KEEPS WATCH ON CUBA

PREPARED TO SEND ARMY

Every Available Soldier Would Be Sent to Island to Quell Rebel-lion and Maintain a Stable Government.

Washington.—President Roosevelt is keenly alive to the progress of the revolutionary movement in Cuba and the responsibility of the United States in case the conditions grow was and intervention

keen which would make such inter-ention effective.

The ships that have been sent to tuba are there for the purpose only f protecting American interests and renishing asylum for Americans who lay be in danger from the warring

ions.

tual intervention would mean the

of the army and all the available
es would no doubt be needed and
be ready if a serious situation de-

will be ready if a serious situation develops.

Under present conditions, the army has been kept in a better state of preparation than ever before, and will be ready if called upon.

Correspondence betwegn the president, the secretary of war and Gen. Bell, chief of staff, has provided for all contingencies. It is recognized that intervention would be no "holiday" matter, but that an army would be necessary and in case of intervention every available man would be used and will be sent to Cuba as fast as possible.

Authority for the intervention in Cuban affairs is contained in the third article, of the Piatt amendment, adopted by congress in the army appropriation bill of 1902.

WARM GREETING FOR BRYAN Henry Watterson Extends Welcome to South at Louisville.

to South at Louisville.

Louisville, Ky.—Entering the southland for the first time in two years,
William Jennings Bryan Wednesday
received a welcome which in warmth
and spontaneity has not been surpassed by any of the greetings given
him since his return from his tour of
the world. His arrival fin the city
provoked a great outburst of acclamations from thousands of marchers and
yet shore thousands on the streets.
His reception at the armory at night,
where he addressed a crowd of 12,000
people, was nothing less than a volcanic eruption of enthusiasm.
Mr. Bryan was welcomed to Kentucky by his whilom opponent, Henry
Watterson, who presided over the
meeting. The other speakers precedling Mr. Bryan were Senator Carmack,
of Tennessee, representing the south,
and Senator W. J. Stone, of Missouri,

ennessee, representing the south, Senator W. J. Stone, of Missouri, introduced the guest of honor.

TWELVE KILLED IN RAIL WRECK

Airbrakes Fail to Work and Harvester Train Bumps Into Passenger.

Montreal, Que.—Officials of the Ca-nadian Pacific railway say 12 persons were killed and 12 injured in the wreck near Chelmsford Wednesday. All the killed were in the colonist car's next to the engine of the west-bound train. Most of them were harvest hands.

hands.

A harvester train going west was to meet the regular east-bound Winnipes train. On a very steep grade the airbrakes failed to work and the harvester train bumped into the Winnipeg train, smashing the first two coaches to pieces.

Independents Nominate Hearst.
New York. — In a harmonious and enthusiastic findi session in Carnegie hall Wednesday night the state convention of the Independence league put into the field a straight ticket of state officers, headed by W. R. Hearst, to be voted for at the coming election. The delegates cheered for 33 minutes when Mr. Hearst appeared on the pistform to make a brief speech of acceptance. His address aroused much enthusiasm.

as the "age of from," and there is no sainsaying that, industrially epeaking, from is a "precious metal."

Nevertheless, few people realise how useful, if not absolutely necessary, to modern civilization, is that other metal, lead. Soft, yielding, pliable, it is not much like its sister metal, but those distinguishing qualities are what give it such a prominent place in the arts and industries.

Modern pumbing, requiring many distinct the property of the property in the property in which "babbit" metal is used.

Eolder is another lead production of all to which lead is put—paint, that necessary material which keeps our houses looking pretty—inside and out—and preserves them from decay.

How many of us thank metallic lead

our houses looking pretty—inside and out—and preserves them from decay. How many of us thank metallic lead for the comforts of paint? Yet the best house paint is nothing but metallic lead corroded by acid to a white powder known as "white lead." Of course, there are many imitations of "white lead," some of which are sold as white lead and some which are oldered by the name of ready-prepared paint under the familiar pretense that they are "just a point is made of the metal, lead, corroded and ground to a fine white powder and mixed with linseed oil.

White lead is also used in the coating of fine oil cloths and for many purposes besides paint.

"Red lead" is another product of metallic lead and is what is known as an oxide of lead, being produced by burning the metal. Red lead is the best paint known to preserve iron, steel or tis, and is used largely in painting metal structures, such as skyscraper skeletons, mills and bridge and the such as litharge, orange mineral, etc., which are essential to many of the arts in which we never imagine that lead would be of-the lead used.

Verity, we live in an age of lead as well as of iron.

"Keep on drinking, and it will turn purple."

as well as of iron.

Three Great Conversationalists. The three greatest conversationalists with whom it has been my good fortune to come into touch were Massini, Dr. Oliver Wendell Holmes and Blamark.

Of these, Dr. Holmes was the most spirited in the bel esprit sense; Bismarck the most imposing and at the same time the most entertaining in point of wit, sarcasm, anecdote and narrative of historical interest, brought out with rushing vivacity and with lightning-like illumination of conditions, facts and men.

In Maszini words there breathed such a warmth and depth of conviction, such enthusiasm of faith in the sacredness of the principles professed and of the sins pursued by him, that it was difficult to resist such a power of fascination.—Carl Schurz, in McClure's Maszains.

New York, Aug. 30.—The preliminary statement of the Eric Railroad for the fiscal year ended June 30th, 1306, made public to-day, shows gross earnings of over \$45,000,000, an increase over the previous year of \$4,247,000.

Of the increase in working expenses, 170,000, and an increase in set of \$1,247,000.

Of the increase in working expenses, 170,000,000, and an increase in working expenses of the roadway, which was given an unusually liberal allowance of new steel rail and ties. Operating expenses during the same period had an additional charge of \$1,000,000, in rehabilitating the equipment, the result being that the power has been placed in an excellent condition for increased beatness. The additional expenditures in the limprovement of the roadway and equipment are manifestity in the right direction and are a direct addition to the assets of the Company.

The transportation of over \$4,000,000, additional gross earnings. This is a further indication that the improvements which have been completed are producing the transportation. About \$2,000,000 of the Company's income was used for further improvements of the property during the year, an increase of \$566,000 over the previous year.

The Company is now better prepared to handle a largely increased business than ever before in its likeory.

Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First—The indisputable evidence that it is harmless: Second—That it not only allays stomach pains and quiets the nerves, but assimilates the food: Third—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system-not by stupefying it-and our readers are entitled to the information. -Hall's Journal of Health.

South Africa's Gold Production.
The production of gold in the mines of South Africa for the month of June was the greatest ever recorded. In the first six months of the current year the production was nearly \$6,000,000 greater than in the corresponding time last year.

The natives of the Malay peninsula have in use the smallest current coin in the world. It is a sort of wafer, made from the resinous juice of a tree, and is worth about one-twenty-thousandth of a cent.

addressed to Chas. H. Fletcher.

Dr. B. Balatead Scott, of Chicago, Illa, says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactor," Dr. William Belmont, of Cieveland, Ohio, says: "Our Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the piace."

Dr. J. H. Taft, of Brooklyn, N. Y., says: "In secribe your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. B. J. Hammen, of Detroit, Mich., says: "I prescribe your Castoria and troubles. I sam sware that there are initiations in the field, but I always see that my patients get Fletcher."

Dr. Wn. J. McCrann, of Omaha, Neh., says: "As the father of thirteen children I certainly know something about your great medicine, and saide from my own family experience I have in my years of practice found Castoria a popular and efficient remody in almost every home."

Dr. J. R. Clausen, of Philadelphia, Ps., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, carrely needs to be supplemented by the endorsement of the medical profession, but I, for ona, most heartily endorse it and believe it an excellent remoty."

Dr. R. L. Ward, of Kansas City, Mo, says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughty reliable remoty for children's complaints. Any physician who has raised a family, as I have, will join me in heartiet recommendation of Castoria."
