Potatoes are in great demand, owing to the rot, which has affected the crop so seriously this fall. A jump of 5 and 10c. a bushel in one day is common thing and the indications are that the tubers will be worth \$150 a bushel by next March.

After a lover's quarrel an Elgin young man sent the girl half a dozen boxes of face powder with a note explaining that he had probably carried away that much on his shoulders, and felt it should be returned to her. Reconciliation is now entirely out of the question.

Judging from the frequency of assaults made upon Americans in Mexico of late, there may be something in the notion that our Latin-American neighbors are getting restless under the growing influence of foreigners in their affairs. The latter day prosperity of all South America has been augmented by the investment of foreign capital, and in Mexico more especially United States capital has been freely expended in railroads and various industries. Commercial jealousy may be at the bottom of the racial hatred which ends in frequent outrages.

Great events often hang upon trifles, and an ingenious story comes from Russia to account for the sudden and mysterious change that came over the peace conference at Portsmouth. Witte says that the American mosquito made him so anxious to quit the country that he agreed to anything in order to get away and the Japs finally came to his terms for the same reason.

Washington hotel men expected a crowd of 600 or 800 bankers at the convention of the American Bankers' association held recently in that city and, figuratively, stood on their heads when they were asked to give accommodations to over 4,000. Sceldom do landlords make a mistake on that side in sizing up a bank roll. Usually it is too small to fit their imagination.

The steamer Rodham, which escaped from the harbor of St. Pierre through blasts of flame and showers of burning ashes when Mount Pelée burst forth in eruption, has been wrecked and abandoned on the desolate coast of eastern Siberia. Here is a chance for some poet to depict in thrilling measures the irony or the kindness of fate, whichever way he looks at it.

International Live Stock Show at Chicago, Dec. 2d to 6th.

The International Live Stock Show opens this year under conditions more favorable than ever. The Coliseum, a handsome new structure built for this purpose, will be complete and used for the first time.

The display of live stock is to be so complete that it promises to even excel the perfection of former years.

Professor Herbert W. Munford of Illinois is quoted in the following short but pithy comment on the International:

"It is at the International that breeders and buyers mingle and to mutual advantage. The breeder becomes better informed as to approved market types, and thus the International becomes a potent factor in giving direction to the breeders' efforts toward live stock improvement."

Low rates over the North-Western Line from all points west will be announced soon.

Preceding each lecture there will be a short musical program. The admission will be free but a collection will be taken each evening to defray the expenses of the lecture course.

Mother's Meetings

A great deal of interest is being taken in the Mother's Meetings, held each Wednesday afternoon at the Barrington School.

The purpose of these Mother's Meetings is to bring the home and school into a closer and more helpful relationship. We aim at a better knowledge of the child, in order that his development in the home and school may be more wisely determined.

The meetings with a few exceptions, will be held on the first Wednesday of each month in the Assembly Room of the Public School Building, at 3:30 p. m.

We hope that each mother, realizing what her help means to the child and to those who deal daily with her child or children, will consider it her duty to attend, and, setting aside these dates; will make a strenuous effort to do so.
