December, 2003

Dear Reader,

If the saying "It is in the giving that we receive" is true, than Barrington is certainly receiving abundantly. Once again, the community at large is sponsoring Barrington Giving Day on Saturday, Dec. 20. Members of churches, schools, businesses and civic organizations are working together to give 250 needy families a merrier holiday. Food, warm coats, toys and gifts are being collected and financial donations given to help those less fortunate enjoy the season. If you wish to be part of this beautiful endeavor, please contact one of the committee people and they'll be happy to put you to work.

Many beautiful concerts will be presented during this holiday season. Among them will be the Suzuki Music School of Barrington in concert presenting *All Aboard the Holiday Express*. They invite you to climb aboard their imaginary train to faraway lands. The train will make stops in different countries around the world to celebrate the music and traditions of each culture's holidays. Two concerts will be presented.

At a loss as to how you want to decorate your home this Christmas? Why not attend Barrington Home for the Holidays House Walk to be held Friday, Dec. 5? Sponsored by the Barrington High School PTO After Prom Committee, the walk will be held in the Barrington area. Seven distinctly decorated homes will be on display. That should certainly present some great ideas for you.

This issue winds down the year 2003. One reflects back to this past year. As we celebrate the birth of Jesus, my personal happiness is reflected in the birth of two new grandchildren born this year, Aiden and Brenna, who join Shane. To me, 2003 has been wonderful indeed.

May the new year and the joyous season hold much happiness and good health for you and yours.

With warm regards,
Glenne McMonigal
Editor, *Lifestyles Magazines*

Barrington Giving Day Saturday, Dec. 20

Each December, the Barrington community invites local disadvantaged families to Giving Day to receive food, clothes and gifts.

The members of our churches, schools, and many business and civic organizations have always been generous in their support of this day, which last year served nearly 250 families. Barrington citizens always work hard to bring joy to others at this special time of year.

There are many ways for you to get involved as an individual or as part of a group. Please read the following details and find a place where your time, talents and treasures will fit. We have been part of many community service projects, but know of no better one than this. Besides, it's lots of fun! May God bless us all in this undertaking of love.

Drop Off Location for Donations

This year, all food, warm coats, toys and gifts will be collected at St. Paul's Church, 401 East Main St., at the rear door. A volunteer will be there on Monday, Tuesday, Wednesday and Thursday, Dec. 15 to 18, from 9:00 a.m. to 6:00 p.m. to receive contributions. Toys and gifts will also be collected at the Barrington Ice House Mall, Rick's Pet Shop, Chuck Hines, Baird and Warner in The Foundry, and Coldwell Banker at 330 E. Main St.

Donate Food

All nonperishable food items are welcome. Food will be received and sorted at St. Paul's United Church of Christ as noted. All deliveries should be received by Dec. 18 to allow time for sorting and boxing.

Please call Corina Robles, 1-847-382-9050, to make arrangements for large deliveries.

Donate Toys and Gifts for Children Up to 18 Years of Age

New or like-new toys and gifts are always in short supply. We try to have one gift for each child in the family. Special donations include sports items (all kinds of balls, bats, hockey sticks, etc.), dolls, watches and items for older children. Gifts should not be wrapped.

Donate Warm Coats

Because of space limitations at the church and at the school, only warm coats, gloves and hats will be received and distributed for Giving Day. *No other clothing, furniture or household items will be accepted!*

Volunteers are Needed

- Dec. 8 to 18, 9:00 a.m. to 5:00 p.m., picking up toys and gifts around the village
 - Dec. 15 to 18, 9:00 a.m. to 6:00 p.m., sorting and boxing food and coats at St. Paul's Church
 - Dec. 19, 3:30 p.m., unloading and organizing at Station School
 - Dec. 20, 8:00 a.m. to noon, helping with distribution at Station School
- People fluent in Spanish are especially needed on Dec. 20.

Make a Financial Donation

Financial gifts are used to purchase large quantities of food and essentials, such as laundry soap, bar soap, toilet tissue, etc., and grocery store food certificates. Last year, over \$7,000 was spent on these items. Checks may be made payable to Barrington Church Women United Social

Protecting Your Legal Rights— Illinois Enacts Equal Pay Act

by Joette S. Doran, J.D.

This summer, the State of Illinois enacted the Illinois Equal Pay Act of 2003 (IEPA). The act is virtually identical to the provisions found in the Federal Equal Employment Pay Act (EPA), which makes it illegal to pay a member of one gender different wages than those paid to a member of the opposite sex for the same or similar work on jobs which require equal skill, effort and responsibilities. Under the Illinois act, any action to collect wages must be brought within three years of the underpayment. Under the EPA, a legal complaint must be filed within two years

(or three years in the case of willful violations) of the alleged sex-based under-

Testimonial

"We were in another local tae kwon do program but my son wasn't enjoying his classes or the instructor. We just weren't getting any value out of that program. But at Barrington Martial Arts, my son enjoys his classes and loves all of his instructors. His self-esteem has gone through the roof. He's a different child now. But what's more important, I can see he's actually learning, and I don't feel as though I'm throwing our family's money away."

payment.

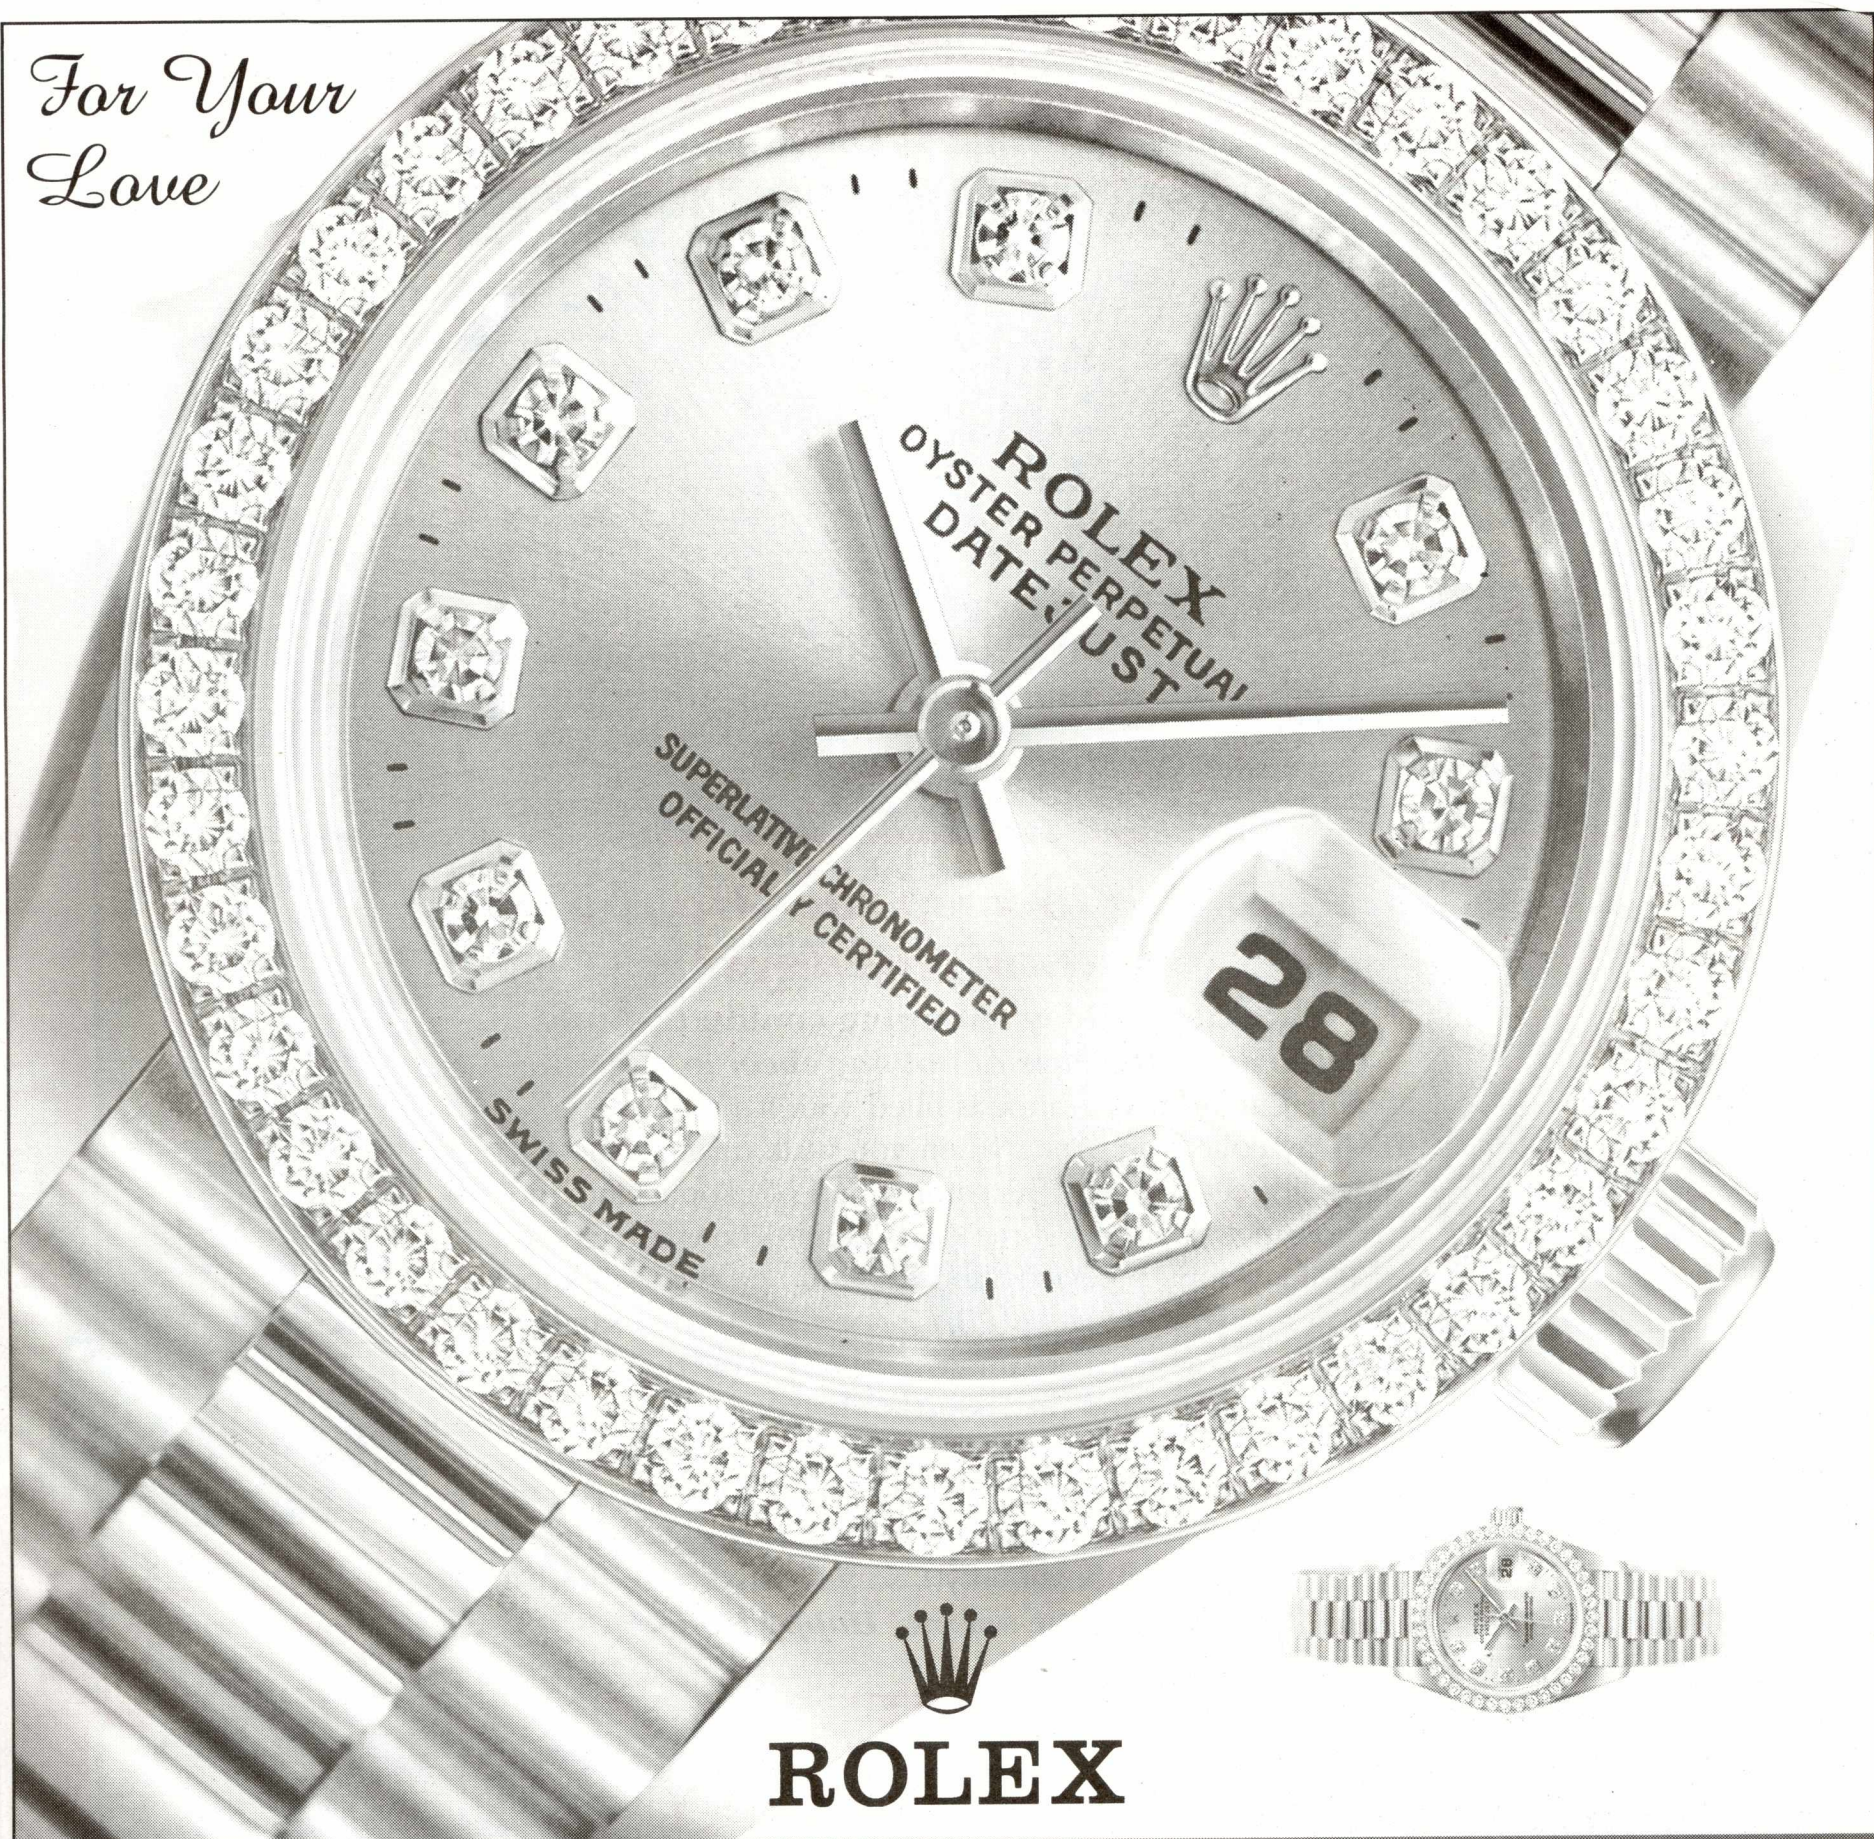

The Illinois act also contains a provision that protects employees from discrimination and retaliation. For instance, an employer may not discharge or discriminate against an employee for pursuing rights under the act. An employee may file an action against an employer with the Illinois Department of Labor or file a civil action to recover the amount of underpayment, interest, costs and attorney's fees. Legal remedies for violations of the EPA include back pay in the amount of the total lost earnings in terms of the earnings the employee would have received had the act not been violated. However, because violations of the EPA and the IEPA may also involve a violation of Title VII, based on gender discrimination, a charge should also be filed with a state or federal administrative agency in accordance with strict time limitations. Under Title

VII, potential damages include lost wages, punitive damages and damages for emotional distress as well as costs of suit and attorney's fees. As such, if you are being subjected to unequal payment due to gender discrimination in the workplace, you are well advised to review the facts and circumstances surrounding the situation with legal counsel. Phyllis Schlafly Visits McHenry County to Speak Against ERA

The Second Annual Liberty of Life Dinner sponsored by the Pro-Life Victory PAC of McHenry County was held Sunday, November 2, 2003 at Boulder Ridge Country Club, Lake in the Hills, IL. This dinner is a fund raiser for the PAC. Funds are used to promote pro-life candidates. It was a tremendous success.

Phyllis Schlafly, President of Eagle Forum (www.eagleforum.org), the featured guest speaker, gave a riveting speech against passage of the Equal Rights Amendment (ERA). Mrs. Schlafly has been a national leader of the conservative movement since 1964 and has been a leader of the pro-family movement since 1972, when she started her national volunteer organization, now called Eagle Forum. The ERA may be considered for a vote in the Illinois Senate this week during the fall veto session. The ERA has already passed the Illinois House. Mrs. Schlafly reminded us that ERA has nothing to do with authentic women's rights, and our Constitution already contains gender neutral wording to protect women's rights under the law. She began her speech by stating, "In ten years of debate, ERA advocates were never able to show that it would give any benefit to women. ERA doesn't even mention women—the word used in ERA is 'sex.' The U.S. Constitution is completely sex-neutral; it uses only sex-neutral words such as 'we the people,' 'citizen,' 'person,' 'resident,' 'Senator,' 'Representative.'"

Irene Napier, President of Right to Life of McHenry County with Phyllis Schlafly, President of Eagle Forum

The passage of the ERA will victimize women and children by transferring state law to the federal government. The following is just a few of the negative effects if this law passes: 1) Invalidate state laws that require a husband to support his wife, while women will become equally liable for their husband's debts. 2) Wipe out the presumption of alimony or child support for divorced women. 3) Force women to register for the military draft and be equally assigned to all combat positions in the military. 4) Take away the rights of widows to receive Social Security benefits based on their husband's earnings. 5) Write abortion rights into the constitution forcing tax payer funded abortions (which the majority of Americans oppose). 6) Force all organizations to be fully coeducational and sex-integrated. Think Title IX mischief. 7) Prevent insurance companies from charging lower rates to women, even

though actuarial data proves that women, as a group, are entitled to lower auto and life insurance rates. 8) ERA would legalize same-sex marriages. Needless to say, Mrs. Schlafly received a standing ovation.

Again this year, there was an impressive list of attendees. Most notable was the presence of the local politicians whose decisions will have the greatest effect on us, the residents of McHenry County. In attendance were: Mike Tryon, Chairman of the McHenry County Board and candidate for the Illinois House of Representatives in the 64th District; Perry Moy, McHenry County Board member and candidate for the Illinois House of Representatives in the 63rd District; Lou Bianchi, candidate for the McHenry County State's Attorney; and Pam Althoff, State Senator of the 32nd District, as well as many other McHenry County Board Members. Also in attendance were U.S. Senate Candidates,

Andy McKenna, Jim Oberweis and a representative for Jack Ryan. Former Illinois State Representative, Penny Pullen, who is the new president of Eagle Forum for the State of Illinois was also in attendance.

Topinka Tells Governor "Put Away the Credit Card"

Illinois Budget Continues to Unravel

Sighting his intention to borrow an additional \$1 billion, Illinois State Treasurer Judy Baar Topinka has once again urged the governor to put a lid on spending and make the tough choices necessary to put our fiscal house in order.

"These desperate actions clearly point to a budget coming apart at the seams," said Topinka.

According to documentation from the Office of Management and Budget, the governor's office is proposing the issuance of nearly \$1 billion in general obligation bonds.

"Traditionally, bonding has been for capital improvements and infrastructure needs," said Topinka. "The governor's bonding plan reflects dangerous trends toward pushing off today's debt on tomorrow's taxpayers."

A part of the bonding will be used to refund nearly \$300 million in existing bonds to enable the state to make fewer

payments in 2004. The refunding pushes out maturities of the refunded bonds into the future to provide short-term budgetary relief.

"This method of borrowing is extremely backloaded with only a fraction of the debt being paid back over the next 10 years," said Topinka. "It's disturbing to see that our children and our grandchildren will be saddled with this debt for generations to come."

"I agreed to borrow \$1.5 billion last spring, based on assurance that we would not continue this cycle. It now appears that the governor plans to borrow, in part, to cover the payments of the last borrowing cycle."

"I am sure that in the short term, this additional borrowing will help to fill the gaping holes in our current budget. But in the long run, it causes great damage to the fiscal health of our state."

treasurer.

Retiring from the board of directors are Philip Bash and John Koten. Bash, a founding member of the 220 foundation five years ago, has given years of vision for Barrington area community planning through various organizations, including

BADC, Hospice and the Barrington Village Board. Koten, elected to the 220 Foundation Board in 1999, brought invaluable expertise and corporate resource planning from his roles as President of the Ameritech Foundation and participation in statewide initiatives for public education.

Barrington Chapter of Infant Welfare Society of Chicago Hosts Evening with Psychic Entertainer Ross Johnson

Ross Johnson, psychic entertainer (center), performs for members of the Infant Welfare Society of Chicago and their guests.

On Friday, Oct. 26, the Barrington Chapter of the Infant Welfare Society of Chicago hosted a kickoff to its annual gala event, 'Movin' and Groovin' to the Sounds of the '70s, to be held on May 7, 2004.

Approximately 100 members, spouses and friends festively dressed in black and white; gathered at Maggiano's Little Italy in Schaumburg to enjoy an Italian, family-style dinner; bid on themed gift baskets; and enjoyed psychic entertainer Ross Johnson's performance.

Mr. Johnson has been hailed as one of the most gifted psychic performers of our time and was unanimously voted as the world's top entertainer in the areas of the psychic and arcane by the International Psychic Entertainers Association. The highlight of the evening's performance by Mr. Johnson included his envelope demonstration. Guests were asked to place questions and messages in sealed envelopes.

Then, with his eyes closed, Mr. Johnson accurately answered the questions and returned the unopened envelopes to their owners. The audience was astonished with the accuracy of Mr. Johnson's predictions.

Infant Welfare Society of Chicago has provided medical, dental and psychological care for families of the working poor in and around Chicago since 1911. If anyone is interested in becoming involved with IWS, the Barrington Chapter welcomes new members. Special dates to note for those considering membership include Dec. 3 for the chapter's annual Christmas luncheon at Millrose Restaurant and May 7, 2004, for the annual spring gala mentioned above.

For more information on membership and attending meetings or functions, please contact membership chairperson Cindy Zipparro at 1-847-277-9392.

The Unique World of Fabergé Jewelry at M.J. Miller & Co.

Special Showing: Monday through Thursday, Dec. 8 - 11

Since 1885, Fabergé's reputation is inseparably linked with the creation of the Fabergé egg, the fist of which was created for Czar Alexander as an Easter gift for his spouse. At that time, Peter Carl Fabergé also produced more than 150,000 pieces of jewelry and silver work in his factories.

Fabergé is still a leader in the process and development of enamel and the com-

plex art of guilloché. The enamel used by Fabergé was then and still remains a carefully-guarded professional secret. Let us introduce you to the unique and precious world of Fabergé jewelry.

Start Your Holiday Festivities in Style at The Garlands of Barrington

(From left, seated) Garlands' members Mrs. Kay Schneider, Mr. Bob Schneider, Mrs. Ruth Butcher and Dr. Dan Butcher taste a dessert with Rick Rizner (standing), executive chef at The Garlands of Barrington. This taste-testing was held in preparation for the lavish Holiday-Around-The-World dinner planned for Dec. 12.

Start your holiday celebrations by reserving a table in the elegant Roycroft Dining Room at The Garlands of Barrington, 1000 Garlands Lane, Barrington.

On Friday, Dec. 12, 5:30 to 8:30 p.m., The Garlands will host Holiday-Around-The-World, another in their very popular International Dinner and Music Series. Reservations for this festive evening, featuring food and holiday music from all over the globe, can be made by calling 1-847-756-3000.

Rick Rizner, executive chef at The Garlands, has designed a menu that richly reflects many cultures from around the world. Rizner describes the offerings as "eclectic with a melting pot fusion."

The menu begins with appetizer choices that include seared foie gras, dried bing cherry sauce and griddled sour dough crouton; shrimp cocktail; and oysters Rockefeller. Parsnip and truffle purée soup and ancho Chile lobster bisque will be offered along with a salad of baby lettuce greens with brie.

Entree selections will include slow roasted prime rib; veal Oscar; Australian lamb ossobuco; apple spiced Peking duck; Chilean sea bass; and sole à la bonne femme—all expertly prepared using only the freshest ingredients available at the market.

Save room for dessert! Guests can choose from tiramisu, creme brulee and assorted chocolate truffles, garnished with vanilla cream mousse to top off the feast.

The Garlands' own special blend of coffee will be served along with a premium selection of ports, cordials, cognacs and

sherry for those who wish to linger and enjoy the marvelous music presented by pianist Dan Merrigan, a member of the Peter Tye Orchestra. Merrigan will entertain with a selection of holiday tunes in addition to classical, jazz, popular and Broadway music.

To add to your holiday festivities, The Garlands has planned special teas on Friday, Dec. 19, and Saturday, Dec. 20. Chef Rizner has promised a "proper English tea" filled with delectable treats that conjure up memories and inspire new traditions with friends and family for the season. The Robie Lounge will be magnificently decorated to help you and your guests welcome the season in style while enjoying special finger sandwiches, scones, miniature desserts and a wide variety of teas. Comments by Thomas

Recently, as fires raged out of control in California, we all watched the news coverage. With the winds changing directions at every turn, evacuations were announced without the benefit of more

than a few moments notice. As families were being interviewed, they talked about having to make the emotional decision of what to save from their burning homes. After the kids and pets were safe, the families mentioned family photographs, the history of their family.

After 26 years, I am constantly reminded, by events and more importantly, by clients themselves, of the high value of portraiture.

Stretch limousines will circle the square and Main Street and periphery parking.

"Just flag down your limo and travel to any restaurant or participating retailer on us! And," Chris adds, "accept a 'thanks for the holidays' rose from our tuxedoed gentlemen! There will also be FREE BABY-SITTING from 5 to 10 p.m. on the dot at the Stage Left Cafe of the Woodstock Opera House." (Children must have had

dinner before drop off, but will be served juice and cookies.)

"At **Chris Kerwin Designs**, we will offer tasty holiday treats and refreshments while you browse," says Chris. "Our fabulous trunk show of Jessica Mendelson jewelry will fill our cases with gutsy stones of color! We'll also feature a huge collection of men's gifts of style along with house gifts of Chapman lighting, holiday mirrors, candlesticks and antique furniture pieces. Gift your house this year!"

Chris also invites you to pick up a clipboard for your registration of your wish list requests while enjoying the evening's faire.

Congratulations Plum Tree Road!

This past Sept. 28, on a crisp fall Sunday afternoon, Plum Tree Road was officially dedicated McHenry County's first scenic drive.

The county believes this designation was a first statewide. Plum Tree Road is approximately 1¼ miles long and is within the villages of Barrington Hills and Fox River Grove. The roadway and surrounding views represent a piece of history that merits this recognition.

The initial nomination of Plum Tree was spearheaded by Bonnie Duresa of Barrington Hills, owner of Olde Plum Tree Farm, a historic property on the road.

Gloria Mack, chairwoman of the McHenry County Preservation Commission, initiated the scenic road program a few years ago to raise an awareness of the beauty and historic features that the county possesses. There are six criteria that are listed on the scenic road application. Usually, just one of these criteria are needed to qualify. But in the case of the Plum Tree Road nomination, all six were met.

"This road certainly deserves the first nomination of McHenry County," Mack stated.

A few days prior to the dedication ceremony, Robert J. Miller, Algonquin Township highway commissioner, installed the McHenry County scenic drive signs on the each end of the roadway. The reflective brown signs depicting a cruising vintage car were covered until the day of the event.

Celebrating the affair were McHenry

County Board members; state, township and village officials; and neighbors. Invited organizations with members attending were Barrington Hills Conservation Trust, Cary-Grove Historical Society and Marengo Historic Preservation Commission.

Everyone gathered at the west end of the road near Algonquin and Braeburn roads in Fox River Grove. A brief program was conducted by Gloria Mack, chairwoman of the McHenry County Preservation Commission. President James Kempe of Barrington Hills led the pledge of allegiance, with the presentation of the colors by the Boy and Girl Scouts of Plum Tree Road. Bonnie Duresa, resident and newly appointed commission member, introduced all the officials at the ceremony. State Representative Rosemary Kurtz spoke about the importance of preservation. McHenry County Board President Michael Tryon read a short history of Plum Tree Road. A red, white and blue ribbon stretched across Plum Tree Road was cut by President Tryon. He officially designated the road as McHenry County's first scenic drive.

At the conclusion of the program, a vintage red with black trim 1937 Plymouth pickup truck, driven by Sean Murphy of Algonquin, headed down the road. It carried Senator Pamela Altoff, State Representatives Rosemary Kurtz and Mark Beaubien, President Tryon and Bonnie Duresa to Olde Plum Tree Farm for refreshments.

(Upper photo, from left) Attending the Plum Tree road dedication ceremony were: McHenry County Commissioners Gloria Mack and Bonnie Duresa, State Representative Rosemary Kurtz, President McHenry County Board Michael Tryon, Trustee Barrington Hills Julie McKeivitt, Trustee Barrington Hills Robert Abboud, Trustee Fox River Grove Duane Figurski, President Fox River Grove Stephen Tasch, Trustee Barrington Hills Fritz Gohl, State Representative Mark Beaubien, State Senator Pamela Altoff, President Barrington Hills James Kempe, Trustee Barrington Hills Ted Horne and McHenry County Trustee Anna Miller. Also present (but not pictured) were McHenry County Trustees Tina Hill, Marc Munaretto and Dan Shea, Algonquin Township Highway Commissioner Robert Miller, Barrington Hills Police Chief Fred Clauser and Fox River Grove Police Chief Robert Polsten; (Lower photo, from left) State Representative Rosemary Kurtz, Senator Pamela Altoff, McHenry County President Michael Tryon and State Representative Mark Beaubien take a ride down Plum Tree Road in a 1937 Plymouth pickup truck.

Tips on Collecting American Indian Arts and Crafts

American Indian art, in all forms, has never been more alive and dynamic and continues to be gratifying and exciting to collect. American Indian art combines age-old tradition, innovation and talent, and results in a variety of art forms for all levels of collecting—whether you are beginning with a first-time purchase or have been collecting for a number of years. And, at all levels of collecting, you are helping to support the continuation of the expression and livelihood of American Indian artists, while at the same time, adding an object of beauty to your life!

These art forms, many with centuries-old influences, incorporate a natural spirit with timeless appeal. Whether it is pottery, in which artists are using the techniques and materials their ancestors did thousands of years ago, or silver smithing, which has evolved into classic as well as contemporary wearable art, there is always a place for authentic, handmade arts and crafts.

River Trading Post offers a unique opportunity to begin a new collection or

to further enhance a developing one. The gallery features an extensive collection of museum quality Navajo weavings, Pueblo pottery, Hopi Kachina dolls and many other rare items, including ancient pottery and antique Plains Indian beaded goods.

River Trading Post, in conjunction with the Department of the Interior, also offers collectors a great paper that gives tips on collecting American Indian arts and crafts. If you call **River Trading Post, 1-847-426-6901**, they will be happy to mail a copy to you.

River Trading Post is located at 314 N. River Street in East Dundee. They also have a second location in the heart of the arts district in Scottsdale, Ariz.

Let's Be Honest

I decided to write this article because our office is bombarded daily with calls about whatever the latest and greatest new thing was on television the night before. We all get excited about new innovations, especially if we can truly benefit from them. But the consumer needs truth, not hype.

Cosmetic surgical procedures and treatments have never been more popular or acceptable in the general population. More and more physicians are performing cosmetic procedures, as insurance reimbursements for most medical procedures go down and the demand for these cosmetic services go up. This trend continues even into some salons where there are no true medical personnel.

The demand for easier, less invasive procedures fuels a huge industry that sells expensive technologies to the physicians or salons who, in turn, promote them to the consumer. This would all be fine if these new technologies delivered what they promised, but all too often they don't. There are ads and stories on the nightly news proclaiming the newest procedure or treatment that promises to give you the result of a facelift, for example, with no downtime and no recovery. Common sense alone would tell you that this cannot be. If it sounds too good to be true, it usually is.

The truth: there is no replacement, at this time, for well-done surgery. Do some of these noninvasive treatments work? Yes, but rarely to the degree that is claimed. The "before and after" pictures in brochures and ads are the very best results that have been collected from across the nation. They rarely represent the typical or even obtainable result. Physicians need to be honest about what results to expect in the typical patient.

New treatments used to first be reported in peer-reviewed medical journals, and

only after being accepted by the medical community were they introduced to the public. Today, that sequence has been hijacked. The market is so competitive, with new technologies introduced almost every day, that they are often promoted to the popular media and the public before they are subjected to a rigorous medical review. The public demands the new technology from the physician who, in turn, feels compelled to go out and buy it (and buy into it) in order to stay competitive. So if a company can get a public frenzy going about their product, it will force sales to physicians even if their product is unproven.

So how does the consumer sort through all this? Don't believe every claim just because it is reported on television. Consult with a trustworthy physician, one who has been around in an established cosmetic practice. If a physician with no prior experience decides to break into the cosmetic market by buying some new technology, be cautious. Don't believe that any noninvasive technology can accomplish what can be achieved through surgery. That is just hype. Give newer technologies time to prove themselves. If they work and are effective, they will stand the test of time. There are many exciting advances being made with great promise for the future. It's just that they need to be honestly assessed and truthfully presented to the public.

To be continued...

Long Grove Café's motto is "Wine and Dine"

Owner Bill Hristakos makes guests feel right at home with his new restaurant, **Long Grove Café**. It is the only restaurant in Long Grove to offer a full wine cellar and the opportunity to buy wine right at the restaurant.

"Many times people go out and have a nice dinner and enjoy a great wine but they don't know how to find the wine after they experience it. We solve that problem right here, by having the wines for sale," says Hristakos, who also spent many years in the wine business before opening **Long Grove Café**. "I want to educate people about wine and we plan on having wine tastings and wine dinners on a regular basis."

Long Grove Café is a beautiful restaurant that overlooks a large pond and water

fountain. The wall of glass windows offer an alfresco dining experience even in the months when the weather is cold. In the summer months, the newly-built deck and outdoor seating area provides a great ambiance for dining and people watching in bustling Long Grove.

Chef Leo Perales has created a wonderful menu which WBBM's Dining Critic Sherman Kaplan recently rated 17/20. Enjoy pasta, seafood, steak and chops, as well as shrimp dishes, salads, soups and sandwiches.

Long Grove Café is open seven days a week and is located at 235 Robert Parker Coffin Road in Long Grove. Hours are Sunday through Thursday 11 a.m. to 11 p.m., Friday 11 a.m. to 10 p.m. and Sunday 11 a.m. to 2 p.m. for brunch.

Suzuki Music School of Barrington in Concert—All Aboard the Holiday Express

Students of the Suzuki Music School of Barrington

The children of the Suzuki Music School of Barrington invite you to climb aboard their Holiday Express imaginary train to faraway lands.

Borrowing a theme from the book *The Polar Express*, this train will make stops in many different countries around the world to celebrate the music and traditions of each culture's holidays.

This concert is guaranteed to engage the whole family. First, young piano students will present live entertainment prior to departure in the "train station" lobby. Then the chamber orchestra will portray a Viennese New Year's Day celebration with Handel's *Concerto Grosso I. Jingle Bells* and the traditional Christian songs about the birth of Christ will be performed as well as celebrations of Hanukkah, the Jewish Festival of Lights which commemorates the miracle of eight days of light from one small jug of oil during the reconsecration of the Temple of Jerusalem. Music celebrating Diwali, the Hindu festival which marks a time of gift giving and the start of a new year in India and Bangladesh, will also be performed by the young violinists, cellists, guitarists and flautists.

Many families make this annual Barrington Suzuki Strings winter concert a holiday tradition. This is partly because it is so amazing to hear and see such young children, ages 3 to 17, making such beau-

tiful and often complex music. They are able to do this with the method of teaching music pioneered by Dr. Shinicki Suzuki.

It was in the ruins of postwar Japan that Dr. Suzuki conceived the music education theory which is now taught in many countries. In the face of devastation after World War II, young Shinicki noticed that, in spite of the chaos, Japanese children learned to speak their mother tongue. Applying that observation to music, he theorized that all children have musical ability that can be developed just as their native language is learned, by observing and mimicking the parents and others who nurture the child. The natural abilities of the child are "nurtured by love" by creating a three-membered team of the teacher, student and parent(s).

So bring family and friends on a Holiday Express of music. Two concerts will be presented. Students of the piano program perform Dec. 7 at 3 p.m. at the Barrington Area Library. The transcontinental journey will depart from the stage of the Barrington High School on Dec. 14 at 3 p.m. Tickets are \$12 for students and seniors or \$15 for general admission. One ticket entitles the holder to enjoy both concerts and the festive receptions after each performance. For ticket information, please call 1-847-382-9517.

Barrington Woman's Club Celebrates 90 Years

This year, the Barrington Woman's Club will celebrate 90 years of providing support to local philanthropic, cultural and civic projects in the Barrington community.

In 1914, a small group of women formed this cultural organization and set out to establish the first library in Barrington. The first year, they procured 1,000 books, which were circulated free of charge from William J. Cameron's drugstore. As the library increased its collection, its site was moved several times to new locations. The Barrington Woman's Club managed, staffed and supported the operation until the village and its first library board took it over in 1926.

The club has continued to support the library throughout the years. In addition, a scholarship committee was formed in 1931 to give loans to college students. In 1965, awards were given rather than loans. Presently, the club awards \$24,000 in scholarships annually. Last year, 13 Barrington area charities and service organizations received a total \$7,000.

Among the organizations that received donations from the club last year were: Barrington Area Library, Barrington Historical Society, Barrington Senior Citizens,

(From left) Betty Jones, community relations and volunteer manager for Kenneth Young Center, receives a check from June Dienes, philanthropy scholarship chairwoman for Barrington Woman's Club.

Barrington Youth Services, CASA Child's Voice in Court, Citizens for Conservation, Church Women United Food Pantry, FISH, Hospice of Northeastern Illinois, Kenneth Young Center, BACOA Meals on Wheels, PADS and WINGS.

ing will be the Baroque Babes who will delight you with their baroque style music. The medieval feast will include a special menu, prepared by Garland's executive chef Rick Rizner.

Jared Silver
Founder: Executive Portrait Specialists

Whether you're promoting your business, applying for a new job... just need to look your best for whatever reason... a clean, professional business/publicity portrait is one of the smartest ways you can make a *powerful, positive and lasting* first impression!

From an early age, we're all trained to literally... **think in pictures.**

With today's lifestyle—we use visual images as shortcuts—simply to *make it through* each busy day.

Professional marketers know this. In fact... they count on it. That's the reason you're bombarded with several thousand advertising messages each and every day via television, radio, magazines, mailers, newspapers, telemarketing, the Internet, billboards... not to mention the tens of thousands of images that you encounter during a trip to the local supermarket.

Be honest now—when you're in a hurry do you really read all the nutritional information on the packages? Or, do you grab what **"looks"** good—"looks" familiar—"looks" nutritious (or at least not too harmful) and drop it into the cart? Many "buying decisions" are made within four seconds!

**The same holds true
for the brand that is "you"**

For a professional business image, **looking you're best is a 'snap'** when you call **Executive Portrait Specialists.**

Too busy to 'get out' to a photo studio?

No problem... EPS brings the studio to you.

Are you **'looking' too tired** to have your photo taken? Relax! Your **EPS** specialist makes tired shadows under your eyes and chin vanish like magic!

The specially-trained digital photographers/retouching artists from **EPS** can also **smooth your skin, brighten your eyes, whiten your smile...** they can even place a single strand of hair—**just right.** Now you're really smiling!

Hello, my name is Jared Silver. Each of my **EPS** associates (myself included) has an average of 18 years experience in commercial advertising photography.

You've likely seen our work in print advertisements for companies like AT&T, Coca-Cola, Baxter Health Care, Federal Express, Kraft Foods, Motorola, Kitchens of Sara Lee, Sportcraft and many more.

We've taken our joint expertise and combined it with the magic of high-end digital photography then added our passion for working with people to create **Executive Portrait Specialists.**

You can now get the exact same professional quality photography (and expert retouching) enjoyed by top celebrities and Hollywood stars!

It's NOT about vanity—it's about looking your best. It's about making the most of what you've got. **EPS** will never over-retouch your good image. There's no need to.

For the Holidays, Give Café Dos—Simply The World's Best Beans at the Best Price

One cup is not enough!

Coffee is like wine: cheap and bad, or expensive and great. If you want to elevate the coffee drinking experience to new heights, choose **Café Dos**. Get great without the expense; **Café Dos** will deliver select plantation-grown hard beans along with enlightening advice.

Café Dos does not mix beans from country A and country B. Would you drink wine made from grapes grown in New York and California? When you drink the house "blend," that's what you get, cheap beans (a filler) mixed with better beans.

Our current feature is Guatemalan Strictly Hard Bean from San Marcos. These

beans are grown in the lush, volcanic San Marcos region in northern Guatemala. Estate-grown in a perfect microclimate, this coffee is very rich, very well made, and lovely in the cup.

The four categories for judging this or any coffee are:

Cup: Rich, balanced, hearty

Acidity: Bright and clean

Flavor: Lush, rich and balanced with notes of chocolate and citrus

Body: Rich

We're so certain that you will say WOW!, we offer a money-back guarantee. Call us at **1-800-569-6052** or visit our website **www.cafedos.com**.

The Artful Teapot: 20th Century Expressions from the Kamm Collection

Artist made and antique teapots will be on view at the Chicago Cultural Center in a major traveling exhibition featuring approximately 250 teapot creations from a celebrated collection.

The Artful Teapot: 20th Century Expressions from the Kamm Collection is presented by the Chicago Department of Cultural Affairs at the Chicago Cultural Center, 78 E. Washington St., now through Jan. 4. The exhibition showcases the teapot as an inventive vehicle for artistic expression in the 20th century. Admission to the exhibition and related programs is free.

The Artful Teapot was organized and is circulated by Exhibitions International,

N.Y. The Chicago Cultural Center is the exclusive Midwest venue.

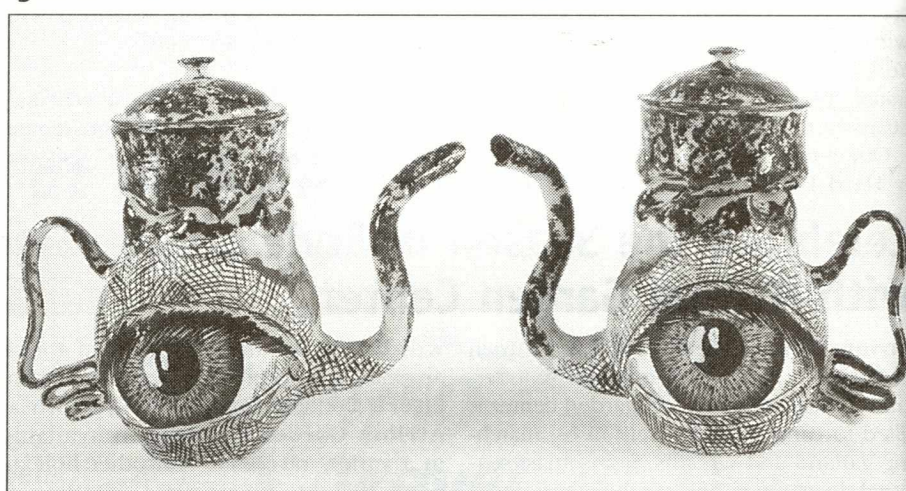

"This is a remarkable exhibition that will delight all ages, from casual viewers to connoisseurs of art, crafts and tea," said Chicago Cultural Affairs Commissioner Lois Weisberg. "Its popularity at some of the previous venues resulted in record-breaking attendance."

On view in the fourth floor exhibit hall will be approximately 250 teapots created by more than 150 artists. The teapots were drawn from the collection of former Chicagoans Gloria and Sonny Kamm. Painters Roy Lichtenstein and David Hockney, sculptors Arman and Michael Lucero, ceramists Betty Woodman and Adrian Saxe, architects Michael Graves and Walter Gropius, Chicago artist Margaret Wharton, as well as Cindy Sherman, Keith Haring, Kasimir Malevich and many others are represented.

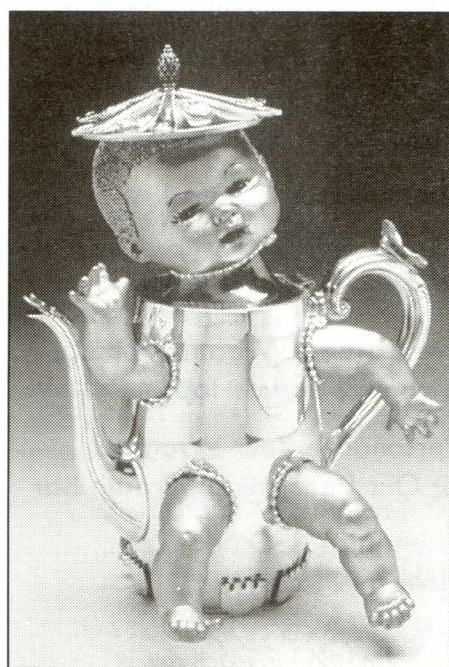

The exhibition also features archival drawings, photographs, prints and a video that documents the history of the teapot and the arrival of tea in the West. While the majority of the teapots featured in the exhibition have been created within the last few decades, historical pieces representing the teapot's 500-year history will also be on display, giving a contextual basis to the contemporary works.

Organized thematically, *The Artful Teapot* features a wide range of teapots that illustrate the following themes: Aesthetic Variables, Illusion & Allusion, Rendezvous with Ritual, and Tea for Art's Sake. Addressing aesthetic, social and political issues, *The Artful Teapot* examines the teapot's ability to be more than just a device to serve tea.

The exhibition provides a comprehensive view of the contemporary teapot to date, featuring works in a multitude of

Eye Ohr by Michael Lucero, New World Series, 1993, Earthenware

I'm a Little Teapot by Cheryl Frances, 2000, Metal Teapot, Metal Objects, Doll Parts, Silver, Paint

forms, including human, animal, vegetable and even architectural. The teapots on view are made from a wide range of materials from fine porcelain to soda cans. Examples include: Margaret Wharton's *Caddy*, an altered book/sculpture made from found and mixed materials encasing a fanciful teapot-shaped object; Zoe Morrow's *Five on the Line* teapot, featuring shredded \$5 American bills woven into the shape of a teapot; David Gignac's *Celestial Teapot*, in which a white, hand-blown glass orb sits atop forged steel branches simulating a gothic moonlit night; David Gilhooly's *Oreo and Frog Teapot*, which is a basic black earthenware teapot that has lifelike frogs crawling up through cookies to escape the teapot's lid; and *Resurrection of a Broken Teapot*, a striking sculpture by Laszio Fekete that depicts distressed stoneware hands holding up a pristine porcelain teapot.

All of the works in the exhibition have been culled from the Kamm collection,

husband and wife Gloria and Sonny Kamm's personal trove of more than 6,000 teapots. Working together to assemble the collection from galleries, auction houses, Internet auction sites and by commissioning artists to create their own interpretation of the object, the Kamms have been able to amass the largest collection of teapots in the United States. Gloria and Sonny Kamm are both originally from Chicago. The couple now reside in Los Angeles, Calif.

From their impressive collection, curator Garth Clark, a pre-eminent scholar and author of more than 14 books on ceramic art, has chosen teapots that illustrate the beauty and power of a form and also stand independently as works of art. Clark is the founder and current director of the Ceramic Arts Foundation.

Hypnosis

by Martin A. Nathan, M.A., L.C.P.C.

Hypnosis is being used more than ever for treatment of a variety of issues. These include nicotine addiction, eating disorders, nail biting, anxiety and panic attacks, weight loss, depression, anger, pain, and sleep disorders. *It is particularly helpful with stopping smoking.*

I'm a licensed clinical professional counselor and have been in private practice for over 28 years. I see couples for marriage and relationship counseling, and individuals for a variety of issues. I am certified in the use of clinical hypnosis and have been using it in my practice for the past 27 years.

I use hypnosis most often with individuals in order to quickly change habit and behavior patterns that the client considers undesirable. Using hypnosis helps the changes to take place in a much shorter

period of time than traditional counseling alone. The combination of short-term counseling with hypnosis saves both time and money.

If you think that you have an issue that may be treated by hypnotherapy, call and discuss your issue or issues with me. You will learn the approximate number of sessions, the cost per session and whether or not it's for you.

I am also a certified meditation instructor and teach six-week "Introduction to Meditation" classes on a regular basis. Meditation helps you to respond better to stressful situations, lowers blood pressure and generally makes you feel better. If you are interested in learning how to meditate or wish to restart your meditation practice, please call **1-847-934-6555** for information.

Changes in Social Security

As baby boomers near retirement, the rules of Social Security are changing. Debbie Schoendorf, CFP® and financial consultant with **Smith Barney** in Barrington, highlights these changes.

Normal retirement age for Social Security, the age you are eligible to receive full benefits, is gradually being increased from age 65 to 67. You may still choose to begin receiving reduced Social Security benefits at 62. However, the longer the period between when you begin receiving early retirement benefits and your normal retirement age, the more your annual benefit is reduced. If you begin collecting Social Security at 62 and your normal retirement age is 65, your annual benefit will be reduced by nearly 20%, while if your normal retirement age is 67, your annual benefit will be reduced by 30%.

Another change is that after 65, there is

no reduction in Social Security for those with earned income. However, if your earned income exceeds \$11,520 while receiving benefits and you are between the ages of 62 and 64, your Social Security will be reduced.

Deciding when to retire involves more than just your Social Security benefits. Be sure to get the financial advice you need to determine if you can support yourself throughout your retirement. Work closely with your financial and tax advisors to coordinate Social Security with your employer provided plans, individual savings accounts and insurance policies.

Smith Barney does not provide tax or legal advice. Please consult your tax and/or legal advisor for such guidance.

Smith Barney is a division and service mark of Citigroup Global Markets, Inc. Member SIPC.

Pilates Studio May Be Fountain of Youth

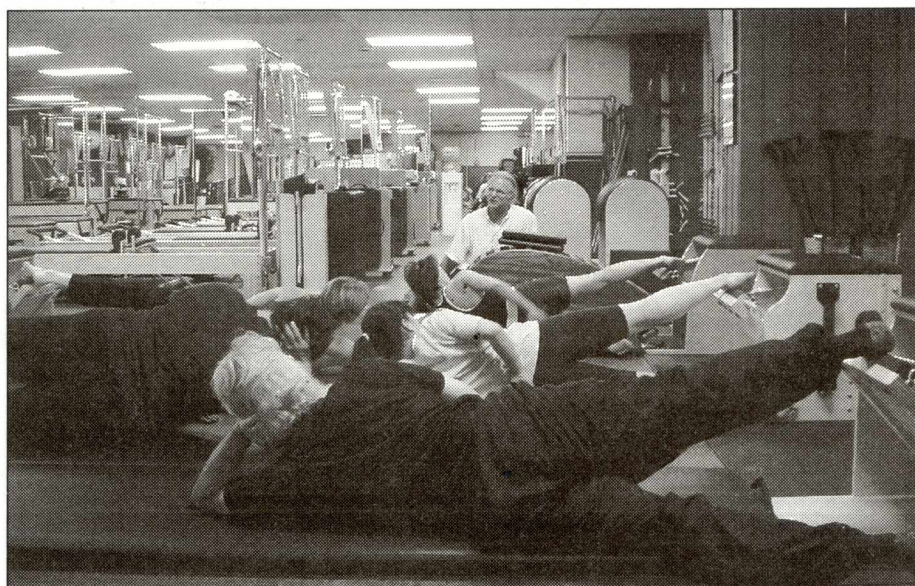

It's well known that exercise is good for general health, but it's potential for defying aging has been largely unexplored. Can exercise slow or actually reverse the aging process? Mia Scheid of **Fitness Arts**, a Pilates studio in Palatine, thinks so.

In her 28 years of teaching movement, she has seen exercise make dramatic changes in her clients' lives. "Pilates is centered around body restoration and improving day-to-day movement," Scheid says. "Gravity can age the body if we don't relate to it well in the way we function daily; when we walk, sit, and stand. By restoring alignment and developing core strength, we can defy gravity's aging effects on our body."

Fitness Arts clients are buzzing about the unexpected side benefits of their workouts. Maureen Fischer, 64, of Arlington Heights was astounded when her

yearly physical proved her to be 1¼ inches taller after a year of regular Pilates sessions. "Before Pilates, I shrank three inches over time. I thought it was an inevitable part of aging. I'm so happy to know now that I can get better as I age."

Kerry Malczyk, 32, of Schaumburg, loves the Body Rolling at **Fitness Arts**. The studio is one of the first to offer this cutting-edge exercise technique developed in New York by Yamuna Zake, whose second book will be released in January. Small therapy balls are used to stimulate bone, lengthen and tone muscles. Think of an hour of super toning, deep massaging, and no sweat. "The change is so dramatic and immediate," says Malczyk. "I tell all my friends you have to see it to believe it." Scheid sees this reaction often. "People are amazed

when they find they can visibly lift buttocks and breasts through a technique that's so simple. Even facial muscle tone can be improved."

Not only does the type of holistic exercise offered at **Fitness Arts** improve the body's appearance, it comes without the negative side effects of many traditional exercise methods. "We focus on the function of the body as a whole," says Scheid. "Exercise needs to be more than just a weekly activity. It needs to translate into how we live in our bodies every day."

Fitness Arts' studio is located in Palatine's Plum Grove Estates at Plum Grove Park. Established in 2000, the studio offers state-of-the-art Pilates equipment and

certified instructors who have completed thousands of hours of comprehensive professional training. **Fitness Arts** is the largest full-service Pilates studio in the Midwest.

To learn more, plan to visit the **Holiday Open House** scheduled for **Saturday, December 13**. Visitors are welcome to view the studio and participate in the demonstrations and activities held from noon to 2 p.m. **What Is Pilates?**, a free class, held from 10:00 to 11:30 a.m., will introduce the fundamentals of Pilates movement. Space for the class is limited and reservations are recommended.

Garden Club of Inverness Landscapes Cady Cemetery Entrance

Garden Club of Inverness volunteers who planted new landscaping at the Cady Cemetery entrance: (from left) Sally Hard, Cathleen Laskov, Beth Woldman, Janet Sholiton, Dolores Urbasik and Linda Denison, club president.

What started as a casual interest has turned into a commitment for Inverness resident Janet Sholiton. Ms. Sholiton has led the way in recent improvements of the entrance to historical Cady Cemetery on Ela Road in Inverness.

A member of Garden Club of Inverness, the Clarinda Cady Questers and the Palatine Township Cemetery Committee, she enlisted the help of garden club volunteers in adding landscaping around the cemetery's sign and entry drive. The township installed the updated sign in November 1997.

"Through Questers, I became interested in our local pioneer cemetery," Sholiton said. "I feel that as a community we can pay more respect to our predecessors."

Among other activities, Questers work to preserve historic buildings and land-

marks. She attended two meetings of the Palatine Township Cemetery Committee, which maintains five cemeteries in the area, joined the committee and then asked Garden Club of Inverness members to lend their expertise.

On Sept. 24, volunteers went to work installing more than 10 varieties of plants and spring bulbs, all donated by club members. Plant donors and landscaping volunteers were: Tom and Linda Calhoun, Betty Ann and George Dailey, Linda Denison, Sally Hard, Sally Hilgendorf, Cathleen Laskov, Anne Samyn, Rose Schneider, Dolores Urbasik, Adele Walker, Beth Woldman and Ms. Sholiton.

Cady Cemetery contains the graves of a number of early settlers, including at least three Civil War veterans. Ms. Sholiton reports that there is much more work to

Floss?

"What? Do they really have to floss? I don't even floss mine."

Parents ask this question on a regular basis when flossing is suggested as part of their child's oral hygiene routine. The answer is always the same—yes!

When a child's primary (baby) teeth grow into their mouth, there are always spaces between them. These spaces, especially in the back (molar) area, close as children get older. Once these spaces are closed, a toothbrush bristle can't break through the tight contacts between the teeth. Food can become caught in these areas, remain undisturbed for a long period of time, and allow the cavity process to begin. The first place we will see cavities developing in a child's teeth are on the chewing surfaces of the molars. But the most frequent place for cavities to

begin are on the sides, in between these teeth. A toothbrush can effectively clean the tongue and cheek sides of a tooth as well as the chewing surface. But the only way to help prevent the most common of the childhood cavities is the use of floss.

The flossing procedure need only involve the passing of the floss through the contact areas to break up food debris. For children below the age of 9, this is best accomplished with parents' help. Most children above 9 can usually do this effectively on their own.

I am a pediatric dentist and an assistant professor of pediatric dentistry at the University of Illinois College of Dentistry. If you have any questions regarding your child's dental health, please contact me at **1-847-991-4663**.

Language Stars Makes Learning a Game

"Language Stars is simply a great program; I have never found anything that works as well for my children. Language Stars makes learning a game," says Karen Pritzker, mother of five.

Language Stars' unique **FunImmersion™** method turns learning into a game, focusing on a young child's ability to learn a language naturally through fun and engaging activities. Children learn through interactive games, arts and crafts, singing, cooking and more, all presented entirely in the foreign language.

"Children have a window of opportunity during which the brain is uniquely suited to absorbing language naturally," explains Karen Gould, Language Stars' director of education. "Children have the innate ability to absorb the structures and rules of a language as easily as they learned their first language. They can also pick up a native accent flawlessly."

Children who learn a second language

young also go on to show enhanced problem solving skills, stronger communication skills, and higher standardized SAT test scores.

Language Stars offers **FunImmersion™** programs for children ages 1 to 10 in several Chicago and suburban locations, including Barrington and Arlington Hts. In addition to year-round programs for Parents & Tots (12 to 36 months) and Kids Only groups (3 to 5, 5 to 8 and 8 to 10 years), Language Stars also offers exciting summer camp options.

"After just one week of Language Stars camp, there was an explosion of Spanish in our house!" says Dena, mother of 5-year-old Marlee. "The teachers are all native speakers, and most importantly, my daughter had a ton of fun."

Dr. Phillip Lee Patrone Now Practicing in Barrington

Periodontics, anesthesia and dental implants are now available in the Barrington community at the office of **Dr. Phillip Lee Patrone**, 204 W. Main Street, 1-847-277-0181.

Besides being a periodontist and certified anesthesiologist, **Dr. Patrone** has advanced training in surgical dental implant procedures and reconstructions. He is able to restore lost bone for future implants. If you have been told you are not an implant candidate, **Dr. Patrone** may be able to help.

Dr. Patrone's training in anesthesiology has afforded patients the opportunity to have their periodontal or implant care completed under the gentle, relaxing and anxiety reducing method of intravenous sedation/general anesthesia. Coming to the specialist's office no longer needs to be a fearful experience. If you or someone you know has avoided seeing a periodontist because of fear, anxiety or nervousness, **Dr. Patrone** and his staff will take care of you in a comfortable, safe and caring environment.

Dr. Patrone is partners with Drs. Stan Treitler and Terry Sandroff. Their four office locations in Arlington Heights, Vernon Hills, Bloomingdale and Barrington provide periodontal, dental implant and anesthesia services six days a week to meet your needs. Part of their success is working closely with your general dentist, especially since a large part of periodontal and implant dentistry demands strict attention to cosmetics.

Dr. Patrone was born in 1964. He was raised in Ohio where he attended prep school at Linsley Institute. After majoring in mechanical engineering for his undergraduate work, he earned a degree from

Dr. Phillip Lee Patrone

The Ohio State University College of Dentistry. He then completed a general practice residency/surgical internship at St. Elizabeth Hospital Medical Center.

Dr. Patrone is a certified dental anesthesiologist and is trained to administer general anesthesia and intravenous sedation. He earned his Certificate of Dental Anesthesiology from Metro Health Medical Center and has lectured at Case Western Reserve University in general anesthesia. **Dr. Patrone** teaches the course for local anesthesia for William Raney Harper College's Dental Hygiene Program. Along with the above education and experience, **Dr. Patrone** is Advanced Cardiac Life Support certified and an instructor in cardiopulmonary resuscitation. He received his degrees in periodontology and dental implantology in addition to his masters of science from The University of Iowa.

Dr. Patrone is a member of the American Dental Association, Chicago Dental Society, American Academy of Periodontology, American Dental Society of Anesthesiology, American Association of Hospital Dentists, American Academy of Implant Dentistry and American Academy of Osseointegration.

The Eyebrows

by Gregory M. Bazell, M.D.

The appearance of the forehead and upper face play a fundamental role in our overall appearance and affect how others perceive our inner emotional state. The forehead region is intimately associated with expressions of sadness, fatigue, fear, anger and surprise. Interestingly, the natural aging process that occurs in the forehead and upper face closely mimics these same expressions. Unfortunately, the changes that occur as the forehead and upper face age are some of the earliest signs of facial aging overall and occur to a point where they begin to negatively impact our interactions with other people as we no longer look the way we feel.

"Gravitational and degenerative aging occur in the forehead and upper face just as it does in the mid- and lower face and do so at an early stage. Why this is so frequently overlooked remains a mystery to me, because the signs are so obvious yet easily corrected," says aesthetic plastic surgeon **Greg M. Bazell, M.D., of The Aesthetic Plastic Surgery Center of Barrington.**

The signs of forehead aging are predictable and obvious: the eyebrows descend to assume a lower than normal position, the upper eyelids become puffy, a skin fold begins to form above the outer upper eyelids, and wrinkles along with

creases that won't go away appear on the forehead and between the eyebrow region.

The position of our eyebrows is maintained by a delicate balance between two muscle groups located in the forehead region. One group lowers or depresses the eyebrows while the other group raises or elevates the eyebrows. The depressor group is the more powerful muscle group and is the main cause of eyebrow descent or ptosis. Because of their repetitive action, the eyebrows are lowered to an unwanted position; the upper eyelids appear puffy as the eyelid crease becomes obscured; a fold of skin begins to form over the outer portion of the upper eyelid; unnatural horizontal, vertical and oblique furrows and creases form between the eyebrows; and undesirable facial expressions occur. The elevator group plays a crucial role in combating the ability of

Lifestyle Changes for Seniors

"Is life getting in the way of how you want to live?"

It's a provocative question, and it's the kickoff point of a new video aimed at senior citizens that may be reluctant or fearful of change in their lives.

"The process of downsizing or making a lifestyle change can be difficult," said John Rijos, president of Brookdale Living Communities, Inc.

The video *Does Your Life Still Fit Your Lifestyle?* is being distributed free of charge

at **The Devonshire of Hoffman Estates**. For over a decade, **The Devonshire**, an independent and assisted-living community, has provided exceptional senior living to the Chicagoland area. **The Devonshire** has helped smooth the transition process for thousands of seniors and their families over the years. **The Devonshire** hopes that this video will help seniors better understand the value of relocating to a senior retirement community.

The Forgotten Organ

Did you know the skin has many functions? The most important is protection against germs, bacteria, toxic substances, solar radiation and dirt. Skin forms an acid mantle and eliminates germs through perspiration, sebum, dead skin and the discharge of carbon dioxide. Skin breathes in oxygen and regulates body temperature. Substances that can readily penetrate skin include lipid and fat-soluble substances, gases, phenol derivatives and essential oils.

The *epidermis* is the outermost layer of skin. The parts of the epidermis are:

- The stratum corneum (horny layer) with scalelike cells that are continually being shed and replaced
- The stratum granulosum with cells undergoing a change into the horny layer
- The stratum germinativum (also referred to as the basal layer) responsible for the growth of the epidermis and contains the melanin pigment (which gives us color)

The *dermis*, the second layer of skin, contains connective tissue consisting of elastin/collagen, blood vessels, subcutaneous glands, hair shafts and roots, sweat glands, lymph vessels, and nerve endings to feel hot, cold and pain. The dermis is where

breakdown occurs caused by advancing age, inadequate diet, hormones, stress, environmental toxins, poor circulation and heredity.

The *subcutis/hypodermis* is the third skin layer consisting of loose connective tissue, lymph ducts, fatty tissue and blood vessels.

Skin is the reservoir for our blood, which is shunted from the skin to general circulation every 20 seconds. It transports oxygen and nutrients to cells, removes carbon dioxide and waste, and provides detoxification.

One square inch of skin contains:

- 20 blood vessels
- 65 hairs
- 78 heat receptors
- 100 oil glands
- 165 pressure receptors
- 1,300 nerve endings
- 19,500 skin cells

A lot of information is carried by the skin in one square inch. Don't forget it. Please take care of it. It's the only skin you have!

For more information on skin and how to take care of it, please call **Estetica** at **1-847-438-2100**. (Thanks to Alison H.)

Latest Technology Now Available at Northwest Dermatology

Northwest Dermatology in Hoffman Estates is pleased to announce the addition of two new lasers to our services.

The **V-Beam** pulsed-dye laser is a safe and effective treatment for facial spider veins, rosacea, small leg veins, scars, port wine stains, warts, hemangiomas, poikiloderma, psoriasis and wrinkles. The laser is designed to deliver an intense but gentle burst of laser light to the skin.

The **GentleLASE** laser is a fast, effective treatment of unwanted hair, requiring no creams or needles. Patients do not need to let their hair grow. The GentleLASE system, a revolutionary long-pulse high energy Alexandrite laser with a dynamic cooling device, emits a gentle beam of light that passes through the skin to the hair follicle where it is absorbed. The laser energy is transformed into heat, which destroys the hair follicle leaving the surrounding skin unaffected.

In addition to general and surgical dermatology, we provide a variety of services

to enhance your skin. For skin rejuvenation, we have products and treatments available including Collagen and Botox for fine lines and wrinkles; beta-lift peels to unclog pores, clear up acne and soften fine lines; and microdermabrasion for increased firmness, minimized pores, more even skin tones, and reduced pigment marks and scars. For the treatment of psoriasis and vitiligo, we have available the Narrow Band UVB as well as PUVA light treatment. Botox injections are also available for treating hyperhidrosis.

The doctors in our practice, **Dr. Susan Liebovitz, Dr. Patricia Ledwig, Dr. Leslie Beaird and Dr. Alka Madan**, are all board-certified dermatologists who continually strive to provide the utmost in quality dermatologic care in a caring, friendly atmosphere.

Please call our office, **1-847-884-8096**, for additional information or to schedule an appointment.

Sorting Through Dental Technology: Part IV

by James T. Gavrilos, DDS

Over the last three months, I discussed how new technology, new techniques and new materials constantly challenge the dental profession. Sorting these out and selecting the best is a perpetual endeavor for any quality dentist. I discussed the advantages and disadvantages that lasers, digital X-rays and shade matching systems have brought to the dental profession. This month, I would like to review metal-free restorations.

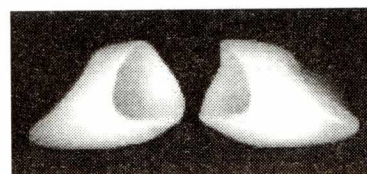

Ever notice someone with a crown or cap on his or her tooth and a dark gray area at the gumline? This gray area results from metal that is underneath the porcelain. For over 20 years, dental ceramic manufacturers have marketed metal-free crowns to dentists. But the problem has always been durability. The metal-free crowns fractured easily and did not fit on the prepared tooth as well.

Now there is a new system called Pro-

cera that cures these problems. Instead of having a metal support, the crown has a white cast support that is as strong as metal. Not only is it white, but it also has translucency. This allows light to shine through the crown in the same manner as it shines through a natural tooth. The crowns can be made with the same strength as the ones with metal and no ugly gray areas result.

If you have any crowns that have a dark gray area at the gumline, ask your dentist if you are a candidate for having it replaced with a Procera crown. You'll have one new reason to smile.

To find out about metal-free restorations, please contact **Dr. Gavrilos** at **1-847-381-4040** for an appointment.

Beautiful Exterior Architecture Attracts Buyers to Brookstone

Even though the inside of a house is very important, it's the outside that gives visitors their first impression. Creating curb appeal plays a primary role in the home design process. Partners Rick Bouchez and Steve Day are building **Brookstone**, a community of 15 one-of-a-kind custom homes on one-to-1¼-acre wooded homesites next to the forest preserve in southeast Long Grove. The builders pride themselves in creating beautiful exterior environments where the back of the home is just as spectacular as the front.

"We call it pool appeal," said Bouchez. "Most of our homeowners spend their leisure time enjoying nature from their backyards; they desire exterior elevations to be not only functional but also dramatic. We provide exceptional rear design so that our owners will love what they see from their pool or backyard."

With the opening of Phase II, there are seven homesites that back up directly to the 400-acre forest preserve.

Setting the backdrop for these unique Old World residences, the Buffalo Creek Forest Preserve provides a haven for outdoor enthusiasts with its bike paths, walking trails and two lakes stocked with fish. Homeowners can enjoy fishing, kite fly-

ing, bird watching, wild life photography and just plain deer watching.

"Most of our buyers love the outdoors so we provide them with amenities that allow maximum outdoor exposure in a highly comfortable setting," said Day.

Elegant oversized balconies extend off the master bedroom, brick paver heated patios, year-round firepits, outdoor fireplaces, compact exterior kitchens, heated and screened sun rooms, all serve to make the outdoors an extension of the home.

Brookstone boasts impressive homes with European country architecture reminiscent of a French chateau adorned with brick, stone and stucco and highlighted with limestone accents. Sumptuous bedroom balconies enhanced with limestone balusters are large enough to accommodate a couch, rattan chairs and a table. An octagonal turret houses a breakfast room on the first level with an 8-foot whirlpool hot tub perched atop, creating a master bedroom balcony that's relaxing and functional at the same time.

The unusual rolling terrain of the land affords most homes walkout or English basements allowing greater access to the forest preserve setting. For more information, call 1-847-537-8459.

The Many Benefits of Sauna

"Old Finnish proverbs consider sauna to be the 'medicine of the poor, the hospital and of Finland,'" according to *Spa and Sauna Magazine*.

"Saunas promote the perspiration of body toxins, stimulate circulation, increase body metabolism, keep skin glowing and youthful and alleviate sinus congestion due to colds, asthma and allergies.

In fact, many feel it's one of the most effective detoxifying treatments available.

Today, in many research laboratories around the world, saunas are being tested as therapy for chemical poisoning. Because of the mental relaxation saunas are able to induce, it's said to be the perfect environment for intimate conversations with spouses, friends and children," *Spa and Sauna Magazine* continues.

For more information about the benefits of sauna, see **Swanson's Spas & Saunas** on Rand Rd. in Lake Zurich.

Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Residential films are now backed by a manufacturer's lifetime warranty. Solar Gard, Sun Gard and 3M films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, pictures, etc.

Solar Gard, Sun Gard and 3M also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning less money going to our favorite people (electric co.) and remaining in your pocket.

Window film also increases safety with pressure sensitive adhesive. The adhesive

bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, or burglar, making glass shatter resistant.

Glare-Not Inc. has provided savings and security for 11 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard, Sun Gard and 3M films are backed by a manufacturer's lifetime residential warranty. Many locations are tinted by **Glare Not**, including: Brach's Candies in Chicago, Avon Corp. in Morton Grove, two Ace Hardware corporate offices, four Armcore banks, First National Bank of Chicago, plus 1,000's of homes. Spirit of Giving Tremendous in Wynstone Community

Members of the Barrington Auxiliary Chapter of the Infant Welfare Society of Chicago and clients of the Infant Welfare clinic deeply appreciate the spirit of giving shown by the Wynstone Community.

On behalf of the Infant Welfare Society of Chicago, Barrington Chapter member Donna McQueen held a neighborhood coat drive in the Wynstone community on Saturday, Nov. 1. And the response of Wynstone residents was remarkable. Over 400 new and gently used items, including winter coats, clothing, hats, scarves, mittens and boots, were collected.

Collected items will be delivered to the Infant Welfare Clinic located on Halsted Street in Chicago. The Infant Welfare clinic has been providing comprehensive health and dental care, as well as psychological care, for families of the working poor in and around Chicago since 1911. The Barrington Auxiliary Chapter was founded 60 years ago and continues to this day in the spirit of volunteerism for those in need.

The Barrington Chapter is open to new members. For further information, please call Cindy Zipparro, membership chairperson, at 1-847-277-9392.

The Service Club of Chicago's Annual "Day in the Country" Features a Fashion Extravaganza on the Grounds of Hidden Ponds, an Elegant Barrington Hills Estate

July 30, 2003, was a gorgeous summer day. A steady stream of beautiful ladies from near and far, sporting fabulous accessories and matching hats, drive down a seemingly endless drive, valet their cars, and venture amidst picture-perfect ponds, waterfalls and a view that doesn't stop, to cocktails and conversation by a pool that draws a curious look as you note that the myriad of swimming fish are automated! Dede Wamberg's fabulous and newly constructed country home, named Hidden Ponds, is full of surprises! Poised below, a beautiful terrace was decorated and waiting for the show of shows to begin. Umbrella shaded tables dressed in lively flowers and numbers tied with ribbons high on the pole runways ready and waiting, it was the perfect backdrop for the Service Club of Chicago's Annual Day in the Country fashion show and luncheon!

Art deco fans fluttered. All guests had received "Let's Get Clubby!" fans promoting The Service Club of Chicago's upcoming 113th annual Benefit Ball, "Rendezvous at The Stork Club!", to be held at The Four Seasons on Nov. 7. Rumor has it that it will be transformed into an exact replica of the original club! Highlights include Stanley Paul's Orchestra and the honoring of Hazel Barr's service to the organization. Speaking of which...

At promptly 11:45 a.m., Hazel Barr cascaded out onto the runway wearing an exotic black ruffled flowing silk creation

as only she can, and announced to Chicago society's best, "If it gets too warm, go in the pond! We are dressed to thrill! Let the fashion show begin!"

Over 200 guests—this coveted event sold out—having ventured down the hill to the magnificent terrace setting, were now seated and listening to the exotic drumbeats and music by Avron as Hazel announced "Happy Birthday to Dewi Rudnick. We wanted to give a 'little' party for your birthday. What do you think?"

Truly an extravaganza, the show featured clothes by Burberry, the Worth Collection, Yolanda, Ralph Lauren, St. John, Hana K and Starr Couture! Coordinated by Tracy Terrantino of ZZAZ productions, models began to sashay out to a strong rhythmic beat.

"Exciting! Brilliant! Wonderful! Colorful! Burberry on Michigan Avenue. No more black!" And then as only Hazel can advise, "Short skirts are in! If your legs aren't good, forget it!" Marilyn Hayden in purple, Lori Daniels in a chartreuse trench, Gregory Hyder (director of catering at The Peninsula) was "Mad for Plaid".

"Darling, the quality is good and you know it is all woman-owned," Hazel announced as The Worth Collection paraded color and leather. Yvette Cusack who brought the collection made an elegant entrance. And Mamie Walton, a benefit chair, sizzled as the lady in red leather with matching lipstick!

"She makes silks exciting! Yolanda!"

Enjoying the "Day in the Country" at Hidden ponds in Barrington Hills are: (standing, from left) Anne Gross and Grace Killoren of Inverness, Sue Guernsey and Marilyn Hayden of Barrington, (seated, from left) Betty Brown of Elgin, and Kim Keller and Judy Kelley of Barrington.

as Sherrill Bodine, also a benefit chair, was gorgeous in green! Susan Gohl then floated by in an exotic leopard silk. "Yolanda understands sexy clothes" as Cookie Cohen and Nancy Kelley sauntered in silk.

"Ralph Lauren: everybody's wearing boots!" as Camille Rudy strutted out in sheer suede pants. Stanley Paul was handsome as ever. "He designed special music for our party but... it's a secret," Hazel teased. Then came Bunky Cushing, everyone's man about town, and then "Wow look at you! I think so," as Gregory Hyder made his entrance.

"St. John—This year's must have is white chiffon!" Diane Kingwell, darling in mint and black, and black and white chiffon floated everywhere. Gorgeous!

"Think outerwear!" as sheared sable and mink by Hana K strode out to a strong beat! "Think short, short, short!" Kathy Cook was cute in a snappy chinchilla; Petra Minoff modeled a sumptuous reversible broadtail; our fearless leader Andrea Bacon, president of Service Club, was luscious in mink with lynx; and Dede Wamberg, our gracious hostess, escorted by Stanley Paul, charmed the crowd in an exotic chinchilla 7/8 coat!

And then, "The finale!", Starr Couture of Barrington's collection of beautifully original, hand-crafted European apparel. A stunning cashmere collection from Milan featured fur-trimmed coats with matching

slacks and sweaters. And Diana Foran was scandalous in a drop dead scarlet satin evening gown by Pries Art of Chicago, designed especially for this "Day in the Country," stopped the show!

Guests turned their attention to savoring a sumptuous creation of Froggy's. Beautiful women toured the beautiful grounds. It was a day to remember. But then with Hazel Barr at the helm, aren't they all? Hazel emphasizes that, "The event is not just fabulous, it raised over \$20,000 as well!"

The Service Club of Chicago proudly stands as the oldest woman's philanthropic organization in the Chicagoland area and continues its tradition of "helping wherever the needs are greatest," providing grants to health, educational, cultural and welfare organizations throughout Chicago and the outlying areas. Every dollar raised goes directly to those in need, as Service Club uniquely has no paid staff and is member supported. Last year's benefit raised over \$230,000 which was distributed to 23 area agencies!

This year, the 113th annual benefit themed "Rendezvous at The Stork Club!" will be held on Nov. 7 at The Four Seasons Hotel in Chicago. The night will feature cocktails, dinner and dancing to the Stanley Paul Orchestra along with many surprises. For more information about The Service Club or the benefit, please call 312-603-6237.

Marilyn Hayden of Barrington models a fashionable Burberry trench and stunning chartreuse clutch during Service Club of Chicago's annual "Day in the Country."

Dede Wamberg, who graciously provided her Barrington Hidden Ponds estate for Service Club's "Day in the Country," charms the crowd in an exotic 7/8 chinchilla escorted by Stanley Paul.

Art Associates Special Valentine's Program

Named after St. Valentine, a priest in Rome during the third century who was executed on Feb. 14 for preaching Christianity, Saint Valentine's Day is a time to exchange tokens of love and friendship.

Letters, poems, songs and expensive gifts have expressed love throughout the centuries. The oldest paper valentine, written in 1415, is kept in the British Museum. The first printed valentines appeared around 1800. By 1815, when the cost of mailing a letter in the same town dropped to a penny, Feb. 14 became one of the busiest days for the post office. The loveliest valentines were made between 1840 and 1860 when Queen Victoria ruled Great Britain.

On Jan. 15, 2004, the annual luncheon and lecture of the Barrington Community Associates of the Art Institute of Chicago will feature "Love's Messenger, Valentines in the Victorian Era."

Paper lace, hand-painted birds, hearts or flowers, and carefully handwritten verses enhanced the beauty of Victorian valentines. Famous Victorian valentine makers Jonathan King and his wife, Clarissa, produced expensive valentines. The King Co. had a special room where customers could select their valentines in private. English artists Catherine "Kate" Greenaway and Walter Crane designed valentines for Marcus Ward and Company. Choosing and sending valentines in Victorian England allowed men and women to express romantic feelings they rarely uttered out loud.

Debra N. Mancoff will use examples from the Art Institute's extensive collection to reveal "Love's Messenger." Debra is the author of *Treasures from the Art Institute of Chicago*. She is an independent writer and curator, currently based at the Newberry Library of Chicago. After receiving her doctorate in art history from

Constant Mayer, American, 1829-1911, *Love's Melancholy*, oil on canvas, 1866, 20 1/4" x 14", restricted gift of Mrs. Herbert Alexander Vance, 1994.6. Photograph ©1994, The Art Institute of Chicago, All Rights Reserved.

Northwestern University, she taught at the School of the Art Institute, Northwestern University and Beloit College. Author of several books on French impressionism as well as Victorian art and culture, she lectures throughout the United States and England.

This special event at the D & J Bistro in Lake Zurich will include a social time at 11:00 a.m. and lunch at 11:30 a.m. The lecture follows at 1:00 p.m. The cost for members and nonmembers is \$45.

Totally New—From Top to Bottom by Tamara Tabel

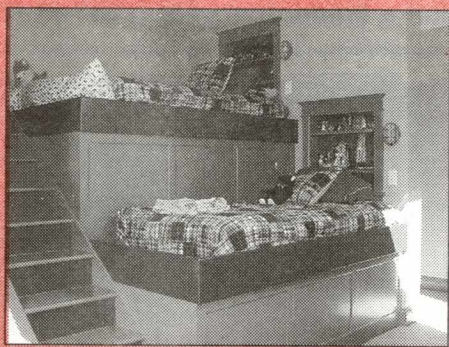

Ann and Brian DeMay wanted to change more than a few things about their Palatine home. They needed significantly more space, and wanted the new floor plan to be more conducive to entertaining and to the needs of their two sons. Their plans included a new great room, a totally remodeled kitchen, an office for Brian, reconfigured upstairs bedrooms, a remodeled master bath, a full basement and a new attached garage. Sound like a pretty tall order? Not for **Delta Renovations** and **Barrington Kitchen and Bath Studio** of Barrington. They were more than up for the challenge.

Mark Zurek of Delta Renovations took the lead in the extensive renovation of the DeMay's house, which more than doubled the size of the home—from 1700 to 3600 square feet. By expanding up and out into the back yard, the DeMays were able to add an expansive, two-story family room and a unique, octagon-shaped eating area. A new office was also added for Brian. Additional footage was created by adding a full basement underneath.

The upstairs changed considerably, as well. To make better use of space, three smaller bedrooms were converted into a loft and an expanded bedroom for the DeMay's two young boys, while a totally new bedroom was added over the garage.

Ross Gerami of Barrington Kitchen & Bath Studio worked closely with the DeMays and their design team to achieve a kitchen with modern amenities, but with an Old-World influence. The choice was pine cabinets and a slate floor, with special custom details, such as a tin-paneled door, a "hidden" refrigerator and 150-year-old ceiling beams, adding to the charm.

Additional custom details added a personal touch to other areas of the home, as well. **Mark Zurek of Delta Renovations** designed and built cabinetry in Brian's office, a bookcase in the upstairs closet, and fun and functional details for the boys... including raised, staggered bunk beds, built-in dressers (to capitalize on the truncated space created from the gable roof line), and an entertainment center in the boys' loft.

Custom built-ins, like these bunkbeds in the boys' room, add a personal—and practical—touch.

And, as the final change in the DeMay home, the lower-level master bath was totally remodeled, including the installation of a slate shower stall with glass doors, a marble-topped double sink and lots of new cabinets.

But in spite of the extensive nature of the changes, the underlying character of house stayed the same—rustic and casual. Just the feel the DeMays hoped to achieve.

"I love our house," said Ann DeMay. "Everyone's work was superb. We got everything we wanted—I don't have any regrets."

If you're considering a change to your home—no matter how big—talk to the experts at **Barrington Kitchen & Bath Studio** and **Delta Renovations**. Just call **847/381-3084**. They'll help you transform your home from outdated to outstanding!

The new open floor plan features a new kitchen with Old World charm...and an octagon-shaped eating area with turret ceiling and lots of light.

You can expect a level of service at **Wickstrom Ford Lincoln Mercury** that meets or exceeds your expectations. Our family takes great pride in the type of employees we have on our team.

As an example, I'd like for you to hear about Mike Wilson from our Ford store. Mike went the extra distance this week for a customer. He noticed a stalled GMC truck on Northwest Highway. It's Mike's "can do" attitude that makes him a valued member of

our service team, and he's been with us since 1999.

Stop by **Wickstrom Ford** or **Lincoln Mercury** for a Fall Maintenance Special. With the leaves gone, it'll only be little while before the snow flies! Make sure your vehicle is ready for the winter!

The Eyebrows

the depressor group to lower the eyebrows. Unfortunately, its muscle activity comes with a price; the unwanted longer horizontal creases that form across the upper two-thirds of the forehead. These deep wrinkles result from a conscious or unconscious effort to lift the descended brow skin off of our eyelids, raise our eyebrows to their more natural position and clear the obstructing skin from our lateral fields of vision. Anatomically, these visible wrinkles form when the connections of the underlying forehead muscles to the overlying forehead skin are tightened when the muscles contract.

The browlift or forehead lift procedure is designed to arrest and reverse signs of the aging process in the forehead region while providing a more complete and harmonious rejuvenation of the face. An older method of browlifting, called the open or coronal browlift, was performed by cutting the scalp from ear to ear, physically peeling the scalp down off the skull and removing portions of the scalp in an effort to raise the eyebrows. Many patients were unhappy for several reasons: recovery time could be long; patients were left with a permanent large incision that was unacceptably noticeable to them and their hairstylists; their hairline was now in an unnaturally high position; many experienced temporary or permanent hair loss (alopecia); and many people ended up with an unnatural appearance of their eyebrows that left them looking sad or surprised.

A newer technique, called the endo-

scopic or limited-incision browlift procedure, is performed by aesthetic plastic surgeon **Gregory M. Bazell, M.D.**, at **The Aesthetic Plastic Surgery Center of Barrington**. With the use of specialized instruments and a very small surgical camera (called an endoscope), this technique involves giving the entire forehead region a smooth appearance, getting rid of all the forehead wrinkles, eliminating the outer upper eyelid skin overhang while uncovering the natural upper eyelid crease, surgically removing the unwanted depressor muscle group and restoring the eyebrows to their normal location thereby leaving them with a natural appearance. The surgical incisions are less than a half an inch long and follow the direction of the hair follicles so they are virtually undetectable. No scalp tissue is removed so that the hairline position is not changed and hair loss does not occur. This technique allows for the precise shaping of the eyebrows so that unnatural appearances and shapes can be avoided.

"I think the fear that people have when presented with the prospect of a forehead lift are the misconceptions that it is an extensive procedure with a long recovery time and that they will be left with an unnatural look," states Dr. Bazell. "In reality, my method of endoscopic browlift carries with it probably the least recovery time of all the aesthetic plastic surgery procedures that I perform. The results are immediate; there are no dressings or wraps; people are able to wash and style their hair as they wish starting the next morning; and

The Barrington Area Council on Aging, Inc., and the Barrington Park District will have Lunch and a Movie at Langendorf park on Wednesday, Dec. 17.

Lunch will be served at noon. Following the meal, the movie *Christmas Va-*

patient satisfaction is very high. They love looking happier, brighter, less tired while still looking like the younger versions of themselves. I talk to a lot of hairstylists who are equally impressed with the natural appearance of the results and the near imperceptibility of the incision."

The endoscopic browlift procedure is an outpatient procedure performed under local anesthesia with a small amount of intravenous sedation. It can be performed alone or in combination with other aesthetic plastic surgery procedures, most commonly upper eyelid surgery (blepharoplasty). The procedure itself usually takes only one to one-and-a-half hours to complete. Swelling and bruising are minimal. And most patients take very few pain pills following the procedure; in many cases, patients take none at all.

Subtle signs that a forehead lift may greatly improve your appearance are:

- People say that you look tired or sad when you are not.
- People ask if you are mad about something or if something is bothering you.
- You find yourself optimizing the appearance of your face while looking in the mirror by subconsciously raising your eyebrows or physically raising them with

your fingers.

- You aggressively tweeze your eyebrows so that they appear higher or more arched.

- You wear your hairstyle, especially bangs, to hide the appearance of your forehead.

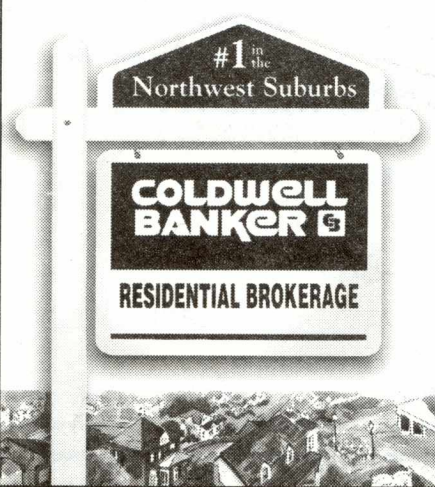

- You are dissatisfied or cannot get the look you want with Botox to the forehead region.

The endoscopic browlift and other aesthetic plastic surgery procedures for the face and entire body are performed routinely and safely by **Gregory M. Bazell, M.D.**, at **The Aesthetic Plastic Surgery Center of Barrington**. Dr. Bazell is committed to comprehensive patient education to assist you in making informed, confident decisions. A natural appearance, safety, comfort and your satisfaction are Dr. Bazell's foremost goals. If you have an interest in or questions about browlifts or any other aesthetic plastic surgery procedure, you may schedule a consultation with Dr. Bazell by calling Kristen at **The Aesthetic Plastic Surgery Center of Barrington** at **1-847-382-4160**.

Consultations with Dr. Bazell are always complimentary, confidential and individualized to fit your needs in a nonpressured environment.

Second City's New Doors Open Dec. 17

The Second City is proud to announce the opening of its 90th revue, "Doors Open on the Right," on Wednesday, Dec. 17, at 8:00 p.m. at The Second City Mainstage, 1616 North Wells in Chicago.

Directed by Joshua Funk (*Holy War*, *Batman*, *Pants on Fire?*), "Doors Open on the Right" starts local, goes global, and pretty much confirms what we all know anyway—that the new definition of leadership should be: one who stays ahead of the lie and has easy access to scapegoats.

In "Doors Open on the Right," you will get a sneak preview of some new campaign spots for President George W. Bush as well as Democratic challenger Al Sharpton; you'll see the missing link between dinosaurs and CEOs; and how many other theatres will be doing flashy musical numbers about weapons of mass destruction. You won't see that at the Goodman or the Steppenwolf. (Hopefully.)

The cast of "Doors Open on the Right" includes Dan Bakkedahl, Brian Boland,

Lisa Brooke, Liz Cackowski, Antoine McKay and Jean Villepique. Musical direction is provided by Ruby Streak, and the stage manager is Craig Taylor. Aaron Carney designed the set, and the stylist is Tracy Thorpe. Kelly Leonard is producer; associate producers are Robin Johnson and Alison Riley; senior associate producer is Beth Kligerman; and producer emeritus is Joyce Sloane. Andrew Alexander is the executive producer of The Second City.

Tickets for "Doors Open on the Right" are available at The Second City box office at 312-337-3992 or online at www.secondcity.com. There is no drink minimum at The Second City, and free improvisational sets follow the final performance every evening except Friday.

Show Schedule and Ticket Prices

- Tuesday through Thursday, 8:30 p.m., \$17
- Friday and Saturday, 8:00 and 11:00 p.m., \$19
