Helsinki.

So far so good -
been here about two weeks.

Things are still quite normal
around Helsinki. Lots of
air raid alarms but for
some reason the Russians
haven't dropped any bombs on
the city here for some
time. — Not so with the
rest of the country.

Food, liquor etc. is
still available however prices
are rising some and variety
falling. How about you all
getting busy back there and
send these people some help?
If anyone ever deserved it they
do. — My hat is the pride of
Finland. Bob.
