Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair **permanently**, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

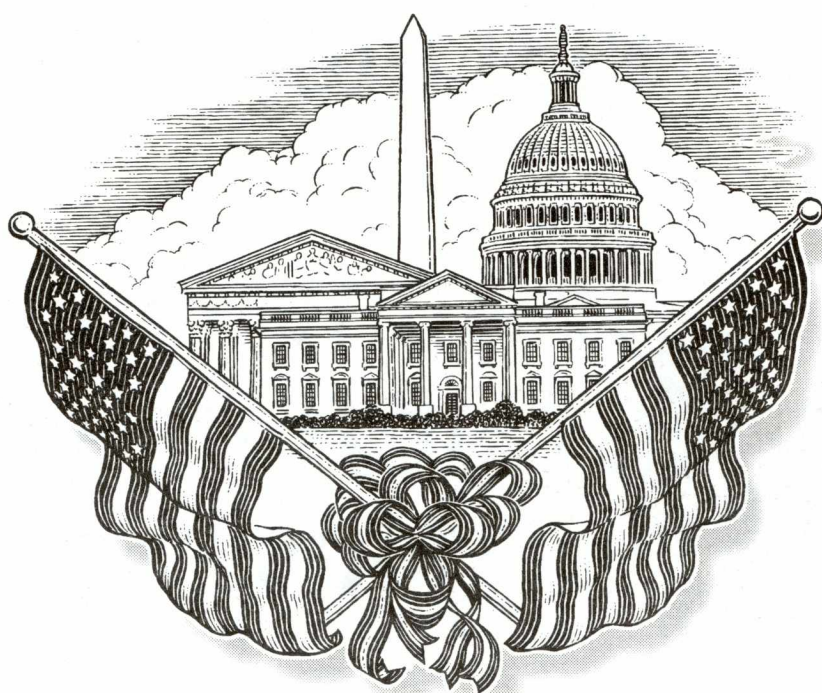

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

Clear Reflections has provided 25 years of service at the same location.

October, 2001

Dear Reader,

On Friday, Nov. 2, Church Women United of the Barrington Area will celebrate World Community Day. On this occasion, diverse Christian women gather together in prayer and action. This year the event will be extremely poignant, I'm sure.

On Sept. 11, the attack on America has left us stunned and bewildered. We ask ourselves, "Who could hate us so much?" Now we face our daily lives, clouded with apprehension and fear. What will the ultimate ending be? Our President has asked us to go on with our lives—to be strong and to stand tall. And he is right. We must continue on. This horrendous day has brought us all closer together, and together we will find courage and love.

Let us pray that God will give our leaders and the leaders of the rest of the world guidance. That the terrorist issue will be addressed, not just by us in America, but by everyone worldwide.

Let us love one another. Perhaps one day we can pledge our allegiance to our unfurling flag and not have tears in our eyes.

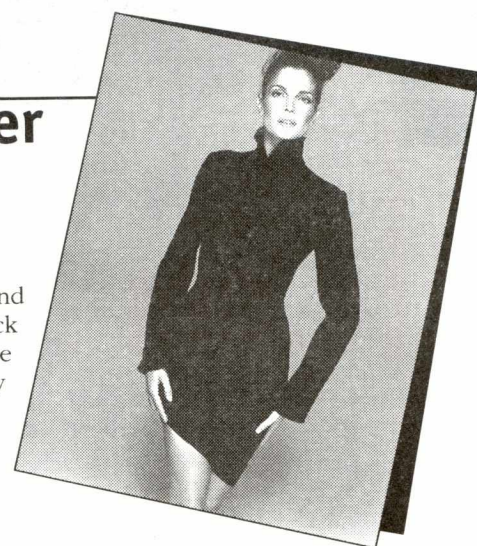

God Bless America.

With warm regards,
Glenne McMonigal
Editor, *Lifestyles Magazines*

Barrington Area Crop Walk, Oct. 21

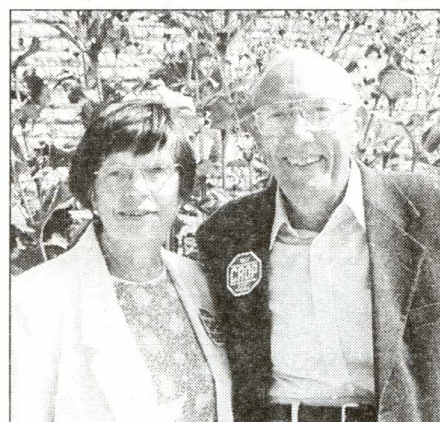

The 19th annual Barrington Area Crop Walk will be held Sunday, Oct. 21, 2001. Registration will be at Barrington Middle School, Station Campus. This ecumenical walk to fight hunger will be a 10K or "Family/Golden Mile." Last year, we had a record-breaking year with 575 walkers from churches, schools, organizations and caring individuals who brought in \$70,000. Twenty-five percent of the funds raised is used to support CWU Barrington Food Pantry, FISH of Carpentersville, Northern Illinois Food Bank, PIN and Meals with Wheels. This year, Wauconda Island Lake Food Pantry joins the list.

Betty Reed of Barrington United Methodist Church is chairperson for the 2001 walk. Her husband, Dwight, will continue his work as treasurer. In addition to celebrating their 50th wedding anniversary, they have organized the walk with concern for the safety of all and a promise of chili and entertainment when walkers return to the school. They hope to exceed the success of last year's event.

We are honored to have two grand marshals this year—Sister Lorraine Menheer of St. Anne Catholic Community, in honor of her untiring work for the poor, and Konrad Bald of Lutheran Church of the Atonement. Bald will join Sister Menheer in leading the walk. He has put Barrington on the map when it comes to Crop Walks. The second highest fund-raiser for Crop Walk in the country, he alone brought in \$17,000 to fight hunger last year. These two outstanding individuals will show us the way, not only in the Crop Walk but in their dedication to help the poor.

Bob Evans of the Carpentersville Food Pantry states that he sees at least a 10 percent increase in need from last year. This food pantry, under the direction of Mr. Evans and Paul Heideman, who has been helping those in need for 22 years, serves 1,300 people a month.

There are many other local recipients of Crop Walk funds. The Northern Illinois Food Bank ships up to a million pounds of food per month to 220 food banks in 14 counties in northern Illinois. Meals with Wheels is credited with distributing 5,229 meals to 54 individuals. We hear

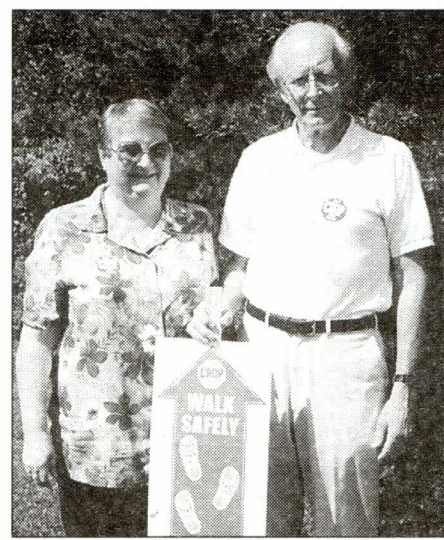

Betty Reed, chairperson, and Dwight Reed, Treasurer, of Barrington United Methodist Church.

their meals are great, but in many cases, the company of a visitor is just as important. PIN stands for "people in need." Those who come to churches in an emergency are able to get vouchers for gas, a night of lodging and a meal, thanks to PIN. About \$2,000 in vouchers were given out last year. The CWU Barrington Food Pantry promises that 98 cents out of every dollar goes to help hungry people. They gave out \$3,080 in vouchers last year in addition to the food at the pantry. The Wauconda Island Lake Food Pantry serves about 80 families a month.

Though we live in an apparently affluent area, there are people who lose jobs, have emergencies and suddenly find themselves in need of a helping hand. Crop Walk raises the funds to lend that hand. Seventy-five percent of the funds are used nationally and internationally to provide hope to disaster victims, education in overcoming poverty, wells for clean water and food.

In general, Crop Walk joins people of all denominations to demonstrate that starvation and malnutrition are still commonplace. Children right in our neighborhood and around the world still go to bed hungry. This is preventable with a better distribution of our abundance. Some shocking facts published in the June issue of *The Lutheran* states there are 800 million hungry people in the world; it would take an estimated \$1.6 billion a year to prevent world hunger; and Americans spend \$24 billion a year in liquor stores. These are large figures. Yet, we know that a little bit goes a long way when it is distributed through Crop Walk. Just \$5 can provide seeds for a harvest of 6,700 lbs. of potatoes in Armenia, or 83 treatments of oral rehydration therapy for those suffering from dehydration, or 25 baby chicks for a family in Bosnia. Just \$5 can buy four Moringa tree seedlings. Moringa tree leaves can be crushed into a powder to cure anemia and malnutrition. And research on this amazing tree continues. So rest assured, your Crop Walk dollars are working hard to eradicate hunger.

Join the almost 600 walkers, be a sponsor or help with arrangements for your church or organization. It's fun, and it's for a cause that saves lives and teaches the world what can be accomplished when churches and organizations work for the good of their neighbors and the world. For more information, call your representative or Betty Reed at 381-1529.

Every Weave Tells a Story

We live in a world of first impressions. Right or wrong, people frequently sum us up in a glance. And that's more than enough time when you're wearing Austin Reed Modern British.

Indeed, from the very beginning, we've believed that memorable first impressions start with extraordinary fabrics. Weaves of elegance. Restrained bravura. Cutting-edge comfort. Fabrics that say all the right things. Instantly.

When it comes to our sportcoats, the power of self expression is clearly in evidence. A survey of Fall 2001 reveals a worldly array of fabrics with unique textural interest. Woven interpretations of the season, you might say. And so, you'll find windowpane tattersalls on basketweaves. Heartier herringbones. Innovative weaves that drape with the ease of knits. They make fall especially pleasant to warm up to with their luxurious range of fibers: the softest lambswool, wool and alpaca, worsted and silk and camelhair and 100% cashmere.

Austin Reed Modern British is available at **Chuck Hines** on Main Street in downtown Barrington.

Pilates—The Formula for a Sleek, Toned Body

Developed in the 1920s by legendary physical trainer Joseph H. Pilates, the Pilates Method has been around for decades. Emphasizing strength through grace and flexibility, it has long been the best kept secret of professional dancers. Top athletes use it to develop coordination and prevent injury. Celebrities and top models use it to maintain beautiful form. Focusing on improving flexibility and strength for the total body, the Pilates Method encourages more defined, longer, leaner muscles without building bulk.

For a long time, you could only find Pilates instruction in New York or on the West Coast. But since opening **S.T. Body Balancing** in downtown Crystal Lake, owner/instructor Sondra Teasdale has introduced the suprisingly relaxing and revitalizing yet challenging workout to the northwest Chicago area. Certified in the Pilates Method, Teasdale is a former principle dancer with the Nevada Ballet Theatre and holds a degree in dance medicine therapy.

Teasdale and her staff provide individualized instruction, tailoring each session to specific needs based on a series of ap-

proximately 500 exercises using specially designed spring-resistance equipment including the Reformer, Trapeze Table (Cadillac) and Wunda Chair.

According to Teasdale, in just 10 sessions you'll feel the difference. In 20 sessions, you'll see the difference. And in 30 sessions, you'll have a new body.

S.T. Body Balancing has recently expanded its Pilates sessions, and a limited number of daytime sessions are now available. For information, phone **815-477-0140**. **S.T. Body Balancing** is located at 83 E. Woodstock St. in downtown Crystal Lake. The studio is open six days a week.

Local Pastel Artist, Kevin Finnerty, Has One-Man Show

Dunton Gallery cordially invites you to a one-man show for Arlington Heights pastel artist **Kevin Finnerty**. Kevin will be in the gallery for an **artist's reception** on Friday, Oct. 5, 6 to 9 p.m. and Saturday, Oct. 6, 11 a.m. to 4 p.m. (R.S.V.P.s are appreciated if you plan to attend).

Kevin has his bachelor's of fine arts from Northern Illinois University with "self-directed postgraduate studies" arising from extensive travels abroad and in the U.S. All types of architecture and that which surrounds them have long been of particular interest in Kevin's paintings. Many of his subjects are, naturally, celebrations of Chicago's incredibly rich architectural heritage. But his subjects also include Savannah and, most recently, Cape Cod.

Although trained in several media,

Kevin's preference is pastel, which he says, "... is one of the purest mediums in which to work... if properly framed they will not fade, yellow or cake."

Found in numerous corporate and private collections, including that of the University of Chicago, the Shedd Aquarium, the Chicago Hilton and Towers and the Museum of Science and Industry, Kevin's new works will be on display and for sale Oct. 5 through 13 at **Dunton Gallery**. We can be found on the Dunton Avenue end of the Evergreen Center in the heart of Arlington Heights, two blocks south of Northwest Highway and two blocks west of Arlington Heights Road. The New Home of Nambe

The Canterbury Shoppe is pleased to announce the addition of Nambe Studios to their American Artisan Collection. Discovered in 1951 in the heart of the Sangre de Cristo Mountains in northern New Mexico, the nambe metal alloy amazed scientists as it contained no silver, lead or pewter, but it possessed both the beauty and shine of sterling silver and the durability of iron.

Individually cast in sand as a solid piece, this alloy would not crack, chip, peel or tarnish and could be used for cooking because it retained heat or cold

Barrington Woman's Club Invite You to *Guys and Dolls*

The members of the Barrington Woman's Club invite you to join them on a trip to the Ford Center, Oriental Theatre, to see *Guys and Dolls* on Dec. 12. We will leave Langendorf Park at noon. Because the cost of the theatre tickets are higher for this performance, we have decided to have lunch on our own before boarding the bus for our trip to the theatre.

Guys and Dolls celebrates its 50th anniversary with a "sleek, smart and funny" new production starring Tony-Award nominee Maurice Hines as the unforgettable Nathan Detroit. Featuring a power-

fully comedic and diverse company, the high-rolling sinners and saints journey from Times Square to the cafes of Havana. Invite a friend to join you and get set to cast the dice for *Guys and Dolls*.

The cost for the day, including bus and theatre, is \$68. The deadline for reservations is Oct. 17. Send a check made out to the Barrington Woman's Club to: June Dienes, 326 Old Sutton Rd., Barrington Hills, IL 60010.

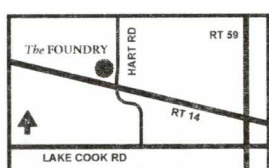

Guests and nonmembers are welcome. For more information, call 382-4281.

Barrington's New Women's Fashion Boutique Now Open

L'Affaire prides itself on service while bringing the most beautiful women's fashions to its customers. The favorite lines include CK Calvin Klein, Garfield and Marks, Burns, Lafayette 148, Casserly Leather, Nicole Miller, Oscar de la Renta, 3 DOT and many others. In addition, belts, handbags, shoes and accessories to compliment the garments are always unique and different.

"I select only those items which I believe are of the highest quality, have a great fit and compliment the woman who appreciates elegance and style with a touch of flair... and have a reasonable price," says owner Gerda Bray, who does all the buying for her stores. "If I don't love it, it doesn't get into the store. We can't be all things to everyone, so we stay with a look that is stylish and now, yet classic so that it will last past today's latest look. Nobody likes to have things hang in her closet after only one season of wear."

What makes **L'Affaire** unique is the relaxed, friendly and honest atmosphere combined with the best of service. "We never will tell a customer that something looks great when it really doesn't. There is nothing worse than dishonesty with our clients. We work hard to develop long-term relationships. Our frequent shopper program is a huge success in Dayton, and we'll start it here as well. We do a lot of special orders, and, as long as a request is reasonable, we will do our best to fill it. We currently do about 10% of our busi-

ness in special orders and requests. We always offer free gift-wrapping and shipping."

L'Affaire carries everything from casual pants and shirts to evening dresses and ensembles. The mainstay of its business comes from having that very special outfit for everyday occasions, whether they are career or everyday wear.

The new Barrington store is located in the courtyard shoppess of the Foundry. The location is perfect—open, spacious and light. Customers have lots of room to make themselves comfortable. "I don't like clutter and seeing women navigate through a maze of racks."

Stop by and check out the beautiful merchandise and meet Gerda. She is planning her grand opening celebration to start Nov. 1, where she will feature trunk shows and other special events.

Claude Thomas' Exclusive Services—

Along with hair, nail and spa services, **Claude Thomas** is introducing exclusive and exciting new services. One is **Microdermabrasion**. Compared to a chemical peel, this exfoliation treatment offers higher precision. Other benefits of this treatment are many:

- Works on all skin types
- Elimination of fine lines and wrinkles
- Lightens and can even eliminate age spots and hyperpigmentation from sun damage
- Reduction of open pores
- Reduction and/or elimination of broken capillaries, scars, stretch marks, whiteheads and blackheads
- Restores sun damaged skin

Claude Thomas also has the **Stimulating Lift Treatment**. This program will help take years off the appearance of aging skin without surgery. The most important function of the **Stimulating Lift** is to tone up and contract the underlying muscles of the face and neck.

Another exclusive service is **Hair Extensions**. Not all hair extensions are alike. We only carry the most innovative methods in our industry—the ones that celebrities and models use. Our system does not damage your own hair like so many systems in other salons. The **Polymer Attachment System** attachments are polymers equal to the human hair structure, not glue, wax or twisting and braiding that damages your own hair. We use the

best 100% human hair—not synthetic—with the cuticles all going the same direction. This hair is easy to perm or color. After a consultation, we would determine what would be right for you.

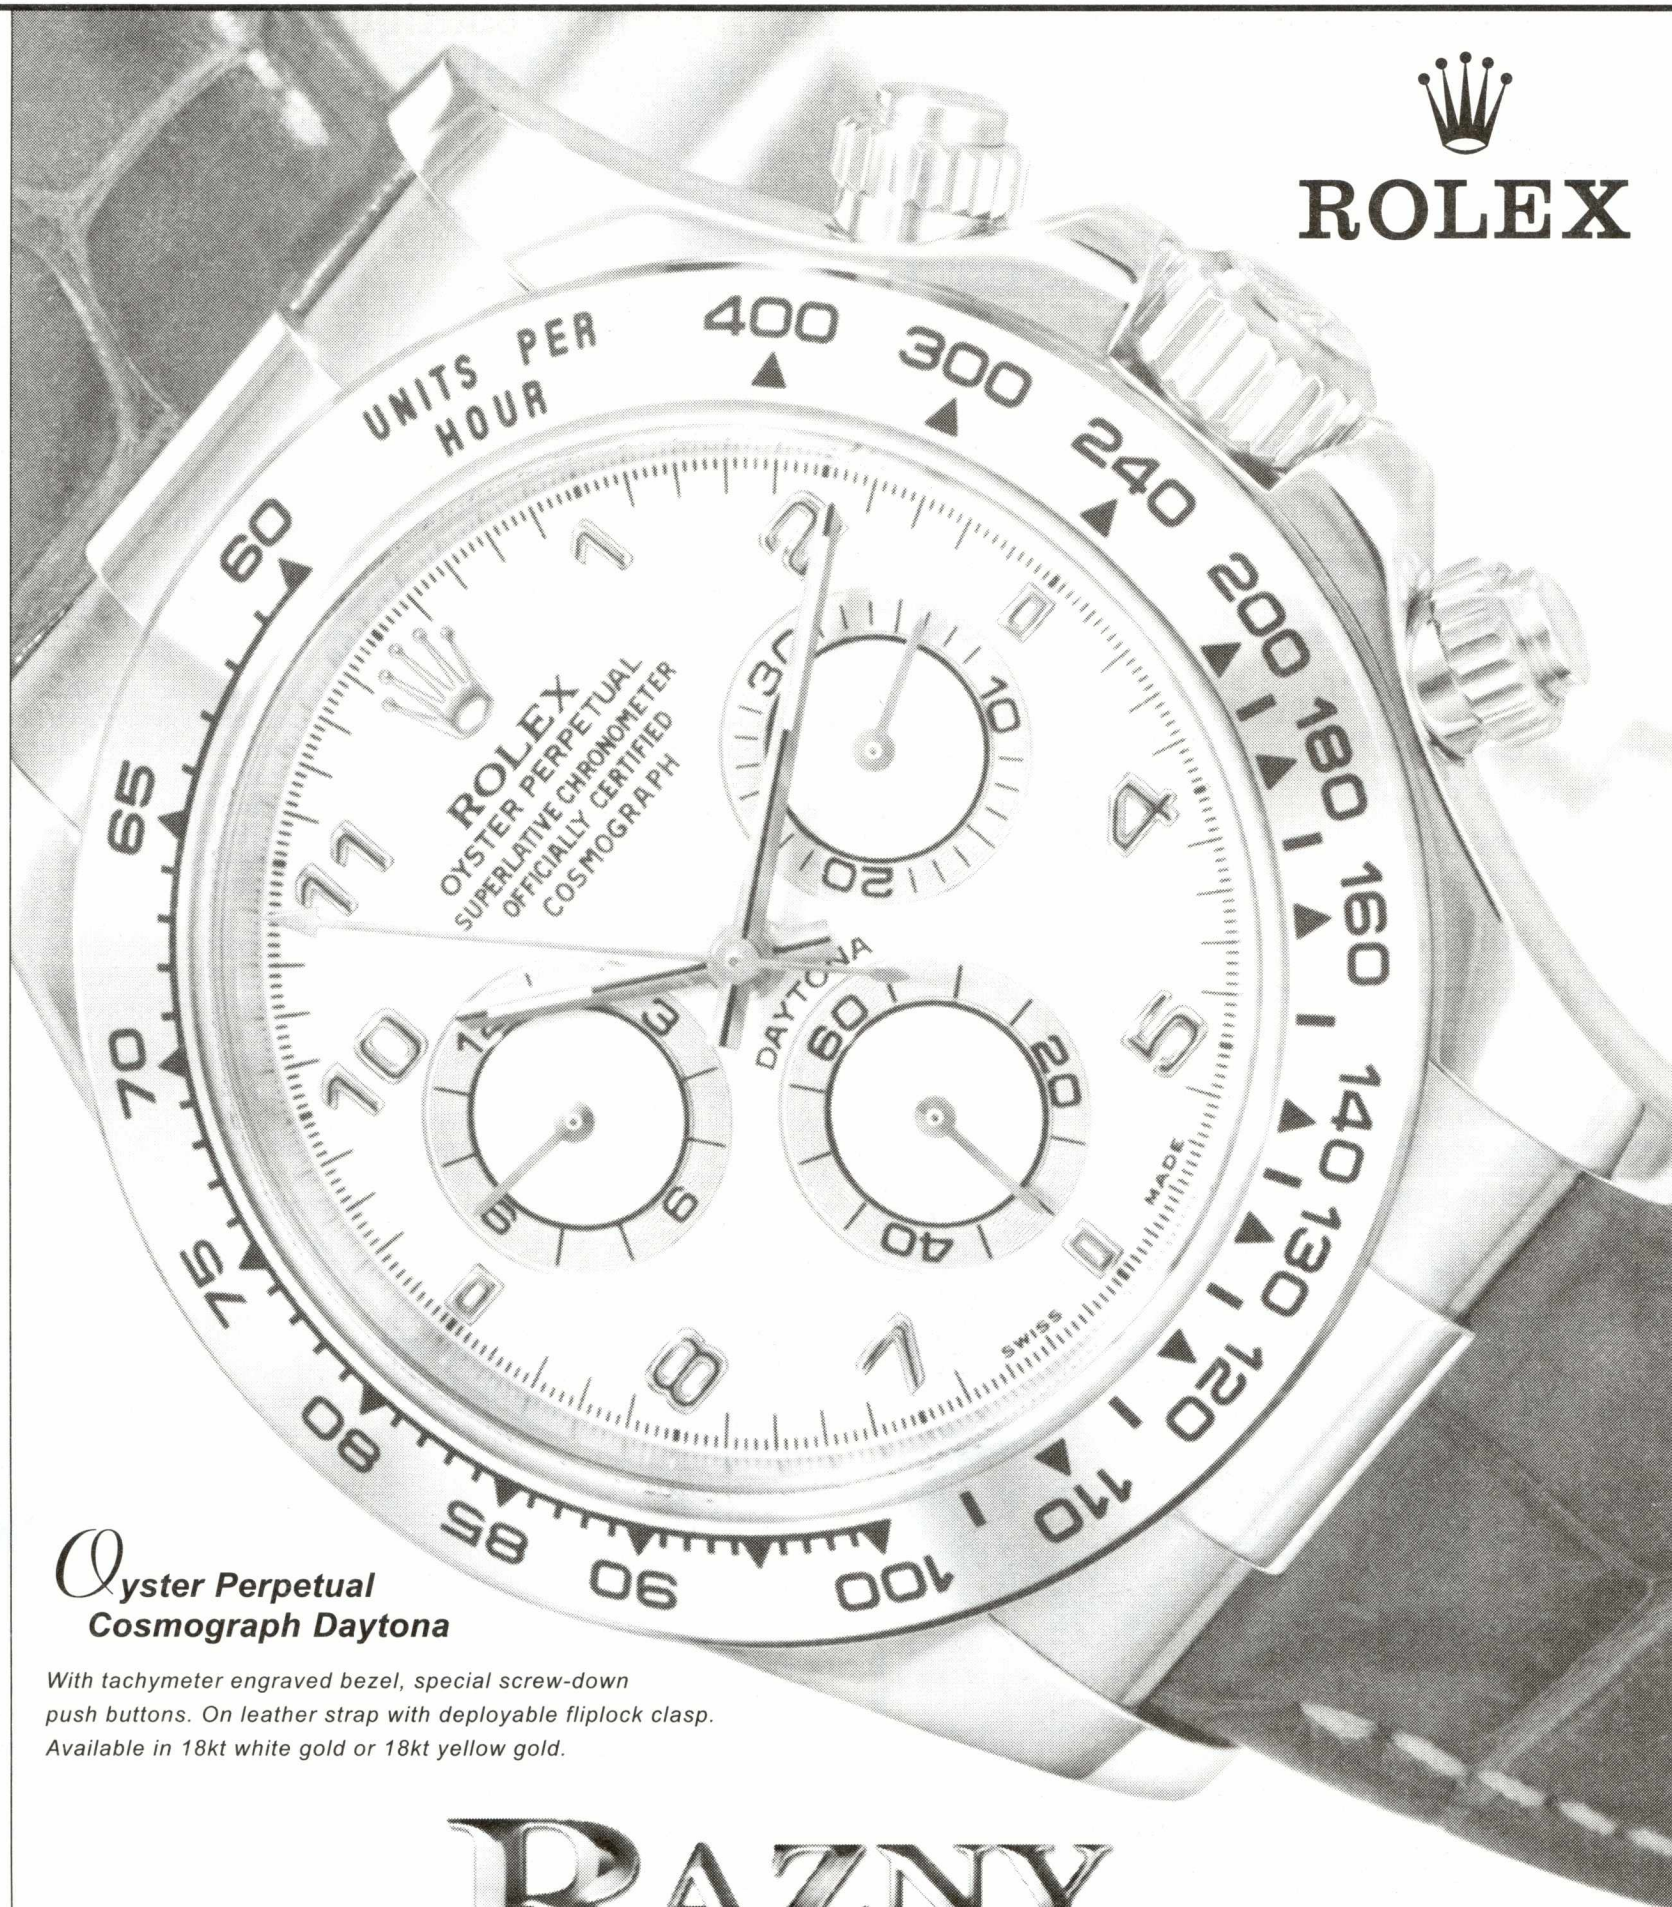

Permanent Make-up is now at **Claude Thomas**. This service will be done by Claudia and Jennifer. Who benefits from Intradermal cosmetics?—Busy people with little time to apply make-up; people with allergies to make-up; people who seek corrections of asymmetrical facial features; people who wish to look their best all the time; athletic people; entertainers; actresses and models; and those who are physically incapable of applying make-up. Call and find out more about this service.

We have added to our services expert **Eyelash Tinting, Eyelash Perming and Eyelash Extensions**.

Comments by Thomas

Gratitude is the first word that comes to mind when I reflect on the thousands of portraits I have created since 1978. I am grateful for the relationships I have made, for the people who have entrusted me to document their family's growth. I am humbled by the faith put in me to create images that become the most important link with their family's history. I have always strived to improve my methods of creating portraits so they would have the qualities required to grow in value over time for my clients. I have learned, when we relax and enjoy the portrait experience together rather than forcing it, we capture natural moments between your families that become your most valued possessions.

While walking through town recently, I saw a client whose family I have been photographing for a long time. I watched their school-age children grow up into confident adults. They shared with me their interests in bicycling and ballet, and I even had the pleasure to critique the son's projects from a school photography class. I was amazed when my client told me they had just become empty nesters, that their children had grown up and started lives of their own. Knowing this family had entrusted me with the responsibility to capture the process of their children growing up affected me so deeply that I almost felt unworthy of the privilege.

I feel blessed for having been part of so many families' lives, providing them with valuable portrait collections. When it is my time to leave this world, I will leave behind something of value to many people.

fund-raiser.

In June, 2001, scholarships were proudly presented to three deserving college-bound seniors from Lake Zurich and Stevenson High Schools: Megha Patel, Arie Spitz and Jonathan Welker. In addition to the scholarships, proceeds of the event will go to various community projects sponsored by the club, including youth

programs and scholarships, senior programs, roadside beautification, community garden plots, programs at Reed-Turner Woodland, and to donations for various national, state and district garden club projects. Join us for the fun and festivities. Tickets are \$45. Please contact Helen, 438-5721, or Ann, 438-3358, for reservations and information.

"Whole You" Health

T'ai Chi Ch'uan: You've heard of it. But what is it? A health exercise? Yes! A form of meditation while you're exercising? Yes. Stress relief? Absolutely! It's even a form of self-defense which does not rely on size or strength.

T'ai Chi Ch'uan was designed centuries ago to be so comprehensively beneficial to the whole human being—balancing mind, body and spirit—that it has been the official national exercise of China for decades. A practice that prepares your mind and body for the day ahead, making you alert and ready for the workday world while, at the same time, calming you, giving you the confidence to be ready for anything.

People often seek out T'ai Chi Ch'uan for very specific benefits. Medical studies have shown it to improve focus/concentration, coordination, balance, flexibility, posture and to help relieve or eliminate hypertension, rheumatoid arthritis, and respiratory and back problems. It is so gentle as a cardiovascular and recuperative exercise that doctors often recommend it after surgery.

If "whole you" health is something you're looking for, come and investigate for yourself at **Barrington Martial Arts**. Classes are Mondays from 7:30 to 9:00 p.m. and Saturdays from 11:30 a.m. to 1:00 p.m. Call to participate in a free trial session at **847-382-9599** or **847-202-9105**.

M.J. Miller & Co.

Hosts Wine Tasting at D & J Bistro

On Sunday, Oct. 21, M.J. Miller & Co. will be hosting a Wine Tasting at D & J Bistro in Lake Zurich. "We are very excited to host this special event," said Mike Miller, owner of M.J. Miller & Co. "A representative for Riedel, Barbara Fredell, will help us explore the difference a wine glass can make in the taste of a wine. You will find the difference remarkable!"

After checking in Sunday afternoon, you will receive a glass of 2000 Savion Blanc from Villa Maria. Each place setting will be set with four different wine glasses from the Vinum Extreme Series. A Chardonnay, Riesling, Pinot and Cabernet crystal stem from the Vinum Extreme Series are yours to keep at the end of the evening! Each stem is lead crystal and specifically designed to enhance the unique qualities for that special vintage.

Hor d'oeuvres will be served from 4:30 to 5:00 p.m. A delicious assortment of hor d'oeuvres includes: smoked salmon and crème fraîche, mini crabcakes, individual tarte nicoise, satay of duck tenders, and homemade mousse of poultry liver.

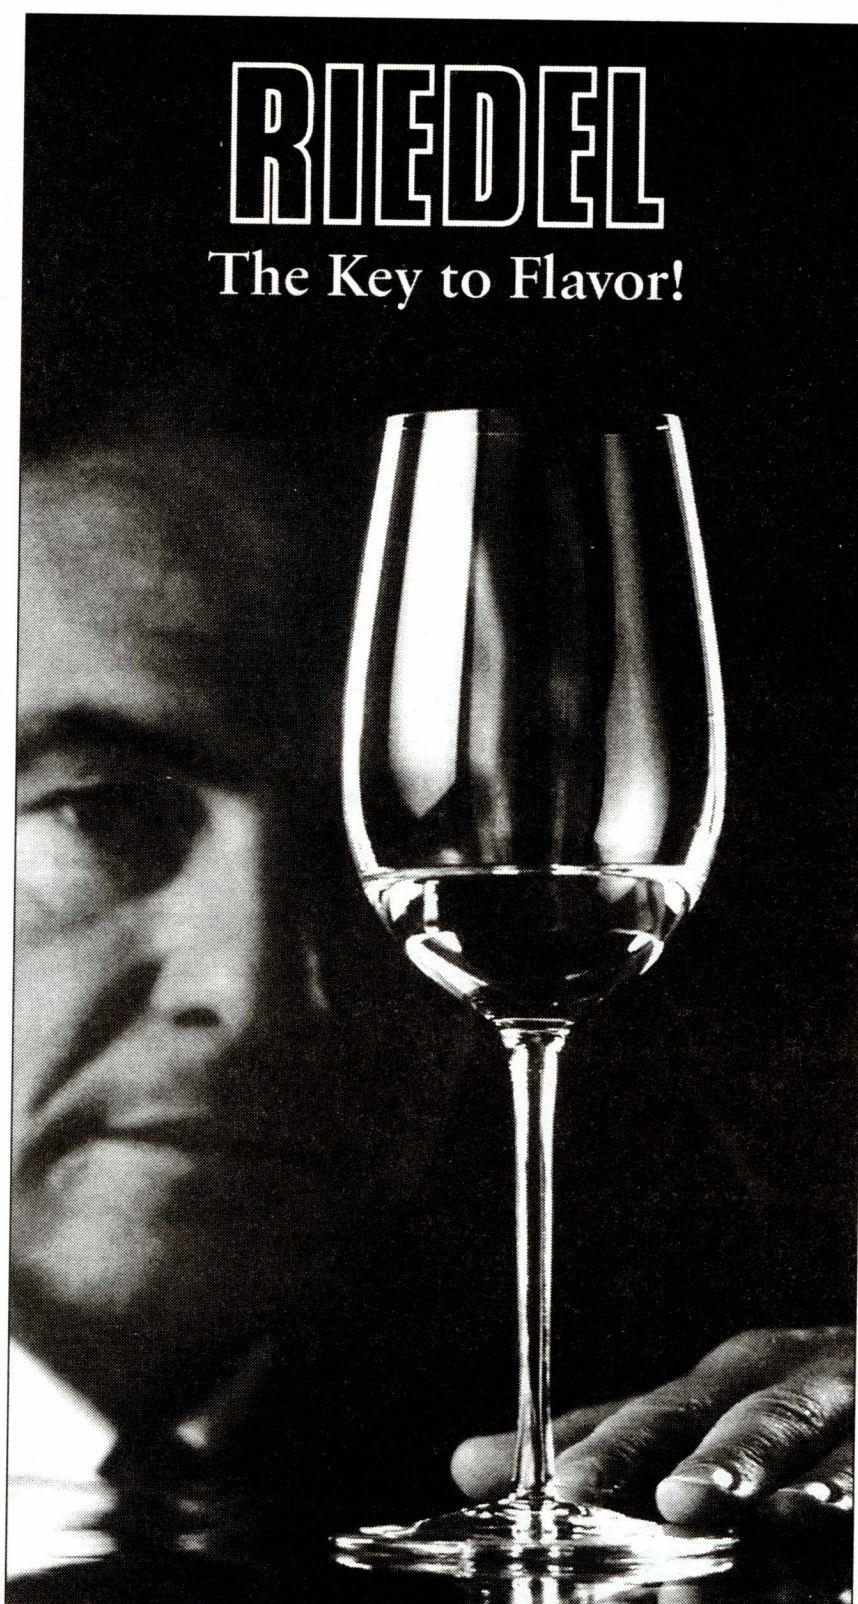

Promptly at 5:00 p.m., the tasting will begin. Four wines in addition to the Savion Blanc will be served: a 1999 Chardonnay from Flora Springs; a 2000 Riesling from Clayborne and Churchill; a 1998 Cabernet by Girard; and a 1998 Pinot Noir by Byron Santa Maria. We will experience the aroma, taste and tone a stem designed for each grape varietal can make.

After the tasting, a box designed specifically for your new stemware will be provided along with a handled bag for you to carry them home. Barbara will be available after the tasting to answer any questions you may have about Riedel crystal. A table with additional Riedel crystal will be set up and you can view decanters, stems from the Sommeliers Series and accessories. Stemware for the Sommeliers Series is full-lead crystal and hand-blown in Austria. These items are readily available at M.J. Miller & Co.

We do strongly recommend that, if you are interested in dining after the wine tasting, you make a reservation at this time with D & J Bistro at 847-438-8001. D & J Bistro has gracefully extended a 10% discount to any participant who chooses to dine at the bistro following the wine tasting.

We hope you enjoy the evening, and we look forward to sharing this experience with you.

Indispensable for those who care for the true sensual enjoyment of wine—instruments to make your wine taste even finer. Riedel stemware is tailored to the character of the grape—it is the key to flavor!

"Superheroes Knocking Cancer Out!" Theme of Gala

Cancer Treatment Research Foundation has something to celebrate, and the party has yet to begin! On Nov. 3, the Chicago Marriott will host the foundation's annual black-tie gala in its tradition of "lighting fires, kicking tires and getting on down the road to finding a cure for cancer now!" as quoted by its founder and chairman, Richard J. Stephenson. This year's exciting theme is "Superheroes Knocking Cancer Out!"

This year, the foundation begins a new tradition of caring as we honor "cancer heroes"—individuals who have made a significant impact towards bringing real hope to cancer patients and their families. Our goal for 2001 is to host 600 guests and raise \$500,000 to support our life-saving, life-enhancing research. To date, our sponsorship committee has raised \$346,000, and we thank all our corporate friends and returning sponsors for their gracious and generous support.

Cancer Treatment Research Foundation is unlike any other organization. We support studies that are past the test-tube stage and are ready to make an immediate impact on cancer patients. We are aggressive, efficient and our funding ratio is unsurpassed. Ninety-nine cents of every dollar raised goes directly to cancer research programs.

The foundation is proud to welcome back National City Bank as our presenting and underwriting sponsor! National City Bank, along with many other sponsors, will be honored at the Superheroes Appreciation Party. This fun-filled event will include appearances from superhero characters from the Marvel comics we all know and love.

To list a few of the donations coming up for auction will be: trips to Italy, Paris, Spain and Indonesia; a walk-on, guest appearance to the TV show *Dharma and*

(From left) Fern Inger, president; Alicia Stephenson, chairman Sponsorship Committee; and Cheryl Ferguson, chairman Fund Development Committee, are busy working on the celebration.

Greg; tour passes from the Chicago Architectural Foundation; golf at Boca Raton Resort & Club, Wynstone Golf Club, Bull Valley Country Club and Shepherd's Crook Golf Course; packages for resorts such as Renaissance Jamaica Grande Resort, The Palms in Palm Springs and The Ritz-Carlton Cancun; jewelry; and much more.

Some new features offered this year are tables designated for "singles." Men and women who would like to show their support can attend unescorted and will have the benefit of meeting new and exciting people. This should prove to be an exciting evening all around.

We welcome new donors and volunteers who want to join our family of cancer fighters. Various levels of sponsorship are available: Superman, \$25,000; Batman, \$10,000; Spiderman, \$5,000; Green Lantern, \$2,500; Patron, \$1,000; and Supporters, \$300. Volunteering before and at our gala is also a rewarding and fun-filled opportunity.

For more information, write or visit: Cancer Treatment Research Foundation, ATTN: Lois Conklin, 3150 Salt Creek Lane, Suite 118, Arlington Heights, IL, 60005. Or call 847-342-6479, fax 847-342-7320 or e-mail Lois.Conklin@ctca-corp.com.

The event will be presented on Saturday, Oct. 20, 2001, at the newly renovated Events Center at the Marshall Field Store on State Street in Chicago.

Initial support of the Shepherd's Gala included a \$10,000 gift from Northwest Cardiology and Palatine Heart Center, cardiology groups at Advocate Good Shepherd Hospital. In addition, Harris Bank of Barrington has provided a \$10,000 leadership gift. Currently, more than 40 local businesses have donated prizes and live auction gifts for the event, including a \$9,500 gift from M.J. Miller jewelry of Barrington.

Meet the Kids on the Block at Barrington Junior Women's Club Membership Information Night

On Tuesday, Oct. 2, the Barrington Junior Women's Club will host a Membership Information Night for prospective new members. The meeting will be at Langendorf Park at 7 p.m. All women interested in community service, philanthropic endeavors and social interaction are encouraged to attend.

Members will be on hand to present the numerous community service projects underway at the club. Kids on the Block, a nationally recognized education program developed to teach children to accept differences in everyone, is just one example of hands-on community service provided by club members. Each year, Kids on the Block "troopers" perform for hundreds of third grade students at various Northwest suburban schools, providing insight about people who may be blind, hearing impaired, dealing with divorce, asthma, diabetes and other difficult situations.

In addition to Kids on the Block, Barrington Junior Women's Club members help run the Safety Town program for area kindergartners. They also support PADS, Barrington's Giving Day, WINGS and the Meals With Wheels programs.

Each year, the club raises funds to support their college scholarship program and annual philanthropic donations. The fall fund-raiser will be a ladies luncheon on Friday, Oct. 12, at Chevy Chase Country Club. It is themed "Girls Just Want To Have Fun." And that is just what Barrington Junior Women's Club is

Kids on the Block committee members recently met to plan the year's programs: (back row, from left) Stephanie Skopek; Becky Monek; Deb Jourdan; (middle row, from left) Terri Votaneck, BJWC president; Beth Harris; Juliana Zgoda; (front row, from left) Michelle Polvere; Claudia Gerrard, Kids on the Block co-chair; Kathy Maca, Kids on the Block co-chair; Mary Ice; and puppets Mark, who has cerebral palsy, and Melody.

Celebrations will begin under the eye of the genie at 6 p.m.! To open sesame, wear your black tie or "exotic" dress (not required, but it adds to the fun)! Direct your camel to Sears, Roebuck and Co., Corporate Offices, in Hoffman Estates where you may peruse the captured treasures of the 40 thieves in our live and silent auctions!

You and members of your caravan will also enjoy unique cuisine and dancing under star-studded skies to the colorful sounds of Roy Vombrock and his orchestra.

All proceeds of this bejeweled adven-

ture will benefit Home of the Sparrow, a transitional housing and counseling center for homeless women and their children. The center's headquarters is in McHenry, with additional locations in Crystal Lake and Palatine. Founded in 1986, the home now houses about 70 persons each night. It has helped over 1,700 individuals since its inception.

Diamond Quality, Selection and Prices— Simply the Best at Dalzell & Co.

Considering a purchase of diamond jewelry? Make your first visit to **Dalzell & Co. Fine & Antique Jewelry**—a *direct diamond importer*—for the best quality, selection and prices on fine diamond jewelry and loose diamonds.

At your service are Steven and Jennifer Dalzell, a husband and wife team with 21 combined years of jewelry experience. Both are Graduate Gemologists and Graduate Jewelers of the renowned Gemological Institute of America (GIA), which means they've got the education and expertise to guide you through every step of your important diamond purchase.

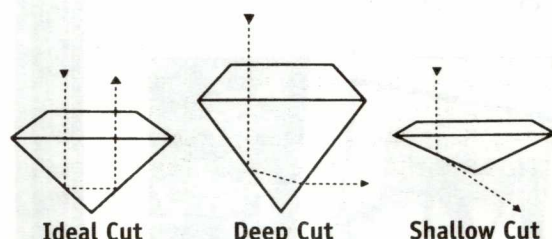

The cut of a diamond is important because it determines the optimum combination of brilliance, dispersion and scintillation. If a diamond isn't ideally cut, light will "leak" out through the side or bottom of the diamond. The ideal proportions of a Lazare Diamond ensure the optimal balance of brilliance, sparkle and fire. When light enters a properly cut diamond, it is reflected from facet to facet and comes

back through the top in a rainbow blaze. In a diamond that is cut too deep, much of the light is reflected to opposite facets at the wrong angle and is lost through the sides. The diamond may appear black in the center. In a diamond cut too shallow, light "leaks" through the bottom, and the eye may see a dull reflection in the diamond.

Dalzell & Co. is a full-service jewelry store, also offering McHenry County's largest selection of Waterford® Crystal; the latest styles in gold, sterling silver and platinum jewelry; creations in dazzling colored gemstones; watches by Cyma, Maurice LaCroix and Swiss Army; antique estate pieces; and custom jewelry designed to your specifications. Bridal gift registry service is also available.

Quality for quality, **Dalzell & Co.** offers simply the best in diamonds and so much more! Come in and let the Dalzells show you what makes the difference.

Dalzell & Co. Fine & Antique Jewelry is at 23 N. Williams Street in Old Downtown Crystal Lake. Travels of a Travel Professional

Puerto Vallarta! Steve and I just returned from a most enlightening trip to this lovely colonial Mexican town—quaint, Old World cobblestone streets, red-tiled roofs and the Pacific Ocean at your feet. We loved walking along the shore of Banderas Bay with its world-renowned resorts and hotels, warm sun and tropical ambiance. Luxury white stucco villas, private condominiums and casitas have become the signature of Puerto Vallarta.

(Ask me for my favorite little jeweler in old town for great silver buys.)

We found a wealth of wonderful restaurants in old town and in the marina area. Here, fishing and excursion boat rentals are readily available.

We loved the newest arrival, the Four Seasons Punta Mita. Only a scant 40 minutes north of Old Town, between the rugged Sierra Mountains and the pristine white coral shores of the Pacific Ocean, this resort offers an unprecedented level of privacy, elegance and personalized service and has been built to preserve and blend with the natural environment. Four Seasons is a golfer's paradise! This championship golf course, designed by Jack Nicklaus, features the "Tail of the Whale" optional hole. In low tide, it is accessible by walkway; in high tide, the amphibious golf carts are your transportation. The resort's state-of-the-art water purification

systems, advanced fitness center and full spa make it the perfect choice. The tennis courts offer a day or night playing option. The huge free-form pool with whirlpool even offers a separate children's water play area, great for families and singles. Coral reef snorkeling, nearby sailing, game fishing, diving, seasonal whale watching... there were not enough hours in the day to enjoy it all.

With all the terrific choices, Steve and I are tempted to share this treasure with the entire Jahnke clan! On second thought, maybe it should remain our hideaway!

Our **Travel House** Virtuoso properties offer endless possibilities... and, of course, special amenities. Stop in soon to discuss your winter dream getaway. We'll help you turn it into a reality!

Everyone is Finding a Way to Help

When Citizens for Conservation restoration volunteers find themselves late for a meeting time, they usually check the message board to learn where the work group has gone. Following the events of Sept. 11, the message read, "Gone to Grigsby Prairie—collecting seed for the future." Those words inspired volunteers to plan a special day—Citizens for Conservation Family Day.

Citizens for Conservation invites area families to Citizens for Conservation Family Day on Sunday, Oct. 7, at 3:30 p.m. at Grigsby Prairie. Family members of all ages will help collect seed from native plants that will be used in restoration work at Grigsby and other local nature preserves. There will be natural materials, crafts for children and refreshments for all. Please RSVP at 847-382-7283.

Portraits Aren't Just Pictures... Especially Now

Dear Friends,

In the wake of the recent tragedy our country suffered, we all have been saddened by the loss of human life and angered by those who caused it. It has forever changed our lives dramatically. In one single day, many of the "things" we held near and dear all of a sudden don't mean what they used to. Time spent with family and friends will take on new priorities for all of us.

This incident is also a reminder of the importance of what portrait photographers do on a day-to-day basis. It has put to rest any self-doubt of how important our profession is and how cherished those photographs of our loved ones are and become. In my career, I've tried different aspects of the photographic profession from advertising to commercial work. The only aspect that felt right for me was photographing people. I'm privileged and blessed to have been able to touch people's lives in this small but special way for all these years.

Please don't miss portrait opportunities for your children, parents and yourself. Remember also that, as ironic as it seems,

having a portrait made of yourself has nothing to do with what you look like but everything to do with those you love and who love you, not for what you look like but for who you are. I'd like a chance to talk to you sometime to plan your portrait. I promise, I'll make it a good experience. Take good care.

Sincerely,
Al Buschauer

Rare Curtis Photogravures Featured at River Trading Post

In 1899, photographer Edward Sheriff Curtis (1868-1952) participated in the Harriman expedition that removed a Tlingit totem pole on the Alaskan coast and turned it over to the Field Museum in Chicago.

Shortly before the turn of the century, he began his quest to record the last living traditions of North American Indian tribes... an undertaking that took over 30 years and ruined his family, his health and ended in financial disaster for him.

The result of the effort, in which Curtis created thousands of images, was to have been published in a massive 20-volume encyclopedia entitled *The North American Indian*. It is not known how many of the 500 numbered sets originally planned were actually printed, but it is known that only 272 sets were actually sold at an issue price of \$3,000.

Curtis' work has come under much criticism from scholars for providing some of his subjects with costumes to make them look "authentic." Yet Curtis' work contains a great deal of information that is available nowhere else and that had never been published before.

Today, this photographer's life work is preserved in manuscript departments, museums and library stockrooms. While they may be posed and idealistic, they do represent the call for a better world, a

dream of pride and freedom.

River Trading Post has acquired an extensive portfolio of the original Edward S. Curtis photogravures and has made them available to collectors. A preview of the collection can be viewed on the **River Trading Post** Web site at—www.rivertradingpost.com.

Christophe— Reminiscent of a Paris Bistro

Christophe has brought contemporary American cuisine rooted in classic French traditions to the Crystal Lake area. The atmosphere is reminiscent of a Parisian bistro with finished hardwood floors, exposed brick and textured walls. Retro French posters line the intimate bar area, while oversized mirrors, carpet and banquettes lined with trendy fabric lend an air of understated elegance throughout the dining room. Menu items change frequently and blend techniques and flavors to form innovative dishes that add excitement to the dining experience. A well-rounded wine list rich in quality fills the cellar.

Christophe is now offering a pre-fixe menu with your choice of appetizer, entree and dessert—all for \$26. The pre-fixe menu is available Tuesday, Wednesday and Thursday and does not include daily specials.

Christophe will be celebrating the Nouveaux Wines of the 2001 harvest in Beaujolais, France. Our celebration will begin on Thursday, Nov. 15, through Saturday, Nov. 17. **Christophe** will be featuring Georges Duboeuf 2001 Beaujolais Nouveau along with French bistro items

such as the classic cassoulet, lamb shanks and streak frites.

Program on Jerusalem and Petra

At the first Members Present Art program sponsored by the Barrington Community Associates of The Art Institute of Chicago, Virginia Tolk will give an illustrated program on Jerusalem and Petra. The meeting begins at 1 p.m. on Thursday, Oct. 4, at the Barrington Area Public Library, 505 N. Northwest Highway.

Jerusalem is a city that is holy to Jews, Christians and Muslims alike. Most Western tourists enter the old city through the Jaffa Gate, as travelers have done for centuries. The area is crowded with stores, residents, churches and historic sites.

Traveling by bus across the Jordan River and along the King's Highway in Jordan, a stop is made at Mount Nebo, site of the

death of Moses. By the first century, the Church of Moses had expanded into one of the most extensive monastic complexes in The Middle East.

Petra is Jordan's most spectacular tourist site. It was the home of the Nabataeans, a nomadic people, at the end of the seventh century B.C. An important city on the ancient caravan routes due to its location and its abundant water supply, Petra prospered until the first century when the city reached 3,000 inhabitants. Its location was a mystery until 1812 when Johan Burckhardt, a Swiss explorer, visited the forgotten city.

Guests are welcome, and reservations are not necessary for this free program.

Reserve Our Dining Room

We often get requests from our customers for a private dining room. So this year, we have decided to dedicate all of our Sundays and our entire dining room to private parties. **Julio's Latin Cafe** offers a unique setting, transporting you and your guests to the ambience of a tropical destination. All packages include four-course dinners, white linen napkins, coffee and tea service, public address system, ample free parking, chips and salsa or

bread and butter. We have special touches available like a fresh fruit sorbet course, an extensive wine list and custom menus. We can even arrange for live entertainment to compliment your party. Call us at **847-438-3484** to begin planning an "out of the ordinary" event.

Check out our menu and entertainment schedule on the Web at julioslatincafe.com.

Chers Amis...

Since we started our monthly feature "True Bistro Dish" at the beginning of the year, your response has been extremely positive. We thank you for that. It shows that there are still people out there who can enjoy what I like to refer to as "happy food." Should you have missed us since the beginning of the year, here is what we have featured: Pot au Feu of Chicken, Ris de Veau, Canard aux Cerises, Rognons de Veau, Lapin a la Moutarde, Bouillabaise, Osso Buco and Choucroute Garnie.

For this month, October, the regional feature from the beautiful south of France is La Brochette de Fruits de Mer: shrimp, scallops, tuna, salmon, skewered and briefly marinated in olive oil and herbs of Provence, a touch of saffron, grilled and served on seasoned couscous with rais-

sins. Voila! It is available with or without the proper wine, a delightful dry rose from Provence. (Please, forget that you think you do not care for rose wine!)

Very important date to keep in mind—**Sunday, Oct. 28.** Join us at **D & J Bistro** for our ninth edition of **Spectacular Southern France**, a slide presentation narrated by Melanie Karsen. Commentaries, questions and answers, followed by a three-course regional dinner featuring the aforementioned Brochette de Fruits de Mer, for a modest \$46, all inclusive (presentation, food, wine, coffee, tax and gratuity)! Of course, it is necessary to reserve your spot!

As a conclusion, let me thank you for helping us go through our best year so far, in 14 years. *Merçi, merci!*

Ars Musica Chicago is Chicagoland's most important early music ensemble specializing in the performance of music from the Middle Ages through the Baroque and early Classic eras. The opera art form will be traced from early works

by Caccini and Peri through its development by Monteverdi and its spread across the Alps to France, Austria and England. Scenes and arias from these early operas will be introduced by lively readings from contemporary renaissance and baroque sources.

Severance Agreements—Releasing Your Legal Rights

by Joette S. Doran, J.D.

As you may know, a severance agreement is intended by an employer to provide a terminated employee with a specific sum of money and/or benefits in exchange for the release of the employee's legal rights against the company. Although employers are not required by law to offer severance, often employers will offer severance pay in situations of a layoff or downsizing. Under those circumstances, severance is usually defined by a company policy which sets forth the calculation of pay based on the employee's length of service and position with the company. Another reason for the offer of severance is to resolve an employee dispute related to the termination. In some situations, the employer may not offer a severance package. However, depending on the particular situation which led to the termination, an agreement may be negotiated. A severance agreement is beneficial to an employer where it desires to avoid future litigation.

A properly drafted severance agreement is enforceable and therefore should be carefully considered. Before you sign

a severance agreement, it is extremely important to know your legal rights and to understand exactly which rights the company wants you to relinquish by agreeing to terms proposed by the company. Sometimes, terminated individuals are fearful and agree to sign away their legal rights in exchange for inadequate compensation or terms which may restrict future employment. For instance, carefully consider a severance agreement if it includes a "non-compete" agreement or "restrictive covenant" provision. If such provisions are properly drafted, they are enforceable and will legally affect your ability to accept

Eliminate Spider and Varicose Veins at Dermatology Physicians & Surgeons, Ltd.

At Dermatology Physicians & Surgeons, we have been successfully removing unsightly veins from the face and legs for over 20 years. All types of vein problems can be treated within our offices by our physicians who are board-certified in dermatology. There are several options for the treatment of your vein concerns.

Spider Veins

Spider veins can be red, blue or purple and come in a range of sizes. The tendency to develop spider veins is hereditary, and several factors aggravate them. Pregnancy, obesity, standing or sitting for long periods of time, and sitting with legs crossed may make spider veins worse. Age and hormones are also influential on the severity of spider veins. Spider veins can be a source of personal embarrassment that may lead individuals to seek their removal.

Sclerotherapy is the time-tested standard of treatment and remains the most useful modality available for treatment of spider veins. Sclerotherapy involves the careful injection of a "sclerosing" solution into the unwanted veins. The interior walls of the vessels are damaged by the solution, resulting in the permanent closure of those vessels.

For veins that cannot be treated by sclerotherapy, lasers and "intense pulse light sources" are now used for the treatment of some veins. Our office uses the CoolGlide™ and Vasculight™ laser systems and the PhotoDerm™ Intense Pulse Light System. These instruments destroy blood vessels when a beam of light is absorbed by the blood vessel but not the surrounding tissue. The result damages the vessel sufficiently enough to seal it. Vasculight and PhotoDerm are especially useful for facial veins. **Doctors David P. Van Dam, J.D. Fallon and Jeffery J. Berti** perform these procedures daily.

Varicose Veins

Varicose veins are bulging, enlarged veins often found on the thighs and calves. Heredity, injury and phlebitis are factors that contribute to varicose veins. Although these veins are usually not dangerous, they can be unsightly and embarrassing.

Varicose veins can be safely and permanently removed during an office visit with a procedure called Ambulatory Phlebectomy (am'-bew-luh-tor'-ree flee-beck'-toe-me). It is performed entirely by a local anesthetic, with no stitches, in the convenient setting of our Crystal Lake office. Most varicose veins can be treated in less than an hour, and patients can resume normal activity the day of surgery.

If you have varicose veins and your legs feel heavy and tired at the end of the day, relief is possible with Ambulatory Phlebectomy. Or, if you are simply unhappy with the appearance of your legs because of varicose veins, Ambulatory Phlebectomy can help you feel better about the way your legs look and feel.

Jeffery J. Berti, M.D., performs Ambulatory Phlebectomy in the privacy of his office. The procedure can eliminate even the most complicated cases of varicose veins with excellent long-term results, better cosmetic results and no interruptions to your work or social activities.

If you are disturbed by the appearance of spider or varicose veins, one of these treatments may be helpful. Call **Dermatology Physicians & Surgeons, Ltd.** at **846-382-5111**, Barrington, or **815-455-4434**, Crystal Lake, for a free consultation with **doctors David P. Van Dam, J.D. Fallon and Jeffery J. Berti** to learn more about our vein treatments. Free, private consultations are also available for Tumescence Liposuction, permanent hair removal, wrinkle reversal treatments and microdermabrasion.

Art Associates to View Van Gogh and Gauguin: The Studio of the South

On Nov. 1, the Barrington Community Associates of The Art Institute of Chicago will sponsor a bus trip to the institute's groundbreaking exhibition *Van Gogh and Gauguin: The Studio of the South*. It is the first exhibit to explore the artistic and personal relationship of these two artists, and this is the exhibit's only showing in the United States.

Eleven years in the making, this exhibit of 135 works from 63 public and private collections worldwide includes 107 paintings, 19 works on paper and nine sculptural objects. The core of *Van Gogh and Gauguin: The Studio of the South* focuses on the intense, nine-week period during which the artists worked and lived together in the southern French city of Arles. Although they painted side-by-side, they set about their work in very different ways. Van Gogh painted what he saw around him; Gauguin relied more upon his memory and imagination. Van Gogh painted quickly and tended to be messy; Gauguin often worked on paintings for an extended period and was very orderly and tidy. Landscapes and portraits painted in tandem or in response to one another help us envision the dialogue between the two men. Challenged by new motifs and procedures, by strong personality differences, and by points of view that were compatible or discordant, van Gogh and

Gauguin demonstrated to each other their evolving ideas about the role of the artist and of art in modern life.

The story of their complex relationship begins some years before and continues after they parted. Their correspondence began in 1888 and continued until van Gogh's death in 1890. Gauguin was haunted by memories of his friend to the end of his life in the South Pacific. The dynamic interaction of these two pioneering figures proved to be enormously stimulating for both, enabling each to have a profound effect on the history of 20th century art.

Redefine Your Shape

Redefine your shape, the quick and natural way, as seen on "The View." Star Jones and Meridith (hosts for "The View" on Channel 7) did the body wrap on May 11, 2001, with very satisfactory results. Both ladies said they lost inches and felt great.

At **Barrington Body Wrap**, we are your solution to a new figure. Come in for a rejuvenating body wrap that will...

1. Tighten Skin
2. Tone Your Body
3. Define and Contour Your Figure
4. Release the Toxins in Your System
5. Reduce Cellulite

You will see results with the first wrap. Whether it's just to tone and tighten or to start reducing your dress size, the body wrap is the quickest and most natural way to accomplish this. We will help you

get rid of the so-called "saddle bags" at the top of your legs, reduce your hip area and take inches off your waist.

Give yourself a "lift" with our nonsurgical face tightening. You will be amazed at the results... a fresher, younger look. We carry the new line of Suddenly Slender anti-aging products. Our no diet-diet carb stopper and fat stoppers are also available. Have that dessert and also stop the carbs and fat from being absorbed into your system.

Barrington Body Wrap is located at 557 North Hough Street in Barrington at the intersection of Routes 59 and 14 (Northwest Highway) next to the Jiffy Lube. Call **847-277-0742** for an appointment and more information.

"Autumn in the Country"

Deep within the Barrington countryside is the Sanfilippo Victorian Palace, known worldwide for its magnificent collections of beautifully restored antiques. From music machines to art glass, the collection is displayed within a breathtaking French Second Empire setting. Among the priceless treasures is the world's largest restored theatre pipe organ housed in the Place de la Musique.

On Oct. 21, this is the venue where the Barrington Area Arts Council opens its 2001-2002 concert season with "Autumn in the Country," an afternoon of music and fine art. The benefit event, sponsored by Talon Asset Management, features a concert by organist Lyn Larsen and an exhibit of impressionistic paintings by artist Jill Steenhuis.

The afternoon begins as the doors of the estate open to the public at 1:00 p.m. for a tour of the Victorian Palace, the Place de la Musique and Sanfilippo's renowned collection. At 3:00 p.m., Mr. Larsen, a resident of Arizona, takes his seat at the 1927 Wurlitzer theatre organ. Since 1968, he has performed as a touring concert organist throughout the United States, Canada and abroad. Larsen's repertoire is suited to the dramatic presence of the organ and ranges from classical to popular.

At 4:30 p.m., guests will walk to the Carousel Building for an hors d'oeuvres reception, tour and art exhibition. This building is home to the most ornate example of a European salon carousel—the *Eden Palais* built in 1889. The carousel is surrounded by the Sanfilippo collection

Meet Your Skin's New Best Friend... Skin Care Expert Catherine Zedan Grandi, L.E.

Catherine, the director of skin care at **Estetica Advanced Clinical Skin Care** and the author of *Seven Secrets to Sensational Skin Care*, is a licensed esthetician, a licensed esthetic instructor actively teaching part-time and is very proud to be the first esthetician in Illinois accredited in medical esthetics through Central Texas College, the first college in the United States to offer an accredited program. Over the past nine years, Catherine has frequently been asked for her expert opinion on a wide range of skin care topics, such as defying age, sun damage, acne and uneven tones. Below is one of the most recent requests.

End of Summer— Skin Strategies

Dear Catherine: I'm so sorry that over the summer I neglected all the advice you shared with me about protecting my skin from the sun. Now that summer is over and my tan has faded, I am concerned that I might have damaged my skin. I am noticing brown spots and fine lines that were not there before summer. My skin looks so old and dry, can anything be done to reverse the damage?

—Sincerely, *Sun Damaged Skin*

Dear Sun Damaged Skin: Many of our clients are experiencing the same problem. Fortunately, there are treatments which are designed to address your concerns. The goal is to restore and rejuvenate the natural vitality and vibrancy of your skin. The first step in this process would be to assess the extent of your damage. This could be accomplished by using a tool called a wood's lamp. A wood's lamp is an analysis tool used by skin care experts to see into the deeper layers of skin to determine the extent of any damage. Depending upon the damage, a treatment plan could be designed

considering some of the following treatment options.

• **Rejuvenation Facial**—The first priority should be to hydrate the skin. The rejuvenation facial is specifically designed to re-hydrate the skin. This will allow the skin to "breathe" again, which will eliminate the "dry" look.

• **Microdermabrasion**—The next step, which is just as important, would be to remove, or exfoliate, the old outer skin, or epidermis, and allow growth of new skin cells. Microdermabrasion is a treatment that is used to accomplish this. Exfoliation is accomplished by the use of tiny micro-crystals combined with gentle suction to remove the outer layer of skin cells, leaving the skin smooth, beautiful and youthful looking!

• **Chemical Peel**—Another option for exfoliation is a chemical peel. Chemical peels are used to exfoliate the outer skin cells and are often used to address more extensive sun damage. There are a wide range of chemical peels used to target different problems. Many peels are very effective at eliminating brown spots and reducing fine lines.

Achieving beautiful, vibrant skin is a process that takes time. Sun damage cannot be repaired with just one treatment. You must be committed to a series of treatments if you really want to reverse the damage that was done. The first step in getting started is to schedule a consultation with a professional skin care expert to design a custom treatment plan specifically for your skin. If you would like additional information or have questions, visit our Web site at esteticaskincare.com and submit your questions at our e-mail site. Or call to schedule a private consultation at **Estetica Advanced Clinical Skin Care** at 847-438-2100.

New Skin Technology Debuts at Northwest Dermatology

Northwest Dermatology is pleased to announce the addition of the Diamond Peel™ microdermabrasion system to their practice. Microdermabrasion, the most progressive new therapy in skin care, is being widely recognized by professionals throughout the U.S. for its effective, gentle skin peeling capabilities. It's been featured in all the major magazines including *Vogue*, *New Woman*, *Allure*, *Elle* and others and continues to be the most talked about new treatment for people in search of a more youthful appearance and healthy looking skin.

The Diamond Peel™ uses micro diamond-shaped crystals to remove dead skin cells and rejuvenate the health of the skin. Treatments are fast and pain-free, leaving little or no redness. They last less than an hour and do not interrupt your busy schedule.

The Diamond Peel™ can treat aging and sun-damaged skin, some types of acne and acne scarring, altered pigmentation, fine lines, melasma and enlarged and clogged pores.

According to the American Society for Dermatologic Surgery, microdermabrasion is "skin care for the new millennium. It greatly enhances poor, dull skin texture by gently resurfacing the superficial skin layers; softens and modifies fine 'expression' lines typically seen on the forehead and around the mouth; and it polishes and reduces fine lines on the cheeks generally caused by aging and sun damage."

The Diamond Peel™ treatment erases epidermal layers at varying depths in a safe, controlled manner, minimizing skin trauma. This approach respects the integrity of the skin and promotes even healing. Maintaining level cellular growth on the surface aids in the freshness of the skin's appearance. Regular treatments support a healthy, balanced skin surface.

The Diamond Peel™ complements other treatments offered at **Northwest Dermatology**, such as EpiLight hair removal, Botox, Collagen, Beta-Lift peels as well as general and surgical dermatology. Please call our office in Hoffman Estates at **847-884-8096** for more information.

Smiles for Success—Orthodontics

by James T. Gavrilos, DDS

Dr. James Gavrilos

In the United States, beautiful, straight teeth have almost become a prerequisite for success in business and social life. Smiling faces with beautiful teeth look out of our televisions, magazines and movie screens.

If an individual does not inherit the straight teeth necessary for such a winning smile, an orthodontic consultation is usually advisable. This may begin as early as 7 years of age so that new technology can be used to make orthodontic treatment less involved, less time-consuming and frequently less costly.

There are other benefits of orthodontic treatment that are less dramatic but, over time, just as important for that winning smile.

For one, straight teeth last longer. If swallowing and chewing forces are properly directed down the roots of teeth, the gums and bone (which hold your teeth in place) can absorb these forces and incur less damage. Teeth that contact each other improperly allow food to pack between them, thereby injuring the supporting gums and bone. But, properly aligned

teeth make oral hygiene with a toothbrush and floss easier and more effective.

Also, even small malpositions of teeth may contribute to jaw-joint related head and neck pain. It is hard to smile when you are in pain. It may be even harder to smile when you get your orthodontist's bill. But remember, quality orthodontic treatment is one of the most conservative and most valuable dental treatments available today.

For thorough evaluation, contact **Dr. James T. Gavrilos** by calling **847-381-4040** in Barrington.

The New Field of Esthetic Skin Care

by Gary S. Churchill, MD

Gary Churchill, MD

If you have ever had facial plastic surgery or if you are considering it, you need to know about the exciting field of esthetics. Through the techniques employed by a licensed esthetician, you can improve and enhance the appearance of your skin. Whether you are trying to maintain your skin after a surgical procedure or just want better looking skin, there is a treatment for you. Based on scientific principles, the treatments are custom designed for your skin's particular needs. Esthetic skin care can reduce the depth of surface lines, help fade abnormal brown spots, smooth rough skin and help clear up acne prone skin. Overall, it can give your skin a more youthful and healthier glow. The treatments are only done by a qualified, licensed esthetician in a physician's office and involve various methods of exfoliation, skin bleaching and rehydration. These treatments, when combined with a daily home care regimen, can give dramatic results.

What is an Esthetician?

A licensed esthetician is someone that has gone through specialized schooling and passed a state licenser exam to allow them to take care of the skin from an esthetic or beauty standpoint. A licensed esthetician has applied their specialized training in a medical setting under the oversight of a physician. This allows the esthetician to perform stronger peels and somewhat more aggressive treatments than could be done elsewhere. A myriad of different procedures can be performed. The particular treatment (or combination of treatments) is chosen in the consultation process and is based on that patient's particular need and skin condition. A partial listing of available options include: different strength peels to treat fine lines and wrinkles, special peels to treat irregular pigment, peels to clear up blemishes, therapeutic masks that provide special

nutrients to the skin and an advanced exfoliating process called a Micropeel.

What is a Skin Peel?

A peel gets its name from the way it works. A solution is applied to the skin surface. The solution is absorbed and it causes the outer layers of skin to "peel" or slough off. The degree of peeling is determined by the strength of the solution causing the peel and the depth to which it is absorbed into the skin. Different solutions also cause different effects on the skin. For example, Kojic acid, a fruit acid used in certain peels, has a stronger bleaching effect than other fruit acids such as Glycolic or Lactic acid. When the skin peels, it stimulates a repair process that actually forms a thin layer of new collagen in the upper layer of the skin. With repeated peels and home treatments as well, this collagen layer gets thicker. The thicker the layer gets, the smoother and tighter the skin appears. Generally the goal of these peels is to go as deep as the skin will tolerate without causing an unsightly recovery for the patient. The patient should be able to undergo a peel and still be presentable in public while it is healing.

What is a Micropeel?

This technique involves a double exfoliation process. The first exfoliation is done manually with a #10 scalpel. It removes a

The Art of Nurturing Yourself

by Judy Kaplan, MS

Has it ever occurred to you that nurturing yourself is actually a blessing for your family, friends and co-workers as well as yourself? In our society, many of us have become conditioned to believe that devoting time to yourself is considered selfish. I prefer to think of it as taking care of yourself or even as "self-caring."

The essence of good health in mind, body and spirit comes from one's ability to know what makes him feel good, feel strong, feel alive and feel empowered. When you think of those people that you admire—whether it is because they are in good physical shape, they are successful in work, they are successful in their relationships—most often you will find that they know how to take care of themselves. Balance and harmony is a much sought after state of being. Yet, it eludes so many of us because we avoid the essential ingredient of nurturing ourselves.

Whether you have a significant other or you live on your own, whether you have children at home or are an empty nester, whether you work out in the world or at home—knowing the ways in which you honor yourself and practicing those ways will enhance every other aspect of your life. In so many instances, husbands and wives are disappointed because they don't nurture each other. In other cases, friends or co-workers are looking for needs to be filled by others. So overlooked is what is

within our very reach, the possibility of nurturing ourselves, satisfying our own needs. This benefits everyone around you because it makes you a less "needy" person. More importantly, it can provide you with the path toward your own empowerment. At the very core of empowerment is the ability to do what is necessary to allow you to reach your highest potential.

You might wonder at this point, what does it mean to nurture yourself? If you have devoted your life to others (children, spouse, family, volunteering or providing income), chances are you haven't thought about what might be special to do for yourself. I will suggest, as a beginning, carving out 20 minutes per day to be alone to think and reflect, to imagine and fantasize about what you have always wanted to do and haven't yet had the time or the chance. Let your imagination run wild, let the possibilities flow. Begin to journal some of the ideas. After a week or so, prepare a list of exciting possibilities, even if they seem far fetched. Once your list is compiled, select one thing and find a way to incorporate it into your life: take an art class, sign up for a martial arts class, teach a class, take a walk each day, buy yourself flowers once a week, plan an event, read a book. As you nurture your spirit, your contentment and pride in accomplishment will radiate, enhancing other aspects of your life.

Orthognathic Surgery is a Valuable Tool in Orthodontic Treatment

Orthodontics alone can correct crowding of teeth and many "bite" problems if the upper and lower jaws are in relatively proper position. However, when a patient's jaw or jaws are positioned incorrectly, there may be a need for orthognathic surgery in conjunction with orthodontic treatment.

Orthognathic surgery is sometimes called "surgical orthodontics" because, just as an orthodontist repositions teeth, an oral and maxillofacial surgeon uses orthognathic surgery to reposition one or both jaws. The objective of orthognathic surgery is the correction of a wide range of minor and major facial and jaw irregularities due to unequal growth of the jaws, injury or birth defects.

People who can potentially benefit from orthognathic surgery are those who have a receded lower jaw, an overdeveloped and protrusive lower jaw, or an open bite. Post surgical benefits may include an enhanced appearance and an improved ability to chew, speak and breathe.

In order to determine if orthognathic surgery is necessary, you must be evaluated by a team of doctors consisting of an oral and maxillofacial surgeon, orthodontist, and a general dentist. Based on the results of your examinations and other

Dr. Michael Hayward

diagnostic procedures, you and your doctors will decide on the proper course of treatment. During treatment, your doctors will work closely together. The orthodontist is responsible for moving the teeth prior to surgery so they will fit together properly after the jaws have been repositioned. After surgery, final orthodontic tooth movement is usually necessary to "fine-tune" your bite. In addition, your general dentist will help you maintain your oral health before, during and after your orthodontic and surgical treatment.

If you would like further information regarding orthognathic surgery or orthodontics, please contact us at either our Barrington, 847-382-5588, or Palatine, 847-359-7980, offices or visit our Web site at www.haywardorthodontics.com.

Black Cohosh—An Herbal Alternative to Estrogen for Menopause

by Carole Childers, C.N., L.N.C., All Ways Healthy

As women enter menopause, typically between the ages of 45 and 50, many experience hot flashes, sweating, thinning of the vaginal lining and psychological symptoms such as depression, anxiety and forgetfulness.

Current conventional treatment attempts to replace waning natural hormones with supplements of estrogen with or without synthetic progesterone. Hormone Replacement Therapy can reduce menopausal symptoms and the risk of heart disease and osteoporosis. However, problems such as breast tenderness, water retention, reactivation of uterine bleeding and irregular spotting arise. Estrogen also increases the chance of uterine cancer, a risk that's offset by the inclusion of progestins. Whether the therapy increases the risk of breast cancer isn't clear. However, recent analysis of accumulated data on 160,000 women found that current or recent use of Hormone Replacement Therapy increased breast cancer risk by 2.3 percent for each year of use.

The most widely used and only thoroughly studied herbal approach to menopause is black cohosh (*Cimicifuga racemosa*). In addition to being a substitute for Hormone Replacement Therapy, black cohosh is also recommended by some herbalists to lessen water retention, soothe nervous tension, reduce inflammation,

lower blood pressure and alleviate pain from headaches and arthritis.

Since 1956, over 1.5 million menopausal women in Germany have used black cohosh to relieve not only hot flashes but also depression and vaginal atrophy. In 1994, over 6.5 million monthly dosages of black cohosh were utilized in menopausal women in Germany, Scandinavia and Austria.

In one study involving 629 female patients and 131 doctors, black cohosh produced clear improvement in over 80 percent of patients within six to eight weeks, with most patients reporting noticeable improvement within four weeks.

When used within recommended dosages, black cohosh shouldn't have any ill effects. However, because it dilates blood vessels, an overdose can trigger headaches, dizziness and low blood pressure.

If you're interested in switching from Hormone Replacement Therapy to black cohosh, you should consult a health care provider to determine a plan to taper the therapy while gradually increasing usage of the herb. And always check with your health care provider before beginning any new treatment, whether it's herbal or over-the-counter.

For further information or a consultation, contact Carole at **438-9200**.

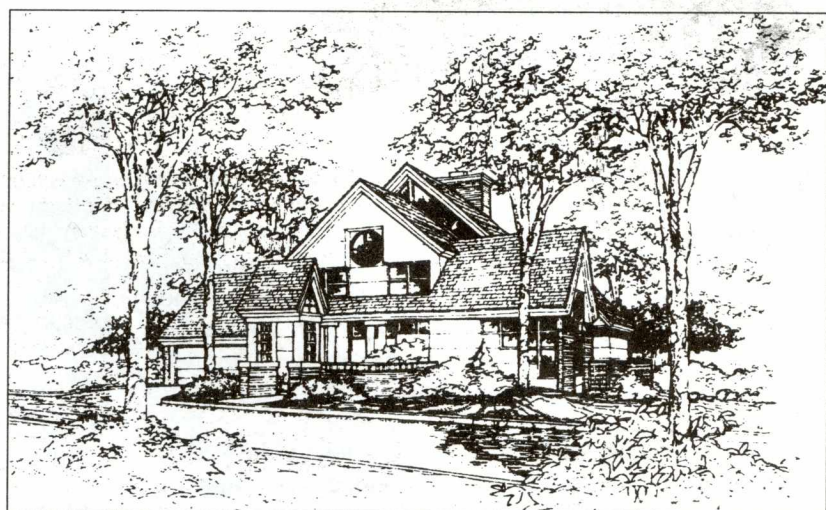

session will have a predetermined theme and include exercises to assist participants while developing their own tales of life.

"Tales of Life" will be held Sept. 26, Oct. 24 and Nov. 14 from 9:30 a.m. until noon at the Barrington Area Arts Council

Gallery, 207 Park Avenue, Barrington. The program is free, and attendance at all three workshops is not required. Space is limited, so reservations are advised. For registration or more information, please call 847-381-5030 or 847-382-5626.

REMODELING 2001

Experts predict that more people will be able to work from home as technology progresses. That was one impetus behind a recent remodeling project undertaken by Tom and Susan Carroll of Inverness. Tom, a consultant, needed a space to serve as a home-office. The Carrolls also wanted to incorporate space for large scale entertaining. Working with the local architecture firm of David Lindquist and Associates, the Carrolls envisioned a new room nestled into the mature trees that adorn their property. Architect Dave Lindquist designed an octagonal room, off the existing living room, to take advantage of the verdant scenery. The finished lower level would serve as a workspace for Susan and a guest suite for visitors.

Barrington's **Delta Renovations** was chosen by the Carrolls to be general contractor. Framing a soaring, 20-foot high, 12/12 pitch, octagonal roof is a job best tackled by experts. "This is the kind of challenging work that my crews live for," says company President Mark Zurek. "It's really satisfying to see all of the angles come crisply together. A mistake in the framing for a project like this will definitely show in the finished room." The addition also boasts a trayed ceiling with uplighting behind beautiful moldings and a custom-built fireplace by Rich Dworshak, one of **Delta's** master carpenters.

The Carrolls worked with Ross Gerami, a designer with **Delta Renovation's** sister company, **Barrington Kitchen & Bath Studio**, to design cabinetry worthy of this beautiful new space. The Carrolls chose Crystal cabinetry in a richly-stained cherrywood. Ross designed special angled cabinets to flank the bookcases. Fluted pilasters and an oversized crown molding were incorporated to add visual weight to the bookcases, keeping them in scale with the new room. The custom desk and credenza needed a practical work surface that wouldn't look too "kitcheny or bathroomy". Ross was able to find a laminated product that exactly matched the cherry stain. When combined with cherry-edge molding, it makes a surface that will stand up to daily work, yet be beautiful enough to complement the rest of the room. A wet-bar with beveled glass mullion doors was included to make the room amenable to entertaining.

If you are considering a project similar to this one or a new kitchen or master suite, you should call **Delta Renovations** at 847-277-1305 or **Barrington Kitchen & Bath Studio** at 847-381-3084. Our team is waiting to become part of your team.

It takes expertise to do the intricate framing necessary to create a beautiful finished ceiling like the Caroll's. Note also the custom-built mantle.

June 12, 2001

It was such a delightful experience to work with Delta Renovation and Barrington Kitchen and Bath to realize a wonderful dream of ours—to add a Library/Office to our home. Our architect, David Lindquist, used his considerable imagination and design talents to envision the most marvelous space. We have used it constantly since it's completion—as office space for Tom, to read in comfy chairs by a winter fire, to entertain friends from the wet bar or on extra tables set for dinner in the vacant spaces. Each beautiful detail of craftsmanship is something to be proud of. In the room of the same size directly under the library I have a sewing workshop and office space for myself—and we'll have a Murphy bed and built-in desk installed next week to give the room a finished look. With a new full bath in the adjoining finished room, it will serve as a great suite for visiting family and friends.

We've appreciated all the professional workmanship that it took to complete such an involved project. Through it all we have continued to feel the pride that everyone from Delta felt in the building and the flexibility they were willing to exhibit as our plans changed from time to time. I can honestly say that the whole process was fun!

We'd be glad to speak to others in our area who are considering a building project with either Delta or Barrington Kitchen and Bath and tell them what an enjoyable experience it was to work with Mark and his building team or with Ross as he designed beautiful cabinetry for our Library.

With many thanks,
Susan and Tom Carroll, Inverness

American Society of Interior Designers to Host 30th Annual Oak Park- River Forest Showcase House

The showcase house, located at 1123 N. Ashland, was built in 1927.

The American Society of Interior Designers' 30th Annual Showcase House, sponsored by the Oak Park-River Forest Infant Welfare Society, will open during the month of October. The event will feature the work of 14 of the society's many talented interior designers.

The Showcase House, located at 1123 N. Ashland, will be open to the public from Oct. 7 to 28. Hours are: 10 a.m. to 2 p.m., Wednesday through Friday; 7 to 9 p.m., Thursday and Friday; and 11 a.m. to 4 p.m., Saturday and Sunday. Tickets are \$15 in advance or \$20 at the door.

The doors to the house will be opened, and the ribbon will be cut by local celebrity and philanthropist Lynne "Angel" Harvey. Several local civic organizations will hold special events at the house in October.

The red-brick Tudor-style house was built in 1927. The first owner, Herbert Nichols, lived in the house from 1936 to 1963. The house features leaded glass windows, a newly remodeled kitchen and a beautifully landscaped pond in the backyard.

The Showcase House is the primary fund-raiser for the Oak Park-River Forest Infant Welfare Society, a community-supported organization founded in 1916. The organization funds a clinic, located at 320 Lake Street in Oak Park, which provides wellness and dental care for children whose families cannot afford private health care.

For tickets or more information on the Showcase House, call 708-848-0528 or visit American Society of Interior Designers' Illinois Web site at www.asidillinois.com.

Snowblower Sale— Get 'em Before the "Big Snow"

One thing we can count on, living in northern Illinois, is that it will snow this winter. Just how much? No one knows. But why wait till the "big snow" when there may not be any snowblowers to be had? Simplicity snowblowers are now on sale at **Reed Lawn & Leisure**.

If Simplicity is not your brand, we also have Toro and Honda snowblowers—both at preseason prices. All sizes are available and we invite comparison shopping of different brands.

If you already own a snowblower, getting it tuned up and ready for winter may

also be a wise decision so that it's ready when you need it.

But before it snows, there's one item of business that needs taking care of—leaf cleanup. Turn a mountainous chore into a breeze—**Reed Lawn and Leisure** has a good selection of power blowers and vacuum systems. We carry collection systems from Simplicity, Honda and John Deere; Echo power blowers; and both Simplicity and Echo leaf shredders.

Stop in, browse around or schedule your service appointment soon. Located at 20413 Rand Road. **847-438-5220**.

Landscaping...Dumb Money/Smart Money

Dumb money goes for free design advice from lawn maintenance services and relatives. **Smart money** knows that life-style-compatible design concepts of the non-cookie cutter variety are had from a design professional.

Dumb money buys what looks good today, on sale, and often guided by the label or sales clerk. **Smart money** knows labels are often incomplete and misleading; and aims for long term and low maintenance color for all the seasons.

Dumb money downsizes materials to excess, sacrifices quality, and puts off fundamental problems when the budget is squeezed. **Smart money** takes on one area at a time, does it well, then moves on as budget allows.

Dumb money is cutting back, digging out, and replacing what died or overgrew their bounds in just a few years. **Smart money** is lining up the next putt.

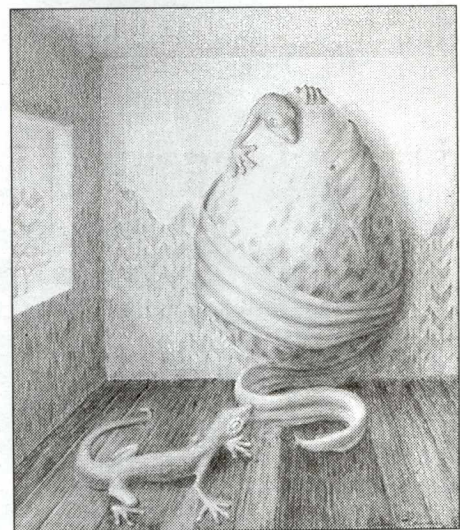

Spend wisely... **the naturalizing landscapes**. 847-438-8890.

Security and Beauty with Outdoor Lighting

A home's landscaping is, if done well, its crowning glory. Tastefully executed landscaping can make even the plainest house look appealing, just as poor landscaping can ruin the appearance of a mansion. Consequently, every year Americans spend millions of dollars installing, enhancing and maintaining both residential and commercial landscapes. The shame of it, though, is that every night when the sun dips below the horizon all of that expensive landscaping is virtually invisible for 10 or 12 hours.

Rudy Kruse, president of **CFC Nite Lites**, has set out to change that by installing landscape lighting which accents elements to which your eye is naturally drawn during the day—flowering trees,

artwork, building features and so forth, using a wide variety of techniques including uplighting, crosslighting, moonlighting and pathlighting.

"There are three main purposes for outdoor and landscape lighting," Kruse explains. "The lights offer added home security. They also offer safety around steps and other potential hazards. And, of course, there are the aesthetic considerations. In fact lighting actually makes a yard appear larger than it is and there is also the opportunity to light up special characteristics of the house itself like special brickwork, cornices and fireplaces."

Cost-effective Alternative to Custom Bathroom Remodeling

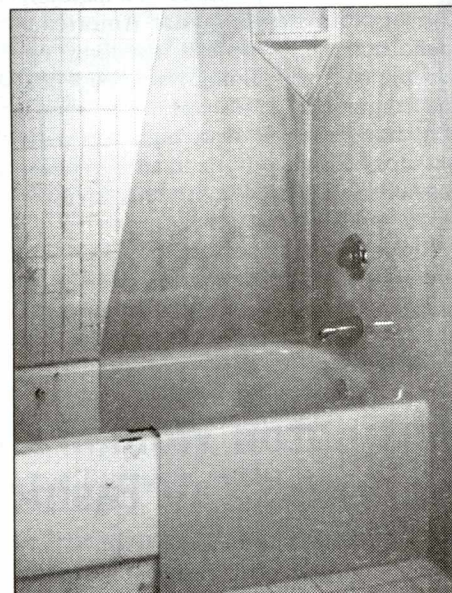

At one time, if you didn't like your bathtub and shower surround, you had to tear out the whole thing and repair rotting walls or chip out scratched and broken tiles. You didn't have much of a choice. But the **Re-Bath** Bathtub Liner and Wall Surround system gives you the alternative you've been looking for.

Bathtub liners, shower base liners and wall surrounds are installed over your existing tub, shower, and walls, which means you don't have to pay demolition and retrofitting costs. The liners do not disturb existing floors, plumbing or walls and they are installed, in most cases, in one day. You can use the bathtub or shower the same night!

Not all tub liners are created equal. **Re-Bath** liners are custom manufactured from high-impact stain resistant acrylic that is thermoformed to fit perfectly over your old tub. Your tub is precisely measured and matched to one of over 600 bathtub liner molds at our manufacturing facility. The custom fit and **Re-Bath's** exclusive patented installation technology guarantees a perfect watertight fit on every bathtub liner. This type of installation ensures complete stability.

With minimal care, the durable acrylic finish will keep its high-gloss beauty indefinitely and it won't crack, chip, peel, or dent. The liners come in many colors that give you a range of decorating options for your new bathroom.

We can also replace other fixtures, vani-

ties, flooring, tiling, etc. and spruce up your walls with paint and faux finishes. Our extensive photo library of past projects will give you plenty of ideas for your own bathroom. Should you need financing, we have a range of options to fit your budget.

Our showroom has a **Re-Bath** installation, complete with all the product information you need to make an informed decision. Visit us at 43 E. Crystal Lake Avenue in downtown Crystal Lake or call us now at **815-459-0082**. We'll help you get the bathroom you want at a price you can afford.

Avoid the Fall Rush!

As the summer activities come to a close this fall, many folks are considering remodeling their home or building a new one. "Now is the perfect time to call an architect to discuss your building plans," says John C. Cazzetta, President of **Kemper Cazzetta Architects** in Barrington. The design process can take several weeks and, when complete, the permit and bidding process can add an additional two weeks. This all means that construction probably will not start until at least two months after your initial consultation with your architect.

"We urge our clients who are considering construction this fall to begin discussing their design thoughts with us as soon as possible. The 'fall rush' occurs in late September through October, which means construction may be forced to start after the holidays! We try to get our foundations in before the frost sets in January." Once this occurs, then construction is not a problem throughout the winter months.

Cazzetta adds, "It is actually desirable to build in the winter. One reason is the increased availability of quality contractors and the decreased costs of building materials in the off-season. Another reason is that your project will be completed by late spring, so that you may enjoy the new structure during the warm season."

If you are thinking of creating or revising your home this year, then please call John C. Cazzetta at **Kemper Cazzetta Architects** at **382-8322** for a free consultation. "We specialize in residential architecture and would enjoy showing you our portfolio."

A Seminar on Art Awareness

"Picture This: Simple, Easy and Fun Approaches to Art Awareness," a seminar for Art in the Classroom volunteers, is designed to provide lively inspiration as well as practical tips.

Debbie Scanlan and Sandy Hasse have been volunteering as art moms in the classrooms for many years. In 1998, they became art coordinators for Lines Elementary School. Their focus as program coordinators is to make looking at art fun and interactive for children. Creative ideas they have added to the program include hands-on activities, computer art, year-end gallery walks and guest speakers.

To see a demonstration of these ideas, come to a seminar sponsored by the Barrington Community Associates of The Art Institute of Chicago on Wednesday, Oct. 10, at the Presbyterian Church of Barrington, 6 South Brinker Road.

Ms. Cori Wulf, manager of the Teacher Resource Center at the institute, will present strategies to help parent volunteers feel comfortable making interesting and educational presentations, even without a structured curriculum. She will apply these strategies to several classroom activities that focus on works by van Gogh

Debbie Scanlan and Sandy Hasse interpret American Gothic

and Gauguin.

Registration and refreshments will begin at 9:00 a.m. The program begins promptly at 9:20 a.m. and will continue until approximately 11:30 a.m. The fee is \$8 per person. Checks should be made payable to Barrington Community Associates. On-site child care is available at \$5 per child if registered by Oct. 3. Registration forms are available from local PTO/PTA organizations or from education chair Nancy Quintana, 847-381-3148.

It takes courage to care, and we have witnessed a nation of people caring. We have also found that the more intensely we care, the more alive we become... especially in light of our recent tragedy. We join in a spirit of appreciation for all people, their values and the rights of all under our flag. These values and rights include life, liberty and the pursuit of happiness. We are now in a position of being the caretakers of these extraordinary privileges.

The telephone lines have been extremely busy. My friend Napoleon called to tell me all was well with him and his family and to ask about mine. He knows I am from the East Coast and all of my family resides within a 40-minute commute of New York City. I was happy to say that all is well with my family too. How lucky we are.

Napoleon asked how our real estate market fared in the aftermath of this tragedy. I told him that our real estate market is extremely busy. People, who have

put off doing things and making decisions, have decided to become proactive...which means either putting their home on the market and moving to a space that is conducive to their lifestyle, or, if they have never owned property, becoming a first-time homebuyer.

The display of unity by the people of our nation has inspired trust and confidence in our world and our economy. If you have been putting real estate decisions off, take action. Envision yourself coming home to a cozy fire on a chilly winter day or to a beautiful garden in the spring. Call our **Coldwell Banker** office, and talk with one of our well-trained Realtors who will listen to your needs. They are committed to helping you get what you want. What better time than now to show your confidence in a bright future in this wonderful country of ours. Own a great big piece of the American Dream.

Your Hardscape Brick & Stone Specialists

From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

It's rather difficult to sit down and write an article after the events in New York this week. When you leave for work in the morning, there is no conviction that you will return home that evening.

When I look around at all the wonderful people I work with, the whole tragedy becomes so overwhelming, it is impossible to deal with. The people you work with become such an integral part of your life. You know about their children and their parents, their ups and their downs. You spend as much time with them as you do with your family.

We as Americans have always taken our safety and security for granted. No longer will this assumption be a normal part of our lives. With all the terror and horror that happened, we also saw the indomitable spirit of our country prevail. All the acts of kindness and bravery that we witnessed are a part of all the people around us.

Next time I find myself overreacting to a small inconvenience in life, I hope I will remember the last few days and quickly put that small inconvenience in its proper

perspective.

I was baby-sitting for my granddaughter, Grace, the afternoon of the attack. I was very grateful to be doing that. Walking her around the block and sitting with her in my arms was the best comfort that life could give.

We at **Wickstrom Ford** join in the prayers offered by the entire country to all those affected by these devastating events.

Esthetic Skin Care

(Continued from page 34)

micro-thin layer of dead skin cells and keratin that lay on the skin surface, preventing our skin care products from penetrating. The second exfoliation is done by applying a peel solution to the surface. This is done lightly and only a slight tingle will be felt with this step. Finally, extractions of blocked oil pores can be performed before applying a moisturizer and sun block. This combined manual and chemical peel technique leaves your skin with a healthy and smooth glow. Makeup can be applied right away and everyday activities can be resumed.

How Do You Decide What Treatment is Best for You?

During your initial visit, the esthetician will go through a series of questions that deal with the treatment. Following the

questionnaire, a complete skin analysis will be done so the esthetician can determine what condition the patient's skin is in and what peel solution would work best for his/her needs. Each person's plan is different and can be modified as needed to maximize results and satisfaction. Once all the patient's questions are answered, the treatment process is next. The last step to your first visit is a customized at-home regimen and explanation of the importance of professional products. You can maintain your skin results by keeping up with an at-home regimen in between peel treatments. The extent of these treatments is up to you.

For the month of October, we will offer three micropeel treatments for \$200.
