Some of the smart "jays who wrote up the fire here for the daily papers need a cromo. Their nonsencical trash about the "volunteer" fire department and mar-shall with "coon skin cap", is rot giving the brave firemen, who risk their lives to save the property of others, a fair show, and it does not redound to the credit of the managing editor of any journal to allow such "stuff" to be printed in their columns The 'fresh reporter had better keep out of the reach of Marshal Bundt and 'Squire Geayer.

We, the undersigned Committee appointed by Fire Co. No. 3. of Irving Park, to audit the accounts and wind up the affairs of said Company of which Arthur G. Goodridge was then Treasurer, do hereby find the total amount of receipts to be \$12.00; total expenditures, \$78.95; leaving balance on hand of \$41.05, for which an itimized account was attached thereto with vouchers.

Digo.—On Sunday, March 15th, Mrs. Hannah North, aged 66 years and 3 months. Mrs. North was born in Buckinhamshire, England, but has been a resident of this country for many years. She was the mother of seven children, Leonard H., Seymour I., Arthur R. and Walter I., all residents of Chicago; Mrs. Fletcher and James T. North, residents of Peterborough, about three years. The funeral service was held on Wednesday last, and was conducted by Rev. Joseph Rowley. Her remains were then conveyed by carriage to Graceland for interment. Peterborough (Eng.) papers are requested to copy.

A FATAL ACCIDENT. On Sunday morning last, the startling news was received that Mr. Isaac R. Van Ness, an old resident of the Park, had been killed at Avondale, by the cars. A little later his remains were brought home by the police. It seems that Mr. Van Ness attended a political meeting Saturday evening at Avondale and was seen to get on board the 11:25 train for home, by others who attended the same meeting, but that

Mr. Van Ness leaves behind him, to mourn his loss, a wife and eight children, two daughters and six sons; all but one are still living at home. The funeral services were held at his late residence on Wednesday, and were conducted by his old friend, Elder Boring, of Evanston. A large num-ber of his associates, in the city departments, were present and acted as an escort to his remains. After the services he was taken by carriage to Rosehill for interment. The family have the heartfelt sympathy of the entire community, in this hour of their affliction.

FIRE AT THE PARK.

Sunday morning at ten minutes to eight clock, smoke was discovered issuing from the rooms over Gager's store. The alarm of fire was sounded and soon a large number of citizens were at work fighting the stubbon flames, and others carrying out the goods frem the store. The entire contents of the goods were out on the street when Fire Marshal Bundt, accompanied by Engine company No. 43, and hook and ladder truck, No. 13, from Maplewood arrived they were soon followed by the chemical from Jefferson. In a very short time they had several streams turned on the fire and soon had it under control, but not until the whole upper story, which was composed of wood, was burned down.

The building, owned by Miss Race, was a three story one, two being of wood and the other part of brick. The first floor was occupied by Mr. Gager as a grocery and post office. The second floor was used by the Methodists for church service, except two small rooms, one of which was the sleeping room of Mr. Dobson, and the other was occupied by Col. Sturbe. The fire originated from a small oil heating stove in the room of Mr. Dobson. When that gentleman discovered the fire, he tried to smother it with his bed clothes, but only succeeded in burning his hand and arm. Failing to stop the blaze, he grabbed what clothing he could and rushed out and gave the alarm. In his haste to get out, he missed taking his watch and pocket book. containing about \$50 in bills and some silver. As he went out of the building he called to Sturbes, but did not awaken him, and it was some moments before he aweke and found his room fall of smoke; however, The friends of Mr. Harry Camoun will he had plenty of time to get out before the be pained to learn that he has lost his wife fire seached that part of the building. Mr. R. W. Tracey, an old settler of this own and county, died on Tuesday, after a few day's illness with a complication of the grippe and an injury received several weeks ago. The funeral took place on Thursday, at Barrington, Ills.

On Saturday of last week, as Mr Linneman's milk team, in charge of his driver. was about to cross the track near the water tank, the engine of the south bound St. Paul train struck one of the horses, throwing it nearly into the depot and killing him instantly. The wagon was demol-ished and the driver narrowly escaped being injured. The view of the track to the west being obstructed by the tank and elevator, makes the crossing a very dangerous one, in view of which it seems that at would be well if the crossing would be well guardedd by some of the depot em-employes when fast trains are passing, as was formerly the case.

A MOB'S BLOODY WORK.

CHIEF HENNESSY'S MURDER FRIGHTFULLY AVENCED.

Lynchers Break Into the Parish Prison at New Orleans and Shoot Eleven Mafia Suspects.

After Being Shot the Victims Are Strung Up in the French Quarter of the City.

The Acquittal of the Accused Stirs Up the People of the Crescent

NEW ORLEANS, La., March 16 .- A mob broke into the jail where the Italian murdesers of Chief Hennessey were confined Saturday morning and hanged and shot the prisoners.

A crowd of several thousand men collected around the Clay statue, where addresses were made protesting against the verdict in the Hennessey case. They afterward made their way to the parish prison with the object of taking out and lynching the Italians charged with the assassination of the late chief of police and were acquitted. The gun stores in Charles and Royal streets were broken into and sacked by the mob.

The mob forced an entrance to the prison and shot Scaffedi, Macheka, Matranga, Politz, Bagnetto, Monnestero, and Marchesi. Scaffedi and Politz were afterward hung at the corner of St. Anne and liberty streets. Bagnetto was hung in Orleans street, near Liberty.

Sergeant Heveron of the police, dressed as a citizen, who was assisting the lynchers, received a stray shot in the neck. The nature of the wound is not yet

known. The mob first approached the front door of the prison, but found it held by the sheriff. The leaders made speeches saying that they did not want to hurt the officials. Then the rioters repaired to the back door, where the police offered only slight resistance and an entrance was ma 'e. The next thing heard was firing within. The mob was quiet and undems onstrative throughout. No masks were used.

After completing its work of vengeance on the Italians the mob marched to Canal street and disbanded. Another massmeeting will be held at Clay Circle to decide what shall be done with O Malley, the private detective who is accused of

bribing the jury.

The names of the victims are: ANTONIO SCAFFEDI, JOSEPH MACHECA. PIETRO MONASTERO, JAMES CARUSO. ROCCO GERACI. ANTONIO MARCHESI. CHARLES TRAHINA. LORETTO COMITEZ ANTONIO BAGNETTO. MANUEL POLITZ.

INSIDE THE JAIL.

Chased Into the Corners and Shot Down Like Dogs.

When the mob broke into the jail yard the Mafia prisoners darted towards the Orleans side of the gallery and crouched down beside the cel's their faces blanched. and being unarmed they were absolutely of surprise and di-satisfaction. The defenseless. In fear and trembling they screamed for mercy, but the avengers were merciless. Bang! bang! bang! rang out the reports of the murderous weapons and a deadly rain of bullets poured into the crouching tigures.

Gerachi. the closest man, was struck in the back of the head and his body pitched forward and lay immovable on the stone

pavement. Romero fell to his knees with his face in his hands, and in that position was shot to death.

Monastero and James Caruso fell together under the fire of half a doven guns. the leaden pellets entering their bodies and heads, and the blool gushing from the wounds.

The bloody executioners did their work well, and beneath the continuing fire Comitez and Trahina, two of the men who had not been tried, but who were charged jointly with the other accused, fell together. Their bodies were literally riddled with bullets, and they were stone dead almost before the fusillade was over. When the group of assassins was discovered on the gallery Macheca. Scaffedi, and old man Marchesi separated from the other six and ran up-stairs.

Thither half a dozen followed them, and as the terror-stricken assassins run into cells they were s ain. Jo Macheca, who was charged with being the arch-conspirator, was a short, fat man and was summarily dealt with. He had his back turned when a shot struck him immediately behind the ear, an i his death was instantaneous.

Scaffedi, one of the most villainous of the assassins, dropped like a log when a bullet hit him in the eye.

Old man Marchesi was the only one who was not killed outright. He was struck on the top of the head while he stood beside Macheca, and though he was mortally wounded he lingered all the atternoon. Politz, the crazy man, was locked up in

aim. fired and shot him through the body. He was not killed outright, and in order to satisfy the people on the outside, who were crazy to know what was going on within, he was dragged down the stairs and through the doorway by which the crowd had entered. Half carried, half dragged, he was car ied to the corner. A rope was procured and tied around his neck and the people pulled him up to the crossbars. Not satis led that he was dead. a score of men took aim and fired a volley of shots into his body, and for several hours the body was left dangling in the

Bagnetto was caught in the first rush up stairs, and the 1 rst volley of bullets pier ed his brain. From the limb of a tree his body was suspended, although life was already gone.

Just as soon as the bloody work was done Mr. Farkerson, a prominent citizen and leader of the mob addressed the crowd and asked them to disperse. This they consented to do with a ringing shout, but first they made a rush for Parkerson, and. lifting him bodily, supported him

Immense crowds rushed from all JUSTICE ms to the neighborhood of the tragedy, while the streets in front of the

newspaper offices were blocked with peo-ple anxious to see the latest bulletin.

There was intense but suppressed ex-citement, and from one end of the city to the other the action of the citizens was applauded. O'Malley, the detective who would have shared the fate of the assassins if he had been caught, has disappeared and is not expected to return, and numbers of the jury are in hiding.

HAVE A ROPE FOR O'MALLEY.

The New Orleans Mob Likely to Lynch the Alleged Jury Fixer.

NEW ORLEANS, March 16 .- Jacob M Seligman, foreman of the jury, has fled to Cincinnati. He was terror stricken when arrested to save his life from an infuriated assemblage of citizens. As no charge has been preferred against him he was released and guarded by several friends. He boarded the Queen and Crescent train and left the city. The six jurors who are known to have stood out for an acquittal of all the Italians do not dare to leave their homes, and the others are more or less ostracized by the community.

D. C. O'Malley, the private detective who fixed the jurors, is now being tracked. He has been in hiding since yesterday morning and his exact location is not known. The vigilance committee have pledged themselves to rid the town of O'Mall y and if he remains he will certainly be lynched.

The survivors of the original party of nineteen indicted for the assassination. eight in number, met in the Orleans cell, congratulated themselves over their escape, shook hands with the reporters, and talked about the scenes of Saturday. All of them claimed they were innocent of any connection with the Hennes-y assassination and believed they would have been spared even if they had been found by the crowd, which was the case with Pietzo, Sunzeri, and Natali. However, they were afraid to trust themselves to the fury of the mob which had gone beyond the intention of the leaders.

Charles Matrango, the wealthy stevedore and principal man among the survivors, says he hid under a mattress during the shooting, pressed a crucifix to his lips, kissed it three times, and asked God if he was innocent, to protect him from the lynchers. He attributes his escape, therefore, to Divine interposition, and cites that as the proof of his innocence.

CHIEF HENNESSY'S MURDER. The Events That Led to the Mob's

Bloody Work. The murder of Chief Hennessy occurred at 11:25 o'clock on the night of Cctober 15. The trial began February 16 in Sec. B of the Criminal court and ended Friday afternoon, the jury bringing in a verdict of not guilty as to six of the ac used, and failed to agree upon a verdict as to the other three. When the jury handed in their verdict Judge Baker looked at it for some minutes before he handed it over to Minute Clerk Scriven. There was apprehensive silence while these preliminaries were going on. The prisoners stood up and there was a look of infinite woe pictured on the faces of Macheka and some of the others. Matranga and lucardona were disinterested. They knew they had been saved, and their only interest in the matter was to see that their friends or partners escaped the fate

which had threatened them.

The court attaches apprehended a verdict against the accused, and so Sheriff Villere had bis men stationed immediately in the rear of the prisoners to nip in the bud any demonstrations. As the verdict was read each person in the court room turned to the person next to him and there was an audible expression deputies, however, immediately suppressed the noise, and Judge Baker ordered the jury discharged and the prisoners remanded, as there was still another charge against them in connection

with the same case. The indignation over the verdict was general. A call signed by 100 citizens was issued asking for men to come together prepared to do what justice had failed to do. The marderors mob was the result of this call. The feeling of the public was aggravated by the fact that all the Italian schooners and luggers in port are decorated with flags in honor of the

REBUKED BY MR. BLAINE.

The Head of the State Department Sends a Dispatch to Gov. Nicholls. Washington. March 16. - Secretary

Blaine last night sent the following tele-

gram to Gov. Nicholls at New Orleans: DEPARTMENT OF STATE, March 16 .- His Excellency Franc's T. Nichols, Governor of Louisiana. New Crleans: It has leen represented to the President by the Minisof Italy accredited to this Government. that among the victims of the deplorable massacre which took place in the city of New Orleans were three or four subjects of the King of Italy. or lerly administration. The President deeply regrets that the citizens of New Orleans should have so disparaged the purity and adequacy of their own judicial tribunals as to transfer a cell up stairs. The doors were flung to the passionate judgment of a mob a open, and one of the avengers, taking question that should have been adjudged question that should have been adjudged dispassionately and settled by rules of law. It is the hope of the President that you will cooperate with him in maintaining the obligations of the United States toward Italian subjects who may be within the perils of the present excitement, that further bloodshed and violence may be prevented and all offenders against the law may be promptly brought to justice. STRONG LANGUAGE FROM IN-DIGNANT ITALIANS.

One Declares That the Killing at New Orleans Will Result in War How It is Regarded at Washington.

A committee of twelve Italians passed through Pittsburg en route to Washington to see Secretary Blaine, President Harrison, and the Italian Minister; and to demand of them that steps be taken immediately in the New Orleans killings. Pasquel Corite, who was spokesman for the party, was much in earnest. He said: "If the Italians in other cities will a follow our example there will be raised in a few days a fund of \$500,000 to aid the work of securing justice or reverge. I believe the the killing in New Orleans will result in war. But if the Italian government does not force to a complete and satisfactory issue the reparation necessary I will say that an army of Italians will assemble in New Orleans which will fully and effectually avenge the murder of our countrymen."

"You believe in the Mafia and the vendetta?" "I believe in revenge. Italians are re-

vengeful when angered; we are terribly angry." "What will you demand of this Govern-

ment?" "That those concerned in the killing of the Italian priseners be brought to justice and that full and complete reparation be made to the families of the deceased."

"If such demands fail, what?" "We thall demand of the Italian Government that it compel it." "What would that amount to, even if

Italy should seek to compel acquiescence

to her demands! .. Why, sir, Italy has such a navy that if she chose she could station her vessels four mlles from land and ruin your coast cities. Italy has 180 or more vessels of war. You see what she could do."

WHAT WILL ITALY DO!

It Is Not Believed that the United

States Can Be Held Responsible. In official circles in Washington tle killing at New Orleans is deeply deplored, but so far as opinions expressed in diplomatic circles indicate the United States cannot in any way be held responsible for the killing. It is purely a political matter of State jurisdiction, and if any indemnity is demanded it cannot be from the State. The demand, of course, will come from the Italian government through its resident minister and transmitted to the Governor of Louisiana through the State department. That is the diplomatic route, but it will not in any way commit the United States to paying of an indemnity. In case of a riot in New Orleans there would be nothing for the Government to do unless the governor of the State should call for aid for suppressing that trouble or unless the property of the government in the city should be deemed in danger. There are two companies of artillery at Fort Jackson, Miss., which, it is thought, will be ite sufficient to quell any street riots that might arise in case the Italians should do any overt act that would bring on a general outbreak. Secretary Proctor is in New Orleans on his way to Texas on his Southern tour of inspection, and will possibly see Gov. Nicholls with regard to the action of the War Department in case of trouble.

The grave mistake of the citizens of New Orleans in not lynching the jury which acquitted the Sicilians is beginning to be appreciated. That would have been vindication of justice; and, as all the members of the jury were Americans, it would have been a purely local affair with which the State of Louisiana could properly have dealt without suggestion from any quarter. But by taking the subjects of a foreign government the New Orleans vigilantes dragge 1 in the United States. The importance of this in a diplomatic sense is said to be understood by Gov. Nicholls, and for that reason be wants time to reply to Secretary Blaine's dispatch. At least, this is the meaning put upon the brief telegram to the Secretary of State saying that he would make reply by letter. Meanwhile Baron Fava. in his capacity as Minister from Italy, is sending dispatches in reply to the impassionate appears which come to him from Italian societies in all parts of the country. He advises his excited countrymen to keep cool and await developments. It is understood that Mr. Blaine has asked the Minister to refrain from expression on the sub ect until after the Governor of Louisiana has been heard from and all the facts in the case are known, at the same time assuring him that this Government would act in the matter with a full appreciation of its duty toward a friendly nation.

> at Grand Rapids. Harry McDowell of Grand Rapids, Mich., was parloned from prison by Gov. Luce just before the latter's term expired last December. McDowell had served six of his fifteen years on a sentence following a conviction for manslaughter for the killing of the daughter of Dr. Sowdry of Howard City. Melbowell enticed the girl, a beautiful blonde, to this city under promise of marriage. The girl died in February, 1884, from effects of a criminal operation. This morning McDowell visited Howard City. He was recognized, and in a short time a large number of indig-nant citizens gathered in force and notified him to quit town at once. He refused, whereupon the crowd made a rush for him and dragged him in the direction of the river. A man procured a rope and de-clared he would hang him to the nearest tree. McDowell pleaded for mercy, and the cooler element of the riot held the turbulent ones in check until a train approached, when McDowell was allowed to scape.

HOW THE FLEET-WINGED BIRDS MAY BE KEPT.

A Clean, Dry and Spacious Loft— The Kind of Food Necessary and the Proper Care of the Young.

LTHOUGH homing pigeons are the most interesting and attractive of all birdsthatare possessed of strong domestic tendencies and attachments, so little is known concerning their

habits and requirements that the average householder hesitates about venturing to establish a loft of his own. The comparatively few who have done so find in their swift and and graceful flyers a never-failing source of delight. It is not necessary to be a professional fancier or a member of a homing club to successfully raise and train homing pigeons. Their study and care can and ought to rank among the most charming recreations of country or suburban life, while even in cities valuable flocks may be and are maintained.

W. N. Curtis, Jr., in a letter to the St. Paul Pioneer Press says: Fascinating, indeed, such birds become after a very slight acquaintance with them. The growth of their individual characteristics-almost as distinct and varied as is the human familytheir marked intelligence, their high and long circling sweeps as they grew old enough to test their wings; then their first "toss," a few miles from home, and the gradual lengthening of the tossing distance, until the day comes when the miles, multiplied by hundreds if you wish it so, seem never too many to keep the swift and strong and tireless flyers from making a di-

It is a pursuit which may be advantageously taken up by the young people of any family whose home is so ar-ranged that a loft will not be in the way. The loft is easily constructed. It may be built out of doors, or in a corner of a barn, or shed, or garret may be wired off for the purpose. Some of the most extensive lofts in the United States are built upon the flat roofs of city homes. A loft six feet square and six or seven feet high will comfortably accommodate a flock of forty birds and would not be too large for a beginner's few young birds. Nothing is worse for homing pigeons than overcrowding, and it is just as easy at the start to construct a spacious loft as to build one that will soon prove too small. Still more important is it to see that your loft is free from draughts and dampness. Attention to details of this kind at the beginning is the best kind of insurance against bird diseases in the flock you hope to own. With the loft dry and free from draughts, no artificial heat in winter is required. Indeed it should be a woided.

Lofts can be low-priced or expensive, according to taste. A simple enclosure could be made almost without expense by any clever boy or young man of mechanical skill. Shelves devided into compartments, should be placed along the walls for future nesting, and such compartment should have onehalf of its front enclosed, for homing

pigeons when nesting appreciate privacy. Perches, pegs and small plat-forms can be placed about the loft as the owner pleases. Some, of course,

are necessary.

With wholesome food, plenty of drinking and bathing water, and a clean, dry, spacious loft, the young birds will thrive, and daily open air exercise will strengthen their wings and give them confidence in their abilities. bright day, when they are about four months old, take them about two miles from home in a basket and give them their first "toss." You proba-bly could go five miles in safety, but it is just as well to be satisfied with two at the start. See that the birds are released in an open space—not necessarily elevated—and that no telegraph wires are directly above to check their upward flight. They will speedily

find the way to their loft and soon afterward a five-mile toss may be made and then a ten-mile toss and so on, until some day, perhaps, if you keep up the practice to that extent, one of your birds becomes a record breaker and can fly 500 miles between dawn and dusk. If long distance homes have no temptation for you the short distance homeward flights of your flock will afford yourself and your friends much pleasure. An ordinary crabbing net or a muslin net with a handle kept in the loft will be found useful when you desire to catch articular birds for a trip. Sometimes in a fog or in a storm you will lose a bird—generally a young bird. With generally a young bird. With hawks and gunners prowling about even old birds are not always safe.

The "Duffer" early became famous as a prize winner in races of from one hundred to five hund ed miles, easily defeating numerous; nd notable competitors. Nine first prizes in all it won for its owner, and it would probably be winning prizes still but for the fact that is has become too valuable as a came here to see about. We are getbreeder to risk it now "upon the road."

Messages to be carried by a homing pigeon are written on slips of thin paper and are attached to two of the tail feathers by fine strands of copper wire. If the paper is so fastened as to fit closely to the feathers it will not impede the progress of the bird. Many homing pigeons which have been lost on long trips, or perhaps captured, have found their way home after many months, or even years have passed. One bird released in Louisana was given up for lost by its owner, who had a lot near New York. Four years afterwards I flew into its loft, made directly for its old favorite rect and lightning-like course to the there coolly shoved it off. Even the tablished by the number on its leg band.

takes first a long drink, then eats a hearty meal, next combs down its feathers with its bill and then hors about with the other birds as though nothing remarkable had happened. On its liberation it first circles in wide sweeps, as though searching for a land mark, before starting homeward. If a bird has once become familiar with a land mark hundreds of miles from home it will head directly for that before searching for the next one. Great cities often puzzle it in its homeward flight, and it will sometimes circle over one for hours before proceeding on its cours

We Shan't be Alive Then. "I was once asked by a fady," says a well-known jeweler, "if there were many precious stones found in the United States. She meant minerals. She was of the same opinion of many others in this country, that everything precious in that line was found only in the old world. There is I believe, little mining here for precious gens, but it is not because we do not have them. Rock crystal, which admits of such a high polish, and which is much used in jewelry now, is found in large quantities in North Carolina, Virginia, Georgia and Arkansas. There is a jet in Colorado that is equal to any I ever saw, and I believe there is some in Texas. A youth at school in Scotland who lacked musical talent, and whose voice consequently jarred during the singing lesson, was always allowed a holiday on singing days. Told the Truth to Beat the Landlord,

A family man in Wilkesbarre desiring to rent a house which he knew would not be let to parties having children, took his wife and children to Hollenback cemetery, and told them to stay there until his return. He went to the owner of the house, and said he had been looking at his house and would like to rent it for a number of years. "Have you any children?" said the owner. "Yes," he replied, "I have five, but they are all in the cemetery." The lease was made out, and the happy father soon rejoined his wife and children to tell of their good fortune.—Philadelphia Times.

Harald Michaelsen has received the Republican nomination for Alderman of the 15th ward, and Geo. C. Lenke, of the 16th ward.

Henry Schaefer, the nominee for Alderman by the Republicans of the 14th Ward, is a gentleman of long business experience in the ward and city. He has for many years been engaged in the wholesale paper business, and thus has a great many acquaintances among the business men of the ward. Mr. Schaefer did not seek the nomination, but accepted it after solicitation of his friends, and if elected will serve all sections of the ward alike.

THE Democrats of the 27th ward must feel properly elated over their candidate for assessor. At the convention Wednesday evening, Johnson, the present assessor and nominee for re-election, offered a resolution that the salaries of Supervisor and Town Clerk be reduced. He probably forgot that there was such an office as Assessor, as his resolution made no mention of the salary for such office. As a sample of husiness principles. the above cannot be duplicated.

THE Republican convention held at Avondale Saturday evening, showed its good sense and also the fact that it had the interest of the Ward at heart, by nominating for Alderman the incumbent, Matt. J. Conway. To all who are acquainted with the inner workings of the City Council as pertains to the 27th Ward, it is unnecessary to eulogize Mr. Conway. Through his untiring efforts is the ward indebted for what improvements have been made, and when we consider that the council is Democratic. with a presiding officer antagonistic to all benefits except to his political pets, it is a matter of surprise that so much has been accomplished in the ward. We predict the return to the council of M. J. Conway, and also the election of the full Republican Town ticket.

THE nominations for town and city officers have now been made. Among them is Mr. D. W. Blair, of Irving Park, who has been nominated for the office of Assessor. We would like to say to the voters of the Town of Jefferson that we believe that it is their duty to not only cast their individual votes for Mr. Blair to that office, but they should turn out and work and see that he is elected. This office is one in which every taxpayer is interested, and they should see that an honest and capable man is elected to fill it, and we feel that in Mr. Blair we have just the man for the place. He is well known by hundreds in the town, and from none can we hear aught against him. If you want just wood, and is indeed a splendid piece of taxation, you must have an honest man to make the assessment, or valuation on your property. It is not every man, though he may have a pull in the party, that is qualified to hold a position of this kind. In the person of Mr. Blair we have a man who is educated and gentlemanly, and in every way qualified to perform the duties in an impartial and business like manner. Voters of the Town of Jefferson shall we have a practical politician or an honest business man for our next assessor? It lies with you. Look well to your interests, and make no mistake.

gretting her removal from our midst we mourn for one who was in every way, worthy our respect and regard. Resolved. That we sincerely condole with the family of the deceased on the dispensation with which it has pleased Devine Providence to afflect them, and commend them for consolation to him who orders all things for the best, whose chastisements are nearest in mercy. Resolved. That this heartfelt testimonial of our sympathy and sorrow be forwarded to the relatives of our departed friend. way qualified to perform the duties in

TOWN OF JEFFERSON NOM-INATIONS.

Daniel Calhoun, who heads the the Village ticket, as nominee for Suthe business and social life of the town and the village of Irving Park, where he has resided for many years. To one who is acquainted with Mr. Calhoun, his name is synonomous with truth and integrity, and the voters of the town well know that in the future as in the past, the office of Supervisor, under his charge, will be ably and faithfully conducted.

For Collictor, Mr. Peter J. Youngquist, of Bowmanville, is an excellent choice. To his friends and acquaintances in Bowmanville and throughout the town, he is known as a sturdy, upright farmer. He is a Norwegian, and has taken a prominent part in a Swedish hospital of Bowmanville, the Swedish Home of Mercy, of which he is a director.

In D. W. Blair, nominee for Assessor, the Republicans have made an excellent choice. Hd is a business man of known integrity and capability, and the tax-payers can well rest assured that the affairs of his office will be conducted in a business like manner. This is practically Mr. Blair's first experience in politics, as he has heretofore refused all overtures for a nomination. He is a resident of Irving Park, where he has been located for about ten years, and during this time has been prominent in all matters pertaining to the advancement of Jefferson.

H. E. Duigman, for Town Clerk, is the right man in the right place. He is a resident of Almira, and Mas been in the Town of Jefierson about six years. He is a member of the commission firm of in the usual manner. Among those pres Heilman, Dingman & Co., is a German-American, and is an A No. 1 business man. Santa Republican

At the Republican Convention of the 27th Ward, held at Kuhntz Hall, in Avondale. March 14th, 1891, the following candidates were nominated:

For Aldermon, M. J. Conway. For Supervisor, Daniel Calboun. For Collector, Peter J. Youngquist. For Assessor, David W. Blair. For Town Clerk, Harry E. Ding-

For Constable, H. E. R. Eicke. The following resolutions were unanimously adopted at said Convention:

Recognizing the fact that certain at Mrs. Meyers, corner Carpenter and Ingreat and crying evils are not only existent but daily growing in extent under the present Democratic adminunder the present Democratic administration, and firmly determined to use every means in our possession to reform and remove the malign and pernicious political influences which surround, control and demoralize the city government, now in power, from its highest to its lowest official, and determined to put an end to the corrupt practices now so common and disgraceful and to drive from authority those who foster and encourage them, and these reforms can only be successfully accomplished through the erforcement of true Republican principles, therefore, be it

Resolved, That we, the Republicans of the 27th Ward, in convention assembled, declare for honest government and incorruptible officials, attainable only through the election of a Republican administration.

convention that the City Treasurer shall receive a fair and reasonable. compensation, by salary paid, and that he shall pay into the city treasury all interest moneys accruing from city stantly, always and under all circumstancollections.

Resolved. That we demand the appointment of a competent assistant engineer who shall devote his whole and entire time to ward matters, keeping the roads and bridges in proper condition and repair.

Resolved, That in the interest of economy the salaries of Town Supervisor and Clerk be reduced from \$500 to \$200 each, and that the Town Attorney shall be remunerated only for services rendered.

And, whereas, the city authorities have taken unlawful possession of the Town Hall, a building which years ago was dedicated by private parties to the town for town purposes only.

Resolved. That we condemn the action of the city and endorse and encourage the town officers in their attempts to regain possession of the town hall.

And be it further resolved that we favor the immediate introduction into the 27th Ward of a better system of already lettered. street lighting than now exists.

In Twelve Large Volumes,

Which we Offer with a Year's Subscription to this Paper for a Trifle More than Our Regular Subscription Price.

Wishing to largely increase the circulation of this paper during the next six months, we have made arrangements with a New York publishing house whereby we are enabled to offer as a premium to our subscribers a Set of the Works of Charles Dickens, in Twelve Large and Handsome Volumes, with a year's subscription to this paper, for a trifle more than our regular subscription price. Our great offer to subscribes

paper, for a trifle more than our regular subscription price. Our great offer to subscribers eclipses any ever heretofore made. Charles Dickens was the greatest novelist who ever lived. No author before or since his time has won the fame that he achieved, and his works are even more popular to-day than during his lifetime. They abound in wit, humor, pathos, masterly delineation of character, vivid descriptions of places and incidents, thrilling and skillfully wrought plots. Each book is intensely interesting. No homesbould be without a set of these great and remarkable works. Not to have read them is to be far behind the age in which we live. The set of Dickens' works which we offer as a premium to our subscribers is handsomely printed from entirely new plates, with new type. The twelve volumes contain the following world-famous works, each one of which is published complete, unchanged, and absolutely unabridged:

DAVID COPPERFIELD. MARTIN CHUZZLEWIT, NICHOLAS NICKELBY, DOMBEY AND SON. BLEAK HOUSE, LITTLE DORRIT, OUR MUTUAL FRIEND, PICKWICK PAPERS.

BARNABY RUDGE AND CHRISTMAS STORIES, OLIVER TWIST AND GREAT EXPEC-

TATIONS,
THE OLD CURIOSITY SHOP AND
THE UNCOMMERCIAL TRAVELER,
A TALE OF TWO CITIES, HARD
TIMES AND THE MYSTERY OF
EDWIN DROOD.

The above are without question the most famous novels that were ever written. For a quarter of a century they have been celebrated in every nook and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.

Our Great Offer to Subscribers.

S. as above described, all postage prepaid by ourselves, one year, upon receive of the regular subscription price ditional. This is the grandest premium ever offered, tens works has usually been \$10.00 or more. Tell all a set of Dickens' works, in twelve volumes, with a year's or only 75 cents in addition to the regular subscription at this great premium. If your subscription has not yet crease, for it will be extended one year from date of extended one year fr expired, it will make no piration. We will also a sending us a club of four

CHAPTER XXV. -- CONTINUED. At length our perseverance receives its reward. The channel is in sight. We have struck it (following in the track of the deer) at a point where it is wide and presumably shallow. The banks on the hither side are low, marshy, and covered with reeds; on the side over against us, high and steep, and, for a space of several hundred yards, destitute of cover.

On coming to the water's edge we pause for a brief colloquy. The tide, though not at its lowest, is ebbing fast. Shall we wait until it ebbs further? My advice is, decidedly not. The Cariberoes may be on our trail-almost certainly are on our trail; the low reeds afford hardly any protection, and even while we stand here whispering we may be shot down by unseen formen.

"There is no fear of our drowning," says Mab; "we can all swim,"

"But if we swim we shall wet our ammunition, and that might be fatal. We are all tall, too, and I hope we shall be able to do it wading. Come! There is no time to lose. I shall fasten the cartridges round my neck, and hold my rifle and revolver over my head. You two go first, and as you cannot well wade one way and look another, I will stay here and protect

"And when we are on the other side we will do the same service for you. Come! Marian!"

And with that they plunged boldly into the stream, the queen (who had fastened a few cartridges in her hair) holding her rifle above her head. The tide ran very strong, and I watched their movements with anxiety; but these women were strong, active, and courageous, and though more than once up to the neck, they showed no sign of wavering, and in a few minutes had gained the opposite bank. Mab raised her rifle to show that she had

kept her powder dry, and, standing on guard, motioned me to join them. "S) far, so good," I said, when I was

safely across. "Now mount that bank as quickly as you can, and wait for me among the trees.'

"And what will you do?" "Stay here until you are safe up there. You will be very much exposed while you are climbing that bluff and walking up the

slope." "And you?"

"Don't trouble about me. I shall be all right. I can mount the bluff in a few minutes, and I shall make sure the coast is clear before I start. I remain behind only by excess of precaution-to make assurance doubly sure, as it were. Your life is very valuable, remember. We must not throw away a single chance. But this is no time for discussion. Don't stand upon the order of your going, but go." Mab acquiesced, though, as it seemed to

me, rather reluctantly. "When you hear the cry of the bell-bird," she said, as they set off, "you will know that we have reached the trees."

When the two girls had gained the top of the cliff (from which to the edge of the forest was a stiffish ascent of nearly a mile) and were lost to view, I considered my own position.

of the bluff and the edge of the water was a space of some ten or a dozen yards, and as I stood there, waiting for Mab's signal, it struck me that I should make a splendid target for the arrows of any Cariberoes who might be lurking about on the other side: so I thought it might be just as well to take advantage of the only bit of cover there was about-a stunted bush, But finding that it would not conceal me sitting, much less standing, I laid myself down, almost full length, at right angles to the creek, and, after placing my weapons and ammunition handy, leaned on my elbows and peered lazily through the bush, wondering the while how soon I should hear the cry of the bell-bird.

After this I think I must have dozed a few seconds, for I opened my eas with a start, and by way of keeping myself awake for the rest of my vigil (the run and the wade having made me decidedly sleepy) rubbed them vigorously and stared my hardest.

The reeds were moving.

"A deer," I thought (they were about the height of a deer), "or perhaps some other wild animal. I am sure there is a good deal more game on Swamp Island than Mab has any idea of. There it is again! Something black! The snout of an alligator, perhaps. No. The woolly head of a Cariberoe, by Jupiter! Nothing

The next moment the woolly head was followed by a bronzed, tattooed savage face. It gazed furtively round, and then the Cariberoe, seemingly satisfied with the result of his inspection, rose to his feet and waved his hand, whereupon six more Cariberoes rose to their feet; and after another look round, the seven put their heads together, like jurymen considering their ver-

At the same moment the note of the bell-bird rang out loud and clear. "I am glad you are safe, Mab," I mut-

tered; "but I am afraid I shall not be able to join you until these rascals have taken themselves off."

That they would take themselves off I made no doubt-in time. They had nothing to gain by following us further, and were not in sufficient force for a raid. This was my theory, at least; but after awhile I began to fear that the Cariberoes did not take quite the same view of the matter. Their proceedings, when they had done putting their heads together, were ominous in the extreme. They went down to the water's edge, gesticulating fiercely and talking incessantly. They pointed to our footmarks in the mud, then to the bluff and toward the forest, as if they had a very strong suspicion that we were not very far off. Perhaps they had seen the flutter of a gown among the trees.

Were they going to follow us up, after all? It looked like it; for after another putting together of heads, they unstrung their bows, and fastened the strings round their heads. Then the tallest of the lot, after beckoning to the others to follow, stepped into the stream, and cautionsly feeling his way with his long spear, made straight toward the bush behind which I

was lying perdu. "I am in a pretty tight fix, now, and no mistake:" I thought. "Seven blood-thirsty savages within a hundred yards of me, and no getting away! The mere raising of my

head would be my death-warrant." I confess it candidly, I was dreadfully frightened; but only for a moment. The very extremity of my peril seemed to steel my nerves and clear my brain, and almost on the instant I made my plan of cam-paign. Though I had little hope of saving my life. the attempt was worth making,

and give one two gires'a chance of making luck and a fair wind, we might make Fairgood their escape.

Again the note of the bell-bird Slowly, and taking infinite pains to avoid stirring the bush or exposing my body, I brought my rifle to bear, and waited until the Cariberoes were in mid-stream, up to the arm-pits in water. Then, taking deliberate aim, I shot the tall fellow who had first stepped into the water through the head. Down he went, and was swept away with the tide; but the others, after a moment of hesitation, gaye a loud yell and charged in a body toward the bush. Wading in deep water is, however, slow work. I re-loaded my rifle, fired again,. and brought a second man down.

"Surely," I thought, "that will stop

But no: they came on if possible more resolutely than before; and one rascal threw his spear with aim so true that had I not managed to ward off the stroke with my rifls. I should have been pinned to the ground.

I gripped my revolver, loosened the knife which I carried at my belt, and prepared for a life and death struggle at close quarters. But the odds were fearfully against me-five to one-and I felt that there was now nothing for it but to sell my life as dearly as possible.

Hark! The crack of a rifle up there beyond the bluff, the whistle of a bullet through the air, and a third Cariberos drops stone dead, and is swept away by the tide

"God bless you, Queen Mab! You have saved my life."

The four surviving savages, now effectnally cowed, pulled up short, and, turning round, make back as fast as they can. I had already re-loaded my rifle, and could easily have picked one of them off, but for pity's sake I forebore; the danger was past, and I felt that there had been slaughter nough. Mab, however, gave them a parting shot, which, though it hit one of the fellows, did not seem to hurt him much; for, after a howl and a stumble, he continued his flight, and kept up with the

As they disappeared among the reeds I prung up the bluff, where, as I expected, met the queen.

"Thank Heaven you are safe!" she exclaimed, fervently. "I feared those wretches had killed you. I am again your debtor for my life."

"It is the other way about-you have saved mine."

'Oblige me by not talking nonsense, Mr. Erle," she answered in her imperious way. "Had you not stayed down there at the risk of your life, what would have become of Marian and me?"

"Had you not left the shelter of the forest, at the risk of your life, and shot that Cariberoe in the very nick of time, what would have become of me?" "You would have shot him yourself and

escaped all the same."

"I am sure I shouldn't. They would have been on me before I could re-load my rifle, and though I might have killed two or three more of them, they would certainly have killed me. Shall we settle the dispute by saying that each of us saved the other's life. Then we shall be quits." "Say what you like; we shall not be

quits"-smiling. "I am still your debtor, and some time- But never mind that now. Why did those Cariberoes attempt to follow us across the creek?"

"Don't you think they wanted, at all hazards, to prevent us from giving the alarm?"

Either that, or there are many more of them down there than we have any idea of, and they are going to invade Fair Island at once."

"It is possible," said Mab, auxiously. "Let us go on. Oh, that we had fleet horses; or, still better, some of those won-derful speaking wires you have told me

CHAPTER XXVI.-FRIENDS IN NEED. It was very easy to say, "Let us go on." But as Mab had only the vaguest idea of the way to Weston's, and I had none, whatever, the carrying out of the proposal was attended with some little difficulty. She thought that if we went east by north we should not be far out; and east by north we went—as nearly as we could; for going straight in that part of the island was quite out of the question. We were forced to make long detours, and in order to advance one mile in a straight line we had generally to walk about three miles, And yet we seemed to get no further; we were always toiling over the same sort of ground, always surrounded by the same bushes and trees, and our view was always limited to a circle of a few yards.

At length, late in the afternoon, when the deepening gloom of the forest was reminding us that if we did not soon get out of it we should have to stay there all night, we came to a knoll bare of underwood, where the trees were tall and far apart. "Suppose you climb one of them?" said

It was a happy thought, and I proceeded to act on it forthwith, selecting for the purpose the tree that seemed the easiest to mount, for I was fearfully tired.

The first look when I got to the top was bitterly disappointing. The prospect was magnificent, but nowhere a sign of life, and I was just about to descend with my bad news, when I caught sight of a faint blue line rising slowly out of a mass of greenery, about two miles to the eastward.

'Smoke!" I shouted, as I slithered rapidly down the tree. "I have seen smoke," I repeated, as I reached terra firma, "and where that smoke is we shall find a fire and a house, and somebody to show us the

We resumed our journey in high spirits, and after a further tramp of half an hour or so we struck a beaten track which led us to a clearing, a field of maize, an orchard, and finally to a farm-house.

This was Weston's, and we found Weston at home, and, despite our disreputable appearance, received a warm welcome But Mab looked so very unlike a queen, that when I told him who she was he evidently thought we were poking fun at him. But when he heard our story his doubts disappeared. The possibility of an incursion of Cariberoes alarmed him greatly; he offered to accompany us part of the way to Fairhaven, and to do everything in his power to facilitate our journey thither. We were too much fatigued to go on with-out rest, but we gathered that if we took about six hours' sleep, started at midnight, and traveled by light of moon, we might possibly reach our destination by the fol-lowing evening—"possibly," because much depended on the wind.

Mab asked what the wind had to do with it, whereupon Weston explained that we could not foot it all the way to Fairhaven much under two days and a half; but at Dottrel's, distant about six hours, was a stream known as the Roothing (doubtless so named by some Essex man), by which, as it ran very swiftly, we could reach the

haven Creek before nightfall.

As for boats, Dottrel would see to that: and if the queen desired, he would, of course, be delighted to act as our pilot.

After asking my opinion, and thanking Weston for his advice, Mab decided to take it, and trust to Providence for a fair

In the meanwhile Weston's wife had prepared us a substantial meal, of which re stood in sore need. She, moreover placed her wardrobe at the disposal of Mab and her maid; and being as ragged as any beggar, I gladly accepted the offer of

a suit of Weston's homes It was the first time I had been in a Fair Island farm-house. The building was of wood, one-storied, and very roughly put together, and the internal arrange were primitive in the extreme. On the other hand, if there was little refinement, there was great plenty. The Weston's had fields and orchards, slaves and goats (which supplied them with milk), and food and fruit in abundance; but none of the family (and there were seven children) could either read or write, and there was not a

book in the house. Weston complained much of the wear and tear of slaves arising from their use as beasts of burden. It was this which made them so savage and discontented. If they had horses or oxen, he thought slave labor might be dispensed with, and that would greatly simplify matters so far as the Cariberoes were concerned.

This was obviously meant as a hint to the queen.

"I know," she said, thoughtfully, "but horses are not the only things we lack, and when the present danger is past we will have several changes for the better, as you will see, Mr. Weston."

The place-names in Fair Island were rather peculiar. A farm or plantation. even though it might afterward expand into a village, was almost always called after the first settler. Thus, Weston's would remain Weston's, whoever might subsequently become its owner. Occupations and professions were mostly hereditary, not by law, but by the force of custom. The parsons were all descendants of the "Hecate's" chaplain, and bore his name; the doctors were Sergeants; the school-masters, Switchers; the carpenters, Browns; the blacksmiths, Coleses; and so forth. Lawyers, there were none; but that, as Mab afterward told me, she looked upon as a blessing to be thankful for, not as a want to be deplored. Neither were there any prisons, breaches of the law (except treason, the sole capital offense) being punished solely by "sequestration" (a rigorous form of boycotting). A few weeks of this regimen was generally found quite sufficient to bring the most hardened sinners to their senses; and wrong-doers who expressed contrition and seemed really repentant were always pardoned.

It was hard work, rising at midnight. I felt as if I had only just fallen asleep; but our business did not brook delay, and at a quarter past twelve we set out on our six hours' tramp, accompanied by Weston. who took us to Dottrel's, and Dottrel placed his best boat at our disposal, and agreed to pilot us to Fairhaven.

Before we parted from Weston, Mab asked him to keep a sharp lookout for the Cariberoes, and if they appeared in force, to send her word immediately.

"If they appear," he said, grimly, "I shall "The very question I have been asking disappear. I don't want to have my throat cut. I will come myself. women and children with me."

The swift-flowing river carried us rapidly to the sea; the wind was fair; when the sun sunk behind the mountain we were off Fairhaven Creek, and by the time we reached the landing-place at the foot of the hill it was quite dark.

[To be Continued.] Mending a Dog's Leg.

"The most curious accident that ever happened to a dog, so far as I ever heard," said Vice-President Rosenbaum of the Delaware Game Protective association to a New York Sun man, "was the breaking of the leg of my pointer, Bilboa. I and a friend went out to shoot quail, and started in to beat a wheat-field after putting out the horse and buggy in the barn-yard. There was a pretty stiff wind from the north, and Bilboa was running square across it at the top of his speed, when all at once he struck the scent of a covey about ten yards away up wind. The instant he struck the scent he whirled toward the game, then over he rolled on his side. He got up and tried to run, but fell again. I supposed he was in a fit, but when I got to him I found that he had somehow broken his right foreleg near the shoulder as

whirled to the left. "I was so much excited that I drop ped my gun in the grass and had an awful time finding it again, but I got the dog into the buggy and back to town. The doctor said I'd better kill the dog, but I couldn't do that. After a talk on the subject we fixed up a bed that some reader of the Sun may be glad to make for a dog some time. we took a shoe box and cut four holes through the bottom of it in just the right places, so that when we put the dog in it his legs would hang down through the holes. We padded the holes with rags and the body of the box with clean straw, and then when we had put the dog in the box we hung it up so that his legs dangled in the air. The position of the dog was such that the broken leg was held immovably in about the right place. There we kept him for six weeks That saved the dog, but his leg was a little crooked, because we were no skillful enough to get the hole in precise place needed. BALEFUL AMUSEMENTS.

DR. TALMAGE TALKS ABOUT THE PLEASURES THAT DESTROY.

A Solemn Warning Against Vice in an Enticing Form. - How to Discriminate Between Good and Bad Amusements.

NEW YORK, March 15 .- The series of sermons Dr. Talmage is preaching in this city and Brooklyn, on "The Plagues of the Cities," is attracting general attention. At the morning service in Brooklyn, and at the evening service held in this city, the number of persons who come to hear the sermons is far larger than either of the buildings can ommodate. The the fourth of the sermon today, which i series, is on "Baleful usements," The text was 2 Samuel 2 "Let the young men now arise and pl efore us."

Was there ever a better illustration of what was true then, and is true now, that that which is innocent may be destructive?

What of a worldly nature is more important and strengthening and innocent than amusement, and vet what has counted more victims? I have no sympathy with a straight-jacket religion. This is a very bright world to me, and I propose to do all I can to make it bright for others.

. I never could keep step to a dead-march. A book years ago issued says that a Christian man has a right to some amusements: for instance, if he comes home at night weary from his work, and, feeling the need of recreation, puts on his slippers and goes into his garret, and walks lively around the floor several times, there can be no harm in it. I believe the Church of God has made a tremendous mistake in trying to suppress the sportfulness of youth, and drive out from men their love of amusement. If God ever implanted anything in us, he implanted this desire. But instead of providing for this demand of our nature, the Church of God has, for the main part, ignored it. As in a riot, the mayor plants a battery at the end of the street, and has it fired off, so that every thing is cut down that happens to stand in the range, the good as well as the bad, so there are men in the Church who plant their batteries of condemnation, and fire away indiscriminately. Everything is condemned. But my Bible commends those who use the world without abusing it, and in the natural world God has done everything to please and amuse us. In poetic figure we some-times speak of natural objects as being in pain, but t is a mere fancy. Still further; those amusements are ing which lead you into expenditure beyour your means. Money spent in recrea-

tion is not thrown away. It is all folly for us to come from a place of amusement feel-ing that we have wasted our money and time. You may by it have made an investment worth more than the transaction that yielded you hundreds and thousands of dollars, but how many proprietors have

been riddled by costly amusements. When men go into amusements that they can not afford, they first borrow what they cannot earn, and then they steal what they cannot borrow. First they go into embar-rassment, and then into lying, and then into theft: and when a man gets as far on as that he does not stop short of the penitentiary. There is not a prison in the land where there are not victims of unsanctified

amusements. I go further, and say those are unchristian amusements which become the chief business of a man's life. Life is an earnest thing. Whether we were born in a palace or hovel; whether we are affluent or pinched, we have to work. If you do not sweat with toil, you will sweat with disease. You have a soul that is to be transfigured amidst the pomp of a judgment day; and after the sea has sung its last chant, and the mountain shall have come down in an avalanche of rock, you will live and think and act, high on a throne where seraphs sing, or deep in a dungeon where demons howl. In a world where there is so much to do for yourselves, and so much to do for others, God pity that man who has nothing to do.

Your sports are merely means to an end. They are alleviations and helps. The arm of toil is the only arm strong enough to bring up the bucket out of the deep well of pleasure. Amusement is only the bower where business and philanthropy rest while on their way to stirring achievements. Amusements are merely the vines that grow about the anvil of toil, and the blossoming of the hammers. Alas for the man who spends his life in laboriously doing nothing, his days in hunting up lounging-places and loungers, his nights in seeking out some gas-lighted foolery! The man who always has on his sportingjacket, ready to hunt for game in the mountain or fish in the brook, with no time to pray, or work, or read, is not as well off as the greyhound that runs by his side, or the fly bait with which he whips the stream.

A man who does not work does not know how to play. If God had intended us to do nothing but laugh, he would not have given us shoulders with which to lift, and hands with which to work, and brains with which to think. The amusements of life are merely the orchestra playing while the great tragedy of life plunges through its five acts—infancy, childhood, manhood, old age, and death. Then exit the last earthly opportunity. Enter the over-

whelming realities of an eternal world! I go further, and say that all those amusements are wrong which lead into bad company. If you go to any place where you have to associate with the intemperate, with the unclean, with the abandoned, however well they may be dressed, in the name of God quit it. They will despoil your nature. They will undermine your moral character. They will drop you when you are destroyed. They will not give one cent to support your children when you are dead. They will weep not one tear at your burial. They will chuckle over your damnation.

Again: Any amusement that gives you a distaste for domestic life is bad. How many bright domestic circles have been broken up by sinful amusements! The father went off, the mother went off, the child went off. There are today the fragments before me of blasted households. Oh, if you have wandered away. I would like to charm you back by the sound of that one word "home." Do you know that you have but little more time to give to domestic welfare? Do you not see, father, that your children are soon to go out into the world, and all the influence for good you are to have over them you must have now? Death will break in on your conjugal relations, and alas, if you have to stand over the grave of one who perished from your neglect! I saw a wayward husband standing at

the death-bed of his Christian wife, and saw her point to a ring on her finger, and heard her say to her husband, "Do you see that ring?" He replied, "Yes, I see it."
"Well," she said, "do you remember who put it there?" "Yes," said he, "I put it there," and all the past seemed to rush upon him. By the memory of that day when, in the presence of men and angels, you promised to be faithful in joy and sorrow, and in sickness and in health; by the memory of those pleasant hours when you sat together in your new home talking of a bright future; by the cradle and the joyful hour when one life was spared and another given; by that sick-bed, when the little one lifted up the hands and called for help, and you knew he must die, and he put one arm around each of your necks and brought you very near together in that dying kiss; by the little grave in Greenwood that you never think of without a rush of tears; by the family Bible, where, amidst stories of heavenly love, is the brief but expressive record of births and deaths; by the neglects of the past, and by the agonies of the future; by a judgment-day, when husbands aud wives, parents and children, in immortal groups, will stand to be caught up in shining array, or to shrink down into darkness; by all that, I beg you to give to home

your best affections. Ah my friends, there is an hour coming when our past life will probably pass before us in review. It will be our last hour. If from our death-pillow we have to look back and see a life spent in sinful amusement, there will be a dart that will strike through our soul sharper than the dagger with which Virginius slew his child. The memory of the past will make us quake like Macbeth. The inequities and rioting through which we have passed will come upon us, weird and skeleton as Meg Merrillies. Death, the old Shylock, will demand, and take, the remaining pound of flesh, and the remaining drop of blood; and upon our last opportunity for repentance, and our last chance for heaven, the curtain will forever drop.

A house at Yorkshire Center, N. Y., occupied by Thomas Harwood, aged 70, caught fire Tuesday night, and Harwood was burned to death.

A curious phenomenon was recently observed on the sea at Folkestone, England. A ship laden with oil sunk in collision and the water was covered with oil. This produced a strange effect on the wild fowl which are plentiful there. Wild ducks, teal and other birds were easily caught, as they seemed unable to fly on account of their feathers being saturated with oil.

Despite the constant assurance of success from the use of the lymph which are received from all quarters of Europe the leading physicians in New York hospitals where the precious fluid has been in use still continue very non-committal. None are willing to admit that a cure has been effected by inoculation, nor, on the other hand, will any one affirm that death can be traced to the lymph's use. But they are evidently determined to damn, with faint praise, for same time to come.

A Christian, for the sweet fruit he bears to God and men, is compared to the vine. Now, as the most generous vine, if it be not pruned, runs out into many superflous stems, and grows at last weak and fruitless; so doth the best man, if he be not cut short of his desires and pruned of afflictions. If it be painful to bleed it is worse to wither. Let me be pruned that I may grow, rather than be cut up to burn .- Joseph Hall.

The Cross Mother-The Care of Books Fireside Despots-Lady Guides of London-Etc.

Long years ago there lived a man, A learned man, they say— So learned that his memory Has lived until to-day.

He'd studied all the sciences And mastered every art, Except the art of capturing A loving woman's heart.

And so a lonely bachelor

He lived, and so he died;

And Charon ferried him across
The Styx's inky tide.

And now the question must arise, From countless lips let fall; Although he knew so much, was he A wise man, after all? -Somerville Journal.

The Cross Mother. At no time in her busy days is an intelligent mother so apt to fold the arms and close the eyes of maternal justice as when she is cross-simply and undoubtedly cross—says Agnes B. Ormsbee, in Harper's Bazar. This crossness is chiefly caused by fatigue -weariness of mind and body, and sometimes of soul. With tired nerves and weary body, she cannot endure the common demands made upon her. and ill-temper follows. She sows bitter feelings and repels loving attentions with her irritable hasty words. Broadly speaking, no mother has any right to get so tired. She cannot afford it. It takes too much out of her life, and too much out of her childreu's life. Such a condition can more frequently be prevented than is generally believed.

The careless or shallow woman says: 'I was overworked. It made me cross," and she considers that admission the sufficient reason and excuse for any amount of similar indulgence. The religious or sympathetic woman worries over it, sheds bitter tearsand then the trouble repeats itself. The remedy lies near at hand. Let a mother find out what makes her cross, and then let her avoid the cause if possible. If social pleasures weary her, let them be decidedly lessened. If there is too much sewing, too much cooking, or too many household cares, lessen them. If economical efforts cause the severe strain, stop economizing at such a cost. That is the worst of wastes. Let the first economy be of that precious commodity, a mother's strength. Even the extent of one's religious and philanthropic work should be carefully examined, and if the trouble lies there, calmly are as severe tests as a remedy can and wisely dismiss some or all of it be subjected to. It is for these long- from the list of duties, for "what standing cases that Boschee's Ger- doth it profit a man if he gain the whole world and lose his own soul?" It is surprising how easily seeming interests or needs can be spared without injury to the home life whenever the thoughtful woman seeks to find them, and surely one of the worst of household influences is mother's crossness.

Fireside Despots.

History gives us full-length portraits of many of the colossal oppressors of mankind, but makes little or no mention of the private tyrants who have abounded in all ages and countries among the "undistinguished throng." Yet, in proportion to their opportunities, the latter are, perhaps, as culpable as the former. There are fireside monarchs as cruel, as remorseless, as utterly selfish and brutal .as any crowned villain that ever lived. The difference between one of these family despots and a Nero or a Commodus is simply a difference of sphere and of power. It is true he cannot violently put to death his subjectshis wife and family—without being held responsible by the law; but he can kill them by inches without the slightest danger. He can murder, by little and little, the poor weak woman whom he has promised before heaven to cherish and protect, with as much impunity as the Sultan of Turkey can bowstring a treacherous slave.

We rail at the lawless deeds of kings and emperors, but many a household kaiser rules his family as tyrannical as they rule their "hered-itary bondsmen." If the annals of each domestic despotism were patent to the world, as they are to the world's Creator, we should all be compelled to admit that the tyrants of history, black as they are painted by historians, did not witness the torture of their victims with more pleasure than some husbands and fathers seem to take in tormenting their wives and children.-N. Y. Ledger.

The Lady Guides of Londo Of especial interest to lady travel-

ers in England is the establishment of the lady guides in Cockspur street. The venture is only about a year old. and the enterprising ladies who started it were roundly laughed at by their friends, who thought the project a visionary one. But the success of the plan has been abundantly proven. The ladies in charge undertake to do everything that a stranger in London would wish to have done. They recommend hotels and lodging houses, and will engage rooms for you in advance, if you so desire. You have only to name the location, price and general features of a stopping-place, and they can be relied on to procure it for you. They shop for you. engage servants, meet friends at the station, take care of children while you go pleasuring, or entertain them at Madame Tussaud's or any other place of amusement that you may elect; show you about picture galleries, get tickets of admission to all the difficult places, and, make your visit comforted mind. the traveller's most necessa- Weekly.

ry commodity. At the headquarters of the lady guides there are reception rooms supplied with newspapers and writing materials, dressing rooms, private rooms in which to interview servants, and a modest restaurant. As a correspondent says: "The over-worked, the shiftless, the lazy, the stranger, all go to the lady guides."

The Care of Books. Children should early be taught the care of a book. A very little child can understand that a book must not be thrown on the floor, or torn, or bent backward, or maltreated in the fifty small ways in which children are permitted to abuse books. Such habits in children are due quite as much to ignorance as carelessness on the part of parents. Those who have no interest or affection for books themselves are not likely to expect it from their children. A reverence for books is part of the love one bears them, and people who have been brought up in an atmosphere of books, or who spend much time in reading or study, will naturally handle a book

that their children shall do likewise. There is much negligence shown in the matter of returning borrowed books, and this often by persons of whom one would expect better things. For months after a book is read it is allowed to lie about the house, and no especial effort is made to return it to its owner. That a book should be returned as soon as read, just as par-ticularly as one would return a tool after using it, or a garment after wearing it, would appear to go with-out saying. Yet it is not always the

A Baby's Strange E-ape.

A three-year-old daughter of James Brown, of Grafton, W. Va., fell into a well, a few days ago, while her mother was standing looking at her but was unable to give assistance. The moths er's screams brought the neighbors rushing to the rescue, and Henry Magill was lowered into the well with a rope around his waist and succeeded in bringing the little one to the surface with no worse injuries than a badly bruised head and a severely chilled body. She was in the water about a quarter of an hour and but for a board which fell in with her she would have been drowned. This board caught cross-ways in the well at the top of the water, and when Mr. Magill descended he saw only the child's head above the water and the little fingers clutching the board to keep her from sinking.

No doubt that the majority of people of Maplewood and vicinity have read the shooting that occurred in Ludwigs saloon, corner Fullerton and Webster avenue March 16th. The papers have the affair mixed up so bad that there is no head or tail to it. The way the matter stan is is this: J. S. Williams scened judgment against Mr. DeHunt, instead of Mr. Oremer as the papers have it; Mr. Cremer, and nothing to do with the suit and Mr. Fuchs was the only witness against Mr. Williams. Mr. Cremer met Mr. Deh mit in the saloon and the conversation that took place remains to be told. Mr. Williams is not connected with the affair at

RYTHER-MCGAFFEY.

On Wednesday evening, Mr. Fred Ry-ther and Mis: Edith McGaffey, were united in marriage. The wedding was confined to the relatives and most intimate confined to the relatives and most intimate friends of the bride and bridegroom, and was one of the prettiest weddings held for some time in the neighborhood. The Rev. Chas. John Miller, Rector of St. Mark's Church, Maplewood, officiated. The bride was attended by Miss Christine Scott, as bridesmaid and Master Guy Manney acted as best man. Among those present were Mr. and Mrs. S. W. Manney, Mr. and Mrs. M. A. Sacksteder, Mr. and Mrs. Ernest McGaffey. Mr, and Mrs. John McGaffey, Mrs. M. S. Campbell, Miss Wilma Roe, Mrs. A. Mold, W. Nye, Wyatt McGaffey, F. W. Pratt, Rev. C. J. Miller.

Vick's Floral Guide for 1891.
