one tenant outlives the other by one second, then the property goes to the heirs of the one who survived by one second. Property may pass to unintended heirs.

Jointly held property is beneficial to creditors of the owners. The misdeeds of one may cause the entire property to be seized by creditors.

Federal gift tax laws must be considered when owning property jointly with others. When you own property with your spouse, there is no federal gift tax. There is an unlimited lifetime marital deduction on gifts between U.S. citizen spouses. Therefore, spouses who are citizens of the U.S. can acquire property jointly without incurring a federal gift tax.

However, this is not the case if one person owns property and adds another person, other than the spouse, to the title. If the individual added to the title has not paid for their beneficial interest, then a gift has been made. The following is a common example of this type of gift: Mom owns a house and decides to put her son's name on the deed as a joint tenant. Mom has made a potentially taxable gift of one-half the value of the home to her son.

Putting another person's name on a bank account is usually not a gift. However, if the other person takes money out of the account, a gift immediately occurs.

Great care must be used in creating joint ownership with individuals that are not your spouse. Jointly owned property always belongs to the surviving owners. In addition, your estate might have to pay tax on the value of your interest in the property even though the property is going to a non-family member. Remember that cottage owned jointly with your friend? He may get the cottage if you die first, and your estate may pay the federal estate tax on half its value.

Another problem with property held jointly with a spouse concerns the step-up in basis rules. Property in the estate of a decedent gets a new basis for federal income tax purposes. The new basis of the property is the fair market value of the property on the date of the decedent's death. Joint property does not get a 100% step-up in basis for income tax purposes, but rather only a 50% step-up because only 50% is included in the estate of the first spouse to die.

Joint ownership is a potential planning pitfall and should be entered into cautiously, if at all. *Have a wonderful October and Happy Halloween.*

## Wellness Place Programs Begin; Staff Builds as Organization Grows

After nearly two years of organizational establishment endeavors, Wellness Place, a cancer support center, began its long-awaited programming last month. Those living with cancer in the northwest suburban area, their families and friends, can now avail themselves of ongoing educational and support services designed to enhance life for those affected by a cancer diagnosis.

Lara Krawchuk, MSW, LCSW, associate director of program services for Wellness Place, began the lecture series segment of planned services on September 26. Her topic, "Address the Stress," included the effects of stress on the body and mind as

well as some effective methods for combating this issue.

She earned a master of social work from University of Pennsylvania and is currently working toward a masters in public health from University of Illinois at Chicago. She has considerable work experience in hospital, hospice and wellness settings.

## Severance Agreements— Protecting Your Future

by Joette S. Doran, J.D.

As you may know, a severance agreement is intended by an employer to provide a terminated employee with a specific sum of money and/or benefits in exchange for the release of the employee's legal rights against the company. Although employers are not required by law to offer severance, often employers will offer severance pay in situations of a lay off or down-sizing. Under those circumstances, severance is usually defined by a company policy which sets forth the calculation of pay based on the employee's length of service and position with the company. Another reason for the offer of severance is to resolve an employee dispute related to the termination. In some situations, the employers may not offer a severance package, however, depending on the particular situation which led to the termination of an agreement. A severance agreement is beneficial to an employer where it desires to avoid future litigation.

A properly drafted severance agreement is enforceable and therefore should be carefully considered by both the employer and the employee. Before you sign a severance agreement, it is extremely important to know your legal rights and to understand exactly which rights the company wants you to relinquish by agreeing to terms proposed by the company.

Sometimes terminated individuals are fearful and agree to sign away their legal rights in exchange for inadequate compensation or terms which may restrict future employment. For instance, carefully consider a severance agreement if it includes a "non-compete" agreement or "restrictive covenant" provision. If such provisions are properly drafted, they are enforceable and will legally effect your ability to accept future employment. As such, it is recommended that you consult with an attorney to determine whether the severance pay offered is adequate when compared against any restrictions the agreement may place upon you and the legal rights which you release in favor of the company.

For example, if a terminated employee is over the age of 40, the agreement must be properly drafted in order to legally release an employee's right to pursue a case

of age discrimination. In particular, the company must advise the employee in the agreement of certain rights in order for the agreement to be binding. Specifically, under the Older Workers' Benefit Protection Act (OWBPA), employers are required to give an employee the right to review the agreement for 21 days before it has to be signed and give the employee the right to revoke the agreement within 7 days after acceptance. Additionally, the agreement should advise the employee to consult with an attorney before signing the release agreement.

As such, the best approach to determining whether a severance agreement fairly compensates you is to review the facts of your termination with legal counsel. If you do so, you will go a long way to insure that you receive adequate and reasonable severance in consideration of releasing your legal rights. Additionally, in order to avoid future claims, an employer should use a well-drafted severance agreement tailored to the particular facts of the termination.

Next month, when I will continue to discuss the importance of employment laws to employers and employees. Until then, best wishes for a wonderful fall.

*This article is not intended as legal advice. You should consult with an attorney for individual advice regarding your own situation.*

## William Merritt Chase:

### MODERN AMERICAN LANDSCAPES

*In the Park—A By-Path, c. 1890, by William Merritt Chase, American. Oil on Canvas, 14" x 19.375", Carmen Thyssen-Bornemisza Collection, Cat. Plate 46.*

An exhibition of the extraordinary landscape paintings of one of America's most celebrated Impressionist artists can be seen at The Art Institute of Chicago now through November 26, 2000. *William Merritt Chase: Modern American Landscapes* brings together more than 30 major paintings that span a brief but formative period (1886-1893) in Chase's career and represent the artist's first serious foray into an intense exploration of the Ameri-

can urban landscape. Painted mainly in the New York City boroughs of Manhattan and Brooklyn, these airy, light-filled canvases also helped establish Chase's reputation as the foremost Impressionist in the United States as well as the "inventor" of the American park subject.

William Merritt Chase (1849-1916) was one of the first American painters to document turn-of-the-century urban life in the public spaces devoted to leisure activities. Chase was, in fact, one of the most prominent artists in the United States around the turn of the century. Celebrated for his expertise in a variety of styles and media, Chase applied his considerable technical talents to an equally wide range of genres—portraits, still lifes and landscapes. In 1886, he began to depict views of the public parks and harbors of Brooklyn and Manhattan, utilizing methods clearly inspired by French Impressionism, only to abandon these urban subjects in the early 1890s as abruptly as he had adopted them. *William Merritt Chase* brings these paintings and pastels together as a group for the first time.

*Afternoon in the Park, c. 1887, by William Merritt Chase, American. Pastel on Paper, 18.75" x 14.75", Shein Collection, Cat. Plate 48.*

## Free Workshop Helps Parents Win War Over Homework

School is back in session and that means homework. And most parents would agree that homework can turn your home into a war zone. In "Homework: A Parent's Survival Guide," a community service workshop presented by **Huntington Learning Center**, parents learn key strategies for conquering daily homework battles.

The president and cofounder of **Huntington Learning Center**, Dr. Raymond J. Huntington, offers this critical workshop through local PTAs because he believes, "A parent's motivation, interest and support are crucial for a child to do well in school. And, while doing homework teaches a child responsibility, parents need to reinforce the importance of taking this responsibility."

Dr. Huntington adds, "Homework also allows parents to have day-to-day contact with their child's education," a cornerstone of the **Huntington Learning Center's** philosophy. The workshop begins by identifying seven common homework problems that children have. Parents are asked:

1. Does your child put forth minimal effort?
2. Does your child refuse to do homework assignments?
3. Does your child fail to bring assignments home?
4. Does your child take all night to finish homework?

5. Does your child require constant assistance from you?

6. Does your child wait until the last minute to finish assignments?

7. Does your child put off homework if you are not home?

In the workshop, parents are given guidelines to deal with these problems and help their children learn to do homework on their own. As Dr. Huntington points out, "Parents can have a tremendous influence on a child's self-confidence and can show encouragement by praising their child's efforts." According to him, "The three C's—care, concern and communicating—are the best way to enforce good study habits."

Throughout the workshop, a Huntington educational professional stresses that by teaching children basic organizational skills and good homework habits, parents can give their children the tools necessary to make wise choices about schoolwork.

It is important to point out, however, that if a child is struggling in school, the problem may be bigger than just poor study habits. Some children lack the reading, writing or math skills required to comprehend new information and complete harder homework assignments.

To discuss a specific skill problem or to schedule a free "Homework: A Parent's Survival Guide" workshop at your local school, contact the **Huntington Learning Center** in Barrington at 847-382-3655.

## BAAC Announces Arts Weeks

The Barrington Area Arts Council (BAAC) is thrilled to announce Arts Weeks, October 1 through 31, to encourage the celebration of the arts in the Barrington area. Sponsored by Advocate Good Shepherd Hospital, The Barrington Arts Weeks coincides with the Illinois Arts Weeks and The National Arts & Humanities Month.

To launch the local celebration, BAAC

is pleased to offer \$100 grants for arts programming to Barrington area schools and selected nonprofit organizations to present arts programs of their choice. Take time in October to recognize the importance of the arts and humanities at the local level and the contributions they make to each community and the lives of those in it.

Chase was born in Williamsburg, Indiana, and studied art in Indianapolis before moving to New York and thence to Munich, where he trained at the Königlische Academy for six years. Although he returned to New York to teach at the Art Students League in 1878, Chase continued to travel in Europe, particularly to Paris, into the 1880s, studying and absorbing much of what he saw. Reflecting his rigorous European training, his early pictures were characterized by a brushwork and tonal palette that evoke the Old Master painting tradition, effectively obscuring the American subjects he portrayed.

By 1885, Chase's art had come under attack from American critics who asserted that it indeed aligned itself too closely with foreign styles while avoiding truly native subject matter. Taking these criticisms seriously, Chase immediately began to alter both the form and content of his work. After resettling in Brooklyn, he began a series of works that depicted the city's newly created parks. Echoing his French counterparts, he produced gorgeous views of everyday life—the Brook-

lyn Navy Yard and Tompkins, Prospect and Central parks for example—as well as scenes of his parents' backyard. These paintings and pastels were also the products of his personal link with Brooklyn. Like another American Impressionist, Mary Cassatt, who painted her Parisian home life during the 1880s, Chase's new subject matter focused on the environments that defined his own daily routines—what might be called "domestic exteriors."

While "Americanizing" his subjects, Chase turned to the French avant-garde for inspiration in his approach to *plein-air* (outdoor) painting. His landscapes clearly reflect the loose brushwork and compositional treatments of space and light found in the canvases of Camille Pissarro, Claude Monet and Gustave Caillebotte. Chase was a perfect candidate for the high Impressionist style. His keen powers of perception produced paintings and pastels drenched in intense, primary colors that create light-filled atmospheres and utilize oblique angles to accentuate the architectural drama of urban scenes.

## MAKE EVERY NIGHT A BEAUTIFUL EVENT WITH CFC NITE LITES

- Show off the beauty of your home yard, or garden after dark.
- Extend the pleasure of your deck, patio and grounds.
- See your way safely by lighting walkways, pathways, steps, and driveways.

847-658-5469 LANDSCAPE LIGHTING SPECIALISTS

## Security and Beauty with Outdoor Lighting

A home's landscaping is, if done well, its crowning glory. Tastefully executed landscaping can make even the plainest house look appealing, just as poor landscaping can ruin the appearance of a mansion. Consequently, every year Americans spend millions of dollars installing, enhancing and maintaining both residential and commercial landscapes. The shame of it, though, is that every night when the sun dips below the horizon all of that expensive landscaping is virtually invisible for 10 or 12 hours.

Rudy Kruse, president of **CFC Nite Lites**, has set out to change that by installing landscape lighting which accents elements to which your eye is naturally drawn during the day—flowering trees,

artwork, building features and so forth, using a wide variety of techniques including uplighting, crosslighting, moonlighting and pathlighting.

"There are three main purposes for outdoor and landscape lighting," Kruse explains. "The lights offer added home security. They also offer safety around steps and other potential hazards. And, of course, there are the aesthetic considerations. In fact lighting actually makes a yard appear larger than it is and there is also the opportunity to light up special characteristics of the house itself like special brickwork, cornices and fireplaces."

## "East Meets West: Traditional and Contemporary Fiberarts"

*Untitled* by Linelle Dickinson, 2000. Hand-woven, warp: cotton, weft: indigo-dyed pattern tissue paper; lining, hand-stitched indigo-dyed pattern tissue paper. 32"H x 60"W x 3"D.

The Barrington Community Associates of the Art Institute of Chicago begins its popular Members Present Art Series on Thursday, October 19, 1 PM, at the Barrington Area Library.

"East Meets West: Traditional and Contemporary Fiberarts" will be presented by Linelle Dickinson. A recent graduate of The School of the Art Institute, she began her career as an interior designer and is now a fiberartist specializing in Shifu, an ancient Japanese art technique, where she turns tissue paper into paper yarn. She makes wall relief and sculptured art out

of patterned tissue paper.

Ikat, Shibori, Shifu, Saki-Ori and Sashiko are exotic words with a rich and respected past. Through an illustrated lecture, Linelle Dickinson will present a journey into the past to discover these ancient art forms and how they have influenced today's fiber artists.

For more information on this program or the rest of the Members Present Art Series, contact Evelyn Richer, 847-381-5349. Guests are welcome; there is no charge for this lecture.

## Golf Outing Raises Funds for Hospice

Shown donating the check to Hospice are (left to right)  
Director of Development for Hospice Foundation John Small  
and family members Rose Marie, Lil and Bud Michels.

Hospice of Northeastern Illinois was the recipient of \$6,000 in proceeds raised by the First "H" Michels Memorial Golf Outing held in July. Named in honor of Harold ("H") Michels, a longtime golf supervisor for McHenry area golf clubs, the event was held at Chapel Hills Country Club, McHenry.

Rose Marie Michels, widow of Harold, said that she decided to donate the funds to Hospice of Northeastern Illinois because the organization was a lifesaver for her family several years ago. "Even though my husband died suddenly without using

Hospice, I know personally what a difference hospice care makes for everyone in the family. My mother, Gertrude Schmitt of Johnsburg, was a Hospice patient and they were so helpful to her."

"It was a wonderful outing," said Mrs. Michels. "Over 125 golfers participated in the event and there were so many sponsors that it is difficult to name them all. My husband was an avid golfer and to have so many people participate in a golfing event in his honor is just wonderful. I hope that we can do it again in future years."

## Fact Sheet May Help McHenry County Residents Save Trees from Gypsy Moth

The Illinois Department of Agriculture (IDA) announced last week that McHenry County may have a serious enough gypsy moth problem to warrant a quarantine of the county. While a quarantine decision isn't likely to be made until next spring, McHenry County residents can protect their trees from the gypsy moth by learning how to identify and eradicate the pest.

University of Illinois Extension is assisting IDA with public education about gypsy moth control methods. A fact sheet on the subject is available through Extension, and Master Gardeners at Extension's McHenry County office will answer questions over the phone.

Earlier this summer, gypsy moths in Lake County had risen to such a high level that the county is now under a quarantine that restricts movement of nursery stock, firewood, household belongings and other materials out of the area. The rise in gypsy moth populations in Northeastern Illinois is widely attributed to a migration of caterpillars from infested areas of Michigan and Wisconsin.

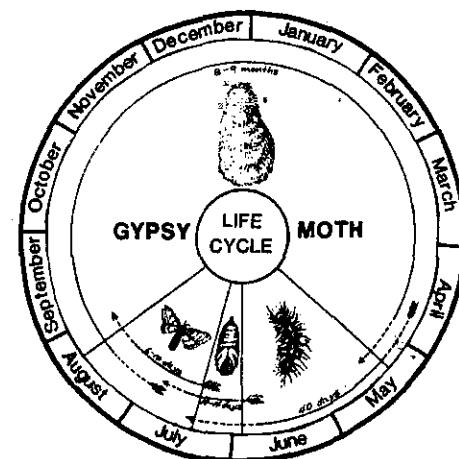

Tree species that are highly susceptible to gypsy moth attacks include oak, crabapple, linden, poplar, beech, willow, birch, sweetgum, serviceberry and hawthorn. Other trees that may be infested include pine, spruce, ash, sycamore, indian bean, honeylocust, dogwood, juniper, yew, lilac, arborvitae, arrowwood viburnum and tulip tree.

At this time of year, gypsy moths have laid their egg masses, and most of the adult moths are dead. The egg masses are about one inch long by one-half inch wide and resemble buff-to-tan-colored felt patches. Females lay egg masses on tree bark and other exposed surfaces as

well as in hidden locations, including under loose bark, beneath house siding, within hollow areas of swing sets and in car wheel wells. Egg masses should be scraped off and dropped into rubbing alcohol or soapy water. Dispose of them in the trash.

In the spring, when the eggs hatch, spray applications are recommended and most effective at the time when leaves on oak trees are expanded about halfway. In Northeastern Illinois, this is usually in mid-May. An insecticide that is effective against the moth larvae is *Bacillus thuringiensis kurstaki*, which is commonly sold as Dipel, Thuricide and other trade names.

A fact sheet describing the gypsy moth and control methods is available on the University of Illinois Extension urban website at [www.urbanext.uiuc.edu/gypsymoth](http://www.urbanext.uiuc.edu/gypsymoth). McHenry County residents may also contact Extension's McHenry County office to receive a copy of the fact sheet or talk to a Master Gardener over the phone. Call 815-338-3737.

St. Joseph's Home for the Elderly, operated by the Little Sisters of the Poor, will soon be the site for their annual gala Craft Fair.

## It's Fall... Still Need Landscaping?

Summer vacations are ending, school is starting and with the cooler weather approaching, the fall season provides an ideal time to finally complete that landscape project you were planning.

"Fall landscape construction creates many benefits to the homeowner," states John C. Cazzetta, Landscape Architect and owner of **BonnerCodd Associates** in Barrington. "Our fall installation schedules are manageable compared to the craze of our spring and summer projects. In addition, our growers will be digging fresh stock in the next several weeks, which will therefore allow the homeowner the best conditions to design and install even the most comprehensive landscape project prior to the arrival of cold weather."

"The best part," Cazzetta adds, "is that the homeowner can then appreciate a full bloom next spring while also using their new patio or walkway rather than starting a project in May when the majority of the bloom has dissipated. Finally, plantings that are installed in the fall "heal in" over

the winter, which means added growth and beauty next spring."

If you still have thoughts about recreating your landscaping, please call John C. Cazzetta, Landscape Architect at **BonnerCodd Associates, Inc.** at 847-382-4838. They are able to create award-winning designs as a full service design/build firm with the expertise of staff licensed Landscape Architects and experienced installation crews. Call to schedule a no-cost consultation now to allow the proper time to creatively design and install your fall project.

## Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Residential films are now backed by a manufacturer's lifetime warranty. Solar Gard, Sun Gard and 3M films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, pictures, etc.

Solar Gard, Sun Gard and 3M also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning less money going to our favorite people (electric co.) and remaining in your pocket.

Window film also increases safety with

pressure sensitive adhesive. The adhesive bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, or burglar, making glass shatter resistant.

**Glare-Not Inc.** has provided savings and security for 10 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard, Sun Gard and 3M films are backed by a manufacturer's lifetime residential warranty. Many locations are tinted by **Glare Not**, including: Brach's Candies in Chicago, Avon Corp. in Morton Grove, two Ace Hardware corporate offices, four Armcore banks, First National Bank of Chicago, plus 1,000's of homes. References are available upon request.

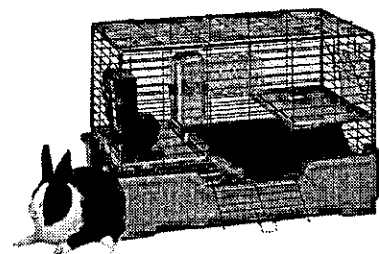

We look forward to saving you money!!!

## Stone Countertops and Floors Now at McCauley Design

This Barrington Hills kitchen is the most recent McCauley Design project to win an award for design excellence.

Beginning September 1, Barrington will have a new source for stone countertops, floors, and ceramic tile, when Euro Marble and Granite takes its place in the studio of **McCauley Design**. Euro Marble has a great track record in Barrington for careful attention to detail, helpful service, courtesy to customers, and high quality results. Euro has been **McCauley Design's** full time marble and granite specialist since 1997.

For years **McCauley Design** has speci-

fied stone counters for virtually all of its projects. Granite is a special favorite because of its special adaptability to kitchens. Virtually impervious to stains and scratches, granite will keep its looks for the life of the kitchen. Granite's natural beauty is unsurpassed, as each slab features a unique grain pattern that adds

life and drama to kitchen counters and backsplashes. Granite also makes a wonderfully functional surface for rolling dough, which makes granite counters popular with accomplished bakers.

Other types of stone are also popular, and will be featured in the new showroom. Come in and see samples of marble, limestone, kirkstone, and other man-made aggregates, as well as exotic quartz and semiprecious stone tiles. Euro Marble will have large stone samples on hand so

that homeowners can get a true feeling for the appearance of the stone they select.

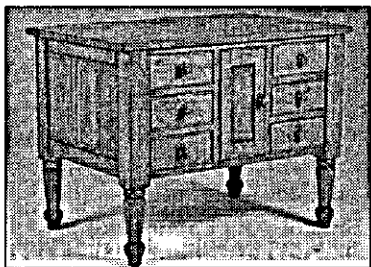

The new marble and granite showroom is not just for **McCauley Design** clients. Come in and take advantage of the experience and taste of **McCauley Design** personnel, as well as representatives of Euro Marble. This showroom promises to become Barrington's choice for stone counters and floors.

### Add an Island

Not everyone is ready for a major kitchen remodel, or even for new counters. To help those people who simply want a new look in the kitchen—or perhaps a bit more work space—**McCauley Design** is now providing traditionally-styled kitchen islands.

Made in South Carolina, these islands can be in your home three times faster than custom cabinets. You can choose among maple, cherry or pine finishes. You can even match a finish to your existing cabinets. Reclaimed heart pine is also available, as are butcher-block tops. The islands provide lots of storage, too. So come to our studio in downtown Barrington and see them for yourself

**McCauley Design** is located at 211 Park Avenue in Barrington, near the train station. Call 381-2742.

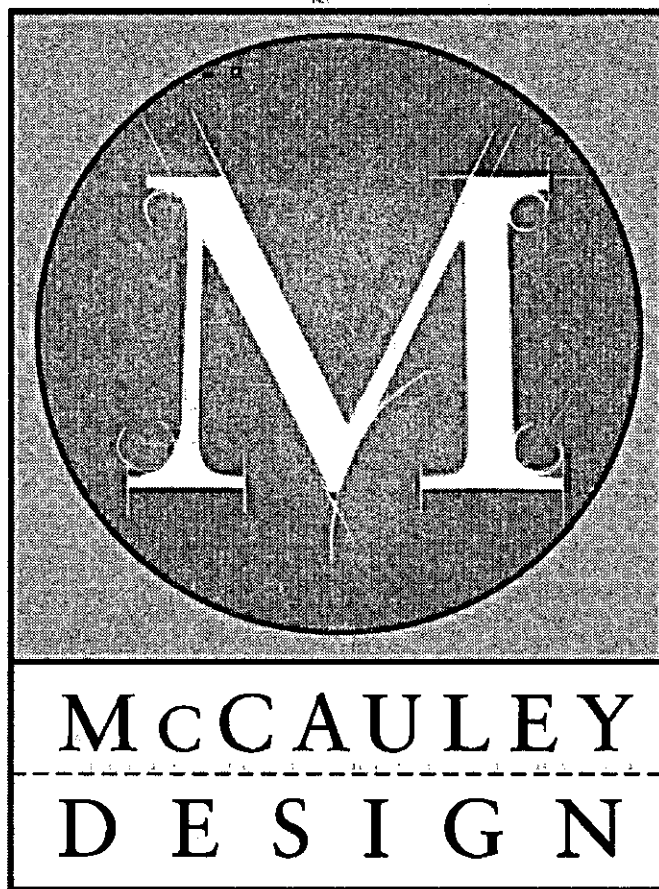

McCauley Design now provides freestanding islands like the one pictured above.

## Guess Who Markets the Most Homes Over \$500,000

Our world is full of claims. Some are so involved they can hardly be understood—especially by the lay person with other things on his mind besides real estate.

So we would like to state a simple fact: the company that lists the most Chicagoland homes over \$500,000 is Coldwell Banker Residential Brokerage. Given that the owners of these homes (ranging in price to over \$5,000,000) are intelligent, thoughtful, and in a position to choose whomever they consider most able, we do indeed feel honored.

And, modesty aside, deserving. Because nobody works harder or smarter marketing than we do, whatever the price point. That is a simple fact we'd be delighted to prove to you.

## Holiday Lighting!

For centuries, people have been awed by the aesthetic qualities of the lights of the world, both natural and artificial. The same fascination is true of the holiday season. From the guiding light of the Christmas story to the decorative lights that represent a business or family's festive spirit, lights are part of the holiday tradition. For many of us, it would be difficult to imagine any Christmas celebration without light.

Fortunately, **Phase II Landscaping** is prepared to help you add this treasured custom to your festivities. **Holiday Lighting** is our exterior lighting and decorating service that is sure to make your holiday skies shine. We install lights in a variety of ways: rooflines, outlining windows, ground lighting and trees and shrubs. We also use garlands, bows and specialty

decorations such as our Tree of Lights to help make your home or business shimmer brilliantly during one of the most beautiful times of the year.

We will complete the installation before the middle of December, take the decorations down and put them in a storage box for you in January, and then install them for you again next fall! You won't need to worry about lights that won't work on a cold, winter night when you would much rather be inside by the fire. We know that this service will relieve your holiday schedule and allow you to enjoy a quality, festive look for the holidays. Contact us to schedule an appointment so that we might help you customize the best decorative look for your home or business this year. *Happy Holidays!*

## Tips from the Top

**COLDWELL  
BANKER**

RESIDENTIAL BROKERAGE

"Thank you, I appreciate all you've done."

These words are golden to the ears and eyes of a Realtor. Just this week, notes containing these thoughts came to our Coldwell Banker Office addressed to our Realtors, which means "we" are delivering the service buyers and sellers desire.

I also like to see messages from customers that are thankful that one of our Realtors kept them on the path to achieving their dream—a home that they are proud to own. What better...

Since we are now in October, you might think that our real estate market would slow down. It has been the opposite. September was a very busy real estate market. In all probability, the activity in the market will continue until well after the election in November.

As of this writing, interest rates are stable with many homebuyers eager to buy to take advantage of this affordable financing. Both conventional fixed rate (30 year under 8% with 0 points) and adjustable mortgages (5 year hovering around 7.5% with 0 points) as well as government and jumbo loans available at attractive interest rates make this month a great time to jump into the market.

If you are thinking of moving to a larger home (we call these people 'Up-graders') or you plan to make a transition to a different lifestyle and become a seller,

be sure to price your home realistically based on the opinion of its value prepared by your Realtor who is knowledgeable of the marketplace. Realistic pricing will help sell your home faster without the hassle of keeping it picture perfect for months, making it a good, positive experience. Also, with your home sold, you can act decisively when you find that "perfect" home.

To maximize the opportunities offered by this fast-paced market, **Coldwell Banker** is aggressively promoting homes in our inventory. We are the #1 company in Chicagoland marketing homes over \$500,000. We have the marketing tools necessary to secure buyers for the \$500,000 market.

Additionally, **Coldwell Banker** is attracting buyers in all price ranges due to the depth and scope of the variety of advertising vehicles used on a national as well as local level. For instance, we have Internet advertising both national and local with each property having its own Web ID #; national advertising on FOX, CNN, Dateline NBC to name a few; plus the regional and local newspapers in addition to the media listed above. **Coldwell Banker** also puts out the *Buyer's Guide* and the *Previous Magazine* which serve to showcase homes throughout the

## Local Architects Specialize in Remodeling

Are you confused about how to get more space from your present home? Are you wondering how much this will cost?

"When a client calls us to look at remodeling their home, they generally have two questions. How can we get more space, and how much will it cost?" says John C. Cazzetta, President of **Kemper Cazzetta, Ltd.**, an architectural firm in Barrington that specializes in residential design. "We can uniquely answer those questions because of our combined experience in design and construction."

Mr. Cazzetta also owns "BonnerCodd Associates," a construction management firm. "Because we construction manage approximately 40% of our design work, we are familiar with the cost drivers of remodeling. Therefore, we are able to estimate the cost of a project before we begin designing." The firm also prides itself in "context architecture." "We strive to

complement the existing structure as we incorporate the new space. The finished project should feel as if the new work was part of the original design."

If you are thinking of revising your home, please call principals Cheryl Ferguson and John C. Cazzetta at **Kemper Cazzetta, Ltd.** for a free consultation at 847-382-8322. They will be happy to talk to you about developing the full potential of your home.

## From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

The Good Shepherd Hospital Gala is coming up on October 21 at the Wyndham Hotel in Itasca. Karen Darch and I are co-chairing the gala this year.

I basically consider myself semi-retired from work, which I feel gives the best of both worlds. I still enjoy being part of the dealership and being involved with the financials, but I love having lots of time for my granddaughter and my golf game. It also gives Tim and me the flexibility we want to do some traveling.

One of the other benefits is having the time to be involved with some local charities. I've worked on Good Shepherd Hospital Gala for four years now, and I have this wonderful committee of caring, fun, involved women. We've enjoyed each other immensely and represent a varied age group. We enjoy planning and attending the ball.

*Hope to see you there!*

## St. John Toasts Bosom Buddies

Deborah Crowe (left) sips champagne with Susan Schad, Bosom Buddies' Women's Board member, and her husband, Larry, of Kenilworth, and Kay Alport, president of Bosom Buddies.

Guests recently enjoyed a glamorous evening at the St. John Boutique on Oak Street that benefited Bosom Buddies and their new video *He Says It Doesn't Matter*, a discussion for men whose partners have breast cancer. Special guests of honor were Marie Gray, chief designer and co-founder of St. John, and Bob Gray, CEO. Delicious hors d'oeuvres and champagne were served while beautiful new fall designs were modeled.

Bosom Buddies, dedicated to alleviating the fear and anxiety caused by the diagnosis of breast cancer, is producing its second video. *He Says It Doesn't Matter... Breast Cancer from the Man's Point of View* will address the emotional effects of breast cancer on male family members and friends. The video will be created in the form of a documentary introduced by the noted actor Edward Asner, and will include the personal stories of husbands, partners and the women in their lives.

Intermixed with their stories will be interviews with psychiatrists and psychologists who will give insight into the questions, fears and emotions men are facing such as: how should I react; why am I so upset; how can I deal with this situation; what is the right thing to say?

Bosom Buddies' first video, *Woman to Woman, Breast Cancer and Reconstruction Options*, has won three national awards and one international award. In it, breast cancer survivors share information about choices for reconstruction after a mastectomy. Medical experts explain procedures and show slides of women before and after surgery. Medical information is combined with the real life experiences of women on the job and interacting with their families. This videotape offers a hope, showing that not only is there life after breast cancer, but you can continue to be dynamic and feminine.

## Hey Kids, Love a Good Mystery?

Join the mystery and mayhem on October 9 (no school) when Barrington Area Arts Council's Children's Theatre at the Gallery presents "The Mystery Shop". Children love a good mystery. "The Mystery Shop" provides interactive, participatory mysteries that gets the children involved and thinking and it's a whole lot of fun too. The actors present a short play that outlines "the case". (Note that there are no murders in the children's mystery programs—only good, clean, baffling fun!)

In the two-hour program, geared for Grades 3rd through 6th, the actors invite the audience to work in teams to solve

the mystery. The children will decipher riddles, puzzles and coded messages. Younger detectives (Grades K through 2nd) will have fun solving mysteries in our one-hour program, with age-appropriate puzzles and lots of interaction with the actors and with each other!

Performances are at 10:00 to 11:00 AM for grades K through 2nd and 11:30 AM to 1:30 PM for grades 3rd through 6th at the BAAC Gallery, 207 Park Avenue, Barrington. Tickets are \$6 for BAAC Members or \$8 for nonmembers. For tickets or for more information, call the BAAC at 847-382-5626.
