

VILLAGE OF NORTH BARRINGTON

April 29, 1967

A letter to the Editor:

Now that the tornado has passed, destruction has been appraised, and rebuilding has begun, we take cognizance of the events and happenings following the storm.

Our thoughts go first to the host of friends who offered their services and who performed many of the needed tasks that befell our municipality. The efforts of all who shared in that responsibility are deeply appreciated.

We especially want to thank the Police Officers of the State, County, Barrington, Wauconda, Lindenhurst, Fox Valley, Sleepy Hollow, and many others - police departments and associations - who came to the immediate aid of our own police officers in establishing impenetrable security. Many citizens of our Village supplemented the initial and continued security and to them our grateful thanks.

We have already received many oral and written commendations of the exceedingly fine police work from the citizens of our Village - particularly from those residents who suffered losses. The success of this security performance is in no small measure due to the exceptionally efficient and effective leadership of Lt. Paul J. Barta and Sgt. William F. Meyers. We are genuinely proud of Paul and Bill and all of the Village Police Officers.

It is also worthy of mention at this time our sincere thanks to the Boy Scouts and others who effectively and generously assisted in making roads passable quickly for utilities to reinstate damaged services. The Power and Telephone Companies too did a fine job, working around the clock to minimize the period of inoperative service.

Our heartfelt thanks to all of those who helped us and to those whose offers we were unable to accept.

Sincerely,

C. R. ANDERSON
Village President
