This farm is sood shape to go right on and make ey from the start. Price \$13.00 an. Call or write.

F. H. REESE, Dundee, Ill.

Ray, the young son of Mr. and Mrs. L. A. Powers, met with a painful ac-cident Wednesday. While riding his bleyely his foot got caught in the chain fcipping him up, causing him to light on his head. It took two stitches to close the wound.

to close the wound.

Miss Loelle Hayer, second daughter
of George Hager, left Monday for
Evanston where she entered the preparatory department of Northwestern
collegs with the view of completing
the full collegate course. Miss Hager
is a very bright girl with studious
habifs and she will undoubtedly succeed in her ambitions.

Richardson's home, and the Thursday Club attend a regular meeting at the president's home, wrs. Wm. Howarth.

You will save from 20 to 25 per cent by buying second hand school books at A. W. Meyer's.

A. W. Meyer's.

Rev. and Vrs. F. N. Lapham returned Monday from a three weeks' trip to Los Angeles, Cal., where Mr. Lapham officiated at the marriage of D. C. Cook, Jr., of Elgin, to Miss Francis Kerr, of California. Mr. Cook will be remembered here as the young man who gave an illustrated talk on "Sciomon's Temple" at the time the Methodist conpregation epipsed "A. Paper Pilgrimage to the Holy Land."

Via the North-Western Line. Excur-sion tickets will be sold October 6 and 7, with favorable return limits, on ac-count International Association Fire Engineers. Apply to agents Chicago & North-Western Ry.

Sermoulzing Against Vice.

London's 'litile rich' and 'smart set have recently had a good scoring from the lips of Father Bernard Vaughn, who, among other vigorous comments, declared that Herod and Saloude would find themselves perfectly at home in England's high receive today. In Loudon alone, he says, nearly three hundred applicants for divorce, 'traitors to their troit,' are waiting to be relieved 'in this world of what God will not relieve them of in the next,' Fa. The Illinois Connedy company opened a week's engagement here Monday evening and packed houses have been the result so far. They give a refined and pleasing program and deserved the patronage accorded them. to have in large families and also preached against even more flagrant kinds of latter day immorality.

comings. Voltar people without cultivi-orien without radiations of barth or gold often without radiations of barth or gold often without radiations are like the ed-urants of govern beautiful properties. The given been the advertisement which their their properties of the control of the con-trol of the corrections of the control of the twate extrawagance as a cure for enant, but the cure will fall if the extrawagance he gossiped about or written about in the Expers or, best of all, preached against. To-think of converting the vulgar rich by exposing their misdeeds, this paper likens to the attempt to crush nanarby by dwelling upon its terrors. In both cases the guilty are treated ex-actly as they desire. Finally the Spec-tator itself turns mornilist and remarks

tator itself turns moralist and remarks in this vein:

In conclusion the editor says that the gross vices of the few are more con-spicuous now than in former times, because they are the exception and not the rule, even flourishing in defiance of an active public conscience. "If we have fewer saints and prophets we have a higher average of decent citi-

senship."

Sensible Effort.

The city of Cleveland has a municipal association whose purpose, processes and achievements might well have instance. This association is open to all good citizens. Any man may join it by paying \$1 a year. It is strictly nonpartisan. The introduction to a municipal election of the national issues which divide parties is a gross absurdily. "We don't talk politics," is the declaration of the association, "but we talk business to elected officials and insist that they perform their duties." The association does not, however, begin with the elected officer; it starts when the nominations for office are made. Its purpose is "to promote the choice of competent public officials, to make careful investigation of the character and ability of men nominated for office, to keep vigilant watch upon conventions, primary and regular elections." ceed in her ambitions.

The following members of the Royal Which Spirits and Tracular elections. The General Mrs. Ansel Smith and Mrs. William Shales at Elgin Wednesday: Mrs. and Mrs. William Shales at Elgin bis in bulletins. The Woman's Mrs. William Shales at Elgin bis in bulletins. The Woman's Cub and Mrs. William Shales and Miss Margaret Lamey. An enjoyable day was spent.

The Woman's Cub and the Thursday Club begin their respective meetings next Thursday. The Woman's Cub opens with an evening reception to members and their husbands at Dr. and the propose bade enactments, to stand for the rights of the people when corporated the propose bade enactments, to stand for the rights of the people when corporated the propose bade enactments to stand for the rights of the people when corporated the propose bade enactments to stand for the rights of the people when corporated the propose bade enactments to stand for the rights of the public and to oppose injustice, opens with an evening reception to members and their husbands at Dr.

The Press Muzzle In Germany. In Saxony it is a crime to criticise the ancestors of a reigning monarch, according to a recent court decision. That shuta out historical research and criticism and moves the press of Germany to wonder what the end will be. Says the Berlin Monday World:

Press freedom with the end. In Saxony it is a crime t

believes that the conquest of this terri-ble scourge of humanity is only a ques-tion of time, and a very short time at

Dr. Beard bases his theory of the enuse of cancer upon certain facts of embryology, in which science he is a master, Using mice in his experiments, master, Using mice in his experiments, be found that cencer could be generated by innoculation. His conclusions in brief are that cancer is not genuinal in nature and may be destroyed without danger to the individual. He destroys the concerns call by a power-ful agent, used either internally, over-ful agent, used either internally, according to the location of the cancer, which may be in any part or organ of the human body, abid this agent, called trypsin, exterts no action whatever upon the cells proper. It is hoped that the "trypsin" treatment offers to victims of cancer a chance of escape from a most distressing as well as inextended fate.

The disputants over a nickel car fare on the Coney Island electric lines made a truce by leaving it to "be thrashed out in court," a much better place than thrashing it out on the cars, to the annoyance of passengers who didn't care a nickel either way.

By Rait to Hudson Bay.

Actual work seems to have started on the extension from the Prince Albert branch of the Canadiam Northern to Fort Churchill, on the west shore of Hudson bay. A report from Winniper states that the contract for grading from the main line to Pas Mission has been let and that this portion of the Hiddon bay line must be finished during the present year. Pas Mission has stone let and that this portion of the Hiddon bay line must be finished during the present year. Pas Mission has stunted on the banks of the Sashar chiewan river, some ninet-five miles northeast of Erwood. Canadian Northern surveyors report that railway construction to Fort Churchill will be comparatively simple. Erwood is in the province of Saskatchewan, a little way weight the Mission, in the district of Kewaction, the Mission, in the district of Kewaction, and it is expected that the extession from Pas Mission to Fort Churchill will be completed in time for the wheat crop of 1968 to be taken out through the Hudson bay strail.

Some people, after conferring with prospectors and surveyors from the north, believe that the region in the vicinity of Hudson bay is destined to become more famous for its mineral wealth than either the Yukon or British Columbia or the new El Dorado at Cobalt.

Recently extensive authracitle beds have been found on the neighborhood of Albany river, a stream which form the dividing line between of marto and Keewartin. The full significance of these of the variety of Hudson bay is destined to become more famous for its mineral wealth than either the Yukon or British Columbia or the new El Dorado at Cobalt.

Recently extensive authracitle beds have been found on the neighborhood of Albany river, a stream which form the northern pair of Obtation with the variety of the contraction of the visit of the order of the owner of the way we great the park and the proper of the office of the owner of the owner of the owner of the variety of the owner of the owne

lely the grass into better life. No de-cent person wants to defice the flowers and shrubbery, but if anybody should happen to wish to pick a wild flower or a bush flower he or she should be free to do it. I have no objection to the existence of park policemen, but I have strong objections to the way they are permitted to behave. Any one of them who conducts himself, by speech or act, otherwise than with courtery should be dismissed at once. Their function should be restricted to reand detailety, but if anybody about happen to wish to pick a wild flower from the base in the customer of a bush flower has a bush flower from a bush flower flower

imperial Germany,

JULIAN HAWTHORNE.

The British foreign office has recently issued a report from its consul on the trade of Korea in 1905. The report furnishes plenty of evidence of the all pervading influence of Japan in Korea. but for the moment it is not to be found in any large expansion of com-merce. The total trade is returned at nearly \$20,000,000 as compared with \$17,000,000 in 1904. But the consulstates that the former figures are destates that the former figures are de-lusive and that actual business was very unfavorable in 1905 and promises to be still whree in 1906. The reaction after the Russo-Japanese war accounts for much of the duliness, and to this has been added the inadequate charac-ter of transportation service and a cur-rency system in a state of chaos.

It is reported that there may be no more gatherings of the Grand Army in annual national reunion because of the growing decrepitude and infirmities of the boys in blue. Let's hope that they get together once a year as long as they live, even if they aren't able to
