## Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

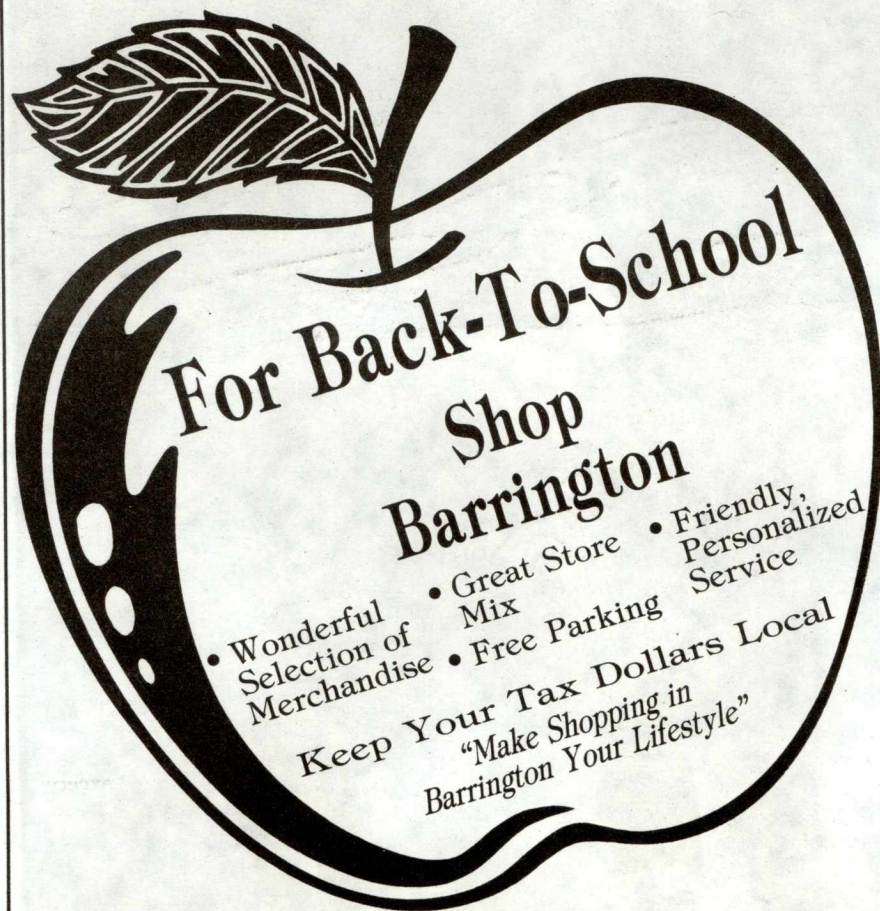

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those tell-tale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 18 years of service at the same location.

## Lyric Chapters Luncheon and Meeting Held At Stouffer Riviere

Nearly 200 Lyric Opera of Chicago chapter members gathered for their annual meeting and luncheon at the Stouffer Riviere Hotel in Chicago on May 2.

After the cocktail hour and silent auction, members were invited into the Grand Ballroom to enjoy a gourmet luncheon of scallopini chicken, polenta and grilled fresh vegetables, concluding with a chocolate box filled with chocolate mousse and topped with fresh berries raspberry coulis. Beautiful spring floral arrangements and gift packages, generously provided by Saks Fifth Avenue, adorned each table.

Chapters' Executive Board (CEB) President Flo Kind, Deerfield, welcomed guests and introduced Ardis Krainik, Lyric Opera of Chicago's General Director, and Farrell Frentress, Director of Development, who congratulated the chapter members on their fine fundraising performances during OPERATHON and throughout the year. Marlene Golden with the Volunteer-of-the-Year award. Nicoline Shields, Riverside, was installed as the new CEB president.

American Airlines was once again saluted for their continued support as the official sponsor of OPERATHON, and presented Lyric Opera with a check in the amount of \$25,000.

The Lyric Opera Center for American Artists brilliantly performed excerpts from *La Boheme*, *Camelot*, *Turandot*, and *Porgy and Bess*.

Attendees included local Barrington Lyric Chapter members (pictured from left): Immediate past president, Wanda Hollensteiner, North Barrington; President Jan Semerad, Inverness; Rosemary Maude, Barrington Hills; and Dorothy Dobrath, Lake Barrington.

## The School House Cookbook

Seven Barrington High School teachers and staff members (Phyllis Kohnke, Tranetta McComb, Richard Nicholus, Patricia Stepank, Jim Stevens, Susan Tomsha, and Terrie VanLeirsburg) have been compiling the "School House Cookbook." This cookbook will be available for the first time at registration in August. It will cost \$7.00 and includes 235 favorite recipes from Barrington High School employees and former employees.

It is the committee's hope that because we've shared so many wonderful recipes with each other over the years, that this cookbook would not only bring fond

memories of favorite friends and teachers in years to come, but also would act as a fundraiser for the Barrington Food Pantry. All profits will be donated to the food pantry.

The Food Pantry serves people in the Barrington School District. Clients are referred by social and government, and friends. Fund request for emergency needs are also considered. All services are handled by volunteers.

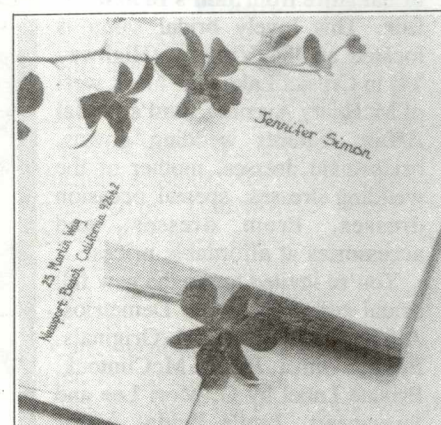

So, remember to look for "The School House Cookbook" at registration and other activities throughout the next school year.

## Alternatives to Summer's Harsh and Damaging Effects to Hair and Body

Let's start with hair treatments: Cellophane conditions hair to enhance existing color, add strength, texture and body while restoring elasticity to prevent breakage. Deep protein treatments will change and add dimension that you're seeking for that natural texture of the hair, and it will help repair damage from summer's sun and wind.

We also feature a special treatment for swimmers hair or hair that has been discolored from well water. After your hair treatment you can enjoy the new hair designs released from The National Cosmetology Association. The Cafe collection, is envisioned as an assortment of shapes that can be cut at a variety of

lengths, on a variety of textures.

A firm foundation cut is essential for the Cafe collection, but allows the design an international scope and flavor. Ornamental pieces of hair, or extensions, can be added to the designs for special occasions and will add excitement.

Let's not forget the need for facials, massage and nail care when you make your hair appointment to complete your summer makeover.

Gift certificates available.

## Governor Pledges Support for Women's Business Ownership Council

Governor Jim Edgar has pledged to create a Women's Business Ownership Council to advise the General Assembly and the Edgar Administration on issues affecting women-owned businesses.

"Women-owned businesses are a vital and growing force in Illinois," the Governor said. "Women are starting small businesses at twice the rate of men, and their success is making a real impact on our economy. We need to do everything we can to ensure that government is nurturing this growth."

"A Women's Business Ownership Council can help us encourage women entrepreneurs by making recommendations and advising state government on matters affecting women-owned businesses. Legislation currently before the General Assembly would create the Council. It is my intent to sign the legislation if it reaches my desk. Should the bill fail to pass, I will create the Council through Executive Order."

House Bill No. 3224 would create the Women's Business Ownership Act. It pro-

vides for a Women's Business Ownership Council within the Department of Commerce and Community Affairs (DCCA) to review the status of women-owned businesses statewide and the roles of state and local government in assisting and promoting aid to women-owned businesses.

The Council would report annually to the Governor and General Assembly on new private-sector initiatives that would provide management and technical assistance to women-owned businesses, as well as ways to promote greater access to public and private-sector financing and procurement opportunities.

The bill is sponsored by Reps. Kay Wojcik (R-Schaumburg), Carol Ronen (D-Chicago), Janice Schakowsky (D-Evanston), Shirley Jones (D-Chicago), Barbara Flynn Currie (D-Chicago), Carolyn Krause (R-Mt. Prospect), Nancy Kaszak (D-Chicago), Frank Giglio (D-Calumet City), John Sheehy (D-Tinley Park), and Gerald Weller (R-Morris).

## Barrington Sidewalk Days Set for August 4-5-6

Barrington merchants are getting ready to move outdoors as they prepare for the Barrington Area Chamber of Commerce's annual **Sidewalk Days** celebration August 4-5-6.

More than 120 sidewalk booths, displays and exhibits in downtown Barrington and along the Northwest Highway business district are expected during the annual sales event.

Chamber members from outside the downtown are coming to the center of town to participate. In addition to business displays, a number of civic and community groups will manage booths downtown.

The League of Women Voters will be registering voters; the Barrington Area Library will be holding a drawing for entertaining and informative books, videos, and compact discs; Friends of the Library will sell paperback books; and there will be free balloons and face paint-

ing to entertain the children.

In addition, there will be a special performance by the Bataille Academie of the Danse on Thursday during the lunch hour at Cook Street and Park Avenue. Lunch time appetites will be satisfied by all kinds of food as local restaurateurs man booths on the sidewalks.

Hours for **Barrington Sidewalk Days** will be from 9 a.m. to 8 p.m. Thursday and Friday and from 9 a.m. to 5 p.m. Saturday.

This year's chairs of the Chamber Retail Committee in charge of the event are Beth Hammond-Johanson (Peter Daniels), Deborah Nejd (B. Chones Hair Design), Gail Andrews (The Canterbury Shoppe), Chris Rusch (Nancy's of Barrington).

For further information, contact Felicia Lathan, Barrington Area Chamber of Commerce, (708) 381-2525.

## Whetstone Awards Author Vincent Lombardo

The Barrington Area Arts Council's (BAAC) literary magazine *Whetstone*, has been presented a 1994 Illinois Arts Council Literary Award for Barrington resident Vincent Lombardo's creative non-fiction work, *Hope Street: Blood Sausage*. This is Lombardo's family story and memoirs of his youth on Hope Street in Chicago's Italian neighborhood.

Companion awards of \$1,000 each were given to the writer and to the publication in which the work was published. IAC

Literary Awards are presented in order to both recognize the creative excellence of Illinois writers and to promote awareness of non-commercial publishing in the state.

"This is the first time I've won an award like this. *Blood Sausage* is the first story I wrote for the Barrington Writer's Workshop when I joined. I wrote it in Fall, 1990," Lombardo said. He is also grateful to the editors of *Whetstone* for submit-

## BYS Fundraiser A Record Success

Auxiliary Members: Debbie Shanfeld, Leigh Furda (Auxiliary President), Patti Cross.

It was no mystery at all that the Friday Services was a record success! This year's May 13th fundraiser for Barrington Youth gala dinner auction raised nearly

\$55,000.00 which will contribute greatly to the special programs and services that BYS offers area youths and their families, particularly drug prevention and intervention programs, counseling services to those in need with fees based on a sliding scale with regards to income level, as well as many mental health well-being programs in all District 220 schools.

Through the hard work and dedication of the Auxiliary's members, the guests enjoyed an evening of comedy and excitement at the Barrington Hills Country Club along with a fabulous meal and fantastic auction items.

The Auxiliary of BYS, with its main goal of increasing awareness of BYS through fundraising activities that benefit the agency, is deeply grateful for the monetary support of several area corpor-

ations, merchants and individuals. Among those that deserve much thanks are: Harris Bank, Stan and Chris Pepper, the Duchossois Foundation, Mr. C. Robert Heaton, Advantis, Suburban Bank of Barrington, Amli Realty, First Federal Savings and Loan, Mr. and Mrs. George Fisher, Mr. Stephan Fossler, The Ice House, Jewel Foods, The Quaker Oats Company, Walgreens, Mr. and Mrs. Thomas Wamberg, Wickstrom Ford, Ridge Capital, and Coca-Cola Bottling Company of Illinois.

And the wheels are already in motion for next years event!

Anyone seeking information regarding involvement with the Auxiliary of the Barrington Youth Services is urged to call Leigh Furda at 304-1605.

## Believe it Or Not, There Is Still Hair In The Scalp Inside The Follicles

Now you may have hair you never dreamed of. No, this new product doesn't claim to grow hair, it claims the hair is already there in the follicles. Dr. Burch Stewart of Applied Consumer Research Labs says in part, "After a couple of treatments, I was amazed to find that many hairs are indeed trapped under the scalp and can emerge after the cleaning process is used."

"For three partially bald individuals—tested for 3 months—a considerable number of hairs appeared. The results were very pleasing for these, and three other individuals, who now have normal mature hair on formerly thinning areas. The full treatment normally requires six to twelve months."

"The inventor of this hair system is Ms. Jacqueline Sabal, who developed the process and the herbal product a few years ago. Based on our testing, I know the system does clean out the follicles and allows hair from the follicles to appear

fuller and thicker.

"I believe that this system is much safer than any other methods such as Rogaine (Minoxidil), or hair transplanting."

The product is called "Foli-Kleen 2000 Formulas", consisting of herbs, formulas and a shampoo.

The nice thing about this stuff is that you don't have to use it forever like Rogaine (Minoxidil). Once you get the hair you want, you quit . . . period. And you only have to use it once a day—at night—and rinse it off in the morning. Some people can, and do use it twice a day, but it's not mandatory. It depends on how fast the client wants their hair to return.

"Foli-Kleen 2000 Formulas" is available at Numero Uno in the Palatine Plaza Center on Northwest Highway.

**No rush guaranteed satisfaction.** If you have not seen fuller, thicker, healthier looking hair within 30 days of receipt of your first order, you may return unused portion of product to receive your refund.

## Help! My Skin Is Dehydrated

Summer is the time to think about your skin care program. We have several elements to overcome: the damage from the Summer sun; the air conditioning; and, always, the hot wind. These elements are very damaging to the epidermis layer of the skin. When this happens, you do not get any penetration from lotions. The skin must slough off.

More attention is needed in your cleansing program. As you know, the most important thing you do to your face is clean it. It is so important to cleanse it properly and to use the right agent for your skin type.

Your licensed esthetician at **Syd Simons** is trained many months to recognize exactly what each skin needs. One of our most effective facials is the Enzyme Peel (for exfoliating). This facial gets rid of surface dehydration, thereby eliminating the sallow look that appears on the skin. It breaks down congestion and leaves the skin smooth as velvet.

Also, our Dr. Murad Rapid Exfoliating Peels go deeper, work on fine lines and totally improve skin texture with an AHA (alpha hydroxy acid). Very effective.

**Syd Simons** has 20 different types of treatment in their facial room. One treatment we have been using a lot this Sum-

mer is our collagen ampule with the pure collagen fiber mask over. The collagen mask repairs sun damage, adds moisture to the skin and helps strengthen the elasticity and can be used on all skin.

**Syd Simons** also has many treatments for oily acne prone skin.

Our facials take about 1-1/2 hours. Women tell us that it is like 1-1/2 hours in heaven.

## Patrick De Gayardon Amidst The Rocks, Into the Void.

What he does when he is in flight is almost incredible. His name is Patrick De Gayardon and he is the champion of all forms of parachuting, with more than six thousand jumps to date. The discipline that fascinates him the most is the Base Jump, the jump in free fall from a fixed base, opening the parachute at the last possible moment. De Gayardon jumps from high rocky peaks and covers hundreds of feet at unbelievable speeds. Chilling flights, almost vertical, for a period of time that seems to never end, and then, finally, the parachute opens. De Gayardon has acquired exceptional control of his emotions thanks to constant training, and also to the desire to push himself further and further. Beyond what is considered possible. With him, ready to meet any challenge, is his Sector SGE 650 Chrono. The features: Swiss quartz movement with date; counters for hours, minutes, seconds and 1/10 seconds; water resistant to 990 feet; sapphire crystal; stainless steel case and bracelet.

Whether the occasion is personal or corporate, the hardest decision about sending a gift basket is the desire to make sure it is filled with special foods and gifts that reflect the personality of the receiver. A sampling of our summer basket collection includes: "Some Enchanted Evening," perfect for anniversary or romantic celebrations, filled with wine or champagne, gourmet treats; "Hearts Desire" violin solo (compact disc/tape); "A Grand Appreciation," a basket overflowing with gourmet treats, exotic coffees, and gifts tailored to the occasion; "A Star Is Born," includes a beautiful white waffle weave fringed blanket that is custom monogrammed with the baby's name and birth date; "Chocolate, Chocolate, Chocolate,"

## Brain Research Foundation's Creativity Awards Honor Three Chicago Couples

Pictured, left to right, are: Martin and Patricia Koldyke, Kenilworth; Hugo F. Sonnenschein, president of the University of Chicago; Desiree and John Rogers, Chicago; and Carole and Gordon Segal, Winnetka. All three couples were honored at the Brain Research Foundation's Creativity Awards benefit on June 15, 1994, aboard the SS Odyssey II. The couples were presented with the Brain Research Foundation's 1994 Creativity Awards, which honors the couples whose lives exemplify human creativity.

Creativity abounded at the recent Brain Research Foundation's "Odyssey of the Mind — Racing Toward Discovery" Creativity Awards benefit. The event was sponsored by the Board of Trustees and the Women's Council of the Brain Research Foundation. 250 guests enjoyed a \$200-a-plate gourmet dinner along with dancing, prizes and shipboard games, while cru-

ing the beautiful starlit Chicago lakefront aboard the Odyssey II.

Mary Smart, benefit chairman, welcomed guests and said, "Your gifts to our benefit go toward the \$3,000,000 pledge to the brand new Center for Molecular Neurobiology at the University of Chicago. Work done there will increase the pace of understanding the secrets of the

According to Dr. Bryce Weir, director of the Brain Research Institute, "The development of the new Center for Molecular Neurobiology is an important advance for the Brain Research Institute. It will enable the faculty to implement new programs and initiatives at the leading edge of the biological sciences. Our scientists are pursuing discoveries that can be taken from the laboratory bench to the bedside." The benefit raised \$25,000.

The Creativity Awards, established six years ago by the Brain Research Foundation, recognize and acknowledge the creative potential of the human brain. John Mabie, chairman of the Brain Research Foundation, presented the first of the 1994 awards to **Martin and Patricia Koldyke** for contributing their creative talents, time and resources toward improving children's education and protecting their lives.

Gwill Newman, vice chairman of the Brain Research Foundation and honorary benefit chairman, presented the second

creativity award to **Desiree Glapion Rogers and John Rogers**, calling them the "Multi-billion dollar couple in their compassion for the community as well as their combined business careers." John Rogers handles \$2 billion through his Ariel Corporation and Desiree passes out prizes of more than \$827 million annually as the Director of the Illinois Lottery.

John McDonough, president of the Brain Research Foundation, made the final presentation to **Carole and Gordon Segal**. "Everyone aboard this cruise knows about the success and merchandising innovation that makes Crate and Barrel sparkle. ## A Family Tradition Since 1920

What family run chocolate manufacturer has been in business the longest in the Chicagoland area? **Morkes Chocolates**, in Palatine, of course. For over 70 years, the **Morkes** (pronounced Mor-Kiss) family has kept busy cooking, dipping, mixing, packaging and serving old fashioned chocolates, caramel apples, and fresh made donuts. Truly a special store, it's uniqueness and family-like feeling has enabled the business to thrive.

Rhonda Morkes, the present owner (and granddaughter of the founder, Bill Morkes), tries to balance the beauty of the past with a vision of the future. Keeping with some of the best recipes and experimenting with new tastes, she tries to offer the public an exciting box of chocolates. However, she refused to ever switch from their blend of pure milk and dark chocolate which covers all the centers.

Last year **Morkes Chocolates** tested out a vision they had and presented a special evening of wine and chocolate tasting. The evening was very successful, so they have decided to make it an annual event. This

year their tasting will be on Friday, August 26th, starting at 7 p.m. and going to at least 10 p.m. An entrance fee of \$10.00 per person or \$15.00 per couple covers the cost of unlimited tastings of the previously tested combinations (many hours were spent in research). Space is limited but reservations can be placed in advance with check or credit card and by calling **Morkes Chocolates** at (708) 359-3454. The **Wine Peddler** of Algonquin will be providing the wines and reservations can be made through them also. Their phone number is (708) 854-2485.

## Combating Arthritis With Exercise

*Dr. Reffell is a graduate of the National College of Chiropractic. As a chiropractor and full primary care physician, he is uniquely qualified to diagnose and treat the aches and pains that arise from daily living. He has an office in Barrington and welcomes the opportunity to meet with you concerning your health.*

Since arthritis makes joints stiff and painful, the natural tendency is to minimize movement. This can simply lead to stiffer joints—and more pain—since inactivity weakens the muscles that stabilize joints.

Arthritis is a group of diseases, most notably - degenerative and rheumatoid arthritis. It can be linked to systematic illnesses such as gout and lupus (systemic lupus erythematosus). DJD or degenerative joint disease is the most common type of arthritis, involving the soft cartilage that makes up joint surfaces. It affects people over the age of 30. There are two different types of DJD. Primary DJD results from normal wear and tear, commonly affects thumb joints and fingers, the neck, low back, hips and knees. Secondary DJD occurs after injury to a joint, from disease, following surgery and from chronic trauma

(due to such problems such as poor posture or occupational overuse).

Both forms of DJD produce little inflammation, while rheumatoid arthritis causes large swollen and hot joints in more than one area.

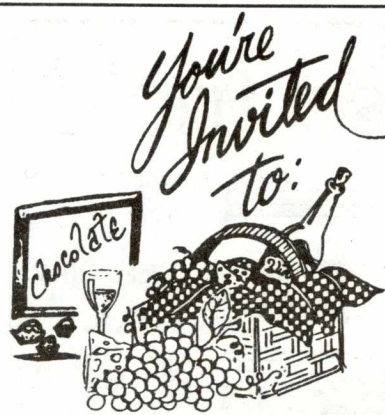

Studies have shown that people with DJD can maintain and restore their flexibility by following a carefully designed exercise program implemented gradually and regularly. Expect pain when first beginning the exercises realizing the discomfort should soon diminish. (If pain continues - cut back and seek professional advice.)

If you are presently experiencing pain, consider seeing Dr. Reffell. He is a physician familiar with diagnosing and treating musculoskeletal injuries and diseases. And before beginning an exercise regimen, consult with a physician to ensure you are able to withstand the rigors of repeated workouts.

Following are three basics to any kind of exercise program.

**Stretching**—helps limber up muscles and tendons, increasing joint mobility.

## Plan Ahead

by Eleanor Nelson & Sally Howard, Travel House

Each year as we browse through the department stores, we are amazed to see the clothes for the next season on sale at least 3-4 months in advance of the season. While we are wearing our winter coats and boots, bathing suits and sunsuits are being purchased by those shoppers who are afraid to wait for the season, for fear their clothes choice will be all sold out.

This is the way the travel industry has begun working. We book travel many months in advance and as the years go by, each season starts to sell-out earlier. For example, if you are thinking about taking a family Christmas vacation, you're late! Space is at a premium, and the choices are becoming limited. Christmas starts to fill up in early spring and each year it seems as if we begin to book Christmas vacations almost as soon as the snow starts to clear. Right now, we should be thinking Winter Vacations and Spring Break. It really doesn't matter if your special vacation is cruising or skiing.

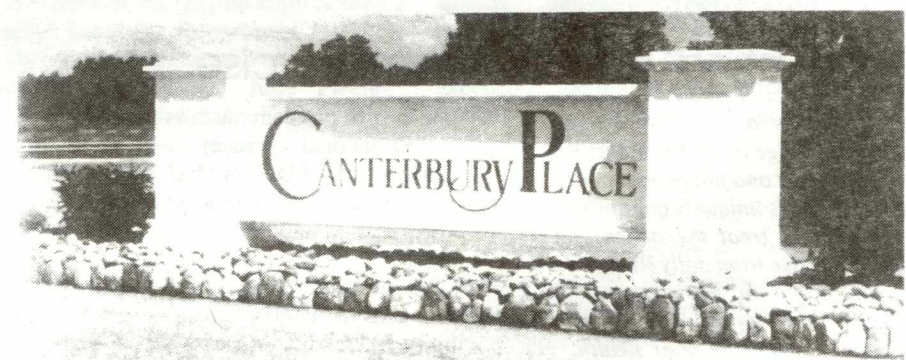

We, at **Travel House**, always try to give our clients the best service possible, and we work hard to help you plan the very best vacation, but the more lead-time you give us to work on your travel plans, the better job we can do for you. Travel is

something that should be planned in advance.

If you know you have a special anniversary coming up, or a special family trip, please come and see us at **Travel House**. Vacations create memories that last a lifetime and we'll do our utmost to help you plan a successful vacation; one that you will always remember. Remember, it's like shopping for clothes, plan ahead and you'll find more available in your size.

**Coming Soon!**

Feast on a scrumptious lunch of roast pork, homemade cole slaw, hickory smoked baked beans, applesauce, homemade rolls, potato chips, lemonade and coffee for only \$6.00 per person! Take some time to browse around **Canterbury's Craft Bazaar** offering tables and tables of unique crafts, trinkets and unusual gifts brought to you by local merchants and the residents of **Canterbury Place**.

The events of the day are scheduled to

begin at 11:00 a.m. with the opening of the Craft Bazaar. Lunch will be served at 12:00 noon. Reservations are not required and tickets can be purchased at the door. ## Thomas Kinkade . . . Painter of Light

Featured at the Studio of Long Grove for over three years, Kinkade is widely regarded as one of the foremost living painters of light. Every subject he puts his hand to, whether cottage or countryside, small town America or bustling city seems infused with a radiant quality. It is almost as though a special moment has been captured on canvas and rendered timeless by the warm light of nostalgic memory.

### HIDDEN ARBOR

Secret Garden Places II

I often seek out a quiet place to meditate and pray: a special retreat like "Hidden Arbor", second in my *Secret Garden Places* collection. This marvelous waterfall, with its myriad rivulets and streams, is based on an actual place—a little touch of heaven that my family and I discovered on a recent trip to the island paradise of Hawaii. All I've added is the romantic arbor with its massive bronze scrollwork. The tropical luxuriance of the climbing flowers is a gift of the warm sun and the mist created by the dancing waters.

My prayer is that each piece in the *Secret Garden Places* collection can provide a lovely promise of peace. Our first stop was at the "Hidden Gazebo", and now the "Hidden Arbor" beckons us. What "Hidden" treasure will we visit next? Perhaps we can meet there sometime soon?

# A Guide to the Toughest Grades In School

by the Barrington Sylvan Learning Center  
303 N. Northwest Highway  
Barrington, IL (708) 382-7755

Dr. Gordon Bishop, an experienced principal and superintendent, explains which school terms are easiest, and which are the most difficult for most children. Keep in mind that each child is different and will develop according to his or her internal timetable.

**Grade 1.** Children switch from kindergarten, where play is high on the agenda, to first-grade academics. Seat work and extended school hours require new levels of self-discipline. The expectation that all students will be able to read at the end of the year places a burden on some children.

**Grade 2.** Kids get a breather both academically and emotionally. Reading skills are a rehash of those learned the year before, so children who struggled in Grade 1 have a chance to catch up. They know the school routine and have established friendships.

**Grade 3.** Students are asked to master cursive writing. In many schools, Grade 3 marks the beginning of required homework. Teachers' expectations increase. Students make the leap from reading works to assimilating what they've read, and multiplication table drills begin.

**Grade 4.** Generally smooth going, this is the time when children have better muscle coordination so that handwriting is less of a chore and sports skills also improve. Long division in math is a focus.

**Grade 5.** Fifth grade allows children the chance to build upon previously learned skills. Fractions and decimals are of primary concern, as are beginning study skills.

**Grade 6.** Students enter sixth grade as boys and girls and leave as young men and women. "Confused" best describes sixth graders' state of mind. Their experience is made up of growth spurts, anxiety over

the prospect of entering junior high, and mixed messages about their place in the world. Material concerns such as clothing and possessions take on special importance.

**Grade 7.** Teachers probably would agree that this grade is the hardest to teach because of the many physiological changes children undergo at this age and the roller coaster of emotional highs and lows that accompany them. Tremendous peer pressure makes this year particularly stressful for kids.

**Grade 8.** This is still a time of many physical changes. Eighth graders are now "seniors" and are regarded with awe by younger children.

**Grade 9.** A year of independence and decision making, ninth grade is the time when kids are expected to choose what they want to study. Kids often need help sorting it out.

**Grade 10.** Students have established themselves as part of a social group and have joined clubs or athletic teams with which they identify. They have begun to make decisions about the special interests they want to pursue.

**Grade 11.** A meaty year academically, juniors who are college bound are expected to make solid grades and to participate in extracurricular activities. They will also take the SAT and ACT exams, which are important factors in determining college acceptance.

**Grade 12.** With the end of the long school road in sight, some students begin coasting academically. At the same time, students face anxiety about the future (whether about getting a job or going to college), and many get very emotional as they contemplate leaving friends and family.

### Carnival Top Cruise Line For Kids

*Family Circle Magazine* named Carnival Cruise Line the best family cruise choice for the second consecutive year by their readers. Over 70,000 youngsters annually join their parents vacationing aboard Carnival's nine "Fun Ships."

"Camp Carnival" is a fleet-wide operation with a youth staff of 25 permanent counselors and coordinators as well as several temporary employees brought on during peak periods. The program is divided into three age categories: junior (4-7); intermediate (8-12); and teen (13-17), with the activities appropriate to each. Younger passengers enjoy events such as scavenger hunts, games, bridge tours and ice cream socials while teens are attracted to deck parties, limbo contests, trivial pursuit and video game competitions.

In addition to Camp Carnival, there are several special considerations for families that make "Fun Ships" such a popular choice for those traveling with children. First, babysitting is available for a nominal fee. Conducted by the children's staff, it is done in the playrooms where a pajama party atmosphere is created. All personnel are extremely qualified. A College education in a related field and professional child care experience are required so parents can feel very comfortable leaving children with their staff. Infants are provided cribs and high chairs and special menus help make dining a happy experience. The fare for children sharing a cabin with two adults is \$399 on all seven-day cruises; \$199 on three-day; and \$259 on four-day cruises. What a lovely way to spend a family vacation — something for everyone on Carnival Cruises. Call 381-6400.

### New York For \$159

The Hotel Inter-Continental is one of New York's little known travel bargains. This summer it's offering a rate as low as \$159 any night of the week, subject to availability, including your choice of an

upgrade to a suite, a second guest room at half price, free parking, free Sunday brunch for two, or double frequent flyer miles. Similar summer spectacular options are available until September 5, at this and other Inter-Continental Hotels throughout the U.S. and Europe.

### Boarding Pass Protocol

Does a boarding pass guarantee you a seat on the plane? Not necessarily. If your flight isn't full, fine — you needn't worry or check in even if you had a boarding pass issued when you bought the ticket. Otherwise, the airline may assume you didn't show and could give your seat away, and you may not be eligible for any compensation since there's no way to prove you were at the airport within the airline's check-in deadline (usually ten minutes for domestic flights). So, if the flight looks full, don't just sit there.

Arthur Frommer, the dean of American travel writers, says that every trip should begin in the library or bookstore. If you're planning to visit Los Angeles for business or pleasure and need some background, Peter Theroux's *Translating LA* (Norton) will prove an excellent companion. Although not a traditional guidebook, it will take you to places average tourists never visit. Meanwhile, Betsy Wade, who writes the esteemed "Practical Traveler" column for *The New York Times*, has finally come out with a book, *The Practical Traveler Handbook: An A to Z Guide To Getting There and Back* (Times Books), is the best how-to-travel manual yet. If it's not in there, you probably don't need to know it.

## IT'S TIME FOR BACK TO SCHOOL SPECIAL SECTION

### Students Can Learn to Pay Attention

The ability to focus attention may seem simple to you. But paying attention is a skill that must be learned. Many students cannot control their attention because they have never learned how to direct their thoughts and energies.

Dr. Raymond Huntington, founder and President of the Huntington Learning Center, says that parents can help children improve their ability to concentrate. The following are three methods Dr. Huntington recommends in helping your children improve their attention:

**1. Using positive self-talk and positive images.** At sporting events you often see one player standing alone, muttering to himself, "OK, you can do it! Keep your eye on the ball." This is "self-talk," an important tool for controlling attention. Children can be taught to use it.

People also improve their attention span by controlling the images they see in their mind's eye. When a runner is half-way through the race, she may picture herself crossing the finish line; or a dieter may imagine his new appearance when tempted by an ice cream cone. These images help keep attention focused, and increase motivation to complete the task.

**2. Asking questions about the work.** Another way to direct attention is to ask

questions while studying. Some general instructions are: "What is this paragraph about? What is the evidence that supports the central idea? Is this argument true or false? Why?" Asking themselves questions helps students bring their attention back to the task at hand.

**3. Setting specific study goals.** One way to improve is for children to work toward specific goals as they study. You might want them to study until they can tell you the main point of the paragraph, or until they can solve a specific math problem. Together set reasonable goals, and discuss each goal with your children. Remember that many small goals are better than a single large one.

At the **Huntington Learning Center**, study skills are integrated into specially designed tutoring and enrichment programs. With centers nationwide, **Huntington** is a recognized leader in the field of diagnostic testing and evaluation to pinpoint a student's weak study areas. Programs are offered in reading, writing and math, as well as college SAT/ACT prep courses.

Parents who have questions or who wish to discuss specific problems should contact the **Huntington Learning Center** in Barrington at (708) 382-3655.

### How To Choose A Dance School For Your Child

Many parents of young children who desire to take dance lessons find themselves unsure as to how to choose a school. Frankly, a recommendation from a neighbor or friend is not enough. You should always visit the school in person. The following are some guidelines as to how to choose a school in order to insure your child's proper instruction and personal safety.

**Facility**—The dancers should have a large room with a special sprung floor. Dancing on concrete covered with tile or other hard surfaces is dangerous. There should be ample mirrors and well-constructed ballet barres for older students.

**Observation of Classes**—Before enrolling in any school, you should make an appointment to observe a class. Even if you are not knowledgeable, you will be able to judge certain critical things.

1) Is the teacher well organized and pleasant?

2) Is he/she knowledgeable? (Check the school brochure for teachers' backgrounds.)

3) Are the teacher's corrections made clearly and in a positive way?

4) Are the students well behaved and attentive for their age?

**Performing Opportunities**—As dance is a performing art, it is imperative that the students get the chance to dance for an audience. However, a good school should stress education and not detract from that for the sake of performing. A fancy costume will never cover up poor dancing!

**Tuition**—Do some comparison shopping as to class rates. Classes should be competitively priced but one should not think that the cheapest class means more for your money. As with everything, quality costs more. Schools should have discounted tuition for multiple classes if your child is a serious student. Family discounts may also be available.

Even pre-schoolers taking lessons should have a fun, interesting and beneficial class. A little extra time will result in a decision that you and your child will be happy with for years to come!

## Why a Reading Specialist?

Some people, many of them adults, cannot read this article.

For them, the world seems to operate with a secret code. They haven't learned that code well enough to gain admittance to good colleges or decent-paying jobs.

Jean Comeaux, director of **Reading Enriches All Dimensions Inc.** in Rolling Meadows, has worked in the field for many years.

"We offer a dedicated team effort to restore any person, regardless of age or orientation, to his rightful place as an effective reader and student. When you think about it, the one common denominator of successful people is probably the ability to read effectively," she said.

Consider Tim, a sixteen-year-old high school junior. Because of his very high intelligence and compensatory talents, he coped quite ably in school until the end of junior high school. At that time, however, scholastic demands began to strain his skills (which he later learned were at only sixth-grade level) to the breaking point. He could no longer compensate; his once high grades became mediocre, then poor. Although Tim had worked with a tutor, the situation did not improve. Tim's parents discovered at **R.E.A.D., Inc.**, that tutoring does not affect a permanent solution. Diagnosis and remediation, on the other hand, by an experienced reading special-

ist at **R.E.A.D., Inc.**, restored Tim to his rightful place as a top-notch student.

**R.E.A.D., Inc.** now boasts a 21-year history. It offers specifically designed programs for each person, based on a diagnostic evaluation.

All written language and communication skills are taught concurrently at **R.E.A.D., Inc.**: basic skills, study skills, functional writing skills, and test-taking skills.

Cienteles seeking help from the clinic and center are made up of various types of people from all age groups: from those who have never learned to read, to accelerated students with poor test-taking skills or inappropriate reading speed to corporate employees who need individual or group instruction.

According to Comeaux, factors contributing to reading disability include: frequent illness and absences during the primary grades; emotional family trauma, such as a death or divorce during the first three grades; and a week auditory or visual memory.

Comeaux said staff instructors are long-tenured specialists in reading, learning disabilities, and Attention Deficit Disorder. They know how to work with students to build skills and confidence, she said.

## Builds Self-Esteem, Discipline and Showmanship

**Bataille Academie of the Danse** has been in operation since 1969. It is a dance school which puts emphasis not only on technique but also self-esteem, positive reinforcement, discipline, and showmanship.

The Academie offers classes in many dance styles as well as several performing companies including an all boys troupe. Striving to give all students an opportunity to perform, the Academie presents a

yearly fall show, a spring dance extravaganza, as well as the opportunity to attend workshops, competitions and community events.

In the past, many of the Academie's students have received awards, scholarships, and recognition leading to professional opportunities.

If you are a child, teenager or adult, put on your dancing shoes and call today.

## The Answer Is ... Music!

If someone informed you that you could give your child just one relatively inexpensive gift that would improve the course of their life and better their chances for success, you would want to jump at the opportunity. And, if you further learned that this one gift would help your child develop mental and physical co-ordination, character and self-confidence, and you would be assured that they would be associating with wholesome companions during their formative years, you would ask, "What is this treasure?" The answer is found in that most universal of languages . . . music. All of this is yours to give to your child through this treasured gift of self-expression. Music is a gift that will be enjoyed and appreciated throughout your

child's life.

## Back To the Basics with Kumon

**The Kumon Educational Institute** is the world's largest private educational institute, with two million students enrolled in 23 countries. Students of all ages and skill levels can enroll in the **Kumon** math program. Unlike other math programs that utilize calculators and the latest computer technology, the **Kumon** method is decidedly low-tech. Students complete packets of worksheets that focus on specific mathematical concepts exclusively until each concept is mastered. This back-to-basics approach has helped students develop their math proficiency, study skills, and confidence.

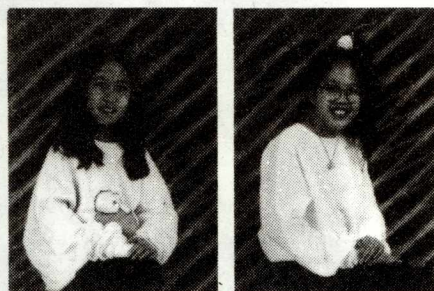

The **Kumon** method was founded by Toru Kumon, a Japanese educator who developed worksheets for his son to study every day for about 15 minutes to help him improve his math performance. Within four years, his son was in the sixth grade and solving college-level calculus quickly and easily.

### The Kumon Philosophy

**Kumon** is not just a way of learning math; it's a way of learning how to learn. **The Kumon** method helps develop study habits and a positive attitude toward achieving academic goals. The method, which involves daily practice on worksheets, focused concentration, and complete mastery of concepts, enables children to teach themselves.

### Building Self-Confidence

All students begin **Kumon** at a skill level that is easier than their current study level in school, so that they achieve a perfect score immediately. This develops self-con-

fidence, a desire for perfection, and an eagerness to learn more.

### Speed and Accuracy

One of the most significant aspects of the **Kumon** method is the emphasis on getting the work done quickly and correctly. **Kumon** asks students to correct any mistakes so that a score of 100% is always achieved.

### Concentration

When students complete their work accurately and within the standard time, they naturally find themselves concentrating better. Many parents have discovered that with **Kumon's** help their children are able to do other school work more quickly and accurately than before.

For details on enrollment and locations, call **Kumon's** Chicago regional office at 1-800-YES-MATH.

## 22 Indonesian Students Visit Barrington Area

A day at the races began what would be two very busy weeks exploring American culture for a group of 22 Indonesian students who visited the Barrington area June 18 through July 5. Sponsored by EF Educational Homestay Programs, the students stayed with local host families, studied English as a Second Language, and participated in a variety of different activities and excursions to downtown

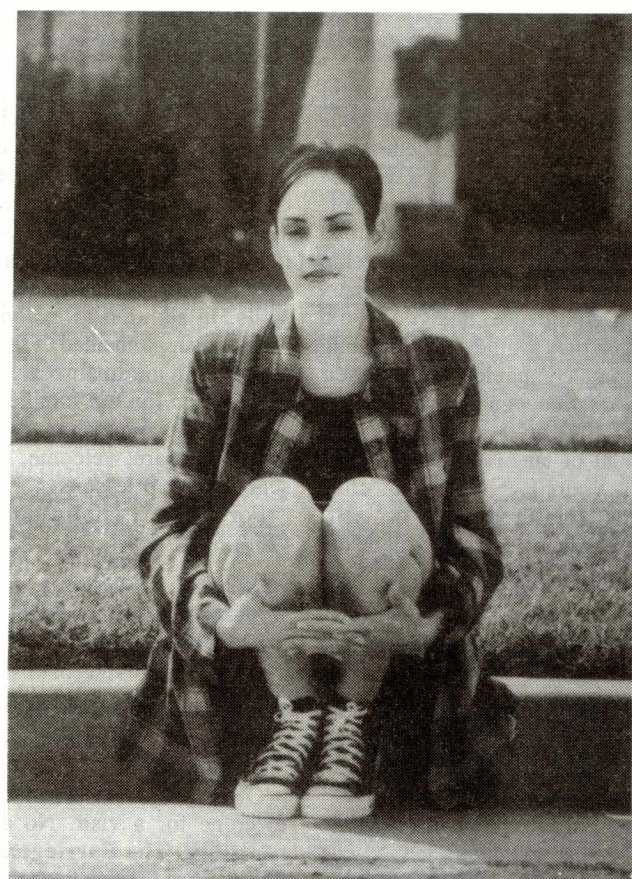

Chicago, Milwaukee Summer Fest, Great America and Magic Waters Water Park. Monday, June 20th was indeed a special first day for the students, when the Duchossois Foundation graciously treated the group to a complimentary tour of the Race-track, an Arlington International baseball cap and a (most refreshing!) Arlington Million ice cream bar.

As an added treat, a group of Spaniards

visiting for the World Cup performed at the track, building the world's tallest human pyramid and delighting the students who had recently tried their hand at human pyramid building at a Welcome Picnic the 19th.

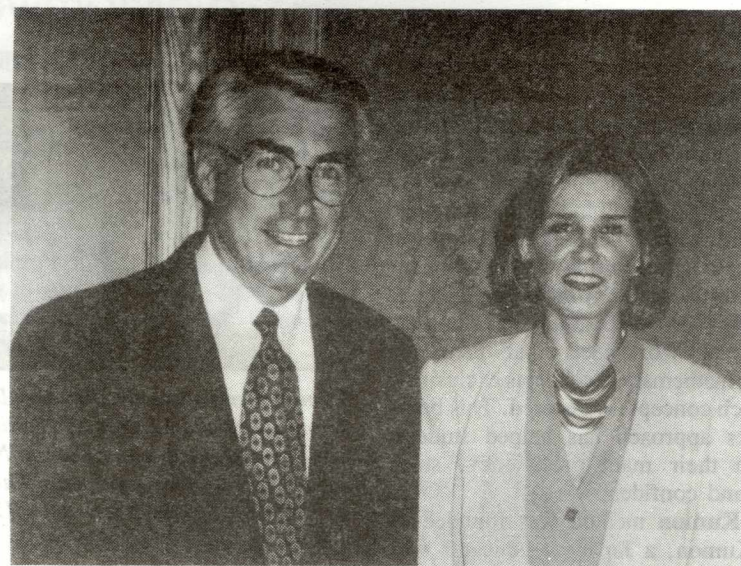

The students finished up their stay in Barrington by participating in the 4th of July parade and viewing fireworks displays around the Chicagoland area.

As the bus pulled away from Barrington High School to take the students to the airport July 5th, there were more than a few teary-eyed faces and cries of "I'll miss you!", "Don't forget me!" and "Don't forget to write!!" Though the two weeks passed by in a flash for many, the experiences had and the friendships formed will remain sweet memories in the minds of all.

**G**reat looks for back-to-school are waiting for you at Filly's. New lines such as True Grit, Democracy, and Nistka will add to favorites—Esprit, Urban Outfitters, Jou Jou, and Betsey Johnson. Stop by early for the best selection at 124 West Main Street, in downtown Barrington.

Governor Jim Edgar greets Mary Matalin (above), former campaign manager of President Bush and co-host of CNBC's "Equal Time," who was the key-

note speaker at a recent Governor's Club luncheon at the Mid-America Club. More than 200 Governor Edgar supporters attended.

## Emotional Supplies For Back to School

Back to school isn't just about new clothes and new dictionaries. There are many emotional adjustments, too. **Jordan Temple Book Center** in Crystal Lake has many books addressing issues your students might face this fall.

There are books to orient children to new routines. For 3-8 year olds, delightful picture books demystify riding the bus, nursery school activities and day care programs.

Early readers can read for themselves about silly animals who go to school and can't count or have a monster for a teacher. The transition back to school is made

simpler by stories that address emotions, attachments and new friends.

For older children there are books on motivation, homework techniques, organization skills, gifted education, peer concerns, and early career exploration.

Even college students can benefit from survival guides illuminating how to sort laundry, cook a hamburger or open a checking account.

So don't forget to put your child's emotions on your back to school list. Help him get off to a good start. Browse through the special back to school display at **Jordan Temple Book Center**.

## How Small is "1" Part Per Million?

With the concerns over chemicals, you have heard one part per million (1 ppm) or one part per billion (1 ppb) or even that one part per trillion can be measured.

"Most people have never sat down and tried to figure out how small one part per million is," says James E. Schuster, Horticulturist with the University of Illinois Co-operative Extension Service.

To help you get a perspective on how insignificant one part is to a million, billion, and trillion, the following comparisons may help:

- 1 inch in 16 miles
- 1 ounce in 32 tons

**The Prudential Preferred Properties**

There's no stopping it.

The days of August are looking toward the fall. What's happened to our year and more importantly what's happened to you? Over the years, I've talked about establishing priorities in life and setting goals. Many of us live haphazardly from day to day without much thought as to what we are doing or why we are doing it. Many people live dissatisfied lives because their surroundings are not right for them. Their homes may be either too large or too small. Or, they just don't have time or inclination to do gardens or grass when they would rather be doing something else. It's time to make a decision!

*"Even though you are on the right track, you'll get run over if you just sit there."*

Author Unknown

It seems to me that we are paralyzed by fear. Fear of change, fear of interest rates, fear of the economy, fear of the unknown.

It takes courage to change things for the better. It takes courage to do what needs

to be done, when it should be done. Courage is the magic that clears the pathway to real happiness. Nothing is started until there is action. Actions are decisions. What's your decision?

If your decision is to change your environment, get the right information to put you on the right track. Which means calling **The Prudential Preferred Properties** for a consultation about your lifestyle. The most effective way to get what you want is to brainstorm with one of our Realtors about your dream and how you can get it. That interaction can produce the best action. Our Realtors have the background and experience, given all of the right information, to help you analyze how to achieve your dream. That's a powerful relationship and a smart way to make a good decision.

Get started now. Here are some recommendations.

## Now Is The Time To Plan For That Deck

design.

In addition to a proper design, the actual construction of the deck and the follow-through of the builder are very important. Questions you should ask: Who actually will perform the work? What quality of material will be used? What construction practices will be used? And, who will service the deck if needed? Larry's favorite phrase, "You get what you pay for, if you're lucky!"

**Deck-A-Roo Decks** is a full service builder, working with the home owner from the beginning of the design to the final completion of the deck. No subcontractors are used. All employees have been trained to a high level of quality and given the amount of time needed to complete the job properly. Only high quality materials are used by **Deck-A-Roo** as well as new environmentally friendly products. Every deck is serviced promptly as well as courteously. We also offer deck cleaning and deck sealing to all our customers as well as those who have decks already.

A special note from Larry: Fall is a great time for planning your deck because you will be assured of having it for next Spring. Also, you will save money by beating next year's price increases.

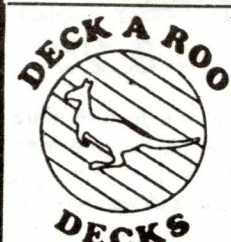

For more information or an in-home consultation, please call us at (708) 381-3325. Thank you.

"It's not just a deck," says Larry Kirchner, chief designer and president of **Deck-A-Roo Decks**. "A deck is a pleasant addition to any home and a necessity."

Decks are great investments. If properly built, a deck will give the owner years and years of wonderful use as well as add more to the value of the home than the initial cost. However, an improperly built deck will soon become an eyesore as well as a financial burden on the owner.

At **Deck-A-Roo Decks** every aspect of the deck design is considered: what style will best fit the house; what are the size and design needs of the client; what materials best suit the location and design of the deck; how the design affects price both now and over the lifetime of the deck; and how maintenance will be affected by the

## From A Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

At the end of the month, we were cleaning up some of our schedules for our financial statement and I realized that our used vehicle inventory was almost a million dollars! It amazes me that when we opened ten years ago, our new car inventory was about a million dollars and now it is many times that.

We used to consider 15 or 20 used vehicle sales a good month and now we average between 45 and 50 a month. We take a very comprehensive look at every vehicle traded into our dealership and choose only the best to retail. We feel a moral responsibility to make sure the vehicles we keep to retail have been checked out as thoroughly as possible. The vehicles go through a 21-point inspection to determine the quality and if they do not meet our standards, they are wholesaled to a secondary source. I was further surprised in my review that we wholesale an

average of 75 to 80 vehicles a month that do not meet our standards.

It's obvious that a pre-driven vehicle does not have a warranty like a new vehicle, but we try to make sure they are as reliable as possible. If they aren't good enough for us, they are not good enough for you!

## Combating Arthritis (Continued from Page 13)

**Strengthening**—tones muscles that support joints, making the joint more stable. When experiencing acute flare-ups, isometric exercises (which do not move joints) are best.

**Endurance**—enhances aerobic capacity, helping oxygen flow normally to all cells of the body and improving overall fitness level. Best results are achieved when such activity is done three times a week for 20 minutes at training heart rate. Swimming is a particularly good activity since it sup-

ports your body as you gently move your joints through their full range of motion. Walking is another good choice. Higher-impact activities can aggravate arthritic conditions.

Exercises must be tailored to the individual, taking into consideration the joints involved and your degree of pain. Whatever the exercise you perform, there are some general rules that apply. We will discuss these in more detail in next month's article.

## Ten Acres of Enchantment

It's no secret that getting away for week-ends does wonders for one's sanity. Doctors prescribe it—and even take their own advice!

And now—a mere hour and a quarter drive from Barrington (all tollway)—on the Pecatonica River in the picture-book farm country near Freeport, Illinois you can enjoy the perfect escape from your weekday wars.

It's 10+ lush acres of high meadow and woods bordering a quarter mile of river frontage—with a limestone mill that's been transformed into an exquisite, 3-story home.

Actually, it's the only privately held limestone mill in our country. Originally built in 1857 by Spencer Tracy's great grandfather (a member of the Brown family that founded Brown University), its beautifully textured walls have turned a warm rosy beige over the years.

Inside it's been completely redone. It has a custom cherry kitchen with a family sitting area in a windowed bay over the river's edge; a 3-sided fireplace; a living/dining room with 17 foot ceilings and

skylights; a study; a beautifully appointed master suite; 2 additional bedrooms; 2-1/2 bathrooms altogether; and gleaming hardwood floors throughout.

The architecturally charming 2+ car garage has a large 2nd floor space with a separate entrance that could be a studio, a caretaker's suite, or another bedroom and bath.

A spacious and handsome patio overlooks the sweeping expanse of river, pampered flower beds, rolling lawn and magnificent trees.

There is peace. There is privacy. But there are neighbors a comfortable distance away.

The property is priced at \$495,000. For more information and a video of the mill and its land, call **Arlene Cullen** of **The Prudential Preferred Properties**' Barrington office. She is a national award-winning Realtor and Certified Homefinding Specialist, and provides customized real estate services to clients and customers throughout Barrington and the neighboring communities.
