"Men on Call" at Catlow Saturday; "Sit Tight" Coming

"Men on Call," the Saturday night screen feature at The Catlow theatre, was filmed amid backgrounds of imposing scenery found along the coastline of rugged Northern California, and includes authentic scenes of actual Coast Guard stations at San Francisco, Cypress Point and Monterey Bay. They were obtained with the consent and cooperation of the government and depict faithfully the actual conditions under which these heroes of Uncle Sam win their name of being "Men on Call."

Short subjects of interest included in the feature will be a Charlie Chase comedy news, sportlight and cartoon. If you are looking for health, apply at once for admission to the upstate institution opened by Joe E. Brown and Winnie Lightner—only don't ask what kind of health. The two laughmakers will be seen at The Catlow theatre Sunday and Monday nights in their latest riot of hilarity, "Sit Tight."

How many hits does it take to make a star? Gary Cooper reached stardom after fourteen featured roles, others have had even longer roads to travel.

Hollywood is watching with intense interest the career of Marlene Dietrich, the beautiful German actress, recently brought to the United States by Paramount, and opinion seems to favor a quick rise to stardom. Her first appearance with Metro-Goldwyn in "Morocco," has strengthened this opinion.

"Morocco" will play The Catlow theatre next Tuesday and Wednesday nights.

SCOUT NEWS, TROOP 10

An officer's meeting was held before the regular meeting last Thursday. It was decided to have every Scout advance one rank at the next court of honor. Eagle Scout Green will take charge of a hike to pass tests Saturday morning.

Mr. Koenig and Mr. Sommerfield were present at the meeting. Mr. Sommerfield offered his services to help us in test passing for which we are grateful.

The regular meeting was held with Scouts Koenig, Calkins and Ulbrich leading in the ceremonies. Mr. Bell announced that the Court of Honor would be held March 19 and 20, and that the Board of Review, at which all Scouts are examined for tests they have passed, would be held the week previous.

Patrol III had charge of the games. First there was a signalling contest in which Patrol I won. Then a new game called Rattlesnake and was won by Patrol III. This was a very successful meeting, very members but one being present.—Assistant Scribe, Howard Chale.

State News

Springfield, March 5.—The Governor Emerson Building, will be the official name for the structure that is now being erected on the state fair grounds at Springfield, to house the State Fair School of Domestic Science, the floral, culinary, apiculture and horticultural exhibits. The Illinois Farmers' Institute and its domestic science departments in their joint convention at Decatur adopted resolutions to that effect and to provide for a suitable tablet to so designate the building. The governor's appreciation of the value of the school and of other features of the fair that interest women prompted the resolution.

Springfield, March 5.—The 1931 edition of the official highway map of Illinois, revised as of January 1, is now ready for distribution. Director H. H. Cleveland, of the department of public works and buildings has announced. It shows that Illinois had 9,345.43 miles of pavement open at the beginning of the year and that contracts then in effect called for 255.86 miles of paving, 70.36 of grading and 102 bridges. It also gives a table showing distances between 140 cities.

Springfield, March 5.—Governor Louis L. Emerson has offered two valuable trophies as the grand prizes for two contests open to students in art classes of the public and parochial high schools of Illinois. The contests are to select designs for state fair posters. One is to illustrate the fair's new patriotic feature—Veterans' Day, and the other, the exposition in general. Entry blanks are available to art teachers at the Illinois State Fair Poster Contest Management, Room 611, State House.

Springfield, March 5.—Contracts for more than \$14,000,000 worth of construction in public buildings have been placed, and most all of it completed by the division of architecture and engineering in the state department of purchases and construction within the past two years.

Springfield, March 5.—The Lincoln family's old homestead in Coles county has been preserved by the state for future development into a memorial park. The department of Public Works and Buildings has purchased the final 18 acres that comprised the Lincoln family's first home in Illinois.

VOL. IV Barrington, Illinois, March 5, 1931 Number 10

Well, from the way it came in March certainly ought to go out like a lamb!

In spite of the fact that the thermometer registers a little low at this time we're getting ready for spring with such items as Drills, Plows, Harrows, and Tractors, both farm and garden. Also Rakes, Hoe's, Weeds, and other garden tools. We have them in stock right now for you.

A Barrington father hands us this one: "It's a good idea to kiss the children good-night if you don't mind waiting up for them."

A brooder stove is necessary—and another necessity is that it be a Oil-Stat oil burning brooder stove. See them here.

How about your tractor? Wouldn't it be a good idea to let our tractor service department inspect it and recommend possible repairs and placement while the rush season is still ahead?

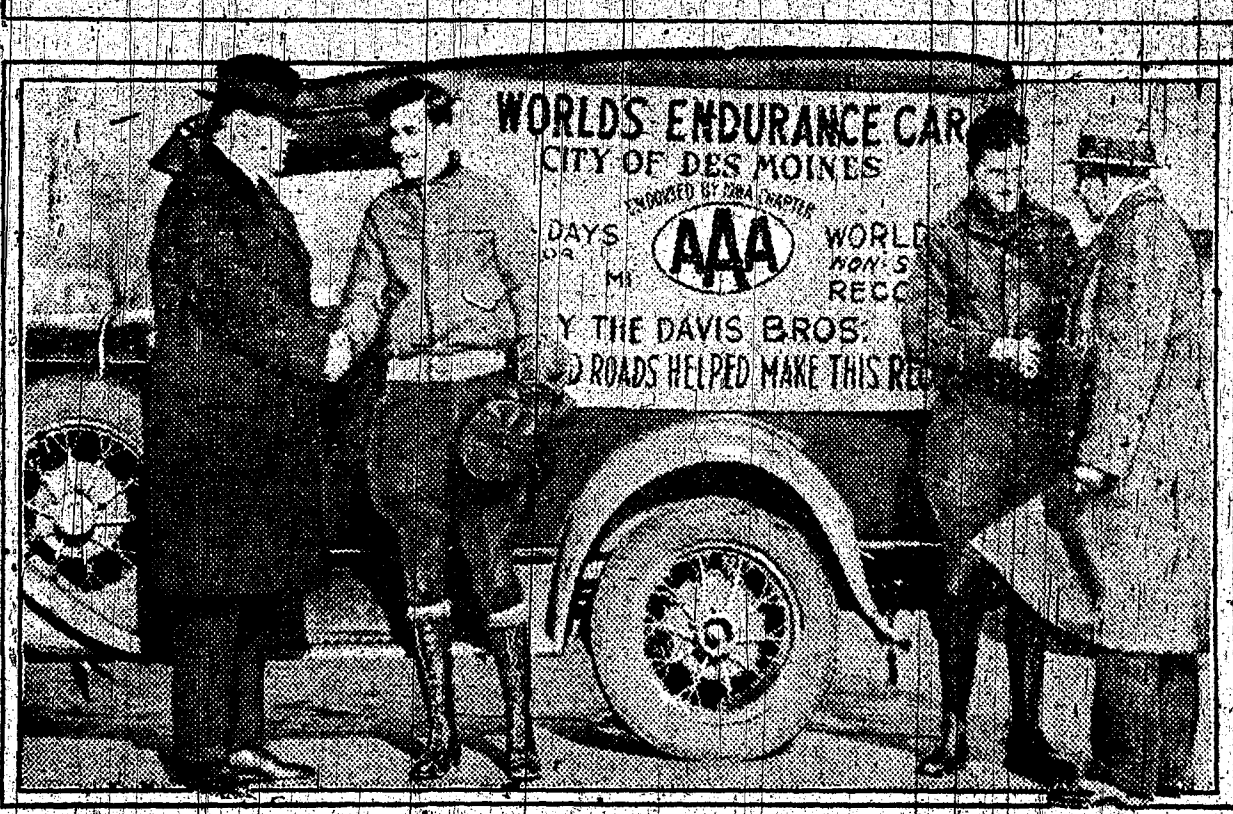

Men want but little here below. But when it comes to dress, A look around will quickly show That woman wants still less.

The sure way, when at a dinner party to tell which salad is yours, is to start eating the one either to your right or left. The other is it.

You can come in and "pump" us for information on the Myers shallow and deep well pumps any time you want to. We'll be glad to tell you all about it.

Can you remember way back when you used to chew licorice and make believe you were chewing tobacco. It was "Lick'ish" then too!

Iowa Brothers Set New World's Record in Ford

Governor John Hammond of Iowa (left) and Walter Ferrell, executive secretary of the Iowa chapter of the American Automobile Association (extreme right), congratulating the Davis brothers on the establishment of a new world's non-motor, non-wheel stop automobile endurance record.

IOWA state officials and civic leaders witnessed the establishment of a new world's non-motor, non-wheel stop automobile endurance record recently, when Ralph and Roland Davis, brothers, brought their Model A Ford to a halt at the east entrance of the state capitol in Des Moines after 2,775 hours and 45 minutes of continuous driving.

When Governor Hammond, standing with Walter Ferrell of the American Automobile Association, gave the signal to stop, the Ford had traveled a total of 47,133.3 miles over all sorts of roads in all sorts of weather and had exceeded by 33,688 miles and more

than 2,335 hours the American non-stop endurance record which, theretofore officially recognized, was made by a much heavier car under almost ideal conditions on the Indianapolis speedway, in the course of the endurance run, the car, known as "The City of Des Moines," covered practically the entire state of Iowa. Engineers who examined the Ford at the conclusion of the run asserted that neither engine nor chassis showed evidence of the gruelling strains to which they were subjected during the 115 days of continuous driving. Both apparently, according to the engineers, would have been good for another 50,000 miles or more.

Barrington Woman's Club

The names of the ladies who will assist at the cafeteria next week, March 9-11, are: Monday—Meadows, Scott, Walden, Plazek; Tuesday—Meadows, Scott, Walden, Plazek; Wednesday—Meadows, Scott, Walden, Plazek; Thursday—Meadows, Scott, Walden, Plazek; Friday—Meadows, Scott, Walden, Plazek; Saturday—Meadows, Scott, Walden, Plazek.

Mrs. Walter Scott was the speaker at the Study Club last Thursday when "The Human Mind" by Karl Menninger was the book reviewed. Mr. Menninger who is an authority on mental health, is a member of the faculty of the University of Kansas and also is Medical Health Counselor and teacher at Washburn College, Topeka, Kansas. He is associated in his psychiatric work with his father and brother in the Menninger Clinic, which are allied the Menninger Sanitarium for adults and the Southern School for Handicapped Children. In this clinic the cases of mental illness are treated with amazing success. In his book which is written in a very readable way (it is not too technical), he describes certain cases which illustrate different types of mental diseases and the different methods used as cures. It is a book filled with very worth while knowledge.

The author strikes the keynote of his book by defining "Mental Health" as the adjustment of human beings to the world and to each other. With a maximum of effectiveness and happiness, not just efficiency or just contentment on the grace of obeying the rules of the game chiefly, but all of these together. It is the ability to maintain an even temper, an alert intelligence, a happy disposition.

Three gracious invitations have come to the officers and members of the Barrington Woman's Club. One is from the Illinois Federation of

DROP FROM CALL OF COUNTY COURT ROGER HAY CASES

probably sent to Joliet, such action undoubtedly would mean that the village of Barrington and the holders of the worthless bonds would get little if anything in the way of reimbursement for their losses. The acting attorney laid the whole matter before the board and asked for a free expression of opinion on the part of the members. Approximately 75 residents were on hand for the meeting. In summing up his report Mr. Bardwell said:

"Mr. Hay has offered to pay the village the amount it is out by virtue of interest paid on over issued bonds. He has agreed to identify the holders of the over issued and the forged bonds. He has also agreed to make affidavit that no worthless bonds were issued other than those which have come to light already."

"The village of Barrington has suffered terribly from what has happened. The contractor has lost considerably from the confusion, publicity and holding up of payment on good bonds for investigation, as the treasurer could not pay interest on either in the cases of duplication. This is one argument why prosecution should go ahead."

"On the other hand local interests as well as the village have financial claims against Hay. Between \$9,000 and \$11,000 was paid on over issued bonds. Hay has agreed to pay the principal as well as the interest on the bonds. Would it be of greater local interest to have the man at Joliet? Which is the more important—to have the enemies get their 'portion of flesh' or the local people who have been stuck for their money back?"

Trustee John J. Carroll asked for a \$25,000 surety bond from Mr. Hay to cover all possible liability before the case be stricken from the call. He asked that the man be forced to appear before the council for a hearing and present a surety bond for this amount or other security equal to it.

Attorney Bardwell declared that striking the case from the call does not relieve Hay from liability to prosecution. The case can be put back on the call at any time he fails to meet the requirements.

and dressing rooms in each wing. The men's wing will include a locker room divided into seven compartments, a dressing compartment divided into a main section and 18 individual dressing dressing booths, a team room and the foot shower room at the entrance for bathers.

The women's wing will be almost identical with the men's except that there will be no team room. There will be five locker compartments and 20 dressing booths.

Eight huge flood lights will illuminate the pool and promenade in the evening.

The immediate cost of the undertaking will be paid for by a \$45,000 bond issue as advertised by the park board on another page of this issue of The Review.

A complete description of the new swimming pool and bath house will appear in a later issue of The Review.

BARRINGTON LOSES TO LIBERTYVILLE, 23-16

Barrington high school's basketball team lost a hard fought game to the Libertyville prep quintette Friday night on the latter's floor by a score of 23 to 16. Both teams are entered in the tournament at Waukegan this week and both used Friday's game as a polishing off skirmish to prepare for the important series.

The losers played a hard game but were unable to penetrate the tight defense of the winning Libertyville men. Reese dropped in two field goals and one free throw for high scoring honors on the Barrington team, while Thorpe made one basket and two free throws.

Murphy, sharpshooting forward for the Wildcats, scored four field goals and one free throw for nine points to lead the tallying for the evening.

Mrs. Ada B. Clodfelter is mayor, postmaster, merchant, railway ticket agent, and magazine editor, of Garber, Mo., and she plans to build a home for aged women there.

Let an
ELECTRIC BROODER
mother your chicks...

BABY CHICKS that are mothered by an electric brooder grow into healthier, heavier chickens. The brooder takes them two days after hatching and keeps them warm and active under its hood until they are old enough to take care of themselves.

Almost your only responsibility is to see that the chicks are fed. The electric heater in the brooder automatically maintains a constant, healthful temperature. Insulation holds practically all the heat under the hood. Plenty of fresh air is provided by an adjustable ventilator—a condition which is practically impossible when other heating methods are used.

The small cost of operating an electric brooder is more than offset by the better chickens it produces. The mortality rate is cut down materially and the chickens mature faster.

Write or phone your nearest Public Service Store and we'll be glad to send one of our men assigned to farm electrification to tell you all about electric brooders. You won't be obligating yourself in any way.

The world's biggest RAIN BARREL

In our laundry, we use thousands of gallons of rainsoft water every day!

SOFT and gentle as Springtime rain—the water with which we wash your clothes. You know what rich suds rain-water makes. We use only rainsoft water... thousands of gallons every day... 7 to 11 complete changes in the average family washing.

And we employ the multiple-suds method, recommended as standard practice by the American Institute of Laundering, to do away with all rubbing and drubbing. Safely, surely, this method frees your clothes of even the stubbornest hidden dirt. It assures hygienic cleanness, plus added wear. You can enjoy these benefits and win freedom from washday toil, at trifling cost.

Learn about this new day in laundry service—the amazing improvements that have won hundreds of women in this community as our permanent laundry customers. We urge you to try our way this week. We are as near as your telephone.
