There is no accounting for tastes Grip bacilli love a close, ill-ventilated

Do not strain your eyes looking for prosperity, but get out and help it

Gertrude Atherton finds Edith Wharton "dull." We await Edith's cross-counter.

In the new year it is believed that a larger number than ever will try to swear off their taxes.

Now that the Japa in Vancouver have become the aggressors, what will be the international aspect of the case?

What would the naval doctor in command do if his boat were selzed with a sinking spell? Inject nitrogly-cerine?

Leap year will have a salutary ef-fect on the vanity of those bachelors who have been enjoying anticipatory thrills of worry. These scientific inquiries as to why nosquitoes do not bite frogs are plain-y an effort to tempt somebody to dart nature faking.

A wooden pavement, when made of ectangular blocks that have been recosted and honestly laid, approach a closely to the ideal.

Andrew Carnegie's opinion that the world is growing better indicates the complacent mood that comes when the golf is going well.

As to the proposition to pension our ex-presidents, ought not something be done for one or two of our most dis-tinguished never-presidents?

South America is naturally in-clined to regard the fleet as some-thing that does not particularly con-cern its interests one way or another.

Ann, according to the Philadelphia Bulletin, is a popular name among brides. And Anny name for a bride-groom is sufficient for a receptive

bride.

An Ohio judge is a private in the mational guard of that state. He would be in a quandary if the troops should be called out while he is trying a case.

a case.

That this is an age of paradoxes is proved again by the fact that a famous living skeleton, formerly with Barnum, has just died from fatty degen

A man who possesses the titles of earl and baron is starving in St. Louis because he cannot find a job. He does not explain why he has neglected to marry an helress.

marry an helress.

If any foreign nation should attach our noble fleet of battle ships on their journey. Admiral Evans will doubtless order the battery of 21 plandlas (action, and the fight will be over.

A man six feet one inch in height and weighing only 80 pounds has just died in Rhode Island. What a greatester of airships he would have beet if he had made use of his talents!

A New York cafe has made its women patrons a New Year's presen-of permission to smoke. In making some presents it's often a wise thing to consult the fastes of the recipients

Fifty members of the Massachusetti legislature work by the day for wages It is to be hoped that their election to the legislature may not lead them to think working for a living is foolial

or unnecessary.

One of the predictions for the new year is that it will solve the problem of practical aerial travel. So much progress had been made in this direction and interest is so enthusiastically aroused in the various experiments on the property of the property

tive person expects to see realized.

A marriage is to be ceiterated in New Haven which has a rather unusual romance. While attending a gaine of golf the lady in the case hit a ball while struck and stumed the gentleman. On his recovery the peniture player apposing and the rother fair sex will not be obliged to resort to such vigorous measures to bring down their game, as, being leap year, they have the privilege of proposing, while the mea have not that of refusing.

A Montreal paper has been fined for calling the members of the provincial legislature fools and gnoranuses. The paper would probably have been able to secure a verdlet in its own favor it it had not induged in such ally tautology.

favor if it had not indulged in such silly tautology.

A scientist has discovered that a grip germ has barbs. These, in ad-dition to the thumb-serws, red-hot pinchiers and ice tongs, give him a decided advantage over such purells bacilli as those of malaria and small-
