Had Church Roof Fixed.

Miles Finien, the rich Montana copper miner, visited some relatives in Bay City, Mich, recently. He attended services in an old wooden church, and while there a rainstorm came up. The roof leaked, and some water fellon Finien's neck. After the services had ended he asked one of the church officials: "Why in blazes don't you give people a decent place to worship in?" I suspect it's because we haven't the money," was the suggestive reply. Next afternoon material for a new roof began to arrive in front of the church and Finien walked into the pastor's study with a check for \$750.

"Fix up your old roof," is all he sald.—Indianapolis News.

Gaseline and Alcohol.

The greater safety of alcohol, as compared with gasoline for commercial uses, is due to the fact that it will not ignite from pure radiated heat, as gasoline does: that water will extinguish burning alcohol while it will only spread a fire of gasoline, and that the flames of burning alcohol radiates very little heat while that of gasoline radiates heat very rapidly.

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

¶ Up to the Fall of 1904 farming was hardly thought of in the lower Gulf Coast Country of Texas. The region was given

over almost exclusively to cattle raising.

¶ Now it is shipping hundreds of carloads of vegetables of all kinds for which it receives the highest prices.

■ In another five years it will be storing up millions of dollars annually from its agricultural products alone, equaling California in many of its fruits, and surpassing every other region of the United States in Winter and early Spring vegetables.

■ It is a land where it is a delight to live and breathe—where surf bathing and the salt sea air are but a few miles away.

¬ Are YOU interested in such a country? If you knew Southern Texas you would certainly be interested in it and would want to share in its transportory wealth.
