LAKE ZURICH REVIEW

Annual Election Brings Victory to Village Ticket

Payton Wins Over Kjellander 129 to 121; Record Vote Is Cast

The village ticket won over the independent ticket in a close election at Lake Zurich in which the successful candidate for president of the board defeated his rival by the scant margin of eight votes.

The independent candidate for police magistrate was unopposed and was elected, but the three independent candidates for members of the board were defeated along with their candidate for president.

A total of 253 votes was cast, just a few short of the total number of votes in the village. The results were as follows:

For President

Arthur L. Payton	129
John Kjellander	121

For Police Magistrate

Peter Jensen	128

For Trustees

Charles H. Rudolph	143
Clarence Suetsinger	149
Edward F. Young	131
Herman Buesching	105
Fred C. Pepper	103
Arthur H. Froelich	90

Secretary of State Has New Policy With Funds

Secretary of State Edward J. Hughes has adopted a new policy in the handling of state funds which are paid into his office in the form of fees. Instead of following the generation-old practice of depositing the public monies in banks and later transferring the fund to the state treasury, at long intervals, he is sending all daily receipts immediately to the state treasurer. The law provides no safeguarding of the public funds paid into the Secretary of state's office and deposited by him in banks or other public depositaries. As a result of the new rule of secretary of state, not a dollar of the taxpayers money which has passed through his office has been lost this year.

According to figures made public this week by Secretary Hughes, his office has received a grand total of $9,061,396.59, this year up to and including March 28. Except for a small bank account of a few thousand dollars retained for the refunding of over-payments of fees, every dollar of this money has been sent to the state treasurer. "My reason for sending the money received by our office immediately to the state treasurer, is simply a safety device," Mr. Hughes stated.

Permit Railroads Lower Freight Hauling Rates

So that truck competition in hauling sand for work on state highways can be met, the Illinois commerce commission Thursday granted two railroads permission to place in effect lower rates for hauling such sand between various points in Illinois without observing section 40 of the commerce act.

Oranges Are Liked

The average American consumes 25 pounds of oranges each year, while prior to 1927 the figure was 20 pounds. Government statistics also indicate that a similar trend is noticeable in Great Britain, where the annual consumption is about 20 pounds per capita.
