May 11, 2009

Mr. and Mrs. Willard A. Brown, Jr. 4046 S. Lakeshore Drive Harbor Springs, MI 49740

Dear Mr. and Mrs. Brown:

We write to you as donors to the Barrington Area Community Foundation and because they asked us to. That was a bit of a surprise because we are strong supporters of private philanthropy but of the immediate aid kind—not of the foundation type with a percentage granted each year. But two things about the Community Foundation have struck us:

- They are addressing unmet needs in the community, services not being provided or provided as well as those services could be provided.
- Because they have built up funds and distribute 5% of net assets averaged over 12 quarters, the Community Foundation will be able to grant just about the same amount this year as last year, even though their assets were down 20%. The Foundation can do that by averaging over the years, which has turned out to be a very smart strategy.

We also like the fact that our Community Foundation, even though down 20%, outperformed the average community foundation in the US last year. So, good management and a good strategy.

We will be giving as much as we can this year to alleviate the suffering of those most hurt in our country by this economic downturn. But, we will also give something to the Barrington Area Community Foundation because of the very positive impact the Foundation has had in our community and because there is virtually no other way to give to this type of fund for the long-term good of the whole Barrington area.

If you share some of these views, we suggest you do as we will and take advantage of the enclosed reply envelope. For all who will receive the benefit of your donation now and in the future, thank you.

Sincerely,

Bryan Cressey
