## **GIVE REBATES**

Railroad President Reveals the Method Used to Evade Injunction.

RETURN MONEY TO SHIPPERS

oung Men Employed by Routing Agencies Quietly Visit Customers, Leave Bundles of Bills Upon Desks

St. Paul, Minn, dispatch: President
A. B. Stickney of the Great Western
railway has boldly allied himself with
President Roosevelt in the fight for
railroad rates reform. The speech
which was most remarkable in many
particulars, was delivered at the banquot given here Friday night on the
occasion of the president's forty-seventh birthad by the "Original Roosevelt club."

Desident Roose

reit club."

President Stickney revealed the extreme methods to which the rallroads
go to gain business through rebates
and the ingenuity exercised in keeping the rebates secret. The rallroads
said the president of one, have an
absolute monopoly and against them
the shipper has no chance for a square
deal.

Complex from President, Stickney.

absolute monopoly and against teem the shipper has no chance for a square deal.

Coming from President Stickney, the address created nothing short of a sensation.

Return Money to Merchants.

"Since the injunctions were issued and the terrors and the resident street, respectively." Thave been told—1 do not vouch for its truth, although I have seen what purports to be a copy of the contract between shippers and the routing agency—of cases where young men from so-called routing agencies in New York make periodical trips through the western cities, leaving to bank checks but packages of actual money, without note of comment, upon certain merchants deaks, taking to voucher or receipt. Curiously, when these packages are counted, they when these packages are counted, they control to the amount of freight which such mechanis have paid a certain railway company since the last previous visit of the young man who thus distributes hundreds of thousands of dollars annually."

President Stickney explained how it

nually."

President Stickney explained how it was the big shipper and not the railroad who was responsible for the rebate. He explained how the big flour
mills of Minneapolis put the small country mills out of business through the rebate system and later how through the milling-in-transit scheme to oueside millers turned the tables on the Minneapolis millers.

Minneapolis millers.

on the Mineapolis millers.

Not a Square Deal.

"Stating the gist of the law in a nutshell," he continued, "the railway companies have an absolute monopoly and under the law fix the price upon that which they alone can produce and which every living man must consume—railway transportation—and the law makes it a misdemensor for the consumer to kick. Is that a "square deal"

sumer to kick. Is that a 'square deal'?

"Theodore Roosevelt says it is not a square deal, and every fall-minded man will say it is not a square deal. In twenty years, possibly in ten years, there will be few, if any, competitive railways, and it therefore becomes important while we can to establish the correct principle in the law.

"Experience has proven that no commission can be a disinterested board of arbitrators while at the same time it is engaged in the prosecution of the case at bar. Hence if the recommendation of the president is adopted the arbitration commission, which should be appointed for the purpose of arbitrating disputes in respect to rates, should not be charged with the provisions of the law or of their own decisions."

Governor Cummins followed Mr. Stirkney seaking on the tone of the law or of their own decisions."

provisions of the law or of their own decisions."

Governor Cummins followed Mr. Stickney, speaking on the topic of the president and the tariff:

"I am a protectionist born and bred," he sald, "and I stand for the defense of our own markets. I want our producers to take them at a fair American price, but I shall light the duty which compels our consumers to pay more than a fair American price, but I shall light the duty where the sale of the sal

say that we are prosperous.

"There is one way and only one way
to earn the gratitude and plaudits of
those who come after us. It is to remember that this is and must be a government of the people, by the people,
for the people and that our laws must

ORPHAN GIRLS ARE POISONED

Three Die at Vermont Institution
Thirteen More Are Sick.

Thirteen More Are Sick.
Burlington, Vt. special: Seventeen
girls whose ages range from 3 to 6
years, at the St. Joseph's orphan asyjum in this city, were taken suddenly
ill and three or them died within three
hours. At an autopy held under the
anspices of the state board of health
it was determined that the death of
the three girls was due to poisoning,
but that the cause has not appeared.

HEALTHY CHILDREN.
Without good health life is not
worth living. Slekly, pervish childrea are a source of endless trouble
and anxiety to their parents, yet the
children's condition is frequently doe
to their parents' to their parents'
teamnes, or both,

lessness, or both.

To make children healthy and to keep them in that condition it is nee-easy to feed them proper food and to see that they get plenty of exercise and fresh air. Meat is very bad for children. It should be avoided and food rich in phosphates, such as Pillebury's Vitos, should be given in the place.

Pilisbury's Vitos, should be given in its place.

This food is truly the "meat of the wheat." It is made by the world's greatest millers and it is free from artificial coloring or adulteration. It is not especially a child's food. Your whole family will enjoy this common sense cereal. It makes a wholesome, substantial breakfast or an appeting dessert and can be prepared in one hundred different way.

Every good grocer will supply you with Pilisbury's Vitos. Large package—enough to make twelve pounds of strength-building food 150. Ask your grocer about it to-day.

Nobody was killed in the Var Cup race. It was a famous
