COLD WEATHER RETARDS CROPS

Low Temperatures and Heavy Frosts Hamper Work of the Farmers.

AWAIT SUNSHINE FOR SEEDING

Preparations for Planting in the Cen-tral_Valleys as Soon as Conditions Are Favorable—Spring and Winter Wheat Reports.

Washington dispatch: Crop reports

Washington dispatch: Crop reperts from all sections of the country are summarized in the wealth buffeth of the exacts hursan as boliess.

Over nearly the whole of the country two week moreal part 17 was almormally cold and undavorable for acrimation and growth. In western worth fakeds and near the total and on this and the following date exceptionally low temperature for the season occurred the prospective occurring as far south as the northern pertions of Alabama and Georgia and repural South Carolina, high light to heavy frosts in the central portion of the cast agif states and light fresh at Jacksonsille. The damaging effects of this cold period, which came at the close of the week are not fully envered in the repursive collected at the climate and crop constraints of the states, which were unfavorable in the south Alabam contributions of the lower Missouri valley and on the extreme north Pacific coast. The temperature conditions on the Pacific coast were unfavorable.

Core Planting.

While core planting.

cinc coast. The temperature condi-tions on the Pacific coast were unfa-vorable.

Corn Planting.

"While corn planting has continued in Kansas, Miseauti and aouthern Mis-nois, none has been planted farther-north nor in the upper Ohio valley had middle states. Preparations for planting have been active in the cen-tral valleys, where planting will be vigorously pushed as soon as tempera-ture conditions are favorable. In the south Atlantic and east guif state-planting is about flushed and early corn is being cultivated.

"Winter wheat continues in pronds-ing condition generally throughout the country, but is beginning to need rain in portions of Kansas and Michigan. Very slow progress was made with spring wheat seeding over the north-ern portion of the springshear re-ent portion of the springshear re-ent portion of the springshear re-ent person of the springshear re-of low temperatures. The early soon, spring wheat does not appear to have sustained injuty from recent cold, ex-cept in Nebraska, where some fields were slightly damaged.

Osts and Cotton.

"Out-seeding was also delayed in the

were slightly damaged.

Oats and Cotton.

Oat-seeding was also delayed in the Dakotas, Munesora, lake region and portion of the middle Atlantic states, While growth of the early sown has been checked and some injury sustained in Nebraña, the general situation respecting this crop continues promising.

Cotton-blanting.

Dakotas, Minnesota, lake region and portion of the middle Atlantic states, While greatly of the early sown has while greatly sown has been made in Nebrada, the general since respecting this crop continues promising.

"Cotton-planting is much delayed in Mississippi and Louisiana and is later than usual in Texas and the Carolinas. Better progress with this work has been made in Adahma and Georgia and in the southern portions of these states is nearing completion. Fair to good stands of the early planted are car fafe home.

Mone for Open Sea Fight.

The keenest interest is manifested in the dispatches referring to the movements of Rojestvensky, but the admirally claims to be as much in the dark as the public regarding his plans. The report that part of the fleet was sighted off Hong-Kong is not credited at St. Petersburg. however, as Hong-Kong is far off his route.

ever, as Hong Kong is far off his roofe,

The main question now agitating the navi officials is whether Rojestvensky will elect to proceed northward through the straits of Formosa or bear off into the Pacific through lashic channel, south of the island of Formosa, or Bailing Tang channel, north of the island of Luron. The constitution is growing stronger that the Japanese heavy division is voncentrating and the strain of the strain several hours, the bandlis were driven of and dispersed.

Still in Franch Waters.
Rojestvensky's fleet continues the occupation of Kamranh bay or some other port of Annam, where it is expected it will remain until joined by the third Pacific squadron, according to information received by the Japanese navy department.

At a conference of statesmen and cabinet ministers a strongly worlder protest was sent to France regarding trial regions of the first frequent violations of the neutrality laws in providing shelt-resident from the Franch authorities.

The report that Rojestvensky is maintaining a patrol and examining neutral shipping of Kamranh bay this creases the irritation toward France. The report that Rojestvensky proposes staying at Kamranh bay unit districts of Formosa, it is said that Rojestvensky proposes staying at Kamranh bay unit districts of Formosa, and the stream of the fleet are reported to be phylips between Kamranh bay and Salgon under the merchanting of Russia.

The Japanese press is outspoken in the demonstration of France, it is said Loopthe-Loop Affect Brain.
