## Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair **permanently**, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **1-847-381-9020** for your appointment.

**Clear Reflections** has provided 26 years of service at the same location.

September, 2002

Dear Reader,

The lazy, hazy, relaxing days of summer are over. Clubs and organizations are coming alive with events galore, as you will soon discover as you look through the pages of *Lifestyles* this month.

The "Shepherd's Gala: Spirit Quest! A Night of Discovery" is slated for Sept. 14 at the Marriott Lincolnshire Resort. The theme of this year's gala is one of adventure and discovery and guaranteed to delight partygoers.

Can you believe that Art in the Barn will be holding their 28th festival this month? Over 160 juried and invited artists from across the country will be participating. There will be fun for the entire family with pony rides, food and entertainment.

Were you one of the lucky ones to attend the Barrington Challenge Cup Charity Polo Event on July 27? Sounds like everyone had a great time. Over \$81,000 was raised to benefit the National Breast Cancer Foundation and other local charities. Thanks to the success of this event, women with no health care coverage will be able to receive a free mammogram and free reading through a special program established at St. Alexius.

Until next time, peace and happiness.

With warm regards,

## National Breast Cancer Foundation Scores Big Win with Barrington Challenge Cup Charity Polo Event

On Saturday, July 27, the Barrington Polo Club played host to the second annual Barrington Challenge Cup Charity polo matches, raising over \$81,000 to benefit The National Breast Cancer Foundation and other local charities.

The day's activities were almost flooded out when Mother Nature decided to make up for lost time by delivering a five hour storm after six weeks of no rain! Fortunately for organizers, the field could handle the moisture and the event proceeded as planned, with the sun coming out brilliantly at noon. The day began slightly later than the originally planned noontime start with the Battle of the Patrons, a four-chukker event pitting Barrington's home team of Brian Raymond, Barb Uskup, Tod Rackley and John Wigdahl against the powerhouse Morgan Creek Team of Tony Sekera, Dean Kleronemos, Matt Sekera and Angelo Kleronemos. Barrington jumped to an early lead with the first chukker ending with Barrington leading 3 to 0. Morgan Creek responded in the second chukker, with the game tied at the end of the first half. Goals were traded evenly in the third and fourth with Barrington ending up the victors by a narrow margin of 8 to 7.

John Wigdahl's excellent play at back earned him the Silver Spurs MVP award, while Brian Raymond's incredible neck shot in the first chukker was declared unanimously the winner of the Best Shot award. Tod Rackley's lovely bay mare, Bella, earned the Best Playing Pony blanket for her amazing dexterity in the first chukker.

Halftime activities included a spectacu-

lar *Pas de Deux* dressage demonstration presented by Barrington Hills' own Susan Gohl and Julie Julian of Flying Dutchman Farm. Former polo player Kelcey Roberts then brought out the dogs (literally) for some wild Jack Russell Terrier races. Prizes included "Everything for Polo but the Horse" featuring items from Texas Polo, The Tackeria, Nano's Mallets and other polo sources; "A River Runs Through It" featuring a one-week stay where they filmed the famous feature film of that name; a second vacation package to Beaver Creek/Vail for one week; and finally a custom-forged park bench with a polo theme, wines from Villa Mt. Eden wineries and other items to help you "Sit back and RELAX!"

The feature match, the 19-goal Battle of the Titans, featuring Bank One consisting of Omar Cepeda (4), Billy Mudra (4), Charlie Muldoon (6) and Hamish Bray (4) versus Villa Mt. Eden with Andrew Snow (4), Dave Wigdahl (4), Vale Aguilar (6) and Horacio Onetto (5) got off to a roaring start. Villa Mt. Eden scored right out of the first throw in with almost immediate response from Bank One. The first half ended with a 3 to 3 tie, and it looked as if the game might become a carbon copy of last year's overtime event. In the fourth, Bank One came out swinging with three goals to Villa Mt. Eden's one lone effort. In the fifth, Villa Mt. Eden looked as if they were on fire with three goals to Bank One's empty effort. Omar Cepeda scored early in the sixth and the game continued on at a 6 to 6 tie. It seemed as if overtime was a certainty. With less than 30 seconds remaining, Bank One knock-

ed in, the ball bounced off a pony and, with lightning speed, Villa Mt. Eden's Dave Wigdahl carried the ball directly to goal, ending the game with Villa Mt. Eden defeating last year's winner Bank One by a score of 7 to 6.

It was Omar Cepeda's turn to wear the Silver MVP spurs for his tremendous offensive and defensive play. David Wigdahl once again claimed the Best Playing Pony Blanket with his lovely chestnut mare, Kenya. David also took home the Best Shot award for his outstanding goal shot in the fourth chukker—even better than his game winner if you can imagine that!

The biggest winner of all was the National Breast Cancer Foundation and the local beneficiary of their donation from the proceeds of this match, The Breast Care Center at St. Alexius Hospital.

Thanks to the success of this polo fundraising event, women with no health care coverage will continue to receive free mammography and free reading of the mammograms through a special program established at St. Alexius with the proceeds of last year's event. A big thank you from Barrington Polo for Charities to all the poloists and polo aficionados who assisted with or attended this event.

## Porches Paint a Picture of Americana

It was a place to gather on warm, summer evenings. A comfortable spot to communicate with family and friends, and a romantic retreat where lovers could go to quietly plan their futures. This month, **Woodland Art Gallery**, the area's most respected and knowledgeable experts of collectable art, celebrates porches in "The Art of Porches," a special presentation of works by artists who paint these vanishing American landscapes. Two important works included in the showing will be *Lucas Porch* by Robert Bateman and *Side Porch* by David Armstrong.

Published from an original watercolor in 1995, *Side Porch* is a limited-edition print that represents Armstrong's true love and respect for what we feel to be our common heritage. He has frozen in time what is simple and pure and elevated it to a reverential state. Since his death, Armstrong's work has been sold out and availability of his art is rare. **Woodland Art Gallery** is pleased to offer this print by Armstrong along with a selection of other works by the artist from the gallery's own collection as well as secondary market sources.

*Lucas Porch* by Bateman is also inviting. This signed and numbered limited-edition work is an exquisite example of the artist's profound relationship with his subject as well as his versatility. Known worldwide for his highly-collectable wildlife depictions, this is an uncommon work

by Bateman because of the common house cat that appears almost mysteriously at the rear of the porch. This is an exceptional opportunity to view such an example from the gallery's compilation which boasts one of the largest collections of works by Bateman in the country.

All works featured in this month's special presentation of "The Art of Porches," along with the works of dozens of other highly-collectable artists, are available museum mounted, custom matted and framed by the gallery.

Located at 71-B East Woodstock Street in downtown Crystal Lake, **Woodland Art Gallery and Frame Shoppe** is open Monday through Friday, 9 a.m. to 5 p.m., and Saturday from 9 a.m. to 3 p.m. Call **815-459-0460** for more information.

## Woodstock Christian Life Services and the Woodstock Chamber of Commerce Host the 3rd Annual McHenry County Senior Fair!

**Woodstock Christian Life Services** and the **Woodstock Chamber of Commerce** will be hosting its **3rd Annual Senior Fair** on **Wednesday, Sept. 11, 2002**. The event will take place at the McHenry County Fairgrounds from 10 a.m. till 3:30 p.m. In previous years, the fair provided a day of entertainment, information on products and services, and an opportunity to get to know folks from in and around McHenry County.

The McHenry County Senior Fair is excited to have several musical groups performing, including their headliner from 2001, **The Vito Buffalo Orchestra**. The band will be performing from 12:30 till 3:30 p.m. Last year, folks listened, clapped, sang and danced right along with the band. "Vito was the coolest cat around, joking with the crowd, and having a great time," says LeeAnn Atwood, VP of Marketing at WCLS.

The Harmony Rascals Barbershop Quartet

"Their big band style is the best... we're thrilled to have them back."

**The Harmony Rascals Barbershop Quartet** made up from the Country Gentlemen Barbershop Chorus of Lake Geneva, will be roaming with their lively tunes. Last year, they lead fair-goers with patriotic songs in an a cappella style reminiscent of yesteryear.

There will be games throughout the day, and 50+ information and activity booths supplied by commercial, government, health and service groups. Local non-profits hope to raise awareness about their organizations, as well as recruit volunteers. The festivities will be spread throughout three of the fair-ground buildings and in the covered area outside. There is ample parking space available.

A \$1 donation to help cover costs will be accepted and all activities are free. Although beverages and snacks will be available to purchase as long as the supply lasts, attendees are encouraged to bring a picnic lunch for themselves. Tables will be available in the dance hall during the performances for dining and listening.

The Senior Fair is hosted by **Woodstock Christian Life Services** and the **Woodstock Chamber of Commerce**, and sponsored in part by the following: 1st Midwest Bank, Mercy Health System, *Northwest Herald*, WAIT Radio, *Senior News* and Centegra Health System. For more information, check out the *Northwest Herald* and *Senior News* and listen to WAIT Radio, or call the Woodstock Chamber of Commerce at **815-338-2436**.

## Protecting Your Legal Rights—Stopping Workplace Harassment by Joette S. Doran, J.D.

Federal anti-discrimination statutes, such as Title VII (race, gender, religion or national origin), the Age Discrimination in Employment Act (an employee over 40) and the Americans with Disabilities Act, are created to protect employees from illegal discrimination and harassment.

Harassment is generally defined as unwelcome conduct which adversely affects an individual's employment by unreasonably interfering with an individual's work performance or by creating an intimidating, hostile or offensive work environment. Today, most companies have a written policy against harassment, which is generally distributed to employees. The anti-harassment policy should direct the employee as to whom to complain to regarding the offensive conduct without fear of retaliation. After receipt of the complaint, the company is legally obligated to investigate the allegations and take prompt remedial action to stop the harassing behavior. A company can be held liable if it fails to take prompt remedial action sufficient to stop the offensive behavior. Additionally, any adverse action by the company against the employee for reporting the harassing conduct can subject the company to legal action for retaliation.

An anti-harassment policy can help protect the employer from legal action in certain circumstances, such as when an employee fails to bring a claim of harassment to its attention. Under some circumstances, if the employee fails to report the conduct which the company could not

have reasonably known about, than the company will have a valid defense if the employee attempts to take legal action to hold the company responsible for the offensive conduct. As such, if you are being subjected to harassing and offensive behavior in the workplace, you are well advised to review the facts and circumstances surrounding the harassing conduct with legal counsel to be certain that your legal rights are being addressed without fear of retaliation. For further information, please visit our Web site at [www.joettedoran.com](http://www.joettedoran.com).

**Chesterfield Glass Galleries** will celebrate their seventh anniversary in conjunction with the Barrington Area Arts Council Gallery Walk.

This year's featured glass artist will be **Michelle Kaptur**. Watercolorist **Anita Gordon** will also make a special guest appearance. The **opening reception** will be Friday, Sept. 6, from 6 to 9 p.m. and will continue on Saturday and Sunday, Sept. 7 and 8. Anita Gordon will host a **free watercolor demonstration** on Friday from 7 to 8 p.m. and Saturday from noon to 1 p.m.

**Chesterfield Glass Galleries** is honored to represent Michelle Kaptur. There are only a few select galleries in the United States that display her art glass. Michelle has been blowing glass since 1975 after completing a bachelor of fine arts degree at Pacific North West College of Arts. Her "centerwalled" vases and bowls are unique and beautiful. Michelle's interests vary from outdoors and traveling with animals. She has owned a dog-sled team and still rides her faithful Arabian anytime she is not in the studio. Michelle has received many private commissions, including the decoration of a private Boeing 737. Her exhibit is one you certainly won't want to miss.

### Christopher Radko Commemorates Sept. 11, 2001, with "Valiant & Brave"

"Valiant & Brave," Christopher Radko's newest addition to his collection of patriotic ornaments, is now available at **The Canterbury Shoppe** in downtown Barrington.

Stunning in color and rich with symbolism, this beautiful ornament was created in continuing honor and support to the families of the heroes and victims of Sept. 11. The Liberty Torch represents a liberty flame casting its light on our land with hope for a brighter day and as a beacon of hope to those who seek freedom. The two doves holding the olive branch represent peace, and as a pair, the soaring spirit of the Twin Towers of the World Trade Center. The wings and tails of the pair join to form the letter "V" for victory.

Christopher Radko will donate \$1 from the sale of each "Valiant & Brave" ornament to the Families of Freedom Scholarship Fund, which provides assistance with college and vocational school tuition for the dependents of those lost or disabled in the Sept. 11th terrorist attacks. Available in limited quantities, call ahead at **1-847-304-9627** to reserve your "Valiant & Brave" ornament today. ## A.G. Edwards & Sons, Inc.— Building Your Child's Education Fund

We all want the best for our children, especially when it comes to education. But the cost of sending just one child through four years of college can be staggering. To make the dream of putting your kids through school a reality, you need to plan carefully and start a sensible investment program early.

Historically, college education costs have increased every year, often outpacing inflation. In the last decade, the College Board reported annual increases of 10 to 11 percent. Recently, the rate of increases has slowed to between 5 and 7 percent annually. But even so, the increases on total costs build to alarming levels over a number of years. In fact, colleges now charge twice as much, on average, as they did 10 years ago.

### Our Free Education Cost Analysis Can Help

A free education cost analysis from **A.G. Edwards** can help you plan ahead to meet future tuition needs. Your **A.G. Edwards** financial consultant will review your personal analysis with you and help you choose the most appropriate investments and type of account based on your child's age, the amount you can afford to invest, your tax situation and your risk tolerance. He or she can also provide you more information about the many investment vehicles available. These investment options include 529 college savings plans and Coverdell education savings accounts:

### 529 College Savings Plans

These qualified programs offer a systematic way to save for a child's or grandchild's education. Specifically, you benefit from these features:

- Starting in 2002, withdrawals from 529 plans are federal income tax free.
- Assets can be used to pay for tuition, room and board, books, and supplies at any accredited post-secondary school that participates in the U.S. federal financial aid programs.
- No income or age restrictions apply to participation, so almost anyone can contribute to such plans.
- You (the contributor) retain control of the assets and can change the beneficiary at any time.
- Couples can contribute up to \$110,000

(in 2002) in one year per beneficiary without gift-tax consequences; single taxpayers can contribute up to \$55,000 (in 2002) in one year without gift taxes.

- You can change your investment alternatives once every 12 months.

### Coverdell Education Savings Accounts

These investment accounts allow for after-tax contributions of up to \$2,000 (in 2002 and thereafter) each year *per child under age 18*. As long as the assets in this account are used to pay qualified education expenses before the beneficiary is 30 years of age, the contributions and earnings withdrawn are tax- and penalty-free.

Other education savings vehicles include prepaid tuition plans, custodial accounts (UGMA/UTMA) and trust accounts.

### Start Your Child's College Fund Today

By starting a sensible investment program early, you can reduce the amount you spend on college, making it less of a financial burden. Considering how fast college costs are rising, it's important not to put off preparing for this major expense. Start planning for your child's education today by calling one of our **A.G. Edwards** offices for your free education cost analysis. Our Barrington office numbers are **1-847-842-9664** or **800-440-9664**. College costs continue to grow at an alarming rate. ■ Consider the numbers. Currently the annual fees for tuition, books, and room and board at a private university averages nearly \$25,000 a year.\* Factor in a conservative 5% annual increase in college costs over 18 years and this little fella might expect to foot an average annual bill totaling more than \$61,000 — or approximately \$245,000 over four years! ■ Meeting the expenses of higher education requires planning. ## Community Foundation Announces 2002 Grant Winners

Jim Fitzgerald, Barrington Area Community Foundation director, congratulates Syl Boeder, president of the BACOA directors, and Joyce Palmquist, BACOA executive director. Barrington Area Council on Aging was one of five Barrington area recipients to receive a 2002 grant from the Barrington Area Community Foundation on Sunday, June 23, 2002.

The Barrington Area Community Foundation has awarded its 2002 grants totaling \$10,000 to five local nonprofits.

At its "Toast to the Winners" reception on the Hill 'n' Dale Farm before some 80 invited guests, the charities received their checks from Frederica Smith-Pederson, member of the grant review committee. The event was sponsored by Harris Bank Barrington.

Barrington Area Arts Council received \$1,500 to start a collaborative program for older adults to share experiences and life stories for the benefit of all ages in understanding the sequence of our lives.

Barrington Area Council on Aging's check for \$1,000 will be used to present a six-part course of training for local caregivers for elderly family members.

Barrington Youth Services will sponsor a program to strengthen local Hispanic family ties and help their children adjust to different cultures with a grant of \$1,500.

The LaFarge program, a start-up recipient from last year, will receive \$2,000 to continue building its senior education program using volunteer active or retired teachers and professors in the area.

New Generations will receive \$4,000 to prepare and present a leadership training program that will engage high-school-age youth to participate in community activities.

Mrs. Smith-Pederson reported that the committee received 15 requests totaling \$60,925, and that the committee rigorously applied its standards: to benefit the

Barrington area, not duplicate existing programs, aid groups with limited fundraising capability, have no or very limited government involvement, and that the grant would make a substantial difference in the program for which the grant has been requested.

In opening remarks, foundation president Norval Stephens thanked Harris Bank Barrington for its support not only for this event but for being one of the first to make a five-year commitment to the foundation.

"This event salutes our third series of annual grants, which this year were increased by one-third over 2001 because we had the most successful year ever, virtually doubling our endowment to \$400,000. We make our grants based on our formula of giving away 5 percent of our net assets averaged over the trailing 12 quarters," Stephens added.

At the event, the foundation announced its support by acting as the fiscal agent for "Leave a Legacy," a national public awareness program to encourage the general public to establish charitable gifts through their wills and bequests. Barrington area nonprofits, legal and financial advisors have developed and will launch a program this fall tailored to our community.

The foundation was started in 1997 with the mission of addressing unmet needs in the Barrington area defined as the greater School District #220 and BACOG. In three years, it has disbursed \$22,500 to 13 local nonprofits.

## Raue Center's One-Year Anniversary Gala Superstar—Burt Bacharach

Burt Bacharach, the legendary composer, arranger, producer and pianist, will perform selections from his greatest hits at **The Raue Center for the Arts** on Sunday, Sept. 22, at 6 p.m.

This special concert is part of the **Raue Center's One-Year Anniversary and Gala Celebration** with a backstage party to take place immediately following this one-show-only performance by Mr. Bacharach.

**Burt Bacharach** is considered, quite simply, one of the most accomplished popular composers of the 20th century. In a career of more than 40 years, he's collected six No. 1, 28 top-10 and 66 top-40 hits. He was inducted into the Songwriters Hall of Fame in 1972 and has three Oscars and five Grammys to his name. Recently, *People Magazine* voted Burt Bacharach "One of The 50 Most Beautiful People in the World" and "The Sexiest Man Alive" in 2000.

Bacharach has written songs performed by such prestigious artists as: The Beatles, Elton John, Barbara Streisand, Stevie Wonder, Perry Como, Tom Jones, The Fifth Dimension, Dionne Warwick, Roberta Flack, Rod Stewart, Patty LaBelle and Neil Diamond. Just a few of these hits include: *Wisnin' and Hopin'*, *I Say a Little Prayer*, *I'll Never Fall In Love Again*, *Do You Know the Way to San Jose?*, *Close To You*, *Raindrops Keep Falling on My Head*, *What the World Needs Now*, *This Guy's in Love With You* and *That's What Friends Are For*.

Bacharach is enjoying a resurgence of

popularity, collaborating with alternative artists as diverse as Elvis Costello, Pizzicato Five, Oasis, R.E.M., Ben Folds Five and Sheryl Crow. A new generation of fans have discovered his work through such vehicles as the hit comedy film *My Best Friend's Wedding*, the soundtrack of which included a reggae refashioning of *I Say a Little Prayer*; the soundtrack to the Austin Powers sequel *The Spy Who Shagged Me*; and through other offbeat cover versions of his songs. A musical based on Bacharach and Hal David's music, *The Look of Love*, is scheduled to begin a Broadway run in 2002.

The Sept. 22nd concert at **The Raue Center for the Arts** will feature Burt Bacharach on the piano, playing medleys of his hits over the years along with conducting his band of musicians and singers.

Tickets for this one-show-only performance are now on sale in the Raue Center Box Office at 26 N. Williams Street in downtown Crystal Lake. The box office hours are Tuesday through Friday, 10 a.m. to 4 p.m. Tickets are \$75 and \$65 with premium seats priced at \$100.

## Comments by Thomas Constant and Never-Ending Improvement

On August 17 I celebrated my 32nd year of being in love with capturing images using the medium of photography. I received my first camera on my tenth birthday as a gift from my uncle. It was then that I first discovered how the power of images could capture and hold emotion.

I have been working diligently to improve my ability of accurately interpreting individuals and relationships. The methods used in photography have changed little over time. I have been working with chemicals and silver gelatin printing methods, as did the old masters. In the last several years I have fallen in love with an alternative printing method of using watercolor paper for black and white photography, known as Geclée prints (pronounced "jee clay"). I am delighted with the warm and soft qualities and excited about the ability to capture souls through the eyes with a new intensity. Geclée images yield a softer quality print with a wider range of high and low tones than silver gelatin printing. I have studied this new method and I am determined to adopt it for my future portrait work. Many people in the fine art world are moving in this direction, including students of Ansel Adams who have said that if Ansel were alive today, he would embrace these new printing methods.

Those who collect my work and who have built a relationship with me over the years know that I am very passionate about the things I believe in. Next year I will embark on my 25th anniversary of creating portraiture, and will be using this new printing method in a totally remodeled studio. We have redesigned our camera room, viewing room, production and framing areas to better serve you. We are intensely committed to create images that tell the truth about you and your loved ones. I believe these images will grow in value over time with their ability to capture and preserve emotions that can be relived years after the image was created.

We are currently accepting portrait appointments for the holidays. Call our studio today at **1-847-381-7710** to reserve a time for your family.

## "Pearls" to be Viewed by Art Associates

Pearls, nature's perfect gem, are the only gems formed by a living organism. They emerge perfectly luminous, not needing to be cut or polished.

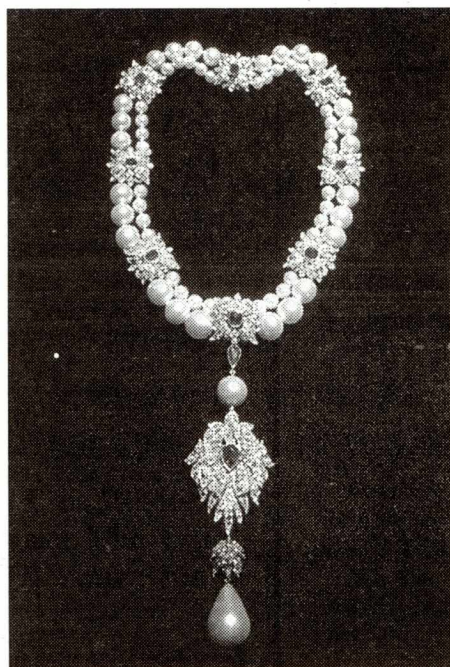

On Sept. 26, The Barrington Community Associates of The Art Institute of Chicago will sponsor a bus trip to the "Pearls" exhibit. The collection includes over half a million pearls of every size, shape and color, ranging from white to pink, gold to purple and black. The 600 objects in the exhibition range from ancient fossil pearls to the exquisite jewelry of queens and celebrities.

Pearls have been associated with wealth, virtue, purity and glamour. It is believed that Chinese naturalists in the fifth century B.C.E. produced the first cultured pearls by inserting a miniature Buddha into a mussel to begin the pearl-making process. In the 18th century, the botanist Linnaeus invented a technique for producing the first spherical cultured pearls. Japan's pearl farmers in the 20th century refined techniques to make pearls more plentiful and inexpensive.

Muscatine, Iowa became the "pearl button capital of the world" by 1900. Using the North American freshwater pearl mussels in 1887, John Frederick Boepple produced mother-of-pearl novelty items and, later, buttons. Soon, his company out-produced European button centers.

Today, pearl-producing mollusks, especially the North American freshwater pearl mussels, are threatened by environmental changes, and a piece of mussel shell from the Mississippi watershed is used to seed nearly every cultured pearl grown.

Participants of the bus trip will hear a lecture by Eve Reppen Rodgers, vice-president of Sotheby's North America and director of The Jewelry Department in Chicago. She has been closely involved with the magnificent jewelry sales of the estates of Jacqueline Kennedy Onassis, Mrs. Harry Winston, Paulette Goddard, Mrs. Jack L. Warner as well as the sale of the 20.17-carat fancy deep blue diamond

*La Peregrina* from the Collection of Dame Elizabeth Taylor, Courtesy of The Field Museum

which sold for \$9,902,500 in 1994. Mrs. Rogers lectures frequently on jewelry and gems, teaches seminars, is an auctioneer, and appraises for the Chubb's Antique Roadshow. A graduate of Wheaton College, Mass., Mrs. Rogers received her bachelor's in art history and Italian and later her graduate gemologist degree from the Gemological Institute of America.

Lunch will be at the Chicago Firehouse Restaurant on South Michigan Avenue at 14th St. Originally constructed in 1905 to house engine company CF104, this turn-of-the-century building was converted to a restaurant in 1999 serving delicious American cuisine.

The cost of this trip is \$60 for members or \$70 for guests. The bus will depart at 8:15 a.m. from Langendorf Park in Barrington.

For reservations or more information, contact Lenore Elsener at 1-847-255-9492.

## Cultures and Generations "Coming Together" for Prairie Center 2002-2003 Season

For its 2002-2003 season of arts and entertainment, the Schaumburg Prairie Center for the Arts draws from all reaches of the globe, aptly adopting the theme "Coming Together" and offering a diverse palette of dance, jazz, Broadway, holiday and ethnic programming.

The 442-seat performing arts center, located at 201 Schaumburg Ct. in Schaumburg, is now entering its 17th year of presenting arts and entertainment to the North-west Suburbs.

The season kicks off with an entry from its Jazz category, when the **Cab Calloway Orchestra** swings into town at 8:00 p.m., Saturday, Sept. 21. Conga player **Pancho Sanchez** presents an explosive set of Latin-American jazz at 8:00 p.m., Friday, Feb. 7. And the **Brubeck Brothers Quartet** will appear Saturday, April 5.

For the Contemporary series, local artists **American English** recreate the music of the Beatles at 8:00 p.m. on Friday, Oct. 4. Actor/writer **Spalding Gray** appears in "Morning, Noon and Night" at 8:00 p.m., Saturday, Nov. 9.

For its Entertainment series, guitarist **Christopher Parkening** and baritone **Jubilant Sykes** present "Braziliana: Music of Brazil and the Americas" at 8:00 p.m., Saturday, Oct. 12. The comedy troupe **The Capitol Steps** lampoon politicians at 7:00 p.m., Sunday, Nov. 3. The series is

capped with the pairing of guitarist **Muriel Anderson** and violinist **Rachel Barton** at 8:00 p.m., Saturday, May 3.

A sampling of world music is offered in the International series, beginning with the tropical music of **Sol y Canto** at 7:00 p.m., Sunday, Nov. 10. St. Patrick's Day is celebrated early when **The Irish Rovers** perform at 7:00 p.m., Sunday, March 9. For something completely different, **Trio Voronezh**, boasting a wide repertoire from memory on Russian acoustic instruments, perform at 7:00 p.m., Sunday, March 23.

The Broadway series pays tribute to 20th century icons in American music. **Something Wonderful: Richard Rodgers' Centennial of Song** is slated at 8:00 p.m., Saturday, Nov. 16. The lives of Louis Armstrong and Ella Fitzgerald are capsulated in song in **Jammin' with Pops** at 8:00 p.m., Saturday, Feb. 22. The biography George M. Cohan is also immortalized in the musical **George M!** at 8:00 p.m., Saturday, March 15.

The Prairie Center's "Coming Together" theme is most colorfully illustrated with three vibrant ethnic dance groups: **The Little Angels**, appearing at 7:00 p.m., Sunday, Feb. 2, Minneapolis-based **Ragamala Music and Dance Theater** in an evening of traditional Indian dance with a contemporary twist.

## Putting Your Garden to Bed

The Long Grove-Kildeer Garden Club will start a new season on Monday, Sept. 9 at 9:30 a.m. at the Reed-Turner Nature Center on Old McHenry Road in Long Grove.

## Art Associates Host Membership Tea

Do you appreciate and enjoy art? Do you want to learn more about artists and their work? Do you like to visit The Art Institute of Chicago and other museums? Then you may be interested in joining The Barrington Community Associates of The Art Institute of Chicago.

The fall membership tea is Thursday, Sept. 5, at 1 p.m. at the Presbyterian Church of Barrington, 6 Brinker Rd., Barrington.

Jeff Nigro will present a slide-illustrated lecture, "How to Read a Painting," featuring paintings from the institute's permanent collections. These masterpieces, covering a wide range of time periods and geographical areas, will be analyzed in terms of technique, style and subject mat-

ter in order to provide a framework for looking at and understanding works of art. Jeff will also explain how studying Chinese art helped him understand abstract paintings.

Jeff Nigro, senior lecturer in the Department of Museum Education at The Art Institute of Chicago, received his bachelor's at Oberlin College and his master's in art history at the University of Virginia. He has been lecturing on the institute's collections since 1988 and became a full-time staff lecturer in 1993. Jeff has been a study leader on institute sponsored trips to Italy, Greece and Germany. He is also the Museum Education Department liaison with The Community Associates of The Art Institute of Chicago.

## More Choices Than Ever Before

by Al Buschauer

We see that in every area of our lives, we are given many choices. The clothing, food and auto industry are just a few that offer an abundant array of choices and options.

Our studio believes that the portrait industry lags behind some of the others in the amount of choices we offer. So we have worked hard and creatively to bring you more choices than ever before.

If it's been a while since you've visited our studio or your feet have yet to cross our threshold, you will be pleased to hear about our new product lines. They include: the **Image Box**, a great way to store your professional images; our **Watercolor Black & White Prints**, with deckled edges and "floated" under glass; and finally, our most dynamic offering,

**Full Color Oil Paintings**. Because oil portrait paintings are gaining popularity in the Midwest—they've always been in the South—we wanted to be one of the first studios to offer them to those who want to own a truly prestigious piece of art. One of our newest and most contemporary alternatives in photographic options is that of the **Collage**, where multiple original images are meticulously melded into one striking finished artwork. See our ad on this page. It contains a collage made up of four individual images. They were carefully blended together to create something truly unique.

If you like "more choices," please call our studio before booking your next session elsewhere. We look forward to seeing you.

## Chers Amis...

Here is a partial list of what goes on at **D & J Bistro**:

- September's **true bistro dish** is **le lapin en cocotte**—mild, domestically-raised rabbit in a red wine sauce with onions and mushrooms.

- Last month's true bistro dish, grilled veal kidneys, was a success with 376 orders sold.

- Even with this hot weather, the terrace is doing well. A few people even brought their canine friends for dinner!

- During August, the **Provence Room** was used for four rehearsals, two private weddings, six anniversaries, one retirement, five birthday parties and one corporate dinner.

- For **Sunday, Sept. 22**, register for a

cooking demonstration that will take place at the **French Culinary Experience** in Wheeling, followed by a degustation dinner with wines at **D & J Bistro**. Get details from our Web site at [www.dj-bistro.com](http://www.dj-bistro.com) or call us.

- We have a new bartender, John. He comes from seven years at **Retro Bistro**, our sister restaurant in Mount Prospect. **Le bar** now has a whole list of appetizers available. Come and visit. John generates a good atmosphere.

Please come and discover all the little things that make **D & J** different, and thank you for your continued support.

—Be well,  
Dominique

## Travel Agents Needed Now More Than Ever

The United States has more than 30,000 travel agents. In its August issue cover story, *Condé Nast Traveler* narrows that vast field to 112 "best travel agents," and Barrington's Eleanor Nelson is featured for her specialization in golf vacations. According to *Consumer News* editor Wendy Perrin, who wrote the article, Eleanor and the other featured agents can "save you from pitfalls, deliver you from disaster and craft the vacation of your dreams."

"It's such an honor to be chosen among the best in the travel agent industry," said Nelson, "especially following the year we've had since Sept. 11. Golf is my passion, and to be recognized for my expertise in an area that means so much to me personally is really exciting. My phones have already been ringing with calls from people across the nation who are interested in golf and spa vacations."

Of the 112 travel specialists profiled by the magazine, 87 of them, including Nelson, are members of Virtuoso, an exclusive network of independent upscale travel agencies in North and South America. *Condé Nast Traveler* says, "the Virtuoso network of travel specialists does so much business with the finest hotels and cruise lines that its consultants are offered benefits (e.g. complimentary upgrades, free shore tours, etc.) which they then pass on to their clients. In the wake of Sept. 11, Virtuoso members received special treatment that other travel agents did not, such as hotel rooms for stranded passengers and credits for clients who cancelled cruises."

Eleanor Nelson, owner of Travel House

Utilizing a Virtuoso agency to arrange upscale leisure travel automatically entitled clients to complimentary upgrades, amenities, privileged access opportunities and private events at many top international and domestic destinations.

"My membership in Virtuoso has really helped me excel in the level of expertise and connections that I offer my clients," said Nelson. "Being a specialist with an independent travel agency, yet having the muscle and worldwide network of a multibillion dollar international corporation, is really satisfying to me and my clients."

Thanks to the Internet, Nelson caters to clients all around the world, not just here in the Chicagoland area. To find out more about **Travel House** and its resources within the Virtuoso network of luxury travel agencies, call **1-847-381-0600** or visit the agency's Web site at—[www.travelhouseinc.com](http://www.travelhouseinc.com).

## Women's Roles in Vaccinating Children Here and Abroad

Dr. Carol Pandeck, manager of Rotary International's PolioPlus Division, will speak on "Women's Roles in Vaccinating Children Here and Abroad" on Monday, Sept. 16, at 7:00 p.m. at the Barrington Area Library.

The presentation will be held at the September meeting of the Barrington Area American Association of University Women. The public is welcome, and there is no fee to attend the meetings.

Worldwide eradication of polio is expected in 2005. Women have played a

vital role in this historic event, and Dr. Pandeck will speak about her personal experiences abroad and Rotary's participation in this ongoing campaign.

In 1988, the World Health Assembly resolved to eradicate polio by vaccinating children. The Global Polio Eradication Initiative, of which Rotary International is a member, has decreased the incidence of polio worldwide by 99 percent, with total eradication declared in the United States and Europe.

Other activities include the women's is-

## Surviving in Style—Breast Cancer Survivors Step on the Runway for Good Shepherd's Day of Caring Fashion Show

The lights dim. Music fills the room. And the fashion models—all ages, shapes and sizes—emerge and walk down the aisle modeling the very latest fashions.

These models aren't your typical fashion supermodels. But they are super, because they all are cancer survivors, and there is more to their beauty than their makeup and wardrobe. Their beauty is in their attitude.

The Survivor Fashion Show at Good Shepherd Hospital's Second Annual Day of Caring for Breast Cancer Awareness on Saturday, Sept. 21, at William Rainey Harper College is just one of the many attractions at this annual day of hope, education and inspiration. All fashion show models are cancer survivors whose stories will educate and encourage everyone. The models all live locally and include: Deb Cram, Ellen Freeman, Meghan Gilhooly, Jack Gilholly, Renee Horlock, Peg Kusmierski, Ruth Loucks, Christine Marquette, Linda Murphy, Marilyn Perri, Emmaline Thiel, Nadine Thomas, Donna Walker, Sharon Zalesky, Rachele Zito and Candice Zito-Gilhooly. The fashions for the show have been provided by Deer Park merchants, including Ann Taylor, April Cornell, Chico's, Coldwater Creek, Gap, J. Jill,

Talbot's and White House/Black Market. Day of Caring was created to provide a forum for local experts to present seminars on prevention, treatment and survivorship, and for local support organizations to educate the community about resources that are available to help anyone who is concerned about breast cancer.

"The Day of Caring event allows attendees to increase their knowledge and understanding of the physical, emotional and spiritual aspects of cancer," says Lisa

The Day of Caring includes a continental breakfast followed by seminars on research, treatment and coping with breast cancer. Following the seminars, Day of Caring participants are invited not only to the fashion show but also to a gourmet luncheon prepared by master chef Pina Bartolomeo.

Day of Caring will also feature a re-

source area for attendees to visit to find and view information on breast cancer support groups, events and services.

Day of Caring is a national program of locally planned, volunteer-based, self-supporting community events to educate and encourage everyone affected by breast cancer. Each Day of Caring is planned to provide education, reduce fear, promote awareness and give hope to all attendees.

## M.J. Miller & Company Hosts "Turn-of-the-Century Jewelry," a Trunk Show Featuring Victorian, Art Nouveau and Edwardian Jewelry Sept. 6 and 7 at 123 West Main Street, Barrington

What could be more romantic than jewelry proclaiming your everlasting love and devotion? The early Victorian era, 1837 to 1861, is also known as the Romantic Period. This era inspired such amorous jewelry, which will be featured at **M.J. Miller & Company** on **Sept. 6 and 7**.

A jewel in the heart of Barrington, **M.J. Miller & Company** serves as an alluring showcase for "Turn-of-the-Century Jewelry." The mid-Victorian era, c. 1861 to 1880, also known as the Grand Period, required larger, more colorful jewelry as dictated by fashion. Locketts containing photographs and portrait miniatures along with ornate creations were the highlight of the period. There is no place more perfect to feature such vintage jewelry than **M.J. Miller & Company**. The showroom is adorned by exquisite handmade, wooden antique showcases (c. 1860) which sit atop cast bronze lion's feet, emitting a warm glow reflecting the soft light from the Lalique fixtures. **M.J. Miller & Company** is reminiscent of the time when this jewelry was originally created.

Delicate, lighthearted and light-colored pieces such as necklaces of linked gemstones and chains, dog collar necklaces and multiple bangles with ornamental clasps in front are characteristic of the

refined simplicity of the late Victorian era, c. 1880 to 1901, also known as the Aesthetic Period.

Art nouveau, c. 1895 to 1910, brooches, pendants, hatpins, hair combs and stickpins of this period, all have an element of fantasy displaying exaggerated lines and sensual overtones. The short-lived era of art nouveau emphasized design and workmanship. Enameling, being one of the most important decorative elements during this time, is exquisitely demonstrated in the delicate wings of the dragonfly brooch.

Contrasting markedly with concurring styles is Edwardian jewelry, c. 1890 to 1920. The Edwardian period emphasized platinum, pearls and diamonds in skillfully-worked designs. One of the most distinctive aspects of Edwardian jewels is their lacy, delicate appearance, made possible by the use of platinum, an extremely strong yet malleable metal. The negligee pendant, uniquely Edwardian, is a pair of pendant drops suspended from unequal lengths of fine chain. The drops are often pear-shaped pearls or gemstones.

No matter how an antique piece of jewelry is acquired, most people want to know some basic information about the

## Gardening Program Open to All

Master Gardener Sandy Klausman brings shade garden expertise.

Area residents are invited to be guests of the Field & Flower Garden Club on Wednesday evening, Oct. 2, for a special program on shade gardening at the Barrington Area Library, 505 N. Northwest Hwy. (Route 14).

Coming from Crete, Ill., is Sandy Klausman, a master gardener for over 15 years. Her topic will be "Shade Garden Plants—Beyond the Hosta."

Many of us in the Barrington area face the challenges of gardening with shade. Whether the source is one large tree or an entire woodland setting, we quickly learn on what else grows in the yard. Too many of us lose valuable years in our gardening attempts. Having informed guidelines in advance can help avoid many false starts and disappointments. Better yet, early glimpses of what is possible can spark the creative thinking which leads to truly distinctive designs and views.

Klausman will identify different types of shade and discuss the perennials appropriate to each. She will also teach us how to find or make shady spaces even in a sunny yard, so we can take advantage of

the opportunities shade offers. An avid hosta grower, she does the unthinkable—promotes perennials for the shade other than hostas. Her slide presentation will be accompanied by cultural information about plants which can stretch the choices for shade gardening.

Klausman is a gardening consultant and landscape design consultant through National Garden Clubs, Inc., and has long been active in garden club circles. She is a charter member of the Southernwood Herb Guild, the president (for 10 years) of Exotic Garden Club, and she served on the steering committee to form the bylaws for Hosta and Friends, a regional organization involving parts of three states, including Illinois.

The October program will begin at 7 p.m. There will be time for a question period before the library closes at 9 p.m.

Once each year, Field & Flower Garden Club plans a program open to the public. It is hoped that exposure to Klausman's knowledge and experience will help many area residents both enhance and enjoy their shady gardens.

## Curves for Women Celebrates Back-to-School

Can you find 30 minutes, three times a week? Sure you can, now that the kids are back in school.

Curves for Women features an effective 30-minute total body workout. The "quick fit" circuit that Curves features is a combination of strength training machines and aerobic recovery stations.

"Our members, over 700 strong, are getting great results. They are losing pounds, inches and body fat," says owner Janet Faulkner. "On the 'quick fit' circuit, the workout starts as soon as you walk in the door."

You begin anywhere in the circuit you

wish. The 30-minute total body workout includes aerobic, cardiovascular, strength training and stretching. "Our girls are seeing better results in 30 minutes at Curves than they used to get spending 60 to 90 minutes at the gym. Our girls burn up to 500 calories per 30-minute workout."

Faulkner is running a two-for-one back-to-school special this month. You and a friend can sign up for the price of one.

In addition to the Curves for Women workout, an on-site weight loss program is also offered free to all members.

So why not take some time for yourself? Visit Curves for Women today!

## Countryside Performers Present Grease

The Countryside Performers will present an artistic interpretation of the musical Grease in Cutting Hall, 150 Eastwood, in Palatine on Wednesday, Sept. 11, at 7 p.m.

Presented with confident performances by people who may have disabilities, this event is open to the public.

At Countryside Center in Palatine, the entourage of spirited performers have been practicing at least two times a week for about three months. Every success story has someone who believes that success is possible. Well, the Barrington Arts Council put a \$1,000 where their belief is—that the Countryside Performers and all people with developmental disabilities yearn to be expressive, artistic, creative and truly committed to this production.

When people show their artistic side, they run the risk of being vulnerable to negative criticism. But, far outreaching that chance is the tremendous boost to self-esteem that arises every practice. People who have known what ridicule really is can shine like Fred Astaire and Ginger Rogers or, more specifically, John Travolta

and Olivia Newton John.

Some of the long running shows on Broadway go night after night with performances. This performance would run just as long and as well with maybe with just a bit more drive because they're hams. Every theatrical group has them! But, performing just once is more realistic.

The Barrington Arts Council has faith in them. Those on the staff of Countryside Center as well as their own families do too. Why not see if you're a believer? You will be glad you did and what a marvelous thing you will be doing for some very talented people.

Last year on Sept. 11, it was people who helped people, comforted people, cried with people—they did the right thing even when it was very hard to do. This year on Sept. 11, you have the opportunity to be a part of what America is all about, people sharing in other people's lives. Do the right thing! You'll come away richer, you can be sure of that. We hope to see you there on a night that will be fun for the entire family.

## Back to School

The theme of this month's issue of *Lifestyles* is "Back to School."

Ah! The pursuit of wisdom! So let's discuss wisdom, or more specifically, wisdom teeth, since wisdom is not my area of expertise.

Just the words "wisdom tooth" are synonymous with pain and suffering. But why are these teeth a problem? Wisdom teeth are the third and last molars to erupt into our jaws. If they grow into proper position behind the second molars, they can be useful and cause no problems.

In modern man, however, our jaws are usually not long enough to accommodate these teeth. Some have speculated that this is because our jaws do not develop to their fullest due to softer diets than primitive people were forced to cope with.

For whatever reason, these teeth frequently grow in sideways or only erupt partway out of the gums. In this position, they are trapped behind the second molars in a fluid-filled sac. This sac accumulates bacteria, resulting in a painless, chronic infection. This infection destroys good bone around the second molar, eventually causing the loss of both teeth.

The problem may develop into a tumor or an acute infection with pain, swelling and fever. This seems to occur at inopportune

moments, like before school exams or weddings. Wisdom teeth may even grow directly into the second molars causing direct damage.

In most cases, it is a good idea to have these teeth evaluated and usually removed during adolescence. If these teeth are not fully developed, they have shorter roots and removal results in fewer complications. In my practice, patients are referred to an oral surgeon who is a dentist that specializes in wisdom tooth removal and other surgical procedures. Comprehensive dental examinations followed by action, not procrastination, will save adolescents a lot of time and suffering.

For a thorough examination and evaluation of your oral health, contact Dr. Jim Gavrilos in Barrington at 1-847-381-4040.

## Facial Rejuvenation with Intense Pulsed Light

Laser technology is one of the most significant advancements of the past decade in dermatology and dermatologic surgery. Use varies widely, from hair removal to facial rejuvenation. Among the most promising laser technologies in treating the signs of aging is intense pulsed light or IPL.

IPL is a very controlled, precise form of delivering energy below the skin surface to reduce fine lines and wrinkles, to diminish redness and facial veins, and to reduce age spots on the skin—all with little or no irritation to the skin and no patient downtime. In addition, photofacials with IPL have been shown to stimulate collagen production resulting in revitalized skin.

While IPL treatment is most commonly used in facial rejuvenation, the technology also shows promise in treating acne conditions and softening scars. In addition, treatment is not isolated to the face; rejuvenation of neck, chest and hands is also possible with IPL. What is most important in any laser treatment is that your physician be one of specific training with documented skill and experience, and a board-certified specialist in a medical specialty devoted to treating skin and the signs of aging.

**Dermatology Physicians & Surgeons, Ltd.** is experienced in cutting-edge general and aesthetic dermatology and dermatologic surgery. We are at the forefront of the ongoing evolution in the

science of dermatology and skin care, with extensive, experienced up-to-date training in treating environmental damage and skin disease and reversing the signs of aging. Consultation is complementary on all aesthetic procedures including facial rejuvenation with intense pulsed light, laser hair removal, vein treatment and tumescent liposuction.

Our doctors, **David P. Van Dam, M.D.**, **Jerome D. Fallon, M.D.** and **Jeffrey J. Berti, M.D.** are certified by the American Academy of Dermatology and are members of the American Society for Dermatologic Surgery. In addition, Dr. Fallon is among Illinois' premiere surgeons in treating skin cancer and a member of the American College of Mohs Micrographic Surgery.

In addition, Versa offers traditional, nonmedical spa treatments including massage, relaxation facials, body bronzing, waxing, body treatments and makeup application

## Hypnosis for Deep Healing and Spiritual Growth

A man once came to me and said, "I'm not manifesting my full potential. I know I can be doing better in life than I am." An hour later we were exploring a lifetime in ancient Rome. He was a wealthy landowner, influential in the workings of government... and deeply saddened. It seems he had hardened his heart to the peasants around him. Without being overtly abusive, his neglect and dismissiveness greatly damaged any chance they had for happiness. Not wanting to place himself in that situation again, he had made an internal pledge to avoid wealth! During the hypnosis process, he accessed his feelings, expressed his regret, completed the forgiveness process, healed the energy around this piece and released himself from that pledge. It took some follow up work, of course, but his business soon began to flourish.

As spiritual beings, we all have the innate capacity to be, do or have anything we desire. When we don't manifest our desires, it simply means we have blocked ourselves in some way. Hypnosis is an effective tool to find those blockages. Often, the awareness alone is enough to affect healing; sometimes there needs to be quite a bit of follow up work. Whichever way presents itself, awareness is the first and foremost key. "Enlightened Hypnosis" is a 72-hour intensive training which prepares you to harness your mind to accomplish your heart's desires as well as thoroughly prepare you to practice hypno-

sis, bringing a safe and effective modality for healing into the world. The most complete certification course available, it includes four workbooks, complete with essential steps and scripts to support your work. Whether your goal is personal growth or professional training, whether you've had prior training or your training begins today, you will be prepared to practice effectively and safely.

From basic inductions to advanced therapeutic techniques such as past-life regression to the mystical work of spirit clearing, each unit adds richness and depth. Throughout, you will have many opportunities for practice, both as the therapist and as the client. Upon completion, you will be eligible for certification with the American Board of Hypnotherapy, one of the country's most well-known and prestigious hypnotherapy organizations.

My name is **Pamela Arwine**. I am a highly dedicated Reiki Master Teacher, Practitioner of the art of Rubenfeld™ Synergy, Gestalt Therapist, Thought Field Therapist and a Hypnotherapist with an emphasis on metaphysical regression work to access and unplug the initial cause of subsequent pain or emotional discomfort. ## The Field of Esthetic Skin Care

by Gary S. Churchill, MD

Gary Churchill, MD

If you have ever had facial plastic surgery or if you are considering it, you need to know about the exciting field of esthetics. Through the techniques employed by a licensed esthetician, you can improve and enhance the appearance of your skin. Whether you are trying to maintain your skin after a surgical procedure or just want better-looking skin, there is a treatment for you. Based on scientific principles, the treatments are custom-designed for your skin's particular needs. Esthetic skin care can reduce the depth of surface lines, help fade abnormal brown spots, smooth rough skin and help clear up acne-prone skin. Overall, it can give your skin a more youthful and healthier glow. The treatments are only done by a qualified, licensed esthetician in a physician's office and involve various methods of exfoliation, skin bleaching and rehydration. These treatments, when combined with a daily regimen, can give dramatic results.

### What is an Esthetician?

A licensed esthetician is someone who has gone through specialized schooling and passed a state licenser exam to allow them to take care of the skin from an esthetic or beauty standpoint. Licensed estheticians have applied their specialized training in a medical setting under the oversight of a physician. This allows the esthetician to perform stronger peels and somewhat more aggressive treatments than could be done elsewhere. A myriad of different procedures can be performed. The particular treatment (or combination) is chosen in the consultation process and is based on that patient's particular need and skin condition. A partial listing of available options include: different strength peels to treat fine lines and wrinkles, special peels to treat irregular pigment, peels to clear up blemishes and microdermabrasion.

### What is a Micropeel?

This technique involves a double-exfoliation process. The first exfoliation is done manually with a #10 scalpel. It removes a micro-thin layer of dead skin cells and keratin that lay on the skin surface, preventing skin care products from penetrating. The second exfoliation is done by applying a peel solution to the surface. This is done lightly, and only a slight tingle will be felt with this step. Finally,

extractions of blocked oil pores can be performed before applying a moisturizer and sun block. This combined manual and chemical peel technique leaves your skin with a healthy and smooth glow. Makeup can be applied right away, and everyday activities can be resumed.

### What is Microdermabrasion?

Microdermabrasion is a nonsurgical, non-invasive method for removing dead, flaking skin cells while stimulating the production of fresh skin cells and collagen. Treatments are administered by our esthetician, using a hand piece through which microcrystals are vacuumed. This gentle abrasion produces a polished appearance in as little as 20 minutes. Skin feels softer and smoother and appears younger looking. For best results, we recommend an initial six-week treatment plan consisting of one treatment per week, followed by treatment once monthly.

### How to Decide What Treatment is Best for You

During your initial visit, the esthetician will review your basic medical history and consult with you regarding your skin concerns. She will analyze the condition of your skin and determine which treatment will best address your skin care needs. Each person's plan is different and can be modified as needed to maximize results and satisfaction. Once all patient questions are answered, the treatment process can begin. The last step is a customized at-home regimen and explanation of the importance of professional products. You can maintain your skin results by keeping up with an at-home regimen in between peel treatments. The extent of these treatments is up to you.

For more information on skin care treatments, please call **The Center for Facial Plastic Surgery** at 1-847-304-1000.

lish traditional in style. The brick and stucco residence is accented with plaster details and mullioned windows that add charm to the façade. The foyer soars two stories and leads to seven gracious spaces, while the front and back staircases approach the master suite, three bedrooms and baths, and the third floor.

The American Society of Interior Designers has joined with the Oak Park-River Forest Infant Welfare Society for more than 30 years on the showcase homes. With more than 30,500 members nationally, the American Society of Interior Designers is the largest and oldest professional organization for interior de-

signers. The group's mission is to provide professional education and knowledge sharing, advocacy of interior designers' right of practice, and expansion of interior design markets. The Illinois chapter has more than 1,000 members.

The Oak Park-River Forest Infant Welfare Society, a community-supported organization founded in 1916, funds a clinic at 320 Lake Street in Oak Park that provides medical and dental care for children whose families cannot afford private health care.

## Things Every Retired Person Should Consider

In an era of reduced return on investments and low interest rates, you need to determine how best to use your assets without depleting them too soon. To help you protect your hard-earned money, William Allen and Debra Schoendorf, financial consultants with **Salomon Smith Barney** in Barrington, suggest, at the very least, you make sure the following items are included as part of your routine retirement maintenance.

Managing what you spend and owe is as important as managing what you own. Think about your living expenses and other fixed debt and variable debt, like credit cards, travel and entertainment. Then review your retirement plans and other investment accounts. Your retirement plan and Social Security may provide you with the bulk of your income during the early retirement years. In later years, however, you may need to tap into your principal assets.

Based on your individual circumstances, consider the following: How long do you expect to live? Will your funds be needed

to support a younger spouse? Do you plan to leave an inheritance for your children or grandchildren, a bequest to a favorite charity? If you have an investment portfolio, what kind of returns do you anticipate? When will you need those assets?

As a retired person, you can't afford to absorb big losses. Whether it's your stock portfolio, 401(k) plan or other investments, how you allocate your assets can strongly impact your portfolio's performance. In fact, one of the best ways to manage the risk inherent in any investment portfolio is to diversify. Diversification helps you reduce risk by spreading your funds among several investment types (your asset allocation)—stocks, bonds and cash. Of course, no matter how carefully you plan, you should be prepared to alter your plans as your circumstances change.

## Be Prepared for a Hot, Humid September

The Barrington Area Council on Aging, Inc. is concerned about heat-related illnesses in senior citizens.

Since August and September are the hottest months of the year, BACOA wants to remind seniors to take precautions against heat-related illnesses. Three or more consecutive days of temperatures above 85 degrees is considered a heat wave and can pose heat-related dangers such as heatstroke/sunstroke, heat cramps or heat exhaustion.

In anticipation of the hot weather, the council is gathering names of individuals who would like to receive "wellness calls" on extremely hot days. If you are interested in being added to this list, please call 1-847-381-5030.

The people most at risk from heat-related illnesses are the elderly, small children, persons with weight problems and those taking certain kinds of medications. Heat illnesses are usually caused by the body's inability to shed enough heat by sweating or when a salt imbalance occurs from too much sweating.

There are a number of things you can do to prevent heat-related illnesses. Reduce or eliminate strenuous activity; wear light-colored, lightweight clothes; drink plenty of water; avoid alcohol; and stay out of the sun. Seniors are also encouraged to remain indoors and use air conditioning or fans for cooling. For those of you without air conditioning, we encourage you to seek cooling centers, which include your village hall and the Barrington Municipal Center. You might also consider activities in air-conditioned locations. Visit the library, go grocery shopping, out to lunch or to a movie. For those who need assistance in purchasing a fan or paying their electric bill to cover cooling expenses, contact your township office. They may be able to help.

For more information about prevention of heat-related illnesses, contact the American Red Cross or your local health department. You can also visit <http://weather.noaa.gov/weather/hwave.html#PreventingHeat-Related>.

## LOSE THE WEIGHT...AND KEEP IT OFF!

## New Weight Loss Program Shows Dramatic Results

Dr. Barry Berger, a Board Certified Internist practicing in Lake Zurich for the past 12 years, introduces a new weight loss program. This program is based on the 40/30/30 nutrition plan which consists of 40% carbohydrates, 30% protein and 30% fat. By increasing protein while decreasing

fat and carbohydrates, weight loss success increases. University studies using this diet method along with the latest advances in prescription medication have shown safe and effective weight loss results.

Unlike other programs for which you need to buy food or count calories, this method offers the most freedom and achieves the best long lasting results available today. Fat comes off and stays off! Dr. Berger custom designs a program for each patient and discusses proper exercise, nutrition and overall weight status while considering your current lifestyle, exercise and diet habits.

Dr. Berger has hundreds of satisfied patients. Insurance usually pays for some or most charges, (sorry, no HMOs).

## Latest Technology Now Available at Northwest Dermatology

**Northwest Dermatology** in Hoffman Estates is pleased to announce the addition of two new lasers to our services.

The **V-Beam** pulsed-dye laser is a safe and effective treatment for facial spider veins, rosacea, small leg veins, scars, port wine stains, warts, hemangiomas, poikiloderma, psoriasis and wrinkles. The laser is designed to deliver an intense but gentle burst of laser light to the skin.

The **GentleLASE** laser is a fast, effective treatment of unwanted hair, requiring no creams or needles. Patients do not need to let their hair grow. The GentleLASE system, a revolutionary long-pulse high energy Alexandrite laser with a dynamic cooling device, emits a gentle beam of light that passes through the skin to the hair follicle where it is absorbed. The laser energy is transformed into heat, which destroys the hair follicle leaving the surrounding skin unaffected.

In addition to general and surgical dermatology, we provide a variety of services

to enhance your skin. For skin rejuvenation, we have products and treatments available including Collagen and Botox for fine lines and wrinkles; beta-lift peels to unclog pores, clear up acne and soften fine lines; and microdermabrasion for increased firmness, minimized pores, more even skin tones, and reduced pigment marks and scars. For the treatment of psoriasis and vitiligo, we have available the Narrow Band UVB as well as PUVA light treatment. Botox injections are also available for treating hyperhidrosis.

The doctors in our practice, **Dr. Susan Liebovitz**, **Dr. Patricia Ledwig**, **Dr. Leslie Beaird** and **Dr. Alka Madan**, are all board-certified dermatologists who continually strive to provide the utmost in quality dermatologic care in a caring, friendly atmosphere.

A magical night of unique adventure awaits all those who attend the Advocate Good Shepherd Hospital sixth annual "Shepherds Gala: Spirit Quest! A Night of Discovery," on Saturday, Sept. 14. The event will be held at the Marriott Lincolnshire Resort in Lincolnshire.

## What is Orthodontics?

Orthodontics is the branch of dentistry that specializes in the diagnosis, prevention and treatment of dental and facial irregularities. The technical term for these problems is "malocclusion," which means "bad bite." The practice of orthodontics requires professional skill in the design, application and control of corrective appliances (or braces) to bring teeth, lips and jaws into proper alignment and achieve facial balance.

Treatment can begin at an early age if orthopedic reshaping of the jaws is needed. Early interceptive treatment should be considered for patients that have narrow jaws, an overbite or cleft lip/palate deformity. In growing children and adolescents, the exchange of primary teeth for their permanent successors is monitored and, at times, guided. Guidance can be achieved by arch-length maintenance or by placing activated appliances, which are either removable or temporarily cemented. The development of specialized wires along with self-ligating braces has led to shortened treatment times and less patient discomfort. It is essential for an excellent orthodontic result that a treatment plan be based on a sound diagnosis.

What is an orthodontist? An orthodontist is a highly trained specialist who has not only graduated as a dental surgeon

**Dr. Michael Hayward**

but has returned to school for postgraduate training strictly in orthodontics for a minimum of two years.

Why choose an orthodontist? Orthodontists are the most highly trained in the specialty field of orthodontics. They are educated in a wide range of techniques and limit their practice exclusively to orthodontics and dentofacial orthopedics. They are therefore in the best position to provide optimal care to treat orthodontic problems.

If you have any questions or would like more information about orthodontics, please contact us at either our Barrington, **1-847-382-5588**, or Palatine, **1-847-359-7980**, offices. Or visit our Web site at [www.haywardorthodontics.com](http://www.haywardorthodontics.com).

## Thoughts On Your Child's Well-Being

by Carole Childers, C.N., L.N.C., All Ways Healthy

Does your child suffer from recurring colds or is sick "all the time?" Is your child finding schoolwork difficult? Does your child struggle with fatigue and low energy levels? Has anyone ever described your child as "hyperactive?" Is your child on a constant course of antibiotics?

Do any of these questions sound like your child or someone you know? There's a very good chance that allergies and poor nutrition are the underlying causes.

Studies show that diets lacking in protein, vitamins and minerals can result in a host of health problems. In an age of fast food restaurants on every corner and supermarkets with aisles and aisles of prepared food, many of us, including our children, are poorly nourished. Keeping a record of what your child eats for several days may reveal some surprises that can hold the key to physical and behavioral problems. How much of any of the following are included in your child's diet?—convenience or "junk" food, sugar, preservatives, additives, food dyes and other colorings.

Any child who has had a number of courses of antibiotics, or who has allergies, as well as any other behavioral problems, might have a yeast sensitization. When a child becomes sensitive to yeast overgrowth in the body, it can intensify any allergic problem, from asthma to hyperactivity.

## Breast Surgery: Your Most Personal Decision

The decision to undergo aesthetic plastic surgery is a highly personal decision. For many women, the decision to have breast surgery can be the most personal one.

Common objectives of breast surgery include increasing the size or volume of the breast by an augmentation procedure, changing the position of the breast while enhancing breast contour with an uplift procedure, or increasing breast volume, changing the position and enhancing breast contour by combining both of these procedures.

While some women wish to increase the size of their breasts, other women desire smaller breasts. Breast reduction removes the excess breast tissue that leads to large, heavy or pendulous breasts. Here, too, a combination of procedures—breast reduction and breast lift—can create a new and improved contour of the breast and can alleviate many of the medical symptoms associated with having large breasts.

Reducing breast tissue can also be a concern for male patients. In cases of gynecomastia, or excess male breast tissue, special surgical techniques that involve liposuction can achieve desired outcomes with small incisions and little downtime.

"My goal for individuals whom are considering any type of breast surgery is to attain the improvements they personally desire regarding their own breast size and contour, and to do so with as little discomfort and downtime as possible, using safe, proven procedures," says Dr. Bazell. "The decision to have breast surgery is highly personal and, while most patients are

With ADD (Attention Deficit Disorder) getting so much media attention, our means of treatment often turn to a quick "fix," usually involving drugs. Before resorting to this approach, why not explore the benefits of nutritional therapy? It is well established that allergies to food and food additives play a role in hyperactivity. I have seen children that have been diagnosed with ADD, hyperactivity and other behavioral difficulties improve tremendously, simply with a nutritional plan specifically designed for that individual.

If we feed our children right and provide them with proper amounts of nutrients, they'll not only experience a healthier body but a healthier immune system as well. And it is their immune system that is crucial in helping them cope with stress, viruses and all the other challenges of an active child's life.

With careful attention to overall nutrition and better eating habits, you *can* help manage your child's health and improve concentration. **Now, all Country Life products are 25% off.** No coupon needed.

# Taking Things Personally

**The addition of a center island streamlined the Uribe's kitchen, opening up traffic flow and creating a more spacious feel.**

When Ana and Diego Uribe of Barrington decided it was time to update the kitchen of their Fox Point home, they knew they needed more than an "off-the-shelf" solution. They needed a designer who could creatively work within their current space, adding what they wanted and keeping what they needed...while making their kitchen open and inviting. And to get a personalized approach to their design, they turned to Kaye Hathaway, of **Barrington Kitchen & Bath Studio**.

Hathaway, a Certified Kitchen Designer, Space Planner and Interior Designer, used all of her expertise to create a bright, cheerful kitchen that meets all of the Uribes' needs and desires.

"Sometimes it takes some extra time and thought to develop the perfect solution for a unique situation," said Hathaway. "At **Barrington Kitchen & Bath**, we give our clients that personal attention needed to create a room that really works for them."

**The distinctive shape of floor-to-ceiling pantries allow for an overhang on the island, to accommodate seating.**

**The original peninsula closed off the kitchen.**

The key to Kaye's solution was the addition of a center island. The parallel counters give the kitchen a feeling of openness, eliminating the tight, closed-off feeling of the original peninsula. The island also allowed Kaye to position the cooktop directly across from the sink, making food preparation more convenient. And the island's beautiful granite countertop

## HOMEOWNER WISH LIST

- Make the kitchen more functional and open
- Bring food preparation areas closer together (especially the stove/sink)
- Create a space where the family can gather
- Make better use of storage space
- Retain current walls and door openings

## NEW KITCHEN DESIGN ELEMENTS

- Replacing the peninsula with an island gives kitchen a sense of more space
- Placing cooktop in center island makes cooking convenient, while adding extra counter space
- Center island brings Ana closer together with her family and friends—up to three people can sit at the counter while she prepares food
- Design of unique, angled pantries provide needed storage, as well as beautiful display areas
- Addition of one small wall separates space, creating a "mock" butler's pantry

was extended on one side, so Ana's family and friends can sit nearby as Ana prepares her delicious meals and snacks.

Another important design element is floor-to-ceiling pantries. Created to mirror the "u-shape" of the island, the pantries provide ample storage and offer a great space for Ana to show off her brightly colored ceramic roosters. As a finishing touch, Kaye designed a small "mock" butler's pantry housing the Uribe's wine chiller and glassware.

And the cabinets, countertops, flooring and appliances were expertly installed by **Delta Renovations**, the sister company to **Barrington Kitchen & Bath**, making the process seamless from start to finish.

So what do Ana and Diego Uribe think about the results?

"We absolutely love our new kitchen!" said Ana Diego. "Kaye, at **Barrington Kitchen & Bath**, kept us steered in the right direction...without offending our own creativity. And the people at **Delta Renovations** made the installation process almost painless! We're really pleased."

### Security and Beauty with Outdoor Lighting

A home's landscaping is, if done well, its crowning glory. Tastefully executed landscaping can make even the plainest house look appealing, just as poor landscaping can ruin the appearance of a mansion. Consequently, every year Americans spend millions of dollars installing, enhancing and maintaining both residential and commercial landscapes. The shame of it, though, is that every night when the sun dips below the horizon all of that expensive landscaping is virtually invisible for 10 or 12 hours.

Rudy Kruse, president of **CFC Nite Lites**, has set out to change that by installing landscape lighting which accents elements to which your eye is naturally drawn during the day—flowering trees, artwork, building features and so forth, using a wide variety of techniques includ-

ing uplighting, crosslighting, moonlighting and pathlighting.

"There are three main purposes for outdoor and landscape lighting," Kruse explains. "The lights offer added home security. They also offer safety around steps and other potential hazards. And, of course, there are the aesthetic considerations. In fact lighting actually makes a yard appear larger than it is and there is also the opportunity to light up special characteristics of the house itself like special brickwork, cornices and fireplaces."

**CFC Nite Lites** services all types of outdoor lighting systems.

## Local Architects Specialize in Remodeling

"BEFORE"

"AFTER"

Are you confused about how to get more space from your present home? Are you wondering how much this will cost?

"When a client calls us to look at remodeling their home, they generally have two questions. How can we get more space, and how much will it cost?" says John C. Cazzetta, President of **Kemper Cazzetta, Ltd.**, an architectural firm in Barrington that specializes in residential design. "We can uniquely answer those questions because of our combined experience in design and construction."

Mr. Cazzetta also owns BonnerCodd Associates, a construction management firm. "Because we construction manage

approximately 40% of our design work, we are familiar with the cost drivers of remodeling. Therefore, we are able to estimate the cost of a project before we begin designing." The firm also prides itself in "context architecture." "We strive to complement the existing structure as we incorporate the new space. The finished project should feel as if the new work was part of the original design."

If you are thinking of revising your home, please call John C. Cazzetta at **Kemper Cazzetta, Ltd.** for a free consultation at **847-382-8322**. He will be happy to talk to you about developing the full potential of your home.

# McCAULEY DESIGN Presents The Art of Design in Tile

Here's a quiz: Imagine that you have just spent a great deal of time and effort on your new kitchen or master bath. Now you are giving your family and friends a tour of the finished project. Which reaction would give you a bigger thrill?

- a) "Very nice."
- b) "Wow!"

## Getting to Wow!

If you answered "b," then you need to check out **McCAULEY DESIGN's** new presentation, "The Art of Design in Tile." **McCAULEY DESIGN** has spent months filling the studio with a carefully selected collection of the most beautiful and unusual stone tile found anywhere. Stop in and you'll see 100-year-old (and older) mosaic tiles taken from demolished French chateaux. You'll see authentic Art Nouveau squares in deep iridescent colors. You'll see the work of tile artists who have created images that you won't be able to resist placing in your home. Many of these tiles cannot be found anywhere else, and our designers use all of them to take your kitchen and bath project straight to "Wow!"

## The Details Make the Difference

Our decorative tile collection is part of our design philosophy. At **McCAULEY DESIGN**, we like to say, "The details make the difference." Decorative tile is a detail that can make an enormous difference in the visual impact of a new kitchen or bath. Our designers are experts in creating combinations of colors and compositions that will make a memorable statement in your home. Here are some of the tiles we've assembled to help our designers provide that memorable visual experience.

## From French Chateau to Your House

Antique and collectible encaustic tiles represent the pinnacle of European tile manufacture at the turn of the 20th century. These tile floors have been painstakingly reclaimed from French, German and Belgian estates, carefully cleaned, and appear substantially as they did 100 years ago.

The encaustic process involved inlaying pigment up to 3/8 inch into the body of the tile before firing. The process produced tiles of rare beauty and durability. The aging of the tiles has produced an unmistakable ambience.

## Frogs and Lily Pads

In contrast are these whimsical contemporary tiles with a varied and surprising array

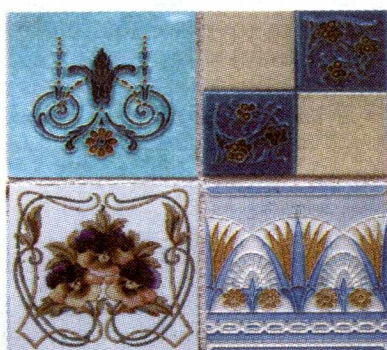

of themes from nature. An entire theme can be created in a guest or children's

bath using tiles that portray frogs, fish, turtles, lizards and their natural habitats.

## "Tube Lining"

In the lowland countries of Europe during the 19th century, the process of "tube lining" was used to create frothy tile con-

fections. The pigment was applied from tubes as if decorating a wedding cake. Pulled from Belgian estates scheduled for demolition, these tiles were saved to provide beauty a second time around.

## Classical Equestrian Form

This stylized horse form, seen in profile with one foreleg raised, is typical of ancient Greek motifs. It captures the purity

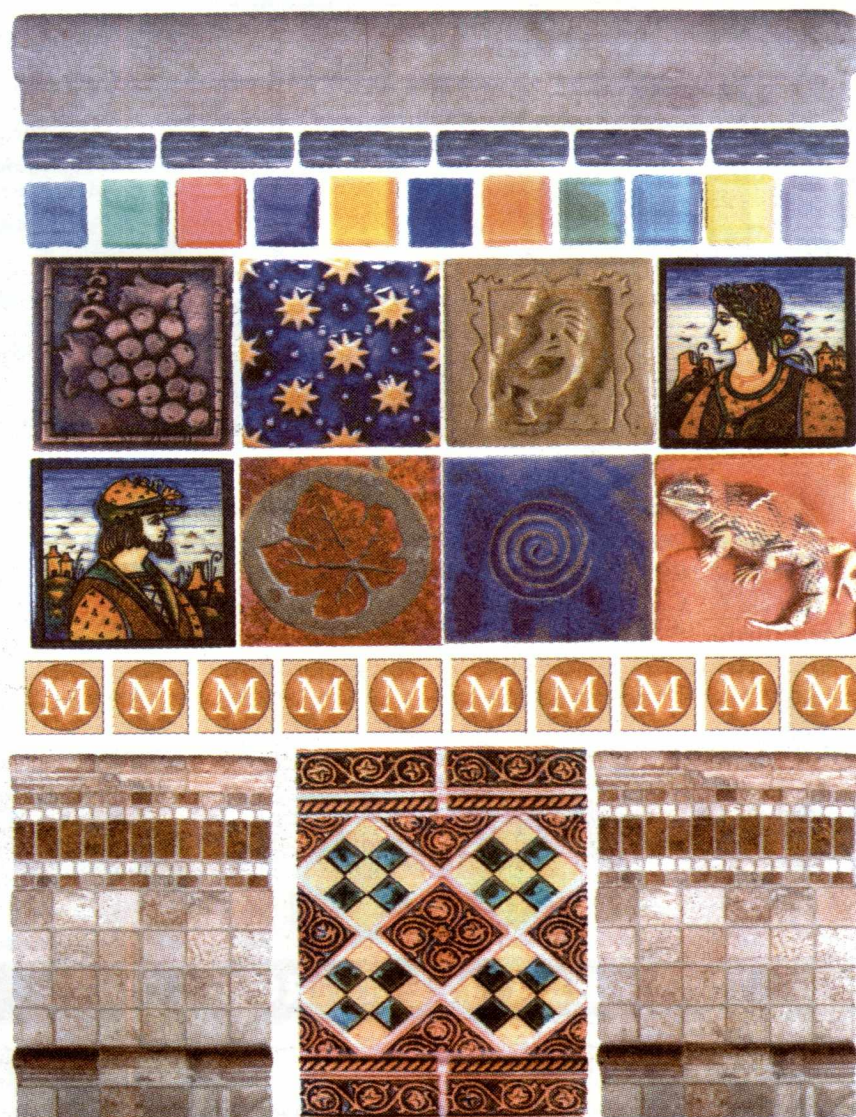

of muscle tone and depth, while the stylized elements of the form convey style and grace. The clay tile replicates the patina of aged copper in burnished greens, blacks and mottled blues. Handmade by a single artisan, this 15-by-20-inch tile can stand alone as art or provide a centerpiece in a larger tile design.

## See Even More at Our Studio

Here we've been able to present only a small sampling of the unique collection of decorative tile that **McCAULEY DESIGN** has assembled from around the world to enhance your home. Stop by our studio in downtown Barrington for a closer look at "The Art of Design in Tile."

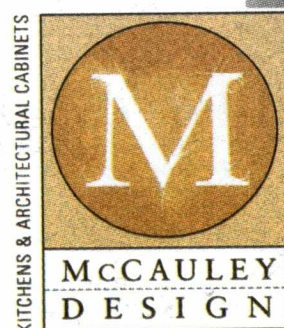

**McCAULEY DESIGN** is located in downtown Barrington at 211 Park Avenue. Call 1-847-381-2742 for further information or an appointment. Or visit our Web site at [www.mccauleydesign.com](http://www.mccauleydesign.com).

## Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Residential films are now backed by a manufacturer's lifetime warranty. Solar Gard, Sun Gard and 3M films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, pictures, etc.

Solar Gard, Sun Gard and 3M also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning less money going to our favorite people (electric co.) and remaining in your pocket.

Window film also increases safety with pressure sensitive adhesive. The adhesive

bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, or burglar, making glass shatter resistant.

**Glare-Not Inc.** has provided savings and security for 10 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard, Sun Gard and 3M films are backed by a manufacturer's lifetime residential warranty. Many locations are tinted by **Glare Not**, including: Brach's Candies in Chicago, Avon Corp. in Morton Grove, two Ace Hardware corporate offices, four Armcore banks, First National Bank of Chicago, plus 1,000's of homes. References are available upon request.

## Joe Connelly Named Rotarian of the Year

Gary Personette (left), president of Barrington Rotary Club, and Joe Connelly, Rotarian of the Year, at a recent luncheon meeting

A surprised Joe Connelly was awarded the Barrington Rotary Club's prestigious honor of Rotarian of the Year at a recent luncheon meeting at the Barn of Barrington.

Gary Personette, newly elected president of the service club, acknowledged that it wasn't just leadership that made Joe the unanimous choice for a seldom given award but his "service above self." When the club lost its beloved international service chairman Larry Marquardt last year, it was Connelly who stepped in to help

complete the projects though he was already serving as president of the club. "His enthusiasm and spirit are an inspiration to us all," commented Personette.

Rotarians in 32,000 clubs around the world will be working to keep their promise to eradicate polio by 2005. Since the inception of their program in 1985, polio cases have dropped worldwide by 99 percent. All three Barrington area Rotary clubs will work together to do their part. The goal in the United States is to raise \$80 million by June 30, 2003.

## Landscaping...Dumb Money/Smart Money

**Dumb money** goes for free design advice from lawn maintenance services and relatives. **Smart money** knows that life-style-compatible design concepts of the non-cookie cutter variety are had from a design professional.

**Dumb money** buys what looks good today, on sale, and often guided by the label or sales clerk. **Smart money** knows labels are often incomplete and misleading; and aims for long term and low maintenance color for all the seasons.

**Dumb money** downsizes materials to excess, sacrifices quality, and puts off fundamental problems when the budget is squeezed. **Smart money** takes on one area at a time, does it well, then moves on as budget allows.

**Dumb money** is cutting back, digging out, and replacing what died or overgrew their bounds in just a few years. **Smart money** is lining up the next putt.

Spend wisely... **the naturalizing landscapes**. 847-438-8890.

### New Models Arriving Soon

The end of summer brings the arrival of the 2003 models. We have already received Excursions, Expeditions, Escapes, Windstars and Mustangs. With the 2003s here, the discounts and incentives including zero percent financing are available on the remaining 2002s. September is a great month to take delivery of a new model!

Speaking of new deliveries that we're expecting:

Service manager Teri Smetana has taken delivery of her new son, Anthony, on Aug. 9. Alfie Frederick (sales manager) and his wife, Karen, are expecting their model to arrive Sept. 27. Next, Aaron Grassel (service manager) and wife, Heidi, are expecting Oct. 19. And lastly, Michelle McCormick (formerly Michelle Goss) and her husband, Andy, are expecting their delivery on Oct. 31. Michelle will be taking a five-month leave from her "Top Salesperson for the Past Three Years" position to enjoy the new baby. While Michelle is

absent, her fellow salespeople have promised to help out any of her customers.

**Wickstrom Ford** wishes the best of luck to the following workers: Charlie Hightower is heading off to Northern Illinois University to earn his degree in elementary education and Liz Pociask will be attending Western University under a performance scholarship for a degree in music therapy.

## A Great Selection of Specialty Vehicles

**Emkay Car Rental** offers a great selection of specialty vehicles for short-term rent. **Emkay** has the new Pontiac Vibe. **Emkay** also has the new Chevrolet Trail Blazer or the Ford Escape for your SUV needs. **Emkay** also has an outstanding selection of European imports. The BMW 3 and 5 Series, Volkswagen Passat or the Saab 9.5 are just a few of the models available. If a minivan is needed, the Oldsmobile Premier with built-in VCR, Chrysler Town & Country Lxi or the Dodge Grand Caravan will do the job. Please call us for

availability, prices and other unique selections.

In addition to **Emkay's** great rental selection, we have an outstanding inventory for sale. Some of the vehicles we typically have available for purchase include the Jeep Grand Cherokee, Pontiac Grand Prix or Toyota Camry. These are from **Emkay's** corporate lease returns. Please call and we can fax you our current inventory. **Emkay** also offers maintenance and body-shop services for all your automotive needs.

## Emkay Offers Great Selection of Pre-Driven Vehicles

**Emkay** offers a great selection of pre-driven vehicles. These vehicles come from our corporate lease returns. They are typically one-driver vehicles with complete maintenance histories.

**Emkay** brings in the best vehicles in our fleet from around the country and offers them to the public for huge savings. **Emkay** averages about \$4,500 under *Kelly Blue Book*. Compared with CarMax, who

advertises \$1,000 under *Kelly Blue Book*, our savings are substantial. And our friendly and no-hassle one-price system takes all the car buying games out of the picture.

Extended warranties and financing are available on most vehicles. If you want an updated list, please call, and we will be glad to send you the most recent copy.

This morning, I read an article on financial security by Ric Edelman of the firm Edelman Financial Services. Ric is the author of several books, including the best-seller *Ordinary People, Extraordinary Wealth* and *Financial Security in Troubled Times*. In the article on *Hidden Threats to Your Financial Security*, he explains some financial threats and some safety nets that we might consider.

One, of course, was having a cash reserve to cover at least three months of expenses. Always a great idea.

Ric's next hidden threat was having too small of a mortgage. Most often, the perception is that it is better to pay off the home mortgage. Being mortgage-free is usually the best idea of all. However, it's not if you don't have a job. It's almost impossible to get a mortgage or home-equity loan, because these loans are not based on the value of your home but on your current income.

The strategy he advises is to obtain a home-equity loan or refinance to a larger mortgage when you have money, not when you are in a crisis. Also, mortgage interest payments are tax deductible. However, I was thinking about what you could do if you refinanced or took a home-equity loan. You could trade up to a larger home at the same mortgage pay-

ment that you are paying now.

At the current mortgage rate of 5.6 percent and 20 percent down, you could be in a \$400,000 home for a monthly payment of \$1,837 or a \$600,000 home for a monthly payment of \$2,755 with a 20 percent down payment. Appreciation would be between 3 to 6 percent, typical for the Midwest—an investment of \$80,000 on a \$400,000 home would yield \$63,370 in five years. Or you could buy a second, third or fourth home at the same rate of interest as your primary home through **Coldwell Banker Mortgage Company**.

You couldn't ask for better home-buying conditions and opportunities than those which are present right now, but it's up to you to take advantage of them. Don't be afraid to step out and follow the dream or the lifestyle you want. It's there for you. Talk with one of our **Coldwell Banker Realtors**. Our Realtor will be happy to give you the toll-free number to mortgage services to start you on the road to greater investments.

So hustle and call **Coldwell Banker Real Estate and Mortgage Services** today. We are The Dream House Headquarters.

## Long Grove Rotary Installs New Officers for 2002-2003

**Terry Mueller (right), Rotary District 6440 governor, installed Long Grove Rotary Club officers for 2002-2003.**

The Rotary Club of Long Grove held their Ninth Annual Installation Dinner on July 2.

Rotary District 6440 governor Terry Mueller installed the new club officers for 2002-2003. The new officers are: club president 2002-2003 Robert Jones, vice-president of Fairfield Savings Bank; president-elect 2003-2004 Marianna Zeidler, CRM at Barnes & Noble; secretary Christopher Robinson, vice-president at Hawthorn Bank; and treasurer Jeff Weidner from Accountants Group.

The Rotary Club of Long Grove was chartered in 1994 and its members are local business people and professionals who enjoy getting together while working in projects that benefit the community. Its board of directors chair the club's four avenues of service: club, community, vocational and international. The Long Grove chapter sponsors Interact Club, a high-school-based service club. Fund-raisers have helped finance the playground at the Foglia YMCA, bring children from Eastern Europe and Central America to Chicago

for medical treatment not available in their home country and other humanitarian initiatives, as well as programs that promote literacy and further international understanding. Among the programs supported by Rotary are International Group Study Exchanges; Youth Exchange; worldwide polio eradication campaigns in partnership with the World Health Organization and the United Nations; dental and medical missions to developing countries; Ambassadorial Scholarships for college students and graduates; vocational scholarships; and the RYLA, or Rotary Youth Leadership program, for high school students.

On Saturday, Aug. 3, the club hosted Long Grove's Fifth Annual Heritage 5K Run/2K Walk. Funds raised will help support Wellness Place, a local cancer support and resource center and other Rotary charities.

The club meets every Tuesday for breakfast at the Seasons of Long Grove. For more information, call Marianna Zeidler at 1-847-438-7887.
