Time to Face About.

Time to Face About.

The recent scathing exposures of graft in high places has been a good thing. It has cleared the air of get-rich-quick miasma. But there is danger of groing too far. It is useless to bombard with 100 pound shells where ride balls will room to be sufficiently to be sufficiently and the graft exposures only serve to bring out that comforting fact. If the mass of men were not honest there would have been no vehement public expressions of borror at the revelations of crookedness. There is honesty left, and honest ways abound of getting good money which the getter may hold under titles no investigation can smirch.

The increase in the number of horses in the United States during the past five years has been something over 3,000,000, while the increase in value totals up to the neighborhood of \$222.000,000. This showing hardly presages the extinction of the equine breed in the near future.

America, it is said, spends \$3,500,000 more annually for chewing gum than for foreign missions. And the figures would be even more startling but for the fact that most girls can make one "quid" last a whole week.

The speaker for next Sunday afternoon will be T. T. Phelps, the younger of the Baptista pastors. Mr. Phelps is a very energetic young man and is deserving of a good-sized audience. His subject will be the "Patriotism of Peace." All men are invited to come out and get acquainted with the young man.

The committee promises a radical departure from its usual run of speakers for April 228 in a physical director in Y. M. C. A. work, who will talk on the relation of exercise to the physical development of man, and urges all men and boys to bear this date and subject in mind.
