NOVEL ATHLETIC MEET.

n Over Porty to Compete in Con Preliminaries for as remerkable an libetic meet as the world has even nown are vitruslity complete and will be beld early in June under the ans-ness of the new Mount Washington ub of Bultimore. Some may take part in the contests how in under furly years old, and consultations are reserved for ath other forms of the contests of the contests of the contest of the contests of the con-test of the contests of the contests of the libetic contests of the contests of the con-tests of the con-tests of the contests of the con-tests of the con-tests of the contests of the con-tests of the contests of the con-tests of the con-t

standing.

One event, for which several are
training, is a marble coutest closed to
all members not aitty-dive years old.

The biggest amount of money ever
wagered on a marble game will probably be put up on this.

There will be a quott tournament between the justices and the seniors for

is money prize, a cross country run, is matches, baseball, 'shinney'' es, putting the abot, jumping, ling and hurdle events.

DRAINING EVERGLADES.

Progress of the Work In Flor ida's Swamp Waste.

IMPORTANT DISCOVERY MADE

Rimmed by Rock Ledge, Through Which Outlets Have Been Cut to Drain Off the Water-Nost Fertile Tract of Land to Be Developed in Few Years.

There are great agricultural possibilities in the Florida Everglades, says J. E. Ingrabam in the June Success. Though they are yet merely an expansive waste of awarm and hake and jun sile. I venture to predict that they will farm within the years and will be yet farms within the years and will by the grees develop into one of the most productive tracts of land in the world, observed the productive tracts of land in the world. Were gun and is being pin and is being pin and is being pin and so wide will have been opened to culdivation. The street being read to culdivation the size of this readon is not as important as it this readon is not as important in a time of the productivity of the so not only absolutely of only absolutely of the solution of the sol
