

# THE BARRINGTON REVIEW.

VOL. 20. NO. 12.

BARRINGTON, ILLINOIS, FRIDAY, MARCH 24, 1906.

50 A YEAR IN ADVANCE.

## PALATINE LOCAL NEWS

Gathered and Compiled by A. G. Smith, Local Editor.

Marin French is quite ill at Wilmington, Ill.

Mrs. W. L. Smyser of Des Plaines visited her folks here Friday evening.

Edson and Ernest Baldwin, Will Hockway, Will Oat, Clarence Bennett and Charles Yates have been duck hunting at Cary this week.

The Ladies Aid society will give a next best supper at the Methodist church parlors Tuesday evening, March 28th, from 5:30 to 9 o'clock. Everyone invited.

The bowling alleys have had a tremendous patronage since opening Saturday. The room has been packed each night and the ladies have done considerable playing. The rooms and alleys have been kept in excellent shape by Bob Baxter.

Two tickets are in the field for the village election. The old members of the board consisting of Mrs. Ows, Trustees Duman, Kuebler and Horstmann with G. H. Arps for clerk will be on one ticket and a new ticket headed by J. H. Scherling with Henry Wittenberg, Ross, Schultz and Wm. Heber for trustees and W. H. Brockway for clerk will make things interesting. The election will be held Saturday April 1st but the last ticket may not make a contest in the caucus.

### People's Caucus

The Republican caucus last Saturday afternoon was the hottest contest held for many years. There were 232 votes cast. The contest for commissioner of highways brought out the country voters and the contest for constable and collector brought out the village voters. The following vote was cast:

|                                     |     |
|-------------------------------------|-----|
| J. G. Horstman, supervisor.....     | 106 |
| J. H. Scherling, assessor.....      | 53  |
| Charles C. Meyer, collector.....    | 18  |
| T. F. Faye.....                     | 53  |
| Harry Soupage, clerk.....           | 17  |
| Charles Schlegel, commissioner..... | 17  |
| Wm. Wittenberg.....                 | 13  |
| H. F. Aderman, constable.....       | 13  |
| Herman Harmsen.....                 | 12  |
| W. C. Davenport.....                | 12  |
| C. E. Julian, school trustee.....   | 24  |
| C. H. Patton, justice of peace..... | 21  |
| E. J. Reuter.....                   | 12  |

An independent ticket with F. A. Keyes for collector, Wm. Wittenberg for commissioner and W. C. Davenport for constable has been filed.

### Death of Lyman Peck

Lyman Peck was born in Steuben, county, N. Y., August 31, 1827 and died at the home of his daughter, Mrs. Wm. Nason at Palatine, Ill. on March 20, 1906. Mr. Peck was converted in the early days of his youth and was a member of the Methodist Episcopal church and never lost faith in his God.

On June 20, 1850 he was married to Annand Doherty, who preceded him to the heavenly home a few weeks ago. Two daughters were born to them, Mrs. Sadie Nason and Mrs. Jennie Taylor, who with their families and many relatives and friends mourn his departure. In 1853 the deceased came west and a few years later settled in Palatine where he has since resided.

After the death of his companion and wife he seemed to lose interest. In the temporal things of life and after a brief illness passed to his reward. Mr. Peck was a hard working man and strove with energy against many adversities.

The funeral service was held at the Methodist church on Thursday afternoon Rev. W. H. Smith of Park Ridge preaching the funeral sermon, and Rev. Young the pastor, assisting. The remains were laid to rest beside his departed wife in Hillside cemetery.

### Cannot Do So Now

A Chicago paper lately contained a most severe criticism of the actions of suburban justices of Cook county, and cited one instance where a justice had disposed of 39 cases in one hour giving judgment in favor of a Chicago collection agency, plaintiff. In 26 cases, and issuing immediate executions in all of them.

"That was a pretty good hours' grind but a blot in Police Magistrate Morrison's possession shows a better grind than that. Several years ago a Chicago collection agency started 49 suits before the magistrate then in office on a certain Thursday morning, making the annuities in each case returnable the following Tuesday at 3 o'clock a. m. Judgment was rendered in favor of the agency in 47 of the suits; a nonsuit was taken by the agency in one suit because the defendant was in

court and ready for trial, and one suit was dismissed. Not a witness was sworn, not a word of evidence heard. The agency was the "whole thing," and the time taken up less than one hour.

There was nothing irregular in the proceedings. The law allows of just such court work but it is not every magistrate who will show such partiality.

That same agency is now giving no small amount of attention to the selection of justices in the suburban district this spring. The only chance for the agencies and loan sharks is to get hold of a justice whom they can use.

### Louisa Nieder

Louisa Nieder, of Bern, Kansas, died at the home of her daughter, Mrs. Henry Pepper, Sunday, March 19th, of apoplexy, aged 64 years. Her remains were removed to Kansas Wednesday in charge of Mr. and Mrs. Henry Pepper.

Hear the latest astronomical discoveries Odd Fellow's hall, Saturday evening.

### Barrington Township Caucus

As is usually the case the caucus held in Barrington township last Friday last attracted a large number of voters and especially was the south-west section of the town well represented.

A combination had been formed to completely annihilate John C. Plager, candidate for assessor and A. H. Boehmer, for supervisor, both of whom asked another term of office. John L. Meiners was brought out as a candidate against J. C. Plager, and H. H. Williams, entered the list against A. H. Boehmer, but there was a fog loss in the combination and it failed to work.

The collectorship was the heated contention their being three candidates, Geo. Jenks, Frank Dornier and Stephen Palmer. Mr. Palmer defeated both Jenks and Dornier by a most satisfactory margin.

There was a sharp skirmish between Herman Dornier and Henry Brider for the office of commissioner of highways. Mr. Brider securing the nomination.

Leroy Powers was renominated for town clerk by acclamation. F. H. Frey and A. H. Fairchild for justices of the peace, John Brand and H. M. Hawley for constables.

H. H. Williams will run as independent for supervisor and Herman Dornier for commissioner of highways.

### Fourth Anniversary

To mark the fourth anniversary of its organization Mayflower camp 2582, Royal Neighbors, on Monday evening received the Modern Woodmen and their wives at their hall. The invitations were generally accepted and a large gathering was present to listen to a varied program in which prominent local talent appeared.

The evening was completed with a social reception and carols. Fruits were served.

The four years' existence in the life of Mayflower camp have been marked by harmony and steady increase in membership. Promotion of social life and extension of charity work have made the lodge a source of benefit to members and the public.

Mrs. H. L. Meyer was the lucky person to whom was awarded the fancy quilt.

### Will Ask a Re-election

At the solicitation of a large number of voters Charles B. Morrison, present police magistrate of the village of Barrington, has decided to again be a candidate for that office, and his name will be presented to the caucus to be held April 1st.

Last spring Mr. Morrison was elected to the office by a majority of the popular vote, defeating F. E. Lines, nominee on the so-called People's ticket and H. A. Harnden, nominee on the No License ticket, both prominent citizens of long residence in the community.

The pledge made by Mr. Morrison in that campaign—to conduct the office in the interest of the public and not as an annex to any collection agency—has been carried out, but of course, at the sacrifice of revenue, that class of patrons refusing to start actions in his court because of his pronounced opposition to their unsavory methods of handling claims.

During his incumbency of the office Mr. Morrison has been absent from the village but a majority of the popular vote, defeating F. E. Lines, nominee on the so-called People's ticket and H. A. Harnden, nominee on the No License ticket, both prominent citizens of long residence in the community.

During his incumbency of the office Mr. Morrison has been absent from the village but a majority of the popular vote, defeating F. E. Lines, nominee on the so-called People's ticket and H. A. Harnden, nominee on the No License ticket, both prominent citizens of long residence in the community.

## Barrington Local Happenings Told in Short Paragraphs

### Patronizing home talent.

Township elections Tuesday, April 1.

Ed. Wolfacer of Elgin, was here on business Tuesday.

College trained ponies, Odd Fellow's hall, Saturday night.

Uncle Elgin returns Odd Fellow's hall, Saturday night.

Mrs. P. L. Waterman visited with friends of Elgin this week.

The pupils of the White school are enjoying their spring vacation.

Don't fail to witness the jury trial at Odd Fellow's hall, Saturday evening.

Wanted: Competent girl for general housework. Mrs. M. T. Lamey.

See the latest improved telephone, Odd Fellow's hall, Saturday evening.

Miss Mabel Scott of Boring, was the guest of friends here Monday evening.

Miss Hattie Jones, visited with her mother in Chicago the first of the week.

George Jones of Chicago, visited with his father, W. J. Johnson, Wednesday.

Henry Dornier and bride returned from a short wedding trip Saturday evening.

Tuesday was the first day of Spring and although quite chilly was gladly welcomed.

The Knights of the Globe will have a special meeting at their hall Monday evening.

Mrs. Fred Schumann, who has been ill for several months, is able to be about again.

L. A. Powers attended the meeting of the Wisconsin Division Agent's association in Chicago the 21st inst.

The funeral of the infant daughter of Mr. and Mrs. George Hartung was held at St. Paul's church last Friday.

The Parker building has been nicely decorated and prepared for the millinery and fancy goods store soon to be opened by Miss Jukes.

Clerk Powers of Barrington township has transferred the work of issuing hunting license for that township to Village Clerk Bennett.

Mrs. Henry Baumgarten residing on Williams street, who has been ill for

some time, was removed to a Chicago hospital Wednesday for treatment.

Street Commissioner Donica has his "outing" brigade at work clearing the gutters and cleaning up the thoroughfares.

The brigade of the Salvation Army which has been conducting a warfare here during two weeks departed for other fields Wednesday.

Wm. G. Waterman and John A. Waterman headed the list started by F. A. Lageshulte for the moment fund by each subscribing \$50.

The state game warden will make it interesting for those who hunt without a license this season. To a wise one and secure a license.

The household furniture of the late John Catlow will be offered for sale at public auction on Wednesday April 12th at his late residence.

Miss Anna Bauman announces that she will open her ladies' tailoring and dressmaking apartments in the Waltham building April 1st. Your work is solicited.

A. G. Houghtaling made the highest score, 220 in the boxing contest at Forbes' bowling alleys winning first prize. James McKay took the second prize scoring 246 points.

Now is the time to begin clearing up your premises. If you have no particular regard for the appearance of your own property have in mind the sanitary condition of the village.

Miss Irene Wiseman gave a party to a number of her friends Wednesday evening in honor of her birthday.

A very enjoyable time was spent in playing games after which refreshments were served.

The subjects for discourse at the Baptist church next Sunday by right, L. Kelly, will be as follows: At 10:30 a. m., "Our Commission of Christ." At 7:30 p. m., "Almost Persuaded."

The coming summer promises to be a lively one in this village. The new school building and several projected residences will furnish work for a large number of mechanics and laborers.

Miss Carrie Lohman, who suffered severe injuries at Algonquin last week, is at Sherman hospital, Elgin, and in fair way to recovery, though she will be a cripple for the remainder of her life.

Lamey & Co. have received their spring stock of the celebrated Heath & Milligan paints. You will find it to your advantage to purchase your paints of them. They have a fine line of colors to select from.

Daniel Catlow of Turner, Oregon, who was called here on account of the death of his father, departed for his home Monday evening. Mr. Catlow recently sold his large farm in Turner and may move to Portland, Oregon.

The nomination of Frank Alverton for justice of the peace was a surprise to Frank's many friends. Had they known he was seeking public office his vote would have been much larger. His selection for the office was a good one.

The annual meeting of the Illinois Conference Missionary society of the United Evangelical churches was held at the Adams street church, Chicago, Wednesday. Rev. Haele pastor of Salem church this village presided.

Stephen Palmer had an army of supporters in the contest for the nomination for collector in Barrington township. His friends expected a closer vote. Mr. Palmer is a steady, industrious young man and deserves encouragement.

County Superintendent Gaggin and Homer Cooke, president of the Waukegan board of education, were in Springfield this week to explain the new township high school law, which Mr. Cooke drew and which is now before the legislature.

The Barrington Cornet band is arranging to give one of its popular concerts in the near future. This organization always pleases its patrons and the program to be rendered will be one of the best. Arrangements will be concluded shortly.

Don't fail to hear the renowned Mastodon minstrels Saturday night.

Additional Local on Page 6.

Arnold Schaub is conducting a business house power gasoline engine for parties near Dundee. The parties had investigated a number of engines but it required only five minutes of his time to discover the superiority of "The Barrington."

### Cuba Township Ticket

The electors of Cuba township met in caucus Saturday afternoon at the Lamey building and placed in nomination officers to be voted for at the annual township election called for Tuesday, April 1.

The primary was well attended and the work of constructing ticket very smoothly carried out.

There was no signs of a contest except for the office of collector and that of justice of the peace. Frank Alverton, who was in a candidate against Frank Hollister, failed to show the strength expected by those who were responsible for that gentleman entering the field.

The caucus was called to order by F. H. Plager, at 2 o'clock. M. T. Lamey was chosen chairman, F. H. Plager and C. H. Morrison secretaries, Geo. J. Hager, Fred Kirschner and Geo. W. Foreman judges.

F. H. Plager was renominated for township clerk, Fred Kirschner for assessor, and Geo. J. Hager for highway commissioner by acclamation.

F. J. Hollister and Conrad Kraus were placed in nomination for collector. The vote resulted:

Hollister..... 21  
Kraus..... 21

For trustee acclamation E. W. Riley was named by acclamation.

Edson Harnden was renominated for justice of the peace and John Walsh for constable for the north-east of the township. Ray Fehrutz was named for constable from the south section and F. J. Alverton for justice of the peace. Mr. Alverton defeating F. W. Waterman by a vote of 10 to 2.

M. T. Lamey, Conrad Kraus and Fred Kirschner were named a legal committee.

The General Opinion Shows Little Interest and Disposition to Re-elect Present Officials.

The village election will be held Tuesday, April 18. A caucus for the presentation and nomination of candidates will be held Saturday evening, April 1st.

The general opinion of opinion is that the present officials have given the village a good, clean administration and should be returned to carry forward village affairs for another year.

The situation does not call for opposition to a reelection of the members whose term will expire this spring; there is no issue before the voters which would be benefited in the least by making a change.

Last spring the friends of prohibition tested the strength of the sentiment in the community by placing in the field a complete ticket, made up of representative citizens. That ticket met a sweeping defeat, showing plainly that a large majority of the people were opposed to making this village a prohibition district.

It is learned from interviews with a number of citizens that it is a waste of time to endeavor to change public sentiment on the liquor license question in this village at the present time, and to remain a ticket bearing the "no license" stamp would only result in another defeat.

Therefore the indications are that but one ticket will be asking support and that ticket composed of Mills T. Lamey for president, L. H. Bennett for clerk, Herman Schumann, Silas Robertson and Frank Gieske, or Wm. Peters, for trustees. It will be a People's ticket and one which should receive the support of all classes.

### VILLAGE ELECTION NEXT

The General Opinion Shows Little Interest and Disposition to Re-elect Present Officials.

The village election will be held Tuesday, April 18. A caucus for the presentation and nomination of candidates will be held Saturday evening, April 1st.

The general opinion of opinion is that the present officials have given the village a good, clean administration and should be returned to carry forward village affairs for another year.

The situation does not call for opposition to a reelection of the members whose term will expire this spring; there is no issue before the voters which would be benefited in the least by making a change.

Last spring the friends of prohibition tested the strength of the sentiment in the community by placing in the field a complete ticket, made up of representative citizens. That ticket met a sweeping defeat, showing plainly that a large majority of the people were opposed to making this village a prohibition district.

It is learned from interviews with a number of citizens that it is a waste of time to endeavor to change public sentiment on the liquor license question in this village at the present time, and to remain a ticket bearing the "no license" stamp would only result in another defeat.

Therefore the indications are that but one ticket will be asking support and that ticket composed of Mills T. Lamey for president, L. H. Bennett for clerk, Herman Schumann, Silas Robertson and Frank Gieske, or Wm. Peters, for trustees. It will be a People's ticket and one which should receive the support of all classes.

### Will Talk of Woman's Clubs

Mrs. Harriett Fox, a representative of the Chicago Woman's Club, and who was for three years the corresponding secretary of that organization, will give an address at the residence of Mrs. M. C. McIntosh, Saturday afternoon, March 25, at two-thirty o'clock.

The address will be in reference to the work done and the benefits derived from the Federated Woman's clubs.

The object of the meeting is to organize a Woman's club in Barrington. A number of women are already much interested in the project and have been invited to meet Mrs. Fox and assist with the program of the afternoon.

The committee on arrangements, and by whose invitation Mrs. Fox comes to Barrington consists of: Mesdames T. J. Reid, M. C. McIntosh, M. T. Lamey and Leroy Powers.

Subscribe for the home paper.

## WAUCONDA MENTION.

Succinctly Told by Our Regular Correspondent.

March is keeping up its reputation. Leo Matman was on the sick list the first of the week.

H. T. Fuller and wife were city visitors on Tuesday.

Homer Sessor who has been employed in a meat market at Cary for the past six months returned home the first of the week.

Dr. L. E. Goding who recently moved to Libertyville made his first weekly call in our village Monday. He reports very favorable of his new location.

The St. Patrick's ball given by the Woodmen last Friday evening was not very largely attended account of the inclement weather. Only 30 players were sold but a very pleasant time is reported.

A wedding reception was tendered by Mrs. and Mr. Gross at their home Saturday evening by the Ladies Aid society. About 40 guests were present and a very enjoyable evening is reported.

Mr. and Mrs. J. C. Price and family spent Sunday and Monday with relatives in our village. Mr. Price left for St. Paul Tuesday where he has secured employment in the North Western Railway offices. His wife and family will remain here until May when they will also go to St. Paul to make their future home.

The firm of Golden Bros. which has been in the general merchandise business in our village for the past 22 years has dissolved by mutual consent. Henry Golden the senior member of the firm selling his interest to Frank A. Harrison. There will be no interruption of business, the new firm taking hold at once and we wish them the same good success as was had by the old firm. Henry Golden however will not retire from active business as he continues the agricultural implement and carriage and wagon business and will now devote his exclusive time to that business.

### Town Caucus

Town caucus was held at the Engine house Saturday afternoon from 2 to 5 o'clock. The Australian ballot system was used which proved very satisfactory. There was not very much excitement, the only opposition being for collector between John Dove and Volter Stone, the latter winning out and for highway commissioner district No. 2 between Geo. Baum and Wm. Clark, the former winning, 122 ballots were cast and the ticket as nominated is as follows: Town Clerk, Arthur S. Powers, Assessor, Joe E. Gieske, collector, Volter Stone, Highway Commissioner District No. 2, Geo. Baum, Justice of the Peace, south end, E. W. Brooks, north end, J. H. Bennett, who withdrew in favor of J. Giff. Constable, south end, L. Wheeler, north end, Jake Wertz, Town Committee elected for ensuing year Edgar Green, Warren Powers and Herman Matman.

### Boom the Railroad

A rousing railroad meeting was held at Oakland hall Saturday afternoon for the purpose of soliciting subscriptions for the proposed electric line from Beekesville to our village. About \$4000 was subscribed and since then it has been increased to \$6000. Mr. McMullen of Chicago was present and addressed the meeting as well as several local men, and if all will now come forward and subscribe as they should, we can secure the road. It will be a benefit to every one in the village and community surrounding within a radius of 4 to 5 miles and the benefit to be derived by every farmer will be great and the amount of his subscription within a year of its completion and operation. If we get the road, we will have a milk bottling plant, a lumber and coal yard and many other local improvements. Every acre of land in the community will increase in value from \$10 to \$15 an acre and now while this opportunity is knocking at our door, don't let it slip by. We must have the support of every property holder in the community.

### 75c Skirt Sale

Ladies' stylish, well-made street skirts, 29 cent sale. Prices less than one-half regular rate. This purchase enables us to sell skirts which originally cost \$1.50, 2.00 and 2.25 at 75c. Make an early selection and get the best. C. F. HALL CO., Dundee.

Do you want to see a haunted house? Go to Odd Fellow's hall, Saturday evening.

## HIDDEN PUZZLE PICTURE.

Find a Sober Man.

## BOILER BURSTS KILLING SCORES

Estimates of Dead Reach  
Eighty, With 100 as Num-  
ber of the Injured.

### PINNED BENEATH HEAVY BEAMS

Workers Who Escaped the Fury of  
the Explosion, Endeavoring to Ren-  
der Aid to Unfortunate Friends,  
Driven Back by Heat.

Brockton, Mass., dispatch: Fifty-three bodies have been taken from the ruins of the big shoe manufacturing plant of R. B. Glover & Co., which was destroyed by a boiler explosion and fire Monday.

Seventy bodies have been identified, but only three or four positively. Fifty-three persons are known to be missing, the names of thirty-one of whom have been obtained.

The estimates of the dead range from sixty to eighty, and of the injured from fifty to one hundred.

The catastrophe resulted from the explosion of a 150-horsepower boiler in the basement. The factory had a 200-foot frontage, was 200 feet deep and had an "L" in the rear. The explosion was directly under the "L," and it was there that all the loss of life occurred.

While not a few of the victims met instant death, nearly all of them were pinned under timbers or borne down by debris and died in great agony by fire.

The factory structure was of wood, and when it fell flames leaped from the ruined boiler pit and spread over the wreckage.

The entire plant was in ashes within an hour.

### Fellow Workers Are Rescuers.

More than 400 persons were at work in the part that was wrecked. Scores of them were dropped out from under timbers and machinery by employees from the main building, but the rescuers hardly had begun their work when they were driven away by fire.

For a time after the rescuers entered with long poles, trying to pull timbers so as to allow the injured to escape.

But even the best method of saving had to be abandoned and the screaming victims were left to their fate.

The disaster was attended by one mystery. This was the inexplicable disappearance of David W. Rockwell, the engineer. During the day Rockwell was expected as having died.

Eight Buildings Burn.

The fire extended from the factory to seven other buildings in the vicinity and destroyed them. One of these buildings was a three-story wooden block owned by Charles F. Bullough, the others being cottages of small value, and a blacksmith shop.

The total financial loss is estimated at \$250,000, \$200,000 of which falls on the R. B. Glover company. The monetary losses are nearly offset by insurance.

It may never be known just how many persons perished in the wreck, as no one knows exactly how many persons were in the factory.

The number has been estimated at 400, but Treasurer Charles O. Emerson said he doubted whether there were so many at work.

### Explosion Twists Wreckage.

Roosevelt Adding to His Home.

New York, dispatch: Ground has been broken for an addition to President Roosevelt's Sagamore Hill home. The addition will be 424 feet at the base, and will make a great improvement in the appearance of the house.

Falling Walls Kill Lad.

Morris, Ill., dispatch: Report Knudsen, 14-year-old, was killed and six other persons were injured by the collapse of a side of the new building of the Woolf Leather company.

by such a loss of life and entailed appalling instances of human suffering, occurred shortly after the operatives had settled down to work for the day.

Suddenly the air vibrated with the roar of an explosion. At the same moment the larger wooden frame of the factory, a four-story structure, quivered and then the rear portion of it collapsed.

In a fraction of a second this section of the great building had been twisted into a tangle of iron and wood wreckage, in the midst of which human beings were pinned.

In another moment fire had broken out in the debris and death by fire and suffocation became the fate of scores of the operatives.

When the boiler exploded it shot upward almost perpendicularly, tearing through beams as it went and killing many. After rising high in the air, it descended half the distance and then, sweeping northward, cut its way through a double-house fifty feet away and pierced another building.

Scorching and demolishing the latter structure. Here its course was stopped.

Floors Give Way.

Scenes of horror followed the wrenching apart of the factory building.

In the rear the three upper floors, weighted as they were with heavy machinery, collapsed with a crash that was heard for blocks.

Men and women operatives busy at their machines had time but to turn in an attempt to flee after the first dull roar, when the floors sank beneath them and they dropped to the ground floor, crushed and bruised in the mass of debris.

Many fell into a veritable fiery furnace.

Scarcely had the rear portion of the structure collapsed when a tongue of flame started up from the boiler pit, rushed out to splintered wreckage, and immediately afterward enveloped the standing wall.

The entire factory soon was in flames.

### INDIANS WIN MILLIONS IN SUIT

Government Must Pay Claim of Cherokee With Interest From 1838.

Washington, dispatch: The cases of the Cherokee Indians against the United States, filed in the court for the removal of the Indians from Georgia, Alabama and Tennessee to Indian Territory, have been decided against the government. The court holds the United States liable for \$11,724,444, with interest from June 12, 1838, which amounts approximately to \$20,000,000. This is brought about by the failure of Congress to make an appropriation carrying out the terms of a treaty.

### Inspect Electric Line.

St. Louis, dispatch: A party of Chicago and St. Paul capitalists has arranged to go over the line of the proposed electric railway that is to connect Altonville with Elgin. There are two routes projected, a south and north line, and the men of money will decide which is the more feasible.

### Los Moure Kills Veteran.

St. Louis special: St. George has been received here from St. Genevieve, Mo., of the death of Leonard N. Gloor, sergeant of Battery A, Missouri National Guard, killed in the Spanish American war, by the falling of a log house wall on a ranch near there.

### Noted Horse Dealer Dies.

New York, dispatch: William Clayton, one of the best-known trainers and breeders of harness horses in the country, whose sale of American horses in Russia netted him a fortune, died here from accidental asphyxiation.

### Tramps Start Locomotive.

Sterling, Ill., dispatch: Two tramps, after stealing a switch engine in the Chicago, Burlington and Quincy railroad yards in Rock Falls, ran it for nine miles, abandoning it when the steam was exhausted.

### Pick Wisconsin Orator.

Rice, Wis., dispatch: Franklin B. Sayre of Beloit won the literature grade optional contest and will represent Wisconsin in the Interstate contest at Monmouth, Ill., May 4.

## PASSING PATROL IS BOMBARDED

Missile Thrown From Window  
at Warsaw Injures Police  
and Soldiers.

### WORKMEN AND PEASANTS JOIN

Internal Troubles of Russia Continue  
to Grow in All Directions, Labor  
Leaders Threatening to Renew Gen-  
eral Strike.

Warsaw, March 22.—A bomb thrown from the window of a house in Volok street at 9 o'clock Tuesday evening exploded in the midst of a passing patrol composed of police and infantry. Six soldiers and two policemen were dangerously wounded. They were removed to the military hospital. The assailant escaped.

### RUSSIA FACES REBELLION.

St. Petersburg, March 22.—Reverberations and extensions of agrarian troubles are noted as near Lithuan workmen and peasants are making common cause. The Czarists are already the scene of armed resistance to the force of civil authority, and in the region around Riga, where the peasants are increasingly bold, there have been many cases of violence.

The labor leaders of the social revolutionist persuasion in the great industrial centers are plainly planning to synchronize a general renewal of the strike with the climax of the peasant disorders and, with the action of the troops in mind, have been serving notice by many letters and other warnings on guard officers here and officials in other cities that if another "red Sunday" comes and they are not met with a show of force, they will feel responsible therefor and their lives will be made the forfeit.

### Zemstvo Makes Demand.

The Moscow assembly of zemstros is forcing the hand of Interior Minister Bogdanov in the matter of the reform of March 3 and has taken the bold step of practically demanding that the minister accept the services of zemstvo delegates throughout the empire in the new government organization to be created under the new constitution. A strong hint is given that the present is no time for delay. Minister Bogdanov is now told the number of delegates he should summon from various urban centers.

The action of the Muscovites, which was not intended to force any other result, indicates a strong determination not to permit the movement to slumber or come to naught.

### Police Chief Becomes Governor.

M. Lapinski, chief of secret police of the Russian government and governor of Lithuania, a Baltic province of Russia.

A newspaper in the Caucasus gives details of the burning of the administrative buildings recently in several places. It is reported that the burning of an apartment building in the city of Princeps Murat at Rika, in the Zud district, at which the police were obliged to fire on the rioters, many of the latter being wounded.

### MAY DISSOLVE TOBACCO TRUST

Stockholder in Court to Have Merger Set Aside as Illegal.

Trenton, N. J., dispatch: Richard T. Dana, administrator of the estate of Richard S. Dana, has filed in the court of chancery a bill to have set aside as illegal the merger of the American Tobacco company and the Consolidated Tobacco company and the Continental Tobacco company into the American Tobacco company. Mr. Dana holds fifty shares of stock of the original American Tobacco company. He asserts the merger was effected through the use of a trust, and that Richard S. Dana, and that it is in violation of the state and federal constitutions. He also holds that the merger is an impairment of contract.

He claims not only that his friends, but the directors, as defendants in his suit, among others James B. Duke, Thomas Dolan and Thomas F. Ryan are party defendants.

### UNIVERSAL UNION IS PLANNED

W. D. Hayward of Western Federation Asserts Outlook Is Bright.

Denver, Col., dispatch: Plans for a giant labor union that shall offer membership privileges to every advocate of organized labor on the face of the globe are progressing favorably, according to W. D. Hayward, secretary of the Western Federation of Miners. He asserts he has received promises of support from persons who promise to attend the first convention in Chicago June 27. Hayward and W. L. Hall of Chicago are the prime movers in the scheme. The former claims the support of many socialist labor leaders.

### NEW SENATOR FROM MISSOURI.

Republicans Finally Agree to Confer  
Toga on Major Warner.

Jefferson City, Mo., dispatch: With a riot in which bottles, books and spittoons were thrown, the republicans, ten minutes before the time set for the final adjournment of the general assembly, finally came together Saturday on Major William Warner for United States senator. He was chosen by a majority of three votes, after seven ballots had been taken.

## STANDARD OIL GUARDS GIVE UP SACK OF GOLD

Former Deputy Sheriff and Messenger  
Obey Command of Bandits to  
Yield \$10,000 in Hard Money.

Berkeley, Cal., special: Two highwaymen held up J. B. Daly, an Oakland liverman who was acting as a messenger for the Central bank of Oakland, and robbed him of \$10,000 while he was on his way to the Standard Oil refinery at Point Richmond Monday.

One of the robbers was tall and the other short and stout. Both carried revolvers, but only the taller of the men wore a mask. The short man had a heavy black beard.

The robbery took place at a point on the roadway between Stege and Point Richmond. The highwaymen jumped out of a clump of brush at the side of the road and at once covered Daly and messenger, Deputy Sheriff Houch, who was riding with him. At the point of revolvers Daly and Houch were compelled to jump from the buggy and give up the sack of gold. The robbers tied them to a fence and placed guns in their mouths.

Daly and Houch freed themselves after much difficulty and proceeded to Stege station, on the Southern Pacific, about half a mile from the scene.

It had been thought that the Central bank had sent the \$10,000 to the Standard Oil plant for the day of the employees once a month, and the robbers were undoubtedly acquainted with the fact.

### NOT DAUGHTER OF CARNegie

Mrs. Chadwick Never Asserted Mil-  
lonaire Was Her Father.

Cleveland, Ohio, dispatch: "It has been said repeatedly that I had asserted that Andrew Carnegie was my father, I deny that, and I deny it absolutely."

This statement was made in an emphatic manner by Mrs. Cassie L. Chadwick. Continuing, Mrs. Chadwick said:

"It has been reported that I made the statement that Judge Taylor was my father. I deny that. I want that denied. I do not think that he was. Prosecuting Attorney Sullivan and Marshal Chandler have been unfair and utterly prejudiced. It is easy to see Mr. Taylor's attitude in the matter, for all the first one rushed to trial. Even the man indicted with me, Mr. Spear, has been tried."

"I am not a party to any conspiracy, and if any such existed it was without my knowledge. I negotiated many loans with other banks than the Standard National bank."

"I did business with the Oberlin bank just exactly as I did business with the Cleveland banks."

### HUNT FOR GEMS WORTH \$40,000

Mystery in Theft of Leach Jewels  
Near New York.

New York, dispatch: Notices sent out to pawnbrokers by a detective agency indicate that the gang of jewel robbers who has been operating in the police of this city has not confined its operations to New York. The detectives have been engaged to recover some \$40,000 worth of jewelry stolen on March 10, the residence of Arthur B. Leach at South Orange. The robbery bears all the signs of the jewel robberies in this city during the last few months, and has been discovered by the thieves entered the house or how they got away. They left no trace outside. The Leach family retired in the evening and the jewels were discovered missing the next day. Mr. Leach is a member of the firm of Farson, Leach & Co., bankers of this city.

### CUPID LAUGHS AT BACHELOR

Andrew Freedman of New York Is to  
Marry Elsie Rothschild.

New York, dispatch: After a romantic courtship hardly to have been expected of a practical politician, Andrew Freedman and Miss Elsie Rothschild, the handsome daughter of Mr. and Mrs. Jacob Rothschild of this city, have become engaged. Mr. Freedman is 40 years old and his friends in Tammany Hall and in baseball circles were prepared to see him end his days as a bachelor. Owing to his swift advance in prosperity Freedman has become a picturesque figure in New York life.

### TAX FERRETS STIR UP TROUBLE

Illinois Property Owners Make Attack  
on County Officials' Methods.

Uniontown, Ill., dispatch: McLean county residents have declared war against the tax ferrets. Two important suits were filed, one by Thomas Correll, who demanded the return of the county treasurer in requiring him to pay taxes uncollected by the tax ferret, and another by E. W. McGee, against the county treasurer, requiring him to show cause why he employed the tax ferret as attorney.

### CHADWICK PROPERTY IS SOLD

Household Effects Disposed of at Auction  
to New York for \$25,200.

Cleveland, O., dispatch: The household property of Mrs. Cassie L. Chadwick was sold at auction Friday to A. D. Nelson of New York for \$25,200. Samuel L. Waterman of Chicago was the second highest bidder, offering \$23,100. There were twenty bidders. Mr. Nelson bought the Chadwick property for an art gallery in New York city.

## Advancing Old Age

Is detected by a gradual loss of elasticity in the outer skin which slowly turns ashy and into wrinkles.

## WOODBURY'S FACIAL SOAP.

Keeps the skin firm, wholesome and well nourished, thus retarding the progress of time. For over 30 years this Face Soap has been indispensable to its acquaintances.

25 cents A CAKE.

Woodbury's Facial Cream applied regularly whitens and preserves the natural condition of the face skin.

INITIAL OFFER.

In our year's experience we have found that the best way to keep the skin in good condition is to use Woodbury's Facial Soap. It is the only soap that is so gentle and so effective. It is the only soap that is so pure and so clean. It is the only soap that is so good for the skin.

Together with our regular booklet "Beauty and Health" a useful treatise on the care of the outer skin.

Booklet free on application.

THE ANDREW JERGENS CO., CINCINNATI, O.

## How Fish Eat.

The curious ways in which fishes eat form a study. Some fishes have teeth, and some have none at all. In some the food is forced upon the tongue, in some in the throat, and in some in the stomach. Some draw in their food by suction; the starfish is one of these. The jellyfish plunges its food by wrapping its body around the prey it covets.

The starfish fastens itself to its victim, turns its stomach around and around and engulfs its dinner without the necessity of swallowing it through a mouth part, much less asking permission.

Then there is a peculiar little crab called the hermit crab, which crawls about with its legs outside its shell. It passes the morsels over its back, while other crabs and lobsters mutilate their food with their jaws.

Many fishes complete the work with an extra set of teeth which they find conveniently located in their mouths.

So there are all sorts of methods for these remarkable creatures, and the fishes which have teeth show almost as great a diversity in the number, style and arrangement of them. The ray or skate "has a mouth set transversely across its head."

An Ex-Sheriff Talks.

Scott City, Kan., March 20th.—(Special.)—Almost every newspaper tells of cures of the most deadly of kidney diseases by Dr. J. B. Riddle's Pills. Bright's Disease, Diabetes, Rheumatism and bladder troubles, in fact any disease that is of the kidneys or caused by diseased kidneys, is readily cured by this great American remedy.

But it is in curing the earlier stages of kidney complaint that Dr. Riddle's Pills are doing their greatest work. They are preventing thousands of cases of Bright's disease and other deadly ailments by curing kidney disease when it first shows its presence in the body.

Speaking of this work Ex-Sheriff James Scott of Scott City, says: "I have used eight boxes of Dr. Riddle's Pills and must say that they are just the thing for kidney troubles. We have tried many kidney medicines but Dr. Riddle's Pills are the best of all."

Thomas Hardy in Literature.

"What, then, do you think of the state of literature today?" was a question recently asked Thomas Hardy by a London interviewer, to whom he replied: "The fatal defect of modern literature is the absence of a philosophical standpoint and what lacks that can neither be of the highest quality nor enduring. Descriptions of life, however brilliant or varied, are not as life as a whole, some sustained criticism—some view of modern knowledge—on the relations of man to the universe, both now and in the past, are essential in literature, and these we now look for largely in vain."

## FACE LIKE RAW BEEF.

Burning Up With a Terrible Itching Eczema—Cured by CUTICURA.

"Cuticura cured me of a terrible eczema from which I had suffered nearly a year for eight years, before I was able to obtain any help from the best doctors. My scalp was covered with scabs and my face was like a piece of raw beef, my eyebrows and hair were falling out, and I felt as if burning up from the terrible itching even in a short time. My head and face are now clear and well. (Signed) Miss Mary, Fair, 75 West Main St., Westboro, Mass."

And pain. Cuticura gave me relief the very first day, and made a complete cure."

Club-Whirling Champion.

A man named Burrows whirled in circles continuously on the stage of the Canterbury Music hall, London, for forty-four hours and seven minutes and is now the champion club whirler.

The coming railroad novelty will be called a "hydroelectric." The motive power will be water power converted into electric energy. Pioneer roads on

## NOTES OF THE RAILWAYS

Frisco System's Plan to Provide Homes For Its Employees.

ROCK ISLAND'S NEW EQUIPMENT.

Leave Order Placed For Freight and Passenger Cars, Also Locomotives. Tidy Sum Settled by Santa Fe Railroad's Sale of Chertolium.

Adopting a French plan for amalgamating the interests of the corporation and its employees, B. F. Younk, chairman of the executive committee of the Frisco system, has decided that a homestead will be provided for every employee of the system, from vice president down to the section hand, says the Chicago Tribune. By this method Mr. Younk hopes to establish an "entente cordiale" among the employees and a closer affiliation with the corporate interests than on any other road in America. One of the things which it is expected to accomplish is the elimination of strikes.

A careful survey of the situation in France was made by Mr. Younk, and he studied the plans which he found to be working satisfactorily on several of the roads in that country. So pleased was he with what he saw that he decided to introduce the same plan in the United States, and the first experiments are to be made on the Texas line. It is declared that already a majority of them have signified their intention of taking advantage of the plan.

The idea is to sell to every employee a parcel of five or ten acres of land tributary to the railroad, equipped with water and at a fair value, to be paid for in ten years, deferred payments bearing a low rate of interest. One of the provisions in the contract is that in case an employee who has availed himself of this privilege dies or is killed in an accident while in the service of the company the land is to be devoted to his wife or family without further obligation on their part.

It is provided further that should an employee discontinue his service with the company from any cause whatever before the completion of his contract all the money paid in by him will be returned, together with interest at the rate per annum that has been charged against him.

The Rock Island system has placed a large order for new equipment, says the Kansas City Times. It includes twenty new pattern passenger cars from the Pullman shops. Two of them will be seven foot clear cars, furnished with six foot four inch reclining chairs and both electric gas and electric lighting fixtures and electric fans for ventilation and cooling. The other ten cars are six foot four inch reclining coaches, each with seating capacity of eighty. The cars will have an interior finish of Mexican mahogany, with green or orange upholstery.

There is also an order for 1,000 freight cars of various kinds for the Rock Island and also fifty locomotives in addition to the sixty-five locomotives of various types. The latter includes twenty Pacific type passenger engines and ten Atlantic type. A large part of the new passenger equipment will probably be put in service on the through trains from Chicago and St. Louis to Colorado and El Paso.

The annual report of the Santa Fe system for last year brings out the fact that the company is a large dealer in chewing gum, says a Los Angeles special dispatch to the St. Louis Post-Dispatch.

Some interesting statistics have been compiled showing how trading articles count up in a year on the Santa Fe system. In the ten stations between Chicago and the Pacific coast are six machines containing gum. Into these machines last year were dropped 1,150,000 pieces of gum, the sum aggregating \$11,500.

The plan used by officials and employees of the Santa Fe system last year weighed 1,000 tons. The depot and offices alone 200,000 brooms were used. The food pencils used, if placed end to end, would make a line over 325 miles long.

From what is known as the "carap bean" the company realized last year \$1,250,000. This included almost everything from a single nut to a worsted locomotive. Over \$200,000 was realized from the sale of soap paper alone.

Plans have been prepared for the rebuilding of all freight cars on the Pennsylvania system, says the Chicago Tribune. The new numbers will range from 1 to 100,000, the series from 1 to 50,000 having been assigned to the lines east of Pittsburgh and from 50,000 to 100,000 to the lines west of Pittsburgh. Of the lines west the box cars will range from 50,001 to 60,000, refrigerator from 60,001 to 65,000, the stock from 65,001 to 70,000, the hopper from 70,001 to 75,000, the gondola from 75,001 to 80,000, the coke from 80,001 to 85,000, the flat from 85,001 to 90,000, the caber from 90,001 to 95,000 and the miscellaneous cars from 95,001 to 100,000.

## BILIOUSNESS AND CONSTIPATION CURED BY THEDFORD'S BLACK-DRAUGHT

Because the liver is neglected, people suffer with constipation, biliousness, headaches and fevers. Colic attacks the lungs and contagious diseases take hold of the system. It is safe to say that if the liver were always kept in proper working order, illness would be almost unknown. Thedford's Black-Draught is so successful in curing such sickness because it is without a rival as a liver regulator. This great family medicine is not a strong and drastic drug, but a mild and cathartic laxative that cures constipation and may be taken by mere child without possible harm.

The beautiful action on the liver cures biliousness. It has an invigorating effect on the kidneys, because the liver and kidneys do not work regularly, the poisonous acids along with the waste from the low-down liver get back into the blood and vitiate the circulation.

Timely treatment with Thedford's Black-Draught removes the cause of the trouble, and will positively conquer the invasions of biliousness, for which disease in advanced stages there is no cure. Ask your dealer for a free package of Thedford's Black-Draught.

### Hunting With Wolves.

E. S. Shepard of Illinois, who has trained a band of wolves which are being used in hunting the animals known as the "wild" animals, has taken the trail of one of his animals which they are placed, says a Milwaukee dispatch. A Milwaukee hunter recently captured the trained animal and went on a hunt for three days and brought back seventeen deer, nine of which were killed. The hunter is a large and unusually tame animal and easily controls his pack while in the field. The owner says he does not feed them for two days before sending them out, which makes them eager and swift on the trail. The wolves are even used to capture other wolves, which are killed and skinned for the state bounty.

### Flowers in Fancy Colors and Shapes.

The application of colors other than those natural to the flowers is very much resorted to this season, says the Milwaukee Trade Review. Lilacs are dyed in every fashionable tint, plain or glaze. Another flower which lends itself to such treatment is the ten week glaze. Forgetting to be in bud in all shades of colors, well as its own light blue and also in vivid green. These and other flowers are made good use of, but

people continue to hold the proud position of prime favorites. There is a tendency not only to preserve them in all colors, but also is a variety of strange shapes. There are full blown roses the petals of which lie almost flat. Some of these have the heart quite on one side instead of in the center.

Closing of Saloons to Help Farmers. Woodland, Cal., was a pretty dry town the other Sunday night. The saloons here of this town are closed their respective places of business at 11 o'clock that evening, and the saloons of the saloons were not, says a Woodland correspondent of the Sacramento Bee. The saloon men say they are doing it in the interest of the farmers, who from time to time have complained that they cannot get their work Monday morning on account of the saloons. By closing at 11 o'clock, it is maintained, the working men get a chance to sober up and get home. The early closing movement will probably be continued throughout the summer.

## WORK ON PANAMA CANAL

Lafayette Young Tells What Has Been Done There.

### PROBLEM OF LABOR THE GREATEST

Des Moines Newspaper Publisher Who Visited the Isthmus Says Average Worker Is Not Worth Five Cent-Dealers (and Will Cost Many Millions in Excess of All That) (Lafayette Young, Engineer, Wallace).

Lafayette Young, publisher of the Des Moines Capital, recently arrived at Chicago from Panama, where he spent three weeks on the isthmus. In an interview with a representative of the Chicago Post Mr. Young said: "The American people must have patience if they want a canal. The thing that surprises the visitor to the isthmus most is the amount of time and work and the amount of good work that has been put on the canal by the French company. Uncle Sam got a good bargain for his money, and a still better bargain in the time and skill which the canal zone. Without the canal zone the United States would have been subjected to everlasting anarchy from the revolutions so common in the South and Central American states."

"The Americans are gradually acquiring an organization for the canal work. Chief Engineer Wallace has numerous corps of engineers making surveys which will be the basis of estimates after which it is expected that Congress will determine whether or not it shall be a lock or a sea level canal. Every effort comes away from the isthmus with the conviction that the canal ought to be on the sea level. The lock canal is as much out of date as the hand sawing machine. If the French had built the canal on the sea level,

**FULLY GUARANTEED!** Large Bottles 50c and \$1

**SOLD AND RECOMMENDED BY** **Barrington Pharmacy**

which they were working less than 40 per cent of the vessels desiring to get through could have done so, and the Panama Canal would not have gone that way.

"Every visitor goes to Panama regarding the canal as a great international project for the good of humanity. He comes away thinking of the canal as a purely local proposition, hampered in its construction by all kinds of difficulties. The climate is hot, fevers and malarial are well nigh universal, a large part of the inhabitants are too busy to work and only work long enough to get money with which to buy rum, and they regard government policy as a means of graft. The problem of labor is the greatest one. The average worker is not worth 5 cents an hour."

"A considerable number of Americans continue to visit the isthmus. Some are looking for locations and some are investing capital. Titles to land are hard to secure and are considered unreliable. The soil of the isthmus is as rich as any on earth and wonderfully productive. I saw some good southern cattle which were sleek and in good order. The sanitary department is cleaning up Panama, and the system of drainage and water supply will soon be completed. Certainly a great deal has been done in all departments toward starting the canal work. The sanitary department is making its fight against the mosquito, which is cleared with all the transmission of yellow fever."

"The canal organization is in some what jumbled shape because so many employees become discouraged and go home. There will be a long working out of the canal. The canal department and assistants shall be permanent. Chief Engineer Wallace is the one reliable, relentless worker. No missionary among the 100,000 could be more devoted than he, and the republic will be fortunate if disease shall spare him to complete his work. Mr. and Mrs. Wallace live in the building which the French had put up in the heart of Panama for their canal director. The house has been overhauled and thoroughly cleaned, and bathhouses have been erected. Bathhouses have been erected in Panama. Mr. Wallace built a shed on the roof of his house to catch the breezes and some American newspaper correspondence gave out the impression that he had built a roof garden. The shed was built for \$300, and the temperature on the roof is 5 per cent cooler than in the house, which alone justifies the expenditure."

"Once a week Mr. Wallace visits the great Chiriqui cut, where about 2,500 men are employed digging the canal through the great hill. The two openings of the canal into the two oceans afford a secure harbor at the present time in case of storms."

"The canal will cost many millions in excess of all estimates, and unless the people are prepared to consent to the money cheerfully they had better stop now. But it will be a great civilization. It will make the little republic of Panama the only stable government in South and Central America and will be a proud day for John F. Wallace if he shall live to reunite the two oceans after 6,000 years of separation."

Flat chests are over-crowded just now, for the crystal craze has come upon us, and the desire is that every thing, from dishes to tables must be of glass, says the New York Press. These crystal tables offer unlimited opportunities for artistic effects, for they are lighted from beneath, and colored glass sheets fastened to rollers beneath the table, which are changed constantly as the courses are served. For instance, at the fish course the table sometimes has the appearance of a miniature lake, with myriads of fish swimming about. With the game a bird scene may be arranged, and so on through the dinner. There should be no dearth of conversation at these special repasts, and the glass dinner set no longer will have to shuffle for a topic of conversation.
