"Yes, our new wagon's a Studebaker — the only kind we KNOW"

"The Studebaker idea has been in our family for sixty years. We have never thought of buying any other kind of a wagon."

"It's true, we're continually being offered other wagons costing a little less, with lots of promises as to what they will do. But we know in our family what a Studebaker will do. A few dollars difference in price doesn't mean much. It's the service a wagon gives that we consider most."

"Long service for a fair price means more every time than short service for a few dollars less."

"That's why we stick to Studebaker—and stick to Studebaker is a pretty good motto for a man who uses wagons. Studebaker wagons are built of good stuff. They're made right here, where we have years and years of experience in making them right. A few dollars difference in price doesn't mean much. It's the service a wagon gives that we consider most."
