

THE BARRINGTON REVIEW.

VOL. 20. NO. 44.

BARRINGTON, ILLINOIS, FRIDAY, NOVEMBER 3, 1905.

\$1.50 A YEAR IN ADVANCE.

DESERVES TO BE PATRONIZED

St. Ann's Bazaar Will Open Monday Evening and Continue for Three Days.

The chief attraction of the coming week is to be the bazaar given by the parishioners of St. Ann's. This will be the first public entertainment but one given by this church in years, excepting an annual lawn social, and as the generosity of the members in patronizing the entertainments and fund raising affairs of all denominations and organizations has been liberal and unselfish, the promoters are expecting a reasonable interest and encouragement from the public.

Odd felloes hall will be open at 7:30 on Monday, Tuesday and Wednesday evenings, Nov. 6, 7 and 8 and the admission will be 15 cents. Also on Tuesday afternoon a program will be given at four o'clock.

The evening's program will be varied and amusing, comprising generally outside talent. The usual booths of a bazaar will be well equipped with reasonably priced articles and several novel features will be introduced.

The Jasmine Orchestra of five prominent young women of Barrington will furnish continuous music.

Supper will be served and the menu being in charge of some of the famous cooks of the village, no doubt, that will have an especial charm.

Donations have been received from numerous sources and our own townspeople and merchants have contributed salable articles with much good feeling and liberality. Among the larger articles in this list are a piano seat from the St. Ann's Co., a mandolin and fifty lessons from Lyon & Healy's; a rug from the Fair; shoes from Selz Schuh & Co.; a 20 lb. plum cake from the National Biscuit Co. and a barrel of flour from Pomero's rolling mill. To each donor of either a large or small thing is extended the sincere thanks of the parish.

Many of these things will be disposed of on the third evening by means of drawing a number from a hat and the holder of such number will be the lucky recipient. Rev. Father Fox, the parish priest, will conduct this part of the program. Chance books have been open to the public for six weeks and white soups have expressed annoyance at the frequent requests to "take a chance," in the main, people have responded good naturedly. The cause is an excellent one and will be of benefit to the village and thus indirectly to the individual, as the object is to raise money to renovate a dilapidated church building making it another house of God to point to with local pride.

A fortune teller from Chicago is also expected on Wednesday evening.

Madame Sara of Roumania, and her reputation as a keen forecaster of the future is recognized by intelligent people.

Everybody is invited to attend whether inclined to patronize the booths or not. Come and secure Christmas presents for your relatives and friends, enjoy the evenings and show your interest.

BE SURE AND VOTE.

It is Important That Every Vote Be Cast This Year.

The Barrington Republican Club has sent out the following circular letter, which should be carefully read and the suggestions acted upon, as it is very important that every vote be polled:

Dear Sir:—An election that is important to every citizen of Cook County, will take place Tuesday, Nov. 7. The officials to be elected are:

Six Judges—Four for full term; two to fill vacancies.

Important public measures are also to be before the people.

It is an "off year." Every vote counts. So do not fail to go to your polling place early and cast your ballot. The polls will be open from 7 a. m. to 5 p. m.

The whole Republican ticket deserves your support. A better ticket never was put before the voters of Cook County. Every man on it is clear, able and honest.

Without wise, experienced and honest judges, no man's life, liberty or property is safe. Therefore the Republican party presents for reelection the four judges whose terms expire: Judge Joseph K. Gary, Farlin Q. Hall, William M. McKewen and Marcus Kavanagh. They have been many years on the bench. They have been elected and re-elected by large majorities. They deserve another reelection now.

Merrill W. Pinckney and Ben M. Smith, Republican candidates for the two vacant judgeships, are men of the highest character and broadest legal training. They are endorsed almost unanimously by the lawyers of Cook County.

We hope that you will give up sufficient time away from your private affairs to attend to this most important duty on Tuesday morning, Nov. 7.

ADVERTISED LETTERS.

The following letters remain unclaimed in the Barrington Post Office for week ending Nov. 2, 1905:

Meyers Mr. J. M.

H. K. BLOCKWAY, P. M.

A Good Man to Vote For.

A vote cast for Ben M. Smith, the Republican member for Judge of the Superior Court, will be counted for an efficient and capable young man. He was born at Coloma, Henry county, and as assistant state's attorney of Cook county earned for himself a reputation that entitles him to the support on election day next Tuesday of every voter who desires honesty on the part of his judges. He is now a member of the law firm of Castle, Williams & Smith, and at one time was a partner of Attorney Cutting, formerly of Palatine.

NEW SCHOOL IS DEDICATED

The Cost of the Building Reflects Great Credit on the School Board.

After months of anticipation, activity and assiduity, undaunted by the apathy and antipathy of some, the hour of dedication of the school building was reached last Friday night in a climax of triumph over prejudice and difficulties.

We chronicle with thanksgiving that near the season of Thanksgiving Day, Barrington's school building stands finished; erected in beautiful architectural lines and artistic effects, unsurpassed by any school building in any Illinois town of like size, and, are, of larger census. Appreciation should fill our souls with joy and indeed almost without exception we are grateful and the few scoffers secretly delighted. We not only have a modern, sanitary and adequate structure but we truly have one built in harmonious combinations of color and detail.

The dedicatory program was marked by the attendance of notables and an enthusiastic audience. With Mr. John Plagge, President of the Board of Education as Chairman, the program opened with a spirited selection by the Ladies' Cornet Band. And here we remarked that the size of the school assembly hall with its raised platform and better acoustic effects that are lacking in all other halls here, made the musical numbers given of greater pleasure to the listeners, for all our musicians and speakers have been handicapped for air space and physical space in which to perfect their efforts.

Rev. G. H. Stanger of St. Paul's church offered in the invocation our praises to God for our rewarded faith in his vouchsafing the completion of the building.

Miss Alta Powers played a piano solo of difficult composition with grace and confidence, practically dedicating the new piano to public entertainment.

Mr. Plagge in a short and fitting introduction presented Dr. A. E. Nightengale, superintendent of Cook county schools. The venerable gentleman's popularity was declared by hearty applause at his appearance.

In convincing words the doctor detailed the spiritual, moral and material benefits arising to our citizens in improving our school, as to building, equipment and curriculum. He gave just and true praise to the Board of Education, for its wisdom in bearing the responsibilities of the work and he suggested the far reaching example we have shown to other small towns of the county. He ended with an appeal to all to support the Board, our principal and his assistants in their worthy efforts to guide the children to the splendid examples of bright American children.

Messrs. Stanger, St. S. S. Linco and Simmons sang the thrilling and loved strains of "America" in excellent harmony.

Prof. Charles W. Farr, assistant superintendent of Cook county schools, by his eloquence, energetic delivery and amusing cleverness, held the attention of the school. His delineation of the five influences brought to bear on our national life by the organization of the home, the church and social life, he climaxed with pronouncing the common organization of the public schools to be the highest and finest we possess in that it deals with the children in whom lie the hopes of the present and future. Mr. Farr further outlined the need of public and private interest in meeting educational questions and increasing demands, for the needs will "keep coming" and public sentiment should be glad to meet them. The address closed with the reading of a poem on the mother's influence for good in child life.

Vernie Hawley delighted the gathering with his commendable piano playing from memory and responded to an encore with geniality.

"A Few Remarks" were then pronounced by several local gentlemen, headed by the Rev. Father Fox of St. Ann's, who spoke with particular worth of the infinite powers of the educated man over the life of the air, the vegetable and animal life, pointing out the dangers of a "little learning" and the wonderful results of the educated man. Our quest for knowledge should be unending and the more we learn teach us the divinity of God.

Mr. G. W. Spenser, lawyer, attorney, in a composed and earnest manner, told of his keener interest in the school welfare of our town than his predecessors on the program, an account of his early associations with

the schools here and his ardent wish to see all good descend on the new life in the new building where the children should be taught the value of higher aspirations than the worship of money, the tendency of the times.

Prof. F. E. Smith, formerly our principal, was scheduled for an address but was not present and Mr. M. C. McIntosh next spoke. His talk was a delight to the audience and was the success of the evening. A humorous line was taken and the reference to local things a source of great amusement. He struck a touching vein of feeling in his statement that no sentiment is so endearing and stirring in friendship as the bond of "We went to school together." His recital to old school days was pleasing to many in whose hearts a love for the old dilapidated building lingers, despite their realization of its passed usefulness.

Prof. R. N. Banta, our principal, whom we all admire and appreciate, recounted a vision he dreamed in his first days here of a beautiful new building, the prototype of which now stands in all its material dignity, an honor to the town; and he begged school patrons to remember in their donations gifts of pictures, statuary and plants for the further beautifying of the interior. As excitement in the audience characterized, so may our children have character developing surroundings.

Mr. Arnet Linesang "My Illinois" in a strong and musical tone, filling the hall and corridors with melody.

The secretary of the school board, Mr. J. E. Howe, then spoke on the cost of the building, showing how carefully expenditures had been recorded. They are as follows:

Carpenter work	\$979.85
Mason contract	1025.00
Plastering	1829.50
Slate roofing and galvanized iron work	1400.00
Painting	1242.50
Electric wiring and fixtures	180.00
Slate black boards	245.00
Fitting, shades, picture molding	375.00
Plans, specifications and superintending	1050.00

Total \$9251.85

Outside expenditures, estimated: Sewerage and drainage \$500.00

New furniture 400.00

Sidewalk and other labor 200.00

Total \$1100.00

Realized from sale of old building, etc. \$1536.95

Mr. Howe stated that the first step toward a school was taken on July 26, 1891 when the committee on building and grounds was instructed to investigate and report on necessary proceedings to such an end.

Another number was nicely played by the band, and "Old Hundred" sung by the standing audience. Rev. A. Haeffle of the Salem church, pronounced the benediction invoking the blessings of God on the school and town.

Thus was the dedication—fittingly and interestingly marking the consummation of so glorious an undertaking.

A select Halloween party was given Tuesday evening at the home of Silas Robertson on Lake street, by Miss Eva Roberson, his daughter, assisted by Miss Nora Plagge and Alta Powers. Delightful old fashioned games were indulged in, and a sumptuous repast was served during the evening. Pleasant selections of vocal and instrumental music were a feature of the party, at which about ten couples participated. Among the out-of-town guests present were Miss Ethel M. Austin, Ravenswood, and Dr. Schroeder, Chicago.

LAKE ZURICH NEWS.

Miss Edith Seip was a Chicago visitor Monday.

Miss Minnie Holland is at home for a few days.

Miss Marie and Tillie Hoke Meyer were in Chicago Wednesday.

A Halloween party was held at Ahlgrim's Tuesday evening. A variety of costumes were worn, and a general good time was enjoyed.

A grand dance will be held at the Oakwood hall, Nov. 11. Good music will be furnished. A new barn has just been completed to accommodate teams.

The water tank on the E. J. & E. railway, which they were raising on account of their large engines fell over Sunday evening and was smashed into kindling wood. They are now arranging to build a new tank.

Mr. and Mrs. Schumacher, parents of Mrs. Kuhl and Bogman, and Miss Nannie Schumacher, moved to Barrington this week and are living in the Lamey building.

IT WAS A GRAND MEETING

Great Interest Was Manifested in the Barrington Sunday School Convention.

The annual convention of the Barrington Township Sunday School Association was held in the Salem church Sunday afternoon and evening, both meetings being largely attended.

The afternoon meeting was opened with a song service by Mr. Farman, of the Moody Bible Institute, Chicago, followed by Scripture reading and prayer by Rev. Stenger of St. Paul's church.

The first topic was "Practical Plans for Teachers," by A. T. Nelson, of Ohio, an interesting and expert black-board artist.

"Sunday School and the Church," by F. N. Lapham of the M. E. church, and "The Church and Sunday School" by Rev. Robert Kelly of the Baptist church, contained some valuable suggestions. Rev. Lapham held that children should attend church services and Rev. Kelly advised that parents attend Sunday school so as to encourage children to attend. Both topics were well handled, and aroused much interest and enthusiasm, as was evidenced during the discussion which followed and which was led by C. E. Hunk, general secretary of Cook county association.

The evening service was also opened with a song service by Mr. Farman, and Rev. A. Haeffle of the Salem church read the Scriptures and offered prayer.

"World Wide Work," by General Secretary Chas. E. Hunk of Chicago, was a practical review of the International convention held at Toronto recently, at which delegates from every section of the world participated.

The election of officers was then held and resulted as follows:

President—F. H. Plagge.

First Vice-President—Miss Lydia Reinhold.

Second Vice-President—Arnet Lines.

Secretary—Miss Grace Freeman.

Treasurer—Herman Gleske.

A. T. Nelson followed the election of officers with a blackboard illustration, entitled "Just for Variety." It was one of the numbers which was unique, interesting and left a deep impression on the audience.

The collections for the carrying on of the work which was taken at the evening meeting was a satisfactory one and showed that the interest in Sunday school work in Barrington was growing stronger each year.

This article would not be complete if we failed to mention the excellence of the music rendered at the afternoon meeting by Mr. Morse, who has just recently returned from a year and half sojourn in the Transvaal (South Africa) where he accompanied a revivalist, who did effective evangelistic work among the Burgers; and a solo by Rev. Kelly.

To Protect Fish and Game.

A Lake County Association is being formed. The objects of the association will be the protection of fish and game in the county. Among the members of the committee, which is composed of twenty-seven members, who have charge of the preliminary work of the organization, are the following: Cuba township, Miles T. Lamey; Els, A. G. Schwaner; Wauconda, H. T. Fuller.

Pr pose To Race.

The Libertyville Independent says: "It is authoritatively stated that there will be an attempt next spring to place the Libertyville Trotting association in the grand circuit and in that way bring to Lake county the very best harness racing that it is possible to get. The movement has been under advisement for some time and the excellent racing plant which has been installed at Libertyville will tend much to make the grand circuit people look this way."

Entertaining Guests From Germany.

Mr. and Mrs. Edward Measter of Bernburg, Germany, are guests of their aunt, Mrs. Lambert Tasche. They arrived here a two week's visit, after which they return to Germany, visiting Winnipeg, Canada, on their way.

HORSE BLANKETS

GOOD ONES

at low prices

As you have a horse you are of course interested in Horse Blankets for your horse and Plush Robes for your carriage, and we take pleasure in giving you a few points regarding these goods.

When You Want a Horse Blanket

You want one that will stand the rough usage your horse will give it. With this in view, purchased a 5A Horse Blanket, which contains extra warp, is more strongly made, and will outwear any blanket made at the price. They are known the world over as the

Strongest and the Longest Wearing

They are guaranteed full weight and full size. The policy of many manufacturers is to skimp the weight and size when asked for the "warrior" and wear of their blankets.

The 5A Blankets

are trimmed in the best possible manner with extra strong hardware, traps, etc., and will wear much longer than ordinary stable blankets. They have the 5A Blue Garment, which wears under the horse and holds the blanket in the proper place, and also attachment the blanket where the most strain occurs.

5A Plush Robes Are the Best

Robes that can possibly be made. We guarantee them not to shed, which is a valuable feature and should be looked into by every purchaser.

We obtain the 5A Blankets and 5A Plush Robes direct from the factory.

We pay no middlemen's profits, and therefore can sell you 5A goods cheaper than any other dealer can furnish imitations which they buy from jobbers at high prices. We extend cordial invitation to call and look over our 5A Blankets and 5A Robes before buying elsewhere. We are satisfied it will pay you to do this.

Mr. G. W. Spenser, lawyer, attorney, in a composed and earnest manner, told of his keener interest in the school welfare of our town than his predecessors on the program, an account of his early associations with

ROOSEVELT IS AT WASHINGTON

Nation's Chief Is Welcomed to Capital With Booming of Artillery.

INCIDENT OF THE SEA TRIP

Executive Throws Coal on Fire Under Boiler With Decorated Shovel, Which Is Demolished and Given to Men for Mementos.

Washington, Nov. 1.—To the booming of a salute of twenty-one guns, the spirited playing of the "Star-Spangled Banner" by the Marine Band, and the cheers of a crowd which gathered at the navy yard, President Roosevelt stepped ashore from the Dolphin shortly before noon Tuesday, looking bronzed and hearty from his Southern trip and long sea voyage.

He drove to the White House with Mrs. Roosevelt, who had driven to the landing in a landau. He took luncheon with his family and immediately went to the executive offices and plunged into the mass of work which had accumulated on his desk.

The incidents of the arrival and landing were according to arrangement. Two hours before the Dolphin reached her moorings people began to gather at the navy yard wharf. For an hour an escort of marines, headed by the marine band, were in line facing the wharf.

Battery Fires Salute. When the Dolphin showed around Arsenal point and left the Potomac for the eastern branch the firing squad manning the saluting battery got ready for action. Ten minutes before the landing was made the salute was fired from the battery and immediately answered by the Dolphin.

The President, Secretary Loeb and Surgeon General Lister stood on the upper deck at the stern. The President was much interested in the morning papers, which had just been put aboard from the police boat Vigilant.

When he looked up he caught sight of Mrs. Roosevelt and waved his hat. The crowd took to the cheering and the President smilingly acknowledged many signals of welcome.

As soon as the gang plank was in place the "Jackies" sounded the gunnall the entire length of the ship on the shore and the President came ashore while the "boom" pipe sounded. During this time of honor his flag came down from the masthead. As he stepped ashore the bugles sounded and the marine band played the "Star-Spangled Banner."

The President stood under the canopy and the officers and marines stood at attention. **Enjoys Southern Trip.**

It was intended that the marines should escort the president to the yard. But at the conclusion of the tribute to the flag Mrs. Roosevelt drove up from behind the guard, her husband entered the carriage, warmly grasped the hand of the president and the carriage proceeded out of the yard. As the many huge shops passed, the workmen rushed out and cheered.

President Roosevelt regards his Southern trip, which completes a tour of the country since his inauguration, as a most enjoyable and profitable experience. Particularly did he enjoy the sea voyage, and he expressed himself in the most enthusiastic terms regarding the ships, officers, and men of the Dolphin.

While at sea Sunday the president made a speech to the officers and men of the vessel. He had just completed an inspection of the entire ship. In the afternoon the public will look upon this shrewdly decorated shaver put into his hand, and he was asked to throw a shovel of coal into a particular boiler furnace. He threw in two, and the boiler was immediately christened the "Roosevelt boiler."

The shovel was passed around that every stoker might shovel coal with it. It was then speedily demolished, each bit being retained as a souvenir.

SLAYER PLANNED TO RAID BANK

He Dug Meant Robbery When He Killed Chicago's Mayor.

Bloomington, Ill., dispatch: William Le Duc, who killed Mayor Nickel and Hugh B. Jones at Chicago Saturday, planned a raid on the bank with hopes of escape. He was with his mother's home Saturday and bade her farewell, saying that he intended to leave the country. The loss of \$2,000 in the settlement with his wife was a state supreme court, in a match game of horsehoes at a benefit for the college settlement.

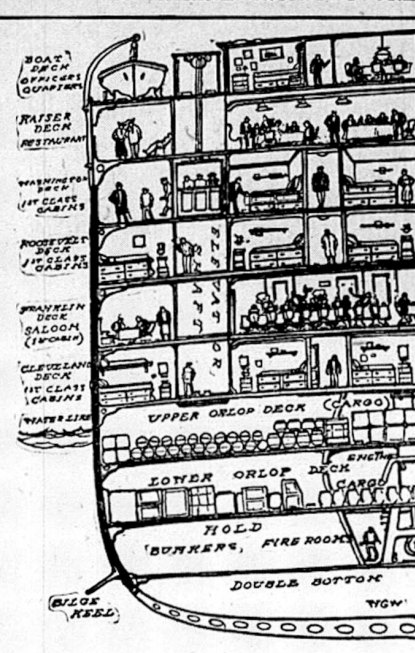

Governor Bests Judge.

Lincoln, Neb., special: Gov. Mickey defeated Judge Hastings, democratic candidate for judge, in the state supreme court, in a match game of horsehoes at a benefit for the college settlement.

Falling Elevator Kills Four.

Cincinnati, dispatch: An elevator carrying seven employees of the Globe Tailoring company fell seven stories to the subcellar, causing probably fatal injuries to four of the number.

MAMMOTH NEW SHIP NOVELTY IN MARINE ARCHITECTURE

The new wonder of the seas, the latest novelty in marine architecture, luxury and land features, the America, a plodding, steady-going ocean steamer, now lying, a stately fabric at the Hamburg-America Line pier in Hoboken, has already been christened by the world's wise as the "Floating Carlton."

New ships make the profits in the steamship business. There is no return and in advertising the line. It is estimated upon the experience of other ships and an appropriate deduction for the smaller cost of labor under German flag, that the total cost of running the gleaming America across the Atlantic on her maiden trip was \$555,000. The ship herself cost \$250,000.

CHRISTIANITY IN THE SOUDAN.

Laborers of Missionaries Have Much Prospect of Success.

The work of introducing the beneficent influence of Christianity into the Soudan is the more likely to be successful because it has not been done in a hurry. Missionary societies have frequently been blamed for frittering away their energies in regions which were not yet ripe for their ministrations. This cannot be said of the missionary enterprise in the Soudan, of which the first announcement is made this week. The country has for years been enjoying the blessings of peace and good government. It has submitted itself to a settled condition which is most favorable to missionary work, and the lack of which, as Dr. Livingston knew in his bitter experience, prevented the fruits of the noblest and most arduous labor. Not only the time for beginning the mission, but the region in which it will be carried out, has been chosen by Lord Cromer, and the public will look upon this able administrator's association with the enterprise as the best guarantee that it will be conducted with wisdom, discretion and success.—Weekly Scotsman.

Fateful History of Rug.

It is stated on the authority of a London magazine that the carina, fearing the baleful influence of a historic rug sent by the sultan of Turkey as a gift to the imperial parents on the occasion of the infant's birth, has sent the young heir to the throne to a place of hiding known only to herself and the czar. The rug sent by the sultan is said to be one known as "The Blood-stained Rug of the Third Century," which was taken from the walls of a Moorish palace in the twelfth century, when it was pronounced bewitched. It next appeared in Rome in the fourteenth century, but was banished from an Italian palace because of its uncanny influence and was moved from place to place during the next 100 years, heaving death and destruction in its wake. It was lost during the sixteenth century, reappearing in the palace of the sultan at the beginning of the eighteenth century, where it remained until sent to St. Petersburg, where it arrived at the beginning of the war with Japan.

Gasoline Motors Are O. K.

The trial trip of the gasoline motor car built for use on branches of the Union Pacific Railroad, was recently made, and the car was pronounced successful. The run was made from Omaha to Valley, Nev., and return, a speed of fifty miles an hour being maintained and a maximum speed of 113 miles being attained at one point. It is reported that the Union Pacific company will rush the construction of these cars as fast as possible and place them on all the branches of the road.

The receipts from the passage were about \$143,490, leaving a profit for the line of \$39,930.

There are 520 souls in her crew. The wages in the engineering department for one trip would be about \$9,000, victualing department, \$15,000; wear and tear \$2,750, sailing department \$2,700, pilotage in New York harbor \$197.76, pilotage in Hamburg, Dover and other ports \$150; stevedoring, custom house, tonnage, Marconi wireless telegraph and miscellaneous \$12,552.56, and expenses of restaurant \$2,000; total, \$55,500.12, leaving a balance of \$93,568, equal to interest on the cost of the ship, \$3,500,000, at the rate of between 2-10 and 2-10 per cent.

TAKES HONORED KINGLY NAME.

Choice of Prince Charles of Denmark Pleases Norwegians.

The choice of Prince Charles of Denmark of the name Haakon VIII, under which to reign over Norway, appeals strongly to the nation's patriotism. Norwegians at a recent meeting the history of a period that takes them back over 560 years, when Haakon VII, son of Magnus VII of Sweden, succeeded his father, and with the Princess Margaret, his wife, daughter of King Valdemar of Denmark, reigned over Norway for thirty-seven years, displaying a splendor which richer and more extensive kingdoms could not afford.

King Haakon VII and his queen will rule the most thinly populated country in Europe. Little of the style of that last King Haakon will be attempted, no doubt, but Norway expects the new king to secure for them an honorable and honored station among the nations of the earth.

Wealthy But Moneyless Duke.

Though enormously rich, the duke of Westminster never by any chance has money in his pocket. The other day he went to London to make some purchases, leaving behind him a man servant who attends to his small disbursements. He met an intimate but impatient friend and the two spent the day in a hansom cab. Before starting for home the duke borrowed a couple of sovereigns from his friend and then forgot all about it. In a day or two he received a reminder in the shape of a bill written thus: "For the privilege of riding in a hansom with a duke, £2." His grace promptly mailed a check.

Come to Live in America.

Gen. Jose Miguel Gomez, chief opponent of President Palma and now practically an exile from Cuba, has taken up his residence in this country. This is a short, rather stout, swarthy man with a quiet face and contemplative eye. Before coming to this country he was governor of Santa Clara province. He holds that annexation of this country would be preferable to the Palma dynasty. Gen. Gomez is a soldier with an enviable record, a shrewd politician, a Cuban by birth and possessed of a long hair tie of emmity toward Spain.

Will Not Sell Old Trinity Church.

The vestrymen of old Trinity church, on Broadway opposite Wall street, New York, recently refused \$25,000 for the property, which was wanted for skyscraper office buildings. This is not the first time that a large sum has been offered for the property, but the vestrymen steadfastly turned their backs on all such proposals, mindful of the historical associations connected with the old place, and perhaps reflecting that the Trinity corporation, does not need the money.

LAW URGED BY SELF-SEEKERS.

Real Anims of Movement Against Remedies Deservedly Popular.

An adroit but plausible scheme by which it is hoped to prejudice the sale of proprietary medicines is the proposition to prohibit the sale of any remedy which "contains poison" unless each package or bottle is expressly labeled "Poison." Such bills are also well designed to impose upon men who have no familiarity with the subject matter. The pretense of protecting the public health is a fine support of such bills is generally the nearest subterfuge; and whenever you hear a demand for a law of this kind it originates with those who have direct pecuniary interest in preventing the sale of proprietary remedies.

Some of the best and most widely used remedies in the world contain some ingredient which, if taken in sufficient quantities, might be poisonous, and yet the preparation as a whole is not poisonous at all. Optimum, for example, is a small quantity in many of the best cures for coughs, colic, diarrhea, etc., in toothache drops and in almost all ailments. To require such medicines to be falsely labeled "poison" is merely a cunning device to alarm the public and thus bring about the destruction of the sale of those remedies, and in the process to control people who use the medicine they want by the more expensive method of consulting a physician and getting his prescription. In other words, it is an effort to prevent them from getting the remedy they desire which they and their fathers before them have used for many years.—Medical Exchange.

A Teacher's Testimony.

Hinton, Ky., Oct. 30th.—(Special).—It has long been claimed that Diabetes is incurable, but Mr. E. J. Thompson, a teacher in the public school, has pleasing evidence to the contrary. He took Dodd's Kidney Pills and is cured. In a statement he makes regarding the cure Mr. Thompson says:

"I was troubled with my kidneys for more than two years and was treated by two of the best doctors in my part of the state. They claimed I had Diabetes and there was little to be done for me. Then I started to use Dodd's Kidney Pills and what they told me was true. I am entirely owing to Dodd's Kidney Pills that I am now enjoying good health."

Many doctors still maintain that Diabetes is incurable. But Diabetes is a curable disease and the kidneys claim that Dodd's Kidney Pills will not cure has yet to be discovered.

Argument Unanswerable.

A little 5-year-old boy was telling his 3-year-old brother that "John the Baptist was an animal, a four-legged animal." "Why, Willie," said his mother, "don't tell your brother such stuff as that." "Well, he was an animal with four legs, our Sunday school superintendent said he was," insisted Willie. "Do you remember just what he told you?" "Yes, he told me that John the Baptist was a four-legged animal."—Lippincott's Magazine.

Little Girl's Awful Suffering With Terrible Skin Humors—Sleepless Nights for Mother—Speedy Cure by Cuticura.

"My little girl had been suffering for two years from eczema, and during that time she had not a night's sleep, as her ailment was very severe. I had tried so many remedies, deriving no benefit, I had given up all hope. But at last I was persuaded to try Cuticura, and one box of the Ointment and two bottles of the Resolvent, together with the Soap, effected a permanent cure.—Mrs. I. R. Jones, Addington, Ind. T."

Pushing Grain Growing North.

How far north grain will yet be grown only the future can decide. That it will be grown much further north than at the present time no one can doubt. Already oats and barley are being grown three hundred miles north of the Canadian line. New north of the Canadian line, new growing seasons, are being developed, and the difference of a few days in maturing makes a difference of many months in the northern limits within which they may be grown. This means the opening up of new regions and virgin soil for the production of grain.

Deep Preparation of Land.

It pays to plow the land deep for a kind of fruit before the plants that are to bear it are sown. The land that has never been plowed deeply, the roots of plants hold close to the surface. Perhaps they get enough food for this year; but it is much to their detriment in later seasons at least, and the roots near the surface interfere with the after cultivation of the ground. A mellow soil invites the roots to strike deep instead of running along the surface of the ground.

The Time to Plan.

The time to plan farm work is several months ahead of each crop that is to be grown. The lack of planning is responsible for many of the failures in farming. If the planning is done too near the time of planting a crop, it will be found that something is in the way, that the purchase of seed for the corn, wheat, oats and other crops has been delayed and it will not do to wait till midwinter before laying all plans. If seed is to be purchased from a distance it is not always easy to get it when the seedman must send it out in company with a great multitude of other orders. It is necessary to send in the orders early, so that the seed may be received early and the farmer have time to make germination tests to ascertain if the seed is up to the required standard in germinability. If it is not, the farmer may have to send to another place for seed, which will in turn have to be tested.

In the sowing of clover seed, plans should be laid early and it will not do to wait till the middle of the winter before ordering the seed. In some localities the practice is general of waiting for the snow, and in that case March will be the month in some localities and February in other localities farther south. If the seed is ordered late it may not arrive till after the desirable conditions have gone. It must in addition be tested before being sown and this requires some time.

The more skillful a man is in planning his farm work, the more likely he is to be successful in the work of the farm. In large establishments in the city, plans are often made years in advance and worked as carefully as one would want to a certain point in weaving a carpet or other fabric. This is absolutely necessary in some enterprises. Business should go like clockwork and the farmer should have a plan of his work for the year.

Use of Fertilizers Increasing.

The use of commercial fertilizers in the United States has been growing since prior to the census of 1860. That is the first census that gave information on commercial fertilizers. In the census year (really 1859) there were 499,134. Ten years later the value was \$5,315,878, and ten years after that it was \$23,650,735. In the latter year, however, the farmers used more than were manufactured in this country by about \$1,600,000, the total sum paid for fertilizers by farmers that year being \$25,250,297. In the census of 1890 the amount of money spent by farmers for fertilizers during the census year (1889) was \$24,465,598. Ten years later the amount spent for fertilizers by farmers was \$54,783,757. Of this large total over 70 per cent was spent within a strip of territory about three hundred miles wide running north and south along the Atlantic seaboard. This comprises the older states of the country, where they were largely exhausted by the methods of farming. This territory comprises quite fully the original thirteen states.

People Will Drink Coffee When It "Does Such Things."

"I began to use Postum because the old kind of coffee had so poisoned my whole system that I was on the point of breaking down, and the doctor warned me that I must quit it. My chronic ailments were nervousness and heart trouble.

Any unexpected noise would make me the most painful palpitation, make me faint and weak. "I had heard of Postum and began to drink it when I left off the old coffee. It began to help me just as soon as the old effects of the other kind of coffee passed away. It did not stimulate me for a while, and then leave me weak and nervous as coffee used to do. Instead of that it built up my strength and supplied a constant vigor to my system which I can always rely on. It enables me to do the biggest kind of a day's work without getting tired. All the 'nerv' trouble, etc., has passed away.

"I give it freely to all my children, from the youngest to the oldest, and they all love it. It is healthy." Name given by Postum Co., Battle Creek, Mich.

Omaha, Neb., Oct. 25.—It is reported from Casper, Wyo., that sales of town lots for the new town of Shoshone, located at the edge of the Wind River Reservation on the line of the Chicago & North-Western Railway across the state from Casper, have been unprecedented.

Hiding for town lots runs high and a large number have been disposed of within a short time. Buyers evidently figure on the growth of the city where the Indian Reservation is thrown open to settlement next June.

Duties of City Clerk.

The city clerk of Los Angeles in receipt of a note from Al L. Bottomley, a business man, says: "Please send me names of leading stores of your town." As the population of Los Angeles is probably not far from 200,000, the city clerk is thinking of a long list of names by sending Mr. Bottomley a directory, with his compliments.

To the housewife who has not yet become acquainted with the new types of everyday use in the market and who is still satisfied with the old we would suggest that a trial of Defiance Cold Water Starch be made at once. Not alone because it is guaranteed by the manufacturers to be superior to any other starch, but because each box contains 16 oz., while all the others contain but 12 oz. and the quality and quantity will use no other. Quality and quantity will win.

People Will Drink Coffee When It "Does Such Things."

"I began to use Postum because the old kind of coffee had so poisoned my whole system that I was on the point of breaking down, and the doctor warned me that I must quit it. My chronic ailments were nervousness and heart trouble.

Any unexpected noise would make me the most painful palpitation, make me faint and weak. "I had heard of Postum and began to drink it when I left off the old coffee. It began to help me just as soon as the old effects of the other kind of coffee passed away. It did not stimulate me for a while, and then leave me weak and nervous as coffee used to do. Instead of that it built up my strength and supplied a constant vigor to my system which I can always rely on. It enables me to do the biggest kind of a day's work without getting tired. All the 'nerv' trouble, etc., has passed away.

"I give it freely to all my children, from the youngest to the oldest, and they all love it. It is healthy." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville" in page.

The service will be held on the depot square for the main heading. "Live Touched by the Master." The subject under this main heading will be, "The Woman that Touched the hem of His Garment." The pastor may be absent on Sunday, November 12th, as there is a possibility of his being in Minneapolis on that day. Notices for that day will be found in these columns next week. Providing the pastor is absent that day, Mr. Coe Hayne, leader of the Evangelical band of the University of Chicago will fill the pulpit. Mr. Hayne needs no introduction to the people of Barrington as he was here last spring.

The football game here Saturday, played between the Monitor Athletic Club and our boys, was a first-class game, the score being 5 to 5. One man in the visiting team became disabled so the last three minutes of the second half was not played. There will be another game this coming Saturday, and the boys beg the public to come out and cheer them on. They play on the Nelson field, and the admission fee is only 15 cents.

Saturday being Mrs. A. Brodkey's birthday she invited a few of her friends to assist her in celebrating it and they in turn asked a few more until the crowd numbered thirty, made up of members of a card club Mrs. Brodkey belonged to in Chicago, with their families. A good time was had by all and the hostess served a beautiful repast. The hostess received many useful and valuable gifts.

The contracting parties were reared in Barrington, where they are esteemed by the entire community, being especially popular among the younger set. They will make their home on Williams street.

November 2, 1905, at 7:30 p. m., at the home of Mr. and Mrs. J. H. Landwehr, their daughter, Cora R. Landwehr, was united in marriage to Mr. Charles H. Meyers of Capron, Ill.

Mr. Frank Meyers, brother of the groom, acted as best man; Miss Jennie Landwehr, sister of the bride, as bridesmaid, and Miss Verdelie Reinhardt as flower girl. Miss Clara Thies of Palatine played the wedding march. Rev. Harold of Salem church performed the ceremony.

Decorations were ferns and carnations. About one hundred and thirty relatives and friends from Barrington, Palatine, Arlington Heights, Elgin and Chicago attended.

The presents were numerous, and after a beautiful wedding supper the guests departed at midnight wishing the bride and groom a long and happy life. Mr. and Mrs. Meyers will reside at Capron, Ill., where Mr. Meyers is connected with a creamery.

The bride is well known and very popular in Barrington and the groom is an exemplary young man.

Don't Borrow Trouble.

It is a bad habit to borrow anything, but the worst thing you can possibly borrow is trouble. When sick, sore, heavy, weary and worn-out by the pains and poisons of dyspepsia, biliousness, Bright's disease, and similar internal disorders, don't sit down and brood over your symptoms, but try for relief to Electric Bitters. Here you will find sure and permanent relief from all your troubles, and your body will not be burdened by a load of debt disease. At Barrington Pharmacy, Price 50c. Guaranteed.

PALATINE LOCAL NEWS

The Woodman dance was very well attended Saturday evening all who were there reported a good time. It is to be hoped a larger crowd will turn out to the next dance.

P. F. Hunt, of Terra Cotta was down to see his mother Friday. Mrs. Hunt still remains in a precarious condition, very little hope being entertained for her recovery. Dr. Strack is attendance.

Mr. E. H. Hunt, mother of Mrs. G. H. Arps, died at her home Wednesday evening, Nov. 1, 1905. Funeral will be held Sunday at 1:30 p. m. from the house, thence to church. Obituary next week.

The Woodmen are making great preparation for their trip to Chicago on Nov. 18th. The drill team is doing some hard practicing getting in trim to take part at that time. It is expected a thousand candidates will be initiated into the order at that meeting.

The W. R. C. inspection had to be postponed on account of repairs that are being made on the hall where they meet, as the Odd Fellows from whom they rent, concluded the hall was unsafe upon a thorough examination and the Woodmen hall was in use for that evening. The inspection will be held in one month unless something unforeseen prevents.
