

THE BARRINGTON REVIEW.

VOL. 20. NO. 9.

BARRINGTON, ILLINOIS, FRIDAY, MARCH 3, 1906.

\$1.50 A YEAR IN ADVANCE.

WAUCONDA MENTION.

Succinctly Told by Our Regular Correspondent.

One week of spring.
Mr. Dawson was a McHenry visitor Monday.

Dr. Harvey of Grayslake was a Sunday caller.

John Dowe was a Libertyville visitor Tuesday.

John Golding transacted business at Wauconda Tuesday.

Remember the Old Folk's Dance Friday evening March 3d.

Rev. W. H. Pierce of Chicago visited with local friends this week.

H. C. McMillan, of Cincinnati, Ohio, was a business caller last week.

D. S. McMullen of Evanston was a business caller the first of the week.

Mr. Carpenter, of Harvard, was a business caller the first of the week.

Miss Winnie Pratt announces a basket social at the Pomeroy school March 4th.

Miss Lole Sowles, of Waukegan, spent Sunday with her mother and brother.

An entertainment will be held in the home of M. E. church Thursday evening, March 9th.

Wauconda was well represented at Teachers' institute at Libertyville last Saturday.

Miss Lucy Sowles visited at the home of Mr. and Mrs. G. L. Fitch the first of the week.

Miss Mary Freund returned home Tuesday after a few days' visit with friends in Chicago.

Mr. and Mrs. Lewis Broncheon and family have moved into the lower rear rooms of the building occupied by Dr. Dawson.

Rev. W. H. Smith of Park Ridge lectured in the M. E. church Saturday evening on "American Achievement" and on Sunday evening the subject was "George Washington."

Nineteen beneficiary and three social candidates were initiated into Mithra Lodge No. 142, Mystic Workers of the World, Monday evening, Feb. 27th, thus bringing the total local membership to 173. After the initiation, an oyster supper was served and all were universal in the opinion that oyster cooking is an intimate acquaintance of Harry Grantham who acted in that capacity. Dancing closed the evening's program.

A preliminary railroad meeting was held in the village caboose Tuesday evening. D. S. McMullen being the instigator. Messrs. John Golding, E. W. Brooks and Arthur Cooke were chosen a committee to advertise a mass meeting in the Oakland hall, Monday afternoon, March 6, at 2:30 o'clock p. m. when Mr. McMullen will again be present with either Mr. Frost or representative of the latter. Let all turn out and help to make it a roaring success.

A match race is the feature of Saturday afternoon, March 4th. "Lord Clayton," B. S. Hammond's pacer will be pitted against Jas. Hamlin's "King H.," of Libertyville, for \$50 a side. Both horses are speedy pacers, marking about 2:15 and are about the same age, and should put up the best race ever witnessed in the vicinity. Even though "Senator G.," Earl Merritt's trotter took every heat from "Guy" Harry Geary's pacer, last Saturday, the Judges gave the latter horse the victory on the grounds that the trotter ran much more than allowable without an effort on the part of the driver, Norman Ladd, to make him trot. Public opinion is divided.

Fraud Exposed

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to be aware of such people, who seek to profit through stealing the reputation of remedies which have been successfully curing disease, for over 35 years.

A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's, or Bucklen's, remedies, as all others are mere imitations. H. L. Bucklen & Co., Chicago, Ill., and Windsor, Canada.

A Pleasant Affair.

Owing to the unseasonable April showers last Friday evening, a party of Baptist young people, who had planned a surprise party on Mr. and Mrs. Adams five miles north of Barrington, were compelled to postpone the party for a few weeks.

Nevertheless the Baptists are not to be outdone by an April shower and led by Rev. Kelley and Elmer Kampert their lunch baskets and umbrellas under their arms they proceeded to the church parlors.

Soon the fires were roaring and all joined in a merry good time. Various amusements were indulged in and at 10:35 lunch was served, after which all departed for home declaring they had had an exceptionally good time.

Those present were: Mrs. Wilmer and Misses Florence Peck, Alma Hawk, Laura Hawk, Nettie Lombard, Nancy Jenks, Beulah Otis, Georgia Topping, Cora Jahne, Grace Otis, Mabel Hanks and Edna Walters, Messrs. Wilmer, R. D. Wells, A. C. Schroeder, Dr. Shearer, Rev. Kelley, A. C. Lines, G. M. Otis, W. M. Cannon, Chas. Thies, H. R. Wilmer, Elmer Kampert, Dennis Schroeder.

Retired From Mercantile Business

After thirty-six years of active life in the conduct of a general merchandise business in Barrington, Leroy Powers has disposed of his establishment to P. A. Hawley who took possession Monday morning. Mr. Hawley will conduct the business on the lines laid down by Mr. Powers which has attracted a large share of the trade to the store.

Mr. Powers engaged in the business at the present location in 1869 as a partner of H. G. Willmarth. In 1881 he purchased Mr. Willmarth's interest and since then has conducted the business. He has always served a large trade and one of the best known and highly respected business men in this section of the state. He will be missed from the "old store" by a host of old customers who were wont to visit there and enjoy Leroy's pleasant and entertaining companionship. The Review wishes him many years of enjoyment from the competence so well earned.

P. A. Hawley needs no introduction to Barringtonans—everybody has the pleasure of his acquaintance. We wish him a successful business career.

AN OLD RESIDENT GONE

John Catlow, One of the Oldest of Barrington's Citizens, is Dead at Age of 82 Years.

Another familiar figure to every inhabitant of Barrington and vicinity has passed to his long rest. He had lived more than the years allotted to man and fulfilled his mission and was ready for the summons which came Thursday evening, March 2, at 7:45 o'clock.

John Catlow was born at Burnley, Lancashire, England, December 10th, 1822. He spent his boyhood days in his native land, and when 21 years of age was married to Elizabeth Kitson, of his birthplace, Burnley. They resided in England 11 years and in 1854 came to America, settling on a farm 11 miles east of this village. About 20 years ago they gave up farming and moved to this village. Nine years ago Mrs. Catlow passed away.

Six children were born to Mr. and Mrs. Catlow, five sons and one daughter. One son and the daughter have passed away. Those surviving are, James, of Cary Station; Joseph, of Barrington Center; Daniel, of Salem, Oregon; and John E., residing on the old homestead.

The decedent was a typical Lancashireman and never lost love for his native land. In some ways he was eccentric, and was economical in his mode of living and strict in his habits through all the years of his life. He was honest in all deals and respected as his years of life work richly deserved.

The funeral will take place from the M. E. church, Sunday noon. Burial in Deertown cemetery.

The other members of the brigade are as follows: Captain Beatie Smith, Captain Laura Hiller, Miss Nelson, Miss Anderson and Mr. Vennum. Everybody is cordially invited to come and hear these workers sing and speak.

The long-drawn-out litigation of Wm. Hill vs. Chas. Jahneke, for the title to a plot of property on Main street in this village, reached another stage in the legal contest last week when Judge Donnelly decided the case in favor of the defendant. It is

probable that the matter will now be taken to the appellate court.

Special Meetings will commence in the Barrington M. E. church Wednesday, March 8th. A Brigade of the Salvation Army will assist in these meetings. Because of the great success of the Salvation Army at First Church, Elgin, they will remain there longer than they had planned to stay. Because of this fact the Special meetings in Barrington will be postponed from March 1st, to Wednesday, March 8th. Everybody welcome.

BIDS FOR NEW BUILDING

The sum of \$30,000 will be expended in construction of Barrington's School Building.

The board of education of school district 4, met at the school building Wednesday evening to receive bids for the construction of the new school building according to plans and specifications by Turnbull & Jones, architects, Elgin.

A large number of contractors were present at the reading of bids, and nearly thirty bids, covering different parts of the work are now being considered.

The Wm. Grace Co., Chicago, submitted the only bid for the entire job, the amount being \$39,100.

The lowest bids on the several different kinds of work were as follows:

Ranger & Hobson, Harvey, Ill., mason work, \$10,500.

Advertising Patent Medicines

During the past two weeks an advertisement of the kind, accompanied by a company of vaudeville artists, have held forth at Odd Fellows' hall in this village advertising the remedies manufactured by the Geman Medicine Co., of Cincinnati, Ohio. The gentlemen composing the advertising company have demonstrated the curative properties of the medicines and disposed of considerable of the goods in a manner so far different from the majority of traveling advertising companies, as to entitle them to commendation from the people.

The sketch artists have presented their specialties in a pleasing manner, the musical selections good and moving pictures entertaining to the large audiences who have attended. The people are relieved, most gentlemanly in private and public conduct and pay well for every necessity or accommodation. While such methods of advertising medicines, and traveling doctors or dentists may be regarded as usurping the rights of local dealers and practitioners, by many, the business is perfectly legitimate.

Tomorrow evening the company will close here and to Woodstock where they will find a wider field for their work.

The Sernaders' Minstrels

Don't forget the Sernaders' Minstrels will appear at Odd Fellows' hall Saturday evening, March 11th. Admission 25 cents. Curtain rises at 8. The company is from Chicago and is under the management of F. H. Sullivan and O. H. Weichert. It includes a number of special artists.

Grave Trouble Foreseen

It needs little foresight, to tell when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, at Mrs. John A. Young of Clay, N. Y., did. She says, "I had neuritis of the liver and stomach, my liver was weakened, and I could not eat. I was very bad for a long time, but in Zedrick Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Notable Women

The Feminine Sex Still Talks, but Also Acts

That original and independent thinker, Mrs. Charlotte Perkins Gilman, has recently sailed for Europe on a lecture tour. One of Mrs. Gilman's odd ideas is that not every mother is wise enough or has time enough to bring up her children in the best manner. For this reason Mrs. Gilman thinks it would be in the interest of the race if public nurseries and homes were provided where mothers might have their little ones taken care of in the most scientific way. The public nursery should be provided over by trained nurses

CHARLOTTE PERKINS GILMAN.

and sanitarians and governesses, who would give the infants loving, hygienic care. The parents of the children meantime may have access to them at any time. When Mrs. Gilman pronounced her plan she was met by a shower of imprecations. It was said she would break up the family, that foundation stone of civilization. Now, however, comes a more looking toward putting into practice the very suggestions of Mrs. Gilman. Moreover, it emanates from the inner circle of London social high life. In that city has been started a children's hotel and nursery, where rich people's little ones may be taken care of permanently and at the top notch of style and tenderness, the parents paying liberally for the same. In London at least there must have been a demand for such a infant hostelry or it would not have been established.

Alice Moore McComas.

That plucky and untiring newspaper woman, Mrs. Alice Moore McComas, is in faraway South Africa on a tour with her gifted daughter, Carroll—"Carroll the Whistler." The young lady, who whistles like a whistling bird, is likewise an actress and a trained dancer. An advantageous offer to exhibit her accomplishments on the stage in Europe was made to Miss Carroll, whereupon Mrs. McComas gave up for the time her own aims to accompany her daughter on the tour. It has extended beyond what was at first expected, and Carroll and her mother are now in South Africa, Carroll meeting with great success. A note was recently received by a friend from Mrs. McComas in Johannesburg. She writes of South Africa: "This is a wonderful country, with a great future. The people are of the right sort, and the country is rich in resources."

SPRING COLORS AND FABRICS

New Weaves in Diaphanous Goods and Ribbon to Trim Them. Every season the wash goods take as some new beauty in finish or design until it seems that there is nothing further to be desired. The new weaves of all these fabrics gives them the glossy finish of silk and makes them softer to the touch and less difficult to drape. The greatest difficulty in cotton goods heretofore has been that they were either stiff and unbecomely or else too soft and flabby after one or two days' wear. Now we can choose between the thick linen finish of the kinds of cotton goods designed for waists and the material used for bill dresses only. The first sort is designed by made rather heavy and close and makes admirable waists for everyday wear, while the others are admirably adapted to make one look pretty. Among the heavier goods are the dark blue and red chevrons, and these are all mercedized, so that they have the rich luster of silk. The colors are very dainty and artistic, running mostly in grays, dull reds, blues of various tints, lilacs and heliotropes. In fact, these colors seem to be in evidence in every line of goods, completely displacing the browns of the past season. A few tans are seen and a few delicate bluish shades, but the colors mentioned are those of the spring of 1903. In addition to them are seen champagne, old rose, cardinal, green in several shades, navy, black, cream and wild rose pink.

Diaphanous Tulle.

The new tulle are almost as diaphanous as the old ones, but since they are intended for summer gowns nothing could be more dainty. They are printed in delicate colors and are to be made up with many ruffles or flounces and trimmed with much lace and abundance of ribbon. The sets are very few, and being produced in so many beautiful colors, they will become very popular. In girlish color they were very

TAKE WINE OF CARDUI AT HOME

Are you a sufferer? Has your doctor been unsuccessful? Wouldn't you prefer to treat yourself—AT HOME?

Nearly 1,500,000 women have bought Wine of Cardui from their druggists and have cured themselves at home, of such troubles as periodical, bearing down and ovarian pains, leucorrhea, barrenness, nervousness, dizziness, nausea and depression, caused by female weakness. These are not easy cases. Wine of Cardui cures when the doctor can't.

Wine of Cardui does not irritate the organs. There is no pain in the treatment. It is a soothing tonic of healing herbs, free from strong and drastic drugs. It is successful because it cures in a natural way.

Wine of Cardui can be bought from your druggist at \$1.00, a bottle and you can begin this treatment today. Will you try it?

fashionable some ten years ago, but now they are infinitely handsomer. They are strong too. In the colonies there are over twenty-five beautiful colors and also black and white, and they may be made into pretty gowns with the aid of lace and ribbon. Ribbon will be much more in demand this season

Dainty Waists.

than for some time. Some of the cotton goods have borders so arranged that they can be used for ruffles or flounces as may be preferred. Silk dotted muslins are very pretty and are shown in many varieties so far as color and size of dots are concerned.

Dainty, with its delicate floral fancies strewn over the cords; satin liberty, also with dots and different floral designs, and new and exceptionally pretty organdies are among the sum-

mer goods which are now being eagerly bought for construction during Lent. So are the excellent shirtings, linen suitings in dull finish and in colors and white. There are many embroidered muslin and cotton dresses to choose from, all so fine and delicate that one would almost shrink from cutting such fabrics. I notice, too, that there is a large range of new designs in all wool challies. This is a beautiful material, soft and fine, and a favorite with women of refined tastes for home wear, though it is quite suitable for the street in its season. Polka dots are seen in fully half of these.

The Vogue of Ribbons.

Ribbons are to have a greater prominence than they have had for some time, and the newest of them are truly beautiful. A wide plain ribbon is seven inches wide and comes in blue, pink, turquoise, navy, cardinal, navy, white, cream and black. There are some of these of each color. There is a crepe de chine ribbon seven inches wide, in all the colors, very soft and desirable, and a fallotie, five and a half inches wide, in all the shades, besides the novelties in shadow, pompadour fancy, striped, polka dotted and plaid effects. Plaid of all sorts are seen. There are many dress goods of plaids of various kinds, but mostly those of the quietest colors. Several designs of cotton goods are plain and unadorned so that they resemble silk. The tartan plaids are made into shirt waists, with the fold down the front made black, or perhaps the waist itself is cut black. Some of the plaids are scarcely more than checks, but the colorings are in good taste, being white and red, black and red, brown, pink, pale blue, navy blue and tan and heliotrope.

Shirt waists are of every color, but the white ones are certainly the most pleasing, especially the linen ones, which have a distinction and are made in tailor style, with straps, plaits or drawn work or a little fine embroidery done by hand. Some very fancy waists are made of valence-lace all over, and others of imitation chamois are very dressy. In spite of the fact that prophesied otherwise it seems that everything is made up into separate waists.

Chicago Women Declare Childhood Prayer Out of Date.

THE IDEA OF DEATH DISAPPROVED

Members of the West End Mothers' Council Offered Substitutes in Verse, and Plans One New Adopted. Taken in Part From the Post.

Why Philadelphia Women Favor the Old Prayer. The prayers which millions of children lips have murmured for generations, "Now I lay me down to sleep," was recently relegated, says the Chicago Tribune, to the past by the West End Mothers' council of Chicago. The council also decided adversely to the protests of children who are compelled Sunday after Sunday to dangle their legs and the "quiet" during church service.

It was after the addresses of Mrs. Ida Evans Haines and Mrs. Edmund A. Osburn on the subject, "What More Can We Do For the Religious Life of Our Children and Young People?" that the subject of prayer was mentioned. Mrs. Edgar A. Hall, president, said:

"The last lines of the old prayer are horrible:

"Now I lay me down to sleep,

I pray the Lord my soul to keep,

And if I die before I wake,

I pray the Lord my soul to take."

"The idea of death during the night is horrible, and I never use it."

There was a general buzz of approval of Mrs. Hall's views.

Mrs. Hall had a substitute to offer. It was listened to with many nods of approval. Here it is:

Father, we thank thee for the night

And for the pleasant morning light.

For rest and food and loving care

And all that makes the world so fair.

"Beautiful," some one murmured.

"So satisfying."

Then others offered substitutes for the line honored "Now I lay me."

Mrs. Robert W. Smith, corresponding secretary of the club, also hostess at the meeting, submitted this:

Jesus, tender shepherd, hear me

Bliss thy dear lamb tonight.

Through the darkness be thou near me,

Keep me safe till morning light."

It was evident that most of the members had relegated the "Now I lay me," and a third substitute was accepted by the club before the topic was dismissed.

This, in part quoted from the Post, was offered by Mrs. Ida Evans Haines as follows:

"O God, in me a clean heart, O God,

and renew a right spirit within me.

Teach me, O Lord, the way of thy statutes

and I will keep it unto the end."

Then an anxious mother asked the advice of the club members as to insisting on children going to church whether they want to or not.

"Every Sunday my ten-year-old son

begs to be let off. He has attended Sunday school and is no doubt tired.

Last Sunday I received two notes saying, 'Mamma, I will not go to church next Sunday.'"

The others responded with their experiences. The verdict was that as parents attended the children offered for the failure on the part of children to learn for church service.

They were as follows:

"Give them pencil and paper and have them make notes on the sermon."

"Have them run around the block at close of Sunday school before church service begins."

"Get a stool for their feet so they will not dangle."

"Work on their wish to be grown up, and show them it is an evidence of maturity to attend church and not get wriggly before the minister finishes."

"Take them instead of sending them."

Philadelphia mothers will not indorse the belief of their Chicago sisters that the old prayer begins "Now I lay me down to sleep," which has been taught to children from time immemorial, is out of date, says the Philadelphia Press. A number of women who attended the meeting at the Civic club in Philadelphia the other afternoon discussed the action of the West End Mothers' council of Chicago, and not one word of commendation was heard for the proposed changes.

"I'd as soon hear them declare that the Bible is out of date as the prayer which I was taught to lip before I knew its meaning," said Mrs. Ellen Withers. "The substitutes they offer in its place can never make up for the prayer that will always be used by Christian mothers."

Mrs. H. Howard Miller thinks the Chicago women are just a little too far advanced. She said:

"I suppose they would have special poems written for each year of childhood. For my part, I think that when a child is old enough to understand the meaning of prayer it should be taught to form its own petitions and not be subjected to any special verses."

Transcontinental Travel.

This year promises to be the record year for travel into California from the east, says the Philadelphia Public Ledger. It is estimated by the officials of the railroads interested in this movement that \$20,000 tourists have visited California this winter. The total revenue of the railroads transporting the visitors is estimated at not less than \$2,000,000. The conclusion is drawn that California will derive the sum of \$15,000,000 from the season's tourist business.

TO LIVE LONG AND WELL

How Tuberculosis and Kindred Ills May Be Avoided, Alleviated and Cured.

Suppression of Consumption.
Tuberculosis can be suppressed. It is not necessary for a person to die because he has consumption. Thousands of men and women have been sacrificed who might have been alive today if only the right procedure had been adopted. That which is necessary for the mastery of this disease is to return to nature—to live naturally in the fresh air, develop the lungs and eat proper food.

Tuberculosis is a low-level disease. People are not subject to it until their tissues have become vitiated and their whole bodies weakened.

To live a natural life is the only safeguard against tuberculosis. One climate may do as well as another if only one lives out of doors, gets plenty of cold, fresh air, bathes the body with cold water several times a day, and takes as much exercise as he can stand.

Child Labor in Factories.
The physician is at times at a municipal lodging house in Chicago has within the past year been making a careful inquiry into the history of the tramps who have become the city's guests. He has found that a large proportion of the tramps give a history of having been employed in factories or in other debilitating occupations in boyhood. Our artificial modern life is making multitudes of human wrecks, one class of whom is represented by the homeless, friendless, disheartened men known as tramps. Unfortunately, indeed, are able boys and girls who live in country homes and have the opportunity of growing up in contact with nature.

How do You Eat?
It is safe to say that modern cooks are devising business for both the cookkeeper and the undertaker. When a boy eats mustard plasters in the form of food that is almost saturated with fiery spices and irritating condiments, a thirst is created that nothing but liquor or cigarettes will satisfy. Man is admonished to "eat for strength, and not for drunkenness," but in these days anything that tastes like the four square inches of taste surface is considered good food, although it may contain scarcely any of the elements that nature requires to replace broken-down tissues and to rebuild the worn-out brain. As a consequence, the vitality and physical resistance soon reach such a low ebb that the individual falls on any petty ailment with which he may chance to come in contact.

Tent Life Cures Consumption.
A doctor in Denver some time ago made some experiments with consumptives. A tent colony was established a little way out of Denver, and the patients progressively grew well during the first part of the winter. But by and by there was a blizzard, and the thermometer went down to 20 degrees below zero, and when they began to improve very fast. One woman did not seem to improve at all until the temperature reached this mark, and then she improved rapidly. She had had no appetite, but that 20 degrees below zero weather gave her an appetite, which was an indication that the body was beginning to work naturally, that the assimilative processes were being resumed, and from that time she kept on improving.

Metal will rust if not used, and the body will become diseased if not exercised.—Exchange.

Congratulations Create False Appetites.
There is absolutely no food value in mustard, pepper, ginger, capsaicin and such things, and some of them, spiced pickles, for instance, are indigestible as savants. But these things people say, have a relish. Those who have a good, healthy appetite do not feel the need of anything of that sort for a relish.

A condiment is something which creates a false demand for food. It enables us to eat when we really have no appetite. Appetite is an evidence of gastric juice which to digest food. Lack of appetite is an evidence that one is not in a condition to digest food. But a condiment often produces a false impression of being in tip-top condition, making one think that he is ready for food when he is not. It is, therefore, a deceiver, to be especially avoided by those who have the appetite. Mustard, pepper, spices of all sorts are enemies to health.

If my next door neighbor chooses to have his drains in such a state as to create a poisonous atmosphere, which I breathe at the risk of typhus or diphtheria, he restricts my freedom to live just as much as if he went about with a pistol threatening my life.—Prof. Huxley.

Natural Cure for Tuberculosis.
A Swedish doctor some fourteen or fifteen years ago succeeded, by a very simple method, in curing patients who have been given up to die. His practice was first of all to rub the patient three times a day with a towel wet in very cold water. A little later he put the patient in a bath of water at about 60 degrees, rubbing him vigorously for about a minute, and later, as the patient became better able to endure the cold water, he was plunged into a tub full of ice water. This was done three times a day. Think of those poor consumptives! Nevertheless they got well, the cold water, with the rubbing following, produced

RUSSIAN ARMY DRIVEN BACK

Censor at St. Petersburg Keeps News of Events in the East From Becoming Known to the World at Large.

The curtain of a rigid censorship has settled down over events in Manchuria. There is no news of the results of Wednesday's fighting. Dispatches describing the picturesque events of the night retreat from Da pass and the attack at the railroad bridge across the Shabke river have been allowed to come through, but nothing to show whether Gen. Kurovskiy is withdrawing or is determined to stand his ground. It is significant that no news has been received from the threatened left flank, the last dispatches being the Russians clinging desperately to Ouhene-pusa against strong forces of Gen. Kurovskiy's veterans.

Although it is not admitted at the war office, the general impression in military circles is that Gen. Kurovskiy may be forced to withdraw. Not only is Gen. Kurovskiy threatening communication with the railroad at Putloff and Novgorod hills and even the hills themselves, keys to the position of the Russian center, appear to be crumbling away under the impact of terrible, eleven-inch shells, such as the fortifications of Port Arthur and rendered the fortress untenable. No troops will be able to hold the position long if the bombardment continues.

It develops that the Russians were unable to hold permanently the southern end of the railroad bridge across the Shabke river.

The advance of the right wing seems for the moment to have come to a standstill.

Magnificent spring weather has set in.

Home Sanitariums.
In New York city consumptives are building little huts on the tops of the houses, and are recovering. Outside New York, Boston, and other large cities, tent colonies, where consumptives can live out of doors, are being established. Every city ought to have outside it a camp where tubercular patients can live and get well. The air inside the city is not so good as it is outside; but on the tops of the houses, where the sun can shine, it is a great deal better than it is in the damp, dirty buildings in which most city people live.

Some "Don'ts" About Dress.
Don't dress the neck too warm when going out in a car. A little extra protection is required for the neck, but it is not necessary to muffle up the neck with thick furs to protect the ears. Warm wrappings around the neck cause the skin of the neck to become moistened with perspiration. When the wrappings are removed indoors, the cool cooling which takes place in consequence of the evaporation chills the part, and may produce sore throat or nasal catarrh.

Don't wear rubbers indoors, nor out of doors, except when it is necessary to prevent wetting the feet. Rubbers, being impervious to air, prevent evaporation, so that the perspiration is retained, and the shoes and stockings become damp from the perspiration. When the rubbers are removed, evaporation chills the feet, the same as if they had been wet by the rain or by walking on a wet pavement. On removing the rubbers after they have been worn for some time it is a good precaution to remove the shoes and stockings and put on dry ones. If this cannot be conveniently done care should be taken to keep the feet warm until the shoes are dry. The rubbers should be dried before wearing again.

SOME WHOLESOME RECIPES.
Green Pea Soup.
Press through a colander one can of green peas. Add to this two cups of water, one teaspoonful of salt and one heaping tablespoonful of coconut butter. Cook in a double boiler until the butter is melted. Dried peas may be used by first cooking until tender, then pressing through a colander.

Hockade.
Brown slightly together in the oven two cups of cornmeal, four tablespoonfuls of flour, two teaspoonfuls of sugar and two-thirds teaspoonful of salt. Heat one cupful of rich milk, add this mixture to it, heat it until cold. Add to this the beaten yolks of four eggs, large and small (beaten separately). Drop by spoonfuls on a hot oiled tin and bake twenty minutes.

Vegetable Salad.
Wash three medium sized potatoes, and steam until tender. Peel and cut into one-fourth inch cubes. Add one cup of celery, chopped fine, one teaspoonful each of salt, celery salt, and grated onion, and the whites of three hard-boiled eggs, chopped fine. Mash together the three hard-boiled yolks, add three tablespoonfuls of lemon juice and two of olive oil; beat until smooth. Pour this over the salad. Garnish with either lettuce or parsley.

Mince Pie.
Five cups of tart apples, chopped fine; five cups of pot roast, minced; one cup of prune marmalade (prunes thoroughly cooked, peeled and pressed through the colander); two cups boiled apple juice (boil the juice down until it is almost as thick as syrup); one cup of raisins, large and small (soaked in water for an hour); one cup of malt honey, one-half cup of sugar, one cup of raisins, butter the size of an egg. Cook all the ingredients (except the raisins) together slowly for two and one-half or three hours. Cook the raisins about half an hour. This is enough for five large pies. The cold water should be added and kept for any length of time.

Russians Save Stores.
One of the coldest and most cheerless operations of the winter's war in Manchuria, was the thirty-mile retreat of the Tinkhatchev division the night of Feb. 26 from Da Pass to Ouhene-pusa.

All day General Heershampf's soldiers, wearied by a week of continued fighting and disheartened by the abandonment of Tinkhatchev, had slung off to abandon the attack by overwhelming numbers of Japanese in order to cover the withdrawal of supplies, which had been accumulated in large warehouses at Solon.

The retreat was desperate and at close quarters. The Japanese rushed up heavy columns of reinforcements and charged repeatedly across the river, driving the ice with the bodies of their dead. At dawn the Russians retired across the river, carrying their wounded, but leaving no camp behind.

Model Homes for Workers.
Charles M. Schwab is Building Fifty Houses at Williamburg, Pa.
Allentown, Pa. dispatch: Charles M. Schwab has let the contract for fifty houses to be used by his workmen at Williamburg, Pa. The houses are to be built near the steel works. A local firm has secured the contract, which amounts to about \$100,000. Work will begin at once. The houses will be built on a plan given out by a manufacturing plant as quarters for their men. They will cost not less than \$2,000 each, and the plans were outlined by Mr. Schwab himself.

Schwab After Steel Plant?
Paterson, N. J. dispatch: It is reported that Charles M. Schwab's visit to this city was for the purpose of negotiating for the Passaic Steel company. The plant is valued at \$2,000,000 to \$3,000,000.

THE OLD FOLKS AT HOME

Are Never Without Po-ru-na in the Home For Catarrhal Diseases.

Remarkable Cures Effected By Po-ru-na.
Under date of January 10, 1907, Dr. Hartman received the following letter: "My wife has been a sufferer from a complication of diseases for the past twenty-five years. Her case has baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing. She was also passing through that most critical period in the life of a woman—change of life."

"In June, 1905, I wrote to you about her case. You advised a course of Po-ru-na and Manalin, which we at once commenced, and have to say it completely cured her."

"About the same time I wrote you about my own case of catarrh, which had been of twenty-five years' standing. At times I was almost past going. I commenced to use Po-ru-na according to your instructions and continued its use for about a year, and it has completely cured me."—John O. Atkinson.

In a letter dated January 1, 1906, Mr. Atkinson says, after five years' experience with Po-ru-na: "I will ever continue to speak a good word for Po-ru-na. I am still cured of catarrh."—John O. Atkinson, Independence, Mo., Box 272.

Mrs. Ella Schwardt, Sanborn, Minn., writes: "I have been troubled with rheumatism and catarrh for twenty-five years. Could not sleep day or night. After having used Po-ru-na I can sleep and nothing bothers me now. If ever am afflicted with any kind of sickness, Po-ru-na will be the medicine I shall use. My son was cured of catarrh of the larynx by Po-ru-na."—Mrs. Ella Schwardt.

When old age comes, catarrhal diseases come also. Systemic catarrh is almost universal in old people. Address Dr. S. H. Hartman, President of the Hartman Sanitarium, Columbus, Ohio, who will be pleased to give you the benefit of his medical advice gratis.

Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, how do you know what you are getting? Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,
the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no artificialness of merit, but continued and increasing popularity.

If the verdict of MILLIONS of HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left the factory.

WHAT IS YOUR FARM WORTH?

Could you sell out for from \$75 to \$150 per acre? If you can, did it ever occur to you that your farm will buy another of from ten to thirty times its size? Or it will buy you a good sized one in a new country and permit you to put into bank enough money to keep you the balance of your life. This is a proposition that is worth thinking over; it has been tested by many farmers of the Mississippi valley; it has raised many a mortgage; it has started many a young man out in life as the owner of a fine farm. And it will do so again. This is a live question. Think it over.
