Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

Clear Reflections has provided 20 years of service at the same location.

June, 1996

Dear Reader,

Lots of wonderful events are coming in June to the Barrington Area.

On June 15 the Barrington Chapter of Lyric Opera is planning a gala, *Italian Renaissance Affair*, at the Cuneo Museum and Gardens. It will be an evening of light opera, ballet, dining and dancing. Black tie or formal garden attire, with proceeds benefiting the Lyric Opera of Chicago.

On June 16, Father's Day, the Barrington Area Arts Council will hold the "10th Annual Art Fair." Over 95 artists, including 10 from Barrington and nearly a dozen from McHenry County, will provide quality art. Watercolor, oil, etching, acrylic, sculpture, ceramics, woodworking, photography, fiber, jewelry, glass and more will be represented. The location: downtown Barrington, on Cook and Station Streets. Food vendors will be there should you desire a gourmet treat!

On June 30 the Barrington Area Historical Society will host "Doorways Through the Decades" Home and Garden Tour. Five lovely Barrington Area homes will be featured on the walk: the hunting lodge of the Pullman family (which will be used for the soon to be released movie, "Chain Reaction"), a village cape cod home dramatically remodeled and decorated, the interesting home of a resident artist, a country estate home in Barrington Hills and the stable and coach house on the grounds of the Pullman Huntington Lodge.

Sounds like an interesting month!

Until next time, may all your thoughts be sunny.

With warm regards,
Glenn McMonigal

BAAC 10th Annual Summer Art Fair

Celebrate Father's Day—June 16—by taking the whole family out to share some special time together at Barrington Area Arts Council's Summer Art Fair. Over 95 artists, including 10 from Barrington and nearly a dozen from McHenry County, will provide quality art from which Dad can choose himself a gift that suits his fancy, his office or his study to perfection.

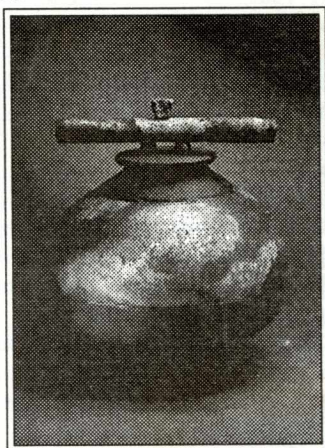

The 10th annual juried art fair will feature the work of over 70 Illinois artists, joined along Cook and Station streets from 10 a.m. to 5 p.m. by over 20 others who come from Wisconsin, Florida, Iowa, Missouri, Michigan, Indiana, California, Ohio, Texas and Minnesota. These artists were selected by a panel of jurists who reviewed the work of over 170 applicants to the fair. Whether watercolor, oil, etching, acrylic, sculpture, ceramics, woodworking, photography, fiber, jewelry (yes, men wear it, too!) or glass is your preference, you will find it displayed for your enjoyment, not to mention buying pleasure.

Booths lining the closed-to-traffic streets immediately adjacent to the BAAC Gallery at 207 Park Ave. will create a festive atmosphere for Dad's special day. BAAC is grateful to the Cook and Station Street merchants as well as the Village of Barrington for supporting our objective of bringing quality art and a festival of fun to the people of the Barrington area, at no charge.

While Mom and Dad peruse the artwork, children can participate in art activities coordinated by Kaleidoscope Gallery and School of Art on Cook Street. Everyone is invited to enjoy entertainment throughout the day, such as the ever-favorite organ grinder from Hoffman's Animal Kingdom, from 11:30-12:30. Young and old alike will appreciate Gretchen Hill with her vocal and guitar renditions of folk songs, blues and jazz from noon to 2 p.m. At 2 o'clock storyteller Scott Smith of Woodstock takes over the entertainment microphone. And depending on his energy level after the Chicago Bulls playoff experiences, Benny the Bull is hoping to fit in a visit to Barrington during the Art Fair.

With all there is to see and do, not to mention the friends one meets for a chat in the street, time flies... and hunger sets in. Food vendors will send the enticing aromas of their fare your way via the summer breezes, and almost any palate can be satisfied by a stop at one of several food sta-

Co-chaired for the third year running by Carol McGregor and Annette Stormont, the Summer Art Fair is partially funded by Illinois Arts Council, a state agency, and partially underwritten by generous donations from Northern Trust Bank and the Barrington Courier-Review. Assisting the co-chairmen are Barbet Dupre, Diane Huff, Joan Quinn, Holly Collins, art coordinator; BAAC Board members Teddi Martin and Michele Reed, and Sherry Hunter Lee, BAAC Program Director.

Artists will be eligible to win "Best in Show," sponsored by Northern Trust, as well as Awards of Excellence and Purchase Awards funded by individual community members and area businesses.

Awards of Excellence are cash prizes awarded to the artist based on the decision of the Art Fair Judge. Purchase Awards of \$200 are donated in advance and applied toward the purchase of an art piece of one's choice, to be selected at the Fair.

For more information on the Fair or if interested in donating an award, please call Sarah Bowers, BAAC Executive Director, (847) 382-5626. And mark your calendar now for Sunday, June 16... the whole family will be glad you did!

BAHS Plans Home And Garden Tour

Standing L to R: Priscilla Rose, Karen Darch and Jean-Pierre Leroux. Sitting L to R: Sally Denison and Sheri Wybel. The committee members are discussing brunch arrangements.

The Barrington Area Historical Society will be hosting its annual "Doorways Through the Decades Home and Garden Tour" on Sunday, June 30, 1995. This year the Historical Society has expanded its tour to include the gardens of the five lovely homes it will be featuring on its walk.

Included on the tour this year is the Barrington Hills home that was once the hunting lodge of the Pullman family. Moviegoers will be able to see the gracious old world charm of this home on the big screen this year. Its interior and exterior were used in the soon to be released Hollywood movie, "Chain Reaction" starring Keanu Reeves.

As a special treat, the historical society will be conveying guests by bright yellow school buses to what was once a one room schoolhouse. Through extensive renovation, the present owner has created a light and airy modern home that captures the original school's unique interior architecture.

Another home which began as a modest cape cod in the village has gone through some dramatic remodeling by its current owners to emerge as an elegantly designed and decorated home. Its vaulted yellow kitchen and spacious soft blue living room will be featured on the pages of a national design magazine this season as well as on our tour.

Another village home on the tour exudes the charm and interests of its resident artist. Each room is bursting with unusual antiques, hand painted tiles and artwork, luscious plants, and groupings of collectibles. The cheery strawberry color used throughout this home is most apparent in the

kitchen where it highlights the pink brick of the exposed chimney.

Also on view is a country estate home nestled in the rolling terrain of Barrington Hills. The floor to ceiling windows look out from its paneled study and gracious living areas onto a boxwood knot garden with a restored woodland behind. The unique timbered entry to the kitchen and its many fireplaces add to its country charm.

The stable and coach house on the grounds of the Pullman Hunting Lodge will be transformed into a boutique for the housewalk. Quality personal and home accessories will be available for purchase from local artisans.

And what could be more pleasant than beginning (or possibly ending) your day in the country with a Sunday brunch at the fabulous Barrington Country Bistro. There are two seating: 11:00 and 1:00. However, seating is limited and brunch reservations must be made no later than June 23.

The tickets for the Home and Garden Tour and the Brunch may be purchased by cash, check or credit card at the BAHS office which is located on the second floor of the Applebee House at 212 West Main Street in Barrington. Ticket costs are \$20 to view the five homes and gardens and \$20 to attend the brunch. The following Barrington Merchants will also be selling tickets, but for the tour only: Ambrosia Patisserie at 710 West Northwest Highway; Iveta's Espresso Bar, 220 South Cook Street; and The Jewel Tea Gallery in the Ice House, 220 Applebee Street. For more information on the Home and Garden Tour, contact the Barrington Area Historical Society at (847) 381-1730.

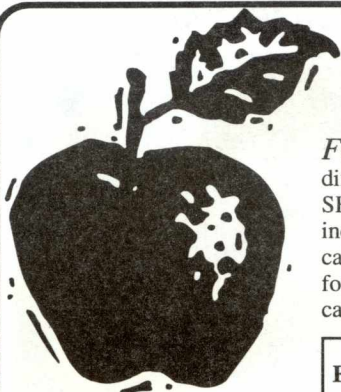

BWC Eclectic Excursion

The new summer opening performance date to see the famous Lipizzan Stallions is Wednesday, June 19. The Barrington Women's Club is fortunate to reserve this date for the Eclectic planned trip to Tempel Farms on Wadsworth Road, the largest stable outside Austria. It is always a stirring sight to see these beautiful Lipizzans perform their intricate ballet. Then on to the Gold Pyramid House. Known as the largest 24-karat gold plated object ever created, the house has

Egyptian furnishings, artifacts, paintings, and a recreated King Tut Tomb. We will lunch at one of the many convenient restaurants.

The bus will leave Langendorf Park at 9:15 A.M. sharp. The limit for reservations is 25, so send your checks for \$35 (made out to BWC) to Rose Holmes, 483 Park Barrington Drive, Barrington, as soon as possible.

For additional information call: 382-1421.

A More Beautiful Face And Body For Summer

We hope summer is here, it has been a long cold winter. Now is the time to adjust our skin care program and make-up.

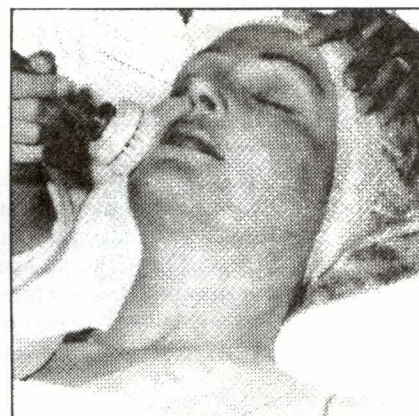

The first thing to start with is always skin care. All the make-up in the world will not cover bad skin. Let us start with cleansing. Our first step would be to see your Esthetician at **Syd Simons**. Spend an hour and a half having your skin thoroughly cleansed and exfoliated. I could write 10 pages on the damage of dead cells to the epidermis layer of the skin, and because of this, it is very important to exfoliate your skin.

All of our Estheticians with **Syd Simons** are licensed skin care specialists. They have years of knowledge to recognize skin textures and their problems. We are having great results with **Cellex-C** and, of course, **Dr. Murad's AHA'S**. With the use of these two products we never have to age or have problem skin.

Next, body massages remove toxins from the body, they help break up fatty tissue, and they have a wonderful relaxing effect on the muscles and the mind.

Now on to the nail room for a wonderful pedicure to remove dead skin and calluses, and to have pretty polish put on the nails for your new sandals.

Let me touch briefly on summer make-up. Make-up for summer is much lighter than the old winter look. It is important to always wear sunblock before applying foundation to protect your skin. The eyes

and cheeks are different and very pretty this year. Ask your make-up artist at **Syd Simons** to teach you how to be a master of your own face, with our private make-up lessons. We also do make-up for all occasions. Wedding parties are very popular in our studio.

I will be leaving the 8th of June for the international skin care convention in Las Vegas. I will be learning about the latest products and techniques available. We will be sharing that knowledge with our clients.

Now we have the face, body, and feet in excellent shape. So go out and have a happy, healthy summer. Don't forget about Dad. He would love a facial, manicure, and body massage for Father's Day.

Sincerely,
Cathy Ramstadt, Owner

A Breath Of Fresh Air To The World Of Art Collecting

Imagine the delicate beauty of billowy cotton grass reflected in cool arctic waters. It's the perfect habitat for loons and the lyrical counterpart to the focus of Robert Bateman's newest release, *Arctic Loon and Cotton Grass*. Now on display at **Woodland Art Gallery**, the area's most outstanding art gallery, this very limited edition print is a breath of fresh air to the world of art collecting. Because of its small edition size, it's expected to sell out quickly. Avoid disappointment and reserve your copy today.

Also just released is a romantic testament to the plight of small family farms from David Armstrong. *Mountain Air* is a teller of tales as cider barrels line the lawn in front of a farmhouse that is teetering on the edge of existence. This limited edition print is classic Armstrong and a welcome addition to any collection.

Both works are now on display at **Woodland Art Gallery** along with an outstanding collection of limited edition prints by dozens of other collectable and sought-after artists. And all are available custom matted and framed by the gallery to assure the

integrity of your art for years to come.

Not only is **Woodland Art Gallery** one of the area's most respected and knowledgeable sources for limited edition prints, the gallery also specializes in locating sold out works of art on the secondary market.

Woodland Art Gallery is located at 71-B East Woodstock Street in downtown Crystal Lake. Visit the gallery soon and discover the art worth collecting, or call for a complimentary new release full color brochure.

Open Monday-Friday 9-5, Saturday 9-3. Phone (815) 459-0460. Visa and MasterCard are accepted and shipping is available anywhere.

Can You Imagine Playing 100 Holes Of Golf In One Day?

The Third Annual Ray Meyer Golf Marathon tees off for DePaul on June 17. The Ray Meyer Golf Marathon is looking for golfers who have what it takes—endurance, perseverance,

and guts; men and women who want to make a difference for DePaul.

The marathon will be held Monday, June 17, 1996, from dawn to dusk, at the Tamarack Golf Club, 24032 Royal Worlington Drive, Naperville.

Anyone interested in participating as a volunteer or sponsor (or for more information) may contact Karen Loiacono or Marge Mazik at (312) 325-7534.

The Alexandrite—Birthstone Of June A Gemstone Unmatched In Lore And Mystique

Alexandrite, named after Czar Alexander II, was first discovered in 1831 in the Ural Mountains of Russia. Since then fine Alexandrite has only been found in limited supply in Sri Lanka and certain regions of South America.

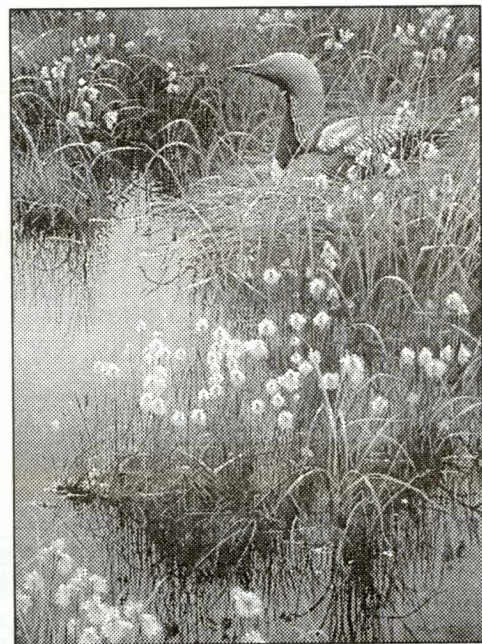

Hundreds of mining pits covered the Brazilian Itabira district Alexandrite deposit during the period of greatest production, from April to June of 1987. About 3,000 prospectors worked over 2,000 square meters to recover Alexandrite from the al-

luvium and from gem gravels about three meters below the surface. This recent find, has produced the most outstanding collection of Alexandrites in the world today.

The beauty of this phenomenal stone is that it appears green in daylight and changes to a reddish hue under artificial light—you might think of it as a Christmas Stone.

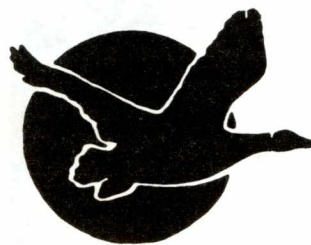

To learn more about Alexandrite, **M.J. Miller & Co.** cordially invites you to view a large collection of this unusual gemstone.

Document The Road To Graduation With A Scrapbook From CLIX

by Gal Friday

So they grew up. I always suspected it would happen. This makes us as old as our parents were when we graduated.

Yikes! But wasn't it just last year that you were playing those endless games of peek-a-boo with them? And now they've graduated and going out to WORK in the real world. (At least, we hope that's the plan.)

The road has been filled with adventures, successes, side-trips, and big moments. And you have all those boxes full of pictures, drawings, poems, ribbons and other mementos. So maybe now's the time to get your act together and put it all in a scrapbook.

At **CLIX photographs & savables** you can custom design your own scrapbook to fit your graduate, whether documenting the big preschool extravaganza, the high school graduation, or the kid who's finally collected enough credits to get out of that university.

Choose from our wide variety of flexible Webway archival (acid-free) album systems, or our unique handmade paper albums.

How about a small photo album of soccer games throughout the years, or church retreats, or longtime girlfriends?

At **CLIX photographs & savables** you'll have choices in many page styles for everything from photos to those odd-shaped pieces of personal history (like pressed prom flowers).

Of course, **CLIX** also has just the thing for the weddings, showers and anniversaries. Our selection of guestbooks and journals, from natural papers to handmade leather, will fit any occasion.

How about fast and easy organizing tips? Let us help. We carry lots of ornamental and archival boxes for filing and storing your collections, and making sense out of your personal mementoes. Get organized. Get **CLIXed**.

It's Pedicure And Facial Month At Total Look

During the month of June, it's pedicure and facial month. The services at **The Total Look** are done by a licensed esthetician. We can design a program for your skin care needs.

Another benefit often overlooked is the therapeutic value of pedicures. After a long day spent on hard floors in dark, cramped shoes, pedicures should become an essential part of a client's health and beauty regimen—just like manicures.

We are offering a June Special for first time clients. We are offering a Cellex-C Facial Toning Mask. This mask is a lightweight topical vitamin C product that im-

Rotary Hosts Norwegian Visitors

Last month, five visitors from Norway visited Barrington businesses hosted for the day by the Barrington Rotary Club. The group, two ladies and three gentlemen were all business people from Norway visiting North/Northwest suburban Chicago through a Rotary Program called the Group Study Exchange. The Exchange provides an opportunity for business people to exchange ideas and information about their business, their lives and their interests with people in another part of the world.

The visitors were here in the area some four weeks and stayed in the homes of vari-

ous host families. While here they visited businesses similar to theirs and saw other local attractions such as JFK Health World.

To reciprocate, the local Rotary District sponsored a group from our area. They left for Norway last week. The group will see how Norwegian businesses operate and they will stay in private homes to experience life in Norway. The group returned on June 2nd.

The photo shows our Norwegian visitors in native costume along with some of the Barrington Rotarians involved in this interesting international project.

Memories Last Forever

The money, property, the things we have acquired, will all too soon be consumed, but if we plan well, memories will last forever. The one item that completely reinforces our memories is a family portrait. Not just a snapshot at a birthday party or holiday, but a well designed and planned professional portrait. Not only is a professional portrait technically well done, but it will tell a story of the family and who they are.

Since 1975, Joe Rush, Master Photographer of **Langdon's of Barrington** has been

doing just that, capturing not only the family image but also the people behind it.

Bursting with color, detail and exhibiting subdued lines and subtlety, Joe's portraits are classically chic and sophisticated, minus the trendiness of fad photography, and have passed the test of time.

Langdon's of Barrington invites you to call now—**847-382-5463**—for your family portrait. A family portrait will become a "Portrait Heirloom," transforming cherished loved ones to life through the medium of photography.

Barrington Lyric's "Italian Renaissance Affair"

'Opera al Fresco' In The Cuneo Museum & Gardens

Toasting the success of the upcoming June 15 evening at the Cuneo Museum & Gardens are, from left, Karen Nickel from Oakbrook Terrace; Plastic and Reconstructive surgeon Dr. Eugene Tanski from Oak Brook; and benefit committee member Ruth Kern, Image Consultant, from North Barrington.

Opera al Fresco, Barrington Lyric's gala *Italian Renaissance Affair* will begin at 6:00 p.m. on Saturday, June 15, in the beautiful Cuneo Museum and Gardens in Vernon Hills. The evening of light opera and ballet, dining and dancing will benefit the Lyric Opera of Chicago. Valet parking. Black tie or formal garden attire. \$135 per person. Please respond to Mrs. David Verner, 975 Fairway Circle, Barrington IL 60010.

Guests will be welcomed by Honorary Chairman Mr. Norman Ross, Honored Guests Mr. and Mrs. John Cuneo, Gala Chairwomen Mrs. Charles Ruder, Barrington Hills, and Mrs. David Verner, Lake Barrington. Celestial sounds of harpist Karen Sheahan will fill the air as Cuneo docents provide tours of the historic Cuneo Museum. Guests will enjoy cocktails and canapes while strolling through the many lovely gardens. Natural settings by the pool and veranda will be theaters for the Mark Anthony Trio and soloists soprano Mary LeGere, mezzo-soprano Kathryn

Hartgrove, tenor Richard Gersten and baritone Steve Zebell. Under the direction of Daniel Duell, dancers from the school of Ballet Chicago will perform excerpts from Mendelssohn's *Midsummer Nights's Dream* choreographed by Bruce Wells.

At 8:15 p.m. guests will be "called to dinner" by Laurel Gibson from Crystal Lake, Barrington Lyric's own Brunnhilde, as she leads guests into the magnificent white Cuneo tent resplendent in miniature lights cascading through garden-scaped pedestals, urns and ivy-tiered topiary centerpieces aglow with lighted tapers. Strolling violinist Mark Anthony and tenor Richard Gersten will provide music as the elegant Italian feast is graciously presented.

For information on *Opera al Fresco*, contact Mrs. Verner, Barrington (847) 382-8139.

Your inquiries on Barrington Lyric membership, programs, events and downtown privileges are always welcome! Please phone Mrs. John Totten, Inverness, at 847-202-1753.

Ara Parseghian Benefit

On Saturday, July 13, 1996, Kim Pesavento and Louise Pozzi will be hosting a Benefit Dinner Dance to help raise funds for the Ara Parseghian Medical Research Foundation. The foundation was founded by Ara Parseghian (the legendary Notre Dame football coach), along with his family and close friends, after receiving the tragic news that his three youngest grandchildren were diagnosed with Neimann-Pick Type C Disease, a rare and always fatal genetic disease. It is their goal to fund researchers across the country to identify the defective gene and to find a cure for this deadly disease.

The Grand Ballroom of the Hyatt Regency O'Hare will be the setting for this gala event. The evening will begin with a cocktail and hors d'oeuvre reception, including an open premium brand bar, and will continue with an elegant sit down dinner, international coffee station, and sweet table. Piano music will be provided throughout the evening, as well as dancing to the fabulous Music Plus Orchestra. The evening will also include both live and silent auctions. All proceeds from the Benefit will go to the Ara Parseghian Medical Research Foundation.

Won't you please join us as we honor the Parseghian family on July 13? Tickets to "Reach for the Stars... A Goal for Life" are \$150 per person. For more information or to be included in our guest list, please call Kim Pesavento at: 847-526-2466, or write to Louise Pozzi at: 135 Covington Drive, Barrington, IL 60010.

Chers Amis...

Merci to the 38 people who attended our "Travel to Paris" presentation last month. A most jovial atmosphere prevailed throughout the dinner... a great success indeed... which leads me to organize our next event...

"Food, Automobiles and Camaraderie." If you are like me, the happy owner of an interesting automobile (older, custom, exotic, unique, etc.), consider joining us for dinner that day. Register your car through me, reserve your seats at the table, and voilà! After a short (about ½ hour) rally in the immediate area, including a "check point" for pictures, my staff and I will judge your car (within the category you choose to enter) while you're sipping on the Griot Kir (house cocktail) and mingling with other car buffs or admiring the other autos. (By the way: totally informal!). Then we'll all start dinner (call for menu) and I will announce the winners in each category and offer prizes.

Also present will be two authorities on

cars: Norbert Bries from North Shore Sportscars (specialist in English roadsters) and Bob McKee from McKee Engineering (he has built so many interesting cars, I cannot list them here).

This should make for a fun evening. Please plan on driving your "toy" out of the garage and park it at D & J Bistro for two or three hours; you'll enjoy it, I know!

Seating limited to 45; call now. Cost is \$41.50 all inclusive (aperitif, three course dinner, glass of wine, coffee, tax and tip).

Tribal Education— Toys For Children Of All Ages

Miniature tipi made of buckskin and decorated with natural earth stains and dyed horsehair.

For Native Americans, objects of child's play are more than simple toys. They carry a burden of history, tradition, and practicality. For boys the emphasis has been on hunting and war, while girls have traditionally focused on domestic skills. The connection between the play of a child and the

work of an adult provides lessons of tribal responsibility, self identity and cultural survival.

Michael Schwab, known artistically by his adopted name "Many Horses," blends modern materials with classic designs to recreate art and artifacts associated with Plains Indians. Having recently been blessed with the arrival of a son, Michael has kindled an interest in replicating native toys. The affection lavished on children of the earlier generations has inspired an entire series of toys, miniatures and replicas that will be featured at Tribal Expressions gallery in Arlington Heights in July.

A one-man-show featuring "Many Horses" work will run through July 15. The

show opening will be held on Saturday June 29th from noon to 5 p.m. Michael will demonstrate, on a continuing basis, use and application of natural earth stains and hide glues. His portfolio will also be available for custom orders. For additional information please feel free to call the gallery at (847) 590-5390. This Northern Plains Art, doll and toy show will hang through July 15 and is open to the public at no cost.

Dolls made as teaching toys for children by "Many Horses." The male carries a beaded gun cane. The breastplate is made of porcupine quills. The female wears a Sioux-style dress. Both are made with smoked brain tan buckskin stuffed with buffalo hair.

Children's Summer Theatre Workshop

Barrington Area Arts Council will sponsor a Summer Theatre Workshop for children who have completed grades 2-8, featuring the nationally acclaimed theatre group, "Illustrated Theatre." It will be held June 17-21 (Monday through Friday), from 11:00 a.m. to 2:00 p.m. at the Barrington High School, 616 West Main Street, Barrington. Three class sessions accommodating the

various grade levels will run concurrently. An "Informance" (Informal Performance) will be presented at the conclusion of the workshop.

The workshop fee is \$65 for BAAC members and \$75 for nonmembers. Enrollment is limited. Early reservations are recommended. For information, contact the BAAC Gallery, 382-5626.

TRIBAL EXPRESSIONS®

You are invited to an imaginary journey to the Great Plains, where the toys, miniatures, and parfleche containers of "MANY HORSES" unite in tribute to Native culture.

A "Keys" Wedding

by Eleanor Nelson & Sally Hayward, Travel House

Jim and I have just returned from the fabulous Siemon Wedding in the Florida Keys and I couldn't wait to write this article so that I could tell you all about this beautiful area.

The road from Florida City to Key West is called the Overseas Highway, a 126 mile stretch of road that carries you along this expanse of "800" plus islands known as the Florida Keys. Featured on this trip through the Keys are 42 bridges with outstanding aquamarine vistas where you will feel the sky and sea become one.

With an average yearly temperature of over 80 degrees, the Florida Keys are really a perfect setting for everything you could want from a vacation in a tropical paradise. With both the Atlantic Coast and the Gulf of Mexico you will find diving, fishing, boating and golfing activities year round.

The wedding was held at Hawk's Cay Resort and Marina on Ducks Key, a magnificent 60 acre private island with a truly West Indian feel. This hotel really made us feel as if we were on Florida's own Caribbean Island with paddle fans, wicker furniture, tropical plants and ocean breezes.

This resort is a must for those of us who want to get away without straying too far from the mainland. Take some time to find out more about this wonderful place, to experience a lifestyle and atmosphere that exists no where else in the states. Thanks to the Siemon family for inviting us to the wedding and enabling us to experience paradise.

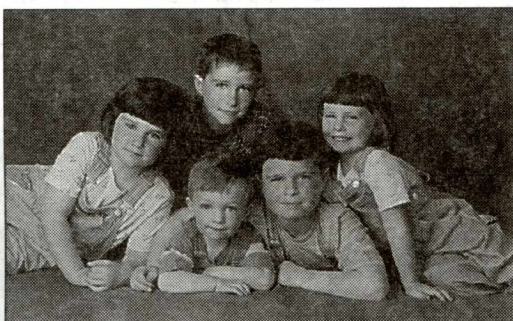

Remember FATHER'S DAY Sunday, June 16th, 1996

To Dad On Father's Day

Dad's a good guy. He fixes all the things around the house, throws out the garbage and reads you bedtime stories. Among all the other things Dads do, doesn't he deserve something more special than the traditional tie, or Father's Day card?

This year why not get Dad a gift certificate for a fine portrait from **Portraits by Thomas**. It will last a lot longer than that tie, and says we love you better than just a card!

"Thomas, I can't thank you enough for the beautiful job you did on the portrait of our children. My husband was thrilled with his gift. And your entire staff was wonderful to work with!"

Barrington Rotary Active In Community Service

As part of a \$10,000 current commitment to the BYS Capital Fund, the Rotary Club of Barrington just delivered a \$3,000 check to Barrington Youth Services. Rotary has been a staunch supporter of BYS since its inception. The Club partially funded the original local Drug Task Force which subsequently became Barrington Youth services.

Also, as is done yearly, the Barrington Rotary donated \$4,000 to Barrington High School to fund four \$1,000 academic scholarships awarded to deserving Barrington H.S. grads.

On another front, the Barrington Club continues to ship donated hospital and school equipment to needy people around the world. Recent shipments were: Dictio-

naries and hospital equipment were shipped to Accra, Ghana; a donated used ambulance was refurbished and sent to Moroleon, Mexico; a semitrailer of used school furniture was sent to Calvary Academy, a school for disturbed children in South Milwaukee, Wisconsin; Hospital beds and other surplus medical supplies were sent to a clinic in the town of Senafe located in the recently independent country of Eritrea.

All of the transportation, labor, etc. attendant to these shipments was donated. So, the Club was able to complete these shipments at no cost to their Charities Account! Rotary is a group of business men and women dedicated to community service at the local, national and international level.

BYS Auxiliary members, Donna Penyak, Sheryl Frankenberg, Denise Vollman and Jane Fitzgerald.

The Barrington Youth Services Auxiliary recently raised over \$85,000 at their fund-raising benefit entitled "BYS Olympiad" held at the Barrington Hills Country Club. Proceeds from the event directly fund BYS clinical counseling services and prevention programs.

"The community came out to support a vital local agency. We're very fortunate to have such a broad base of local support. The work done by the Auxiliary to plan and organize this annual event takes a tremendous amount of time so we appreciate a

positive response from the Barrington area communities," said benefit chairperson, Chris Pepper.

Barrington resident Monte Bauer was awarded the opportunity to represent Barrington Youth Services while running with the Olympic torch on June 3 in Chicago.

IBM donated the torch-run to BYS to award to the BYS volunteer of their choice. Bauer, who once tried out for the Olympics as a child, said he was thrilled to represent BYS in an event that has so much personal meaning for him.

Dental Care And Heart Conditions

by Dr. Raymond Kotz

It is usually impossible to perform dental treatment (even basic cleanings), without causing some minor bleeding which allows bacteria from the mouth to enter the bloodstream. In a healthy patient there is little problem, but in people with cardiac abnormalities the bacteria may inflame the heart valves or heart tissue causing a serious and often fatal disease, bacterial endocarditis.

Fortunately, the problem can usually be prevented by taking antibiotics prescribed by your dentist in accordance with guidelines developed by the American Heart Association. These antibiotics are generally taken only on the day of the procedure, but they must be taken in prescribed doses at specific times.

Persons with poor oral hygiene have chronic periodontal (gum) disease with large numbers of dangerous bacteria present in their mouths at all times. If these individuals also have heart abnormalities they may be at risk even without having dental work done.

Good oral hygiene, regular dental care, and proper use of antibiotics for dental visits will help heart patients stay healthy.

If you have any heart ailments or your health status changes, be sure to inform your dentist and follow the preventive therapy he prescribes.

Dr. Raymond P. Kotz can be reached by calling **847-381-4040** in Barrington.

Nutrition: Key To A Woman's Good Health

by Carol Childers, C.N.

From the teen years on, women's nutritional needs differ from those of men. On average, women typically require approximately 25% fewer calories than men, but need more iron, calcium and folic acid. They also may need to take certain essential fatty acid supplements.

Maintaining proper nutrition throughout all stages of womanhood means starting early. There is strong evidence that osteoporosis is best prevented from the late teens on. Researchers agree that a consistently high level of calcium is needed to prevent hip and leg fractures and spinal de-

terioration after menopause. Vitamin D assists in the proper utilization of calcium. Regular, vigorous exercise enhances bone density, maintains strength and muscle tone, relieves stress and promotes cardiovascular fitness.

Magnesium plays a role in the prevention of major health problems including heart disease, high blood pressure and diabetes. It is also vital to the utilization of calcium and should be consumed at approximately half the amount of calcium. Good food sources are almonds, soybeans, whole

Lifetime Planning While You Are Healthy

by Sharon L. Keller, J.D.

Recently, I have been involved in a case where it was necessary to have a guardian appointed by the court. The process is laborious, time consuming and expensive. With proper planning, everyone can avoid the unnecessary expense of time and money of court appointed guardianship.

An elderly woman, in her nineties fell and was rushed to the hospital where it was determined that she needed surgery. Her only relative was a distant cousin. The woman was incoherent and unable to understand the complexities of her situation. The doctors could not treat her without proper authorization. Since the woman could not authorize her own treatment, the doctors suggested that she have a guardian appointed by the courts. This process took months to accomplish. Because medical procedures could not be performed without proper authorization, she was transferred to a nursing home until a guardian could be appointed.

A guardian is a person appointed by a court of law, after a full court proceeding, to manage the financial and personal affairs if it is determined that a person is no longer able to adequately manage their affairs. Usually, a family member petitions the

court to request that the court appoint a guardian. The court then must notify the person that a petition has been filed and that they have the right to be present at a hearing. In addition, a court may appoint a guardian ad litem to interview the person

New Toddler Program Offered

Barrington Community Child Care Center is a private center serving children 15 months to six years. This neat-as-a-pin facility is 5,300 square feet featuring oversized classrooms with lots of natural light and an environment designed to meet the needs of young children. The facility is also equipped with a large outdoor playground.

Maximum security and safety are very important. The Center has an entry system that allows authorized people to enter the facility through a locked door from the building's vestibule. Sprinklers are installed throughout and smoke detectors are in each classroom, restroom and closet.

The curriculum for the Center is theme oriented and age appropriate to each group of children. Individual needs and the child's unique ways of learning are key in the type

of planning and structure that is presented in the environment. The amenities that are offered are many: "Computer Tots" classes are available as well as "Kids in Action" gymnastics class. Haircuts, by a Barrington salon owner, are offered every six weeks. There is daily communication between teachers and parents, catered lunches, nutritious snacks and flexible scheduling is available. Our staff is highly qualified and continue their education and training on an ongoing basis. No appointment is necessary to tour the **Barrington Community Child Care Center**. Registration is now being accepted for summer and fall enrollment and for the new toddler program being offered. They are conveniently located at 560 Carl Avenue in Barrington (one block west of Burger King off Northwest Highway).

Spark Your Child's Thirst For Learning

Learning can be hard work, or it can be an exciting opportunity. The difference lies in each child's attitude toward learning.

"Nurturing a child's own enthusiasm for learning is the greatest gift you can give," says Dr. Raymond Huntington, founder and president of **Huntington Learning Centers**. "A child who is excited to learn new facts and new skills will continue to be motivated in school, and throughout life."

To get good grades and be successful in school, students must learn academic skills and remember the facts they are taught. But many children are not excited about learning unless they are able to apply the information to everyday life. When they can do this, they see the value of what they are learning and are willing to put more effort into the process.

How can you spark your child's thirst for learning and help maintain that enthusiasm? Dr. Huntington offers the following sugges-

tions:

- **Talk with your children.** Relate new information to knowledge your children already have. Create analogies, look for similarities, make comparisons.

- **Use your daily activities to ask questions** that challenge your children's imagination. Ask open-ended questions, where there is no right or wrong answer.

- **Encourage children to read.** Reading broadens intellectual horizons. The more a child reads, the more a child thinks.

- **Writing**, especially keeping a journal, is a wonderful exercise in support of thinking and learning.

- **Instill the importance of planning**, and the concept of cause and effect. What might happen tomorrow should affect actions and thoughts today.

- **Be a good role model.** Read for pleasure. Also, watch and read the news with

Use It Or Lose It...

Studies have shown that during the three long months of summer, while children are away from the academic learning environment, most tend to become academically inactive, actually forgetting up to 80 per cent of what they learned the previous school year. In fact, educators report that a major portion of September is spent reviewing material that was forgotten over the summer. This is especially true with math and reading skills which are easily lost when not consistently practiced.

Due to this problem, various school districts across the country are investigating year-round learning and some school districts, such as those in Trenton, NJ, Los Angeles, and San Diego have already initiated 12 month curricula and are reporting improved test scores as a result of year-round schooling. According to a report issued by the National Association for Year-Round Education (NAYRE), the year-round idea is spreading. At this time, 3-4 per cent of U.S. students in grades K through 12—approximately 1,650,000—are attending 2,050 year-round schools in 26 states. Unfortunately, not enough year-round programs exist to help all children retain the knowledge to allow for better progress.

This is where supplemental education programs such as the Kumon Method can help children actually progress—not fall back—during the summer months. Kumon

is the largest supplemental education program in the world with over two million students currently enrolled in 31 countries. In North America alone, over 85,000 students are advancing their math and reading skills while boosting their self-confidence and study skills at over 1,200 Kumon Centers.

The Kumon Method works for all children—those who need additional help to master grade-level skills, as well as for those who are seeking enrichment above grade level. Whether the Kumon Method is used for remedial or enrichment purposes, it serves as a valuable supplement to a child's regular school classes. During the summer vacation, there is no better time to start the Kumon program because academic fitness is a year-round effort.

For further information on Kumon Math and Reading Program locations and to schedule a free, no obligation consultation and diagnostic test, please call 1-800-ABC-MATH.

Enhance Nature's Beauty With Landscape Lighting

Landscape lighting is man's way of controlling nature. The perfectly manicured lawn shows the ability of man to work with and bring out the natural beauty of the land. With landscape lighting, Nature's beauty becomes the artist's canvas. Rudy Kruse, president of CFC Nite Lites can attest to this. For four years, he has proven that the beautiful landscape can be as impressive in moonlight as in daylight. Whether the lights are attached to trees or mounted around a landscape highlight, what you don't see is what you get! The idea is to enhance the landscape with properly placed hidden

lighting. "You don't want to see the source—just the effects from it," Kruse pointed out.

An added benefit from landscape lighting is safety. Placed around steps and potential hazards, landscape lighting can be flattering as well as helpful. The placement of lights is true artistry, requiring specialists such as Kruse. Lighting up dark corners, adding interesting highlights to landscaping, or adding soft lighting to decks are but a few of his specialties. Call CFC Nite Lites at 847/658-5469 for your free estimate.

Say "Tree's And Smile"

The Council of Barrington Garden Clubs had a lot to smile about as they put the finishing touches on plans to distribute 675 white pine seedlings to nine District 220 schools as part of Arbor Day. The seedlings are good-sized and should do well in our area. Fourth graders were given planting instructions and discussed the importance of tender loving care for their little tree.

Students learned that the white pine is native to Illinois and is one of 90 kinds of pine trees living more than 50 years and have soft, flexible clusters of five needles. Joanne Larson, Arbor Day Co-Chairman, provided each volunteer with a white pine branch and pine cones for use in the classroom. As the branch was passed among the students, they were able to see the needle

clusters. One teacher added, "this is how you know this tree is a white pine." She carefully took a cluster of needles and said that each needle stood for a letter. Slowly she spelled W-H-I-T-E.

"Arbor Day is always a fun-filled day and a time for learning, no matter what your age," stated a smiling volunteer.

Garden Club participants included: Country Home & Garden—Mary Kuhrtz, Bonnie Kloostennan; Countryside Garden Class—Sallie Gill, Catherine Schulte; Garden Club of Barrington—Pat Ballot, Barbara Reed; Field & Flower—Lauren DeJesu, Irene LaCesa; Green Thumbs—Pam Holste, Daria Sapp; Little Garden Club of Barrington—Dottie Fisher, Linda Baker; Village Planters—Earline Donovan, Barb McIntyre.

Clearbrook's Shining Star Ball Raises More Than \$320,000

L to R: E. Vachel Pennebaker of Barrington, President of Sears Shop at Home and member of Clearbrook's Board of Directors; Carl La Mell, Clearbrook President and Shirley Pennebaker, a member of the Shining Star Ball Committee. Together, the Pennebakers have raised over \$65,000 of the \$320,000 raised from the Shining Star Ball.

On Friday, April 26, hundreds of Chicago-area partygoers showed their support for Clearbrook Center at the Eighth Annual Shining Star Ball held at the beautiful Ritz-Carlton in Chicago. This elegant evening featured a gourmet dinner of rack of lamb, seafood salad and creme brulee. Attendees danced to the wonderful music of the Georgia Francis Orchestra.

Kittie Devers of Winnetka and Harriette Pearlman of Northfield were the chairpersons for this exciting event. "One of the reasons I became involved with the Shining Star Ball was because I was so impressed by both the staff and clients of Clearbrook," reflects Pearlman. "Through the help of the Shining Star Ball and all of its supporters, Clearbrook is able to continue to offer such high quality programs."

This year the Shining Star Ball raised more than \$320,000 for Clearbrook Clinic. The Clinic provides evaluation

and therapy services, behavior intervention and psychological counseling. Through these therapies, Clearbrook provides more service to people with developmental disabilities than many other organizations in the area.

Prizes included an all expense paid trip to the 1997 Super Bowl and NFL party in New Orleans; trips around the world to exciting locations such as London, Paris, Hawaii and Mexico City; shopping sprees, fine jewelry and much more.

Clearbrook Center is a not-for-profit agency serving more than 650 children and adults with developmental disabilities including mental retardation, autism, cerebral palsy, epilepsy and other neurological disorders. Clearbrook provides therapies, vocational training, residential services, children's services and operates 23 facilities throughout the northwest suburban area of Chicago.

We Do Windows!

Bill Schafer—President

Joe Schafer—Vice President

To borrow a phrase from the local PBS TV station, your "window to the world" can be an important asset in your own home. If you're stuck with old, inefficient windows, your outlook could be a lot brighter if you replace them.

Windows come in an infinite variety of shapes and sizes. Do you need a large picture window to improve the light or to frame a view, or do you need a smaller window for privacy? Dramatic effects can be obtained by combining the different shapes, for example a regular-sized window with an arched window above it. Or one regular-sized window and a smaller one on each side.

Instead of the normal rectangular shape, how about a bow window? Or maybe a series of skylights will bring much needed light into an otherwise dark room.

When you think about a window, consider how it will open. Do you prefer casement windows which swing out from the wall, or a double-hung window that slides up to open? Most companies offer an awning window that opens outward and up-

ward from the bottom which is great for ventilation.

What about the glass in your new windows? You can choose "Low E" insulating glass where a microscopically thin metallic coating restricts the flow of heat across the space between the panes of glass. This retains the heat within the house in winter and reduces heat buildup in summer, which is good news for heating and air-conditioning bills. Tempered glass reduces the likelihood of major injury when broken, a consideration with small children and animals in the house. Safety glass, generally used in commercial applications, can be a plus for security, especially when used adjacent to or near a door. Windows are also available that have blinds "sandwiched" between the panes of glass, reducing the maintenance that's necessary with regular blinds.

Whatever your decision on windows, **Schafer Builders, Inc.** can help you decide from among all the options. For new construction or to just replace some windows, call us now at **815-459-1333** and watch your view of the world improve.

Kaleidoscope School Of Art Celebrates Ten Year Anniversary

Twenty years ago, Jill Funk began teaching clay sculpture in the basement of her home in Barrington. This was actually the conception of her dream of an art school for students where they could learn all phases of art.

"When 205 S. Cook St. became available to rent 10 years ago, I knew it was perfect... a home for children in which to be comfortable and feel at ease (not a school situation), a great basement for clay, and in the center of town where children can walk to," comments Funk.

In addition, the school caters to the needs of both the young and old whose creative spirits are seeking instruction and camaraderie in the world of art.

Kaleidoscope also acknowledges the need to award classes for deserving students based on interest and need. Therefore, the Kaleidoscope Scholarship Fund was established. Funds are raised throughout the year through various programs developed by the school.

The philosophy of Kaleidoscope School of Art is based on the premise that art is not limited to a special few... it is for everyone of any age and should be rooted in life generally. Therefore, Kaleidoscope endeavors to introduce children, youth, and adults to the world of art which ultimately will find its place in the values of our culture. Kaleidoscope believes that there are no absolutes in art and that all forms of art are measured only by quality. It is in this search for quality that the artist is, of necessity, the eternal student. Kaleidoscope also believes that it is the obligation of art educators to

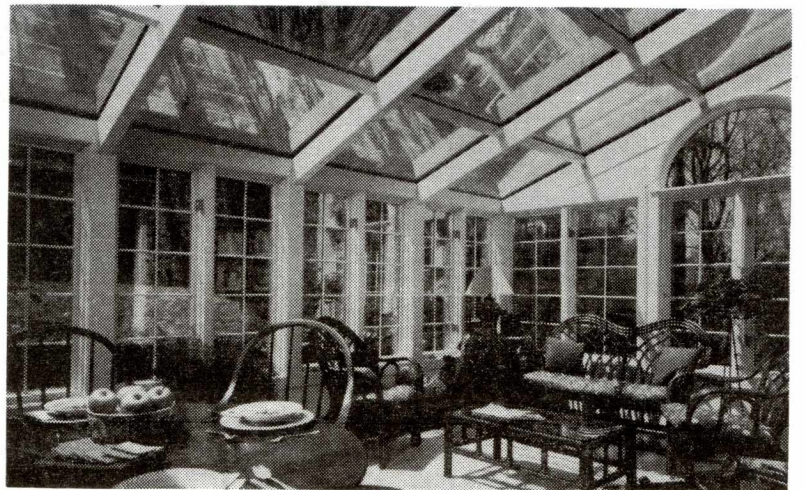

expose the minds and talents of their students to art forms, art history, and art materials through creative exploration.

For the past ten years, the school has been able to provide self-esteem to many students who may not be a top grade student or sports star. It has also provided a therapeutic atmosphere for those interested in the arts.

Kaleidoscope offers varied art subjects taught by individual artist-teachers who maintain the spark and philosophy of invention. The school boasts an impressive list

An Exciting Home Addition

In addition to providing custom room additions with bathrooms, kitchens and fireplaces, **Armcor Design & Build** is your local store for **Four Seasons**, the nation's largest manufacturer of greenhouse/solarium-type room additions for residential and commercial applications.

Each **Four Seasons** product is meticulously designed and crafted to be a practical, beautiful, and exciting home addition that will bring a new dimension of space, light and warmth to what might otherwise be an ordinary room, whatever the season or location of your home.

Armcor Design & Build craftsmanship and quality products are also an excellent investment and can add real value to your home. Often, much of your investment in a **Four Seasons** sunroom can be recovered when you sell your home.

Glass room additions create views of the sun and sky and add extra living space with possibly little or no alterations. HeatMirror®

glass, specially designed to keep summer heat out and winter heat in, is one key to **Four Seasons'** success—especially in our Chicagoland climate.

Many patented features are available exclusively from **Four Seasons**, and all products are designed to meet or exceed building-code structural requirements and have successfully withstood more than 100,000 installations.

Armcor Design & Build will provide you with a complete "turn key" room addition project or you can build it yourself. Every **Four Seasons** greenhouse/solarium product is maintenance-free, weather-tight and comes with a five year warranty on parts and a one year warranty on labor. There are numerous shades options, both wood and aluminum systems, and a wide variety of models and sizes. For more information, phone (847) 358-4860, or visit our showroom at 2001 Rand Road, Palatine.

Fashion Show Fund-Raiser A Great Success

The annual Women's Club of Inverness fashion show, presented by Saks Fifth Avenue, Oakbrook, was a tremendous success with more than 600 women attending. Funds raised will provide \$1,000 scholarships to five college students as well as donations to other local charities. The grand prize of tickets for two to London donated by American Airlines was won by Sue Dyon.

of 23 qualified instructors and offers a full range of classes, including summer art camps.

A lot of hard work and confidence in the success of the school from the start brings Kaleidoscope to this ten-year milestone. Funk comments, "I wholeheartedly thought I'd be here a long time and hopefully the school will be here many more years."

Plans for the school's ten-year anniversary

celebration include a wine and cheese open house on Sunday, June 9, where there will be a display of adult student art work and live music. Guests will also be able to have their portrait taken as a Super Hero, the Mona Lisa or Grant Wood's "American Gothic." The proceeds from the portraits will go to the Scholarship Fund.

Kaleidoscope would like to invite everyone to join them in celebrating 10 years.

Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Solar Gard residential films are now backed by a lifetime warranty. Solar Gard films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, displays, etc.

Solar Gard also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning less money going to our favorite people (electric co.) and remaining in your pocket.

Window film also increases safety with pressure sensitive adhesive. The adhesive bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, burglar, etc.

Glare-Not Inc. has provided savings and security for 9 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard films are backed by a lifetime residential warranty. References are available upon request.

We look forward to saving you money!!! For further details please call (847) 382-8468 or (815) 363-8468.

We clean windows, too! Professional interior and exterior cleaning, light fixtures inside and out—including chandeliers—are services also available.

"Preventative Maintenance"

Cedar shingle roofs can last 50 years and lend a natural, woodsy look to your home. But as with many things, their beauty and longevity require preventive maintenance.

According to Barbara Murry of ISK-Biotech, unless protected from the intense sun and moisture that foster mildew and other fungi, cedar roofs may last less than one-fourth their potential life span.

According to Better Homes and Gardens, cedar must be maintained to last. Sta-Brite R, a water-base preservative, seals cedar shingle wood fibers to repel moisture and prevent splitting and mold. The preservative also shields cedar roofs from the damaging ultraviolet rays of direct sunlight.

For more information about Sta-Brite R and what it can do for your roof, call **RG's Cedar Roof Service, 847-658-5562**.

40th Annual Run for the Roses Benefit 'Unbridled' Success for Infant Welfare

An afternoon of horses, hats and hoopla put the Infant Welfare Society in the winners circle at the 40th annual "Run for the Roses" benefit Saturday, May 4, at the Drake Hotel in Chicago.

The Kentucky Derby fête, chaired by IWS Near North Auxiliary board members Janet Hansen and Karen Fiorenza, featured a sumptuous luncheon, a Derby trivia contest, dancing to the Stu Hirsh Orchestra and televised coverage of the action live from Churchill Downs.

In the tradition of the Derby, ladies donned their finest millenary, resulting in a veritable parade of hats in all shapes and sizes. Lerner Communications Fashion Director Sandy Kagan judged the following guests to have the most beautiful or interesting chapeaus: First place, Betty Crompton; second place, Diane Jacobson; third place, JoEllen Zacks.

Proceeds will benefit the Infant Welfare Clinic, 1931 N. Halsted, which provides comprehensive health care services to 10,000 disadvantaged children and their mothers at little or no cost. The Infant Welfare motto is "no one is denied care due to an inability to pay."

The "Run for the Roses" also served as the launch of the Near North Chapter's

thirty-first fall benefit gala to be held Saturday, October 12, at the new Museum of Contemporary Art. Joan Conway and Sherry Schmitter-Block will chair the fundraiser, which will feature dining, dancing, silent and live auctions.

Lifetime Planning While You Are Healthy

(Continued from page 20)

and determine whether the petition is correct. When the hearing takes place in court, the person has a right to be present and generally testimony from doctors is also required to verify that mental capacity has been diminished.

Court appointed guardians can be family members or friends, but the decision as to who will be appointed is ultimately up to the judge who presides over the case. In some cases, the judge might even appoint a bank, an attorney, or the county social service agency to act as guardian. Once the guardian has been appointed the guardian controls the person's affairs to the extent of the guardian's authority.

You can prevent the court appointed guardianship if you create a durable power of attorney. A power of attorney is essentially a contract between you and another

person of your choice by which you give the other person the legal authority to gain access to your financial affairs. Powers of attorney can only be created when you have the mental ability to know what the creation of the contract means, and you are acting at your own free will. A durable power of attorney remains valid even if you no longer can direct your agent and supervise her actions. Only you can create a power of attorney for you. Thus, if you never had given a power of attorney and you became unable to manage your affairs because of an illness that affected your mental powers, the option would be unavailable to you.

Lifetime planning should be done when you are healthy and do not need another person to make decisions for you. The objective of lifetime planning is to maintain control over your life.

BJWC Spring Show Entertains Record Crowd For Charity

Over 600 ladies were awestruck as "Starstruck," Barrington Junior Women's Club's 9th annual Spring Fashion show wove its magic. The April 20 show, as well as ignite an enthusiastic sellout crowd, raised unprecedented funds that will be channeled to local charities.

The show's financial success was outshone only by sensory delights. Creative touches of Zazz Productions included strobes, fog machines, professional dancers, and intricate choreography to spirited music. A massive runway, underwritten by Nordstrom, showcased the best of spring from near and far.

The show began with the creations of award-winning Harper Junior College De-

sign students, who were awarded monetary prizes by BJWC. The polished production continued with eclectic creations from Barrington's Peter Daniel, Bigsby for Women and Mondie of Northbrook, plus Chicago designer Luba Beloux. What Is A Certified Kitchen Designer?

While there are many designers who "do" kitchens, only a limited number hold credentials as Certified Kitchen Designers (CKD). Jim Walker, a partner at **Barrington Homeworks Kitchen Center**, and himself a Certified Kitchen Designer, says, "CKDs work very hard to help you determine what you really want. The plans they show you, the options they describe, the products they recommend, reflect your individual needs. They remember always—this is *your* kitchen."

From the beginning, the back-and-forth exchange of information with a CKD will reassure you. In your initial meetings, the CKD interviews you at great length to discover how you cook and live in a kitchen space. This is the time to share all your ideas—notes and pictures, too.

In a short time, you will review preliminary designs. Together, you and your CKD will perfect the plan and make product decisions.

The CKD will have final plans prepared for your review—including interpretive drawings so you will see what your new kitchen will look like.

Some CKDs offer a design service only. But Walker is affiliated with **Barrington Homeworks Kitchen Center** and can offer a complete showroom. Both types of specialists submit a clear and complete proposal encompassing all of the work planned. The specifications describe in de-

tail all construction work, cabinetry, countertops, fixtures, wiring, plumbing, lighting. There should be no surprises when you work with a CKD.

CKDs make sure you understand all of your choices during the planning process. They keep up-to-date on new equipment and new construction materials, as well as building codes, safety rules and environmental regulations. They will make sure that your new kitchen meets all standards for safe use by you and your helpers.

CKDs understand budgets and can explain the pros and cons of products as they relate to the required investment. The CKD's sound advice will help you make the right decisions for your new kitchen.

It takes years of training and expertise to earn those coveted CKD initials. It requires the ability to write specifications and draw plans that plumbers, electricians and cabinet installers can interpret. Walker notes that before CKDs can sit for their final exam, they must file affidavits from fellow professionals, letters of reference from past clients, and submit samples of their design work for review by the Societies, the accreditation agency of the National Kitchen & Bath Association.

"The kitchen and bath industry is dynamic," said Walker, "with new products and new technologies constantly being introduced. Keeping up with all this is a responsibility CKDs take seriously."

A Winning Combination

Barrington Kitchen and Bath Studio offers you expert design detail for your remodeling project. What a perfect time to come into our showroom and meet with one of **Barrington Kitchen and Bath Studio's** designers.

We provide a unique "award winning combination". With the personal touch that is offered by our highly trained professional designers and our installations being handled by our sister company, **Delta Renovations, Inc.**, we really do have the best of both worlds for you and your family as you go through this exciting time.

During your planning consultation, our professional team will help design your kitchen or bath and will estimate the project for you. During this estimating process, we are able to work with you to come up with different options in cabinet lines, countertops, whirlpools, plumbing fixtures and other items. This gives you a choice when it comes down to design and price.

The questions that you need to ask your-

self prior to your first visit is 1. What do I really want to gain by the remodeling of my kitchen or bathroom? 2. What budget do I want to try to stay within? 3. Collect pictures from books, magazines on ideas that you've seen that you like. Then come in and let us do the rest of the planning for you!

Once your new kitchen and baths are completed, you'll be glad that you decided to create a new beginning for your home! And in the future when it comes to selling your home, the kitchen and the bathrooms will help you receive top dollar.

We invite you to meet with our design staff at our new showroom located at Route 12 and Lake Cook Road (next to Northshore Refrigeration) at 20066 N. Rand Road Suite C, Palatine, IL. Remodeling is a win-win situation for everyone. Do it!

What To Expect When You Work With Experts:

Why do so many homeowners find the process of remodeling or adding on to their homes so intimidating? "Too much information from conflicting sources," says Mark Zurek, president of **Delta Renovations, Inc.** "The whole process is, by nature, an emotional one because it involves entrusting others with not only money, but with the comfort and security of home and family."

Delta Renovations, Inc. has built its business by analyzing the needs of its clients and finding the best way to meet those needs. Every project presents a unique situation and requires services tailored specifically to that situation.

"One of the best ways I've found to help people through the process is to explain in detail what to expect before construction begins," states Mark Zurek.

If your project is quite involved, you might seriously think about moving out until completed, or plan a vacation for part of the time. If you're planning to live on the premises, here are some tips to help things go more smoothly.

Top priority is good communication! It's the key to preventing most problems. **Delta Renovations, Inc.** makes sure you are kept informed on the progress of the job during

all phases. They encourage you to share your concerns as they arise. Be prepared to expect the project to feel like it's taking too long. There are times, when it seems like there is no progress. Coordinating all the necessary trades is an art; scheduling is approximate.

If you discover what seems to be a major problem, don't panic. Take the time to get all the facts and then call. All remodelers know there will be problems, but a good remodeler knows how to solve them.

Delta Renovations, Inc. does everything they can to answer your questions. "If we don't get back to you right away, we're not ignoring you," says Mark Zurek. "Some answers need a little research or phone calls for clarification." Have your questions down on paper so they can be addressed at a predetermined time with the supervisor or general contractor. This saves everybody time.

As the job comes to completion, write down items that need to be finished. This is known as a punch list. Be sure to put some time and thought into this list, as it will help bring the job to a smooth conclusion.

Now that the job is completed, relax and enjoy your new surroundings!

Kemper Cazzetta, Architects Announce: "Dreamhouse '96"

Kemper Cazzetta, Ltd. Architects in association with Bonner Codd Associates is pleased to announce the presentation and sale of the first annual "Dreamhouse." This luxury home, situated in the Wynstone community of North Barrington, is now available for tour and purchase. "All proceeds from the sale of this home will go to The Children of the Andes Foundation," says John C. Cazzetta, Executive Director of the Foundation for the U.S.

The Foundation was founded by Jaime Jaramillo who is world renown for his work with children and who has built special centers to house, educate and care for children who are rescued from the streets and sewers of Bogota Colombia. "The 'Dreamhouse' concept is just one of our U.S. fund-raising efforts to help raise funds and awareness of this terrible condition, which presently affects over 2000 abandoned street children," says Cazzetta.

"We plan on designing and building additional 'Dreamhouses' each year as an on-

going fund-raising effort; in fact, the next two are on the drawing boards," added Cazzetta. In addition to the sale proceeds, most vendors and subcontractors involved in this project are donating a percent of their services to the Foundation. "For this donation, we are producing a brochure which will highlight this house, the story of these children and all the parties involved. This brochure will be used to market the home and help those involved to get some benevolent exposure," concludes Cazzetta.

To tour this magnificent home, please call our office at 382-8322 to arrange a personal tour. Details on the house and its sale price will be given to all interested parties at that time.

Some families enjoy life more than others. Why? They wake up each day living in the home of their dreams. Yup, each family made a decision when buying the home they chose that it would be a home for all seasons.

During the Christmas Season, we think about the inside of the home and how it offers comfort and adequate space for our holiday parties and special dinners. However, in June we think of the great outdoors. Does your outdoors fulfill your dreams of a family-friendly yard comfortable for those summer picnics or large enough for a pool or tennis court or how about the screened-in porch?

I'm from the East Coast (New Jersey) and miss the Atlantic Ocean and the nostalgia of the Oceanside... so, last summer we put a pond right outside the screened-in porch.

It's a delicious thought, having evening coffee on the screened-in porch, listening to the sound of water cascading from the fountain into the pond. That's my little bit of heaven. Perhaps yours is having your home on a body of water which sparkles in the sun and laps at the shore in the location of your dreams. Does a lakeside location sound idyllic?

Imagine what it would be like to have the outdoors large enough for a Olympic-size swimming pool for family and friends, or a clay court tennis facility or to live in a resort atmosphere where golf, tennis and swimming are right outside the door—making life carefree and easy.

Then develop your team to assure your vision. Ask yourself whom do you need to contact to make these visions a reality? Of course one is a **Prudential Preferred Properties Realtor** and the other might be our Prism Preferred mortgage expert. These two professionals will be happy to give you their assistance and advice.

Pursuing a dream often seems risky. Don't let fear or some annoying obstacle stop you from thinking or trying to attain your dream. Instead, pick up the phone and call **The Prudential Preferred Properties (847) 382-3600** to discuss the pros and cons of different ideas and issues. You owe it to yourself to explore your options now. With us. At the Dream House Headquarters.

P.S. Congratulations to all our June graduates and our June brides and grooms.

Would Your Family Enjoy This?

Summer will soon be here. With it comes carefree days for family fun. Wouldn't a spa on your deck be great? Spas don't have to be hot in Summer. You can have them cool and refreshing. And, on a cool Summer

night, turn it steamy again.

For a spa set in a perfect setting (your design or theirs), call **Swanson Home Leisure Products** on Rand Road in Lake Zurich. Why put it off any longer?

It Doesn't Get Any Better

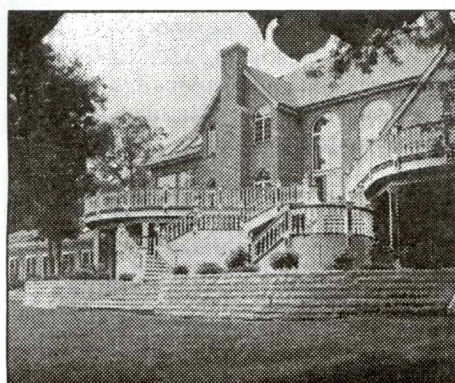

Plan ahead for Father's Day and make it a family gift. Modern home grills are superior. Nothing else has all of their quality features. Grids heat up faster, eliminate hot and cold spots, reduce flare-up and provide a true BBQ flavor. Lasts for years.

Now featured are Weatherproof Nustone solid surface shelves with a beautiful granite pattern. The shelves are durable, easy to clean and FDA approved. A perfect compliment to the highest quality grill available. All aluminum components for rust free performance.

Come in and see them at **House of Fireplaces**, 824 E. Chicago Street, in Elgin.

Now Is The Time To Plan For That Deck

"It's not just a deck," says Larry Kirchner, chief designer and president of **Deck-A-Roo Decks**. "A deck is a pleasant addition to any home and a necessity."

Decks are great investments. If properly built, a deck will give the owner years and years of wonderful use as well as add more to the value of the home than the initial cost. However, an improperly built deck will soon become an eyesore as well as a financial burden on the owner.

At **Deck-A-Roo Decks** every aspect of the deck design is considered: what style will best fit the house; what are the size and design needs of the client; what materials best suit the location and design of the deck;

how the design affects price both now and over the lifetime of the deck; and how maintenance will be affected by the design.

In addition to a proper design, the actual construction of the deck and the follow through of the builder are very important. Questions you should ask: Who actually will perform the work? What quality of material will be used? What construction practices will be used? And, who will service the deck if needed? Larry's favorite phrase. "You get what you pay for, if you're lucky!"

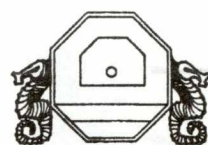

Deck-A-Roo Decks is a full service builder, working with the home owner from the beginning of the design to the final completion of the deck. No subcontractors are used. All employees have been trained to a high level of quality and given the amount of time needed to complete the job properly. Only high quality materials are used by **Deck-A-Roo** as well as new environmentally friendly products. Every deck is serviced promptly as well as courteously.

A special note from Larry: As the summer progresses many people will put off their deck project till the following year. This can be a mistake since they'll sometimes find us just as busy the following

Enticing Edinburgh

Edinburgh has been called Britain's most beautiful city, and with good reason. Most of its Victorian and earlier architecture has been beautifully preserved, with block after block of imposing sandstone buildings and green leafy parks, such as stately Charlotte Square. As you stroll through this historic city, be sure to note the windows that earlier homeowners have bricked in. When Pitt was Prime Minister, he taxed residents on the number of windows in their homes. Now the filled-in windows are called "Pitt's Portraits." You won't find any Pitts Portraits at the Channings Hotel (South Learmonth Gardens), a reasonably-priced but well-run 48 room hotel built from several converted townhouses. Book now if you plan on staying here during this summer's upcoming 50th Edinburgh International Festival (August 11-31), which promises to be a sell-

out. For a free schedule of events, write to the Festival at 21 Market Street. Edinburgh EH11BW, Scotland. For a free Scottish Vacation Planner, call 1-800-882-4653 or **Carlson Wagonlit Travel** in Barrington at 847-381-6400.

Booked for a Cruise

Thinking of taking a cruise but don't know which one? Your travel agent, of course, is an excellent resource. You may also find two guidebooks helpful. In its first edition (1995) "The Unofficial Guide to Cruises" provides a frank appraisal of 40 traditional cruise companies and 120 ships, listing the "best of the best," and each ship's strengths, weaknesses, facilities, and itineraries. Another straight-talking guide is the 1996 edition of "Fodor's Cruises and Ports of Call." Both books are available in paperback from your local bookseller.

Nutrition: Key To A Woman's Good Health

grains and leafy green vegetables.

Four hundred micrograms daily of folic acid during the child bearing years can greatly reduce the risk of neural tube birth defects.

Iron deficiency is the most common nutrient deficiency in the world. Menstruating women need extra iron. A daily dose of easily assimilated iron can help to prevent anemia and to bolster the immune system. Potassium helps to minimize excess water retention. The best sources are bananas, meats, poultry, fish, legumes and

vegetables.

Vitamin E is of value in relieving the symptoms of PMS. It also protects the heart, scavenges destructive free radicals, helps to reduce the risk of fibrocystic disease and enhances the health and elasticity of the skin. PMS and menopause symptoms can be reduced somewhat by essential fatty acids. EFA can also aid in balancing blood sugar and reduce fatty weight gain. The body's blood sugar regulating mechanisms tire with age, thus intake of EFA is even more important when a woman is over forty.

It is important to remember that some students do not have the basic skills to respond to these suggestions.

At the **Huntington Learning Center**, study skills are integrated into specially designed tutoring and enrichment programs. With centers nationwide, Huntington is a recognized leader in the field of education, with diagnostic testing and evaluation to pinpoint a child's weak study areas. Pro-

Huntington concludes, "Parents play a crucial role in their children's academic development. At the **Huntington Learning Center**, we want to help all children achieve their highest potential."

From A Woman's Point Of View

by Gail Wickstrom, Wickstrom Ford

Our Service Director, Lee Liotta became a grandfather last weekend (a doting grandfather). His daughter Lynette worked for us part-time during high school and summers, and she had a baby girl.

Lee, our Service Director, Pat Morgan, our Parts Manager, Doug Olsen, one of our Sales Managers, and Tim and I were the original core that we opened with. We were all in our thirty's then, which was 12 years ago, but now we're all forty something (some of us just barely).

It's a real jolt that we're old enough to be grandparents. Now on the other end there's Doug who is just expecting their second child, so I figure Doug will be in the sixty something category when he becomes a grandparent.

But back to Lee, be prepared to look at pictures of his granddaughter when you bring your vehicle in to be repaired.

I would love to be a grandmother, but

Colin and Richard aren't ready to oblige me yet. I told them I'd like to be a grandmother in this century, but the time is getting short!

Antiques In Country Setting

Approximately 65 dealers will be represented at the **Racine Antiques Fair**, 8 a.m. to 4 p.m. June 30 at the Racine County Fairgrounds in Union Grove, Wis.

Tucked away in the rolling farm country of southeastern Wisconsin, the town of Union Grove provides a gentle, country atmosphere for the show, where lovers of antiques and fine collectibles will find a wide range of items evoking the images of yesterday.

At the May show, for example, Indian Hill Antiques of Grayslake featured duck decoys and boxes of turn-of-the-century apothecary bottles found at a warehouse auction in Chicago. Indian Hill also presented an iron tool box from the mid-1800s that was used to hold firefighting tools and that fit into a slot on fire wagons. Manufactured by the H. Reynolds & Co. of Poplar Ridge, NY and called the "Cayuga Chief, Jr.," it was 14 inches long and 5 inches wide. And, just to prove how diverse their interests are, dealers Peter and Mary McCabe also featured majolica, including a German cake plate and a matching serving plate in a pretty, hard-to-find shade of pink with gold trim.

Beaumont House was back with several collections of turn-of-the-century quarter sawn oak furniture. Dealer Fawna Radewan featured a beautiful library table with drawer and lower shelf, original hardware and gracefully curved legs; a Morris chair with great lion head arms and reupholstered cushions; and a buffet server with curved glass ends for display, three drawers, claw feet and original brass hardware.

Ann and Harry Robinson of Robinson

Antiques, Fox Point, WI, brought lots of blue—flow blue, blue willow, art pottery and primitives—plus pink and gold Haviland, sterling and collectible silver plate flatware (lots of grape) and wonderful Victorian jewelry. Stellar among the jewelry pieces was a booklink necklace with a garnet cabochon locket.

James Filut of Antiquities of Milwaukee brought a bird bath and feeder topped with a *Poll Parrot*. The hard rubber bird was used as a display by the famous children's shoemaker of the 1930s ("*Poll Parrot shoes for boys and girls*"). With a big yellow beak and blue and green tail feathers, the 36-inch (from head to tip of tail) *Poll Parrot* wears its original paint. Filut also featured a signed, all-metal Pairpoint table lamp (1890-1920), with metal shade in the shape of a flower, and a pair of framed New York Central Railroad prints dating back to 1928 and 1930.

These are just a few examples of the quality merchandise shoppers can find at the **Racine Antiques Fair**, where quality merchandise is guaranteed.

Dealers exhibit at both inside and outside booths and the show goes on rain or shine. Admission is \$3, parking free, refreshments available, Take I-94 to Highway 11, five miles west to Union Grove. Fairgrounds is on Hwy. 11, a half mile west of the intersection of U.S. 45 and Hwy. 11.

Remaining dates for the 1996 season of the **Racine Antiques Fair** are August 11 and September 15.

For more information call **1-847-540-7750**.

the finest of fresh produce we receive in daily.

Ordering is very simple. You can either call in or fax in your order, just indicating the item numbers you would like to have delivered. We will give you a total due for your delivery, and you can pay us by check or credit card. The great thing is that you don't even have to be home to accept delivery (around 50% of our customers are not). We can do this because we deliver all of our refrigerated and frozen items in Igloo coolers with ice packs, so even ice cream stays frozen while your groceries await you. The dry products are delivered in waterproof boxes with lids on them. We will work out a convenient place with you to leave your groceries if you are not go-

ing to be home, and they will be waiting there fresh when you arrive. If you are going to be home we will unload them on your counter for you. It's that simple!

This is not a club of any kind, we are simply a grocery store that only delivers. You order when you want (Monday through Friday) and however much you want. We guarantee 100% the quality of all our products. To receive an information pack describing the service, including a complete price book, just give us a call at (847) 726-8897, and we would be happy to send one out to you. Isn't it about time you enjoy your free time and spend your discretionary time the way you want to spend it? Let us help! We look forward to hearing from you.
