## FREIGHT RATE FAVORS

The "Railroad Age Gazette"

### Discusses Freight

Rates.

**Special rates given by railroads to shippers in a way to favor certain places or certain trades are now being discussed all over the country. The railroads and shippers take it for granted that higher rates for inland freight than for shipments to Pacific ports for ocean carriage to distant countries is necessary. The rate which has been given to steamship companies, it says, would not pay the road if applied to all freight over the same line. For one thing, this paper says that cars would go westward empty without this ocean freight to more add that the reduced rate covers the cost to the road of actual handling and handling. The railroads maintain that they are compelled to divide the rate with the steamship companies or lose the business. According to the Gazette, the railroads have objected to the publication of the statement that the railroads, the fact would be called upon to the roads for a reduction of dome-  
tic rates, and the intervening power would not be likely to permit discrimination against the general public. The roads, it is hinted, would rather lose this freight than have the matter come to an issue.**

Another discrimination complained of is the special and low rates "for places." Allowances to certain regions, to certain big cities and to certain jobbing centers, no longer have the approval of the interstate commerce commission, it is declared. Special exemptions have been offered by the railroad officials and by the interests favored why these allowances have been made and ought to be continued. Critics of the system say that places which are entitled to have special advantages in the matter of freight rates, more than individuals, firms or trusts. The system grew up under relatives, and the next relative trial may involve a whole trading community, for instance, Chicago, New York or St. Louis.

### TEACHERS' MEETING.

All Teachers Should Attend Next Saturday.

The second meeting for this school year of the Cook county teachers association will be held in the association auditorium, corner La Salle street and Arcade court, Saturday, November 14, 1908, at 9:30 a.m. An address will be delivered by Dr. Newell Dwight Hillis, Plymouth church, Brooklyn, on the subject of "Oliver Cromwell" and the story of the life liberties of the republic.

Afternoon, All teachers of the private schools who have had previous teaching experience and with but one year's experience in Cook county, will meet in the county superintendent's office, county building, at 2 p.m. The other rural teachers will meet in the Y. M. C. A. building, hereabouts, at 2 p.m. Miss Nash will be present in each place a part of the session for vocal music practice.

A strict account will be kept of the attendance and each teacher will be required to give a satisfactory excuse for any absence. The meetings are arranged officially for the benefit of the teachers, and the eight afternoons of the school year, of about one and one-half hours each, must be set apart by them for this purpose.

At the Majestic.

William H. Thompson, one of America's most distinguished character actors, will head the bill at the Majestic theatre, Chicago, for the week of November 16th, appearing in the one act clowns which dramatic writers pronounce the most artistic players ever seen in a vaudeville theatre. Mr. Thompson needs no introduction to them, however, as for years he has been a conspicuous character in the list of foremost American players. Another important feature will be the miniature musical comedy production, "Paradise Alley," with a strong cast of well known players. Marguerite Haney, a dashing young soubrette has one of the principal parts, and sings a number of tuneful songs. The scene is on New York's east side and a well defined plot and story details the laughable side of life in that quarter known all over the country as the "Bowery." The Misses Melnotte and Clay Smith offer a melange of mirth and music called "Artistic Nonsense," and Martineau and Sylvester, are two acrobats whose eccentric methods and funny twirls, have caused considerable audiences to laugh. Paul Parks, America's most charming fiddler, will present his series of dancing features, and there are a half dozen other good acts in the bill which make up an unusually entertaining program.

### CHARLES WHITNEY NOW A CANDIDATE FOR CIRCUIT JUDGE

**FORMAL ANNOUNCEMENT MADE.**

Members of Bar Pursue Lake County Leader and One of Deans of Profession to Make Run for Bench and he Acceds to Formal Announcement of Intention.

Charles Whitney, one of the deans of the Lake county bar, in response to solicitations of the members of the bar, has formally announced himself as a candidate for judge of the circuit court of the seventeenth judicial district.

Following is the petition signed by members of the bar for the Lake candidate and his formal announcement:

We, the undersigned members of the Lake county bar recognize the fact that litigation is on the increase in this county and that at the present time, and for some time past, the circuit court docket of this county is and has been the largest and most important of any in this judicial district, owing to the increased litigation, we feel and believe that Lake county is entitled and ought to have a resident judge who will be able to give more of his time to the holding of court in this district.

Therefore, to that end, we most respectfully endorse the Honorable Charles Whitney as a lawyer and man eminently good and well qualified to fill this position. And we do desire that he be a candidate for nomination at the next judicial primaries for one of the judicial buildings to be filled at that time.

L. Upton, David H. Jackson, U. N. Durand, C. C. Copeland, F. S. Munro, K. R. Snout, Ernest S. Gall, Martin C. Decker, Horace Wright Cooke, E. Herman Gade, Phillip W. Mohrlester, V. V. Barnes, Claire C. Edwards, E. W. Colby, Paul McGehee, W. G. Strong, Margaret Parmalesse, E. M. Runyan, A. K. Stearns, Perry L. Pease, E. V. Orvis, Clarence V. Dyer, R. W. Churchill, A. V. Smith, H. M. Bacon, Everett Millard, George Mason, Ralph J. Daly.

Pursuant to the desire of the members of the bar of Lake county, and at the request of many reputable voters of the county, I have concluded to become a candidate for one of the three circuit judgeships in the district, over the support of the clouds would be a boon to humanity. It is conceded that the rainfall averages about the same throughout a series of years. Since it is bound to fall, say and is needed for duty on the crops. It would be a boon to have it come down when the crops are threatening.

You much rain at one time makes too little rain at another time inevitable. Rain has apparently been made out of dry by the use of explosives, although some experts say that the dependence between the amount of the clouds and rainfall was purely accidental.

The same experts recognize that atmospheric conditions and pressure govern the rainfall. The problem, then, for raimaking seems to be to coax or irritate or squeeze the shy atmosphere until it gives down rain.

The superficial area of the globe is about 197,000,000 square miles, some three-quarters of which about 140,000,000 square miles, is covered by sea. The average depth of the ocean is 12,000 feet, so that the area of the various gulfs and bays is about 2,000,000. The greatest depth is in the north Pacific ocean, 4,575 fathoms, not quite five and a quarter miles.—New York American.

## NEW MURDER FARM

Son of Chicagoan Slain and

Buried in Chicken Yard at Marengo.

Out on a desolate little plot of ground two miles north of Marengo, a girl has uncovered a murder mystery, the details of which indicate cold-blooded crime that the farmers living in the vicinity have been fascinated by the

The body of Oscar Hoganhan, a young farmer who was living the life of a hermit on his own farm, has been dug up out of the soft earth of a chicken house on the farm of John N. Bedford, like Hoganhan he had been living alone on his farm, but disappeared immediately after Hoganhan's death. Such a mass of circumstantial evidence was discovered which pointed to him that when he finally was found in Ellis, Nebraska, he was arrested and now is being brought back to Chicago. A strange presentation of the dead man's sister, Arvilla Hoganhan, is credited with the discovery of the body.

The Future of Submarines.

The future of the submarine vessel for war purposes may depend upon the success or failure of the shipwrights in the design of armament.

It is asserted by some enthusiasts that the Allies will put the military nation on its toes. If it fails the race assigned to it by theorists it will be able to turn its propellers down upon a fleet and be itself invincible to attack except from other airships.

Should the warship that plows the wave be driven from the sea by the guerrillas of the air the submarine craft will find its occupation gone.

There will be no more battleships to stalk with impetuosity. The next evolution would naturally be a disappearing warship that could dash and dodge the airships, then come to the surface for exertion against the allies of the airships. Up to date the submarine has proved more dangerous to its own side than it could to the enemy.

Submarines are becoming more and more to be depended upon for protection and interesting, but their present value is yet to be demonstrated.

American Books in England.

The old school of English, "What good is English?" has been changed to "What good is an American book?" Scouring the home field, a disappointed critic declares that the answer English need "is not enough to one and a half" and adds that it could be to the enemy.

SCHOOL NOTES.

Rev. O. F. Mattison visited here Monday.

Otto Miller returned to school Monday.

Room 4 is planning a Thanksgiving program.

An improvement has been made in attendance, both in tardiness and absence.

Eight new books have been added to the library, four with reference to Greece and four to Rome.

Mrs. Alta Powers of the Lake Zurich school and Mr. Littlejohn of the Kellogg school visited here Tuesday of last week.

Those in grade 5 that were perfect in spelling are: James Cress, Irene Radke, Reuben Auras and Gertrude Nader.

Preston Collins, Ray Powers, Otto Radke, Otto Brommekamp, Magdalene Schutte and Beulah McLaughlin of room 2 are absent on account of a lunging cough.

The second year German class is planning to spend one vacation each week in German conversation. A topic will be assigned and the pupils will discuss it in the German language.

The annual meeting of the Northern Illinois teachers' association was held at Joliet last Friday. School was suspended on that day. Between sessions the teachers visited the prison in the city.

The members of the Lauren Library society are planning a Thanksgiving program to be given on Wednesday afternoon, the day before Thanksgiving. This program will take the place of the regular weekly meeting of the club.

A letter was sent by the committee to the Honorable E. W. Chaffin, announcing his election as president of the students in the Barrington high school. Mr. Chaffin in reply sent a letter of thanks to the prohibition chairman, sun cards and photos of himself to each member of the committee, besides a handsome copy of the educational platform.

Running for the Presidency.

Stigly spoketh not so much regarding as inking that is demanded of a presidential nominee as campaigns go in these days. The ambitious boy who has been told that among the good things that may happen if he takes care of himself is his elevation to the highest office in the land can make no mistake if he goes into training for the calling end of it. He must be modest, "which is the best part of it," and he must be honest, "which is the best part of it." Then he must be a good speaker, "which is the best part of it." Then he must be a good orator, "which is the best part of it." Then he must be a good debater, "which is the best part of it." Then he must be a good writer, "which is the best part of it."
