

Ladies They Talk About Is Subject Offered Film Fans

"The Sign of the Cross" in Close of Run at Catlow Friday Night

The new high fidelity sound system now in operation at The Catlow theatre is eliciting highly favorable comment from patrons throughout the community. "The Kid From Spain" and "42nd Street," the two pictures chosen to introduce high fidelity to the public here, were reproduced with a wealth of orchestral tone, crisp and definite dialog, and an astonishing naturalness in the entire range of sounds and effects called for by these productions.

"The Sign of the Cross" closing its run at The Catlow Friday night, is of a nature to excite a new interest from the reproducing system. The mighty spectacles which form the moving picture of this film; the battle of the gladiators, the chariot races, the roar of the wild beasts, the mob of 7000 rushing from the burning city of Rome, all these powerful scenes are delivered with surprising reality and vividness. The production of startling tableaux into the first real epic of talking pictures.

Saturday brings Tom Mix and his new horse, Tony, Jr. to the screen, in "Terror Drill." Mix and Tony will gallop across the screen in an adventure dear to the hearts of those who thrill to a roving Western yarn. The program will be rounded out by the addition of a musical act, comedy, cartoon and late Pathe news.

On Sunday and Monday Barbara Stanwyck will be presented as "Ladies They Talk About."

The story is that of a beautiful girl who turns crook, robs a bank, is caught and sent to prison. She holds a fatal fascination for a young evangelist, whom she uses as a tool to assist in the jail break of two of her pals.

Berton S. Foster is cast as Miss Stanwyck's new leading man; and heads a large cast of featured players. The cartoon, "Hugs and Buds" on this bill is of feature interest; other short subjects are a color comedy, news reel, Hawaiian musical, fantasy and community singing. The Sunday show will be continuous from 3 p. m.

"Luxury Lines," with George Brent, will be offered next week Tuesday and Wednesday nights at reduced admission rates. The story centers about a physician who saves himself the post of ship's surgeon for a crossing after he learns that his wife is ailing aboard the vessel. Though he catches only an occasional glimpse of his wife, the glimpses are enough to drive her to desperate extremes, which vitally affect the lives of all the passengers on board.

Descriptive news events, comedy and novelty will precede the screening of the feature.

"Private Jones" with Lee Tracy in the role of the private, is a picture carrying so much genuine entertainment that The Catlow has engaged it for a three-day run, beginning Thursday of next week. It presents Tracy as a draft-dodger who is made a soldier against his will, becomes a midget, a thorn in the side of his superior officers, and a joy to all the ladies in France. Although "Private Jones" has its serious moments, its situations are for the most part light and merry.

Unemployment Insurance Would Hurt Industry

Thomas S. Hammond, president of the Illinois Manufacturers' association, has declared that compulsory unemployment insurance, if made law in Illinois, would constitute a major catastrophe for employers, employees and unemployed. Mr. Hammond stated that such action would drain from industry the means of sustaining and rehabilitating itself so as to provide work for those who are now employed and those who are unemployed.

Road Program Is Laid Before Legislature

Rep. D. Hunter, Rockford, chairman of the Illinois Commission on Future Road Program, has announced that the bills to carry out the commission's recommendations has been introduced in the general assembly. Under the commission's recommendations, an orderly and rational development and enlargement of state's primary road system is provided, simultaneous development and improvement of the so-called state aid, county trunk or "farm-to-market" road system is insured and at the same time adequate provisions have been made for needed work on state routes, state aid roads and principal thoroughfares in all of the municipalities of the state.

Pass County Commissioner Bill by 100-0 Count

By the unusual vote of 100 to 0, the house has passed the bill providing for a vote on a change from the county supervisor form of government to the commission form of government. The bill as sent to the senate provides that an election on the proposal shall be called at the next general election upon petition of not less than 5 per cent of the total vote cast

at the last presidential election. The old law provides for such a vote on petition of not less than 20 per cent of the voters. The measure was introduced by Reps. Elmer Schneckener, M. F. Browner, and Michael F. Heuserby.

How They Differ
A bald-headed man wouldn't waste his time going to a hair-dresser's, but homely girls are the beauty parlor's best customers.—Cincinnati Enquirer.

Would Eliminate Township as Road Control Unit

Believing that so important and stabilizing an influence as the state highway program should not be developed in the future without proper safeguard and with coordinated planning features, the Illinois Chamber of Commerce has approved the basic future road program recommended by the commission appointed by the 57th general assembly to develop such an

orderly and systematic plan for the future. The state chamber was especially impressed with provisions as to the elimination of the township as a coordinating and administrative unit and the allotment of funds to all municipalities on the basis of their population.

Where Are the Songwriters?
Give us one more song as sweet and popular as "Silver Threads Among the Gold" was held to be when it was new—and still is.

*It costs about three-and-a-half cents to operate a toaster for an hour.**

*It costs about three-tenths of a cent to use a heat pad for an hour.**

*It costs about three-fifths of a cent to run a radio for an hour.**

*It costs about one-cent to run a vacuum cleaner for an hour.**

It costs about one-cent to operate an electric refrigerator for an hour. (Runs only about 8 hours out of 24.)*

*It costs about one-and-one-tenth cents to run a washing machine for an hour.**

*It costs less than one cent to light a table lamp for an hour (two bulbs).**

*Figures based on average rate for 250,000 northern Illinois homes.

Where do you get more Comfort or Convenience?

Electricity is a busy servant. It sweeps carpets, washes and irons clothes, helps with the cooking. It's on the job day and night with no afternoons off.

Electricity is an iceman. It keeps a refrigerator safely chilled below the danger point. It delivers trays of sparkling ice cubes.

Electricity is a master entertainer. It brings the finest grand opera and comedy, dance music and the news of the world into the living room.

Electricity is a light-maker and an interior decorator. It illuminates dimly or brightly according to the mood—one room or a whole house according to the occasion.

Electricity is a seamstress, a janitor, a personal maid, a nurse. . . .

In half a score of roles, electricity is making your home more cheerful, more comfortable, more carefree. Plug in an extension cord or snap a switch and it's ready to answer orders.

Behind these outlets and switches is a vast and complicated system of service. Tons of crushed coal are fed into furnaces to keep boilers steaming. Machinery is humming. Men are constantly on watch. Out along the lines more men are on duty to keep miles of copper wire, buried underground and swinging overhead, pulsing with current every minute. More than 3,000 employes are working throughout this system to bring you continuous 24-hour service.

And yet, for all this service, you pay very little. The bill for all the electricity used amounts to only a small portion of the family budget. Where else could you possibly get more comfort or convenience?
