Wet Weather Slowing Up Planting of Oats in Cook, Lake Counties

Wet field conditions which have prevailed since the middle of March have seriously delayed planting of spring grains in Cook and Lake counties. Excessive rains have also caused some loss to field crops in lowlands, especially along streams which have overflowed.

Stutterers Use More Words

Persons who stutter use 50 per cent more words than persons who do not, an investigator of Washington university at St. Louis, has concluded after testing 300 school children, 100 of whom stuttered. He ranked each of them three questions and then counted the words they used in reply.

Indoor Golf

For the purpose of indoor golf practice, a rubber mat is supplied with a permanent tee and a soft rubber ball tethered to the mat. It does not seem possible to make a score by this device, but it is possible to obtain the considerable practice in the use of the club.

Airplane Noise

Anyone who has ever seen an airplane in operation with the amount of noise made and the concussion is generally accepted that it is due to the operation of the engine, but such is not the case. Most of it comes from the tip of the propeller, the whirling leading wires and the rush of air past the wings.

There Has Been a Great Change in the Days of Our Grandfathers

Many of the practices observed by custom at that time were needless or cruel to the bereaved relatives and friends. The modern funeral director tries in every way possible to obtain the most of the living without detracting from the proper reverence for those who have passed on.

Fruit Dedicated to the Devil

In Ceylon when a native wishes to protect his fruit trees from thieves, he dedicates his orchard to the devil by hanging up certain grotesque figures about the orchard. After that no native will dare touch the fruit, for that matter not even the owner himself, until the priest has removed the charm.

Things Look Different in

COLD BLACK TYPE...

"I HEARD," said the friend, "that you have just made \$50,000 in the insurance business."

"Right—except for one or two slight particulars. It was real estate—not insurance. It was \$75,000, not \$50,000. And I didn't make it—I lost it!"

Has it ever happened to you that something you've told an acquaintance comes back, after many days, so distorted that you hardly recognize it? The spoken word so changes and colors much that we say, that by time it passes many lips only the skeleton of truth remains.

But how different it is with the printed word! That is why you can trust the advertisements. Had you thought of it that way? Because the manufacturer and merchant are compelled to be accurate in type, you know that the quality of soap, ginger ale, clothing, butter or furniture you buy is as standardized as the calendar. It's all the manufacturer and retailer claim for it. IT HAS TO BE!

Read the advertisements. Read them carefully, critically. Read them for profit! Read them knowing that the truth pays . . . you and the advertiser!
