Here Is Something from an Admirer. Mike White is a daisy. He took second prize: He astonished some people

- And opened their eyes. An abundance of croakers Said Mike wouldn't win it. They predicted his downfall, Said he wasn't in it.
- Then out from the corner of Mike's eagle eye Came a questioning glance' as if to say why; And his friends all kept hustling, Each put in the more,

And to increase the boodle played "5-11-44." We're not all quite sure on the latter asser

tion, But merely remarked it as sort of "divarsion." And his friends all congratulate Michael E. White.

The commissioner was instructed to put in good condition the catch basin in connection with the Butler drain on Park avenue, also the one corner Prospect avenue and Cedar street. On motion of Trustee Davis twenty-five new couplings were ordered purchased at a cost of \$1.15 each. Trustee Spranger reported that 350 feet of new walk had been laid on Pulaski avenue, out of 1/8 inch lumber, when the ordinance called for 114 inch. Same was referred back to committee. Meeting adjourned to Thursday, March 10,

at the hotel,

We understand, from a reliable source, that Mr. Charles Whitlock, Sr., has rented the Park Ridge hotel. The gentleman, with his estimable wife, will take possession about April 1st., but as the building is to be thoroughly renovated, and extensive alterations made, it will probably not be opened to the public until May or June. The want of a first class hotel in Park Ridge has been an undisputed fact, and we wish the new proprietor every success.

Somebody May Get Hurt.

It appears to be a case of "Hobson's choice" to the people who are obliged to cross the railroad track, whether they will have the chances of getting stuck in the mud and go by the way of the park, or go down the railroad track with a possibility of getting run over by the cars. This part of the village certainly does not reflect credit upon our. present Board of Trustees. It is bad enough in daylight, but at night the darkness of Egypt reigns in this par-ticular spot, and would be a perfect 12, given by the W. R. A subscriber objects to the use of the word "explaterate" in the last issuesays he cannot find it in Webster's dictionary. Perhaps not. When a lawyer or politician talks for an hour and a half over something his hearers care little about, it may be said that he "explaterates." This word is not synonymous with "obfusticate," although when a lawyer explaterates for a long time he is apt to obfusticate the minds of the jury.

The Ladies' Aid society of the Methodist church are planning to have a basket sociable at the residence of J. H. Curtis Friday evening of this week. The gentlemen are expected to provide themselves with well-filled baskets which the ladies are to purchase. This is no doubt part of a deep laid scheme to usurp the rights of the lords of creation and send them into the kitchen and nursery, for the gentlemen who bring baskets are expected to do their own cooking. If this is carried out to the letter there will be more cases of "grip" than ever before known in the history of Des Plaines.

The young ladies of Des Plaines will give a leap year party at Parson's hall on Friday evening, March . 11. The young gentlemen are supposed to be waiting in trembling expectation and have an affirmative ail ready for use.

The railroad company will make ome changes in the location of their buildings this spring. The old freight house is to be moved to the north side of the track in front of E. D. Scott's residence. No more parks in that locality.

The injunction to stop the sale of John Heintz's farm has been dissolved by the court. The place will probably be again advertised for sale. Mr. Hintz has kept up a persistent fight to keep his farm from being sold, but he seems to have been beaten at every turn.

IRVING PARK.

TO IRVING PARK SUBSCRIBERS.

The SUBURBAN TIMES Co. begs leave to ask the further indulgence of its many subscribers in Irving Park for another week, and assures them that it is not wholly the fault of the TIMES that no correspondence from the Park has of late appeared in its columns. Three different residents of that delightful and growing suburb have faithfully promised to favor the TIMES with Park news and personals during the past three weeks, but unfortunately not one of them has kept his word, and the paper again goes to press void of Park items. Next week's issue will contain an Irving Park column, as in the days of old.

The management of the TIMES has lately changed several times and it is owing to that fact that some places have been neglected, though not intentionally, and if our subscribers will have patience for another week we are confident there will no further necessity for complaint.

Board Meeting.

The regular meeting of the Village Board of Trustees occurred on Tuesday, March 1, President Black in the chair. and Trustees Davis, Miller. Stuart and Spranger answering to roll call. Absent, Trustees Whitcomb and Gilder. The Clerk being confined to his house by sickness, Collector S. H. Holbrook took his place and the reading of minutes was dispensed with. The first business in order was a petition for franchise from the "Chicago and Edison Park Electric railby their attorney, H. N. road." Hanchette, which was referred to a committee of the whole to report at a special meeting of the board, to be held at the hotel on Thursday evening March 10. A petition was presented by W. H. Burns, for making sewer connections, and also laying extra pipes, which was referred to committee on sewers. A petition was presented signed by C. Heelsman, J. F. Dittman, Jacoby, W. T. Lechner, Mary Matthews and G. Neihausen, for the purchase of extra lamps. Trustee Spranger's motion for the purchase of fifteen extra ones was amended so as to read twenty-four, and passed. Wa-Hoo.

One of the "old settlers" gives the following receipt for a cold: "Wa-hoo and whiskey." When asked if the whiskey couldn't be taken separate he said no. as the former ingredient had to be mixed into wa-hoo the whiskey. WASHINGTON NEWS.

SENATOR HATE'S HOPES FOR THE SUCCESS OF HIS BILL.

An Important Addition to Our Navy-Representative Burrous Opposition to Free Lumber-Various Appropriations Made-Chicago May Have to Wait.

WASHINGTON, Feb. 29.-Senator Hale, of Maine, is very hopeful that the bill which he introduced a month ago further to increase the naval establishment may be adopted. It authorizes the construction of three battle ships of from 7,500° to 10,000 tons displacement, two armored coast defense vessels, five gunboats of from 800 to 1,200 tons displacement and eight first class torpedo boats.

The spasm of economy that now afflicts the House is likely to interfere somewhat with this bill, but Senator Hale hopes that the House will meet the Senate in a liberal spirit. He says his bill would readily pass the Senate, but he must necessarily wait until the naval appropriation bill comes over from the House and then add his bill as an amendment to it. He says it would be folly not to continue the splendid work of the past five years.

Senate.

In the Senate, Senator Dodge's bill to protect persons, associations, unions of workingmen, and others in their labels, trademarks, and forms of advertising was engrossed. It provides for recording such trademarks in the office of tye Secretary of State and punishes counterfeiting by a fine of from \$25 to \$100 or imprisonment; also provides for enjoining the use of counterfeit labels and confiscation of goods bearing such abels.

apolis.

INDIANAPOLIS, Ind., March 1.-The excitement throughout the city has been most intense all day, and thousands have been parading the principal streets in anticipation of an attempt on the part of the street railway company to start its cars. The mayor realized early that it would be impossible to run the cars under such circumstances, and he decided that he would not furnish police protection if the company was foolish enough to demand it. He

called President Dugan, of the brotherhood, to his office and asked him to take the strikers from the streets and stop circulating petitions for the removal of President Frenzel. He then a compromise of the differences between the company and the men. The city is comparatively quiet now.

Her Death Charged to the Boys. TERRE HAUTE, Ind., March1.-Emma Slaughter, 1? years of age, died to-day and her physicians say it was from the shock caused by being assaulted. She accused Ebenezer Christenbery, 17 years of age, and Frank Otey, 16 years of age, of attacking her last Friday afternoon while she was alone at her homejust north of the city. She was seriously 11 with the grip at the time and was wholly unequal to the effort of resisting the youths. Both boys were arrested, but they deny the accusation. The girl repeatedly told the physicians that she was not mistaken as to their identity and up to the last minute of her life begged that they be prosecuted.

IOWA'S LICENSE LAW.

STRINGENT BILL INTRODUCED IN THE SENATE.

Strong Probability That It Will Pass Both Houses-A Substitute for the Groneweg Bill-Some of the Provisions -The Subject of Much Comment.

DES MOINES, Iowa, Feb. 29.-Th' Senate will pass a county local option bill, Such a bill has been presented in the Senate by Senator Gatch of Polk county. He offers this bill in what he believes to be not only the real interest of the State, but of true temperance as well. There are many other members promised that the company should not who believe exactly as Senator Gatch run any cars to-day and in the mean- does on this subject, but many of time an attempt will be made to reach them represent districts where the sentiment of the party opposes a change of the present law, districts where prohibition under the present statutes is fairly well enforced, and where the people for that reason little understand

the situation of the more densely-populated districts of the State where the law is not enforced and cannot be. The bill is one of the most stringent measures that could be devised for the regulation of the traffic. Its author drew from the statutes of Nebraska, Ohio and Illinois, with here and there a section from the license laws of other States. It does not seek to repeal the present law except in counties which vote so to do. And in counties where a majority of the people desire saloons t gives them the right to permit and control them.

The bill hasbeen submitted to a number of Senators of both political parties and will be made a special order for next Thursday morning. In the meantime it will be printed, so that a thorough discussion of its features may be had. It was offered as a substitute for the Groneweg bill, and consequently comes before the Senate without reference to the Committee on Suppression of Intemperance.

When the firm was in business it had large deposits of money from poor people, who made them their bankers, and when the crash came there was great suffering and widespread indignation, but to-day the millionaire father of young Keener appeared and distributed \$12,000 among sundry widows and a few very poor persons who had been especially hurt by the failure.

DIED FROM STARVATION.

Was a Christian Scientist and Would Have No Physician.

MILWAUKEE, Wis., Feb. 29.-Death by starvation is assigned as the cause of the death of Mrs. James Phelps, whose body was shipped to Keokuk, Iowa, for interment. Mrs. Phelps was the young wife of James Phelps, a traveling agent for the coal firm of F. R. Buell & Co. She died yesterday morning at the boarding house of Mrs. Chase, No. 184 Fourth street. Mrs. Phelps was a Christian scientist, and for that reason no physician was called to her bedside during her illness. The doctors from the health department who investigated Mrs. Phelps' death say that with proper medical care she would still be living, but under the Christian science treatment afforded her she was starved to death.

Silver Hearing About March 22. WASHINGTON, Feb. 29-Silver will have its hearing in the House about March 22. There is no reason to doubt the opinion heretofore given that the Bland Free Coinage bill will pass by upwards of forty majority. In the preliminary skirmishing for postponement or for a substitute in the form of an international bimetallic Congress, the silver men will not have so many votes to spare, although they will have a

good working majority. Wall street drew a rather long bow on the truth in the statement circulated that Great Britain had positively agreed to an international bimetallic conference. Great Britain has not positively agreed, because it has not formally been invited. Minister Lincoln has had several interviews with Lord Salisbury, and has recently, been able to report a favorable change in sentiment. Secretary Foster is hopeful that after an exchange of views with Mr. Goschen, the Ghancellor of Exchequer, these conditions may be arranged. England, however, shows a disposition

to ask too much. Washington Notes.

DR. TALMAGE PREACHES IN THE TABERNACLE PULPIT.

A Glowing Description of the Magnificonce of Solomon-Likened, to the Gleams of the Christian Religion-Very Interesting.

BROOKLYN, N.Y., Feb. 28.-Dr. Talmage preached from the Tabernacle pulpit this morning after a brief vacation in the West. His text was: I. Kings, 10: 7. "Behold, the half was not told me,"

Solomon had resolved that Jerusalem should be the center of all sacred, regal, and commercial magnificence. He set himself to work, and monopolized the surrounding desert as a highway for his caravans. He built the city of Palmyra around one of the principal wells of the East, so that the long trains of merchandise from the East were obliged to stop there, pay toll, and leave part of their wealth in the hands of Solomons merchants. He manned the fortress Thapsacus at the chief ford of the Euphrates, and put under guard everything that passed there. The three great products of Palestine-wine pressed from the richest clusters and celebrated all the world over; oil which in that hot country is the entire substitute for butter and lard, and was pressed from the olive branches until every tree in the country became an oil well; and honey which was the entire substitute for sugar -these three great products of the country Solomon exported, and received in return fruits and precious woods and the animals of every clime.

He went down to Ezion-geber and ordered a fleet of ships to be constructed, oversaw the workmen, and watched the launching of the flotilla which was to go out on more than a year's voyage, to bring, home the wealth of the then known world. He heard that the Egyptian horses were large and swift, and long-maned and round-limbed, and he resolved to purchase them, giving eighty-five dollars apiece for them, putting the best of these horses in his own stall, and selling the surplus to fereign potentates at great profit.

He heard that there was the best of timber on Mount Lebanon, and he sent out one hundred and eighty thousand men to hew down the forest and drag the timber through the mountain gorges. to construct it into rafts to be floated to Joppa, and from thence to be drawn by ox teams twenty-five m les across the land to Jerusalem. He heard that there were beautiful flowers in other lands. He sent for them, planted them in his own gardens, and to this very day there are flowers found in the ruins of that city such as are to be found in no other part of Palestine, the lineal descendants of the very flowers that Soloman planted. He heard that in foreign groves there were birds of richest voice and most luguriant wing. He sent out people to catch them and bring them there, and he put them into his cages.

Stand back now and see this long train of camels coming up to the king's gate, and the ox trains from Egypt, gold and silver and precious stones, and beasts of every hoof, and birds of every wing, and fish of every scale! See the peacocks strut under the cedars, and the horsemen run, and the charlots wheel! Hark to the orchestra! Gaze upon the dance! Not

wealth surrender, themselves to God. When religion comes to a neighborhood, the first to receive it are the women. Some men say it is because they are weak minded. I say it is because they have quicker perception of what is right, more ardent affection and capacity for sublimer emotion. After the women have received the Gospel then all the distressed and the poor of both sexes, those who have no friends, accept Jesus. Last of all come the people of affluence and high social position. Alas, that it is

If there are those here to-day who have been favored of fortune, or, as I might better put it, favored of God, surrender

all you have and all you expect to be to the Lord who blessed this queen of Sheba. Certainly you are not ashamed to be found in this queen's company. I am glad that Christ has had his imperial friends in all ages--Elizabeth Christina, queen of Prussia; Maria Feodorovna, queen of Russia; Marie, empress of France; Helena, the imperial mother of Con-stantine; Arcadia, from her great fortunes building public baths in Constantinople and toiling for the alleviation of the masses; Queen Clotilda, leading her husband and three thousand of his armed warriors to Christian baptism; Elizabeth of Burgundy, giving her jeweled glove to a beggar, and scattering great fortunes among the distressed; Prince Albert,

singing "Rock of Ages" in Windsor Castle, and Queen Victoria, incognita, reading the scriptures to a dying pauper.

I bless God that the day is coming when royalty will bring all its thrones, and music all its harmonies, and painting all its pictures, and sculpture all its statuary, and architecture all its pillars, and conquest all its sceptres; and the queens of the earth, in long line of advance, frankincense filling the air and the camels laden with gold, shall approach Jerusalem, and the gates shall be hoisted, and the great burden of splendor shall be lifted into the palace of this greater than Solomon.

Again my subject teaches tme what is earnestness in the search of truth. Do you know where Sheba was! It was in Abyssinia, or some say in the southern part of Arabia Felix. In either case it was a great way off from Jerusalem. To get from there to Jerusalem she had to cross a country infested with bandits, and go across blistering deserts. Why did not the Queen of Sheba stay at home and send a committee to inquire about this new religion, and have the delegates report in regard to that religion and wealth of King Solomon? She wanted to see for herself and hear for herself. She could not do this by work of committee. She felt she had a soul worth ten thousand kingdoms like Sheba, and she wanted a robe richer than any woven by Oriental shuttles, and she wanted a crown set with the jewels of eternity. Bring out the camels. Put on the spices. Gather up the jewels of the throne and put them on the caravan. Start now; no time to be lost. Goad on the camels. When I see that caravan, dust covered, weary and exhausted, trudging on across the desert and among the bandits until it reaches Jerusalem, I say, "There is an earnest seeker after the truth."

But there are a great many of you, my friends, who do not act in that way. You all want to get the truth, but you want the truth to come to you; you do not want to go to it. There are people who fold

their arms and say, "I am ready to become

a Christian at any time; if I am to be

saved I shall be saved, and if I am to be

lost I shall be lost." Ah! Jerusalem will

never come to you; you must go to Jeru-

Jesus Christ will not come to you;

you must go and get religion. Bring

stopping to look into the wonders of the temple, step right on to the causeway, and pass up to Solomon's palace!

Here we find ourselves amid a collection of build nas on which the king had lavished the wealth of many empires. The genius of Hiram, the architect, and of the other artists is here seen in the long line of corridors and the suspended gallery and the approach to the throne. Traceried window opposite traceried window. Bronzed ornaments bursting into lotus and lily and pomegranate. Chapiters surrounded by network of leaves in which imitation fruit seemed suspended as in hanging baskets. Three branches -so Josephus tells us-three branches sculatured on the marble, so thin and subtle that even the leaves seemed to quiver. A laver capable of holding five hundred barrels of water on six-hundred brazen ox-heads, which gushed with water and filled the whole place with coolness and crystalline brightness and musical plash. Ten tables chased with chariot wheel and lion and cherubim. Solomon sat on a throne of ivory. At the seating place of the throne on each end of the steps, a brazen lion. Why, my friends, in that place they trimmed their candles with snuffers of gold, and they cut their fruits with knives of gold," and they washed their faces in basins of gold, and they scooped out the ashes with shovels of gold, and they stirred the altar fires with tongs of cold. Gold reflected in the water ! Gold flashing from the apparel! Gold blazing in the crown! Gold ! gold ! gold !

Of course the news of the affluence of that place went out everywhere by every caravan and by wing of every ship, until soon the streets of Jerusalem are crowded with curiosity seekers. What is that long procession approaching Jerusalem? I think from the pomp of it there must be royalty in the train. I smell the breath of the spices which are brought as preents, and I hear the showt of the drivers. and I see the dust-covered caravan showing that they come from far away. Cry the news up to the palace. The Queen of Sheba advances. Let all the people come out to see. Let the mighty men of the land come out on the palace corridors. Let Solomon come down the stairs of the palace before the queen has alighted. Shake out the cinnamon, and the saffron, and the calamus, and the frankincense, and pass it into the treasure house. Take up the diamonds until they glitter in the sun.

The Queen of Sheba alights. She enters the palace. She washes at the bath. She sits down at the banquet. The cupbearers bow. The meat snickes. You hear the dash of waters from the molten sea. Then she rises from the banquet, and walks through the conservatories, and gazes on the architecture, and she asks Solomon many strange questions, and she learns about the religion of the Hebrews. and she then and there becomes a servant of the Lord God.,

She is overwhelmed. She begins to

think that all the spices she brought and all the precious woods which are intended to are coming and that we are weary of the be turned into harps and psalteries and inmuch of the desert. The king will come to railings for the causeway between the out and say: "Welcome to the palace; temple and the palace, and the one hun, bathe in these waters, recline on these banks. Take this cinnamon and frankindred and eighty thousand dollars in money -she begins to think that all these presents cense and myrrh and put it upon a censer amount to nothing in such a place, and she and swing it before the altar." And yet, is almost ashamed that she has brought my friends, when heaven bursts upon them, and she says within herself: "I that-Jesus on the throne, and we made heard a great deal about this wonderful religion of the Hebrews, but I find it far like him! All our Christian friends surbeyond my highest anticipations. I must add more than fifty per cent to what has and tears and sins gone by forever! One day my father and a neighbor named McLean were crossing the river in a log canoe, when they discovered a bear swimming in the same direction. Dexteriously plying their paddles they came between him and the place where he intended landing. This cutoff enraged the animal, which immediately made for the canoe, putting one paw on its low gunwale. A smart blow with the edge of a hardwood paddle made the fellow relinquish his grasp. After a good deal of hustling McLean managed to get hold of the bear's hind legs, holding on each side of the stern of the canoe, father, at the same time, with his paddle, keeping the craft upright until the creature was drowned, and thus the game was secured. Iu a paper which some one has the effrontery to call the "Jefferson' Herald, a copy of which sometimes accidentally strays into the Twentyseventh ward, there lately appeared an article labeled "Boss Rule in Jefferson," presumably written by a Bourbon Demcrat (who, through the influence of a Republican alderman of the said ward, has succeeded in stealing his way into a position under a Republican municipal administration), which is simply a tissue of falsehood from beginning to end. In this article it is asserted that the

"Machine," whatever or whoever that may mean, has already parceled out the nominations for the coming election ac_ cording to its own notion, and that all others not favored by the "machine" may as well "stand aside." This is as everybody well knows, the old cry of the disappointed office-seeker, and no doubt was inspired by some one hungering and thirsting after office, or a continuance of office, but who evidentally despairs of ever again reaching the longed-for goal by the franchise of the people.

It is also said that the city and town primaries and convention of the Twenty-seventh ward have been called for the last day and the last hour, to prevent "a citizen from gaining recognition, as a candidate to be voted for. before the election commissioners." This uncalled for slur upon the city and town committeemen is simply a malicious and premeditated lie, which it to be transacted. is almost unnecessary to answer, for it is well known to all readers of the daily papers that the primaries and conventions of the Twenty-seventh ward, city and town, have been called for the same day that other ward well, Engineer; Henry Schede, Street Commissioner Chas, D. mason, Ssdewalk Insgector. primaries and conventions have been called for, namely, March 11 and 12. Washington's Neglect of a Cold and Jefferson's Bad Finances-Horace Greeley's Ambition Cost

Him His Life

It is asserted by those who pretend to understand the matter that there is a point in every character where serious mental imperfection, if not absolute insanity, crops out. On one subject, it is held, all men are a little off the track, and that under certain propitious circumstances this fact stands out as an unattired verity. These idiosyncratic peculiarities mark the man of every age from the very earliest dawn of intelligent history down to these wonderful prolific times in which we live.

It is a merciful dispensation of Providence that the possessor of this erratic quality of mind or manner is often altogether unconscious of his he is blind to, and, though Robert Burns may say.

Wad some power the giftie gie us To see oursels as ithers see us,

It is probably far better that we should sometimes remain in ignorance. Both friends and enemies look upon us with distorted vision. The former magnify our good qualities until they are enormously elongated and broadened, while the latter minimize them until they cannot be seen with anything less powerful than a Lick telescope. Our proposition, says the Pittsburg Dispatch, is that the majority of men either lack a balance wheel or possess very imperfect ones.

The patriarchs of old were all more or less tinged with inconsistencies of some kind or other. One of the best proofs of the authenticity of the bible asked the police officer, with assumed have forced it back. It was quite is the fact that the weaknesses as well as the virtues of men are recorded. Jacob was a growler. Job, noted for patience, cursed the day of his birth and accused God of cruelty and oppression. David, the sublime poet, at one time rebelled against the Lord and called all men who did not subscribe to his idea. 'liars." It is true he afterward repented and made the excuse that he was "in haste" when he said "all men are liars." Even Elijah doubted and prayed for death. Jeremiah asked the Lord if he was to be to Him 'as a liar and as water that falls." This is pretty rough language to use, but if Hebrew scholars are right he did use it. In this synopsis have we not a pretty picture of great men who made shipwreck of consistency?

The case seems to grow strong on the side of the proposition that all men are off the track somewhere.

of the immortal George Washington hotel, where prolonged study of my in such a connection as this especially passport released me, for the time at a time when we have all been filled from suspicion. with patriotism, &c., in celebrating the grand achievements in which he took so noble a part. Considering his facilities, averaging all the circumstances and weighing the environments in the scales of cold common sense, no greater man ever lived than he. He was good citizen, a fair farmer, a pretty smart surveyor and a wonderful commander. He was so punctual and precise in all his movements that it was almost a crime in his sight for any one to be five minutes late. He guided the armies of the United States against the tyrant foe. and brought victory out of what the world looked upon as inevitable defeat. He steered the ship of state through the rocks and snags and quicksands of the formulative period. And yet George Washington was lacking in discretion. Impartial history, when the glamour of military renown shall have become misty with the passing centuries, will undoubtedly reveal much that to-day is hidden. For our purpose one point of lack of judgment will suffice. His death was the penalty. Catching a cold on December 12, 1799, in a rain storm, he took no pains to treat it until he was beyond the reach of medical skill. Said he: "Let it go as it came." The doctors bled him (not figuratively or financially), which, together with the cold, soon carried him off. He was 68, but he should have lived to 80. Of course, he might have done so had it not been for the doctors and their lances, but a little care on his part and a little surrender to the better judgment of Martha at first and he would probably have been spared for years. Thomas Jefferson. the author of that immortal document which shook the thrones of Europe and makes them tremble to-day, was not in all respects a man of perfect balance. Jefferson could twist the lion's tail and tie a knot in it as well as any man living. He conducted the government along the lines of rigid simplicity, but before he died he made a pitiable bungle of his own finances. He went down the western slope of life wearied and troubled about money matters. So embarrassed did he become that he was empowered by the legislature to dispose of his property by lottery. It is true the project was not carried out, but so profligate was he in his expenditures at Monticello that he-deemed heroic methods of procedure necessary to adjust matters. . . Jeffersonian they voted by one act to abolish the fees simplicity" is a proverb, but his profuse hospitality, ostentatious otherwise, showed that he lacked his balance wheel. He passed away in his eighty-fourth year, on the 4th day of July. 1826, just fifty years after the Declaration of Independence, his lack of judgment making him a comparatavely poor man.

Those who have a will to learn find the world full of teachers.

Valuable deposits of coal have been discovered on the Niga islands, on the coast of Alaska. It is said that the coal is virtually inexhaustible in extent, and that cargo lots can be delivered in San Francisco at \$4 a ton.

Nearly all the petroleum deposits of Southern California are situated in Los Angeles and Ventura counties, and they occupy an area of 250,000 acres. This important product is rapidly becoming one is rapidly becoming one of the most valuable in Southern California, the yield for 1889 aggregating in value over \$1,000,.

LOVE'S STRATEGY.

My revenge was terrible. I had been cruelly wronged, however, and can scarcely be blamed for what I did. For the purposes of this narrative, I will call myself Luke Gilbert. I am a native of Coventry, in England, and went to Australia to improve my prospects in life. The other man, the reader must know. was Victor Lambert, a native of New York city. I had been an old and trusted employe

in Gerald's large jewelry establishment at Staunton, Australia, and was greatly esteemed by my employer, a man well advanced in years. When appears above, is a prominent citizen of Lambert came, he presented unimpeachable credentials. He was a tall. teen surviving veterans of a company of handsome fellow, with a captivating manner, and it was not long before he

became a favorite with every one. I never liked him from the first, and of Marshall of National Association, and I liked him less when he innocently although well advanced in years is still won away from me the affections of hearty and hale. In writing of his Amy Gerald, a girl I had loved with passionate idolatry from early childhood. Often had she entivined her white arms about my neck, and, nestling her pretty face upon my breast, and day. After trying many different vowed that she held me dearer than any one on earth; and when he came she was wearing a ring I had given her as a pledge of betrothal. But, after Lambert had been with us a little over a year, her manner grew strangely cold to me; and one night when I called to see her, she told me, with great tears standing in her eyes. that she had been mistaken-she had never really loved me; and what she had felt for me was only esteem and friendship, and she added, as she handed me back my ring:

"Luke, you will forgive me, won't you, and still be my friend?"

I made no rep'y-I could not. Every drop of blood in my body seemed to surge in fiery torrents to all the prescriptions within their reach my face and head. I reeled like a without benefit. AN ELEPHANT'S PALATE.

The Sense of Taste and Smell Remarkably Acute In Elephants.

An elephant's digestive functions are very rapid, and the animal, therefore, requires a large amount of fodder-six hundred pounds at least. In its wild state the elephant leeds heartily, but wastefully. It is careful in selecting the few forest trees which it likes for their bark or foliage. But it will tear down branches, and leave half of them untouched. It will strip off the bark from other trees and throw away a large portion.

As it is a nocturnal animal, it selects its trees by the senses of touch and smell. Its sense of smell is to indicate that a wild elephant can wind an enemy at a distance of a thousand yards, and the nerves of its trunk are so sensitive that the smallest substance can be discovered and picked up by its tiny proboscis.

An elephant's palate is very delicate, and the animal is whimsical in selecting or rejecting morsels of food. Sir Samuel W. Baker, in his "Wild Beasts and their Ways," tells an anecdote humorously illustrative of the whims of a tame elephant, belonging to the police of Dhubri.

This elephant was fed with rice and plantains. The stems of the plantains were split and cut into transverse sections, two feet in length. Three cuarters of a pound of rice were placed within each tube of plantain stem. One day, while the elephant was being fed, a lady offered the animal a small sweet biscuit. It was taken in the trunk, and almost immediately thrown on the ground.

The mahout, or driver, thinking that the elephant had behaved rudely, picked up the biscuit and inserted it in a parcel of rice within a plantain stem. This was placed in the elephant's mouth, and at the very first crunch it showed its disgust by spitting out the whole mess. The small copied it; also how many hours you have biscuit had disgusted the animal, and for several minutes it tried by its inserted trunk to rake out every atom from its tongue and throat.

"Congratulate you! Why, what has befallen you?"

"Why," he said, with a little laugh. "I am going to marry Amy Gerald in the autumn and I want you to rejoice in my good fortune."

"Ah!" was all I said, as I took his proffered hand. Oh, how I hated him then, and how I longed to deprive him of his boastel happiness; and, soon after that, the means was given to me to do so.

One night, during the summer, a jewelry store on a contiguous street was entered by burglars and a large amount of valuables taken therefrom. This alarmed old man Gerald and he requested that I and Lambert should or three weeks.

Lambert talked in his sleep, and one placed him in my power. How I gloated over the prospect of a speedy revenge! I felt easy in my conscience, too, for the means had been placed in my hands without any efforts of my own.

A direct interposition of Providence. I argued then-a fiendish scheme, I say now.

The weeks rolled by, and Victor Lambert was more popular than ever. His praises were rung daily into my ears. 'Has the making of a fine man in him," was the universal comment. I drew away from the gay assemblage, and sought assecluded corner, where I stood alone and communed with myself. Now, as the hour drew near. I dreaded to strike the blow that was to ruin two young lives forever.

"Why do this?" a small voice whispered in my ear. "Better far, and more noble, to smother revenge and anger, and go forth into the world with ill-will towards no one."

"But," interrupted another voice, you have been very deeply wronged. You have been robbed of a happiness that was rightfully yours, by one who is totally unworthy. Strike-revenge yourself ere it is too late!"

A Novel Sort of Railway.

The novel bicycle railway about to pe established between Mount Holly and Smithfield, N. J., will be the only one of the kind in the country. The road bed is a frame work resembling an ordinary board fence, on the top of which is a steel T rail, on which the grooved wheel of the bicycle runs. A Yorick Barnes (who has dropped in | brace run extends down on either side of the fence, on the end of which is a wheel that runs along the bottom board of the fence, and prevents the machine from overturning.

Each bicycle will carry one or two persons and the machines are easily propelled as there is but little friction. The trip between the two places can be made in seven minutes, and as there is considerable travel each way daily it is the general belief that the road will be profitable.

that instinctively she guessed what had happened.

Before she could collect herself suffiiently to rush for the door, a second bomb was hurled in and rolled almost to her feet, providentially without exploding. This she picked up, and threw from the other window into the

court below: then seeing that some brown paper was smouldering in a half-open box of rifle cartriages, she quickly dashed a large jug of water over it.

By this time the servants had rushed in, and succeeded in extinguishing the fire which had caught the curtains and furniture.

But my brave girl, remembering that I had gone out unarmed, took my revolver and started out alone to meet me on my way home, and it was not until I had been provided with the weapon that she told me what had happened.

mentioned every once in a while for use on growing plants and for the destruction of lice on stock, is made after the following manner as suggested by Dr. Riley, chief entomologist of the U. S. department of agriculture: Kerosene (common coal oil), two gallons, common soap, or whale oil soap. one-half pound, water one gallon. the mixture by means of a force pump and spray nozzle for five or ten minutes. The emulsion, if perfect, forms a cream which thickens upon cooling and should adhere without oiliness to the surface of glass. Dilute before using one part of the emulsion with from eight to ten parts of cold water.

The kerosene emulsion is sure death to all insects which it touches. Last spring says a writer, I obtained a dozen rose plants and put them in the plant house. Then I got plant lice on bushes and let them get a good start. After the lice had completely covered the bushes 1 dipped them in a pail of the kerosene emulsion and held them in a few seconds until it had touched every one. It took about three minutes to wet the dozen plants. In three days I looked at the plants and every louse was gone, and the plants stayed clean all the season.

CHICAGO OPERA-HOUSE.

On Sunday, March 6, the American Extravaganza company and only stock organization will return to the Chicago opera house and present for two weeks that gorgeous spectacle, "Sinbad." This will make twenty-two weeks that "Sinbad" has been played at the Chi-cago opera-house. This is the biggest record ever made by any attraction in Chicago. The business of "Sinbad" both at home and on the road has been something enormous. It has played two Brahms dances are as dainty a bit of weeks in Pittsburg, something nitherto unprecedented, to \$24,000. It was only by shifting some other attraction around that Manager David Henderson has been able to arrange for this return engagement . of the stupendous spectacle. But he has arranged it, and this will positively be the last opportunity afforded the Chicago publie for witnessing the glories of this triumph of the Chicago opera-house's brilliant record of production. Every- genius and its final triumph through one will be delighted to know that the suffering and adversity." The instrucorgeous piece with all the old favorites and one or two new faces is to return even though the engagement be mate skill in the treatment of the subso brief a one. There will be a great ject. deal that is novel in this reproduction of the extravaganza, for since it has been on the road Mr. Henderson has put on a new edition which is the eventh one of the piece since its first production. Bogie Man Norman has a new song, Edward Edison Foy has evolved any amount of characteristic new grotesqueric and an entire new ballot has been introduced in which will be seen for the first time here, a new and youthful premier danseuse, Miss Edith Craske. Miss Craske is only 15 years old, but she is said to be one of the most accomplished premieres that Mr. Henderson has yet discovered. Two other new dancers, the Sisters Chitton, will also appear for the first time here. They are Spanish girls, and their character pas de deux is said to be something extremely novel. Miss Villars, Foy, Norman and Count Spencer Gracey have numerous new verses for that ever popular topical song "What Are the Wild Waves Saying." "Sinbad s' fare-well engagement at the Chicago Operahouse prom'ses to be the most brilliant two weeks that it has ever played here, and when applied to the record breaker's past history means a great deal.

Next season's extravaganza, "Ali Baba, or Morgiana and the Forty Thieves," is now well under way.

Following "Sinbad" at the Chicago Opera-house comes the New York Casino Opera company, headed by Marie Tempest and including all the prime favorites of that famous organization. A sumptuous production of the "Tyrolean" will be given during the first week of the engagement, and possibly a grand revival of "Nanon" during the second.

M'VICKER'S

offer a program of varied attractions. The soloist will be Mme. Julia Rive-King, the eminent soloist, who is no stranger to the people of this city. She is justly regarded as one of the finest pianists in the country. Her number will be the Ts haikowsky Fantasie de Concert, which is new to the people of Chicago. The remaining instrumental numbers are the Dvorak symphony in G major No. 4. This performance will be the first in America. The symphony is in the best vein of this eccentric but brilliant writer. It will be the leading instrumental number. The remaining com-positions are the Wagner Siegfried Idyl, Brahms Hungarian dances, and Liszt's symphonic poem Mazeppa. MADISON STREET OPERA-HOUSE.

Commencing Sunday matinee. Feb. 8, for one week, the City Sports' Burlesque company will be the attraction. It is a company of thirty-five artists, many of whom are well known throughout the theaters of the United States. The performance is one of musical merit opening with a musical burletta in which the entire company take part. 'The olio of novelties is one of unusual strength, including, among other features, Flatow, the silent acrobathe wonder: the Sheridans, Phil and Crissie, in a hilarious black-face act; the Le-Ardo Sisters, in statuesque groupings, assisted by a score of beautiful young ladies in a ballet of na-tions. Flynn and Zittella, in a laughable comedy sketch, are followed by Marlow and Plunkett, a clever team of banjoists and vocalists. Beatrice, the little contortionist, is a marvel. The losing burlesque is entitled "Knee-Fow, or the Destruction of a Home." It is replete with many funny climaxes, charming music and brilliant marches, while the costuming is gorgeous. The English queen of burlesque. Mile. Zittella. and Crissie Sheridan are two artists in burlesque who shine brilliantly at the head of this organization, which stands among the leaders of nurlesque.

HAVLIN'S.

It affords Mr. Havlin great pleasure to inform the patrons of his dainty theater that W. A. GUIDES AND HUNTING.

the Peculiarities of a Novice on His First Hunt.

There are few things in life that are more touching than the absolute confidence in himself felt by the novice in big game hunting, remarks the Forest and Stream. It does not occur to him that anything more is needed for a successful hunting trip than a good weapon and good ammunition. Given these, and the ability to walk or ride about, and he regards success in killing game as assured, provided there exists any in the region which he chooses as his hunting ground.

He starts out with or without a guide, and wanders about. He does not know where to look for game nor how to approach it. If he is alone, perhaps he whistles a merry tune as he walks along or hums an air; at all events he steps on sticks and breaks them, or noisily pushes his way through the crackling underbrush; he walks rapidly, for he desires to cover as much ground as possible before returning to camp. If he is in company with a guide, he very likely keeps up an animated conversation with the latter, asking questions about the strange things that he sees, or trying to learn something of the habits of the animals that he is pursuing. If there is much game in the country, and it is pretty open, perhaps he sees some, but much more likely he does not. However, if game is abundant, he very likely sees tracks that look to him quite fresh, and possibly even a running deer, or elk, or a mountain sheen far above him. just disappearing over the crest of some bluff, or perhaps standing statue-like outlined against the sky on some lofty crag. watching him for a moment before it seeks safety in some situation which is still more inaccessible. All this perplexes our young friend and he wonders why all these animals appear to be alarmed and what can have frightened them.

When he returns to camp after a day of fruitless hunting, he thinks that now, at all events, ne will have some fun and try his gun, and so he sets up a tin can or a bottle on a stick and amuses himself by shooting at it, making the echoes ring for miles around and arousing to unusual alertness and suspicion every wild creature within hearing.

As may be readily imagined, the young man whom we have described is not popular with old hunters in whose company he may find himself in camp. He is a veritable thorn in their sides, and withal so entirely innocent and well intentioned that one cannot get angry with him except in the inmost recesses of one's own M'VICKER'S "The Old Homestead." engagement at McVickers Theatre eommencing Monday. March 7, with matinee Saturday. "The Old Homestead" is a play which can be enjoyed over and over again; each time some new and delicate beauty appears, or some pleasant memory is awakened, or some sweet fancy is suggested. Certain it is that no other play before us at the present time abounds in such wholesome material as we find in the homely pictures and the genial humor and the tender pathos presented by Denman Thompson in his latest work. The conventional play has for many years been an imported article, and it has dealt in scandal and intrigue. This being the case, we cannot wonder that the theater has been tabooed by a large class of people. The modern society play has had its run. But it could not last long, because it was unsubstantial, hollow, unnatural; and the same may truthfully be said of the so-called domestic drama. In Uncle Joshua Whitcomb we recognize an old friend: we knew him in Maine, Vermont, New Hampshire --yes, and in York State too: his name was not Joshua Whitcomb in the old days, but he was then the same lovable character he is today, his heart as tender, his charity as universal, his humor as quaint, and his pathos as tender. So while you and 1 and others may disagree as to who he was when we were boys, we do agree that each of us knew him then and that we all love him now.

We laugh riotously, for it is fun to be boys and girls again; but we cry. too, for in all we see and hear there is so much of suggestion-tender. beautiful suggestion. We see more than our eyes behold, and we hear more than that which falls upon our ears. Faces that are dust now, voices that were hushed forever long ago-these are the sights and these the sounds recalled by the magic of Denman Thompson's art.

CASINO. Mr. J. H. Haverly has every reason to congratulate himself upon the success of his efforts to establish a permanent nome for minstrelsy in Chicago. The amusement seekers and the public generally have endorsed the enterprise. as evidenced by the very liberal patronage bestowed. For "clean cut" minstrelsy, innocent mirth and bearty entertainment, nothing better or more pleasing has been presented to the public than that given by Haverly's Mastodon Minstrels at the Casino-Eden Musee.

"Minstrels come and Minstrels go,

But Haverly's (J. H.) forever. The program of the past week was bright and attractive, the attendance large, particularly at the matinees which are attended by ladies and children in great numbers. The Musee department is being made more interesting every week and that is a magnet in itself, so much so, that the Casino has got to be a regular family resort, per-fect in every detail. The coming week's program of the Mastodon Minstrels is replete with good things. Mr. Banks Winter, the great tenor, sings his song, "I can't believe her faithless," which has been nightly encored. Ell-wood, the famous male soprano, con. tinues in his splendid impersonation-Billy Rice and the other comedians have new specialties and a new finale to the first part-"Maggie Murphy's Reception"-by Percy Denton, receives a curtain call every performance.

CLARK STREET THEATER.

Beginning with the matinee next Sunday, March 6, we are to have America's brightest young actor, Mr. N. S. Wood, who comes here with his own company for one week's stay and will produce his latest success "The Orphans of New York," written especially for him by our townsman, Mr. Con T. Murphy. An exchange says: "The Orphans of New York" is by far the best play that Mr. Wood has presented in Chicago. The plot is clean and contains, some novel situations, the dialogue good and the comedy element strong. An additional interest is lent to the play by the scenic effects, which are really hand-Catholic Orphan Asylum being especially fine. The company is an all-around good one, being so evenly balanced that special mention of any one member of the cast is unnecessary.-Chicago Herald.

PEOPLE'S.

Beginning Sunday matinee March 6, los. J. Sullivan, one of the best of our Irish comedians, will be seen at the People's in a new and representative Irish comedy-drama, called 'Black thorn.

Mr. Sullivan will be supported by an prepared for him. elegant cast, selected with special care by the well-known dramatic agent and successful manager, Mr. Thos. Winnet, who also manages the fortunes of the company.

March 13 another Sullivan will be een at the People's for one week, his only appearance in Chicago this season, none other than our own John L., supported by the Duncan Harrison company.
