Her Hand in Mariage.

When a boy, some sixty years ago, I lived in Windham, Coan. There was a queer character there named Daniels Kingsley, a cooper, renowned for his old speeches, and the delight of the boys, for he was always ready to go bunting and fishing with them. When a young map he fell in love with one Lucy Smith, and, as was the cuision in those days, he went to ask cuision in those days, he went to ask coment of her father. "Josiah," he said, "Twe been thinking I want to consent of her father. "Josiah," he said, "Twe been thinking I want to consent of her father. the stronger.

It is a survival of the fittest at work, and the victims are many.

We repeat the assertion that coffee does harm many people, not all, but an army large enough to appal the investigator and searcher for facts.

The next prevarication of the coffee importers and reasters is their statement that Postum Food Coffee is made of roasted peas, beans or corn, and mixed with a low grade of coffee and that it contains no nourishment.

We have previously offered to wager \$100,000.00 with them that their statements are absolutely false.

A Good-Sized Manure Spreader

A Good-Sized Manure Spreader.

After five years' experience with a manure spreader I think this machine on the farm much profitted machines on the farm much profitted machines on the farm in the profitted machines and they are increasing in number here every year. One man with a spreader can haul out more manure and spread it better than two meu with a wagon can after following the old style of spreading manure. The manure that works best is, of the manure that works best is, of preading manure of the manure that works best is, of preading manure. It is seen to the pread of the manure has been to the form the team and man. A considerable amount of litter in manure does not increase the difficulty of handling it unless the manure has been heated up or burned up largely. Then unless it is well shaken it will come oft in fakes once in a while the properly handles once in a while the properly handles once in a while up to the properly handles. The registrict is used to think of getting a smaller machine, nor would I recommend any man to get a small one.

Now as to the food value of Postum. It contains the parts of the wheat berry which carry the elemental salts, such as ifme, iran, potant, elica, etc., used by the life forces to rebuild the cellular tissue, and that is particularly true of the phosphate of potash, also found in Grape-Nuts, which combines in the human body with alternative that the combination, together with wer that combination, together with wer the combination, together with wer the combination, together with were the control of ent or chronic disease; realize for one coffee users. Ask your coffee drinking friends if they keep free from any sort of aches and afla. You will be startled at the percentage and will very naturally seek to place the cause of disorder on something aside from coffee, whether food, inherited tendencies or something also.

And says "I can't quit" you will have discovered one of the slaves of the cof-fee importer. Treat such kindly, for they seem absolutely powerless to stop the gradual but sure destruction of body and health. Nature has a way of destroying a part of the people to make room for the stronger. It is the old law of "the surelyal of the fittest" at work, and the victims are many.

Please remember we never say or dinary coffee hirts everyone.

Some people use it regularly and seem strong enough to withstand its attacks, but there is misery and disease in store for the man or woman who peraists in its use when nature protests, by heart weakness, stomach and bowel troubles, kidney disease weak eves or general nervous prostrated and bowel troubles, kidney disease weak eves or general nervous prostrated and bowel troubles, kidney disease weak eves or general nervous prostrated and the strength of the control of any medicine and will grow worse. It is easy to leave off the old-fash-ioned coffee by adopting Postum Food Coffee, for in it one finds a pleasing bot breakfast or dinner beverage that has the deep seal brown color, changing to a rich golden brown when good cream is added.
