"Misfortunes never come singly" is being amply demonstrated in the family of Robert Trimble, living on the old Constock farm, about two and a half miles south-west of Barrington. On Wednesday of last week their 13-year-old soon was struck by lightning and instantly killed within a few yards and in plain sight of the mother. The same bolt also killed both horses the lad was trying to unblutch. An Indebtedness still hung over the horses, and no insurance was carried.

A few days later another little son aged about 5 years broke an arm. Mr. Trimble is a hard working man, who has suffered many sad experiences in his life time. He ja a reptleman well thought of among his nelghbors and nequalintances, as jis shown by the liberal financial donations contributed towards the family's relief. The subscriptions were started and solleited by Marshal John Donlea and Fred Hobein, the former raising \$165.00 and the latter about \$45.00. The work of these two genilemen certainly deserves the highest pralse, and our people certainly believe that it is only: "bread east upon the waters." east upon the waters."
