

ROOSEVELT IS AT WASHINGTON

Nation's Chief Is Welcomed to Capital With Booming of Artillery.

INCIDENT OF THE SEA TRIP

Executive Throws Coal on Fire Under Boiler With Decorated Shovel, Which Is Demolished and Given to Men for Mementos.

Washington, Nov. 1.—To the booming of a salute of twenty-one guns, the spirited playing of the "Star-Spangled Banner" by the Marine Band, and the cheers of a crowd which gathered at the navy yard, President Roosevelt stepped ashore from the Dolphin shortly before noon Tuesday, looking bronzed and hearty from his Southern trip and long sea voyage.

He drove to the White House with Mrs. Roosevelt, who had driven to the landing in a landau. He took luncheon with his family and immediately went to the executive offices and plunged into the mass of work which had accumulated on his desk.

The incidents of the arrival and landing were according to arrangement. Two hours before the Dolphin reached her moorings people began to gather at the navy yard wharf. For an hour an escort of marines, headed by the marine band, were in line facing the wharf.

Battery Fires Salute.

When the Dolphin showed around Arsenal point and left the Potomac for the eastern branch the firing squad manning the saluting battery got ready for action. Ten minutes before the landing was made the salute was fired from the yard battery and immediately answered by the Dolphin by the President, Secretary Loeb and Surgeon General Rixey stood on the upper deck at the stern. The President was much interested in the morning papers, which had just been put aboard from the police boat Vigilant.

When he looked up he caught sight of Mrs. Roosevelt and exchanged salutes. The crowd took to the greeting and the President smilingly acknowledged many signals of welcome.

As soon as the gang plank was in place the "jackets" mounted the gun rail the entire length of the ship on the shore side, and the President came ashore while the "boson's" pipe sounded. During this mark of honor the flag came down from the mainmast. As he stepped ashore the bugles sounded and the marine band played "The Star-Spangled Banner."

The President stood under the awning of the porch and marines stood at attention. Enjoys Southern Trip.

It was intended that the marines should escort the president to the navy yard. But at the conclusion of the tribute to the flag Mrs. Roosevelt drove up from behind the guard, her husband entered the carriage, warmly grasped the hand of the president, the carriage proceeded out of the yard. As the many huge shops were passed, the workmen rushed out and cheered.

President Roosevelt regards his Southern trip, which completes a tour of the country since his inauguration, as a most enjoyable and profitable experience. Particularly did he enjoy the sea voyage, and he expressed himself in the most enthusiastic terms regarding the ships, officers, and men of the squadron.

While at sea Sunday the president made a speech to the officers and men of the West Virginia. He had just completed an inspection of the entire ship. In the boiler, in the prospectively decorated shovel was put into his hand, and he was asked to throw a shovel of coal into a particular boiler furnace. He threw in two, and the boiler was immediately christened the "Roosevelt boiler." The shovel was passed around that every stoker might shovel coal with it. It was then again demolished, each bit being retained as a souvenir.

SLAYER PLANNED TO RAID BANK

Le Duc Meant Robbery When He Killed Chicago's Mayor.

Bloomington, Ill., dispatch: William Le Duc, who killed Mayor Nickel and Hugh B. Jones at Chenoa Saturday, planned a raid on the bank with hopes of escape. He was with his mother's home Saturday and bade her farewell, saying that he intended to leave the country. The loss of \$2,000 in the settlement with his wife after she left him and negotiated with the mother's attorney brother-in-law, is believed to have preyed on his mind that he hoped to recoup his losses through a raid on the bank and escape. The marvelously quick gathering of people on the streets prevented his plans and he was forced to retreat to the vault. He burned \$1,500 in paper money in the vault, but left the silver untouched.

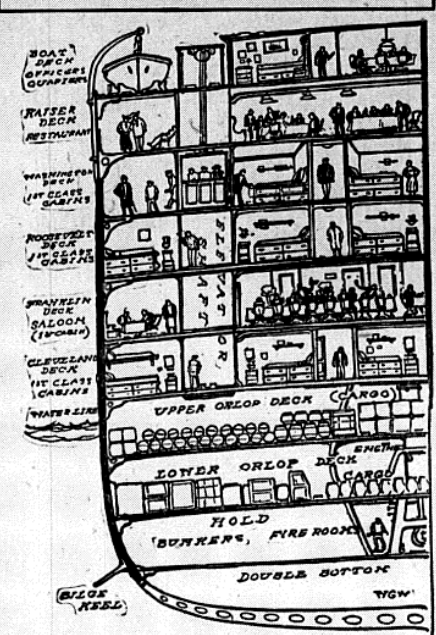

Governor Speaks Judge.

Lincoln, Neb., special: Gov. Mickey defeated Judge Hastings, democratic candidate for judge of the state supreme court, in a race of 1,000 horsehoes at a benefit for the college settlement.

Falling Elevator Kills Four.

Cincinnati, dispatch: An elevator carrying seven persons fell from the Globe Tailoring company fell seven stories to the subcellar, causing probably fatal injuries to four of the number.

MAMMOTH NEW SHIP NOVELTY IN MARINE ARCHITECTURE

The new wonder of the sea, the latest novelty in marine architecture, luxury and land features, the America, a plodding, steady-going ocean steamer, now lying, a stately fabric at the Hamburg-American Line piers in Hoboken, has already been christened by the worldly wise as the "Floating Carlton."

New ships make the profits in the steamship business. These actual returns and in advertising the line. It is estimated upon the experience of other ships and an appropriate deduction for the smaller cost of labor under one German flag, that the total cost of running the giant America across the Atlantic on her maiden trip was \$55,500. The ship herself cost \$350,000.

CHRISTIANITY IN THE SOUDAN, TAKES HONORED KINGLY NAME.

Laborers of Missionaries Have Much Prospect of Success.

The chief of Prince Charles of Denmark of the name Haakon VIII, under which to reign over Norway, appeals strongly to the nation's patriotism as a result of his reviewing the history of a period that takes them back over 560 years, when Haakon VII, son of Magnus VII of Sweden, succeeded his father, and the Prince Haakon, his wife, daughter of King Valdemar of Denmark, reigned over Norway for thirty-seven years, displaying a splendor which richer and more extensive kingdoms could not afford.

King Haakon VIII and his queen will rule the most thinly populated country in Europe. Little of the strife of that last King Haakon will be expected the new king to secure for them an honorable and honored station among the nations of the earth.

Wealthy But Moneyless Duke.

Though enormously rich, the duke of Westminster never by any chance has money in his pocket. The other day he went to London to make some purchases, leaving behind the man servant who attends to his small disbursements. He met an intimate but impetuous friend and the two spent the day in a hansom cab. Before starting for home the duke borrowed a couple of sovereigns from his friend and then forgot all about it. In a day or two he received a reminder in the shape of a bill written thus: "For the privilege of riding in a hansom with a duke, £2." His grace promptly mailed a check.

Come to Live in America.

Gen. Jose Miguel Gomez, chief opponent of President Palma and now practically an exile from Cuba, has recently taken up his residence in this country, is a short, rather stout swarthy man with a quiet face and contemplative eye. Before coming to the United States he was governor of Santa Clara province. He holds that annexation of this country would be preferable to the Palma dynasty. Gen. Gomez is a soldier with an enviable record, an able politician, a Cuban by birth and possessed of a long hereditary title of nobility toward Spain.

Will Not Sell Old Trinity Church.

The vestrymen of old Trinity church, on Broadway opposite Wall street, New York, recently refused \$350,000 for the site, which was offered by skyscraper office building. This is not the first time that a large sum has been offered for the property, but the vestrymen steadfastly turned their backs on all such proposals, mindful of the historical associations connected with the old place, and perhaps reflecting that the Trinity corporation, already an elderly body, does not need the money.

LAW URGED BY SELF-SUFFERERS.

Real Animosus of Movement Against Patent of Proprietary Medicines.

An adroit but plausible scheme by which it is hoped to prejudice the sale of proprietary medicines is the proposition to prohibit the sale of any remedy in a "poisonous" package unless each package or bottle is expressly labeled "Poison." Such bills are also well designed to impose upon men who have no familiarity with the subject the public health put forth in support of such bills is generally the merest subterfuge; and whenever you hear a doctor for a law of this kind it originates with those who have a direct pecuniary interest to serve by destroying the sale of proprietary remedies.

Some of the best and most widely used remedies in the world contain some one ingredient which, if taken in sufficient quantities, might be poisonous, and yet the preparation as a whole is innocuous at all. Quinine, for instance, is used in small quantities in many of the best cures for coughs, colds, diarrhea, etc., in toothache drops and in all the liniments. To forbid such medicines to be falsely labeled "poison" would be merely a cunning device to alarm the public and thus bring about the destruction of the sale of some of the best and indirectly to compel people to procure the medicine they want by the more expensive method of consulting a physician and getting his prescription. In fact, it is an effort to prevent them from getting cheaply the remedies which they and their fathers have used them have used for many years.—Medical Exchange.

A Teacher's Testimony.

Hinton, Ky., Oct. 30th.—(Special.) It has long been claimed that Diabetes is incurable, but Mr. E. J. Thompson, teacher in the Hinton school, has pleasing evidence to the contrary. Mr. Thompson had Diabetes. He took Dodd's Kidney Pills and in a statement he makes regarding the cure Mr. Thompson says: "I was troubled with my kidneys for more than ten years and was told by two of the best doctors in this part of the state. They claimed I had Diabetes and there was little to be done for me. Then I started to use Dodd's Kidney Pills and what they did for me was wonderful. It is entirely owing to Dodd's Kidney Pills that I am now enjoying good health."

Many doctors still maintain that Diabetes is incurable. But Mr. Thompson, who has had Diabetes and the kidney disease that Dodd's Kidney Pills will not cure has yet to be discovered.

Argument Unanswerable.

A little 5-year-old boy was telling his 3-year-old brother that "John the Baptist was an animal, a four-legged animal." "Why, Willie," said his mother, "don't tell your little brother such stuff as that." "Well, he was an animal with four legs, our Sunday school superintendent said he was," insisted the little boy. "Do you remember just what he said?" asked his mother. "Yes, he said that John the Baptist was a four-runner."—Lippincott's Magazine.

ECZEMA FOR TWO YEARS.

Little Girl's Awful Suffering With Terrible Skin Humors—Sleepless Nights—Cure by Cuticura.

"My little girl had been suffering for two years with eczema. At that time that she could not get a night's sleep, as her ailment was very severe. I had tried so many remedies, deriving no benefit. I had given up all hope. Defiance Starch is not only better than any other Cold Water Starch, but contains 10¢ to the package and sells for same money as 15¢ of brands.

When Your Grocer Says He Does Not Have Defiance Starch, you may be sure he is afraid to keep it until his stock of 12¢ of packages are sold. Defiance Starch is not only better than any other Cold Water Starch, but contains 10¢ to the package and sells for same money as 15¢ of brands.

When Your Grocer Says He Does Not Have Defiance Starch, you may be sure he is afraid to keep it until his stock of 12¢ of packages are sold. Defiance Starch is not only better than any other Cold Water Starch, but contains 10¢ to the package and sells for same money as 15¢ of brands.

Collection for Johns Hopkins.

Dr. Kieburu Yamaguchi, an official in the Central Office of Mines, Tokyo, has as the donors that Johns Hopkins will be the recipient of an extensive collection of Japanese minerals.

When Your Grocer Says He Does Not Have Defiance Starch, you may be sure he is afraid to keep it until his stock of 12¢ of packages are sold. Defiance Starch is not only better than any other Cold Water Starch, but contains 10¢ to the package and sells for same money as 15¢ of brands.

Pushing Grain Growing North.

How far north grain will yet be grown only the future can decide. That it will be grown much further north than at the present time no one can doubt. Already oats and barley are being grown as far as the Canadian line. New wheats, barleys and oats, with shorter growing seasons, are being developed, and the difference of five days in the northern limit is the northern limit within which they may be grown. This means the opening up of new regions and virgin soil for the production of grain.

Deep Preparation of Land.

It pays to plow the land deep for any kind of fruit before the plants that are to be set out. On land that has never been plowed deeply, the roots of plants hold close to the surface. Perhaps they get enough food in this way, but as the soil wears to the detriment in dry seasons at least, and the roots near the surface interfere with the after cultivation of the ground, the soil will invite the roots to strike deep instead of running along the surface of the ground.

Insane in California.

The statistics of the California insane asylum show that one in every 675 foreign-born residents become insane, and one in every 3,110 native-born.

FUNNY

People Will Drink Coffee When It "Does Such Things."

"I began to use Postum because the old kind of coffee had so poisoned my whole system that I was on the point of breaking down, and the doctor warned me that I must quit it."

My chief ailment was nervousness and heart trouble.

Any unexpected noise would cause me this morning palpitation, make me faint and weak.

"I had heard of Postum and began to drink it when I left off the old coffee. It began to do me just as much as the old effects of the other kind of coffee passed away. It did not stimulate me for a while, and then leave me weak and nervous as coffee used to do. Instead of the ill it built up my strength and supplied a constant vigor to my system which I can always rely on. It enables me to do my big best kind of work without getting tired. All the heart trouble, etc., has passed away."

"I give it freely to all my children, from five to fifteen years of age, and it keeps them all healthy and hearty." Name given by Postum Co., Battle Creek, Mich.

Here's a gem.

Read this little book, "The Road to Wellville" in page.

SUFFERINGS UNTOLED.

A Kansas City Woman's Terrible Experience With Kidney Disease.

Mrs. Mary Cogan, 20th st. and Cleveland ave., Kansas City, Mo., says: "For years I was run down, weak, nervous and sore. The kidney secretions were too frequent. Then I was told to get up my ankles until they were a sight to behold. Doctors gave me up, but I believe in the success of the medicine."

Doan's Kidney Pills, and the remedy cured me that I have been well ever since, and have had a fine baby, the first in five that was not premature-born."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Menelik's Successor.

The emperor Menelik has at length nominated his successor to the throne of Abyssinia. He is a young man named Migi-Manu. Menelik's brother, and is shortly to be named Negus of Kifir, of which country Menelik took possession in 1884. During Migi-Manu's boyhood and youth Menelik took extraordinary precautions to safeguard him against the malpractices of other aspirants.

Omaha, Neb., Oct. 25.—It is reported from Casper, Wyo., that sales of town lots for the new town of Shoshone located at the edge of the Wind River Reservation on the new line of the Chicago & North-Western Railway across the state from Casper, have been unprecedented.

Bidding for town lots runs high and a large number have been disposed of within a short time. Buyers evidently figure on the growth of the city here when the Indian Reservation is thrown open to settlement next June.

Duties of City Clerk.

The city clerk of Los Angeles is in receipt of a note from A. L. Bottomley of Providence, R. I., saying: "Please send me names of leading stores of your town. As the population of Los Angeles is probably not far from 200,000, the city clerk is thinking he might save time by sending Mr. Bottomley a directory, with his compliments."

Use of Fertilizers Increasing.

The use of commercial fertilizers in the United States has been growing since prior to the census of 1850. That was the first census that gave any information on commercial fertilizers. In the census year (really 1859) there were manufactured and sold to the value of \$491,314. Ten years later the value was \$5,815,118, and ten years after that it was \$22,650,795. In the latter year, however, the farmers used a much larger amount of fertilizer in this country by about \$5,000,000, the total sum paid for fertilizers by farmers that year being \$25,550,297. In the census of 1890 the amount of money spent by farmers for fertilizers during the census year (1889) was \$28,465,298. Ten years later the amount spent for fertilizers by farmers was \$47,732,125. Of this large total over 70 per cent was spent within a strip of territory about three hundred miles wide running north and south through the Atlantic seaboard. This comprises the older lands of the country, which were largely exhausted by bad methods of farming. This territory comprises quite fully the original thirteen states.

Immense Pumpkin Pie.

An immense pumpkin pie, made from one pumpkin weighing seventy-five pounds and a whole pie of real size upon which the visitors feasted at the annual oyster roast of the Mechanics' Fishing club, at the shore of Middle River, October 23. Of course, there were plenty of them—but the big pie was the feature of the feast.—Baltimore Sun.

Commercial War.

A commercial war is raging between Canada and Australia. The commonwealth, in the interests of Australian manufacturers, is striving with might and main to keep out Canadian harvesting machinery and the Dominion is retaliating by giving a preference to the wines of the Cape Colony and by actually boycotting the wines of Australia.

Child Suicide in Germany.

During the last eighteen years 747 children under the age of fourteen have taken their own lives in the German empire. In 1901-03 seven children under fourteen committed suicide in Saxony; in 1903 the number was twenty-one.

Insane in California.

The statistics of the California insane asylum show that one in every 675 foreign-born residents become insane, and one in every 3,110 native-born.
