Catarrh of one organ is exactly the same as catarrh of any other organ. What will cure catarrh of the head will also cure catarrh of the pelvic organs.

Peruna cures these cases simply because it cures the catarrh.

Teo Careful by Haif.

With "Carefulness" as his motto there is a West Philadelphia physician who never misses a chance to impress on others the necessity of this quality. Since an incident which occurred last week, however, he will probably curb his demonstrative policy. His wife is the reverse of the physician in this respect, and he has constantly warned her regarding her constantly warned her regarding her the head has been been as the fewelry. Going be the head that we have a said a long-side a box of jeweler's awards with which she had been cleaning them. Placing the rings in his pocket and strewing the sawdust to make it seem itse rings had gone down the pipe, he left the house. When he returned that weening the house was in an uproar. The bathroom had been dismattled and all the pipes taken outs and also that she had summored a plumber to explore the pipes. Conscience-smitten, he returned the rings, and his feelings have not been smothered by the receipt of a plumber for \$23.60.—Plaidelphia Récord.

Rate making has been a matter of development; of mutual concessions for mutual benefit. That is why the railroads of the United States have voluntarily made freight rates so much lower in this country than they are on the gray of Europe and community of the country than they are now the lowest transportation rates in the world. "The victim, in this Instance, was subsequently identified as an up State merchant who had come to New York and had completely forgotten his name and address. I saw him a few minutes after he arrived, by a round-about way, at a private sanitarium. He was cheerful, even humorous, in fact, that when asked his name he searched through his pockets and produced an expansive roll of billis, but nothing to identify himself.

"Doctor," he at length said, Tve completely forgotten my name and where I live, but, by jimmoy, I must be somebody somewhere to be carrying as much money as this around."—New York Times.

In the last week of March the Salvation Army celebrated the twenty-fifth anniversary of its establishment. It has cettived most or much of the prejudice originally felt against it, says Everyhody's Magazine. "By their fruits ye shall know them." The success of its American farm colonies has brought Mr. Rider Haggard to the Ufilted States to study its methods. It provides 2,600,600 beds a year for the poor. In the cities it reaches and relieves portions of the population that hardly anybody else seems to be able to deal with. It inculcates self-upport, self-control, and hopefulness, physical and moral cleanilness. It "gets right hold" of people and tries to lift them up. Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent, or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.
