Published in monthly with lowest circulation in Illinois—1830. VOLUME 48, NUMBER Most Merchants Will Show Tax on Top of Sale. Proprietors of Other Food Stores Adopt U.S. Plan. The large majority of the merchants in Barrington will add the charge for sales tax on top of the regular price of commodities that add it within the prices. This administration would have them do so. The merchants who attended meetings, speakers were held Tuesday and Wednesday night in an effort to get a uniform plan for the sales tax. The net result of the meetings was a tentative plan among merchants in Barrington to add the tax to the regular price of commodities. This plan was not in complete agreement with the food store proprietors who are making plans for the summer, containing the tax in the regular price and showing the tax separate in a separate box for the consumer to see. The merchants blame the newspaper for the tax. Another charge is that the newspaper is planning a boycott against the tax. It is expected that this tentative plan will be adopted by the merchants. The result of the meetings was a tentative plan among merchants in Barrington to add the tax to the regular price of commodities. This plan was not in complete agreement with the food store proprietors who are making plans for the summer, containing the tax in the regular price and showing the tax separate in a separate box for the consumer to see.
