WOULD AID RATE REGULATION

Congress To Be Asked for Appropria-tions to Complete the Work Simul-taneously with the Opening of the Panama Canal.

Chicago dispatch: Members of the Illinois Manufacturers' association, to the number of nearly 200, unanimously adopted a resolution at their banquet desire for the construction of a deep water way by the government connecting the great takes and the Gulf of Mexico, and urged the senators and coggressmen from this state to use every honorable means in their power to secure an appropriation by congress for the work.

C. H. Smith of Auren, president of the Western Wheel Scraper Company, following the address of Congressman Madden, in which he urged the people of the south to unite with the people of the middle west to secure a great water way connecting the lakes with the gulf for freight and government versais. He declared that it would commerce law item of the interests commerce have the control of the interests of the control of the succession or gainsay.

The resolution concluded with the declaration that every immediate effort should be exerted to secure the necessary appropriation for the construction of the water way, to the end of the nation simultaneously with the opening of the Panama canal to the shipping of the world. A copy will be sent to each illinois senator and representative.

In the course of his address Congressman Madden said that the freight researched.

sent to each illinois senator and representative.

In the converse of his address Comina the development of the senator of the redging rate from Boston to Atlanta was no more than that charged from Boston to Chicago and the distance to the southern city was twice as great. "The reason why the railways make the rate half as cheep as that to Chicago," he said, "is that they have to compete with the ship freight rates the advantage of such competition and consequently our freight costs us more."

the advantage of such competition and consequently our freight coats us nore."

In speaking of the proposed construction of a waterway for freight vessels he declared that every man that believes in fair play should aid in securing such a passageway and exert his influence in the fight against arbitrary and unfair freight rates.

"The Mensee to the Country."

"The Mensee to the Country. "The country are held and controlled by so few hands that they are a mensee to the country. Put too much power in a man's hands, politically or commercially, and he becomes arrogant. The people should be protected from the aggressions of these powerful corporations into which they have breathed the breath of life. I believe we must have a restraining influence over the transportation lines for the protection of the various parts of the country.

Mr. Madden said that the time hadercies control over the large corporations, and especially the transportation lines, and advocated that congress pass a law giving the interstate commerce commission power to readjust a rate whenever a complaint is made if it is unjust, and that the commission have authority to put the new rate in immediate force.
