CHAPTER V.

A Gisset Arriong Women.
Miss Anne Gattle, seated in Mrs.
Jimmle Wellington's seat, had not beard Mr. Jimmle Wellington's abecth of his wife. But she needed hardly more than a giance to battley herself that she and Mrs. Jimmle were as hopelessly antipathetic as only two polite women can be.

"Matches! I never carry them!"
They hever have matches in the
women's room, and I're used my last
one."
Miss Gattle took another reef in her
tight ligh. "Do you smoke clearettes?"
Mirs. Wellington's echoed disgust
with disgust? "Mirs. Medical licenter
with disgust? "Mirs. Minded. I louther
tight ligh." Do you smoke clearette?
Mirs. Jimme was so well used to
being disapproved of that it never
disturbed her. She went on as if the
face opposite were not alive with horror: "I should think that clears might
he a great consolation to a lady missionar? In the long lone hours ofmisonary in the long lone and the remisonary in the long lone and the remison misonary in the lone of the lone
"That depende."

"That depende."

"The was something almost spiritusin if hir, Jimmie's beating lone; "I
carry "Lining if did. That's why I am forced
to Illia departal step."

"Divergent"

"Well; this will be only my second
lone fateway with one of missance. I
got that from Jimmie, too. But it
didn't that. Then we made up and remarried. Balier odd, having a second
lone fateway with ones first succould any
better. Jimmie sell off the waterwagon with an averal splant, and he
more in the lone of the waterwagon with an averal splant, and he

"Excuse me. Could you lend me a
match? They never have matches in
the Women's Room."
He succeeded in producing a box
after much shifting of burdens, and be
was rewarded with a look and a
phrase:

was rewarous with physics. The property of the

voice:
"Pardon me, but is this the car for
Reno?"
He turned to smile, "I believe so!"
Then his eyes widened as he recognized the speaker.
"Mirs. Sammy Whitcomb!"
It promised to be a curious journey.

CHAPTER VI.

A Conspiracy in Satin.

The iail man emptied one hand of its suttoase to clasp the hand the new-comer granted him. He held it tast as he exclaimed: "Don't tell me that you are bound for Reno!" She whimpered: "I'm afraid so, Mr. Ashton." In the second of t

too."
Ashion, sealous comforter, took a
wrashful tone: "I always thought your
husband was the most unmittgated—"
But Mrs. Whitcomb bridled at once,
"How dare you criticles Saimy! He's
the nicest boy in the world."
Ashion recovered quickly, "That's
what I started to say. Will be contest
the—divoror!"

what i skarted to say. Whi he content the—divorop?"

"Of course not," she beamed. "The hear fellow would never deny me any-thing. Sammy offered to get it him-self, but I told him he'd better stay in Chicago and stick to business. I shall need such a tot of alimony."

"Too bad he couldn't have come along." Ashton instinated. But the irony was wasted, for she

Stock like turnipa

Give every horse his own

Cull the awe flock before breeding

The sor bean is an

Cut the weeds out of the forms before they go to seed.

Pige fed on dirty, dusty fic upt to contract lung trouble.

How about underdraining that low lace on the farm? Now is the time You must have vigor in the you expect strong vitality in

The hoe is a wonderful tool for serving the moisture around the splants.

No need of "pitch holes" or ruts in the road. Use the King road drag brothers. All young animals to be profitable should be kept growing from birth until maturity.

The self-sucking cow and the con-firmed fence breaker are equally dis-agreeable to have in the hard.

Farmers will not get the full bene-fit of the rural free delivery until after they get the parcels post.

The total production of phosphate ock in this country in 1910 was 2, 54,988 long tons, valued at \$10,917,000

After all that may be said in favor of other pastures, clover stands at the head when it comes to the right thing for pigs.

Don't let those cockle burns go to seed on stubble ground seeded down. Run the mower over the field before seeds form.

Do not cut the grass a day too early or a day too late. Send in the mower just when bloom shows like a mist over the field. Get ready to cull the ewe flock be-fore breeding this fail. There are some ewes that are too old and should go to market.

A dust mulch for the garden is bet-ter than a sprinkling can. Stir the soil every few days and you will need to carry very little water.

A sharp disk is the best tool that can be used to level down the bogs on a piece of rough, boggy slough land after the tilers are through.

There is money as well as human-ity in providing shade for picketed or shut-in calves or other-animals. It costs so little to try this it is a shame

A parasite with a long and unpresounceable name has been introduce

Make a start in sheep this fall by saying 15 high grade ewes and a sure bred ram. We did this and sold sough of the increase the next pring to more than pay for the drest

Maturally, fowls are healthy, and no stock on the farm has been so much abused. Yet in spite of all the Hi-treatment they receive they do much better than any other stock on the

Moleculer is a great factor in the production of Dischberries. There is sufficient water in the just soil to ripes this frush, provide you do not let it get away. Frequent entitivation is the remedy in apply.

Try to have the

In milking it is the

A good shade goes a long oward thrift in the hog pens.

To get the best results the community be kept quiet and treated kindly

A screen fly trap setting near the back kitchen door rids the house of many flies.

There is going to be a lot of aifalfa sown this fall. How much of it will be on your farm?

It pays to get out and do as much work as possible in the early part of these hot days.

One thing that keeps the hired man on the farm is a neat, well-kept, and well arranged farm.

A disk from an old pulver makes a good anchor for-holding and post of a wire fence.

Milking the cows clean and can ully has a tendency to develop a po-intent habit of yielding milk.

It doesn't cost any more to be of ly than otherwise. And there's profit and satisfaction in it too.

Silage is highly relished by both cattle and sheep, and is fed with profit to these classes of animals.

Our advertising columns are inter-esting this month. Look them over carefully. May find something you

Three tablespoonfuls of formalin to a pint of haif water and half milk is an efficient poison to set where files congregate.

The sile should be placed where it will not interfere with the sunlight en-tering the barn, or interfere with the entrance or exits. Supplement the short pastures with those green crops you planted last spring. Didn't do it? Too bad. Remember next time.

A little gunny sacking over that poor cow's or calf's back, when it is picketed near swarms of files, will help out the feed surprisingly,

Files can't hatch without a n or dump pile to inestate in. everything clean and there will few million less of these files. n. Keep will be a

Sheep and poultry go well to geth-er, and when once the buildings and fields are ready for them, how little work, compared with other stock, it takes to care for them.

Many dairymen are giving their cows simply a maintenance ration, and then complain because there is no profit in dairying. Such dairying don't deserve to succeed.

Don't neglect to cultivate the grape vineyard up to fruiting time. The surface of the soil in the vineyard must be kept mellow throughout the hot July and August days.

Skim the milk clean. The milk containing quite a little butter fat may be most excellent for the pigs, but butter fat at 20 to 25 cents a pound is expensive pig feed.

We saved up some of our profits from farming and invested in some tirm land a few years ago. The result may surprise you, but we made 30 per capt on our investment.

The coal ash mulch is certainly good for grocesberries and also for to-matoes. Tomatoes muched with sitted coal ashes will resist blight and keep green and flourishing ionger, than without it.

As a matter of fact the farmer owns it to himself, personally, to be a office student of advanced agriculture and a public questions. This is the way to keep the mind siert and active and to keep the mind siert and active and to keep the mind siert and active and

THIRTEEN YEARS Number for Dakota

Unleady Number for Dakota Woman.

The question whether the number

"13" is really more unleady than any
other number has mere been entirely
satisfied. Dake Woman, after thirteen
years of misery from drinking coffee,
found a way to heak the 'unlucky
spell." Ten is just as injurious as coffee, because it contains caffelos, the
drug in coffee. She writes:
"For thirteen years I have been a
nerrouse wreck from drinking coffee,
My liver, stomach, hastri-en fact, my
whole system being actually poisoned
by it.

Berrous were him actually poisoned by liver, atomach, heart—in fact, my whole system being actually poisoned by the series of th
